Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 306 and 307(b) and (c) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, 401 M Street, S.W., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA Information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before June 23, 1975, will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Date: May 2, 1975.

JOHN QUARLES,  
Acting Administrator.

# **PART 415—INORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY**

## **Subpart W—Aluminum Fluoride Production Subcategory**

- Sec. 415.233 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.234 Pretreatment standards for existing sources.
- 415.235 Standards of performance for new sources.
- 415.236 Pretreatment standards for new sources.

## **Subpart X—Ammonium Chloride Production Subcategory**

- 415.243 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.244 Pretreatment standards for existing sources.
- 415.245 Standards of performance for new sources.
- 415.246 Pretreatment standards for new sources.

## **Subpart Y—Ammonium Hydroxide Production Subcategory**

415.253-415.256 [Reserved]

## **Subpart Z—Barium Carbonate Production Subcategory**

415.263-415.266 [Reserved]

## **Subpart AA—Borax Production Subcategory**

- 415.273 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.274 Pretreatment standards for existing sources.
- 415.275 Standards of performance for new sources.
- 415.276 Pretreatment standards for new sources.

## PROPOSED RULES

22427

## **Subpart AB—Boric Acid Production Subcategory**

- Sec. 415.283 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.284 Pretreatment standards for existing sources.
- 415.285 Standards of performance for new sources.
- 415.286 Pretreatment standards for new sources.

## **Subpart AC—Bromine Production Subcategory**

- 415.293 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.294 Pretreatment standards for existing sources.
- 415.295 Standards of performance for new sources.
- 415.296 Pretreatment standards for new sources.

## **Subpart AD—Calcium Carbonate Production Subcategory**

- 415.303 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.304 Pretreatment standards for existing sources.
- 415.305 Standards of performance for new sources.
- 415.306 Pretreatment standards for new sources.

## **Subpart AE—Calcium Hydroxide Production Subcategory**

- 415.313 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.314 Pretreatment standards for existing sources.
- 415.315 Standards of performance for new sources.
- 415.316 Pretreatment standards for new sources.

## **Subpart AF—Carbon Dioxide Production Subcategory**

415.323-415.326 [Reserved]

## **Subpart AG—Carbon Monoxide & By-Product Hydrogen Production Subcategory**

- 415.333 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.334 Pretreatment standards for existing sources.
- 415.335 Standards of performance for new sources.
- 415.336 Pretreatment standards for new sources.

## **Subpart AH—Chrome Pigments Production Subcategory**

- 415.343 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.344 Pretreatment standards for existing sources.
- 415.345 Standards of performance for new sources.
- 415.346 Pretreatment standards for new sources.

## **Subpart AI—Chromic Acid Production Subcategory**

- Sec. 415.353 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.354 Pretreatment standards for existing sources.
- 415.355 Standards of performance for new sources.
- 415.356 Pretreatment standards for new sources.

## **Subpart AJ—Copper Sulfate Production Subcategory**

- 415.363 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.364 Pretreatment standards for existing sources.
- 415.365 Standards of performance for new sources.
- 415.366 Pretreatment standards for new sources.

## **Subpart AK—Cuprous Oxide Production Subcategory**

415.373-415.376 [Reserved]

## **Subpart AL—Ferric Chloride Production Subcategory**

- 415.383 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.384 Pretreatment standards for existing sources.
- 415.385 Standards of performance for new sources.
- 415.386 Pretreatment standards for new sources.

## **Subpart AM—Ferrous Sulfate Production Subcategory**

415.393-415.396 [Reserved]

## **Subpart AN—Fluorine Production Subcategory**

- 415.403 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.404 Pretreatment standards for existing sources.
- 415.405 Standards of performance for new sources.
- 415.406 Pretreatment standards for new sources.

## **Subpart AO—Hydrogen Production Subcategory**

- 415.413 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.414 Pretreatment standards for existing sources.
- 415.415 Standards of performance for new sources.
- 415.416 Pretreatment standards for new sources.

## **Subpart AP—Hydrogen Cyanide Production Subcategory**

- 415.423 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.424 Pretreatment standards for existing sources.
- 415.425 Standards of performance for new sources.
- 415.426 Pretreatment standards for new sources.

## **Subpart AQ—Iodine Production Subcategory**

- Sec. 415.433 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.434 Pretreatment standards for existing sources.
- 415.435 Standards of performance for new sources.
- 415.436 Pretreatment standards for new sources.

## **Subpart AR—Lead Monoxide Production Subcategory**

- 415.443 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.444 Pretreatment standards for existing sources.
- 415.445 Standards of performance for new sources.
- 415.446 Pretreatment standards for new sources.

## **Subpart AS—Lithium Carbonate Production Subcategory**

- 415.453 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.454 Pretreatment standards for existing sources.
- 415.455 Standards of performance for new sources.
- 415.456 Pretreatment standards for new sources.

## **Subpart AT—Manganese Sulfate Production Subcategory**

415.463-415.466 [Reserved]

## **Subpart AU—Nickel Sulfate Production Subcategory**

- 415.473 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.474 Pretreatment standards for existing sources.
- 415.475 Standards of performance for new sources.
- 415.476 Pretreatment standards for new sources.

## **Subpart AV—Strong Nitric Acid Production Subcategory**

415.483-415.486 [Reserved]

## **Subpart AW—Oxygen and Nitrogen Production Subcategory**

- 415.493 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
- 415.494 Pretreatment standards for existing sources.
- 415.495 Standards of performance for new sources.
- 415.496 Pretreatment standards for new sources.

## **Subpart AX—Potassium Chloride Production Subcategory**

- 415.503 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

## PROPOSED RULES

Sec. 415.504	Pretreatment standards for existing sources.	Sec. 415.604	Pretreatment standards for existing sources.
415.505	Standards of performance for new sources.	415.605	Standards of performance for new sources.
415.506	Pretreatment standards for new sources.	415.606	Pretreatment standards for new sources.
<b>Subpart AY—Potassium Iodide Production Subcategory</b>		<b>Subpart BI—Sulfur Dioxide Production Subcategory</b>	
415.513	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.	415.613-415.616	[Reserved]
415.514	Pretreatment standards for existing sources.	<b>Subpart BJ—Zinc Oxide Production Subcategory</b>	
415.515	Standards of performance for new sources.	415.623-415.626	[Reserved]

charge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Aluminum.....	0.034	0.017
Fluoride.....	0.068	0.034
TSS.....	No limitation	0.034
pH.....	do.	do.
(English units) lb/1,000 lb of product		
Aluminum.....	0.34	0.17
Fluoride.....	0.68	0.34
TSS.....	No limitation	0.34
pH.....	do.	do.

Aluminum.....	0.34	0.17
Fluoride.....	0.68	0.34
TSS.....	No limitation	0.34
pH.....	do.	do.

## § 415.235 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Fluoride.....	0.068	0.034
TSS.....	0.052	0.034
Aluminum.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	do.
(English units) lb/1,000 lb of product		
Fluoride.....	0.068	0.034
TSS.....	0.052	0.034
Aluminum.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	do.

Fluoride.....	0.068	0.034
TSS.....	0.052	0.034
Aluminum.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	do.

## § 415.236 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the aluminum fluoride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that,

for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Aluminum.....	0.034	0.017
Fluoride.....	0.068	0.034
TSS.....	No limitation	0.034
pH.....	do.	do.
(English units) lb/1,000 lb of product		
Aluminum.....	0.34	0.17
Fluoride.....	0.68	0.34
TSS.....	No limitation	0.34
pH.....	do.	do.

## Subpart X—Ammonium Chloride Production Subcategory

## § 415.243 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged in process waste water from ammonium chloride production by the reaction of anhydrous ammonia with hydrogen chloride gas and by the recovery process from Solvay process wastes, by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.244 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the ammonium chloride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this Chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this

## PROPOSED RULES

paragraph, which may be discharged in process waste water from ammonium chloride production by the reaction of anhydrous ammonia with hydrogen chloride gas:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation	0.5
Ammonia (as N).....	1.0	0.5
pH.....	No limitation	do.
(English units) lb/1,000 lb of product		
TSS.....	No limitation	0.5
Ammonia (as N).....	1.0	0.5
pH.....	No limitation	do.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from ammonium chloride production by the recovery process from Solvay process wastes:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation	4.4
Ammonia (as N).....	8.8	4.4
pH.....	No limitation	do.
(English units) lb/1,000 lb of product		
TSS.....	No limitation	4.4
Ammonia (as N).....	8.8	4.4
pH.....	No limitation	do.

## § 415.245 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.246 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the ammonium chloride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment

standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation	0.5
Ammonia (as N).....	1.0	0.5
pH.....	No limitation	do.
(English units) lb/1,000 lb of product		
TSS.....	No limitation	0.5
Ammonia (as N).....	1.0	0.5
pH.....	No limitation	do.

## Subpart Y—Ammonium Hydroxide Production Subcategory

## §§ 415.253-415.256 [Reserved]

## Subpart Z—Barium Carbonate Production Subcategory

## §§ 415.263-415.266 [Reserved]

## Subpart AA—Borax Production Subcategory

## § 415.273 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

## § 415.274 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the borax production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart, except that residual brine

and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Boron (as B).....	1 mg/l.
Arsenic (as As).....	Do.

#### § 415.275 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn.

#### § 415.276 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the borax production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Boron (as B).....	1 mg/l.
Arsenic (as As).....	Do.

#### Subpart AB—Boric Acid Production Subcategory

#### § 415.283 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this

paragraph, which may be discharged in process waste water from boric acid production from borax produced by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from ore-mined borax:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Arsenic.....	0.0028	0.0014
TSS.....	0.056	0.028
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Arsenic.....	0.0028	0.0014
TSS.....	0.056	0.028
pH.....	Within the range 6.0 to 9.0.	

#### § 415.284 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the boric acid production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from borax produced by the Trona process, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
Arsenic (as As).....	0.5 mg/L.
Boron (as B).....	1 mg/l.
pH.....	No limitation.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from ore-mined borax:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	No limitation	
pH.....	Do.	
(English units) lb/1,000 lb of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	No limitation	
pH.....	Do.	

#### § 415.285 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged in process waste water from boric acid production from borax produced by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from ore-mined borax:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	0.056	0.028
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	0.056	0.028
pH.....	Within the range 6.0 to 9.0.	

#### § 415.286 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the boric acid production sub-

category which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from borax produced by the Trona process, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
Arsenic (as As).....	0.5 mg/L.
Boron (as B).....	1 mg/l.
pH.....	No limitation.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from ore-mined borax:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	No limitation	
pH.....	Do.	
(English units) lb/1,000 lb of product		
Arsenic (as As).....	0.0028	0.0014
TSS.....	No limitation	
pH.....	Do.	

#### Subpart AC—Bromine Production Subcategory

#### § 415.293 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to nav-

igable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

#### § 415.294 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the bromine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Free Bromine (molecular).....	0.1 mg/l.

#### § 415.295 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn.

#### § 415.296 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the bromine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this

subpart, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Free Bromine (molecular).....	0.1 mg/l.

#### Subpart AD—Calcium Carbonate Production Subcategory

#### § 415.303 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the milk of lime process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.22	0.11
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.22	0.11
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the recovery process from Solvay process wastes:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.46	0.23
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.46	0.23
pH.....	Within the range 6.0 to 9.0.	

## PROPOSED RULES

## § 415.304 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the calcium carbonate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

## § 415.305 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the milk of lime process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.22	0.11
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.22	0.11
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the recovery process from Solvay process wastes:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.46	0.23
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.46	0.23
pH.....	Within the range 6.0 to 9.0.	

## § 415.306 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the calcium carbonate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

## Subpart AE—Calcium Hydroxide Production Subcategory

§ 415.313 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.314 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the calcium hydroxide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to

section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

## § 415.315 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.316 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the calcium hydroxide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

## Subpart AF—Carbon Dioxide Production Subcategory

## §§ 415.323–415.326 [Reserved]

## Subpart AG—Carbon Monoxide and By-Product Hydrogen Production Subcategory

§ 415.333 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section,

tion, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
COD.....	0.13	0.065
TSS.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
COD.....	0.13	0.065
TSS.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	

## § 415.334 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the carbon monoxide and by-product hydrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation	
COD.....	0.5	0.25
TSS.....	No limitation	
pH.....	do.	
(English units) lb/1,000 lb of product		
BOD <sub>5</sub> .....	No limitation	
COD.....	0.5	0.25
TSS.....	No limitation	
pH.....	do.	

## § 415.335 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

## PROPOSED RULES

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
COD.....	0.13	0.065
TSS.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
COD.....	0.13	0.065
TSS.....	0.034	0.017
pH.....	Within the range 6.0 to 9.0.	

## § 415.336 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the carbon monoxide and by-product hydrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation	
COD.....	0.25	0.125
TSS.....	No limitation	
pH.....	do.	
(English units) lb/1,000 lb of product		
BOD <sub>5</sub> .....	No limitation	
COD.....	0.25	0.125
TSS.....	No limitation	
pH.....	do.	

## Subpart AH—Chrome Pigments Production Subcategory

§ 415.343 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.99	0.33
Chromium (T).....	0.051	0.017
Chromium (6+).....	0.051	0.017
Lead.....	0.099	0.033
Zinc A.....	0.29	0.067
Cyanide A.....	0.0051	0.0017
Cyanide.....	0.051	0.017
Iron.....	0.29	0.067
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.99	0.33
Chromium (T).....	0.051	0.017
Chromium (6+).....	0.051	0.017
Lead.....	0.099	0.033
Zinc A.....	0.29	0.067
Cyanide A.....	0.0051	0.0017
Cyanide.....	0.051	0.017
Iron.....	0.29	0.067
pH.....	Within the range 6.0 to 9.0.	

## § 415.344 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the chrome pigments production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation	
Chromium (T).....	0.10	0.034
Chromium (6+).....	0.010	0.0034
Lead.....	0.42	0.14
Zinc A.....	0.72	0.27
Cyanide A.....	0.010	0.0034
Cyanide.....	0.10	0.034
Iron.....	0.72	0.27
pH.....	No limitation	
(English units) lb/1,000 lb of product		
TSS.....	No limitation	
Chromium (T).....	0.10	0.034
Chromium (6+).....	0.010	0.0034
Lead.....	0.42	0.14
Zinc A.....	0.72	0.27
Cyanide A.....	0.010	0.0034
Cyanide.....	0.10	0.034
Iron.....	0.72	0.27
pH.....	No limitation	

## PROPOSED RULES

## § 415.345 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	0.99	0.33
Chromium (T)	0.051	0.017
Chromium (6+)	0.0051	0.0017
Lead	0.099	0.033
Zinc A	0.20	0.067
Cyanide A	0.0051	0.0017
Cyanide	0.051	0.017
Iron	0.20	0.067
pH	Within the range 6.0 to 9.0	

(English units) lb/1,000 lb of product		
TSS	0.99	0.33
Chromium (T)	0.051	0.017
Chromium (6+)	0.0051	0.0017
Lead	0.099	0.033
Zinc A	0.20	0.067
Cyanide A	0.0051	0.0017
Cyanide	0.051	0.017
Iron	0.20	0.067
pH	Within the range 6.0 to 9.0	

## § 415.346 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the chrome pigments production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	No limitation	
Chromium (T)	0.051	0.017
Chromium (6+)	0.0051	0.0017
Lead	0.099	0.033
Zinc A	0.20	0.067
Cyanide A	0.0051	0.0017
Cyanide	0.051	0.017
Iron	0.20	0.067
pH	No limitation	

## Subpart AI—Chromic Acid Production Subcategory

§ 415.353 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in 40 CFR § 415.172 (39 FR 9631).

## § 415.354 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the chromic acid production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Total Chromium	0.5 mg/l.

## § 415.355 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in this Part 415

(39 FR 9631), § 415.175 for sodium dichromate.

## § 415.356 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the chromic acid production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Total Chromium	0.5 mg/l.

## Subpart AJ—Copper Sulfate Production Subcategory

§ 415.363 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart which may be discharged in process waste water from copper sulfate production from pure raw materials and by the recovery process after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production using pure raw materials:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0	

(English units) lb/1,000 lb of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production by the recovery process:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	0.014	0.0046
Copper	0.0014	0.00046
Nickel	0.0014	0.00046
Selenium	0.00069	0.00023
pH	Within the range 6.0 to 9.0	

(English units) lb/1,000 lb of product		
TSS	0.014	0.0046
Copper	0.0014	0.00046
Nickel	0.0014	0.00046
Selenium	0.00069	0.00023
pH	Within the range 6.0 to 9.0	

## § 415.364 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the copper sulfate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production using pure raw materials:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	No limitation	
Copper	0.0006	0.0002
pH	No limitation	

## PROPOSED RULES

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production by the recovery process:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	No limitation	0.0002
Copper	0.0006	
pH	No limitation	

(English units) lb/1,000 lb of product		
TSS	No limitation	0.0002
Copper	0.0006	
pH	No limitation	

(Metric units) kg/kg of product		
TSS	No limitation	0.001
Copper	0.0006	0.002
Nickel	0.0006	0.002
Selenium	0.0015	0.0006
pH	No limitation	

## § 415.365 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production using pure raw materials:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0	

(English units) lb/1,000 lb of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production by the recovery process:

Effluent limitations		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	0.014	0.0046
Copper	0.0014	0.00046
Nickel	0.0014	0.00046
Selenium	0.00069	0.00023
pH	Within the range 6.0 to 9.0	

(English units) lb/1,000 lb of product		
TSS	0.014	0.0046
Copper	0.0014	0.00046
Nickel	0.0014	0.00046
Selenium	0.00069	0.00023
pH	Within the range 6.0 to 9.0	

## § 415.366 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the copper sulfate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purposes of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production using pure raw materials:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—

(Metric units) kg/kg of product		
TSS	No limitation	
Copper	0.0006	0.0002
pH	No limitation	

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(English units) lb/1,000 lb of product		
TSS	No limitation	0.0002
Copper	0.0006	0.0006
pH	No limitation	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production by the recovery process:

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS	No limitation	0.0006
Copper	0.0014	0.0006
Nickel	0.0014	0.0006
Selenium	0.0009	0.00023
pH	No limitation	

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(English units) lb/1,000 lb of product		
TSS	No limitation	0.0006
Copper	0.0014	0.0006
Nickel	0.0014	0.0006
Selenium	0.0009	0.00023
pH	No limitation	

#### Subpart AK—Cuprous Oxide Production Subcategory

§§ 415.373–415.376 [Reserved]

#### Subpart AL—Ferric Chloride Production Subcategory

§ 415.383 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 415.384 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the ferric chloride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of

this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Iron	4 mg/l.

§ 415.385 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 415.386 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the ferric chloride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Iron	4 mg/l.

#### Subpart AM—Ferrous Sulfate Production Subcategory

§§ 415.393–415.396 [Reserved]

#### Subpart AN—Fluorine Production Subcategory

§ 415.403 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged in the process waste water from fluorine production by the liquid hydrofluoric acid electrolysis process by a point source subject to the provisions of this subpart after

application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

§ 415.404 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the fluorine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Fluoride	20 mg/l.

§ 415.405 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

§ 415.406 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the fluorine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this chapter (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in Part 128 of this chapter, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS	No limitation
pH	Do.
Fluoride	20 mg/l.

#### Subpart AO—Hydrogen Production Subcategory

§ 415.413 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in Part 419 of this chapter (39 FR 16560).

§ 415.414 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the hydrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in Part 128 of this Chapter (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in Part 128 of this Chapter, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this Chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
BOD <sub>5</sub>	No limitation
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

§ 415.415 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in this Chapter (39 FR 16560), Part 419 for petroleum refining.

§ 415.416 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the hydrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this Chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

122, 128.132 and 128.133 in this Chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
BOD <sub>5</sub>	No limitation
TSS	Do.
pH	Do.
Oil and grease	100 mg/l.

#### Subpart AP—Hydrogen Cyanide Production Subcategory

§ 415.423 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production as a by-product of acrylonitrile manufacture: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in this chapter, Part 414, Subcategory F, paragraph § 414.63 for acrylonitrile.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production by the Andrusow process:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS	0.000	0.045
Cyanide	0.0046	0.023
Cyanide A	0.00046	0.0023
BOD <sub>5</sub>	0.19	0.096
Ammonia (as N)	0.032	0.016
pH	Within the range 6.0 to 9.0	

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(English units) lb/1,000 lb of product		
TSS	0.000	0.045
Cyanide	0.0046	0.023
Cyanide A	0.00046	0.0023
BOD <sub>5</sub>	0.19	0.096
Ammonia (as N)	0.032	0.016
pH	Within the range 6.0 to 9.0	

§ 415.424 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within

the hydrogen cyanide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production as a by-product of acrylonitrile production:

Pollutant or pollutant property:	Pretreatment standard
BOD <sub>5</sub>	No limitation
TSS	Do.
pH	Do.
Cyanide	0.5 mg/l.
Cyanide A	0.05 mg/l.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production by the Andrusow process:

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS	No limitation	0.025
Cyanide	0.05	0.025
Cyanide A	0.005	0.0025
BOD <sub>5</sub>	No limitation	0.18
Ammonia (as N)	0.36	0.18
pH	No limitation	

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(English units) lb/1,000 lb of product		
TSS	No limitation	0.025
Cyanide	0.05	0.025
Cyanide A	0.005	0.0025
BOD <sub>5</sub>	No limitation	0.18
Ammonia (as N)	0.36	0.18
pH	No limitation	

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(English units) lb/1,000 lb of product		
TSS	No limitation	0.025
Cyanide	0.05	0.025
Cyanide A	0.005	0.0025
BOD <sub>5</sub>	No limitation	0.18
Ammonia (as N)	0.36	0.18
pH	No limitation	

§ 415.425 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production as a by-product of acrylonitrile manufacture:

## PROPOSED RULES

There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in 40 CFR Part 414, Subcategory F, § 414.65 of this chapter for acrylonitrile.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production by the Andrusow process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.040	0.045
Cyanide.....	0.0046	0.0023
Cyanide A.....	0.0046	0.0023
BOD <sub>5</sub> .....	0.19	0.095
Ammonia (as N).....	0.032	0.016
pH.....	Within the range 6.0 to 9.0	
(English units) lb/1,000 lb of product		
TSS.....	0.040	0.045
Cyanide.....	0.0046	0.0023
Cyanide A.....	0.0046	0.0023
BOD <sub>5</sub> .....	0.19	0.095
Ammonia (as N).....	0.032	0.016
pH.....	Within the range 6.0 to 9.0	

#### § 415.426 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the hydrogen cyanide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production as a by-product of acrylonitrile manufacture:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Cyanide.....	0.5 mg/l.
Cyanide A.....	0.05 mg/l.
Ammonia (as N).....	30 mg/l.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production by the Andrusow process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation.	
Cyanide.....	0.0046	0.0023

Cyanide A.....	0.0046	0.0023
BOD <sub>5</sub> .....	No limitation.	
Ammonia (as N).....	0.032	0.016
pH.....	No limitation.	

#### Subpart AQ—Iodine Production Subcategory

§ 415.433 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

#### § 415.434 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the iodine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

#### § 415.435 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

#### § 415.436 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the iodine production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this Chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

#### Subpart AR—Lead Monoxide Production Subcategory

§ 415.443 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

#### § 415.444 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the lead monoxide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

trolled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation.	
Lead.....	0.030	0.015
pH.....	No limitation.	
(English units) lb/1,000 lb of product		
TSS.....	No limitation.	
Lead.....	0.030	0.015
pH.....	No limitation.	

#### § 415.445 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

#### § 415.446 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the lead monoxide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart.

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation.	
Lead.....	0.030	0.015
pH.....	No limitation.	
(English units) lb/1,000 lb of product		
TSS.....	No limitation.	
Lead.....	0.030	0.015
pH.....	No limitation.	

## PROPOSED RULES

#### Subpart AS—Lithium Carbonate Production Subcategory

§ 415.453 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production from spodumene ore:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	1.1	0.36
pH.....	Within the range 6.0 to 9.0	
(English units) lb/1,000 lb of product		
TSS.....	1.1	0.36
pH.....	Within the range 6.0 to 9.0	

#### § 415.454 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the lithium carbonate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production by the Trona process, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production from spodumene ore:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

#### § 415.455 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production from spodumene ore:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	1.1	0.36
pH.....	Within the range 6.0 to 9.0	
(English units) lb/1,000 lb of product		
TSS.....	1.1	0.36
pH.....	Within the range 6.0 to 9.0	

#### § 415.456 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the lithium carbonate production subcategory which is a user of a publicly

## PROPOSED RULES

owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production by the Trona process, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production from spodumene ore:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

#### Subpart AT—Manganese Sulfate Production Subcategory

§§ 415.463–415.466 [Reserved]

#### Subpart AU—Nickel Sulfate Production Subcategory

§ 415.473 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged in process waste water from nickel sulfate production from pure and impure raw materials by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from pure raw materials: There shall be no discharge of process waste water pollutants to navigable waters.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from impure raw materials:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Nickel.....	0.006.....	0.002
TSS.....	0.006.....	0.012
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Nickel.....	0.006.....	0.002
TSS.....	0.006.....	0.012
pH.....	Within the range 6.0 to 9.0.	

#### § 415.474 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the nickel sulfate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standards establish the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from pure raw materials:

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from impure raw materials:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Nickel.....	0.006.....	0.002
TSS.....	No limitation.	
pH.....	Do.	
(English units) lb/1,000 lb of product		
Nickel.....	0.006.....	0.002
TSS.....	No limitation.	
pH.....	Do.	

#### § 415.475 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from pure raw materials: There shall be no discharge of process waste water pollutants to navigable waters.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from impure raw materials:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Nickel.....	0.006.....	0.002
TSS.....	0.006.....	0.012
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Nickel.....	0.006.....	0.002
TSS.....	0.006.....	0.012
pH.....	Within the range 6.0 to 9.0.	

#### § 415.476 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the nickel sulfate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from pure raw materials:

Pollutant or pollutant property:	Pretreatment standard
Nickel.....	2 mg/l.
TSS.....	No limitation.
pH.....	Do.

## PROPOSED RULES

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph which may be discharged in process waste water from nickel sulfate production from impure raw materials:

Pretreatment standard		
Pollutant or pollutant property	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Nickel.....	0.006.....	0.002
TSS.....	No limitation.	
pH.....	Do.	
(English units) lb/1,000 lb of product		
Nickel.....	0.006.....	0.002
TSS.....	No limitation.	
pH.....	Do.	

#### Subpart AV—Strong Nitric Acid Production Subcategory

§§ 415.483–415.486 [Reserved]

#### Subpart AW—Oxygen and Nitrogen Production Subcategory

§ 415.493 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	

#### § 415.494 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the oxygen and nitrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall

be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
BOD5.....	No limitation.
TSS.....	Do.
pH.....	Do.
Oil and grease.....	100 mg/l.

#### § 415.495 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	

#### § 415.496 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the oxygen and nitrogen production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
BOD5.....	No limitation.
TSS.....	Do.
pH.....	Do.
Oil and grease.....	100 mg/l.

#### Subpart AX—Potassium Chloride Production Subcategory

§ 415.503 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

#### § 415.504 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the potassium chloride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.

#### § 415.505 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn.

#### § 415.506 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the potassium chloride production subcategory which is a user of a publicly owned treatment works and a major con-

## PROPOSED RULES

tributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart, except that residual brine and depleted liquor may be returned to the body of water from which the process brine was originally withdrawn:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation
pH.....	Do.

## Subpart AY—Potassium Iodide Production Subcategory

§ 415.513 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.042.....	0.014
Barium.....	0.009.....	0.023
Iron.....	0.011.....	0.036
Sulfide.....	0.011.....	0.036
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.042.....	0.014
Barium.....	0.009.....	0.023
Iron.....	0.011.....	0.036
Sulfide.....	0.011.....	0.036
pH.....	Within the range 6.0 to 9.0.	

## § 415.514 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the potassium iodide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section,

§§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation.....	
Sulfide.....	0.015.....	0.036
Iron.....	0.015.....	0.036
Barium.....	0.009.....	0.023
pH.....	No limitation.....	
(English units) lb/1,000 lb of product		
TSS.....	No limitation.....	
Sulfide.....	0.015.....	0.036
Iron.....	0.015.....	0.036
Barium.....	0.009.....	0.023
pH.....	No limitation.....	

## § 415.515 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.042.....	0.014
Sulfide.....	0.009.....	0.036
Iron.....	0.011.....	0.036
Barium.....	0.011.....	0.023
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.042.....	0.014
Sulfide.....	0.009.....	0.036
Iron.....	0.011.....	0.036
Barium.....	0.011.....	0.023
pH.....	Within the range 6.0 to 9.0.	

## § 415.516 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the potassium iodide production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment stand-

ard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	No limitation.....	
Sulfide.....	0.009.....	0.036
Iron.....	0.009.....	0.036
Barium.....	0.011.....	0.023
pH.....	No limitation.....	
(English units) lb/1,000 lb of product		
TSS.....	No limitation.....	
Sulfide.....	0.009.....	0.036
Iron.....	0.009.....	0.036
Barium.....	0.011.....	0.023
pH.....	No limitation.....	

## Subpart AZ—Potassium Permanganate Production Subcategory

§§ 415.523–415.526 [Reserved]

## Subpart BA—Silver Nitrate Production Subcategory

§ 415.533 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Silver.....	0.0045.....	0.0015
TSS.....	0.009.....	0.023
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Silver.....	0.0045.....	0.0015
TSS.....	0.009.....	0.023
pH.....	Within the range 6.0 to 9.0.	

## § 415.534 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the silver nitrate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to

## PROPOSED RULES

22443

the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Silver.....	0.009.....	0.003
TSS.....	No limitation.....	
pH.....	do.....	
(English units) lb/1,000 lb of product		
Silver.....	0.009.....	0.003
TSS.....	No limitation.....	
pH.....	do.....	

## § 415.535 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Silver.....	0.0045.....	0.0015
TSS.....	0.009.....	0.023
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Silver.....	0.0045.....	0.0015
TSS.....	0.009.....	0.023
pH.....	Within the range 6.0 to 9.0.	

## § 415.536 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the silver nitrate production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the

navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property	Pretreatment standard	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Silver.....	0.0045.....	0.0015
TSS.....	No limitation.....	
pH.....	do.....	
(English units) lb/1,000 lb of product		
Silver.....	0.0045.....	0.0015
TSS.....	No limitation.....	
pH.....	do.....	

## Subpart BB—Sodium Bisulfite Production Subcategory

§§ 415.543–415.546 [Reserved]

## Subpart BC—Sodium Fluoride Production Subcategory

§ 415.553 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.554 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the sodium fluoride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged

to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Fluoride.....	20 mg/l.

## § 415.555 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: There shall be no discharge of process waste water pollutants to navigable waters.

## § 415.556 Pretreatment standard for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the sodium fluoride production subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, §§ 128.121, 128.122, 128.132 and 128.133 of this chapter shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	Pretreatment standard
TSS.....	No limitation.
pH.....	Do.
Fluoride.....	20 mg/l.

## Subpart BD—Sodium Hydrosulfide Production Subcategory

§§ 415.563–415.566 [Reserved]

## Subpart BE—Sodium Hydrosulfite Production Subcategory

§§ 415.573–415.576 [Reserved]

## Subpart BF—Sodium Silicofluoride Production Subcategory

§ 415.583 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Title 24—Department of Housing and Urban Development

SUBTITLE A—OFFICE OF THE SECRETARY

[Docket No. B75-318]

PART 82—REAL ESTATE SETTLEMENT PROCEDURES

On February 18, 1975, 40 FR 7072, the Department published a notice of proposed rulemaking which would amend Subtitle A by adding a new Part 82. This part implements sections 4, 5 and 6 of the Real Estate Settlement Procedures Act of 1974, 12 U.S.C. 2601, which provide for a settlement cost statement form, a special information booklet to be distributed at time of loan application, and an itemized disclosure of each charge arising in connection with each settlement that involves a federally related mortgage loan transaction. A general notice prescribing the text of the special information booklet is being published concurrently with the regulations. The final versions of the uniform disclosure settlement statement, and the Truth in Lending statement which is a part of it, are included as Appendices A and B of the regulations. The uniform disclosure settlement statement is required by section 4 of the Act to include the information and data required for relevant transactions under the Federal Truth in Lending Act and the regulations issued thereunder by the Federal Reserve Board. On March 24, 1975, (40 FR 13008) the Board published a proposed standard Truth in Lending Statement to satisfy the requirements of the Act. The Board's final revision of the form and instructions are included in these regulations as Appendix B. As a result of the invitation for public comment contained in the notice for rulemaking, more than 500 responses have been received. The Department has considered each comment carefully and as a result has adopted certain changes in both the regulations and the accompanying form, as they were proposed. The principal changes are as follows:

GENERAL COMMENTS

A number of comments objected to the overall concept of the Act, arguing that the conduct of real estate transactions was essentially a local matter, that uniformity in forms was impractical, that advance disclosure would not be of assistance to consumers, and that the procedures required by the Act would add to paperwork and costs of lenders and providers of settlement services.

COVERAGE

Numerous comments requested that the scope of coverage be defined. The final regulations provide that they apply to cases involving a purchase or transfer of property. Refinancings, junior mortgages, consumer borrowings, and other cases in which there is no transfer of title to the real estate are not covered. Transfers in which an existing loan is assumed or taken subject to are covered only if the loan terms are modified or

the lender imposes charges exceeding \$50.

The geographical coverage of the proposed regulation was unclear, as several comments pointed out. The final regulations apply to all territories and possessions of the United States in addition to the continental United States and Puerto Rico.

Several comments requested that exclusions be made for agriculture property and for builders or developers. In response to these comments, the final regulations do not apply to real estate purchased for the purpose of resale to a customer in the ordinary course of business. The final regulations apply to mortgages covering agricultural properties. Although numerous comments requested that the regulations not apply to corporations, partnerships, and other business entities, such an exclusion was not made and does not appear to be permissible.

Several comments asked that sales of vacant land be exempted from the regulations. The final regulations exempt such land unless the proceeds of the loan involved in the transaction are to be used, in whole or in part, to finance the construction of a dwelling. Several comments requested clarification of the coverage of mobile homes. The final regulations cover mobile homes and mobile home lots only if both the mobile home and the lot on which it is to be located are being purchased with the proceeds of the loan in question.

It was suggested that the effective date of the regulations be extended beyond June 20, 1975, in order to permit more time for the persons who must implement the Act to study it, prepare forms, and train their personnel. Section 19 of the Act does not give the Department discretion in this regard.

In response to numerous requests, the final regulations provide that lenders may, without special approval, place their own covers on the special information booklets which must be given to loan applicants. Other limited changes are permitted, as set forth in the final regulations or as approved by the Secretary.

Lenders may translate the booklet into other languages for the benefit of their customers, with the approval of the Secretary.

ADVANCE DISCLOSURE

The advance disclosure required by the Act must be made at least 12 days prior to settlement unless the 12-day period is waived. Many comments requested that a period shorter than 12 days be made standard, but section 6(a) of the Act does not leave this matter to the Department's discretion.

In general, advance disclosure must be given not later than 7 days after the date of the loan commitment. In cases in which a loan commitment is made more than 60 days before the anticipated date of settlement, the disclosure may be given later than the loan commitment, but not less than 60 days prior to settlement.

Many comments asked for a clarification of the term "loan commitment". The

final regulations clarify the term, so that general advertising would not be regarded as a loan commitment. On the other hand, suggestions that the term be confined to written commitments were not adopted, since under such a rule, lenders might in some cases forego giving written commitments.

Numerous commentators believed that the lender or its employees were required to prepare and transmit the advance disclosure. The final regulations have been clarified to permit the lender either to do such work itself or to cause it to be done by some other party, such as a title, settlement, or escrow company or a lawyer. However, under the Act (section 6(b)) the lender remains responsible.

Some comments raised questions concerning the degree of efforts which the lender or other person preparing the advance disclosure must exert to determine the charges to be made for various services. If no provider of a particular service has been selected for the transaction at the time of disclosure, the lender may make an estimate based on its knowledge of general practices in the area. If a provider has been selected, that provider should be contacted and asked what his fee will be, unless the lender already knows the provider's schedule of fees and reasonably expects that schedule to be followed in the present case.

Advance disclosure of prorations of taxes and assessments may be based on estimates if exact figures are not available. Such advance disclosure may be based on the assumption that no taxes or assessments are delinquent.

A number of comments asked if the advance disclosure must be reissued if more information about settlement charges become available to the lender after the initial disclosure but prior to settlement. Under the final regulations, reissuance of the advance disclosure is not required.

Some comments pointed out that the retention-of-records requirements in the proposed regulations were not clear and were not identical to the requirements for Truth in Lending statements. Under the final regulations, copies of the advance disclosure and the settlement statement must be retained by the lender for two years, except where the loan file is transferred, and copies must be submitted to the Department upon request. This requirement will enable the Department to fulfill its statutory duty under section 14 of the Act to study and investigate settlement costs and to report to Congress thereon.

The proposed regulations required the signatures of the borrower and the seller on the advance disclosure statement, and several comments objected to this procedure or requested clarification. In the final regulations all requirements for signature on either the advance disclosure or the settlement statement have been dropped.

Mailing of the advance disclosure is permitted by the final regulations, but in certain cases the applicable time limits are 3 days earlier where advance disclosure is mailed.

WAIVER OF ADVANCE DISCLOSURE

Several comments requested clarification whether a seller or borrower can bind the other by a waiver. The final regulations specify that each party who has not received timely advance disclosure waives this right, so that one party cannot waive for the other.

Numerous comments objected to the shortness of the 18-day period processing rule. The final regulations extend this period to 21 days. The final regulations provide that advance disclosure may be made prior to commitment. This will enable lenders, by making advance disclosure before commitment as to loans requiring speedy settlements, to be able to hold settlement on such loans as soon as the commitment is issued.

Some comments objected to the 3-day advance disclosure requirement in the proposed regulations. The provisions in the final regulations as to waiver take into account the express directions in the Act that, in its prescribing of the waiver regulations and form, the Secretary should take into account the need to protect the borrower's and seller's right to timely disclosure.

In keeping with the Act, the final regulations require that the advance disclosure be received by the parties on or before the time of the loan commitment but not less than 3 days prior to settlement in any waiver situation.

A number of comments pointed out that the execution of the waiver by the lender served no purpose and this requirement was omitted in the final regulations. Similarly, the witness lines are omitted from the waiver form.

SETTLEMENT STATEMENT

Many of the comments indicated a lack of understanding of the relationship between the advance disclosure form and the settlement statement. Although the same basic format is used for both, it is permissible for lenders to print such forms separately and to place titles on them accordingly. The official version published in these final regulations can be used for both purposes by checking the appropriate square near the top of the form. Ordinarily some of the entries on the settlement statement will differ from those on the advance disclosure (because some charges are different than estimated, or because the date of actual settlement is different from the date estimated). The final regulations specify that copies of the settlement statement must be provided to the buyer and seller as soon after settlement as practicable, and in no case later than three days after settlement.

When charges are paid directly by the borrower or seller, rather than paid through the settlement agent, some comments asked whether it would be necessary to show them on the forms. The final regulations provide special rules for hazard insurance charges, attorney's fees and charges for certain other services independently procured by the borrower or seller.

RULES AND REGULATIONS

22449

FORM DESIGN

Many comments requested flexibility in the design of the form. The final regulations allow some degree of flexibility. Additional items describing common local charges may be inserted in blank spaces on the form. The spacing between lines may be increased for computer printing, and the lender or settlement agent may add a firm name or logotype to the title block. Signature lines may be added.

Numerous comments objected to the number of subtotals which the proposed form required. These have been largely eliminated in the final version. The "disbursements" column has also been eliminated, since nearly all comments which discussed it thought that it would confuse consumers.

A large number of comments requested that separate forms be provided for borrower and seller. The form was redesigned so that separate summaries of the borrower's and seller's transactions appear on page 1, but the information on page 2 must be provided to both borrower and seller, as required by the Act. The instructions permit the lender or settlement agent to send a copy of the form to the borrower with the seller's summary left blank, and similarly to send a copy to the seller with the borrower's summary left blank.

A large number of comments objected to inclusion in the advance disclosure of the liens and charges against the seller's land; these comments asserted that such information would not be available until a title search was completed and payoff letters from existing lenders were obtained, and that the amounts could not theretofore be estimated in any meaningful way. The Department believes that this view is correct, and the final instructions to the form permit the portions dealing with these matters to be left blank when the form is used for advance disclosure. This means that in most cases the advance disclosure will not indicate to the seller the amount of cash he can expect to realize from the transaction. However, the portions of the form summarizing the buyer's transaction must be completed when the form is used for advance disclosure, thus indicating to the buyer the amount of cash he will need to complete settlement.

The Department has determined this rule does not have significant impact on the environment and a finding of inapplicability has been prepared pursuant to HUD Handbook 1390.1. A copy of this finding is available during regular business hours for public inspection in the Office of the Rules Docket Clerk, Office of General Counsel, Room 10245, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410.

Accordingly, Subtitle A of Title 24 is amended by adopting a new Part 82—Real Estate Settlement Procedures to read as follows:

PART 82—REAL ESTATE SETTLEMENT PROCEDURES

- |       |   |
|-------|---|
| Sec.  | Authority, scope and purpose.   |

AUTHORITY: Real Estate Settlement Procedures Act of 1974, Pub. L. 93-533 (12 U.S.C. 2601).

REGULATION X

§ 82.1 Authority, scope and purpose.

This part, which may be referred to as Regulation X, comprises the regulations issued by the Secretary of Housing and Urban Development pursuant to the Real Estate Settlement Procedures Act of 1974 (Pub. L. 93-533), 12 U.S.C. 2601, herein "RESPA". This part applies to certain 1 to 4 family mortgages, defined as "Home Mortgages" in this part. RESPA Section 4 (Uniform Settlement Statement) authorizes and directs the Secretary to prescribe a uniform settlement statement to be used in the settlement of Home Mortgages. RESPA Section 5 authorizes and directs the Secretary to prescribe special information booklets to be provided by the Lender to each person borrowing money to finance the purchase of certain residential real estate transactions so that he or she may better understand the nature and costs of real estate settlement services. RESPA Section 6 authorizes and directs the Secretary to prescribe the form and implementing regulations by which every Lender, with respect to a Home Mortgage subject to Section 6, shall disclose in advance of settlement every charge arising in connection with the settlement. RESPA Section 12 prohibits imposition by a lender of a fee for or on account of preparing and submitting the statements required by Sections 4 and 6 or by the Truth in Lending Act, 15 U.S.C. 1601 et seq. RESPA section 18(a) authorizes the Secretary to determine whether state laws with respect to settlement practices are inconsistent with any provision of RESPA. Section 18(b) provides that no provision of RESPA or of the laws of a state shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Secretary.

§ 82.2 Definitions.

For purposes of this part, the following definitions apply, unless the context indicates otherwise.

(a) "Assumption Approval" means the approval by the Lender or his duly authorized agent or representative of an assumption of, or a sale subject to, a Home Mortgage where such approval is

## RULES AND REGULATIONS

conditioned or based upon a change in the interest rate or other terms and conditions of the promissory note or document creating the mortgage lien, or is made in consideration of the payment of a fee in excess of fifty dollars (\$50) paid to the Lender or his agent, representative or servicer.

(b) "Date of Settlement" means, in the case of a sale or transfer financed by a new mortgage, the date on which the documents creating the mortgage become effective as between the borrower and the Lender, and in the case of a purchase of a property subject to an existing mortgage, whether or not the buyer assumes personal liability, the date on which title is transferred as between seller and buyer not subject to revocation by seller or buyer.

(c) "Days" are computed as follows: All time periods in this part are expressed in days. Periods do not include the day from which they are measured. Where the last day on which an act or event is permitted to occur is a Saturday, Sunday or Federal or State holiday, such act or event may occur on the next succeeding day which is not a Saturday, Sunday or Federal or State holiday. Where a period is 7 days or more, it is measured in calendar days. Where a period is less than 7 days and not specified as calendar days, it is measured in business days, excluding Saturdays, Sundays and Federal or State holidays.

(d) "Federal Lender" means: (1) A lending institution, the deposits or accounts of which are insured by the Federal Savings and Loan Insurance Corporation (FSLIC), the Federal Deposit Insurance Corporation (FDIC) or any other agency of the Federal Government, or (2) a lending institution which is regulated by the Federal Home Loan Bank Board or any other agency of the Federal Government, or (3) a "creditor," as defined in section 103(f) of the Consumer Credit Protection Act (15 U.S.C. 1602 (f)), who makes or made new investments in residential real estate loans aggregating more than \$1,000,000 in either the calendar year in which the Date of Settlement of the Home Mortgage in question occurs or the calendar year prior thereto. Section 103(f) defines "creditor" as follows:

(f) The term "creditor" refers only to creditors who regularly extend, or arrange for the extension of, credit for which the payment of a finance charge is required, whether in connection with loans, sales of property or services, or otherwise. The provisions of this title apply to any such creditor, irrespective of his or its status as a natural person or any type of organization.

(e) "Home Mortgage" means a loan which is not made to finance an exempt transaction under section 82.4(b) and which meets all of the following four requirements:

(1) The proceeds of the loan are used in whole or in part to finance the purchase by the borrower, or other transfer of title, of the mortgaged property or the loan was previously made and the lender makes an assumption approval in con-

nection with the purchase of or transfer of title to the mortgaged property;

(2) The loan is secured by a lien on or other security interest in real estate, including a fee simple, life estate, remainder interest, or leasehold estate, upon which there is located a structure, including a mobile home owned or to be owned by the borrower and covered or to be covered by the mortgage, designed principally for the occupancy of from 1 to 4 families or upon which such a structure is to be constructed, or purchased in the case of a mobile home, using part or all of the proceeds of the loan, or the loan is secured by a lien or other security interest covering a 1 to 4 family residential condominium unit, or the loan is secured by a pledge of cooperative stock or interest corresponding to a 1 to 4 family residential cooperative unit;

(3) The Mortgaged Property is located in a State; and

(4) The loan is made by a Federal Lender, or is made in whole or in part, or insured, guaranteed, supplemented, or assisted in any way, by the Secretary or any other officer or agency of the Federal Government, or is made in connection with a housing or urban development program administered by the Secretary or other agency of the Federal Government, or is eligible for purchase by the Federal National Mortgage Association (FNMA), the Government National Mortgage Association (GNMA), or the Federal Home Loan Mortgage Corporation (FHLMC). Note that GNMA's authority to purchase mortgages includes broad authority under 12 U.S.C. 1720(a) "to purchase such types, classes, or categories of home mortgages" as the President shall determine to carry out the purposes of 12 U.S.C. 301(b).

(f) "Lender" means, in the case of a new loan, the secured creditor or creditors named as such in the debt obligation and document creating the lien or other security interest, and in the case of an Assumption Approval with respect to a preexisting loan, the current owner or owners of the Home Mortgage at the time of the Assumption Approval.

(g) "Loan Application" means an oral or written application for a Home Mortgage or Assumption Approval received by the Lender or his agent or representative or independent contractor originating the Home Mortgage in the name of the Lender or servicing the Home Mortgage for the Lender. The date of Loan Application is the date of actual receipt.

(h) "Loan Commitment" means a promise by a Lender to a borrower, oral or written, to make a Home Mortgage or Assumption Approval, with respect to a specified property, whether or not such promise is subject to any conditions and whether or not the borrower is obligated to accept such Home Mortgage or Assumption Approval.

(i) "Mortgaged Property" means the real property covered by the Home Mortgage, or the cooperative unit with respect to which stock is pledged to secure the Home Mortgage loan.

(j) "Person" means any individual, corporation, partnership, trust, association or other entity.

(k) "RESPA". The Real Estate Settlement Procedures Act of 1974 (Pub. L. 93-533), 12 U.S.C. 2601, as amended.

(l) "Secretary." The Secretary of Housing and Urban Development or any official delegated the authority of the Secretary with respect to RESPA.

(m) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

### § 82.3 Reliance upon rule, regulation or interpretation by HUD of RESPA.

(a) Section 18(b) of RESPA provides:

No provision of this Act or of the laws of any State imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule, regulation, or interpretation thereof by the Secretary, notwithstanding that after such act or omission has occurred, such rule, regulation, or interpretation is amended, rescinded, or determined by judicial or other authority to be invalid for any reason.

(b) For purposes of section 18(b), only the following constitute a "rule, regulation, or interpretation thereof by the Secretary":

(1) The Uniform Disclosure/Settlement Statement, HUD Form 1, and HUD instructions set forth in Appendix A, but not including page 3 of the form and the Federal Reserve Board instructions thereto, set forth in Appendix B;

(2) All other provisions and Appendices contained in this part, but not including any document referred to in this part except to the extent such document is set forth in this part; and

(3) Each formal legal opinion regarding RESPA, designated as a "RESPA Legal Opinion," numbered and dated, by the General Counsel of the Department.

(c) A "rule, regulation, or interpretation thereof by the Secretary" for purposes of RESPA section 18(b) shall not include the Special Information Booklet prescribed by the Secretary or any other statement or issuance, whether oral or written, by an officer or representative of HUD, letter or memorandum by the Secretary, General Counsel, any Assistant Secretary or other officer or employee of HUD, preamble to a regulation or other issuance of HUD, report to Congress, pleading, affidavit or other document in litigation, pamphlet, handbook, guide, telegraphic communication, explanation, instructions to forms, speech or other material of any nature which is not specifically included in paragraph (b) of this section.

### § 82.4 Applicability.

(a) *Transactions covered.* This part applies to loans which constitute Home Mortgages as defined in § 82.2(e). As defined therein, Home Mortgage does not include a home improvement loan or other loan secured by a lien on a 1 to 4 family residential property where the proceeds of the loan are not used to finance the purchase or transfer of the property. Nor does Home Mortgage in-

clude refinancing of a mortgage loan secured by a lien on a 1 to 4 family residential property where there is no transfer of title.

(b) *Exempt transactions.* This part shall not apply to purchases of property for resale in the ordinary course of business.

(c) *Commencement of applicability.*—(1) *Information booklet.* The Special Information Booklet must be distributed with respect to every Loan Application received on or after June 20, 1975.

(2) *Advance disclosure.* After June 20, 1975, advance disclosure, as required by § 82.7 of this Part, must be provided with respect to every Home Mortgage except a Home Mortgage (1) which is made pursuant to a Loan Commitment evidenced by a letter or written agreement signed by the Lender prior to June 20, 1975, and (ii) as to which the Date of Settlement occurs on or before October 20, 1975. Where advance disclosure is required, it may be made prior to June 20, 1975.

(3) *Settlement statement.* The Uniform Disclosure/Settlement Statement shall be used as the settlement statement with respect to every Home Mortgage subject to the advance disclosure requirements pursuant to paragraph (c) (2) of this section.

### § 82.5 Information booklet for persons applying for loans to purchase residential real property.

(a) *Lender to provide information booklet.* Every lender shall provide a copy of the Special Information Booklet currently prescribed by the Secretary to every person who makes a loan application. Where more than one individual makes a loan application, the lender is required to supply a copy of the Special Information Booklet to at least one of the individuals applying. The lender shall supply the Special Information Booklet by delivering it to or placing it in the mail to the applicant not later than the third business day of the lender following the day on which the application is received.

(b) *Printing and duplication.* The Special Information Booklet may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The Secretary may from time to time revise the Special Information Booklet. The Special Information Booklet may be printed or reproduced in any form, provided that no change is made, other than as permitted under paragraph (c) of this section. The Special Information Booklet may not be made a part of a larger document for purposes of distribution under RESPA and this section. Any color, size and quality of paper, type of print, and method of reproduction may be used so long as the booklet is clearly legible and easily readable.

(c) *Permissible changes.* No change to, deletion from or addition to the Foreword and text of the Special Information Booklet currently prescribed by the Secretary shall be made other than those specified below or any others approved in writing by the Secretary:

## RULES AND REGULATIONS

(1) The cover of the booklet may be in any form and may contain any drawings, pictures, or artwork, provided that the words "settlement costs" are used in the title. Names, addresses and telephone numbers of the lender or others and similar information may appear on the cover, but no discussion of the matters covered in the booklet shall appear.

(2) The Special Information Booklet may be translated into other languages.

(3) The wording may be deleted which precedes the foreword, authorizing the reprinting of the booklet and referring to sale by the Superintendent of Documents, but not the first paragraph, referring to preparation of the booklet by the Secretary.

(4) In the last sentence of the foreword, "a lending institution" may be added after "local consumer affairs agency."

(5) In the "Advance disclosure" section, the third sentence of the second paragraph may be deleted.

(6) In the section, "2. Settlement attorneys, escrow and closing agents," the second paragraph and first sentence of the third paragraph may be deleted.

(7) In section B6, in the paragraph entitled "c. Settlement Agent," the words "and location" may be deleted from the last sentence.

### § 82.6 Uniform Disclosure/Settlement Statement Form.

(a) *Use of Form.* HUD Form 1, "Disclosure/Settlement Statement," pages 1 and 2 of which, with instructions, are set forth in Appendix A to this part, and the third page of which, with instructions, is set forth in Appendix B to this part, shall be used as the advance disclosure statement under RESPA section 6 and § 82.7 of this Part, and as the settlement statement under RESPA section 4 and § 82.8 of this Part.

(b) *Printing and duplication of Form.* The Uniform Disclosure/Settlement Statement Form may be reproduced by lenders or others. Lenders are required to use the form, with the first two pages as prescribed by the Secretary and the third page as prescribed by the Federal Reserve Board. Only the following permissible changes and insertions may be made:

(1) In Block A, the lender or other company reproducing the form may insert its business name and/or logotype and may rearrange, but not delete, the other information which appears in Block A.

(2) In Block F, the name, address and other information regarding the lender may be printed, and a space or spaces may be printed for lender's loan number or similar information.

(3) The form may be printed separately to be used only as an advance disclosure form or to be used only as a form for settlement, in which cases the paragraph entitled "STATEMENT OF ACTUAL COSTS" and items 500 through 603 may be deleted from the form used for advance disclosure, and the paragraph entitled "ADVANCE DISCLO-

SURE OF COSTS" may be deleted from the form used for settlement.

(4) A statement may be printed at the end of the paragraph "ADVANCE DISCLOSURE OF COSTS", in any style or type of print, that advance disclosure of prorations of taxes and assessments is based upon the assumption that taxes and assessments are not delinquent. Such statement if printed on the form will then be stricken where advance disclosure is not based upon such assumption. See § 82.7(k).

(5) No changes in the size or type style of print or the layout of the first two pages of the form shall be made, except as follows: (A) The layout of the form may only be reset in type if such type style is approximately the same size and appearance, is easily readable, and the entire form layout is identical to the form as prescribed by HUD; and (B) where necessary to accommodate computer equipment, the first two pages of the form may be printed in a larger size of print and different type style and the distance between lines may be increased, but not decreased, but there shall be no other change in the layout and placement of information on the form. As to the third page, see Regulation Z, 12 CFR Part 226, and the Federal Reserve Board instructions in Appendix B.

(6) In the first two pages, items listed in the form not used locally or not used in connection with mortgages by the lender may be lined out in a manner so that they may still be read.

(7) In the first two pages, charges not listed which are made locally may be inserted in blank spaces in any style or type of print of similar size; but which is different from the style and type of print used in the balance of the form (to indicate items not listed nationwide).

(8) Signature lines and customary local recitals prior to signature lines may be added at the end of the second page or at the end of the third page.

(9) Additional blank space may be added above and/or below each page and the form may be printed on rolls, which may have sprocket holes e.g. for computer purposes. The pages may be printed on separate sheets or placed on the front and back of a single sheet, or one above the other on a single, continuous sheet.

(10) The form may be printed on light shades of tinted paper, and may be printed in one or more colors of clearly legible inks.

(11) The form may be printed in multi-copy tear-out sets. Such sets or any other method for making copies may delete Block J, lines 100 through 303, from the seller's copy and Block K, lines 400 through 603, from the Borrower's copy.

(12) The form may be translated into any other language with the approval of the Secretary, but items of the Truth in Lending Statement required by law to be stated in English must be so stated.

(13) Any other deviation in pages 1 and 2 of the form is only permissible upon receipt of written approval of the Secretary. Any other deviation in the

## RULES AND REGULATIONS

page 3 Truth in Lending disclosure must be in accordance with requirements of the Board of Governors of the Federal Reserve System. See Regulation Z, 12 CFR 226.102 and form instructions in Appendix B to this Part. A request to the Secretary for approval must be submitted in writing to the Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner, Room 6100, 451 7th Street, SW., Washington, D.C. 20410, stating the reasons why the applicant believes such deviation is needed. Prior to receiving such approval, the prescribed form must be used.

(c) *HUD-prescribed additions of items to form.* HUD reserves the right to direct the order and the manner in which additional items are added to the first two pages of the form or in which any other changes are made in the first two pages of the form for any locality, jurisdiction or area.

(d) *Additional sheet.* Where there is an unusually large number of insertions for which blank spaces in the first two pages of the form are not sufficient, an additional sheet for such items may be added to the form and referenced at the appropriate place or places in the form. Such additional sheets may be printed. The reverse side of the form may be used instead of an additional sheet.

#### § 82.7 Advance disclosure of settlement costs by lender.

(a) *Lender to provide.* As required by RESPA section 6, each lender making a home mortgage or assumption approval of a home mortgage shall make or cause to be made advance disclosure of settlement costs on HUD Form 1 in accordance with this section.

(b) *Timing of advance disclosure.* Except as provided in paragraphs (c) and (d) of this section, the lender shall place in the mail to or deliver to the borrower and the seller the advance disclosure statement (on HUD Form 1) at any time not later than 7 calendar days after the date of loan commitment. Advance disclosure may be made prior to loan commitment. Settlement shall not occur less than 15 calendar days after such mailing or 12 calendar days after such delivery. Where advance disclosure statements to different parties are mailed or delivered on different dates, the minimum period to settlement provided above shall be the latest date required with respect to any one disclosure statement. See paragraph (p) of this section regarding Truth in Lending disclosure.

Example 1. Loan Commitment is made July 2. Settlement is anticipated to occur within 60 days. Advance disclosure statement is delivered to one seller on July 5, mailed to a second seller on July 7 and mailed to borrower on July 9. Settlement may not be held prior to July 24 (15 days from, and not including, July 9). Advance disclosure is timely because it is made not later than July 9 (7 days from, and not including, July 2).

(c) *Timing where settlement is anticipated more than 60 days after loan*

*commitment.* Where as of the date of loan commitment, the date of settlement is anticipated by the lender, based upon information given to the lender, to occur more than 60 calendar days after the date of loan commitment, the lender may in its discretion mail or deliver the advance disclosure statement subsequent to the time prescribed in paragraph (b), but not later than 60 days prior to the anticipated date of settlement. Thereafter, if the lender is advised that the date of settlement is expected to occur still later, the lender may in its discretion mail or deliver the advance disclosure statement at any time not later than 60 calendar days prior to such revised anticipated date of settlement. If at any time subsequent to the date of loan commitment the lender is advised that the date of settlement is anticipated earlier than previously anticipated, lender shall mail or deliver the advance disclosure statement on or before 60 days prior to such revised anticipated date of settlement or, if such revised date is within 67 days of the date lender is advised of the revised anticipated date of settlement, lender shall mail or deliver the advance disclosure statement not later than 7 calendar days after being advised of such revised date of settlement. Nothing in this subsection (c) shall alter or affect the minimum periods between disclosure and settlement set forth in the third sentence of paragraph (b) of this section. See paragraph (p) of this section regarding Truth in Lending disclosure.

Example 2. Loan Commitment is made July 1 and settlement is anticipated to occur October 15. Lender may mail or deliver advance disclosure at any time on or before August 14 (60 days before, and not including, October 15). As of August 1, Lender has not yet made advance disclosure and is advised that settlement is anticipated November 15. Lender may mail or deliver advance disclosure statement any time on or before September 14. On September 1, Lender is advised that settlement is anticipated to occur November 1. Lender must mail or deliver advance disclosure statement on or before September 8.

(d) *Waiver of minimum period between advance disclosure and settlement.* The minimum period between advance disclosure and settlement provided in paragraph (b) may be reduced to 3 days from actual receipt of the advance disclosure statement by the borrower and the seller where settlement is held not later than 21 days after the date the loan application was made. Such reduction shall only be made where a copy of the following waiver form is voluntarily executed by each borrower and seller who has not been mailed or delivered the advance disclosure statement on or before the time limit specified in paragraph (b) of this section and is attached to the settlement statement. Such waiver does not waive any applicable right of rescission under the Truth in Lending Act; see Regulation Z, 12 CFR Part 226, for requirements applicable to waiver of right of rescission.

#### WAIVER TO REDUCE PERIOD BETWEEN ADVANCE DISCLOSURE AND SETTLEMENT

##### Identification of Transaction:

Borrower(s): \_\_\_\_\_  
Seller(s): \_\_\_\_\_  
Property: \_\_\_\_\_  
Loan amount: \_\_\_\_\_  
Lender: \_\_\_\_\_  
Date of settlement: \_\_\_\_\_

I hereby acknowledge and affirm that I know that the Real Estate Settlement Procedures Act of 1974 requires the Lender to mail to me an advance itemized disclosure in writing of each charge arising in connection with this settlement not later than 15 calendar days prior to the date of settlement, or deliver such disclosure to me not later than 12 days prior to the date of settlement. I further understand that if the lender fails to provide the required disclosure I may recover from it \$500 or actual damages, whichever is greater, plus court costs and a reasonable attorney's fee as determined by the court.

Notwithstanding the above, I hereby waive the right to receive such disclosure 12 days or have it mailed 15 days prior to settlement and I further certify that:

(1) Application for this loan was made not more than 21 calendar days prior to settlement date and I have consented to settlement on that date; and

(2) I received the advance disclosure of settlement costs at least 3 days (excluding Saturdays, Sundays and holidays) prior to the date of settlement.

(3) I understand that I am not required to execute this waiver and may, instead, determine not to waive and to require the advance disclosure of settlement costs to be delivered to me 12 days before settlement or mailed to me 15 days before settlement; and

(4) I understand that if I sign this waiver in advance of the date of settlement, I may revoke this waiver at any time prior to the date of settlement.

Signature(s) Date

(e) *More than one lender.* Where two or more home mortgages are made with respect to the same sale or transfer of the mortgaged property, each lender may independently satisfy the advance disclosure requirements, or they may jointly satisfy the advance disclosure requirements. In either case, each lender shall be fully responsible to the borrower and seller to make the required disclosure.

(f) *Good faith estimates.* Where the exact amount of a charge required to be stated in the advance disclosure statement is not known, the lender may state a good faith estimate made by the lender, or an estimate obtained by the lender from a provider of settlement services which the lender reasonably believes is a good faith estimate. Each estimate must be stated as a specific figure, and not as a range of possible figures. The advance disclosure statement shall state an "(e)" after each figure which is an estimate.

(g) *Charges to be disclosed.* The advance disclosure statement shall state the amount or estimated amount of the charges to be imposed upon the borrower and the seller shall set forth in the Uniform Disclosure/Settlement Statement (HUD Form 1) lines 700 through 1400 and all similar charges to be paid by borrower and seller which are not listed in

said lines 700 through 1400, except as provided in paragraph (h) of this section regarding hazard insurance, paragraph (i) of this section regarding attorney's fees, and paragraph (j) of this section regarding inspection charges and other charges. Blocks J and K shall be completed; adjustments may be made in accordance with paragraph (k) of this section. At the lender's option, lender may delete Block J from the disclosure to the seller. At the lender's option, lender may omit Block K from the disclosure statement to the borrower.

(h) *Exception to advance disclosure of hazard insurance charges.* The charges for hazard insurance binder or policy covering the mortgaged property are not required to be stated in the advance disclosure statement where the borrower independently obtains his own hazard insurance binder or policy, whether or not the lender requires such binder or policy to be obtained for settlement, provided that the binder or policy has not been obtained by, and the carrier or insurance broker or agent has not been selected for the borrower by, any of the following persons: The lender; an agent or representative of the lender or independent contractor originating the home mortgage in the name of the lender; the real estate agent or broker; or the person selected to conduct the settlement.

(i) *Exception to advance disclosure of attorney's fees.* Fees or estimated fees to be paid by borrower to borrower's attorney or by seller to seller's attorney are not required to be stated in the advance disclosure statement where such attorney is not retained to perform the title search or other services required by the lender and the borrower or seller, as the case may be, independently elects to be represented by an attorney and independently selects the particular attorney. Attorney's fees or estimates thereof are, however, required to be stated in the following cases:

(1) *Fees to be paid by the borrower for an attorney representing the lender, the seller or any other person;*

(2) *Fees to be paid by the seller for an attorney representing the lender, the borrower or any other person;*

(3) *Fees to be paid by the borrower or the seller for an attorney representing the borrower or seller, respectively, if the borrower or seller is required by the lender or his agent or representative or independent contractor originating the home mortgage in the name of the lender to be represented by counsel;*

(4) *Fees to be paid by the borrower or the seller for an attorney representing the borrower or seller, respectively, if the lender or his agent or representative or independent contractor originating the home mortgage in the name of the lender selects the attorney. For purposes of this paragraph (i) (4), the lender or such other person is not considered to select the attorney if he merely recommends a list of at least three attorneys and does not require the borrower to select an attorney from such list.*

## RULES AND REGULATIONS

(j) *Exception to advance disclosure for charges for certain other services independently procured by borrower or seller.* Charges or estimates thereof for services not required by the lender or his agent or representative or independent contractor originating the home mortgage for the lender are not required to be stated in the advance disclosure statement where the borrower or seller independently elects to obtain such services and independently selects the provider of such services.

(k) *Disclosure of adjustments for taxes and assessments.* Lender may make the disclosure of adjustments for taxes and assessments based upon the assumption that no taxes and assessments are delinquent, in lieu of determining from the appropriate records whether delinquencies exist. Where lender makes disclosure based upon such assumption, lender shall place in Block C a statement that advance disclosure of prorations of taxes and assessments is based upon the assumption that taxes and assessments are not delinquent. See § 82.6(b) (4) regarding the printing of such a statement.

(l) *Single disclosure.* Where subsequent to mailing or delivering the advance disclosure statement, changes in anticipated charges come to the attention of the lender no additional or revised advance disclosure statement is required to be provided. The lender may in its discretion, but is not required to, provide updated or corrected amounts to a party the lender understands will pay the charges in question or all parties by letter or otherwise.

(m) *Record-keeping.* Lender shall retain a copy of the advance disclosure statement required to be prepared pursuant to RESPA section 6 for 2 years, except that in the event lender disposes of its interest in the Home Mortgage and does not service the home mortgage, lender may permit its copy of the advance disclosure statement to be delivered to the owner or servicer of the home mortgage as part of the transfer of the loan file. A copy of the advance disclosure statement may be required to be submitted to the Secretary and/or to other Federal agencies. Nothing in this Part alters, amends or in any way reduces the separate record keeping requirements of Regulation Z of the Federal Reserve Board. See 12 CFR 226.6(i).

(n) *Damages.* As provided in RESPA section 6(b), a lender which fails to provide the prospective borrower(s) or seller(s) with the required advance disclosure shall be liable to such borrower(s) or to such seller(s), as the case may be, in an amount equal to actual damages or \$500 to all borrowers and \$500 to all sellers, whichever is greater, and in the event a court action is filed and judgment is obtained against the lender, court costs and a reasonable attorney's fee as determined by the court, provided that: (1) A lender shall not be liable under RESPA for mailing or delivering the disclosure statement later than the time limits established in this section, if within the time limits estab-

lished by the third sentence of paragraph (b).

(2) A lender shall not be liable under RESPA for a violation which was not intentional and resulted from a bona fide error notwithstanding the maintenance of procedures adopted to avoid such an error.

(3) In order to show actual damages under RESPA, the borrower(s) or the seller(s) seeking damages above \$500 must establish on the particular facts of the case that had the required disclosure been made, the borrower(s) or the seller(s) would have obtained settlement services costing at least \$500 less than those he or she actually paid.

(4) Loss based upon seller's claimed loss of a sale, borrower's claim that he was unable to purchase due to lender's failure to make proper disclosure, borrower's claim that he would have purchased a different property, or damages other than described in paragraph (M) (3) of this section may not be the basis for a claim under RESPA for actual damages in excess of \$500.

(o) *No Fee for Preparation of Advance Disclosure Statement.* See § 82.10.

(p) *Truth in Lending disclosure.* The third page of the Uniform Disclosure/Settlement Statement, Appendix B to this part, setting forth the Truth in Lending disclosure, shall be completed and provided in accordance with the Truth in Lending Act, Regulation Z of the Federal Reserve Board, 12 CFR Part 226, and any other Federal Reserve Board requirements. Where Regulation Z establishes a time limit for the making of such Truth in Lending disclosure which is earlier than the applicable time limit under paragraphs (b), (c) and (d) of this section for the making of advance disclosure, the Truth in Lending disclosure must be made at the time required by Regulation Z. In such cases, the first two pages of the Uniform Disclosure/Settlement Statement, HUD Form 1, may be mailed or delivered subsequently, but within the applicable time limits established in this part, and the third page Truth in Lending disclosure is not required to be given a second time when pages 1 and 2 are mailed or delivered.

#### § 82.8 Uniform Settlement Statement.

(a) *Use of HUD Form 1.* As required by RESPA section 4, the Uniform Settlement/Disclosure Statement, HUD Form 1, shall be used as the settlement statement for every Home Mortgage settlement transaction involving a purchase or transfer of a mortgaged property for every home mortgage settlement pursuant to an assumption approval.

(b) *Charges to be stated.* The Uniform Disclosure/Settlement Statement, HUD Form 1, shall be completed to itemize all charges imposed upon the borrower and the seller in connection with the settlement, other than charges exempted from advance disclosure under § 82.7 (h), (i) and (j) and which borrower or seller contract to pay for separately outside of the settlement. The person pre-

## RULES AND REGULATIONS

paring the settlement statement is not required to supply the information in Block J in the copy supplied to the seller, nor to supply the information in Block K to the borrower.

(c) **Delivery.** The settlement statement shall be delivered or mailed to the borrower and the seller on the date of settlement or as soon thereafter as practicable, and in any case not later than 3 days after the date of settlement.

(d) **Recordkeeping.** Lender shall retain a copy of each settlement statement required to be prepared pursuant to RESPA section 4 for 2 years, except that in the event lender disposes of its interest in the home mortgage and does not service the home mortgage, lender may permit its copy of the settlement statement to be delivered to the owner or servicer of the home mortgage as part of the transfer of the loan file. Nothing in this part alters, amends or in any way reduces the separate recordkeeping requirements of Regulation Z of the Federal Reserve Board. See 12 CFR 226.6(i). A copy of the settlement statement may be required to be submitted to the Secretary and/or other Federal agencies.

## § 82.9 Mailing.

The provisions of this part requiring or permitting mailing of advance disclosure statements, Special Information Booklets or settlement statements shall be deemed to be satisfied by placing the document in the mail (whether or not received by the addressee) addressed to the address stated in the loan application or in other information submitted to or obtained by lender at the time of loan application, or submitted to or obtained by the person conducting the settlement, except that a revised address shall be used where the lender or such other person has been expressly informed in writing of a change of address.

## § 82.10 No fee.

As provided in RESPA section 12, no fee shall be imposed or charge made upon any other person, as a part of settlement costs or otherwise, by a lender in connection with or on account of the preparation and distribution required by RESPA of the statement or statements required by RESPA section 4 (Settlement Statement), RESPA section 6 (Advance Disclosure) or by the Truth in Lending Act.

## § 82.11 Relation to State laws.

RESPA section 18(a) provides:

This Act does not annul, alter, or affect, or exempt any person subject to the provisions of this Act from complying with, the laws of any State with respect to settlement practices, except to the extent that those laws are inconsistent with any provision of this Act, and then only to the extent of the inconsistency. The Secretary is authorized to determine whether such inconsistencies exist. The Secretary may not determine that any State law is inconsistent with any provision

of this Act if the Secretary determines that such law gives greater protection to the consumer. In making these determinations the Secretary shall consult with the appropriate Federal agencies.

A determination by the Secretary that such an inconsistency exists shall be made, after consultation with appropriate

ate Federal agencies, by publication of a notice in the FEDERAL REGISTER.

**Effective date.** These regulations are effective as of June 20, 1975.

NOTE: Under certain circumstances the borrower and seller may be permitted to waive the 12-day period which must normally occur between advance disclosure and settlement. In the event such a waiver is made, copies of the statements of waiver, executed as provided in the regulations of the Department of Housing and Urban Development, shall be attached to and made a part of this form when the form is used as a settlement statement.

HUD-1 (5-75)

## INSTRUCTIONS FOR COMPLETING UNIFORM DISCLOSURE/SETTLEMENT STATEMENT (HUD FORM 1)

The following are instructions for completing the first 2 pages of the Uniform Disclosure/Settlement Statement, HUD Form 1, required under Sections 4 and 6 of the Real Estate Settlement Procedures Act of 1974 (Public Law 93-533) and the Regulations thereto issued by the U.S. Department of Housing and Urban Development called Regulation X (24 CFR Part 82). This form is to be used to provide an advance disclosure of costs prior to settlement, and as a uniform statement of actual costs and adjustments

to be given to the parties in connection with the settlement. The instructions for completion are primarily for the benefit of the persons who prepare the statements and need not be transmitted to the parties as an integral part of the form. To determine if the Uniform Disclosure/Settlement Statement is legally required to be used in a particular mortgage loan transaction, refer to Regulation X of the Department of Housing and Urban Development (24 CFR Part 82). There is no objection to the use of the form in transactions in which its use is not legally required.

The Truth-in-Lending Statement prepared by the Federal Reserve Board for real

estate transactions is a part of the Uniform Disclosure/Settlement Statement. It is the third page of the Uniform Disclosure/Settlement Form and must be completed in all cases in which the Truth in Lending Act applies to the transaction. For specific instructions on Truth-in-Lending disclosure requirements under the Real Estate Settlement Procedures Act, refer to the Instructions of the Federal Reserve Board, which appear in Appendix B to HUD's Regulation X (24 CFR Part 82).

The disclosure in advance of settlement is the responsibility of the lender. The Act recognizes that the precise amount of every individual charge to be assessed at settlement will not always be known at the time of advance disclosure. The Act provides: "In the event the exact amount of any such charge is not available, a good faith estimate of such charge may be provided." As provided in Regulation X, the advance disclosure statement shall state an "(e)" after each figure which is an estimate. Each estimate must be stated as a specific figure, and not as a range of possible figures.

## GENERAL INSTRUCTIONS

Information and amounts may be filled in by typewriter, hand printing, computer printing, or any other method producing clear and legible results. Copies of the form sent to the borrower and the seller may be carbon copies, electrostatic copier copies, or other clearly legible copies. Refer to Regulation X regarding rules applicable to printing of the form.

Where there is an unusually large number of insertions for which blank spaces in the first two pages of the form are not sufficient, an additional sheet for such items may be added to the form and referenced at the appropriate place or places in the form. Such additional sheets may be printed. The reverse side of the form may be used instead of an additional sheet.

## LINE ITEM INSTRUCTIONS

Instructions for completing the individual items on the form follow. Where no instructions are given, the item is thought to be self-explanatory.

**Section A.** The lender, title company, or other firm preparing the form may insert its name and/or logotype in Section A.

**Section B.** Check appropriate loan type and complete the remaining items as applicable.

**Section C.** Check the appropriate box indicating whether the particular copy of the form being completed is for advance disclosure purposes or is a statement of actual costs and disbursements at or after settlement. As provided in Regulation X, in preparing the advance disclosure statement, the Lender may make the disclosure of adjustments for taxes and assessments based upon the assumption that no taxes and assessments are delinquent, in lieu of determining from the appropriate records whether delinquencies exist. Where Lender makes disclosure based upon such assumption, Lender shall place in Block C a statement that advance disclosure of prorations of taxes and assessments is based upon the assumption that taxes and assessments are not delinquent. Under Regulation X, Lender is permitted to print such a statement in Block C; where the statement is printed in the form, it is to be stricken where not applicable.

**Sections D and E.** Fill in the names and current mailing addresses of the borrower and the seller. Where there is more than one buyer or seller, the name and address of one is sufficient.

V 40-100 MAY 22 75

XUM

## RULES AND REGULATIONS

**Section F and H.** Fill in the name and address of the lender and the settlement agent. If, at the time of advance disclosure, the settlement agent has not yet been selected, the advance disclosure form should have "not known" entered in Section H.

**Section G.** The street address of the security property, if any, should be given. If there is no street address, a brief legal description or other location of the property should be inserted. In all cases give the zip code of the property.

**Section I.** Fill in these dates to the extent they are known. If advance disclosure is made before commitment, an estimated commitment date should be inserted and marked "(e)". If the settlement date is not firm at the time of advance disclosure, an estimated settlement date should be inserted and marked "(e)". If the prorations of taxes, insurance, etc., are to be made as of a date different than the settlement date, indicate the date of prorations on the last line in this section.

**Section J. Summary of Borrower's Transaction.** The Borrower may be given a copy of the form (in case of both advance disclosure and settlement) which does not contain the information filled in under "Summary of Lender's Transaction" (Block K, Series 400, 500, and 600 items).

**Lines 104 and 105** are for additional amounts owed by the buyer. For example, the balance in the seller's reserve account held by the lender, if assigned to the buyer in a loan assumption case, would be entered here.

**Lines 106 through 112** are for items which the seller had paid in advance, and for which the buyer must therefore reimburse the seller. On the advance disclosure statement the exact date for prorations will not usually be known, and these amounts will therefore be estimates. Examples of items for which adjustments are made may include taxes and assessments paid in advance for an entire year or other period, when settlement occurs prior to the expiration of the year or other period for which they were paid. See Instruction for Block C above regarding advance disclosure of taxes and assessments on the assumption that no taxes and assessments are delinquent. Additional examples include flood and hazard insurance premiums if the buyer is being substituted as an insured under the same policy; mortgage insurance in loan assumption cases; PUD or condominium association assessments paid in advance; fuel or other supplies on hand, purchased by the seller, which the buyer will use when buyer takes possession of the property; and ground rent paid in advance.

**Line 103** is used for cases in which the buyer is assuming or taking title subject to an existing loan or other lien.

**Lines 204 and 205** may be used in cases in which the seller has taken a trade-in or other property from the buyer in part payment for the property being sold, or when a tenant in the property has not yet paid his rent for a period of time prior to the settlement, and which the buyer will collect. They may also be used in cases in which a seller (typically a builder) is making an "allowance" to the buyer for carpets or drapes which the buyer is to purchase on his own. Such an allowance should also be entered on lines 505-509.

**Lines 206 through 212** are for items which have not yet been paid, and which the buyer is expected to pay, but which are attributable in part to a period of time prior to the settlement. In jurisdictions in which taxes are paid late in the tax year, most cases will show the proration of taxes in these lines. See Instruction to Block C above regarding advance disclosure of taxes and assessments on the assumption that no taxes and assessments are delinquent. Other examples in-

clude utilities used but not paid for by the seller, rent collected in advance by the seller from a tenant for a period extending beyond the settlement date, and interest on loan assumptions. As with lines 106 to 112, these amounts will normally be only estimates on the advance disclosure statement.

**Line 303** may indicate either the cash required from the borrower at settlement (the usual case in a purchase transaction) or cash payable to the borrower at settlement (if, for example, the buyer's earnest money deposit exceeded his cash obligations in the transaction). The appropriate box should be checked.

**Section K. Summary of Seller's Transaction.** The Seller may be given a copy of the form (in case of both advance disclosure and settlement) which does not contain the information filled in under "Summary of Borrower's Transaction" (Block J, Series 100, 200, and 300 items).

Instructions for the use of lines 106-112, above, apply also to lines 405 to 411.

As the note on the form indicates, it is not necessary to complete lines 500 through 603 when the form is used for advance disclosure. The reason is that information about payoff figures on existing liens must normally come from a title search and payoff letters from other lenders, and is therefore often not available at the time of advance disclosure. There is, however, no objection to the completion of these sections at the time of advance disclosure if the lender so desires.

**Line 504** is used if the purchaser is assuming or taking title subject to existing liens which are to be deducted from sales price.

**Lines 505 through 509** may be used to list additional liens which must be paid off through settlement to clear title to the property. They may also be used to indicate funds to be held by the settlement agent for the payment of repairs the seller is obligated to make or payment of water, fuel, or other utility bills which cannot be prorated between the parties at settlement because the amounts used by the seller prior to settlement are not yet known.

If the seller's real estate broker has received and held an earnest money deposit which exceeds the commission owed to him, and if he will tender the excess deposit directly to the seller rather than through the settlement agent, the amount of excess deposit should be entered on one of lines 505-509, thus reducing the amount to be paid to the seller by the settlement agent by that amount.

Instructions for the use of lines 510 through 515 are the same as those for lines 206 to 212, above.

**Section L. Settlement Charges. General:** For all items except those paid to and retained by the lender, the name of the person or firm receiving the payment should be shown.

**Line 700.** If the sales commission paid by the seller is based on a percentage of the purchase price, enter the purchase price and the percentage here.

**Line 701.** The dollar amount of the total commission paid by the seller is entered here. A single entry is made, regardless of whether compensation will be paid to one agent or split among several agents.

**Lines 702-703** are to be used to state the split of the commission where the person conducting the settlement disburses portions of the commission to two or more agents. Only the total commission is to be shown in the borrower's or seller's columns.

**Line 704** may be used for additional charges made by the sales agent, or for a sales commission charged to the buyer, which will be disbursed by the settlement agent.

**Line 801.** Enter the fee charged by the lender for processing or originating the loan. If this fee is computed as a percentage of the loan amount, enter the percentage in the blank indicated.

**Line 802.** Enter the loan discount charged by the lender, and if it is computed as a percentage of the loan amount, enter the percentage in the blank indicated.

**Line 803.** Enter appraisal fees, if there is a charge separate from the origination fee.

**Line 805** is used only for inspections by the Lender or his personnel. Charges for other pest or structural inspections required by Regulation X to be stated should be entered in lines 1302-1305.

**Line 806** should be used for a VA appraisal fee, FHA application fee (which covers the cost of appraisal by the agency as well), or a fee required by a private mortgage insurance company.

**Line 807** is provided for convenience in using the form for loan assumption transactions if a fee is charged by the Lender for agreeing to an assumption or transfer subject to an existing indebtedness.

**Line 901.** If interest is collected at settlement for a part of a month or other period between settlement and the date from which interest will be collected with the first regular monthly payment, enter that amount here. If such interest is not collected until the first regular monthly payment, no entry should be made on line 901.

**Line 1000.** This section is used for amounts collected by the Lender and held in an account for the future payment of the obligations listed as they fall due. In many jurisdictions this is referred to as an "escrow", "impound" or "trust" account. In addition to the items listed, some Lenders may require reserves for flood insurance, condominium owners association assessments, etc.

**Line 1100.** In many jurisdictions the same person (e.g., an attorney or a title insurance company) performs several of the services listed in this section, and makes a single undifferentiated charge for so doing. In such cases, enter the overall fee on line 1107, (for attorneys) or line 1108 (for title companies), and enter on the line provided the item numbers of the services listed which are covered in the overall fee. In such cases no amounts should be entered for the individual items which are covered by overall fees.

**Line 1101.** Enter here the fee of the person or firm conducting the settlement. In some jurisdictions this is termed a closing or escrow fee. If two or more persons or firms make charges in connection with the same transaction, enter total charges in the appropriate columns, and indicate the breakdown of charges on the line after the word "to".

**Lines 1102 and 1103.** In some jurisdictions the same person (e.g., an attorney) both searches the title (that is, performs the necessary research in the records) and examines title (that is, makes a determination as to what matters affect title, and provides a title report or opinion.) If such a person charges only one fee for both services, it should be entered on line 1103. If separate persons perform these tasks, or if separate charges are made for searching and examination, they should be listed separately.

**Line 1105.** Enter charges for preparation of deeds, mortgages, notes, etc. If more than one person receives a fee for such work in the same transaction, show the total paid in the appropriate column and the individual charges on the line following the word "to".

**Lines 1108-1110.** Enter the total charge for title insurance (except the cost of the title binder) on line 1108. Enter on lines 1109 and 1110 the individual charges for the Lender's and owner's policies. Note that these charges are not carried over into the borrower's and

seller's columns, since to do so would result in a duplication of the amount in line 1108.

**Lines 1111-1113.** These lines are for entry of other title charges not already itemized. Examples in some jurisdictions would include a fee to a private tax service, a fee to a county tax collector for a tax certificate, and a fee to a public title registrar for a certificate of title under a Torrens Act. Show the lender's attorney's fee, if any, on line 1107 and other attorneys' fees, if required to be stated under Regulation X, on lines 1111-1113.

**Lines 1303-1305.** Enter on these lines any other settlement charges not referable to the categories listed above on the form which are required by Regulation X to be stated. Examples may include structural inspections

or pre-sale inspection of heating, plumbing, or electrical equipment. These inspection charges may include a fee for insurance or warranty coverage.

**Line 1400.** Enter the total settlement charges paid from borrower's funds and seller's funds. These totals are also entered on lines 103 and 503, respectively, in Sections J and K.

## ATTACHMENT OF WAIVER FORM

The waiver or waivers reducing the period between disclosure and settlement (if any are executed by the parties) are a part of the form when it is used as a settlement statement, and should be attached to the form.

## EXHIBIT B

Federal Truth-in-Lending Statement  
(As part of Disclosure/Settlement Statement)

INSTRUCTIONS FOR FEDERAL TRUTH IN LENDING STATEMENT<sup>1</sup>

This form is the Federal Truth in Lending disclosure portion of the Disclosure/Settlement Statement to be provided by the Department of Housing and Urban Development in connection with the Real Estate Settlement Procedures Act (Pub. L. 93-533).

This form is intended to provide a flexible, minimum disclosure standard in satisfaction of the Truth in Lending (Regulation Z) requirements of the Real Estate Settlement Procedures Act. This form is designed to accommodate those Truth in Lending disclosures which are most common to real estate purchase transactions. However, the form is not comprehensive of all credit charges or terms that may be incident to any particular federally related mortgage loan. When a given transaction includes less common terms, such as balloon payments, for which no specific provision is made on the form, these terms will also need to be disclosed and identified on the form.

To maintain the form as a standardized disclosure mechanism while still providing creditors with flexibility, certain changes to the form may be necessary. As long as the applicable Truth in Lending disclosure requirements are met:

(a) Disclosures provided on the form which are not applicable to a given transaction may be deleted. For example, the finance charge disclosures (Item II) need not be made in the case of a purchase money first mortgage on a dwelling.

(b) Disclosures and language more pertinent to a specific charge or term may be substituted for those presently included. For example, in Item VIIA, if no charge will be assessed in the event of prepayment of a loan on which interest is computed on the unpaid principal balance, a statement to that effect may be substituted.

(c) Additional space and/or disclosures may be provided where necessary to satisfy the requirements of Regulation Z. For example, additional space may be provided for disclosures in Item IV; other charges, such as continuing premiums for mortgage guaranty insurance, may be added under Item II.

This form is designed as a disclosure for both loan and credit sale transactions and should be used regardless of whether a given transaction may be characterized as a loan or credit sale (§ 226.6(d), 226.8(c) and 226.8(d)). The form contains certain disclosure provisions which are required in credit sales disclosures under Truth in Lending but not required in loan disclosures. Lenders who choose to make only those disclosures required in connection with loans under Regulation Z may delete the additional disclosures related to the credit sales. Also a certain amount of deviation may be necessary in more complicated transactions, such as in the case of permanent financing following the maturity of a home construction loan.

This form is intended to be used solely for the disclosures required under the Federal Truth in Lending Act. Except with respect to rescindable transactions, as noted below, all Truth in Lending disclosures made in compliance with the Real Estate Settlement Procedures Act shall be made on one

<sup>1</sup>NOTE: These instructions are intended to assist in the completion of the Truth in Lending Statement, and except to the extent to which Regulation Z is interpreted to accommodate the Real Estate Settlement Procedures Act, the instructions are in no way intended to supersede or supplement the provisions of Regulation Z. All sectional references in the instructions are to Regulation Z (12 CFR 226).

side of a single sheet regardless of any differing Regulation Z requirements. For example, in spite of the provisions of § 226.8 (a) (1), for the purposes of satisfying the requirements of the Real Estate Settlement Procedures Act, promissory notes or other contractual obligations shall not be included on the Truth in Lending disclosure form. Similarly, in spite of § 226.8(c) (2), the Truth in Lending form to be used in connection with the Real Estate Settlement Procedures Act may not include inconsistent State disclosure requirements.

Charges under § 226.4(b) need not be itemized on this form, provided they are itemized and disclosed on the settlement cost portion of the combined form.

In the event that a given transaction subject to the Real Estate Settlement Procedures Act is rescindable under provisions of § 226.9 of Regulation Z, two copies of a notice of the right of rescission (§ 226.9(b)) shall be given separately from the prescribed form to each borrower who has the right to rescind.

Bona fide estimates may be made in connection with dates or charges for which exact dollar amounts or rates are unknown at the time of advance disclosure (§ 226.6(f)). When estimates are used, they should be suitably designated as such, for example, by asterisks placed next to the estimated information.

The Real Estate Settlement Procedures Act requires that Truth in Lending disclosures be made at least 12 days before settlement and again on the day of settlement. While two separate disclosures are required, in those instances where no material change occurs in the information required to be disclosed, a copy of the initial disclosure form may be used in satisfaction of the disclosure requirement on the day of settlement.

Creditors in using the prescribed form may delete the numbering system provided; the numbers used on the form are included solely to aid in relating pertinent instructions. However, in deleting the numbers or in making any other adjustments to the form, creditors should be guided by the requirements of § 226.6(a) to the effect that Truth in Lending disclosures be made clearly, conspicuously, and in meaningful sequence. Creditors may also add signatures, dates, and acknowledgements to the form.

#### Item I

Item I.A. is provided to show the cash price (contract sales price) which should equate to the amount shown on line 101 of the settlement cost disclosure portion of the combined form (§ 226.8(c) (1)).

Items I.A.1. and I.A.2. are provided to show any cash downpayment or trade-in. Item I.A.3. is provided to show the total amount of any downpayments (§ 226.8(c) (2)).

Item I.B. is provided to show the unpaid balance of the cash price which should equal I.A. minus I.A.3. (§ 226.8(c) (3)).

Item I.C. is provided to show other items which are financed as part of the credit transaction. For example, property damage insurance premiums under I.C.1. are included in the amount financed, if they are financed as part of the credit transaction and the other conditions of § 226.4(a) (6) are met. The blank line I.C.2. is intended to include similar items, which are financed, such as those listed in § 226.4 (b) or (e). Item I.C.3. is provided to show a total of other amounts financed (§ 226.8(c) (4)).

Item I.D. is provided to show the unpaid balance (the sum of Item I.B. and I.C.) (§ 226.8(c) (5)).

Item I.E. is intended to show prepaid finance charges and the total prepaid finance charges (§ 226.4(a)/226.8(d) (2)/226.8(e) (1)).

Item I.E.1. is provided to show the origination fee or points paid directly by the borrower, such as the one point permitted in VA transactions.

Item I.E.2. is provided to show those loan discounts or points paid by the seller when they are part of the finance charge (§ 226.406).

Item I.E.3. is provided to show the prepayment of any accruing interest charge on the contract until the first payment is due. The blank space are provided to show the dates for which such interest accrues. (The dates and amounts disclosed may frequently need to be estimated.)

Item I.E.4. is provided to show the payment of mortgage guaranty insurance premiums, such as for FHA or private mortgage guaranty insurers, accruing prior to the first regular payment.

Item I.F. is provided to show the amount financed: the difference between item I.D. and I.E. (§ 226.8(c) (7)/226.8(d) (1)).

#### Item II

This item is provided to show the components of the finance charge, such as prepaid finance charges, and continuing premiums for mortgage guaranty insurance, as well as to show the total amount of the finance charge (§ 226.4(a)/226.8(d) (3)).

Item II.A. provides the optional disclosure of the contract rate of interest as an additional item where such interest is computed by the application of a simple annual rate.

#### Item III

Item III.A. is provided to show the annual percentage rate as determined in accordance with § 226.5(b). Item III.B. is provided to show any variable interest rate provisions (§ 226.810).

#### Item IV

This item is provided to show the repayment terms (§ 226.8(b) (3)).

#### Item V

This item is provided to show the date on which the finance charge begins to accrue only if that date differs from the date of the transaction (§ 226.8(b) (1)).

#### Item VI

This item is provided for the disclosure of any amount or method of computing the amount of any default, delinquency, or similar charges payable in the event of late payments (§ 226.4(c)/226.8(b) (4)).

#### Item VII

This item is provided for the disclosure of the consequences of prepayment of the mortgage obligation; either (A) or (B) should be used, as applicable.

Item VII.A. is provided for the disclosure of conditions or penalties charged in the event of prepayment of a loan on which interest is computed on the unpaid principal balance (§ 226.8(b) (6)). Should there be no penalty for prepayment, a statement to that effect may be substituted.

Item VII.B. is provided to identify the method of rebate of unearned finance charges in the event of prepayment in full of installment obligations which include pre-computed finance charges. If no rebate will be made, a statement to that effect must be included (§ 226.8(b) (7)).

#### Item VIII

This item is provided for the disclosure of insurance written in connection with the obligation, such as property damage insurance (to be disclosed in accordance with § 226.4 (a) (6)), credit life, accident, or disability insurance (to be disclosed in accordance with § 226.4(a) (5)), and vendor's single interest insurance (to be disclosed in accordance with § 226.404).

#### Item IX

This item is provided to show any security interests taken in connection with the transaction (§ 226.2(z) and § 226.8(b) (8)).

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner

[Docket No. N-75-311]

### REAL ESTATE SETTLEMENT COSTS

#### Special Information Booklet

Notice is hereby given that HUD has prepared the booklet, "Settlement Costs" pursuant to Section 5(a) of the Real Estate Settlement Procedures Act of 1974. Section 5(a) requires HUD to prepare and distribute to lenders who make federally related mortgage loans a special information booklet to better inform persons borrowing money to finance the purchase of residential real estate concerning the settlement process.

The booklet explains the purpose of each cost involved in a settlement, reproduces and explains the standard disclosure/settlement form required by sections 4 and 6 of the Act, discusses such abuses as unfair practices and unreasonable charges, and explains choices available to homebuyers in shopping for settlement services.

Section 5(c) of the Act requires each lender which makes federally related mortgage loans to provide the booklet to each person submitting an application to borrow money to finance the purchase of residential real estate. The lender is required to provide the booklet at the time it receives the application.

To insure that each federally related mortgage lender has a sufficient supply of booklets on hand on the effective date of the Act, June 20, 1975, the Department will provide an initial supply of booklets for lender use at each HUD Area and Insuring Office and expects that the booklets will be available in early June. Lenders may pick up a limited supply from these offices but no mail or telephone orders can be accommodated. After this initial distribution, additional supplies of the booklet will be on sale through the Government Printing Office and must be paid for by the lender.

This booklet (1) may be reproduced and distributed by lenders, using a cover of their own design (which may bear the name of the lender), without further approval by HUD; or (2) lenders may print and distribute booklets approved by the Secretary as to form and content. In the former case, it is not permissible to make any change, deletion, or addition in the content of the booklet as prepared by HUD. Lenders desiring to take advantage of the latter option should so request in writing and submit proposed booklets for review to the Office of General Counsel, Department of Housing and Urban Development, Room 2253, 451 7th Street, SW., Washington, D.C. 20410.

A copy of the contents of the booklet which may be reproduced by lenders is set forth as an appendix to this notice.

DAVID M. DE WILDE,  
Acting Assistant Secretary for  
Housing Production and  
Mortgage Credit, FHA Commissioner.

#### SETTLEMENT COSTS

##### A HUD GUIDE

The content of this booklet has been prepared, prescribed and approved by the U.S. Department of Housing and Urban Development, as required by section 5 of the Real Estate Settlement Procedures Act of 1974 (Pub. L. 93-533), effective on June 20, 1975.

This publication may be reprinted. However, in no case may any change, deletion, or addition be made in its content.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Home Loan Financing  
Disclosure/Settlement Statement  
Advance Disclosure  
Unfair Practices and Unreasonable or Unnecessary Charges to Avoid  
Escrow Accounts  
Previous Selling Price Disclosure  
Jurisdiction of Courts  
Truth in Lending Disclosure

#### FOREWORD

You are planning to buy a home. When you do, you will probably make a downpayment and finance the balance of the purchase price with a loan secured by a mortgage on your home.

Before you take possession of your home, a closing or settlement will occur at which ownership of the property will be transferred to you, and your obligation to repay the mortgage loan will become effective. The terms and conditions of the loan—interest rate, monthly payment, and the repayment period—are specified in the documents signed by you. These include a note evidencing the loan for the unpaid purchase price, a mortgage placing a lien on your home, and other documents.

In some States, it is the custom for the buyer and seller to attend the settlement in person; in others it is handled automatically by an escrow agent when all papers and funds have been deposited with him.

At the closing or settlement, both you and the seller will have to pay certain charges incident to transferring title to real estate and obtaining the mortgage loan. These charges are called "settlement costs" or "closing costs".

This booklet has been prepared to inform you, the buyer, about the nature and costs of the settlement process. As required by law, this booklet is given to you by a lending institution at the time you apply for a mortgage loan to finance the purchase of a one- to four-family residential dwelling. At this stage, you have selected the home you want to buy. You may have already reached informal agreement with a seller or even signed a sales contract and made a deposit ("earnest money deposit") indicating your serious intention to buy—a deposit which could be forfeited should you fail to complete your purchase.

This booklet is intended to acquaint you with the appropriate procedures and charges for settlement services which you will encounter in closing your home purchase transaction.

For answers to specific questions or for information on mortgage lending and settlement practices in your locality, you may want to consult a State or local consumer affairs agency, an attorney, a legal aid society, or the local real estate board.

#### HOME LOAN FINANCING

The home purchase loan is evidenced by your signature on a note or bond, and the loan (your debt) is secured by a mortgage (or

deed of trust) which you must sign, which pledges the home as security for repayment of the loan. If you fail to repay the loan or comply with the terms and conditions of the mortgage, the lender can initiate foreclosure of the loan which would lead to sale of your home at a public auction to satisfy the debt.

In a home mortgage transaction, you promise to repay the loan and interest in monthly installments at the interest rate and over the period of time specified in the mortgage contract. In the early years when your debt is largest, most of the monthly payment goes for interest. The amount applied to the outstanding debt gradually increases so that in the final years of the mortgage most of the payment goes to principal and less to interest. This is known as an amortized mortgage, and most mortgages are written this way.

In some States, the security instrument instead of being a mortgage is a deed of trust under which the borrower deeds the property to a trustee. Normally, the terms of a deed of trust are substantially the same as those of a mortgage.

Husband and wife often taken title to their home as joint tenants with right of survivorship. You may wish to seek legal advice on this and other matters. The manner in which you take title to the home you buy can have important income tax, estate planning, and other consequences.

#### DISCLOSURE/SETTLEMENT STATEMENT

The Real Estate Settlement Procedures Act of 1974 (Pub. L. 93-533) requires use of a standard form for advance disclosure of settlement costs and to record actual charges incurred at settlement in all mortgage transactions involving federally related loans.

The same form is used for both advance disclosure and settlement and is reproduced on the following pages to acquaint you with it. Settlement cost items are numbered to correspond with the accompanying explanation of each item. The listing of these items on the form does not imply that any particular charge listed is or should be made in a given geographic area. Even in a given geographic area, you may find that different lenders and providers of settlement services vary as to whether they make certain charges and as to the amount of the charge. You may wish to "shop around".

Some settlement costs typically are charged to the buyer. Others usually are the responsibility of the seller. Although local custom and practices often dictate which are the buyer's and which the seller's costs, there are no hard and fast rules that apply, and in most cases the buyer and seller can negotiate as to who will pay specific settlement charges. You can also negotiate with providers of settlement services as to whether each charge will be made and the amount. You should be charged only for services actually performed, as required by settlement practices in a particular locality.

1. *Contract Sales Price.* This is the price of the home agreed to in the sales contract between buyer and seller.

2. *Personal Property.* Those items, such as carpets, drapes, or appliances, which the seller transfers with the home, may be paid for by the buyer at settlement. When the sales contract is made, you should make sure that items to be transferred are described. The sales contract should state whether such items are included in the sales price.

3. *Settlement Charges.* This is the total amount of the settlement charges to be paid by the buyer. These charges are itemized on page 2 of the form.

4.9. *Adjustments or Pro-rations.* These amounts represent pro-rated adjustments of certain costs, such as real estate taxes, utilities, and fuel. Such adjustments are often

## NOTICES

made in order to pro-rate such costs in order to charge the seller for the period he owned the property (up to settlement) and to charge the buyer for the period after settlement. Item 4 states amounts for which the buyer compensates the seller. Item 9 states amounts for which the seller compensates the buyer. As an example, where settlement occurs October 1, 1975, and the seller has paid the real estate taxes in advance for the entire year, a typical adjustment would be for the buyer to compensate the seller for one-fourth of the real estate taxes for 1975, that is, the period from October 1 through December 31. That amount would be shown at Item 4.

5. **Gross Amount Due from Borrower.** This is the total amount of all charges to the buyer included in items 1, 2, 3, and 4.

6. **Deposit or Earnest Money.** This is the amount of money deposited by the buyer under the contract of sale, usually at the time it was signed.

7. **Principal Amount of Loan(s).** This is the amount of mortgage money loaned to the buyer to purchase his home.

8. **Existing Loan(s) Taken Subject To.** This space is used for cases in which the buyer is assuming or taking title subject to an existing loan or other lien on which he is expected to make the payments.

10. **Total Amounts Paid By or In Behalf of Borrower.** This amount is the sum of items 6, 7, 8, and 9 above which will be applied to reduce the amount of charges to the buyer in item 5 above.

11. **Cash Required From (Payable To) Borrower.** This is the total amount of cash which the buyer will need at settlement (subtract item 10 from item 5). At time of advance disclosure this is the estimated amount.

12. **Real Estate Broker's Sales Compensation.** This charge compensates the real estate broker or brokers for services involved in listing and selling the property, and is normally the seller's obligation to pay. This commission or fee may be split among more than one broker if each performed services in connection with the transaction, but no person may accept any portion, split or percentage of such commission or fee other than for services actually performed.

13. **Loan Origination Fee.** This compensates the lender for expenses incurred in originating the loan, preparing documents, and related work. When such a fee is charged, it is usually a percentage of the face amount of the mortgage. In FHA-insured or VA-guaranteed mortgage transactions involving existing structures, the fee charged the borrower can be no more than one percent of the mortgage amount. For example, if you are approved for a VA-guaranteed loan of \$30,000, the origination fee charged to you may not exceed \$300. However, when the lender makes inspections and partial disbursements during construction of a new home, both FHA and VA permit a higher origination fee, but not more than 2½% for FHA-insured loans or 2% for VA-guaranteed loans. The Farmers Home Administration does not permit a loan origination fee.

14. **Loan Discount Points.** Discounts or "points" are a one-time charge made by the lender to increase its yield (the effective interest return or income) on the mortgage loan. Each "point" is one percent of the mortgage amount.

In FHA and VA transactions, the buyer may not be charged a discount by the lender, but the seller may volunteer to pay points in order to help the buyer obtain financing. For example, if a lender charges 4 points on an FHA-insured loan of \$30,000, this amounts to a discount of \$1,200. You, the buyer, may pay only the loan origination fee described in note 13 if it is a VA or FHA

transaction. Discounts are not permitted on Farmers Home Administration loans.

15. **Appraisal Fee.** This charge compensates the lender for a property appraisal made by an independent appraiser or by a member of the lender's staff.

16. **Credit Report.** The buyer's credit history is often obtained by the lender and a charge paid to a credit bureau for ascertaining the status of the buyer's credit may be collected, usually from the buyer.

17. **Lender's Inspection Fee.** This charge covers only inspections made by personnel of the lending institution at its discretion. Pest or other inspections made by companies other than the lender are described in note 31.

18. **Mortgage Insurance Application Fee.** This covers the cost of an FHA or VA appraisal, which in an FHA loan is included in a mortgage insurance application fee. For conventional loans it may cover application fees when charged by private mortgage insurers. In the case of an FHA-insured mortgage, the amount of this charge is set by HUD Regulations and may be charged to the buyer. The buyer in a VA-guaranteed loan may not be charged an appraisal fee unless identified by name in the request for VA's appraisal.

19. **Assumption Fee.** In a case where the buyer assumes the seller's existing mortgage on the property, the lender's charges for processing the assumption are entered here.

20. **Prepaid Interest.** This charge covers interest which will accrue from the date of settlement to the beginning of the period covered by your first monthly payment. For example, if your mortgage payment is due on the 1st of each month, but settlement occurs on April 20, the prepaid interest at settlement will cover the period from April 20 to April 30 if your first monthly mortgage payment is due on June 1st. Thus your June 1 payment will not have to include an extra amount of interest for the period before May 1.

21. **Prepaid Mortgage Insurance Premium.** This is the portion of the premium prepaid by the buyer at settlement for mortgage insurance. This type of insurance is required when FHA or a private mortgage insurance company covers the lender against loss if the buyer fails to meet the mortgage obligation. Mortgage insurance premiums are required for all FHA-insured loans (but not for VA loan guarantees), and may be required on a conventional loan.

This type of insurance should not be confused with mortgage life, credit life, or disability insurance designed to pay off a mortgage in the event of physical disability or death of the borrower. Such insurance is available but usually not required by lenders.

22. **Prepaid Hazard Insurance Premium.** This is the portion of the premium prepaid by the buyer at settlement for purchase from a private company of insurance against loss due to fire, windstorm, and natural hazards. This coverage may be included in a Homeowners Policy which insures against possible additional risks, such as personal liability and theft.

A hazard insurance or homeowner's policy does not protect you against loss caused by flooding. In special flood-prone areas identified by HUD, you must carry flood insurance on your home. Such insurance may be purchased at low federally subsidized rates in communities eligible under the National Flood Insurance Act. Contact a local hazard insurance agent concerning eligibility in your case.

23. **Reserves Deposited with Lender.** These funds are placed by the buyer in an "escrow" or "impound" account maintained by the lender to assure an adequate accumulation of funds to meet charges for real estate taxes and hazard insurance when they become due; and also, if applicable, for mortgage insurance, annual assessments, homeowners' association fees, or flood insurance.

(These reserves are explained in more detail later.)

These reserves may be held in non-interest bearing accounts. However, certain States now require lenders to pay interest on this money, and lenders in other States may be willing to do this voluntarily.

24. **Settlement, Closing, or Escrow Fee.** This charge may be made for handling and supervising the settlement transaction. The settlement may be conducted by the lender, a real estate broker, a title company in some States, an escrow agent in some States, or an attorney. The seller and buyer may negotiate regarding who pays or whether the charge is shared between them. The amount of the charge may be negotiated with the provider of the service. In a VA-guaranteed loan, this fee cannot be charged to the buyer when the buyer is assessed the 1% origination fee.

25. **Title Charges.** These charges cover the costs of title search and examination of public records of previous ownership and sales to establish the right of the seller to convey the property to the buyer. A search and examination are performed to determine whether the seller has good title to the property that he can transfer to the buyer, and to disclose any matters on record that could adversely affect the buyer, the lender, or others with an interest in the property. Examples of these problems are unpaid mortgages, judgment of tax liens, a power line easement or a road right-of-way that could limit use and enjoyment of the real estate by the buyer.

In some parts of the nation, a title search customarily takes the form of an "abstract", which is a compilation including copies of pertinent documents that provides a condensed history of property ownership and related matters. In other places, title searches are performed by extracting related information from the public record without assembling abstracts. Either way, it then is necessary for an expert examination to be made of the evidence accumulated in the search in order to determine status of title as shown by the public record.

Depending on local custom, title examinations normally are made by attorneys or title company employees. Through a title search and examination, land title problems of record are disclosed in advance so they can be cleared up, when possible, before a transaction is completed.

26. **Notary Fees.** This charge may be made for the services of a notary in authenticating signatures to the various documents in the transaction. In a VA-guaranteed loan, this fee cannot be charged to a buyer in the event the buyer is charged a 1% origination fee.

27. **Attorney's Fees.** These include charges which the lender may require the buyer to pay for legal services to the lender in connection with the transaction. The buyer should not assume that he is represented by an attorney hired by the lender who prepares the documents and handles the settlement. In a VA-guaranteed loan, this lender's attorney fee cannot be charged if the buyer is charged the 1% origination fee.

The buyer and seller may each retain attorneys to represent them and may pay the fees at the settlement, in which case these fees also appear on this part of the form.

In some States, attorneys provide bar-related title insurance as part of their services to the buyer for transfer of title. The attorney's fee in this case may include the title insurance premium.

28. **Title Insurance.** A one-time premium may be charged at settlement for a policy which protects the lender's interest in the property against land title problems including those that might not be disclosed by a title search and examination. Whether the buyer or seller pays for this varies with local custom.

## NOTICES

The buyer must request and pay for an additional owner's policy if he wants this protection for his interest in the property. There are many areas where an owner's policy can be obtained at a modest additional charge if issued simultaneously with a lender's policy. In some areas, the seller pays for the owner's title insurance policy.

29. **Government Transfer Taxes and Charges.** The fees and taxes in this section are generally levied by State and/or local governments when property changes hands or when a mortgage loan is made. Depending on local custom, these charges may be paid by the buyer, seller, or otherwise split between them.

30. **Survey.** The lender or a party to the

transaction may require a survey showing the precise location of the house and lot lines.

31. **Inspections.** This part of the form records charges for various inspections required by the lender or a party to the transaction, such as those for termite and other pest infestation. In a VA-guaranteed loan, the buyer may not be charged for the pest inspection.

There may also be pre-sale inspections for the buyer's benefit to evaluate heating, plumbing, and electrical equipment and overall structural soundness. The charge for such an inspection may include a fee for insurance or warranty services to back-up the inspection.

In the event such a waiver is made, copies of the statements of waiver, executed as provided in the regulations of the Department of Housing and Urban Development, shall be attached to and made a part of this form when the form is used as a settlement statement.

HUD-1 (3-75)

#### ADVANCE DISCLOSURE

The Settlement/Disclosure Statement itemizes each settlement cost charged to the buyer and each charged to the seller. Advance disclosure serves a two-fold purpose: (1) To provide notice of the cash you will need at settlement and (2) to make possible "comparison shopping" of settlement charges so that you can arrange terms most favorable to you. If you don't "shop around" you will not save money if the same services are offered elsewhere for less.

It is important to realize that advance disclosure provides for earlier and more systematic information about the costs of the set-

tlement transactions but does not affect any contractual agreement which may already have been made between buyer and seller. Try to obtain as much of this information as possible prior to signing a sales contract for the house you intend to buy. Or, if the seller is agreeable, you may want to make the sales contract contingent upon your approval of the advance disclosure statement. Once you have signed, you may not be able to rescind the contract in the event that you are dissatisfied with some aspect of the transaction revealed by disclosure. It is in your interest to condition your purchase contract on your ability to obtain a mortgage loan on specified terms.

The law requires the lender to give you a copy of the completed advance disclosure statement at the time of loan commitment. In most circumstances this should be not later than 12 calendar days before the settlement date. Normally, the loan commitment and advance disclosure occur several weeks prior to settlement. In the case of a long-term commitment, such as that obtained by a buyer of a new home under construction, disclosure should be made shortly after signing the contract to buy the house. Typically, this might be in the range of 60 to 90 days before settlement.

If the exact cost of any settlement service is not known in time to meet the deadline, the lender must provide a good faith estimate of the charge.

Lenders are prohibited from charging a specific fee for the preparation and submission of disclosure and settlement costs statements or for the information they must provide under the Truth in Lending Act.

If your circumstances are such that you want to settle and take title to your new home before the lender can meet his 12-day advance disclosure deadline, you may sign a waiver of that requirement. Advance disclosure is intended to protect your interests, not hamper or delay your plans, so you should carefully consider before signing a waiver. Even if you agree to waive, HUD Regulations require the lender to provide the disclosure statement to you at least three days prior to the date of settlement.

Except in the case of a waiver, the lender must meet the advance disclosure requirement or be liable to you for actual damages or \$500, whichever is greater. If court action is necessary to enforce this liability, the lender may be ordered to pay court costs and your attorney's fees as set by the court if the lender loses the case. You would pay attorney's fees in the event that you lose the case. A lender will not be held liable for a violation if he can show that it was not intentional and resulted from a bona fide error in spite of maintenance by the lender of procedures adopted to avoid such error.

#### UNFAIR PRACTICES AND UNREASONABLE OR UNNECESSARY CHARGES TO AVOID

A principal finding of Congress in the Real Estate Settlement Procedures Act of 1974 is that consumers need protection from "unnecessarily high settlement charges caused by certain abusive practices that have developed in some areas of the country." The potential problems discussed below may not be applicable to most loan settlements, and the discussion is not intended to deter you from buying a home. Most professionals in the settlement service businesses will give you good service. Nevertheless, you may save yourself money or worry by keeping the following considerations in mind.

A. *Illegal Practices.* Practices specifically prohibited by this Act fall into two categories:

1. *Kickbacks.* Kickbacks and referral of business for gain most often are tied together, so the law prohibits anyone from giving or taking a fee, kickback, or anything of value under an agreement that business related to real estate settlements will be referred to a specific person or organization.

This requirement does not, of course, prevent agents for lenders and title companies, attorneys, or others actually performing a service in connection with the mortgage loan or settlement transactions, from receiving compensation for their work.

The prohibition is aimed primarily at eliminating the kind of arrangement in which one party agrees to return part of his fee in order to obtain a volume of business from the referring party. The danger is that some settlement fees can be inflated to cover this additional party, resulting in a higher

total cost to you. For example, a title company might pay a fee to another party for bringing it title insurance business even though the other party performs no work and provides no service in connection with issuance of the title insurance policy. As another example, a lawyer might give a part of his fee to another party to the transaction in exchange for the referral of business.

It is also illegal to charge or accept a fee or portion thereof other than for services actually performed.

There are criminal penalties of both fine and imprisonment for any violation of these provisions of law. There are also provisions for you to recover three times the amount of the fee involved or a portion thereof. In any successful action to enforce your right, the court may award you court costs together with a fee for your attorney.

2. *Title Companies.* Another abuse prohibited by law is any requirement by the home seller that title insurance be purchased from a particular company. Under the law, sellers may not require, as a condition of sale, that title insurance be purchased by the buyer from any particular title company. A violation would make the seller liable to you in an amount equal to three times all charges made for the title insurance.

B. *Choices Open to the Buyer and Other Points to Remember.* Because the various parties to the settlement transaction have different interests, there will be many steps in the process of buying a home which call for caution on your part. As a home buyer, you have a number of choices open to you concerning settlement costs and services. Some points to keep in mind are:

1. *Understand The Role of the Real Estate Broker.* Although the real estate agent or broker usually provides helpful advice to you on many aspects of home buying and may in some areas supervise the settlement, he normally serves as agent of the seller. While the real estate licensing laws of most States require that the broker treat both buyer and seller fairly, you should not expect the broker to represent your interests to the exclusion of those of the seller.

The broker's basic objectives are to obtain a signed contract of sale which properly expresses the agreement of the parties and to complete the sale and earn a commission or fee. Before you sign, make sure that the sales contract correctly expresses your agreement with the seller on such important details as method of paying the sales price of the home, the time set for your move-in, and the status of fixtures and other personal property in the home.

A broker may recommend that you deal with a particular lender, title company, attorney, or provider of settlement services. Although this recommendation may be based on the broker's up-to-date knowledge of rates and quality of service, you should feel completely free to consider alternatives, compare rates and fees, and make your own decision on these matters.

It is up to you to review the documents carefully. Although the broker may offer helpful advice, keep in mind that you are the one who is spending the money to buy a home and are entitled to a full understanding of the costs. The broker's principal interest at settlement is to get the transaction closed and his fee or commission disbursed.

2. *Settlement attorneys, escrow and closing agents.* In some parts of the country, settlements are often conducted by attorneys who specialize in real estate transactions. In other parts of the country, the settlement may be conducted by an escrow or closing agent or by the lender or broker. Their primary concern is orderly completion of all the details called for in the sales contract and in the mortgage commitment.

Because mortgage lenders, unlike borrowers, go through settlement often, they often will not be present at the settlement, preferring to spell out in detail in a letter of instruction to the person conducting the closing that which they expect to be done before loan funds can be released.

You, the buyer, will not have a letter of instructions. You will be asked at settlement to make a number of decisions in areas with which you may have had little previous experience.

Before settlement, you should ask the broker, the settlement attorney, or an attorney retained by you what questions will probably come up. Write them down so that you may have time to think about decisions that are important to you.

Settlement attorneys do not mind answering your questions—that is a part of their job—but at the same time they may not invite questions. If you have doubts, ask questions. Don't let anyone rush you. There are likely to be lengthy documents to sign at settlement. If you or your attorney asks, you can usually get copies of the forms in advance.

3. *Legal representation.* If you feel unfamiliar or unsure with real estate settlements, and many people do, consider hiring your own attorney to represent you. If you hire an attorney, be certain that there is a clear understanding in advance about what services he is to perform and what his fee will be for those services. Some will quote a flat fee, others an hourly rate or one based on a percentage of the sales price. The important point is that you should know in advance how much you should expect to pay for his services. If you do not know an attorney who is well versed in real estate transactions, many local bar associations may be able to refer you to one who is.

4. *Discuss with lenders their requirements for settlement services.* The lender's legitimate business interest is in making a loan on terms which will provide a good yield with little risk. In selecting a lending institution, ask about requirements for property surveys, appraisals, escrows for taxes and insurance, and other settlement services. You may compare these requirements with those of other lenders.

Some lenders will give you the discretion to shop among different providers of settlement services. But, most lenders deal regularly with certain title companies, attorneys, appraisers, surveyors or others in whom they have confidence, and usually want to arrange for provision of all settlement services through these parties as a convenience to the buyer and lender. If you wish to bargain directly to reduce rates for settlement services, discuss this with various lenders.

Remember to compare also the mortgage interest rates and other mortgage terms quoted by different lenders. A lender may gain through higher mortgage interest over the repayment term what it gives up at the "front end" in reducing requirements for loan origination fees, discount points and other one-time charges which must be paid in cash at settlement. Other features of available loans should also be compared as you shop.

Feel free to select a lender other than the one recommended by the broker or seller. It is entirely possible that you may find financing which is more advantageous to you.

5. *Title insurance required by the lender protects the lenders.* You may buy a separate owner's title insurance policy for your own protection. Title insurance is often required to protect the lender against loss if a flaw in title is not found by the title search made when a home is purchased. The lender's title insurance policy will be paid for by you or by the seller according to local custom or the sales contract.

You and the lender have different interests in the property you are buying, and there are many kinds of title defects that can trouble you without creating problems for the lender. You may buy a separate owner's title insurance policy for your own protection in areas where this policy is not furnished by the seller as a matter of custom.

6. *Try to minimize the performance and cost of repetitive or excessive settlement requirements.* Some settlement costs are beyond your control, such as government transfer charges. Other items may be negotiable, however, such as certain services which the lender requires but which you pay for.

a. *Title search.* There may be no need for a full historical title search "back to the year one" each time title to a home is transferred. If you are buying a home which had recently changed hands, inquire at title companies about a "reissue rate." If the policy of the previous owner is available, take it to a title insurer before settlement. It may help you obtain a "reissue rate." Generally this rate, when permitted by State law or regulations, allows a reduction of the usual charge for a new policy if the previous policy was issued by the same title insurer or by another reputable company within a recent period.

Title search requirements are sometimes set by agencies which insure or guarantee the loan, or by investors who purchase mortgages originated by other lending institutions. The lender you deal with may not have discretion on eliminating or reducing these requirements.

b. *Survey.* The survey of the property may be simplified and the cost reduced if a full professional survey was performed recently. A new survey may not be needed to show that no recent changes have occurred which affect the validity of the last survey. A surveyor may be able to avoid the cost of a repetitive complete survey of the property if he has access to a recent survey which he can "update." Here again, the requirements of investors who buy loans originated by your lender may limit the lender's discretion to negotiate this point.

c. *Settlement agent.* Settlement practices vary from locality to locality, and even within the same county or city. In various areas settlements are conducted by the lending institutions, title insurance companies, escrow companies, real estate brokers, and attorneys for the buyer or seller. By investigating and comparing practices and rates, you may find that the first suggested settlement agent may not be the least expensive. You might save money by taking the initiative in arranging for settlement and selecting the firm and location which best meets your needs.

d. *Escrows.* The Real Estate Settlement Procedures Act of 1974 has placed limits on the amount of money which the lender can require you to place in escrow at settlement for later payment of property taxes and insurance.

Know your rights under this new Section 10 provision of the Act, as explained in the next Chapter.

#### ESCROW ACCOUNTS

Item 23 on the enclosed sample settlement statement form covers payments your lender may require you to make to an "escrow," "reserve," or "impound" account for insurance premiums, real estate taxes, and unpaid assessments.

Many lenders require that each monthly payment on the mortgage include amounts for taxes, and hazard insurance. When applicable, lenders will also collect mortgage insurance premiums and assessments payable to homeowner and other associations as well as to special assessment districts. These

## NOTICES

funds are set aside each month in escrow accounts and are accumulated to pay the taxes and other bills when they are due.

By law, the amount you pay into an escrow at settlement may not exceed your share of taxes and insurance accrued prior to settlement, plus 1/4th of the estimated amount which will come due for taxes and insurance in the 12-month period beginning at settlement. If taxes or insurance costs go up periodically over the life of your mortgage, the lender will need to collect more money for the escrow accounts to cover these increased costs, resulting in a larger monthly housing payment for you. Should these costs decline periodically, the lender should reduce the monthly escrow collection accordingly.

The escrow service provided by your lender is designed to meet ongoing expenses of homeownership. By spreading payments over the year it eliminates the prospect of being faced with large annual bills, perhaps at an inopportune time. On the other hand, you may want to manage your own payment of taxes and/or insurance, instead of paying into an escrow held by the lender. Discuss this point when shopping among lenders. Be aware, however, that certain escrow accounts are required by Federal regulation, and in some States by laws affecting State-chartered savings and loan associations.

## PREVIOUS SELLING PRICE DISCLOSURE

The lender is required by law before making a commitment to finance a mortgage on a house, which was completed more than 12 months prior to settlement, to confirm that the seller or his agent has disclosed in writing to the buyer the following information:

(1) The name and address of the present owner;

(2) The date the property was acquired by the present owner (the year only of acquisition need be given if the property was acquired more than two years previously); and

(3) If the seller has not owned the property for at least two years prior to the date of your loan application and has not used the property as a place of residence, the date and purchase price of the last "arm's length transfer" of the property, a list of subsequent improvements other than maintenance, and the cost of the improvements.

The purpose of this requirement is to inform you whether the house is being sold by an owner-occupant or by someone who has acquired the house and prepared it for resale. Many investors make a livelihood by investing in existing housing, making repairs and improvements, and reselling at a fair profit. However, abuses have occurred in which only superficial repairs have been made and homes have been sold at prices greatly in excess of their values. As a buyer, your knowledge of the previous selling price may help you determine the present value of the property.

The lender's obligation is considered met if he receives a copy of the written statement from the seller to you giving the information described above. At that time, the lender may make the mortgage loan commitment.

To back up your right to full disclosure concerning existing property, any person (or persons) who knowingly and willingly pro-

vide false information or fails to comply with disclosure requirements may be subject to criminal penalties of fine and imprisonment, and civil damages.

## JURISDICTION OF COURTS

If you have suffered damages through violations of the Real Estate Settlement Procedures Act of 1974 as described in the preceding pages, action may be brought in the United States District Court for the district in which the property involved is located, or in any other court of competent jurisdiction, within one year from the date of the occurrence of the violation. You may also have rights under other Federal or State laws.

## TRUTH IN LENDING DISCLOSURE

At the time of advance disclosure, you will receive a Truth in Lending statement as part of the standard settlement cost disclosure form. This Truth in Lending information will also appear on the standard settlement statement given to you upon completion of the settlement. The Truth in Lending statement discloses the Annual Percentage Rate ("APR") which you will pay on your mortgage loan. This rate may be higher than the contract interest rate quoted on your mortgage. This is because the contract rate includes only interest, but the APR expresses the total finance charge including certain credit costs besides interest on the loan.

The Truth in Lending statement will also disclose any additional charges for "prepayment" should you pay off the balance of the mortgage in full before it is due.

[No 38126]

CONFIDENTIAL ANNUAL REPORT SUPPLEMENT FOR CLASS I CARRIERS AND RAILROAD ANNUAL REPORT

Revision

MAY 9, 1975

At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 4th day of April, 1974.

This proceeding is being instituted on our own motion to consider revisions to the annual, special and periodic reports of the following Class I carriers or Class A carriers, if applicable, under the jurisdiction of the Commission.

Railroads  
Electric railways  
Common and contract motor carriers of passengers  
Common and contract motor carriers of property  
Inland and coastal waterways carriers  
Freight forwarders

Carriers in the following modes with annual operating revenues of \$1 million or more are also subject to the proposed revisions:

Express companies  
Pipeline carriers  
Refrigerator car lines  
Maritime carriers

The provisions relate to the establishment of a confidential annual report supplement for disclosure of Federal income tax information and the reinstatement of information on a schedule in the railroad annual report.

The confidential reporting technique is an outgrowth of legal proceedings concerning certain provisions of the Commission's report and order in Annual Reports of Class I Railroad Companies 341 I.C.C. 205 (1972). These provisions called for disclosure of Federal income tax information in the railroad annual report. The Commission's Order was set aside by a United States District Court order which ruled that such information should not be available to public inspection due to its confidential nature.

The proposed annual report supplement is essential for the effective administration of the responsibilities of the Commission. Federal income tax information presently provided in annual reports has proven to be insufficient to enable the Commission to evaluate the tax transactions which effect the financial stability of carriers. The proposed reinstatement of information in the railroad annual report will also aid this evaluation.

The proposed annual report supplement will provide complete information as to the relationship between the reporting carrier and its affiliates as it may affect the tax liability of the carrier. In addition, the report will provide complete information on the calculation of the tax liability. As a result, the true

impact of the affiliation on the tax situation of the carrier can be determined.

We believe the proposed revisions will aid the Commission in the effective interpretation of financial data. The revisions will also implement the Commission's accounting, responsibilities by facilitating early detection and resolution of questionable accounting procedures in the area of income taxes.

The first filing of the annual report supplement will be effective for the year ending December 31, 1974. However, railroads will file retroactive reports for the years ended December 31, 1972 and 1973 and a report for the year ending December 31, 1974 in order to coincide with the effective date of the Commission's order of July 17, 1972.

Upon consideration of the above described matters and good cause appearing therefore:

It is ordered, That a proceeding be, and it is hereby instituted under the authority of sections 12, 20, 220, 313 and 412 of the Interstate Commerce Act and pursuant to sections 553 and 559 of the Administrative Procedure Act with a view to adopting the proposed regulations set forth in Appendices A through P of this notice, and for the purpose of making such other and further action as the facts and circumstances may justify and require.

It is further ordered, That all Class I or Class A Railroads, Electric railways, Common and contract motor carriers of passengers, Common and contract motor carriers of property, Inland and coastal waterways carriers and Freight forwarders along with Express companies, Pipeline carriers, Refrigerator car lines and Maritime carriers with annual operating revenues of \$1 million or more subject to the Interstate Commerce Act are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views, and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any interested persons wishing to submit written statements of fact, views, or arguments shall file an original (and, if possible, 15 copies) of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by June 13, 1975 and that all such statements will be considered as evidence and as a part of the record in this proceeding.

It is further ordered, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, NW, Washington, D.C., during regular business hours.

And it is further ordered, That statutory notice of the institution of this proceeding be given to all respondents and

to the general public by mailing a copy of this order to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation, by posting a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

PART 1241—ANNUAL, SPECIAL OR PERIODIC REPORTS; CARRIERS SUBJECT TO PART I OF THE INTERSTATE COMMERCE ACT

1. Section 1241.21 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1241.11 Forms prescribed for Class I railroads.

(a) Commencing with the year . . .

(b) Commencing with reports for the year ended December 31, 1972, and thereafter, until further order, all Class I railroads as described in § 1240.1 of this chapter, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement R-1(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement R-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

2. Section 1241.21 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1241.21 Annual reports of electric railways.

(a) Commencing with reports . . .

(b) Commencing with reports for the year ending December 31, 1974, and thereafter, until further order, all Class I electric railways as described in § 1240.3 of this chapter, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement R-5(a). Such annual report supplement shall be of a confidential nature and not available to public inspection. Annual report supplement R-5(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

3. Section 1241.31 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1241.31 Annual reports of express companies.

(a) Commencing with the year . . .

(b) Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all express companies, with annual operating revenues of \$1 million or more, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement H(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement H(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

4. Section 1241.61 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1241.61 Annual reports of carriers by pipeline.

(a) Commencing with the year . . .

(b) Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all pipeline carriers, with annual operating revenues of \$1 million or more, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement P(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement P(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

5. Section 1241.70 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1241.70 Annual reports of refrigerator car lines owned or controlled by railroad companies.

(a) Commencing with reports . . .

(b) Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all refrigerator car lines, with annual operating revenues of \$1 million or more, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement B-1(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement B-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

PART 1249—REPORTS OF MOTOR CARRIERS

6. Section 1249.1 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1249.1 Annual reports of Class I carriers of property.

(a) Commencing with reports . . .

(b) Commencing with reports for the year ending December 31, 1974, and thereafter, until further order, all Class I carriers of property, as described in § 1240.5 of this chapter, shall be required to file Annual Report Supplement M-1(a). Such annual report supplement shall be of a confidential nature and not available to public inspection. Annual report supplement M-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

7. Section 1249.5 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1249.5 Annual reports of Class I carriers of passengers.

(a) Commencing with reports . . .

(b) Commencing with reports for the year ending December 31, 1974, and thereafter, until further order, all Class I carriers of passengers, as described in § 1240.4 subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement MP-1(a). Such annual report supplement shall be of a confidential nature and not available to public inspection. Annual report supplement MP-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

PART 1250—REPORTS OF WATER CARRIERS

8. Section 1250.10 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1250.10 Annual reports of Class A and B water carriers on inland and coastal waterways.

(a) Commencing with the year . . .

(b) Commencing with reports for the year ending December 31, 1974, and thereafter, until further order, all Class

A inland and coastal waterway carriers, as described in § 1240.2 of this chapter, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement W-1(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement W-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

9. Section 1250.20 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1250.20 Form prescribed for maritime carriers.

(a) Commencing with the year . . .

(b) Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all maritime carriers, with annual operating revenues of \$1 million or more, subject to the provisions of section 313, Part III, of the Interstate Commerce Act, shall be required to file Annual Report Supplement M(a). Such annual report supplement shall be of a confidential nature and not available for public inspection. Annual report supplement M(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

PART 1251—REPORTS OF FREIGHT FORWARDERS

10. Section 1251.1 is amended by codifying the first paragraph and adding paragraph (b). As amended the instruction reads:

§ 1251.1 Annual reports of Class A freight forwarders.

(a) Commencing with reports . . .

(b) Commencing with reports for the year ending December 31, 1974, and thereafter, until further order, all Class A freight forwarders, as described in § 1240.6 of this chapter, subject to the provisions of the Interstate Commerce Act, shall be required to file Annual Report Supplement F-1(a). Such annual report supplement shall be of a confidential nature and not available to public inspection. Annual report supplement F-1(a) shall be filed in duplicate with the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C., 20423, on or before October 31 of the year following the year to which it relates.

PROPOSED RULES

22469

APPENDIX

Commencing with the annual report supplement to be filed for the year ending December 31, 1974, all Class I carriers subject to the provisions of Part I and Part III of the Interstate Commerce Act shall compute and report the Federal income tax information requested in Schedules A through C of this report. The report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Washington, D.C., 20423, by October 31, of the year following that for which the report relates. One copy should be retained for the respondent's files.

Information reported on Annual Report Supplement R-1(a) is confidential and will not be available for public inspection. To insure proper handling, please return this report sealed in the envelope provided.

## PROPOSED RULES

197

INTERSTATE COMMERCE COMMISSION  
BUREAU OF ACCOUNTS

## RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report hereunder a reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount.

2. If the respondent is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such consolidated return.

## NOTICE

Commencing with the annual report supplement to be filed for the year ending December 31, 1974, all Class I carriers, subject to the provisions of Part I and Part III of the Interstate Commerce Act shall compute and report the Federal income tax information requested in Schedules A through C of this report. The report should be filled out in triplicate and two copies returned to the Interstate Commerce Commission, Washington, D.C., 20423, by October 31, of the year following that for which the report relates. One copy should be retained for the respondent's files.

Information reported on Annual Report Supplement M-1(A) is confidential and will not be available for public inspection. To insure proper handling, please return this report in the sealed envelope provided.

BUREAU OF ACCOUNTS

## RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report hereunder a reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount.

2. If the respondent is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such consolidated return.

Item (Dollars in thousands)	\$ Amount
Net income for year per MP-1 _____	
Reconciling amounts (list additional income and unallowable deductions followed by additional deductions and nontaxable income): _____ _____ _____ _____ _____ _____ _____ _____	       
Total tax net income _____	XXXXXXXXXXXXXXXXXXXX
Amount taxed as ordinary income _____	XXXXXXXXXXXXXXXXXXXX
Amount taxed as capital gains _____	XXXXXXXXXXXXXXXXXXXX
Total _____	XXXXXXXXXXXXXXXXXXXX

## reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

### Rules Going Into Effect Today

NOTE: There are no items eligible for inclusion in the list of RULES GOING INTO EFFECT.

### List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5286. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

**federal register**

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

**Rules**  
Students, full-time; employment at subminimum wages; correction 22546

## list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

### Title 3—The President

PROCLAMATION 4375

### Prayer for Peace

Memorial Day, May 26, 1975

*By the President of the United States of America*

#### A Proclamation

At the height of the Civil War, President Lincoln proclaimed at a battlefield cemetery "that we here highly resolve that these dead shall not have died in vain." Shortly after that tragic war, a day was set aside each year to honor those who gave their lives.

Over 100 years have passed since that simple but moving ceremony at Gettysburg. There have been many Memorial Days, and many more Americans have died in defense of what we believe in. As Thomas Paine said, "Those who would reap the blessings of freedom must . . . undergo the fatigue of supporting it." Today, because of the sacrifice and courage of American men and women, we are a free Nation at peace.

Let us dedicate ourselves today, and every day, to honoring those valiant Americans who died in service to their country. Let us gain strength from their sacrifice and devote ourselves to the peaceful pursuits which freedom allows and progress demands.

With faith in ourselves, future Memorial Days will find us still united in our purpose. Let us join together in working toward the greatest memorial we can construct for those who lay down their lives for us—a peace so durable that there will be no need for further sacrifices.

In recognition of those Americans to whom we pay tribute today, the Congress, by joint resolution of May 11, 1950 (64 Stat. 158), has requested that the President issue a Proclamation calling upon the people of the United States to observe each Memorial Day as a day of prayer for permanent peace and to designate a period during that day when the people of the United States might unite in prayer.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate Memorial Day, Monday, May 26, 1975, as a day of prayer for permanent peace, and I designate the hour beginning in each locality at 11 o'clock in the morning of that day as a time to unite in prayer.

I urge all of America's news media to assist in this observance.

I direct that the flag of the United States be flown at half-staff until noon on Memorial Day on all buildings, grounds, and naval vessels of

## THE PRESIDENT

the Federal Government throughout the United States and all areas under its jurisdiction and control.

I also call upon the Governors of the fifty States, the Governor of the Commonwealth of Puerto Rico, and appropriate officials of all local units of government to direct that the flag be flown at half-staff on all public buildings during the customary forenoon period; and I request the people of the United States to display the flag at half-staff from their homes for the same period.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-second day of May, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

*Gerald R. Ford*

## THE PRESIDENT

22531

Executive Order 11861

May 21, 1975

## Placing Certain Positions in Levels IV and V of the Executive Schedule

By virtue of the authority vested in me by section 5317 of title 5 of the United States Code, it is ordered as follows:

SECTION 1. The following offices and positions are placed in level IV of the Executive Schedule:

- (1) Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare.
- (2) Director, National Institutes of Health, Department of Health, Education, and Welfare.
- (3) Administrator, Health Services Administration, Department of Health, Education, and Welfare.
- (4) Director, United States Secret Service, Department of the Treasury.
- (5) Associate Directors, (4) Office of Management and Budget, Executive Office of the President.
- (6) Director of Telecommunications and Command Control Systems, Department of Defense.
- (7) Principal Deputy Director of Defense Research and Engineering, Department of Defense.
- (8) Deputy Under Secretary for International Labor Affairs, Department of Labor.
- (9) Deputy Under Secretary, Department of Transportation.
- (10) Assistant to the Secretary for Congressional Affairs, Department of Commerce.
- (11) Special Prosecutor, Department of Justice.
- (12) Associate Attorney General, Department of Justice.
- (13) Adviser to the Secretary (Counselor, Economic Policy Board), Department of the Treasury, to terminate effective June 1, 1975.

SEC. 2. The following offices and positions are placed in level V of the Executive Schedule:

- (1) Principal Deputy Assistant Secretary of Defense (Comptroller), Department of Defense.
- (2) Deputy Assistant Secretary of Defense for Reserve Affairs, Department of Defense.
- (3) Assistant Secretary, Comptroller, Department of Health, Education, and Welfare.

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 5—Administrative Personnel CHAPTER I—CIVIL SERVICE COMMISSION PART 213—EXCEPTED SERVICE Department of Agriculture

Section 213.3313 is amended to show that one additional position of Assistant to the Administrator, Rural Electrification Administration, is excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER, § 213.3313(b) (4) is revised as set out below:

#### § 213.3313 Department of Agriculture.

- (b) Rural Electrification Administration.
- (4) Two Assistants to the Administrator.

### Title 7—Agriculture

### CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

### SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 4]

### PART 731—CLOSING DATES FOR TRANSFER, AND FOR RELEASE AND REAPPORTIONMENT

#### Cotton and Peanuts

This amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.). The purpose of this amendment is to change the closing dates for transfer and for release and reapportionment of cotton and peanuts.

Since farmers need to know the dates for effecting transfers, release and reapportionment of 1975 marketing quotas and farm acreage allotments as soon as possible, it is hereby determined that compliance with the notice, procedure, and effective date provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest, and this document shall become effective May 23, 1975.

The regulations for establishing closing dates for transfer and for release and reapportionment under Part 731 (37 FR 28124, 39 FR 7416, 39 FR 15759 and 40 FR 14602) are amended by changing the closing dates in § 731.2 for Georgia, Mississippi, North Carolina, Tennessee, and Texas as follows:

## § 731.2 Closing dates.

State	Closing dates for transfer by lease, sale, or owner (except rice and tobacco); release and reapportionment requests	Final date for reapportionment
(1)	(2)	(3)
Georgia (peanuts).	February 28.	1 month following applicable closing dates for transfer, release, and reapportionment.
Georgia (cotton).	March 31.	
Mississippi.	March 31.	Do.
North Carolina (zone 1).	March 10.	Do.
North Carolina (zone 2).	April 1.	Do.
North Carolina (cotton).	April 11.	Do.
Tennessee (cotton, peanuts, and rice).	April 30.	Do.
Tennessee (tobacco).	June 25.	Do.
Texas (zone 1).	April 1.	Do.
Texas (zone 2).	May 1.	Do.

<sup>1</sup> For commodities other than cotton. For listing of counties see 37 FR 28124.  
<sup>2</sup> For cotton in both zone 1 and zone 2.  
<sup>3</sup> For counties see 10 FR 11002.

(Secs. 313, 316, 318, 319, 344, 344a, 347, 353, 358, 358a, 375, 378, 52 Stat. 47, as amended, 75 Stat. 469, as amended, 81 Stat. 120, as amended, 85 Stat. 23, 52 Stat. 57, as amended, 79 Stat. 1197, as amended, 52 Stat. 59, as amended, 52 Stat. 81, as amended, 55 Stat. 88, as amended, 81 Stat. 856, as amended, 52 Stat. 66, as amended, 72 Stat. 995, as amended; 7 U.S.C. 1313, 1314b, 1314d, 1314e, 1344, 1344b, 1347, 1353, 1358, 1358a, 1375, 1378)

Effective date: May 23, 1975.

Signed at Washington, D.C., on May 12, 1975.

GLENN A. WEIR,  
 Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.75-13594 Filed 5-22-75; 8:45 am]

# CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 693]

## PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period May 25-31, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was ar-

vised at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

### § 910.993 Lemon Regulation 693.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The Committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons will be strong this week due to warm weather over a large portion of the country. Average f.o.b. price was \$6.23 per carton the week ended May 17, 1975, compared to \$6.20 per carton the previous week. Track and rolling supplies at 130 cars were down 20 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to

submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 20, 1975.

(b) Order. (1) The quantity of lemons grown in California and Arizona which may be handled during the period May 25, 1975 through May 31, 1975, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 21, 1975.

CHARLES R. BRADER,  
 Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-13805 Filed 5-22-75; 11:32 am]

### [Plum Reg. 11]

## PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

### Regulation by Grades and Sizes

This regulation requires that all California plums grade U.S. No. 1 grade except that additional tolerances for defects not considered serious, including healed cracks, and gum spots, are permitted for specified varieties. It also establishes minimum size requirements for certain specified varieties in terms of the maximum permissible number of plums in an eight-pound sample. This action is necessary to assure that the plums shipped will be of suitable quality and size in the interest of consumers and producers.

Findings. (1) Pursuant to the amended marketing agreement and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh pears, plums, and peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the

aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon the appraisal of the current and prospective market conditions for California plums. The committee estimates that 8,061,000 packages of plums will be available for shipment in the 1975 season compared with actual shipment of 9,998,000 packages last season. Peach production in the nine southern states is forecast at 23 percent more than last year. Industry reports indicate that 1975 shipments of fresh California peaches will be about three percent larger than last year. California nectarine shipments are estimated at nearly 10 percent less than last year. Such peaches and nectarines provide strong competition to California fresh plums. The grade and size requirements hereinafter set forth are necessary to prevent the handling of California plums of a lower grade or smaller size than specified herein for such plums so as to provide good quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 24, 1975. A reasonable determination as to the supply of, and the demand for, such plums, which are currently regulated pursuant to Plum Regulation 10 (39 FR 18090, 23987) must await the development of the crop thereof, and adequate information thereof was not available to the Plum Commodity Committee until May 7, 1975, on which date an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified was promptly submitted to the Department on May 9, 1975; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this regulation should be applicable to all such shipments during the period hereinafter specified in order to effectuate the declared policy of the act; the provisions of this regulation are identical with the aforesaid recommendation

of the committee, information concerning such provisions and effective time has been disseminated among handlers of such plums; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

### § 917.438 Plum Regulation 11.

(a) Order. During the period May 24 through July 7, 1975, no handler shall ship any lot of packages or containers of any plums, other than the varieties named in paragraph (b) hereof, unless such plums grade at least U.S. No. 1.

(b) During the period May 24 through July 7, 1975, no handler shall ship:

(1) Any lot of packages or containers of Tragedy or Kelsey plums unless such plums grade at least U.S. No. 1, with a total tolerance of 10 percent for defects not considered serious damage in addition to the tolerances permitted by such grade; or

(2) Any lot of packages or containers of Angelino, Andy's Pride, Bee Gee, Casselman, Empress, Fresno Rosa, Grand Rosa, Improved Late Santa Rosa, Late Santa Rosa, Linda Rosa, Red Rosa, Rosa Grande, Roysum, and Swall Rosa plums unless such plums grade at least U.S. No. 1, except that healed cracks emanating from the stem end which do not cause serious damage shall not be considered as a grade defect with respect to such grade; or

(3) Any lot of packages or other containers of Late Tragedy plums unless such plums grade at least U.S. No. 1, except that gum spots which do not cause serious damage shall not be considered as a grade defect with respect to such grade.

(c) During the period May 24 through July 7, 1975, no handler shall ship any package or other container of any variety of plums listed in Column A of the following Table I unless such plums are of a size that an eight-pound sample, representative of the sizes of the plums in the package or container, contains not more than the number of plums listed for the variety in Column B of said table.

## CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

### SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., 1970 and Subsequent Crops Rice Supplement, Amdt. 8]

## PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

### Subpart—1970 and Subsequent Crops, Rice Loan and Purchase Program

#### COMPLIANCE REQUIREMENTS

The regulations issued by the Commodity Credit Corporation (CCC), which appear at 35 FR 8443 and 8873, as amended by 37 FR 8060, and which contain the Regulations Governing 1970 and Subsequent Crops Rice Loan and Purchase Program, are hereby amended as follows:

Section 1421.303 is amended to define a rice producer and to provide that a rice producer, in order to be eligible for loans and purchases, must be in compliance with the rice acreage allotment for any farm on which he has a producer interest. As the 1975 crop of rice is now being planted in certain parts of the country, and producers need to know the compliance requirements for loan eligibility, it is impracticable and contrary to the public interest to follow the notice of proposed rulemaking procedure with respect

to this amendment. The amended section reads as follows:

**§ 1421.303 Compliance requirements.**

(a) *Definition of rice producer.* A producer, for loan and purchase eligibility, shall be considered as a rice producer when he actively participates in the farming operations necessary to produce and harvest a crop of rice on the farm and shares in a predetermined and fixed portion of the rice crop or the proceeds therefrom by virtue of furnishing all or part of the land on which the rice is being produced or the labor, water, or equipment necessary to produce and harvest the crop.

(b) *Eligibility for loans and purchases.* An eligible producer, for loan and purchase purposes, shall be a rice producer on whose farm the rice acreage allotment, which was established for the farm under the provisions of the Rice Acreage Allotment Regulations of Part 730 of this title, has not been knowingly exceeded. If a producer has an interest in a rice crop produced on more than one farm, he must also be in compliance with the acreage allotment on each other farm in which he has an interest.

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 401, 408, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1421, 1441, 1428)

Effective date: May 23, 1975.

Signed at Washington, D.C. on May 12, 1975.

GLENN A. WEIR,  
Acting Executive Vice President,  
Commodity Credit Corporation.

**CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE**

**SUBCHAPTER D—GUARANTEED LOANS**  
[FmHA Instructions 449.1 and 449.2]

**PART 1842—BUSINESS AND INDUSTRIAL LOANS**  
**Interest Rates**

Section 1842.23, Part 1842, Title 7, Code of Federal Regulations (39 FR 34263; 39 FR 36852), is amended to add paragraph (e) to this section to provide that the interest rate for insured loans will be the interest rate in effect at the time the loan is approved or closed whichever is lower. This amendment is not issued for proposed rulemaking because pending loan applications would be delayed and such delay would be contrary to the public interest. Interested persons are invited, however, to submit written comments, suggestions, or objections regarding this amendment to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6315, South Building, Washington, D.C. 20250, on or before June 15, 1975. Comments thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. All written submissions made pursuant to this notice will be made available for public

inspection at the Office of the Chief, Directives Management Branch during regular business hours (8:15 a.m. to 4:45 p.m.).

As added, § 1842.23(e) reads as follows:

**§ 1842.23 Interest rate to the borrower.**

(e) The interest rate for insured loans will be the rate in effect at the time the loan is approved or at the time the loan is closed, whichever is lower.

(7 U.S.C. 1866; delegation of authority by the Sec. of Agr., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

*Effective date.* This amendment is effective May 23, 1975.

Dated: May 16, 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

**Title 13—Business Credit and Assistance**  
**CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE**

**PART 311—NONDISCRIMINATION**  
**Grant and Loan Program**

Part 311 of Chapter III of Title 13 of the Code of Federal Regulations is hereby amended.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking and opportunity for public participation and delay in effective date are inapplicable.

The purpose of this amendment is to make a technical change concerning minority representation on county or multicounty planning organizations.

1. Section 311.60 is revised to read as follows:

**§ 311.60 Purpose.**

This subpart sets forth EDA requirements for the participation of minority persons on district organizations, on county and multicounty planning organizations, and on OEDP committees; except, the provisions of this subpart shall not apply to Title IX grants made to county or multicounty planning organizations during Fiscal Year 1975. This subpart establishes minimum minority representation requirements and implementation procedures for the selection and approval of minority representatives on such organizations and committees and also establishes affirmative action program requirements for the employment of minority persons on the staff of such organizations. Where State laws or regulations preclude the degree of minority representation required by this subpart, EDA will consult with the in-

dividual planning and development organizations and OEDP committees and determine the means to effect meaningful involvement of minorities.

*AUTHORITY:* Sec. 701, Pub. L. 89-136 (August 28, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970) as amended (35 FR 5970 as amended at 40 FR 12532).

*Effective date:* This amendment becomes effective on May 20, 1975.

*Date:* May 5, 1975.

WILMER D. MIZELL,  
Assistant Secretary  
for Economic Development.

[FR Doc.75-13530 Filed 5-22-75; 8:45 am]

**PART 313—JOB OPPORTUNITIES PROGRAM**

**Interim Regulations**

The Economic Development Administration hereby publishes interim regulations to amend Title 13 of the Code of Federal Regulations by adding a new Part 313.

These regulations describe procedures by which allocations and funds are made available under the Job Opportunities Program as established by Title X of the Public Works and Economic Development Act of 1965, as amended by Pub. L. 93-567.

Part 313 consists of two subparts. Subpart A deals with general program requirements and allocation procedures for the Department of Commerce for Title X. Subpart B which will be published at a later date will cover the requirements for programs or projects which are eligible for Title X assistance under allocations made by the Department of Commerce to the Economic Development Administration.

Although Title X was enacted on December 31, 1974, there have not, as yet, been any allocations under its provisions. Funds to implement it were not made available until April 11, 1975, because of pending recommendations by the Executive branch for alternative use. In addition, the original recommendations submitted by agencies under § 1004 were considered too numerous for the available funds, and in some instances lacked adequate description. These recommendations were returned to the submitting agencies for further clarification and refinement. It is expected that all recommendations will have been resubmitted by the date of publication of these Interim Regulations.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable.

However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553 interested persons may submit writ-

ten comments or suggestions to the Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230 by June 2, 1975. All suggestions will be considered in revising or amending the interim regulations.

Consideration has been given as to whether matters set forth in these regulations constitute a major proposal with an inflationary impact within the meaning of OMB Circular A-107 and interpretative guidelines as issued by the Department of Commerce. It has been determined that these regulations do not constitute action requiring an inflationary impact statement.

Accordingly, the Interim Regulations shall read as follows:

**Subpart A—Program Description and Allocation of Funds**

**Sec.**

**313.1 Purpose.**

**313.2 Definitions.**

**313.3 Recommendations for the allocation of funds for job producing programs and projects.**

**313.4 Final approval of allocations.**

**313.5 Program review and request for funds.**

**313.6 Eligibility of programs and projects.**

**313.7 Criteria for allocation of funds.**

**313.8 Limitations.**

*AUTHORITY:* Sec. 701 and 1006, Pub. L. 89-136 (August 28, 1965); 42 U.S.C. 3211; 79 Stat. 570; as amended by Pub. L. 93-567 (December 31, 1974); and Department of Commerce Organization Order 10-4 (April 1, 1970) as amended (35 FR 5970 as amended at 40 FR 12532).

**Subpart A—Program Description and Allocation of Funds**

**§ 313.1 Purpose.**

The purpose of this subpart is to set forth the general requirements and procedures pursuant to which the several eligible Federal programs and projects may receive financial assistance under the Job Opportunities Program established by Title X of the Public Works and Economic Development Act of 1965, as amended by Pub. L. 93-567. Requirements that apply only to EDA programs or projects which are eligible for financial assistance under this part are contained in Subpart B.

**§ 313.2 Definitions.**

(a) "Eligible Area" as used in this part means:

(1) any area which the Secretary of Labor designates as an area which has a rate of unemployment equal to or in excess of 6.5 percent for three consecutive months; or

(2) any area designated pursuant to § 204(c) of the Comprehensive Employment and Training Act of 1973; or

(3) any area designated by the Assistant Secretary pursuant to section 401 of the Public Works and Economic Development Act of 1965, as amended, as a redevelopment area.

**§ 313.3 Recommendation for the allocation of funds for job producing programs and projects.**

(a) The Assistant Secretary may recommend that funds be allocated to de-

partments, agencies, and instrumentalities of the Federal Government and to regional commissions established by section 101 of the Appalachian Regional Development Act of 1965 or pursuant to section 502 of the Public Works and Economic Development Act of 1965, as amended, for use in funding programs and projects eligible under existing program authorities and qualifying under § 313.6 in order to expand or accelerate the job creating impact of such programs or projects for unemployed persons in eligible areas.

(b) No program or project eligible for assistance may be approved until the officials of the appropriate units of general government in the affected area have an adequate opportunity to comment on the specific proposal.

**§ 313.4 Final approval of allocations.**

Final approval of allocations of funds to the several Federal programs implementing Title X of the Act shall be reserved to the Secretary pursuant to paragraph 3 of Amendment 1 of Department of Commerce Organization Order 10-4.

**§ 313.5 Program review and request for funds.**

(a) Each department, agency or instrumentality of the Federal Government and each regional commission established by § 101 of the Appalachian Regional Development Act of 1965 or by § 502 of the Public Works and Economic Development Act of 1965, as amended, shall:

(1) complete a review of its budget, plans and programs including State, sub-state and local development plans filed with such department, agency or commission;

(2) evaluate the job creation effectiveness of programs and projects for which funds are proposed to be obligated in calendar year 1975 and additional programs and projects for which funds could be obligated in such year with Federal financial assistance under this part;

(3) submit to the Assistant Secretary recommendations for programs and projects which have the potential to stimulate the creation of jobs for unemployed persons in eligible areas, together with appropriate requests for the funds needed for each program or project.

(b) Within 30 days of receipt the Assistant Secretary and the Secretary of Labor shall jointly review such recommendations and fund requests to determine eligibility under § 313.6.

(c) Subject to the final approval of the Secretary, the Assistant Secretary then shall, after consultation with appropriate departments, agencies and instrumentalities of the Federal Government or regional commissions, make allocations of funds to eligible programs and projects in accordance with the priority criteria set forth in § 313.7.

**§ 313.6 Eligibility of programs and projects.**

Funds allocated or utilized by the Assistant Secretary shall be available only for programs or projects which the Assistant Secretary and the Secretary of

Labor shall jointly determine are programs or projects:

(a) which will contribute significantly to the reduction of unemployment in the area;

(b) which can be initiated or strengthened promptly;

(c) with respect to which a substantial portion can be completed within 12 months after such allocation is made;

(d) which are not inconsistent with locally approved comprehensive plans for the jurisdiction affected, whenever such plans exist; and

(e) which will be approved giving first priority to programs and projects which are most labor intensive.

**§ 313.7 Criteria for allocation of funds.**

(a) In addition to the eligibility criteria outlined in § 313.6, the Assistant Secretary, in allocating or utilizing funds under this part, shall assure that priority consideration is given to:

(1) The severity of unemployment in the area; and

(2) The appropriateness of the proposed activity in relating to the number and needs of unemployed persons in eligible areas.

(b) Funds will be allocated on a competitive basis to those applicants which best satisfy the eligibility factors in § 313.6 and the criteria in paragraph (a) of this section.

(c) In making allocations of funds the Assistant Secretary may require such terms and conditions for utilization of these funds as he determines are necessary to carry out the purpose of Title X of the Public Works and Economic Development Act of 1965, as amended.

**§ 313.8 Limitations.**

A minimum of 50% of Part 313 funds shall be used for programs and projects in which no more than 25% of the funds will be used for non-labor costs.

(a) Programs and projects receiving funds which are made available by the Assistant Secretary under this subpart shall be administered by the head of the department, agency or instrumentality of the Federal Government authorized to administer such project or program. All provisions of law authorizing and regulating such programs and projects shall be applicable except provisions:

(1) Requiring allocation of funds among the States;

(2) Limiting the total amount of such grants for any period; or

(3) Relating to the Federal contribution to any State or local government, whenever the President or head of such department, agency, or instrumentality of the Federal Government determines that any non-Federal contribution cannot reasonably be obtained by the State or local government concerned.

(b) Subject to available projects submitted by departments, agencies and instrumentalities of the Federal Government and regional commissions, the Assistant Secretary shall, in making allocations, ensure that Title X funds are equitably distributed to urban and rural areas. Approximately 60 percent, but not less

than 45 percent, of the available funds shall be allocated to projects in urban areas. Approximately 40 percent, but not less than 30 percent of such funds shall be allocated to projects in rural areas.

(c) Programs and projects receiving funds which are made available by the Assistant Secretary under this part shall be initiated within a reasonable time period which shall be specified by the Assistant Secretary. If a program or project has not been initiated within the time period specified, the funds for such program or project shall be returned to the Assistant Secretary for reallocation.

**Effective date.** This interim regulation becomes effective on April 11, 1975.

Dated: May 16, 1975.

WILMER D. MIZEL,  
Assistant Secretary  
for Economic Development.

#### Title 14—Aeronautics and Space

#### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-GL-6; Amdt. 39-2216]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### Hartzell Propellers

Amendment 39-2136 (40 FR 12772), AD 75-07-05 requires inspection, and repair or replacement of certain propeller blades on the Hartzell HC-C2YK-1( ) series propellers. After issuing Amendment 39-2136, the agency determined that further clarification of the applicable type blades, propeller models and serial number designations was necessary. Therefore, the Airworthiness Directive is being amended to preclude any misunderstanding about the identification of these items.

Since this amendment provides a clarification only and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697 and 14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2136 (40 FR 12772), AD 75-07-05, is amended by inserting the following applicability statement in lieu of the present statement:

Applies to all Hartzell ( ) 7666( ) type blades (with or without an "A" suffix letter) with any serial number preceding C38994 (i.e., all blades with serial numbers without a prefix letter and those with "A", "B" and "C" prefix letters thru serial number C38993). These blades are used on, but not limited to the Model ( ) HC-C2YK-1( ) ( ), HC-C2YK-2( ) ( ), and HC-C2YK-4( ) ( ) series propellers. These propellers are installed on, but not limited to Pitts S-2A, Piper PA-28-180 (STC SA2213 WE), PA-28R-180, Piper PA-28R-200, Piper PA-34-200 and Mooney M20( ) series aircraft models. Those blades only used with Hartzell HC-C2YK-2(-G)( ) damper type propellers (hub model designation with "G" suffix letter) are excluded.

This amendment becomes effective May 30, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois on May 16, 1975.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

[FR Doc. 75-13521 Filed 5-22-75; 8:45 am]

[Airworthiness Docket No. 75-WE-35-AD; Amdt. 39-2215]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### McDonnell Douglas Model DC-9 Series Airplanes, Certificated in All Categories, Including Military C-9A, C-9B Airplanes

There has been a report of an incident wherein the nose landing gear could not be extended by means of the manual release system—the airplane made an emergency landing with the nose gear retracted. It was determined that accumulated liquids in the nose landing gear emergency uplock release mechanism pressure can, P/N 9910073-87, had frozen and prevented operation of the release mechanism and subsequent extension of the nose gear. The manufacturer issued Service Bulletin S/B 53-91 to operators of Model DC-9 and Military C-9A and C-9B airplanes, which provides instructions for retrofit of a pressure can cover, P/N 9910073-281, permanent removal of the can drain plug, P/N NAS 1103-1, and, at the operator's option, removal of the nutplate, to preclude accumulation of liquids and/or the formation of ice. The agency has determined that the modification, described in Douglas Service Bulletin S/B 53-91, dated March 28, 1969, or later FAA-approved revision is an approved modification and must be accomplished. Production airplanes, P/N 460 and subsequent, incorporate the cover, P/N 9910073-281, and retain the 190/194 DIA. drain hole; the nutplate has been eliminated.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require modification of the pressure can (including removal of the nutplate) per the manufacturer's instructions specified in Service Bulletin 53-91, a one-time-only initial visual inspection, interim repetitive visual checks pending accomplishment of the modification, and terminating action.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedures hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS, Applies to Model DC-9 series airplanes, certificated in all categories, including Military C-9A and C-9B airplanes, listed in Douglas Service Bulletin No. 53-91, Revision 1, dated October 9, 1969, or later FAA-approved revisions.

Compliance required as indicated. To prevent possible restriction of operation of the nose landing gear manual release system, as the result of the accumulation of liquids and formation of ice in the nose landing gear emergency uplock release mechanism pressure can, P/N 9910073-87, accomplish the following:

- (a) Within 12 flight hours time in service after the effective date of this AD, unless already accomplished:
- (1) Permanently remove the pressure can drain plug, P/N NAS 1103-1; and,
- (2) Inspect for and drain any liquid.
- (b) Thereafter, check once daily while in service, until (c), below, is accomplished, to ascertain that the drainhole is clear.
- (c) Within the next 1600 hours time in service after the effective date of this AD, unless already accomplished:

Modify the nose landing gear emergency uplock release mechanism pressure can, P/N 9910073-87, in accordance with the instructions in Douglas Service Bulletin 53-91, dated March 28, 1969, or later FAA-approved revisions, or an equivalent means approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Note: The drain plug nutplate, listed in S/B 53-91, as an optional removal item, must be permanently removed per the requirements of this AD.

(d) The requirements of this AD may be terminated when (c), above has been accomplished.

This amendment becomes effective May 29, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on May 15, 1975.

ROBERT H. STANTON,  
Director,  
FAA Western Region.

[FR Doc. 75-13520 Filed 5-22-75; 8:45 am]

[Docket No. 75-NE-23; Amdt. 39-2217]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### Sikorsky S-64E and S-64F Helicopters

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on May 12, 1975, and made effective immediately, before further flight, as to all known United States operators of Sikorsky S-64E and S-64F model helicopters. The directive requires removal of the torque-meter engine to gearbox shaft and gear assemblies prior to the accumulation of 3000 hours total time in service due to failure of an index wheel of the torque-meter engine to gearbox shaft and gear assembly which resulted in serious damage to components of the main rotor control system.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the

airworthiness directive effective immediately as to all known United States operators of S-64E and S-64F helicopters by individual telegrams, dated May 12, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

SIKORSKY AIRCRAFT, Applies to all Sikorsky Aircraft Model S-64E and Model S-64F helicopters. To prevent failure of the torque-meter engine to gearbox shaft and gear assembly and consequent secondary damage to the main rotor control system components, remove prior to further flight, torque-meter engine to gearbox shaft and gear assemblies, P/N 6435-20664-042, with 3000 or more hours total time in service. Replace those assemblies removed with P/N 6435-20664-042 assemblies which have less than 3000 hours total time in service.

This amendment becomes effective on May 23, 1975, for all persons except those to whom it was made effective immediately by telegram.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on May 16, 1975.

QUENTIN S. TAYLOR,  
Director,  
New England Region.

[Airspace Docket No. 75-SO-52]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Laurinburg, N.C., transition area.

The Laurinburg transition area is described in § 71.181 (40 F.R. 441). In the description, an extension, predicated on the 225° bearing from Rocky Ford RBN, was designated to provide controlled airspace protection for IFR aircraft executing the NDB RWY 5 Instrument Approach Procedure. Effective June 12, 1975, the final approach bearing will be changed to 226°. It is necessary to alter the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 12, 1975, as hereinafter set forth.

In § 71.181 (40 F.R. 441), the Laurinburg, N.C., transition area is amended as follows: "... 225° ... " is deleted and "... 226° ... " is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on May 15, 1975.

PHILLIP M. SWATEK,  
Director,  
Southern Region.

#### Title 20—Employees' Benefits

#### CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 5, further amended]

#### PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

##### Termination of Inpatient Routine Nursing Salary Cost Differential

On April 3, 1975, there was published in the FEDERAL REGISTER (40 FR 14934), a Notice of proposed rule making with a proposed amendment to Subpart D of Regulations No. 5 (20 CFR Part 405), regarding the termination of the inpatient routine nursing salary cost differential. Interested parties were given 30 days in which to submit written comments or suggestions thereon. Comments and suggestions received with regard to this notice of proposed rule making, responses thereto, and changes in the proposed regulation are summarized below.

The notice of proposed rule making pointed out that an inpatient routine nursing salary cost differential to recognize the above-average costs of inpatient routine nursing care furnished to Medicare beneficiaries became effective July 1969. However, since that time, there have been changes in the Medicare law, changes in the way services are furnished, and changes in the way in which Medicare reimburses for routine services, and these changes gave rise to a decision to terminate recognition of this cost differential. One effect of the termination of the inpatient routine nursing salary cost differential will be that Medicaid payments will increase since the Medicare routine nursing cost differential is subtracted from the total allowable route nursing service costs in determining reimbursement for Medicaid patients.

Many who commented requested that additional data be furnished to further explain the changes in the Medicare law and the changes in the way services are furnished which gave rise to the decision to terminate recognition of the inpatient routine nursing salary cost differential.

Pub. L. 92-603, the Social Security Amendments of 1972, 86 Stat. 1329, expanded the scope of Medicare coverage to include certain beneficiaries in the below-age-65 population. As a result, as of January 1975, approximately 8.5 percent of the total number of Medicare beneficiaries were below age 65. Also, it has been estimated that approximately 28 percent of all individuals currently entering on the Medicare rolls are under age 65. Therefore, it can be expected that the ratio of below-age-65 beneficiaries to the total Medicare population will continue to increase. The larger the segment of below-age-65 population that is en-

compassed by the Medicare program, the more appropriate an average inpatient routine nursing cost per day amount for all beneficiaries (excluding recognition of any differential) becomes.

An important change in methods of caring for the intensely ill is illustrated by the increasing numbers of special care beds. Based on available statistics, between 1969, the year that the original differential factor became effective, and 1973, the number of special care beds increased by about 40 percent. Further, the differential was based on statistics obtained in a study done in 1966. As special care units have increased, it has been noted that there is greater utilization of these special care units than of routine care areas by Medicare beneficiaries. For example, recent data indicate that for providers with special care units, the percentage of utilization of these units by Medicare beneficiaries is as much as 18 percent greater than their rate of utilization of routine nursing care units. Some of these findings, among others, led to changes in Medicare cost-apportionment requirements, effective January 1, 1972 (20 CFR 405.452(b)), which authorized, for the first time, separate cost finding and apportionment for care furnished in special care units. Costs in special care units, such as cardiac care units, which are the most common type of such units, are substantially higher than costs in general care areas. Consequently, the separate apportionment for special care units increased Medicare reimbursement to providers for services furnished to the elderly in these units by reflecting directly their above-average use of such units.

Comments were received, objecting to the fact that additional studies to determine the appropriateness of the amount of an inpatient routine nursing salary cost differential had not been completed, as prescribed by regulations. The intent of the regulation section 405.430(c)(1), in prescribing such studies, was to give recognition to the need to review the amount of the cost differential, assuming the appropriateness of its continued applicability. However, the changes described above have so significantly altered the circumstances underlying the initial recognition of the nursing differential that the concept of a cost differential for routine nursing care is considered no longer appropriate.

Many who commented objected to the termination of the cost differential on the grounds that it would result in non-Medicare patients absorbing the costs of providing routine nursing care to Medicare beneficiaries. Medicare cost reimbursement policies and procedures are designed to implement the statutory provision that the program pay its full share of the total reasonable cost (or customary charges, if less) of the provider that is related to the care furnished Medicare beneficiaries. This statutory requirement will not be changed by the termination of the nursing cost differential. Under the authority granted

to the Secretary by statute, to determine which costs are reasonable and related to the efficient delivery of health care to Medicare beneficiaries, the determination has been made that a nursing cost differential is no longer appropriate as an allowable cost and reimbursable cost under the Medicare program.

A number of editorial changes have been made in the interest of clarity. With these changes, the proposed amendment is adopted and set forth below.

(Secs. 1102, 1814(b), 1861(v)(1)(A), 1871, Social Security Act, 49 Stat. 647, as amended, 79 Stat. 266, as amended, 79 Stat. 322, as amended, and 79 Stat. 331; 42 U.S.C. 1302, 1395f(b), 1395x(v)(1)(A), and 1395hh.)

**Effective date:** This regulation will be effective June 23, 1975, and will be effective for cost-reporting periods beginning after June, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance.)

Dated: May 13, 1975.

J. B. CARDWELL,  
Commissioner of Social Security.

Approved: May 19, 1975.

CASPAR W. WEINBERGER,  
Secretary of Health,  
Education, and Welfare.

Regulations No. 5 of the Social Security Administration (20 CFR Part 405) is further amended as set forth below:

Section 405.430 is amended by revising paragraphs (a), (c)(1), and (d)(1) and (2), and the title of paragraph (e)(1) to read as follows:

§ 405.430 Inpatient routine nursing salary cost differential.

(a) **Principle.** In recognition of the above-average cost of inpatient routine nursing care furnished to aged patients, an inpatient routine nursing salary cost differential is allowable as a reimbursable cost of a provider after June 30, 1969, and before that provider's first cost-reporting period which begins after June 1975 (the month after publication in the FEDERAL REGISTER). The allowable differential applicable to such inpatient routine nursing salary costs of aged patients for the specified period is reimbursable at the rate of 8½ percent. Recognition of the differential by the health insurance program is accomplished through an inpatient routine nursing salary cost differential adjustment factor as defined in paragraph (b)(8) of this section.

(c) **Application.** (1) In the determination of health insurance inpatient routine service costs, the rate of 8½ percent has been established as the inpatient routine nursing salary cost differential for aged, pediatric, and maternity patients. This inpatient routine nursing salary cost differential is applicable to inpatient routine nursing salary costs incurred by a provider after June 30, 1969, and before that provider's

first cost-reporting period which begins after June 1975 (the month after publication in the FEDERAL REGISTER).

(d) **Effective dates.** (1) **Cost-reporting periods beginning after June 30, 1969, and before July 1975** (the second month after publication in the FEDERAL REGISTER). For cost-reporting periods beginning after June 30, 1969, and before July 1975 (the second month after publication in the FEDERAL REGISTER). The inpatient routine nursing salary cost differential adjustment factor is applicable for the entire reporting period as an element in the computation of the provider's reimbursable cost.

(2) **Cost-reporting periods ending before July 1, 1969, or cost-reporting periods beginning after June 1975** (the month after publication in the FEDERAL REGISTER). For cost-reporting periods ending before July 1, 1969, or cost-reporting periods beginning after June 1975 (the month after publication in the FEDERAL REGISTER). There shall not be included as an element in the computation of the provider's reimbursable costs any inpatient routine nursing salary cost differential adjustment factor.

(e) **Examples.** (1) **Illustration of calculation of differential adjustment factor for a cost-reporting period beginning after June 30, 1969, and before July 1975** (the second month after publication in the FEDERAL REGISTER).

[FR Doc. 75-13621 Filed 5-22-75; 8:45 am]

#### Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

#### PART 37—FISH

#### Canned Pacific Salmon; Order Amending Standards of Identity and Fill of Container

The Commissioner of Food and Drugs is amending the standards of identity (21 CFR 37.10) and fill of container (21 CFR 37.12) requirements for canned Pacific salmon, effective July 22, 1975, except as to any provisions that may be stayed by the filing of proper objections. Objections to this order may be filed on or before June 23, 1975. The Commissioner originally proposed the amendments in a notice of proposed rule making published in the FEDERAL REGISTER of May 29, 1974 (39 FR 18660), to adopt, as far as is practicable, the provisions of the Recommended International Standard for Canned Pacific Salmon (Codex).

Three additional forms of canned salmon are being added to the identity standard—"Minced Salmon," "Salmon Tips or Tidbits," and a "No Salt Added" form. Based on the Codex standard, a sampling plan and related definitions have been added to the present fill of container standard.

One letter from a trade association and one from a consumer organization, each

letter containing five comments, were received in response to the proposal. These comments and the Commissioner's conclusions based on his evaluation of them are as follows:

1. One comment opposed including the optional forms "Minced Salmon" and "Salmon Tips or Tidbits" (§ 37.10 (c)(3) and (c)(4)) until the proper technology for handling the edible parts of the trimmings can be developed. The comment also stated that § 37.10(c) would have to be revised to provide for the use of edible parts of the trimmings.

The Commissioner notes that "Minced Salmon" and "Salmon Tips or Tidbits" are recognized articles of commerce in the world market. The present standard as amended herein is sufficiently broad to embrace present technology, to permit development of improved product technologies, and to provide for use of any edible portions of salmon flesh in the products with appropriate labeling. The Commissioner concludes that it will benefit the consumer and facilitate world trade to provide for these forms of canned salmon at this time.

2. One comment opposed the term "minced" in § 37.10(c)(3), stating that it is not as familiar to the consumer as the term "flaked."

The Commissioner concludes that the term "minced" more accurately describes the form of the salmon product than the term "flaked" and considers the term "minced" appropriate for the product. Consumers are probably most familiar with the term "flaked" as one of the standardized forms of canned tuna. On tuna cans it refers to a mixture of tuna pieces of such size that more than 50 percent of the pieces will pass through a ½-inch mesh screen and also retain the muscular structure of the flesh. The term "minced" refers to finely ground particles.

3. One comment requested that the Codex canned salmon style "No Salt Added" be provided for in the U.S. identity standard. The comment stated in support of this request that about 10,000 to 20,000 cases of unsalted canned salmon are produced each year. The comment explained that the product is provided for in the Interim Federal Specification for Canned Salmon, PP-S-31c, and that the principal recipients of this product are government agencies. Another comment stated that it is misleading to label canned salmon with the words "No Salt Added" because of the implication that the product is a low sodium food. In addition, the comment stated that a regulation should be promulgated stating that it is misleading to emphasize the absence of added salt in a product not naturally low in sodium.

In view of the apparent market for unsalted canned salmon, the Commissioner concludes that it would be in the consumers' interest to permit the label of canned salmon packed without the addition of salt to bear a statement to that effect. Such labeling will not be misleading, provided the label statements required by § 125.9 *Label statements relating to food for use as a means of regu-*

lating the intake of sodium (21 CFR 125.9) appear on the label regarding any statement describing the absence of added salt. The regulation below has been changed accordingly.

The Commissioner also concludes that a regulation for misleading labeling of food products not naturally low in sodium is a separate issue that should be a separate proposal dealing with all food.

4. One comment urged that provision be made for various packing media, such as water, vegetable broth, and a combination of oil and broth.

The Commissioner notes that the natural characteristics of the six species of Pacific salmon are such that the food may be processed without precooking or without the addition of various packing media. The Commissioner concludes that to permit the addition of unnecessary packing media to canned salmon is not in the consumers' interest, and the order does not provide for the use of packing media. Salmon oil added to canned salmon is not considered to be a packing medium because of the very small amounts used (about 3 to 6 ml of oil per can).

5. One comment stated that the last sentence in § 37.10(e)(2) (21 CFR 37.10 (e)(2)) in the present identity standard should be retained. The comment maintained that deletion of the sentence would necessitate making the type size for the form of pack the same size as that for the name of the food.

The Commissioner agrees that the wording in the proposal may be unclear and has reworded the paragraph. He did not intend that the statement of form must be the same size as the words in the name of the food. Accordingly, the regulation has been revised to incorporate by reference the requirements of 21 CFR 1.8(c).

6. One comment asserted that the number of samples required by proposed § 37.12(b) to calculate the average net weight is too large; it would result in economic loss due to the high cost of salmon.

The Commissioner concludes that the basis of the sample size requirement is statistically sound and is necessary to assure the proper average net weight of the product.

7. One comment stated that the incorporation of a sampling plan into the standard should be considered in a separate publication. It also stated that "It is particularly egregious to incorporate a sampling plan into the canned salmon regulation without modifying the acceptable minimum net weights for the various can sizes. Under the existing standard each can must meet the minimum net weight, and so packers must pack above the minimum amounts on the average to assure compliance. By adding the sampling plan without raising the requirements the FDA is allowing a lower average to be packed into each can, a distinct disservice to the consumer."

The Commissioner agrees that the problem of sampling plans is complex; it should not be resolved solely upon the comments of a few persons interested

only in a particular commodity. The sampling plans in the proposed amendment are the result of years of study by many individuals and groups. The applicability of the plans is well established and accepted. Sampling plans are essential to proper determination of compliance with the requirements of a fill of container standard.

The statement in the comment that the applicable provision of the present fill standard requires that each can must meet the minimum fill requirement is in error. The present § 37.12(a) (21 CFR 37.12(a)) states that the standard of fill for canned salmon is based on a 24-can average weight of the contents of the cans making up the sample.

The Commissioner concludes that the proposed amendment of § 37.12(a) is in the consumers' interest, and there is no reason to publish the sampling plan as a separate proposal.

8. One comment opposed the listing of packing oil in the net weight statement of the product and stated that the quantity of contents in the can should be declared on the label as drained weight.

The Commissioner advises that the practice of adding salmon oil to canned salmon is limited to a small percentage of the pack of three species of salmon, usually to ¼- and ½-pound can sizes, and to very small amounts (about 3 to 6 ml of oil per can). The practice is self-limiting for a number of reasons, not the least of which is that the cost of salmon oil is greater than the cost of salmon.

The Commissioner concludes that it is reasonable to include the weight of the added salmon oil in the quantity of contents statement because added salmon oil is an edible part of the food and, since no packing media are permitted, to declare the quantity of contents of canned salmon as net weight.

9. One comment stated that it was assumed that the minimum weight column in the proposed regulation (§ 37.12(a)) giving metric equivalents of the U.S. customary system units is for informational purposes and not required for labeling.

The Commissioner affirms this assumption. At the present time, labeling information in metric units is not required. However, the Commissioner encourages the use of contents declarations in terms of the International (metric) System along with the U.S. customary system.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended, 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 341, 371)) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, That 21 CFR Part 37 be amended as follows:

1. In § 37.10 by adding new paragraph (c)(3), (4), and (5) and revising paragraph (e)(2) and (3) to read as follows:

§ 37.10 Canned Pacific salmon; identity.

(c) . . . . .

(3) "Minced Salmon" consists of salmon which has been minced or ground.

(4) "Salmon Tips or Tidbits" consists of small pieces of salmon.

(5) "No Salt Added" consists of canned salmon to which no salt has been added.

(e) . . . . .

(2) (i) Whenever the form of pack is that described in paragraph (c)(2), (3), or (4) of this section, the word or words describing the form of pack shall immediately precede or follow the name of the food without intervening written, printed, or graphic matter in the manner prescribed in § 1.8(c) of this chapter; for example, "red salmon" as the name of the food followed by "skinless and backbone removed."

(ii) Whenever the form of pack is that described in paragraph (c)(5) of this section and words describing the form of pack are declared on the label, the label shall also bear the statements required by § 125.9 of this chapter.

(3) The name of each of the ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

2. By revising § 37.12 to read as follows:

§ 37.12 Canned Pacific salmon, fill of container; label statement of standard fill.

(a) The standard of fill of container for canned salmon is a fill including all the contents of the container and is not less than the minimum net weight specified for the corresponding can size in the following table:

I. Can size	II. Minimum net weight
603x405	1,814 kg (64 oz.)
301x411	454 g (16 oz.)
301x408	439 g (15½ oz.)
401x211	439 g (15½ oz.)
607x406x108	439 g (15½ oz.)
301x308	340 g (12 oz.)
307x200.25	220 g (7¾ oz.)
513x307x103	220 g (7¾ oz.)
307x113	181 g (6¾ oz.)
301x108	106 g (3¾ oz.)
407x213x015	106 g (3¾ oz.)

If the can size in question is not listed, calculate the value for Column II as follows: From the list, select as the comparable can size, that one having the nearest water capacity of the can size in question, multiply the net weight listed in Column II by the water capacity of the can size in question, and divide by the water capacity of the comparable can size. Water capacities are determined by the general method provided in § 10.6 (a) of this chapter.

(b) Sampling and acceptance procedure: The sample size of the sample representing the lot will be selected in accordance with the sampling plan shown in paragraph (b)(2) of this section. A lot is to be considered acceptable when the average net weight of all the sample units is not less than the minimum net weight stated in paragraph (a) of this section for the corresponding can size.

(1) Definitions of terms to be used in the sampling plans in paragraph (b)(2) of this section are as follows:

(i) **Lot.** A collection of primary containers or units of the same size, type, and style manufactured or packed under similar conditions and handled as a single unit of trade.

(ii) **Lot size.** The number of primary containers or units in the lot.

(iii) **Sample size (n).** The total number of sample units drawn for examination from a lot.

(iv) **Sample unit.** A container, the entire contents of a container, a portion of the contents of a container, or a composite mixture of product from small containers that is sufficient for examination or testing as a single unit.

(2) Sampling plans:

Lot size (primary containers):	Size of container (n)
4,800 or less	13
4,801 to 24,000	21
24,001 to 48,000	29
48,001 to 84,000	48
84,001 to 144,000	84
144,001 to 240,000	126
Over 240,000	200

<sup>1</sup> Net weight equal to or less than 1 kg. (2.2 lb.).

Lot size (primary containers):	Size of container (n)
2,400 or less	13
2,401 to 15,000	21
15,001 to 24,000	29
24,001 to 42,000	48
42,001 to 72,000	84
72,001 to 120,000	126
Over 120,000	200

<sup>1</sup> Net weight greater than 1 kg. (2.2 lb.) but not more than 4.5 kgs (10 lb.).

(c) If canned salmon falls below the standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard fill specified in § 10.7(b) of this chapter, in the manner and form therein specified.

Any person who will be adversely affected by the foregoing order may at any time on or before June 23, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** This order shall become effective on July 22, 1975, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended, 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 341, 371))

Dated: May 15, 1975.

**SUBCHAPTER D—DRUGS FOR HUMAN USE**  
**PART 331—ANTACID DRUG PRODUCTS FOR OVER-THE-COUNTER HUMAN USE**  
**PART 332—ANTIFLATULENT PRODUCTS FOR OVER-THE-COUNTER HUMAN USE**  
**Revised Effective Dates**

The Commissioner of Food and Drugs is extending the effective date to September 2, 1975 for labeling of antacid and antiflatulent products not receiving an extension of the effective date for reformulation.

In the FEDERAL REGISTER of June 4, 1974 (39 FR 19862), the Commissioner promulgated a final order for antacid and antiflatulent Over-the-Counter (OTC) products generally recognized as safe and effective and not misbranded. Paragraph 82 of the preamble of that order states that the Commissioner concluded that it was reasonable to establish the following conditions for the effective date of the final monograph: "The effective date of the monograph will be July 5, 1974, with the following exceptions. The effective date for all labeling for products not receiving an extension of the effective date for reformulation shall be June 5, 1975. Where reformulation is necessary, and if sufficient data and reasons are supplied, the Commissioner will grant an extension of the effective date for reformulation and relabeling for up to 2 years after the date of publication in the FEDERAL REGISTER."

The Commissioner has received requests and petitions from major manufacturers of OTC antacid products and from a trade association requesting that the effective date for all labeling for products not receiving an extension for reformulation be extended beyond June 5, 1975.

One trade association has petitioned to allow an orderly inclusion of the general warning statement required by § 330.1(g) (21 CFR 330.1(g)) of the regulations and has commented on the recent change in that warning published in the FEDERAL REGISTER of March 13, 1975 (40 FR 11717). It was noted that in order to comply with the June 5, 1975 effective date for the antacid and antiflatulent monographs, many OTC antacid and antiflatulent manufacturers have ordered, received, and in some instances, affixed to the container the labeling for their antacid and antiflatulent products, but because of the changes in the general warning published recently, these same manufacturers do not have either the exact language on their current stocks of labeling, or due to the uncertainty of the adoption and specific lan-

guage of the regulation prior to publication, do not have any similar language on their labeling. Therefore, it was petitioned that manufacturers and distributors who have already ordered and received such labeling be allowed to use labeling stock that otherwise complied with the monographs and to include the general warning required by § 330.1(g) in their next labeling order.

There was comment from manufacturers that, due to severe shortages besetting the paper industry and uncertainties arising from the energy crisis, stocks and labeling had to be ordered in greater quantities and that an unanticipated sharp downswing in the economy has aggravated the over-supply situation of such stocks and labeling. It was noted that destruction of this substantial amount of stock would create a severe financial hardship for the companies and would not be in the public interest. Therefore, it was petitioned that the effective date of the final order be stayed for a period of 4 to 6 months.

The Commissioner concludes that there are valid reasons to allow an extension beyond June 4, 1975 of the effective date of the OTC antacid and antiflatulent monographs. First the Commissioner concludes that the March 13, 1975 publication in the FEDERAL REGISTER of the final order for the general warning (40 FR 11717) did not provide sufficient time for including the general warning statement required by § 330.1(g) and that labeling which otherwise complies with the monograph should be used until new labeling is ordered.

The Commissioner is also aware that in some instances a downward trend in the economic picture may have resulted in an overstock situation. The Commissioner agrees that for the companies this condition would create an economic waste, the cost of which would ultimately be passed on to the consumer which would not be in the public interest.

However, taking into consideration all of the reasons given for an extension of time of the effective date of the OTC antacid and antiflatulent monographs, the Commissioner concludes that it is not in the best interest of the consumer to allow an indefinite period of time to elapse before requiring all manufacturers and distributors to be in compliance with the monographs. Accordingly, he has determined that a 90-day extension for compliance shall be provided for those products for which there is no extension of the effective date for reformulation. The revised effective date for all labeling for these products shall be September 2, 1975.

Recognizing that there has been only a short period of time since the general warning final order of March 13, 1975 was published, the Commissioner additionally concludes that, if there is compliance with the labeling requirements of the antacid and antiflatulent monographs in all other respects at the end of the 90-day extension period, manufacturers and distributors should be permitted to use labeling stock and include

the general warning revision in their next labeling order.

The Commissioner concludes that the extension does not affect the effective date, where an extension has been granted for reformulation and relabeling.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetics Act (secs. 201, 502, 505, 701, 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 321, 352, 355, 371)), (5 U.S.C. 553, 554, 702, 703, 704) and under authority delegated to the Commissioner (21 CFR 2.120), the effective dates for 21 CFR Parts 331 and 332 are revised as follows:

**Effective date.** All labeling for products not receiving an extension of the effective date for reformulation shall become effective on September 2, 1975, and where reformulation is necessary and an extension is granted the labeling requirements shall become effective on June 4, 1976.

Since the amendment established by this order grants relief of a restriction, namely the June 4, 1975 effective date previously published, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

**Effective date:** This order shall be effective on May 23, 1975.

(Secs. 201, 502, 505, 701, Pub. L. 717, 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 321, 352, 355, 371)); (5 U.S.C. 553, 554, 702, 703, 704))

Dated: May 19, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

**Change in Sponsor**

**Correction**

In FR Doc. 75-11385 appearing on page 18993 in the issue for Thursday, May 1, 1975, in § 510.600(c) (2) the second and third lines of Drug Listing No. 000381 should be reversed.

**SUBCHAPTER L—REGULATIONS UNDER CERTAIN OTHER ACTS ADMINISTERED BY THE FOOD AND DRUG ADMINISTRATION**

**PART 1240—CONTROL OF COMMUNICABLE DISEASES**

**Ban on Sale and Distribution of Small Turtles**

An order published in the FEDERAL REGISTER of November 18, 1972 (37 FR 24670) amended Parts 71 and 72 of Title 42, Code of Federal Regulations, by establishing §§ 71.171 through 71.176 (42 CFR 71.171 through 71.176) which provide for a general prohibition on the

importation of certain small pet turtles and viable turtle eggs, and § 72.26 (42 CFR 72.26) (now § 1240.62 (21 CFR 1240.62) pursuant to transfer and recodification of the sections of 42 CFR Part 72 appropriate to Food and Drug function, published in the FEDERAL REGISTER of February 6, 1975 (40 FR 5620)) which required that pet turtles shipped in interstate commerce be tested for and certified free of *Salmonella* and *Arizona* organisms by the appropriate public health officials in the State of origin. The order was based upon epidemiological investigations that have shown that small pet turtles are a particularly significant source and reservoir of bacteria of the genera *Salmonella* and *Arizona*, both of which can cause, among other things, acute gastrointestinal illness in humans. Data and other information on the hazards of such bacteria and on the extent of turtle-associated disease are on display in the office of the Hearing Clerk.

There is continuing evidence, however, that the certification requirements have had limited effectiveness in preventing contaminated turtles from reaching pet owners. Although the certification program appears to have curtailed the number of turtles being shipped in interstate commerce, a recent survey of turtles certified between December 1972 and December 1973 completed by the Public Health Service Center for Disease Control shows that 54 percent of the turtles were contaminated by *Salmonella* and *Arizona* when retested some time subsequent to certification. The State of New Jersey has sampled six lots of turtles shipped to that State and detected *Salmonella* in five of the lots. Furthermore, the Food and Drug Administration has taken five selective samples of turtles certified by State health authorities and found *Salmonella* and *Arizona* organisms in three of the five samples. Four out of the five selected water samples in which turtles have been held were positive for *Salmonella*. Moreover, the Center for Disease Control has reported cases of salmonellosis in California, Oregon, and Tennessee associated with turtles from certified lots.

As recently as August 19, 1974, a batch of approximately 16,000 turtles was certified by the Louisiana State Department of Health as *Salmonella*- and *Arizona*-free. A sample collected from this same lot of 16,000 turtles on inspection August 21 and 22, 1974, in Pierre Part, Louisiana, was later found by the Dallas Laboratory of the Food and Drug Administration to be positive for *Arizona*. Three official samples were collected and analyzed from interstate shipments of this lot of turtles. All samples were subsequently found to be positive for *Arizona*. On October 18, 1974, the Food and Drug Administration undertook to issue Letters of Demand for Destruction by its district offices to all dealers handling turtles from this lot.

Prior to this most recent action against certified but contaminated turtles, the Commissioner of Food and Drugs, realizing that the present certification pro-

gram was not preventing contaminated turtles from reaching the market, issued two proposals published in the FEDERAL REGISTER of May 28, 1974 (39 FR 18463) for consideration as possible solutions to the contaminated turtle problem: first, a complete ban on the sale and shipment of small turtles and, second, improvement of the certification scheme with imposition of additional requirements on the sale and shipment of turtles.

The preamble to those proposals pointed out that studies of salmonellosis have resulted in estimates that 14 percent of all human cases of salmonellosis are turtle-associated. It is thus possible that as many as 280,000 of the estimated 2,000,000 cases of salmonellosis in the United States each year are turtle-related.

Children are particularly susceptible to salmonellosis, tend to have more severe cases than adults, and are subject to infection transmitted when playing with pet turtles.

Finally, it was pointed out by the Animal Welfare Institute that small turtles sold in pet shops are not miniature, but baby turtles, mostly red-eared sliders, which under proper care can attain a shell length ranging from 6 to 11 inches and can live more than 40 years in captivity; yet 90 percent of the pets survive only 4 to 6 months.

Two hundred and forty-eight comments were received in response to the proposals from individual citizens, members of Congress, Federal, State and local officials, consumer groups, educational institutions, industry and professional groups, and turtle fanciers and their associations. Thirty-four comments opposed both proposals. Thirty-seven comments endorsed the improvement of the certification scheme and the imposition of additional requirements on the sale and shipment of turtles and turtle eggs. An additional comment opposing the ban addressed the statistical relationship between turtle ownership and its impact on human salmonellosis. One hundred and twenty-eight comments endorsed the proposal banning sale of small turtles. An additional comment endorsing the ban suggested that the ban include all turtles regardless of size or species and that a permit from the Commissioner be required by the purchaser before an exemption will be granted for bona fide scientific, educational, or exhibitional purposes. Two comments did not believe that the improvement of the certification scheme and the imposition of additional requirements on the sale and shipment of small turtles would be effective in dealing with the existing public health hazard. Ten comments requested that the sale of pet turtles be prohibited until the turtle industry demonstrates its ability to produce *Salmonella*- and *Arizona*-free turtles. Two comments requested a moratorium of 1 year on the banning of turtles from the market so that a study could be made to determine whether *Salmonella*- and *Arizona*-free turtles can be produced. Twenty-two

comments requested modification of the total ban proposal. The remaining eleven comments did not address themselves to the published proposals.

The Commissioner has evaluated all the comments. The issues raised and the Commissioner's responses are as follows:

1. Thirty-four comments expressed the opinion that any restrictions on the shipment, sale, or distribution of turtles would be an infringement on a person's constitutional right to possess the pet of his choice.

The Commissioner does not agree that individuals have an absolute right to possess any pet they wish to own. The individual's right to possess that pet must be weighed against the public hazard which may be created by allowing the sale of pets which may be contaminated with organisms dangerous to human health. *Salmonella* and *Arizona* organisms create human health hazards and are directly associated with small pet turtles. Documented evidence exists that such organisms accompany turtles even after they have been certified "Salmonella- and Arizona-free" using methods prescribed by § 1240.62. Therefore, the individual's right to purchase turtles must be measured against the known hazard to the health and welfare of the public as a result of their being offered for sale. *Salmonellosis* can be a serious disease, particularly in childhood, and can lead to death. Further, small children, for whom most pet turtles are purchased, cannot be expected to understand the reasons for, or abide by, sanitary measures that might protect them from illness.

Finally, in view of the nature of this particular comment, and also because of his wish to seek their advice on the entire matter, the Commissioner presented the issue to FDA's National Advisory Food and Drug Committee during their meeting of March 28, 1975. After consideration of this and other comments and after arguing the risk/benefit considerations of a ban on turtle sales vs. a more elaborate certification program, the Committee voted 19 to 3 to support a ban on sales. The Committee further agreed with the comment that the entire matter should be reconsidered if research demonstrates means whereby turtles could be kept *Salmonella*- and *Arizona*-free.

2. Thirty-seven comments endorsed the improvement of the certification scheme and the imposition of additional requirements on the sale and shipment of turtles and turtle eggs. Some of the comments opposed a direct ban on the sale and distribution of small turtles and supported the improved certification scheme as a preferable approach to control the public health problems associated with turtles. No evidence was presented by the comments, however, nor is the Commissioner presently aware of any evidence, that demonstrates that an improved certification scheme would result in a *Salmonella*- and *Arizona*-free turtle that will remain free of these organisms in commerce.

Therefore, the Commissioner, basing his decision on previous investigations and the failure of comments to present any evidence to the contrary, concludes that the improved certification scheme would be ineffective.

3. Several of the above comments, although supporting the improved certification scheme, opposed the proposed written warnings to be given with each pet turtle at sale until other *Salmonella*-susceptible animals or products are subject to similar requirements.

The Commissioner concludes that assessment of the written warning requirements will not be necessary since the ban proposal, not the improved certification proposal, will be implemented.

4. One comment opposing the ban addressed the statistical relationship between turtle ownership and its impact on human salmonellosis. It questioned the reliability of the article by Steven H. Lamm et al., "Turtle-Associated Salmonellosis," *American Journal of Epidemiology*, 95:511 (1972). It was pointed out that even though there has been a drastic decrease in the number of turtles sold and shipped in the United States since 1972, reports of the isolation of *Salmonella* organisms in humans have continued to rise. Statistics were also quoted from the New Jersey Department of Health which indicated that the cases of salmonellosis reported in the year following the ban on the sale of turtles in that State were almost 50 percent higher than the 2 preceding years combined.

The Commissioner advises that salmonellosis infection derives from many different sources, one of which is turtles. Moreover, the reporting of cases of salmonellosis may vary significantly, at different times, even in the same State. The data quoted above simply reflect those facts. There is no assurance that a reduction of the number of turtles sold in a given year will, in all circumstances, result in a reduction in the number of reported cases of salmonellosis infection.

Since it has previously been established that turtles are a significant source of *Salmonella* contamination and evidence has not been presented that demonstrates otherwise, the Commissioner concludes that turtles should be prohibited from general sale.

5. One hundred and twenty-eight comments endorsed the ban proposal.

The Commissioner agrees that a total ban with the exceptions provided by § 1240.62(d) is the only effective method at the present time that will eliminate the possibility of human illness due to contaminated turtles since there was no evidence presented which demonstrated that an improved certification scheme and written warnings at the time of sale would effectively control the *Salmonella* and *Arizona* problem.

The Commissioner also notes that thirty-one State agencies responded to the two proposals and only one State was opposed to the banning of small turtles for sale and distribution. The remaining thirty States, as well as seventeen

individual comments, favored the ban since they concluded that the present certification program is inadequate and that it is unlikely that an improved certification scheme, which could well be cumbersome and expensive, would be completely effective.

However, the Commissioner will at any time in the future consider evidence presented to him which demonstrates that *Salmonella*- and *Arizona*-free turtles can be produced and that sufficient safeguards exist to prevent a public health hazard through recontamination of turtles after shipment.

8. An additional comment favoring the ban proposed that the ban should include all turtles regardless of size or species.

The Commissioner concludes that since the turtles with a carapace, i.e., upper shell, length of less than 4 inches are the more common pet varieties purchased for or by children, the ban should not be extended to include turtles whose carapace is larger than 4 inches. The sole objective of this regulation is to protect the public, primarily children, from contaminated pet turtles. The Commissioner believes that the present size limitation adequately provides this protection. The Commissioner wishes to emphasize, however, that if sufficient evidence is presented that demonstrates that turtles with a carapace of more than 4 inches are a public health hazard, the ban will be extended to include the larger turtles.

7. The preceding comment also suggested that a permit from the Commissioner be required before an exemption will be granted for purchasing live turtles and viable turtle eggs used for bona fide scientific, educational, or exhibitional purposes, other than use as pets.

The Commissioner concludes that the interstate shipment of live turtles and viable turtle eggs used for bona fide scientific, educational, or exhibitional purposes will be allowed without the obtaining of a permit.

The Commissioner concludes that these exceptions would not constitute a significant hazard to public health due to the limited accessibility of the general public to turtles used for these particular purposes. Furthermore, the Commissioner does not believe that these exceptions justify the establishment of an elaborate permit program requiring the deployment of scarce manpower and funds.

8. Two comments were received which expressed the opinion that the improvement of the certification scheme and the imposition of additional requirements on the sale and shipment of pet turtles would be ineffective to deal with the public health hazard since subsequent handling could easily result in reinfection and the concomitant risks of human disease.

The Commissioner is in agreement with these comments. As previously stated, the Commissioner is unaware of any evidence, nor has any been presented, that demonstrates that the improvement of the certification scheme and the im-

position of additional requirements on the sale and shipment of pet turtles would effectively solve the *Salmonella* and *Arizona* problem.

9. Ten comments suggested that the sale of pet turtles should be prohibited until the turtle industry has demonstrated its ability to produce *Salmonella*- and *Arizona*-free turtles.

The Commissioner agrees with these comments, and feels that the turtle industry, as well as all industry, has the responsibility for producing a hazard-free product. Therefore, the Commissioner concludes, for the reasons stated above, that a ban is the only effective means of controlling the problem.

10. Two comments, one of which was from a member of Congress, suggested a 1-year moratorium on the banning of turtles in order to give the turtle industry a further opportunity to produce uncontaminated turtles and an improved certification scheme.

The Commissioner concludes that the request for a 1-year moratorium must be denied because there is no factual basis for believing that *Salmonella*- and *Arizona*-free turtles can be produced or that an improved certification scheme could be developed within the 1-year period. Furthermore, a moratorium does not protect the public against the demonstrated hazards during that period.

The Commissioner wishes to make it clear, however, that this denial of a 1-year moratorium on the banning of turtles does not preclude the turtle industry from undertaking the development of an improved certification scheme or a *Salmonella*- and *Arizona*-free turtle. If in fact a significantly improved certification scheme is developed or a *Salmonella*- and *Arizona*-free turtle is produced by the turtle industry, the Commissioner, based on the data presented by interested persons, will consider changing the restrictions on the sale and distribution of turtles.

11. Thirteen comments expressed the opinion that an exception should be made for the turtle "fancier" and for any bona fide scientific, educational, or exhibitional purposes.

The regulation provides an exception for bona fide scientific, educational, and exhibitional purposes. The Commissioner concludes that this exception is reasonable and will not present a public health hazard since the scope of the exception is limited to a specific segment of society consisting of experts in the field who are fully aware of the contamination problems associated with turtles and the necessary precautions required to prevent such contamination. While turtle fanciers may be similarly competent to handle turtles safely, no comment has suggested, and the Commissioner has been unable to ascertain an enforceable exemption that would require a business to restrict its sales only to such qualified persons.

The proposed regulation has been revised to exempt sales not in connection with a business. This exemption will permit a hobbyist to make an occasional sale to another hobbyist, as long as such sales

are not so frequent as to make the seller a dealer. In addition, the Commissioner will consider petitions to amend the prohibition to permit the sale of identified species, if it can be demonstrated that the species are so rare and expensive as to be of interest only to turtle hobbyists.

12. Six comments suggested an exception for adults so that anyone over the age of 18 could purchase pet turtles.

The Commissioner has previously addressed this issue in the order published in the FEDERAL REGISTER of November 18, 1972 (37 FR 24670). At that time, the Commissioner concluded that the greatest protection can be achieved by controlling the source of possible human infections. Many turtles are bought by adults and then taken home and given directly to children. Therefore, the Commissioner concludes that there can be no general exception for adults.

13. Three comments felt that interstate shipment of small turtles and viable turtle eggs should be banned but that intrastate shipment should be allowed.

The Commissioner concludes that the interstate spread of disease through *Salmonella*- and *Arizona*-contaminated turtles cannot be fully controlled without extending the ban to intrastate sales. All turtles present the same illness potential from *Salmonella* and *Arizona* organisms. Contaminated turtles may be purchased in one State for use as a pet in another. In addition, the existence of lawful business operations selling turtles within a State creates the possibility of unlawful interstate sales that are difficult or impossible to detect and stop. Therefore, the Commissioner finds that a prohibition on the sale of all turtles, regardless of origin or destination, is in his judgment necessary to prevent the spread of communicable diseases from one State to another.

The general prohibition on the sale of turtles does not apply to live turtles and viable turtle eggs intended for sale to foreign countries. The Commissioner believes that such shipments can be adequately controlled to prevent their diversion into domestic trade channels. The proposed regulation is revised to provide for this exception with the requirement that the outside of the shipping package be conspicuously labeled, "For Export Only." Export of items banned domestically under the condition that they are so marked is sanctioned by the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(d)) and the Consumer Product Safety Act (15 U.S.C. 2067). These statutory provisions represent congressional judgments that the diversion of export products into interstate commerce is unlikely when the products are properly labeled. The Commissioner concurs with this judgment for the present but will prohibit export sales as well if experience demonstrates that export turtles appear in interstate commerce.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 361, 58 Stat. 703, as amended; 42 U.S.C. 264)

and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 1240 of Title 21 of the Code of Federal Regulations is amended by revising § 1240.62 to read as follows:

#### § 1240.62 Turtles.

(a) *Definition.* As used in this section the term "turtles" includes all animals commonly known as turtles, tortoises, terrapins, and all other animals of the order Testudinata, class Reptilia, except marine species (families Dermachelidae and Cheloniidae).

(b) *Sales; general prohibition.* Except as otherwise provided in this section, viable turtle eggs and live turtles with a carapace length of less than 4 inches shall not be sold, held for sale, or offered for any other type of commercial or public distribution.

(c) *Destruction of turtles or turtle eggs; criminal penalties.* (1) Any viable turtle eggs or live turtles with a carapace length of less than 4 inches which are held for sale or offered for any other type of commercial or public distribution shall be subject to destruction in a humane manner by or under the supervision of an officer or employee of the Food and Drug Administration in accordance with the following procedures:

(i) Any District Office of the Food and Drug Administration, upon detecting viable turtle eggs or live turtles with a carapace length of less than 4 inches which are held for sale or offered for any other type of commercial or public distribution, shall serve upon the person in whose possession such turtles or turtle eggs are found a written demand that such turtles or turtle eggs be destroyed in a humane manner under the supervision of said District Office, within 10 working days from the date of promulgation of the demand. The demand shall recite with particularity the facts which justify the demand. After service of the demand, the person in possession of the turtles or turtle eggs shall not sell, distribute, or otherwise dispose of any of the turtles or turtle eggs except to destroy them under the supervision of the District Office, unless and until the Director of the Bureau of Foods withdraws the demand for destruction after an appeal pursuant to paragraph (c) (1) (ii) of this section.

(ii) The person on whom the demand for destruction is served may either comply with the demand or, within 10 working days from the date of its promulgation, appeal the demand for destruction to the Director of the Bureau of Foods, Food and Drug Administration. The demand for destruction may also be appealed within the same period of 10 working days by any other person having a pecuniary interest in such turtles or turtle eggs. In the event of such an appeal, the Bureau Director shall provide an opportunity for hearing by written notice to the appellant(s) specifying a time and place for the hearing, to be held within 14 days from the date of the notice but not within less than 7 days unless by agreement with the appellant(s).

## RULES AND REGULATIONS

(iii) Appearance by any appellant at the hearing may be by mail or in person, with or without counsel. The hearing shall be conducted by the Bureau Director or his designee, and a written summary of the proceedings shall be prepared by the person presiding. Any appellant shall have the right to hear and to question the evidence on which the demand for destruction is based, including the right to cross-examine witnesses, and he may present oral or written evidence in response to the demand.

(iv) If, based on the evidence presented at the hearing, the Bureau Director finds that the turtles or turtle eggs were held for sale or offered for any other type of commercial or public distribution in violation of this section, he shall affirm the demand that they be destroyed under the supervision of an officer or employee of the Food and Drug Administration; otherwise, the Bureau Director shall issue a written notice that the prior demand by the District Office is withdrawn. If the Bureau Director affirms the demand for destruction he shall order that the destruction be accomplished in a humane manner within 10 working days from the date of the promulgation of his decision. The Bureau Director's decision shall be accompanied by a statement of the reasons for the decision. The decision of the Bureau Director shall constitute final agency action, reviewable in the courts.

(v) If there is no appeal to the Director of the Bureau of Foods from the demand by the Food and Drug Administration District Office and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, or if the demand is affirmed by the Director of the Bureau of Foods after an appeal and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, the District Office shall designate an officer or employee to destroy the turtles or turtle eggs. It shall be unlawful to prevent or to attempt to prevent such destruction of turtles or turtle eggs by the officer or employee designated by the District Office. Such destruction will be stayed if so ordered by a court pursuant to an action for review in the courts as provided in paragraph (c) (1) (iv) of this section.

(2) Any person who violates any provision of this section, including but not limited to any person who sells, offers for sale, or offers for any other type of commercial or public distribution viable turtle eggs or live turtles with a carapace length of less than 4 inches, or who refuses to comply with a valid final demand for destruction of turtles or turtle eggs (either an unappealed demand by an FDA District Office or a demand which has been affirmed by the Director of the Bureau of Foods pursuant to appeal), or who fails to comply with the requirement in such a demand that the manner of destruction be humane, shall be subject to a fine of not more than \$1,000 or imprisonment for not more than 1 year, or both, for each violation, in accord-

ance with section 368 of the Public Health Service Act (42 U.S.C. 271).

(d) *Exceptions.* The provisions of this section are not applicable to:

(1) The sale, holding for sale, and distribution of live turtles and viable turtle eggs for bona fide scientific, educational, or exhibitional purposes, other than use as pets.

(2) The sale, holding for sale, and distribution of live turtles and viable turtle eggs not in connection with a business.

(3) The sale, holding for sale, and distribution of live turtles and viable turtle eggs intended for export only, provided that the outside of the shipping package is conspicuously labeled "For Export Only."

(4) Marine turtles excluded from this regulation under the provisions of paragraph (a) of this section and eggs of such turtles.

(e) *Petitions.* The Commissioner of Food and Drugs, either on his own initiative or on behalf of any interested person who has submitted a petition, may publish a proposal to amend this regulation. Any such petition shall include an adequate factual basis to support the petition, and will be published for comment if it contains reasonable grounds for the proposed regulation. A petition requesting such a regulation, which would amend this regulation, shall be submitted to the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

*Effective date.* This order shall become effective June 23, 1975.

(Sec. 361, 58 Stat. 703 as amended; 42 U.S.C. 264.)

Dated: May 19, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.

## Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION,  
DEPARTMENT OF LABORPART 519—EMPLOYMENT OF FULL-TIME  
STUDENTS AT SUBMINIMUM WAGES

## Fair Labor Standards; Correction

In FR Doc. 75-3798, beginning at 40 FR 6328 in the issue dated Tuesday, February 11, 1975, there were a number of typographical errors. Accordingly, FR Doc. 75-3798 is corrected as follows:

1. On page 6329, § 519.1(a) by changing "(36 FR 8755 and 39 FR 33841)" to "(36 FR 8755)" and by the Assistant Secretary for Employment Standards (39 FR 33841)".

2. On page 6330, § 519.5(b) by changing "employment opportunities" to "full-time employment opportunities".

3. On page 6331, § 519.6 (f), (g) and (h) by changing the colon following the first sentence in the paragraph to a period.

4. On page 6331, § 519.6 (f) and (j) and page 6333, § 519.16(e) by changing the format of these paragraphs to in-

corporate the parenthetical note as integral part of the paragraphs rather than a separate paragraph and by changing "Note.-" to "Note:".

5. On page 6332, § 519.7(b) (3) by deleting the second sentence and changing the first sentence to read as follows. "The employer operating any farm or retail or service establishment shall maintain records of the monthly hours of employment of full-time students at subminimum wages and of the total hours of employment during the month of all employees in the establishment except for those employed in agriculture who come within one of the other exemptions from the minimum wage provisions of the Act." This correction clarifies a procedure and imposes no changes in obligations on the public.

6. On page 6332, § 519.9(a) and page 6334, § 519.19(a) by changing "granted," on the sixth line to "granted" (i.e. the comma after the word "granted" is deleted.)

7. On page 6332, § 519.11(a) by changing "(36 FR 8755-6)" to "(36 FR 8755)" and by the Assistant Secretary for Employment Standards (39 FR 33841)".

8. On page 6332, § 519.11(a) by changing "to" in line 8 to "to".

9. On page 6332, § 519.12(a) by changing "fulltime" in lines 6 and 16 to "full-time".

10. On page 6332, § 519.13(a) by changing "Utah Area office" to "Utah Area Office".

11. On page 6333, § 519.16(e) on the eighth line, following "tion" at the start of the line, by inserting a comma after "tion").

12. On page 6334, § 519.17(b) (1) by changing "(b) (2), (3) and (4)" to "(b) (2) and (3)".

13. On page 6334, § 519.17(c) by changing the "(o)" to "(c)".

14. On page 6334, § 519.19(a) by changing the semi-colon ending line 10 to a colon.

Signed at Washington, D.C. this 16th day of May 1975.

WARREN D. LANDIS,  
Acting Administrator,  
Wage and Hour Division.

[FR Doc. 75-13598 Filed 5-22-75; 8:45 am]

## Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION,  
DEPARTMENT OF COMMERCESUBCHAPTER C—REGULATIONS AFFECTING  
SUBSIDIZED VESSELS AND OPERATORSPART 294—OPERATING-DIFFERENTIAL  
SUBSIDY FOR BULK CARGO VESSELS  
ENGAGED IN CARRYING BULK RAW  
AND PROCESSED AGRICULTURAL COM-  
MODITIES FROM THE UNITED STATES  
TO THE UNION OF SOVIET SOCIALIST  
REPUBLICS

## Fixtures Made on and After April 1, 1975

Part 294 of Title 46, Code of Federal Regulations, which prescribes regulations governing the payment of operating-differential subsidy to operators of bulk cargo vessels engaged in carrying bulk raw and processed agricultural commod-

ities from the United States to the Union of Soviet Socialist Republics, is hereby amended.

The amendments provide that on and after April 1, 1975, (1) charter rates are to be established through mutual agreement of the two countries' Designated Representatives and (2) the subsidy abatement level is to be adjusted.

These amendments affect operators of subsidized vessels, and are adopted without notice of proposed rulemaking under the exemption stated in 5 U.S.C. 553(a) (2), relating to public grants.

Part 294 of Title 46, Code of Federal Regulations, is hereby amended as follows:

By adding a new paragraph (c) to § 294.9 to read as follows:

§ 294.9 Charter rate determination and abatement of subsidy.

(c) *Fixtures made on or after April 1, 1975.* (1) *Charter rate determination.* With respect to carriage of bulk raw and processed agricultural commodities, fixtures made on or after April 1, 1975, shall be made at mutually acceptable rates as provided in Paragraph 3(a) of Annex III to the Agreement Between the Government of the United States of America and the Government of the Union of Soviet Socialist Republics Regarding Certain Maritime Matters, October 14, 1972.

(2) *Abatement determination.* (i) *In general.* The operating-differential subsidy otherwise payable on fixtures made on or after April 1, 1975, under this Part shall be subject to abatement on a voyage basis.

(ii) *Abatement level.* (A) *In general.* When the charter rate is the same as or less than the amounts shown in the table below, no abatement will occur.

## RULES AND REGULATIONS

22547

Trade	Abatement Level (per long ton)	Charter rate.....
U.S. Gulf/ Black Sea	\$13.00	Abatement Level (U.S. Gulf/Black Sea) ..... 13.00
U.S. Gulf/ Baltic	\$12.70	Excess subject to abatement.....
	Plus \$1.00 if ar- rival is be- tween Nov. 1 and Apr. 30	\$10.28
U.S. Gulf/ Soviet Pacific	\$15.00	Excess of \$1.00 or less..... \$1.00
U.S.N.H./ Black Sea	\$12.50	Less commission (at 3 3/4 %)..... (.0375)
	Plus \$1.00 if ar- rival is be- tween Nov. 1 and Apr. 30	Net revenue..... .9625
		Abatement percentage..... 50%
U.S.N.H./ Baltic	\$12.50	Abatement amount..... \$48125
U.S. Pacific/ Soviet Pacific	\$13.50	Excess between \$1.00 and \$7.00..... \$6.00
		Less commission (at 3 3/4 %)..... (.225)
		Net revenue..... 5.775
		Abatement percentage..... 75%
		Abatement amount..... \$433125
		Excess over \$7.00..... \$3.28
		Less commission (at 3 3/4 %)..... (.123)
		Net revenue..... 3.157
		Abatement percentage..... 90%
		Abatement amount..... \$28413
		Total Abatement of subsidy per ton of cargo carried..... \$7.6539

(B) *Barley.*—The Abatement Level for carriage of barley shall be at the amounts indicated above plus \$.40 per long ton.

(iii) *Abatement.* To the extent that the charter rate exceeds the Abatement Level, the payment of subsidy will be abated as indicated below. The Commission payable under the charter party attributable to the amount subject to abatement will be deducted from the abatement.

Excess of charter rate above abatement level	Percent of abatement per long ton
\$1 or less.....	50
\$1 to \$7.....	75
Over \$7.....	90

(iv) *Example.* The provisions of this paragraph are illustrated by the following example:

A vessel is fixed for the carriage of U.S. export grain (non-barley) from U.S. Gulf port to Black Sea port at a charter rate of \$23.28 per ton, F.I.O.T. The Commission rate is 3 3/4 percent of the freight revenue.

*Effective date.* These amendments shall become effective on April 1, 1975.

(Sec. 204(b), Merchant Marine Act, 1936, as amended (40 Stat. 1987, 46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 842), as amended by P.L. 91-469 (84 Stat. 1036), Department of Commerce Organization Order 10-8 (38 FR 19707, July 23, 1973))

Dated: May 20, 1975.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,  
Secretary.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

### DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Parts 1, 11]

#### LUMP SUM DISTRIBUTIONS

#### Notice of Proposed Rule Making

##### Correction

On Wednesday April 30, 1975, Notice of Proposed Rule Making was published in the *FEDERAL REGISTER* (40 FR 18798). The following corrections are made to the proposed regulations:

1. Lines 4, 5, and 6 of § 1.62-11 (page 18799) the text beginning at "Nothing in . . ." should be flush with the left margin.

2. In line 1 of § 1.101(b)(2) (page 18799) "(1)" should be italicized.

3. In line 13 of § 1.122-1(b)(2)(ii) (page 18800), "this section" should be "this subdivision".

4. In line 22 of § 1.402(a)-1(a)(1)(ii) (page 18801), "see (a)(6)" should be "see paragraph (a)(6)".

5. In line 39 of § 1.402(a)-1(b) (page 18802), there should be added "section" at the end thereof.

6. In line 2 of Example subdivision (i) of § 1.402(e)-2(b)(4) (page 18804), "from the" should be "from the".

7. In line 23 of Example subdivision (i) of § 1.402(e)-2(b)(4) (page 18804), "tax after" should be "tax law after".

8. In line 6 of Example subdivision (ii) of § 1.402(e)-2(b)(4) (page 18804), "\$15,000+\$5,000+\$65,000-\$15,000" should be "\$15,000+\$5,000+\$65,000-\$15,000)".

9. In line 10 of Example subdivision (ii) of § 1.402(e)-2(b)(4) (page 18804), "distributing" should be "distribution".

10. In line 7 of Example subdivision (iii) of § 1.402(e)-2(b)(4) (page 18804)

$$\frac{(\$50,000 - \$4,000)}{10}$$

should be

$$\frac{(\$50,000 - \$4,000)}{10}$$

11. In line 14 of § 1.402(e)-2(c)(1)(ii)(C)(i) (page 18804), "(c)(1)(ii)(C)(i)" should be "(c)(1)(ii)(C)(i)".

12. In line 33 of § 1.402(e)-2(c)(1)(iv) Example (1) subdivision (iii) (page 18805),

$$\frac{(\$6,000 - (\$4,000 \times \$8,000 / \$50,000))}{10}$$

should be

$$\frac{(\$6,000 - (\$4,000 \times (\$6,000 / \$50,000)))}{10}$$

13. In line 37 of § 1.402(e)-2(c)(1)(iv) Example (1) subdivision (iii) (page 18805),

$$\frac{(\$778 \times \$8,000 / \$44,000)}{10}$$

should be

$$\frac{(\$788 \times \$8,000 / \$44,000)}{10}$$

14. In line 28 of § 1.402(e)-2(c)(1)(iv) Example (2) subdivision (iii) (page 18805), "\$3,448" should be "\$8,448".

15. In line 33 of § 1.402(e)-2(c)(1)(iv) Example (3) subdivision (iii) (page 18805),

$$\frac{(\$5,760 - (\$4,400 \times \$5,760 / \$48,000))}{10}$$

should be

$$\frac{(\$5,760 - (\$4,400 \times (\$6,760 / \$48,000)))}{10}$$

16. In line 9 of § 1.402(e)-2(c)(2)(iii)(B) (page 18806) "(1)" should be "(1)".

17. In line 44 of § 1.402(e)-2(c)(2)(iv) Example (1) subdivision (iii) (page 18807), "\$70" should be "\$170".

18. After line 16 of § 1.402(e)-2(c)(iv) Example (2) subdivision (ii) (page 18807), there is added the following: "Income for 1976 is \$25,520 (their itemized)".

19. Lines 22 and 23 of § 1.402(e)-2(c)(2)(iv) Example (2) subdivision (iii) should read as follows:

"described were \$5,560

$$\frac{(\$58,000 - \$2,400)}{10}$$

20. In line 30 of § 1.402(e)-2(c)(2)(iv) Example (2) subdivision (iii) (page 18807), the period at the end thereof should be deleted.

21. Lines 39 and 40 of § 1.402(e)-2(c)(2)(iv) Example (2) subdivision (iii) (page 18807), should read as follows:

"therein described were

$$\$460 \left[ \frac{\$4,800 - (\$2,400 \times (\$4,800 / \$58,000))}{10} \right]$$

22. In line 23 of § 1.402(e)-2(c)(2)(iv) Example (3) subdivision (iii) (page 18807), the text beginning at "described were \$5,320 \* \* \*" should be flush with the left margin.

23. In line 34 of § 1.402(e)-2(c)(2)(iv) Example (3) subdivision (iii) (page 18807), "(\$10,000+\$0)/(\$50,000+\$0)" should be "(10,000+\$0)/(\$50,000+\$0)".

24. In line 2 of § 1.402(e)-2(c)(2)(iv) Example (4) subdivision (ii) (page 18807), there is added "taxable" at the end of the line.

25. Lines 11 and 12 of § 1.402(e)-2(c)(2)(iv) Example (4) subdivision (iii) (page 18807) should read as follows:

"total taxable amount is \$54,000 [\$50,000+\$4,000]. The modified minimum distribution".

26. In line 14 of § 1.402(e)-2(c)(2)(iv) Example (4) subdivision (iii) (page 18807), "tions" should be "tion".

27. In line 1 of § 1.402(e)-2(d) (page 18808), "(1)" should be deleted.

28. In line 5 of § 1.402(e)-2(d)(1)(C) (page 18808), "services" should be "service".

29. In line 1 of § 1.402(e)-2(d)(2)(iii) Example (2) (page 18809), "afe" should be "age".

### DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1098]

[Docket No. AO-184-A37]

#### MILK IN THE NASHVILLE, TENNESSEE, MARKETING AREA

#### Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments To Tentative Marketing Agreement and To Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the Nashville, Tennessee, marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C. 20250, on or before June 9, 1975. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

#### PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Nashville, Tennessee, on December 16-17, 1974, pursuant to notice thereof which was issued November 29, 1974 (39 FR 41987).

The material issues on the record of the hearing relate to:

1. Pool plant qualifications.
2. Diversion of producer milk.
3. Partial payments to producers and cooperatives.

#### FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plant qualifications*—(a) *Automatic pool status in March-July for a supply plant that qualified as a pool plant each month in the preceding August-February*. Automatic pool plant status in March-July should continue to be accorded a supply plant that was a pool plant throughout the preceding August-February.

As now provided in the order and unchanged by this decision, a supply plant may qualify as a pool plant for each individual month in which it ships at least 50 percent of its dairy farmer receipts to pool distributing plants. Under the automatic pooling provision, a plant that so qualified in the preceding August-February need ship no milk in March-July to be pooled in these months.

A cooperative's proposal, which was supported by a second cooperative, would eliminate automatic pooling and condition the pooling of a supply plant on performance each month. Spokesman for proponent contended that the automatic pooling provision serves no purpose in the Nashville market since no plant has ever qualified for automatic pool status. (No pool supply plants now serve the market.) He further alleged that in the Nashville market distributing plants can be adequately supplied with milk shipped directly from dairy farms.

A proprietary handler opposed the cooperative's proposal on the basis that no changes have occurred in market conditions to warrant its adoption. The handler representative contended that eliminating the automatic pooling provision would force a supply plant operator to make uneconomic movements of milk to qualify it for pooling in the months of heavy production.

Provisions for pooling supply plants and for automatic pooling of such plants in certain months are customarily included in Federal milk orders. Such provisions allow a pool distributing plant operator to elect whether to receive his milk supply directly from producers' farms and/or from supply plants. A pool distributing plant operator may utilize supply plant milk as his sole source of supply or to meet his plant's supplemental needs.

Even though a supply plant may not be needed to accommodate the movement of milk to the market from farms in the immediate production area, such a plant may be needed for the assembly and movement of milk from alternative supply sources. To this end, it is essential that the order recognize the role of supply plants in a marketing system and present the conditions for pooling such plants.

### PROPOSED RULES

It is probable that the demand for milk from supply plants would vary seasonally and would be greatest during the season of lowest production. This would be particularly true in situations where handlers using supply plant milk were receiving part of their supply direct from producers' farms. During the months of flush production, supplies of milk received directly at fluid processing plants in the market might be sufficient to supply the Class I requirements, in which case it would be more economical to leave the more distant milk in the country for manufacturing and utilize the nearby milk for Class I use. Performance standards under the order should not force milk to be transported to distributing plants during the flush production months merely for the purpose of maintaining eligibility for pooling.

To avoid uneconomic movements of milk, it is appropriate that the order provide continuing pooling status during the flush production months of any supply plant which was continuously pooled in the months of short production on the basis of having shipped at least 50 percent of its producer milk to the market during each of the short production months.

(b) *Balancing plant*. A plant associated with the Nashville market and operated by a cooperative should be provided pool plant status in any month that at least 60 percent (rather than two-thirds as presently required) of the cooperative's producer milk is received at pool distributing plants either by transfer from such cooperative's plant or directly from producers' farms.

A cooperative that operates the only "balancing" plant in the market proposed the change in the shipping requirement as a means of maintaining the pooling eligibility of the plant. A spokesman for the cooperative stated that unless the receipt requirement for its member milk is reduced to 60 percent, pool status for such plant would be jeopardized, particularly during the flush production months. There was no opposition to the proposal.

The cooperative's plant which is located in the city of Nashville provides the means whereby handlers may adjust their receipts each day to fit their bottling needs and at the same time have assurance that milk will be available for fluid use as needed. A bottling plant that receives milk by direct delivery from the farms of designated producer members of the cooperative may accept part or none of such deliveries on any day. The total deliveries of such producers on the days the bottling plant is not operated, and the amount in excess of its Class I needs on other days, generally are received at the cooperative's plant. Thus, its basic function is as an assembly point for producer milk not needed by handlers which must be disposed of to non-pool plants. However, milk in storage at the plant is available to handlers to meet unanticipated requirements on short notice. Providing pool status for the cooperative's plant enhances operating efficiency and implements the pooling of the cooperative's member milk that is

regularly and substantially associated with the market.

The pooling standards which have been established under the order were intended to implement the pooling of all of the milk regularly and substantially associated with the regulated market.

All of the milk which the cooperative in the past has pooled under the order could have been accommodated by association with pool distributing plants and through transfer or diversion to nonpool plants of the quantities not needed by pool handlers. In fact, the cooperative's balancing plant was not pooled during the period September 1, 1971, through April 1, 1974. The present provisions according pool status to the plant were effected April 1, 1974. For all of the reasons set forth in the Assistant Secretary's decision of March 18, 1974 (39 FR 10593), official notice of which is taken, it is appropriate that the plant continue to be accorded pooling status. A reduction in the delivery requirements for member producer milk to pool distributing plants from the present 66 2/3 percent to 60 percent will provide such assurance and will not, in any substantive way, implement the pooling of any milk not already associated with the market.

2. *Diversion of producer milk*. A producer should be required to deliver at least 2 days' production (one delivery for a producer on every-other-day pickup) to a pool plant during the month to qualify any remainder of his monthly production for pooling as diverted milk.

The order now provides that milk may be diverted to nonpool plants without limit in any month.

A cooperative proposed that a producer be required to deliver to pool plants during the month 20 days' production in September-February and 10 days' production in March-August to qualify his remaining production for diversion. It also proposed that a cooperative be allowed to divert the total monthly production of individual members without limit in March-August if the cooperative's total diversions are not more than 40 percent of its total producer milk for the month. This option would likewise apply to a proprietary handler for his nonmember milk.

Another cooperative proposed that at least 4 days in September-February and 2 days in March-August of a producer's monthly production should be delivered to a pool plant to qualify his remaining production for diversion.

The cooperatives contended that the present order provisions providing unlimited diversion throughout the year is an open invitation for handlers to associate with the market milk intended solely for manufacturing purposes to the detriment of producers who regularly supply the market and on whom the market depends for its Class I needs. They urged the adoption of substantial delivery requirements to deter this result.

A proprietary pool plant operator opposed the proposals to limit diversions contending that the present diversion

provisions contribute to efficient and orderly marketing of milk in the Nashville market and should not be changed.

The diversion provisions are provided to implement the efficient handling of the market's milk supply in excess of handlers' immediate requirements. Because of variations in market needs and in production, the milk of each producer may not be needed every day for processing as fluid milk at the plant to which it is customarily delivered. It is necessary, however, that there be a reserve of qualified milk available for the fluctuating needs of handlers serving the market. When milk of any dairy farmer regularly supplying the market is not needed at the plant to which it is usually shipped, it can be handled most economically by diversion directly from the farm to nonpool manufacturing plants.

A requirement of substantial deliveries of milk of individual producers for establishing diversion eligibility rights would be a deterrent to efficient handling of that milk in excess of handlers' immediate fluid needs. Appropriately, however, a means should be provided for establishing that milk of individual dairy farmers reported as diverted producer milk is bona fide associated with the market and is, in fact, milk which is qualified for fluid use. A requirement of physical receipt at a pool plant is an appropriate means for making this determination. To this end, it is reasonable to require that two days' production of each producer be physically received at a pool plant during each month to qualify his remaining production for diversion as producer milk.

A distributing plant must dispose of at least 50 percent of its fluid milk receipts as route disposition to qualify for pooling. Diversion is included as a receipt at the diverting plant for purposes of determining whether such plant has met the 50 percent route disposition requirement. Under such circumstances, even though the order provides unlimited diversions, there is a practical limitation of no more than 50 percent.

The cooperatives' concerns are directed to the possibility that proprietary handlers might use the diversion provisions as a means of associating with the pool additional milk intended solely for manufacturing use. While this could possibly result, it is not practical to deal with such a matter without more specific facts.

Certainly milk which is not available for fluid use should not be accorded pooling eligibility. However, it is not apparent from this record that this has happened. Proponents apparently foresee possible market developments which they believe could be detrimental to their interest. Through a cooperative's balancing plant, it has flexibility for marketing its members' milk which is not available to proprietary handlers. It would not be appropriate to adopt stringent requirements which could deter the efficient handling of the market's total supply.

If at any time it should develop that a handler was accumulating in the pool

milk that was not available as needed for Class I, a further hearing could be called to consider the appropriate action which should be taken to either exclude such milk from the pool or insure its availability for Class I uses.

Milk diverted by a cooperative is considered a receipt at the distributing plant from which diverted in determining the distributing plant's pool status. To the extent it would result in a distributing plant not qualifying as a pool plant, milk reported as diverted by a cooperative handler would not be producer milk. As provided in this decision, the cooperative would be responsible for indentifying the dairy farmer milk to which this would be applicable. If the cooperative fails to do so, no milk diverted by the cooperative to nonpool plants would be producer milk. This action was proposed by a cooperative and was not opposed.

3. *Partial payments to producers and cooperatives.* The rate at which partial payments for producer milk are made should be changed from the Class III price for the preceding month to 90 percent of the weighted average price for the preceding month. During March-July, when base and excess prices are applicable, the partial payment rate to producers without a base should be the Class III price for the preceding month.

The present order requires handlers to pay the market administrator by the 25th of the month for producer milk received during the first 15 days of the month. The rate of payment is the Class III price for the preceding month and applies to all milk received from producers except those who delivered milk for less than 20 days during the month. In turn, the market administrator pays individual producers by the last day of the month and cooperatives authorized to collect payment for the milk of its member producers at least 2 days before the last day of the month.

A cooperative proposed that handlers be required to make separate partial payments for producer milk received during each of the first two 10-day delivery periods of the month. Under their proposal these payments to the market administrator would be due on the 15th and 25th of the month, respectively, at 90 percent of the previous month's uniform price. The market administrator in turn would pay individual producers by the 17th and 27th of the month, respectively, and cooperatives collecting for their member milk at least two days earlier.

Proponent cooperative's spokesman recognized that the proposed changes would increase handlers' costs for milk, but held they are needed to improve the cash flow to dairy farmers. He contended that dairy farmers, faced with increasing production costs and greater demands for cash for purchasing items needed to continue producing milk, urgently need payment for their milk at a higher rate and at more frequent intervals. Higher interest rates for borrowed money in the last two years were cited

in particular as justifying more frequent payments to producers.

The proposed partial payment rate (90 percent of the previous month's uniform price) is desirable, the cooperative claimed, because it varies less than the Class III price for the previous month. Also, it would increase the amount of money dairy farmers would receive as partial payments. Further, it would reduce the risk carried by producers in situations where a handler suddenly is unable to pay for milk.

Another cooperative proposed to modify the present partial payment provision by advancing the payment date three days and changing the rate to 90 percent of the previous month's uniform price. Proponent's spokesman claimed the higher rate is necessary to more nearly represent the actual value of the milk. He contended that the present partial payment rate is disproportionate to the actual value of the milk and that producers should receive the partial payment at the earliest practicable date. However, this cooperative opposed more frequent partial payments on the basis that it would impose considerable additional costs on all parties and therefore would not be advantageous to producers.

Increasing the partial payment rate to 90 percent of the previous month's uniform price, as adopted herein, will provide producers a larger portion of the value of their milk through partial payments. For the two years ending November 1974, the proposed 90 percent rate averaged 18.1 cents per hundred-weight more than the actual partial payment rate.

Since the partial payment applies only to the first 15 days' deliveries by producers who shipped at least 20 days' production during the month, the likelihood of overpayment will not be significantly increased.

In March-July under the seasonal base-excess plan in the Nashville order, there may be producers for whom no base can be computed. Accordingly, the rate for making partial payments to such producers should be the Class III price for the preceding month. Otherwise, the actual value of milk to which the partial payment applies could be less than the amount paid.

There was no specific opposition to the proposed 90 percent of the previous month's uniform price as the partial payment rate. Although handlers opposed changing the partial payment procedure, their testimony was directed to the proposal for requiring two partial payments.

The basis of handler opposition was that the reasons cited by proponent for needing more frequent partial payments reflect general business conditions facing handlers and producers alike. Handlers' representatives contended the order should not be changed to recognize producers' problems at the expense of handlers.

Handlers claimed that two partial payments for a large volume of producer milk at a higher rate, as proposed, would increase their costs for milk. In addition

to requiring more frequent cash outlays, administrative costs related to making more frequent payments would increase as well, according to their spokesman. They also contended that adoption of the proposal would impose a burdensome time schedule on handlers during the first 15 days of the month, and would increase the likelihood of overpayments to producers who did not ship milk the entire month.

Providing an additional advance payment date as opponents have indicated would significantly increase handler and administrative costs and would not in any way change the total monies producers would receive in a 30-day period. It would be unreasonable to adopt procedures which would result in increased handler and administrative costs to resolve a cash flow to individual producers which seemingly could be resolved through the exercise of prudence on the part of the producer in handling his accounts.

The increasing risk of loss of money among producers through handler failures is a matter of concern. However, if a second advance payment is desirable for this purpose, it is clear that such procedure would be helpful in other orders also. The added cost and time demands involved in an additional payment are a significant impediment to adoption. This is not a matter that can be resolved easily. It should be explored carefully in depth and in conjunction with other alternative actions with a broader segment of the industry.

#### RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

#### GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act

are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

#### RECOMMENDED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

#### § 1098.7 [Amended]

1. In § 1098.7, amend paragraph (c) by replacing the words "two-thirds" with the words "60 percent," and amend paragraph (d) (4) by replacing the word "January" with the word "February."

2. In § 1098.13, paragraph (b) is revised as follows:

#### § 1098.13 Producer milk.

(b) Diverted by the operator of a pool plant or a cooperative association from a pool plant to a nonpool plant that is not a producer handler plant, subject to the following conditions:

(1) Such milk shall be accounted for as received by the diverting handler at the location of the nonpool plant to which diverted;

(2) Not less than two days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(3) To the extent that it would result in nonpool status for the pool plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be producer milk; and

(4) The cooperative association shall designate the dairy farmer deliveries that are not producer milk pursuant to paragraph (b) (3) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant(s) shall be producer milk.

3. In § 1098.71, paragraph (a) is revised as follows:

§ 1098.71 Payments to the producer-settlement fund.

(a) On or before the 25th day of each month each handler receiving milk from producers or from a handler described in § 1098.9(c) (except for producers having made deliveries for less than 20 days during the month) shall pay to the market administrator for deposit into the producer-settlement fund an amount of money calculated by multiplying the hundredweight of producer milk received by him during the first 15 days of such month by 90 percent of the weighted average price for the preceding month, except that for milk received in March, April, May, June, and July from a producer for whom no daily average base can be computed pursuant to § 1098.92, the applicable rate for making payment pursuant to this paragraph shall be the Class III price for the preceding month.

4. In § 1098.73, paragraph (a) is revised as follows:

§ 1098.73 Payments to producers and to cooperative associations.

(a) On or before the last day of each month, the market administrator shall make payment to each producer for milk received from such producer during the first 15 days of such month by handlers from whom the appropriate payments have been received pursuant to § 1098.71 (a) at not less than 90 percent of the weighted average price per hundred-weight for the preceding month, except that for milk received in March, April, May, June, and July from a producer for whom no daily average base can be computed pursuant to § 1098.92, the applicable rate for making payment pursuant to this paragraph shall be the Class III price for the preceding month.

Signed at Washington, D.C., on May 20, 1975.

JOHN C. BLUM,  
Associate Administrator.

[FR Doc. 75-13630 Filed 5-22-75; 8:45 am]

#### [7 CFR Part 29]

#### TOBACCO INSPECTION

#### Reporting Requirements

Notice is hereby given that the Department is considering further amending its regulations (published at 39 FR 17753, 39 FR 30475 and 39 FR 32975) relating to tobacco inspection and price support services with regard to flue-cured tobacco by amending Subpart G—Policy Statement and Regulations Governing Availability of Tobacco Inspection and Price Support Services to Flue-Cured Tobacco on Designated Markets (7 CFR Part 29).

The aforesaid policy statement and regulations are statements of agency policy and rules and regulations issued pursuant to the authority of the Tobacco Inspection Act (49 Stat. 731, 7 U.S.C. 511 *et seq.*); the Agricultural Act of 1949, as amended (63 Stat. 1051, 7 U.S.C. 1421, *et seq.*); and the Commod-

ity Credit Corporation Charter Act (62 Stat. 1070, as amended (15 U.S.C. 714 et seq.)).

**Statement of consideration.** Pursuant to the Department's regulations (see 7 CFR Part 725) warehouses selling flue-cured tobacco are already required to make certain reports to the Agricultural Stabilization and Conservation Service with regard to the flue-cured tobacco purchased or sold at these warehouses. However, experience in the prior year's tobacco marketing program indicates a need for additional identification of the tobacco and information relating to the sale of tobacco at auction on designated markets.

Section 29.9401 of the regulations is, therefore, amended to define "resale tobacco" as any tobacco offered for sale or sold by someone other than its producer; "nonauction-purchased tobacco" is that tobacco purchased at other than a bona fide auction sale, as defined in 7 CFR 29.1(d) on a designated market, as defined in 7 CFR 29.1(e); and "nonauction-purchased resale tobacco" is defined as that tobacco offered for sale, or sold at auction by a person who purchased it at other than a bona fide auction sale, as defined in 7 CFR 29.1(d), on a designated market, as defined in 7 CFR 29.1(e).

The regulations are further amended, by adding a new section, 7 CFR 29.9407, which will require warehouses to provide the Secretary information, as requested, on forms provided these warehouses by the Secretary. Moreover, warehouses will be required to keep records to support the information, which they provide the Inspection Service, as stated on these forms. Failure to provide said information or keep said records will result in suspension of inspection service until the warehouse comes into compliance.

1. Section 29.9401 is amended by adding paragraphs (c), (d), and (e) as follows:

**§ 29.9401 Definitions.**

As used in this Subpart, the following terms shall have the following meanings:

(c) "Resale tobacco" means any tobacco offered for sale, or sold, by someone other than its producer.

(d) "Nonauction-purchased tobacco" means tobacco purchased at other than a bona fide auction sale, as defined in 7 CFR 29.1(d), on a designated market, as defined in 7 CFR 29.1(e).

(e) "Nonauction-purchased resale tobacco" means tobacco being offered for sale, or sold, at auction by a person who purchased it at other than a bona fide auction sale, as defined in 7 CFR 29.1(d), on a designated market, as defined in 7 CFR 29.1(e).

2. Subpart G is amended by adding a new § 29.9407, as follows:

**§ 29.9407 Records and reports.**

(a) Each warehouse, on a designated market, shall provide the Secretary with any information that is requested on

forms provided said warehouse by the Secretary.

(b) Each warehouse shall keep and make available to the Secretary such records as are necessary for the Secretary to verify the information required by paragraph (a) of this section.

(c) Failure to comply with the requirements of this section shall result in suspension of tobacco inspection service at the warehouse until such time as the warehouse comes into compliance.

No significant change in the current record keeping procedure by warehouses will be necessary. These amendments are necessary to continue orderly marketing conditions in the flue-cured marketing area under the grower designation plan which was made effective in the 1974 marketing season.

All persons who desire to submit written data, views, or comments for consideration in connection with these proposals may file the same in four copies with the Hearing Clerk, U.S. Department of Agriculture, Room 112 Administration Building, Washington, D.C. 20250, not later than June 6, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 127(b)).

Done at Washington, D.C. the 19th day of May 1975.

RICHARD L. FELTNER,  
Assistant Secretary.

**DEPARTMENT OF COMMERCE**

**Maritime Administration**

**[ 46 CFR Part 298 ]**

**FEDERAL SHIP MORTGAGE AND LOAN INSURANCE**

**Application Fees**

Notice is hereby given that Part 298 of Title 46 of the Code of Federal Regulations governing the Federal Ship Financing Program under Title XI of the Merchant Marine Act, 1936, as amended, is proposed to be amended. One proposed amendment to Part 298 would increase the filing fee from \$100 to \$1,000, and would condition any commitment to guarantee obligations to finance vessel construction, reconstruction or reconditioning upon the receipt by the Secretary of Commerce of the investigation fee, which would be due at the time the letter commitment to guarantee is issued. Other proposed amendments to Part 298 would require (1) the payment of a fee of \$3,000 (in addition to the original investigation fee) to process any change, which in the opinion of the Secretary is substantial, after a commitment to guarantee has been issued but does not require substantial changes in documentation, and (2) the payment of an additional fee in the amount of 50 percent of the original investigation fee, but not to exceed \$50,000, where sub-

stantial changes in documentation are required.

Interested persons who desire to submit written data, views, or arguments in connection with the proposed amendments to the regulations should file the same, in triplicate, with the Secretary, Maritime Administration, Washington, D.C. 20230, on or before June 23, 1975.

Part 298 of 46 CFR is proposed to be amended to read as follows:

(1) Paragraph (d) and (f) of § 298.3 are revised to read as follows, and (2) Paragraph (g) of § 298.3 is deleted.

**§ 298.3 Applications.**

(d) *Investigation fee.* Each application must be accompanied by payment pursuant to section 1104(e) of the act in the amount of \$1,000, which payment shall be retained by the Secretary irrespective of the final disposition of the application. At the time the letter commitment to Guarantee Obligations is issued, the applicant shall pay to the Secretary such additional amount or amounts as the Secretary may deem reasonable for the investigation of the application, for the appraisal of properties offered as security, for the issuance of commitments, and for the inspection of such properties during construction, reconstruction or reconditioning: Provided, That such charges shall not aggregate more than one half of one per centum of the maximum principal amount of the guarantee. No commitment to guarantee obligations shall be considered to have been issued without the receipt by the Secretary of the amounts due under this section.

(f) *Amendment of application.* (1) An amendment to an application for the guarantee of obligations under Title XI of the act may be made to the Secretary, Maritime Administration.

(2) An amendment which represents, in the opinion of the Secretary, a substantial change to an application which has received a Commitment to Guarantee Obligations shall be subject to a charge in the amount of \$3,000, which will be applied to cover the cost of processing the amendment to the application.

(3) An amendment which involves, in the opinion of the Secretary, substantial changes in the documentation of a transaction subsequent to the review of such documentation by the Maritime Administration shall be subject to a charge equal to one half of the investigation fee charged pursuant to § 298.3(d), but not to exceed \$50,000.

(g) [Removed]

(Secs. 204(b), 1109, Merchant Marine Act, 1936, as amended (46 USC 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 842) as amended by P.L. 91-469 (84 Stat. 1036), and Department of Commerce Organization Order 10-8 (38 FR 19707, July 23, 1973))

By order of the Assistant Secretary for Maritime Affairs.

JAMES S. DAWSON, Jr.,  
Secretary.

[FR Doc.75-13634 Filed 5-22-75; 8:45 am]

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

**Food and Drug Administration**

**[ 21 CFR Part 331 ]**

**ANTACID PRODUCTS FOR OVER-THE-COUNTER (OTC) HUMAN USE**

**Testing Procedures for Antacid Products Generally Recognized as Safe and Effective and Not Misbranded**

In the FEDERAL REGISTER of June 4, 1974 (39 FR 19862), the Commissioner of Food and Drugs promulgated a final regulation for antacid products generally recognized as safe and effective and not misbranded (21 CFR Part 331).

The Commissioner determined that an over-the-counter (OTC) antacid product in a form suitable for oral administration is generally recognized as safe and effective and is not misbranded if it meets each of the conditions identified in Part 331 and each of the general conditions established in § 330.1 (21 CFR 330.1).

In the FEDERAL REGISTER of May 11, 1972 (37 FR 9464), the Commissioner of Foods and Drugs promulgated procedures governing the review and classification of OTC drug products, under § 330.10 (21 CFR 330.10). The Commissioner may propose on his own initiative to amend or repeal any monograph, or any interested person may petition the Commissioner for such proposal, pursuant to § 330.10(a)(12). A number of drug manufacturers have petitioned that the antacid in vitro testing procedures identified in Subpart C of Part 331 be amended.

One drug manufacturer has commented that the requirement that distilled water identified in § 331.20(p) be used in the antacid in vitro testing procedure is unnecessarily restrictive. Many laboratories use deionized water for analytical purposes. The manufacturer stated that it would be more realistic to specify the use of United States Pharmacopoeia (U.S.P.) Purified Water since it may be prepared by either distillation or ion exchange. The manufacturer further indicated that U.S.P. Purified Water has recognized, defined properties that should assist in obtaining uniform results and would avoid problems that could arise if distilled water were used.

It is the Commissioner's intent to require the simplest test that will yield uniform results and not to place unnecessary restrictions on testing procedures unless there is a reasonable basis for such limitations. The Commissioner concurs that use of U.S.P. Purified Water rather than distilled water is a more appropriate requirement, and therefore proposes to amend § 331.20(p)

to provide for use of U.S.P. Purified Water.

Other drug manufacturers have petitioned that the temperature requirements in the antacid in vitro test of 25° C±3° be revised to 37° C±3°. The designation of 37° C has been proposed because that is the temperature of the human body and is also used in numerous U.S.P. tests, including disintegration and dissolution rates and the acid consuming capacity for a number of the antacids listed in the U.S.P. The petitioners have submitted data for the ingredient aluminum hydroxide gel showing that the higher temperature produces higher acid neutralizing capacities. However, the data show that the difference in the acid neutralizing capacity of the final product when tested at 25° C and 37° C is not significant.

All the data submitted relate to products containing aluminum hydroxide gel, which has been used for years as an antacid. The OTC Antacid Panel had recognized aluminum hydroxide gel as a slow reacting antacid. Data have now been submitted to show that the percent of aluminum hydroxide gel neutralized when tested at 25° C and 37° C is sufficiently different that a final product which clearly passes the acid neutralizing test does not contain a sufficient amount of aluminum hydroxide gel at 25° C to meet the requirement that each active ingredient must contribute at least 25 percent of the acid neutralizing capacity. At 37° C this requirement of contribution is met.

One manufacturer of aluminum hydroxide gel stated that the pharmaceutical industry is attempting to respond to the monograph requirement by increasing the dosage levels of the active aluminum ingredient and/or to increase the ratio by weight of the nonaluminum alkali moiety to the aluminum hydroxide in a given formula. The manufacturer suggested that this could possibly lead to the inclusion of unnecessary amounts of certain ions such as sodium, magnesium and/or calcium compounds in an effort to "bolster" the initial reaction velocity of a given antacid combination in order to overcome the inhibition of the neutralizing reaction caused by the lower temperature restriction. The manufacturer further stated that consideration should be given to such formulation changes because some consumers of antacid products are restricted in terms of their intake of such ions as calcium, sodium, magnesium and bicarbonates.

The Commissioner recognizes that there may be a benefit from using an effective amount of a slow reacting aluminum hydroxide gel in an antacid, and does not believe that the proposed test should contain a technical restriction which inadvertently precludes such use. The Commissioner, in paragraph 32 of the preamble to the final order establishing an OTC antacid monograph, published in the FEDERAL REGISTER of June 4, 1974 (39 FR 19866), stated:

The Commissioner agrees that this [temperature] is a variable that can be eliminated

and yet not complicate the test. However, during testing, the Food and Drug Administration has shown that there is no difference between 25° C and 37° C. It is more appropriate to use room temperatures since it requires less equipment. The Commissioner has, therefore, concluded that the temperature will be designated at 25° C±3° in the final order.

On further consideration, the Commissioner believes that designating 25° C as the sole test temperature would result in reformulations and product changes which would not benefit the consumer or result in safer or more effective products. Testing by the Food and Drug Administration and that provided by the industry have shown that the difference between 25° C and 37° C of the final products is not significant.

The Commissioner has evaluated the new data submitted and proposes to amend the monograph to provide for the use of 25 or 37° C±3°, as the test temperature. Data have been provided and reasons shown why it is reasonable to amend the monograph to provide for testing at 37° C as well as 25° C.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 502, 505, 701, 52 Stat. 1040-1042 as amended, 1050-1053 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948; (21 U.S.C. 321, 352, 355, 371) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend 21 CFR Part 331 by revising §§ 331.20(p) and 331.23 to read as follows:

**§ 331.20 Apparatus and reagents.**

(p) Purified Water U.S.P.

**§ 331.23 Temperature standardization.**

All tests shall be conducted at 25° C±3°, or 37° C±3°.

Interested persons may, on or before June 23, 1975, file with the Hearing Clerk Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: May 19, 1975.

SAM D. FINE,  
Associate Commissioner,  
for Compliance.

#### [ 14 CFR Part 39 ]

[Docket No. 75-NW-15-AD]

#### AIRWORTHINESS DIRECTIVES Boeing Model 727 Series Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Boeing Model 727 series airplanes. There have been corrosion and cracks in the lower fuselage body skin at the BBL 0 doubler locations between Body Stations 360 and 740 on Boeing Model 727 series airplanes. Corrosion and subsequent cracking is caused by deterioration of the bonding material between the doubler and body skin. One crack was detected following reports of inability to maintain pressurization inflight. If corrosion and cracking are allowed to progress, decompression could occur.

Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require inspections and repair, as necessary, of the BBL 0 area for corrosion and cracks.

The Boeing Commercial Airplane Company had previously issued Service Bulletin 727-53-73, "Lower Body Skin Doubler Corrosion Inspection and Modification—BBL 0." This service bulletin described external/internal visual and ultrasonic inspections and preventive modification procedures consisting of sealing the doubler area. Recently, service experience has shown the ultrasonic inspection and sealing to be ineffective in detecting and preventing deterioration at BBL 0. Therefore, Boeing has issued Service Bulletin 727-53-128 describing both the external/internal visual inspection and a new low-frequency eddy current inspection and updated repair information. As an option to the local-area type repair, this new service bulletin also describes the installation of an external doubler which would constitute terminating action under the proposed AD.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: The Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before July 11, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the

rules docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations by adding the following new airworthiness directive:

**BOEING:** Applies to Boeing Model 727 series airplanes, listed in Boeing Service Bulletin 727-53-128, or later FAA approved revisions, certificated in all categories. Compliance required as indicated.

To detect corrosion and/or cracking in the lower body skin at the BBL 0 doubler locations between Body Stations 360 and 740, accomplish the following:

A. Inspect the lower body skin in accordance with either Paragraph B within the next three (3) months from the effective date of this AD, unless accomplished within the last three (3) months, or in accordance with Paragraph C within the next year from the effective date of this AD, unless accomplished within the last year.

1. If corrosion and/or cracking is found, repair in accordance with Figure 3 of Boeing Service Bulletin 727-53-128, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. Repairs made per Boeing Service Bulletin 727-53-73, or later FAA approved revisions, prior to issuance of Boeing Service Bulletin 727-53-128, are an acceptable means of compliance with this AD.

2. If corrosion and/or cracking is not found, repeat the inspections at intervals not to exceed two (2) years if the external/internal visual inspection of Paragraph C is used, or at intervals not to exceed six (6) months if the low-frequency eddy current inspection of Paragraph B is used.

B. Inspect using the low-frequency eddy current methods described in Figure 2 of Boeing Service Bulletin 727-53-128, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

C. Visually inspect, externally and internally, in accordance with Figure 1 of Boeing Service Bulletin 727-53-128, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. Visual inspections made per Paragraphs II.A and II.B of Boeing Service Bulletin 727-53-73, or later FAA approved revisions, prior to issuance of Boeing Service Bulletin 727-53-128, are an acceptable means of compliance with this AD.

D. Areas repaired in accordance with Paragraph A.1 need not comply with the repetitive inspection requirements of this AD. Areas in which corrosion/cracking is not found must be reinspected per Paragraph A.2 until terminating action per Paragraph E is accomplished.

E. Installation of either the complete repair doubler or skin panel replacement in accordance with Boeing Service Bulletin 727-53-128, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, constitutes terminating action for this AD.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Seattle, Washington, May 16, 1975.

C. B. WALK, Jr.,  
Director, Northwest Region.

#### [ 14 CFR Parts 23, 25, 27, 29, and 91 ]

[Docket No. 14623; Notice No. 75-22]

#### AIRCRAFT FUELING

##### Notice of Proposed Rulemaking

The Federal Aviation Administration is considering amending Parts 23, 25, 27, 29, and 91 of the Federal Aviation Regulations to require a color-coding system for aircraft fuel filler openings, and to prohibit any person from operating an aircraft unless he has determined that the aircraft has been fueled through a fuel nozzle that is color-coded in accordance with the coding system used on the exterior surface of the aircraft around each fuel filler opening and that matches the color around the opening; or it has been determined in some other manner that the aircraft has been fueled with the proper type of fuel.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591. All communications received on or before August 21, 1975, will be considered by the Administrator before taking action on the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

There have been a number of instances in which aircraft have been fueled with the wrong kind of fuel. For example, aircraft which should have been fueled with jet fuel. The use of jet fuel in the fuel tank of an airplane that requires aviation gasoline can result in, among other conditions, high operating temperatures, severe detonation, and extensive and sustained power loss.

The Federal Aviation Regulations currently contain provisions relating to aircraft fueling. Part 121 includes the requirement that each air carrier and commercial operator must show that it has competent personnel and adequate facilities and equipment for proper servicing and maintenance. Similar requirements are included in the rules affecting air carriers operating helicopters under Part 127. Part 135 contains a requirement that air taxi operators prepare and use a manual which includes procedures for refueling aircraft and eliminating fuel contamination. Parts 23, 25, 27, and 29 all require that fuel tank filler openings be marked with the minimum useable fuel grade. However, there are no specific fueling requirements that apply to other aircraft operators, nor are there any other requirements regarding markings around the fuel tank filler opening and the fuel dispensing nozzle to alert a person performing the fueling of the aircraft

that the fuel being used is not appropriate for the aircraft.

The National Transportation Safety Board (NTSB) has recommended to the FAA that in addition to the current regulations, Parts 23, 25, 27, and 29 should be amended to require an appropriately colored circle around each aircraft fuel filler opening in addition to the presently required minimum fuel grade markings on each aircraft, and that the colored circle correspond to the fuel color and be placed on a slightly larger white circle to assure ease of differentiation between the color of the aircraft and the color of the fuel circle. In addition, the Board recommended that Advisory Circular 20-43A be revised to include the suggestion that refueling nozzles on fuel servicing units be marked with the prescribed color code. The latter recommendation was adopted in Advisory Circular 20-43B dated June 8, 1971.

Advisory Circular 20-43B points out the importance of conspicuous marking of tank vehicles to show the type of fuel carried, making specific suggestions as to the color, size, and location of vehicle and hose line markings. The circular makes the further suggestion that the fueling nozzles be conspicuously marked with the appropriate color code, noting that this is especially important in that the person doing the refueling will have the color coded nozzle in his hands during the process as an additional reminder of the type of fuel being dispensed.

In the light of information obtained during the investigation of accidents involving the improper fueling of aircraft and the continuing occurrence of instances of improper fueling, the FAA believes that additional regulatory safeguards should be adopted to preclude improper fueling. The FAA believes that the recommendation of the NTSB has merit. Accordingly, it is proposed to amend those sections of Parts 23, 25, 27, and 29 dealing with miscellaneous markings and placards to add a new provision to each requiring that the exterior surface of the aircraft around all fuel filler openings be color-coded to identify the type of fuel required for the engines. For aircraft powered by engines that use aviation gasoline, the color-code would have to be a solid red circle that is 12-inches in diameter, bordered with a 2-inch white band. For aircraft powered by engines that use jet fuel, the color code would have to be a 12-inch solid black square bordered with a 2-inch white band.

In addition, it is proposed to add a new § 91.30 to Part 91 that would prohibit the operation of a civil aircraft of U.S. registry unless the operator determines that the aircraft has been fueled through a fuel nozzle that is color-coded in accordance with the color-coding system used on the exterior surface of the aircraft around each fuel filler opening and that matches the color around the opening; or that it has been determined in some other manner that the aircraft has been fueled with the proper type of fuel.

#### PROPOSED RULES

22555

In those instances in which a color-coded fuel nozzle may not be available for the fueling of an aircraft, it is anticipated that the person performing the fueling of the aircraft will be able to make use of a difference in color between aviation gasoline and jet fuel in determining that the aircraft has been properly fueled. Moreover, in addition to the minimum fuel grade or designation being already marked on or near the fuel filler opening on most aircraft, fuel servicing vehicles, units, and facilities are usually marked with the fuel grade or designation.

It is also proposed to amend § 91.31, Civil aircraft operating limitations and marking requirements, to add a new paragraph (e) prohibiting the operation of a civil aircraft of U.S. registry after (six months after the effective date) unless the exterior surface of the aircraft, around each fuel filler opening, has been color-coded to identify the fuel required for the engines in the same manner as proposed for Parts 23, 25, 27, and 29. This is necessary to assure that the fuel filler openings on existing aircraft are properly color-coded. The FAA believes that six months will provide owners ample time to have the fuel filler openings on their aircraft color-coded.

These amendments are proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Parts 23, 25, 27, 29, and 91 of the Federal Aviation Regulations as follows:

1. By designating the present provisions of paragraph (c) as paragraph (c) (1) (i) and (ii) and by adding a new paragraph (c) (2) to § 23.1557 to read as follows:

§ 23.1557 Miscellaneous markings and placards.

(c) *Fuel and oil filler openings.* . . . .  
(2) The exterior surface of the airplane around all fuel filler openings must be color-coded to identify the type of fuel required for the engines as follows:  
(i) For airplanes powered by engines that use aviation gasoline, the color-code must be a solid red circle, 12 inches in diameter, and bordered with a 2-inch white band.

(ii) For airplanes powered by engines that use jet fuel, the color-code must be a 12-inch solid black square bordered with a 2-inch white band.

2. By designating the present provisions of paragraph (b) as paragraph (b) (1) (i) and (ii) and by adding a new paragraph (b) (2) to § 25.1557 to read as follows:

§ 25.1557 Miscellaneous markings and placards.

(b) *Fuel and oil filler openings.* . . . .  
(2) The exterior surface of the air-

plane around all fuel filler openings must be color-coded to identify the type of fuel required for the engines as follows:

(i) For airplanes powered by engines that use aviation gasoline, the color-code must be a solid red circle, 12 inches in diameter, and bordered with a 2-inch white band.

(ii) For airplanes powered by engines that use jet fuel, the color-code must be a 12-inch solid black square bordered with a 2-inch white band.

3. By designating the present provisions of paragraph (c) as paragraph (c) (1) (i) and (ii) and by adding a new paragraph (c) (2) to § 27.1557 to read as follows:

§ 27.1557 Miscellaneous markings and placards.

(c) *Fuel and oil filler openings.* . . . .

(2) The exterior surface of the rotorcraft around all fuel filler openings must be color-coded to identify the type of fuel required for the engines as follows:

(i) For rotorcraft powered by engines that use aviation gasoline, the color-code must be a solid red circle, 12 inches in diameter, and bordered with a 2-inch white band.

(ii) For rotorcraft powered by engines that use jet fuel, the color-code must be a 12-inch solid black square bordered with a 2-inch white band.

4. By designating the present provisions of paragraph (c) as paragraph (c) (1) (i) and (ii) and by adding a new paragraph (c) (2) to § 29.1557 to read as follows:

§ 29.1557 Miscellaneous markings and placards.

(c) *Fuel and oil filler openings.* . . . .

(2) The exterior surface of the rotorcraft around all fuel filler openings must be color-coded to identify the type of fuel required for the engines as follows:

(i) For rotorcraft powered by engines that use aviation gasoline, the color-code must be a solid red circle, 12 inches in diameter, and bordered with a 2-inch white band.

(ii) For rotorcraft powered by engines that use jet fuel, the color-code must be a 12-inch solid black square bordered with a 2-inch white band.

5. By adding a new § 91.30 to Part 91 to read as follows:

§ 91.30 Aircraft fueling.

No person may operate a civil aircraft of U.S. registry unless—

(a) The aircraft has been fueled through a fuel nozzle that is color-coded in accordance with the coding system used on the exterior surface of the aircraft around each fuel filler opening and that matches the color around the opening; or

(b) It has been determined in some other manner that the aircraft has been fueled with the proper type of fuel.

6. By amending § 91.31 by adding a new paragraph (e) to read as follows:

XUM

## PROPOSED RULES

## § 91.31 Civil aircraft operating limitations and marking requirements.

(e) After (six months after the effective date), no person may operate a civil aircraft of U.S. registry unless the exterior surface of the aircraft, around each fuel filler opening, has been color-coded to identify the type of fuel required for the engines as follows:

(1) For aircraft powered by engines that use jet fuel, a 12-inch solid black circle, 12 inches in diameter, and bordered with a 2-inch white band.

(2) For aircraft powered by engines that use jet fuel, a 12-inch solid black square bordered with a 2-inch white band.

Issued in Washington, D.C., on May 16, 1975.

R. P. SKULLY,  
Director,  
Flight Standards Service.

[Airspace Docket No. 75-WE-5]

## CONTROL ZONE

## Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Chico, California control zone.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before June 23, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

The airspace requirements for Chico Municipal Airport, Chico, California, have been reviewed in accordance with criteria contained in the United States Standards for Terminal Instrument Procedures. The review revealed that the description of the control zone requires amending to provide sufficient controlled airspace protection for aircraft executing the VOR Runway 13 Instrument procedure.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (40 FR 354) the description of the Chico, California, control zone is amended in part as follows: Wherein it states "... within 2 miles each side of the Chico VOR 316° radial, ..." substitute "... within 3 miles each side of the Chico VOR 316° radial ..."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on May 16, 1975.

LYNN L. HINK,  
Acting Director,  
Western Region.

[Airspace Docket No. 75-GL-34]

## TRANSITION AREA

## Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Dwight, Illinois.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before June 23, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new instrument approach procedure has been developed for the Dwight Airport, Dwight, Illinois. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Dwight, Illinois.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal

Aviation Regulations as hereinafter set forth:

In § 71.181 (40 FR 441), the following transition area is added:

## Dwight, Illinois

That airspace extending upward from 700 feet above the surface within a five mile radius of Dwight Airport (Latitude 41°08'05" N., Longitude 88°26'30" W.); and within three miles either side of the 097° bearing from the airport extending from the five mile radius area to 8 miles from the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on May 5, 1975.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

## [14 CFR Part 71]

[Airspace Docket No. 75-GL-22]

## TRANSITION AREA

## Proposed Designation and Revocation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to revoke the transition area at Appleton, Wisconsin and to designate a transition area at Oshkosh, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 23, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new instrument approach procedure has been developed for the Fond Du Lac County Airport, Fond Du Lac, Wisconsin. This procedure will require additional controlled airspace south of Fond Du Lac. A review of the controlled airspace designated for Appleton, Oshkosh, and Fond Du Lac indicates a very broken boundary difficult for pilots and controllers to define. We propose to combine

these areas into one citation and make the boundary more regular.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In Section 71.181 (40 FR 441), the following transition area is deleted: "Appleton, Wisconsin".

In § 71.181 (40 FR 441), the following transition area is amended to read:

## Oshkosh, Wisconsin

That airspace extending upward from 700 feet above the surface within an area bounded by a line beginning at Latitude 44°24'00" N., Longitude 88°45'00" W. to Latitude 44°19'00" N., Longitude 88°19'00" W. to Latitude 43°33'00" N., Longitude 88°19'00" W. to Latitude 43°33'00" N., Longitude 88°53'00" W. to Latitude 43°52'00" N., Longitude 88°53'00" W. to point of beginning.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on May 7, 1975.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

## PROPOSED RULES

the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new standard instrument approach procedure has been developed for the LaPorte Municipal Airport, LaPorte, Indiana. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at LaPorte, Indiana.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (40 FR 441), the following transition area is added:

## LaPorte, Indiana

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the LaPorte Municipal Airport (Latitude 41°34'21" N., Longitude 86°44'02" W.); within 2 miles either side of the 165° bearing from the LaPorte Airport extending from the 5-mile radius area to 9 miles south of the airport, excluding that portion which overlies the Michigan City, Indiana transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois on May 5, 1975.

R. O. ZIEGLER,  
Director,  
Great Lakes Region.

## TRANSITION AREA

## Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the transition area at Fort Bridger, Wyoming.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colorado 80207. All communications received on or before June 23, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

The instrument approach procedure for Fort Bridger, Wyoming has been revised. It is necessary to provide controlled airspace for protection of aircraft conducting this procedure.

In consideration of the foregoing, the FAA proposes the following airspace action:

In Federal Aviation Regulation Part 71.181 (40 FR 441), the description of the Fort Bridger, Wyoming transition area is amended to read:

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Fort Bridger Municipal Airport (Latitude 41°24'00" N., Longitude 110°25'00" W.), and within 3.5 miles each side of the Fort Bridger VORTAC 047° radial extending from the 9-mile radius area to 11.5 miles northeast of the VORTAC; and that airspace extending upward from 1200 above the surface within 8.5 miles southeast and 12.5 miles northwest of the Fort Bridger VORTAC 047° and 227° radials extending from 23 miles northeast to 10.5 miles southwest of the VORTAC.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, May 27, 1975.

[No. 36137]

## CLASSIFICATION OF CARRIERS

## Notice of Proposed Rulemaking

At a general session of the Interstate Commerce Commission held at its office

in Washington, D.C. on the 22nd day of April, 1975.

This proceeding is being instituted on our own motion to revise the rules on carrier classification in the uniform system of accounts and reports for the following modes:

Railroad Companies  
Electric Railways  
Motor Carriers of Passengers  
Motor Carriers of Property  
Inland and Coastal Waterway Carriers  
Freight Forwarders

Under current rules and practices, an extended lag effects the classification of carriers. In some instances the lag extends as long as three years after the carriers' operating revenues have qualified the carrier for reclassification. In order to avoid undue delay in carrier reclassification, the following revisions will be implemented in the uniform system of accounts and reports.

(1) Classification will be based on "immediately preceding" year's revenue in lieu of the three-year average.

(2) Upward reclassification from a class already subject to the accounting rules will be effected in the year immediately following qualification.

(3) Upward reclassification from a class not subject to the accounting rules to one that will be subject thereto, such as Class B to Class A Freight Forwarder, will be effected in the second succeeding year following qualification.

(4) Downward reclassification will be effected in the year immediately following the third consecutive year in which a carrier fails to meet the minimum revenue qualification.

(5) New carriers will be classified on the basis of reasonable estimates of annual operating revenues where no actual data are available.

(6) All carriers will be reviewed annually for classification.

(7) A carrier's classification will be reviewed immediately in the event of a business combination.

In addition, the minimum dollar classification for Class I railroads will be increased from \$5 million to \$10 million as a result of inflationary trends.

The Carrier Classification Form, Appendix I, will aid the implementation of the provisions and provide a means for active carrier participation in the classification process. The form will be distributed to carriers by October 1 and should be completed and returned to the Bureau of Accounts, Section of Reports, by October 31. Carriers will include a reasonable estimate of fourth quarter revenues in the "current year revenues" reported. Based upon the reported revenues and the classification rules of 49 CFR Part 1340, carriers will determine if a new classification is warranted and indicate the effective date of adoption.

We believe the adoption of the aforementioned revision will provide stability in carrier classification, minimize the problems associated with the implementation of the uniform system of accounts and reports, provide a means for active carrier participation in the classifica-

tion process and eliminate the undesirable delay in carrier reclassification.

It is intended that the proposed revision to the uniform system of accounts and reports become effective for the classification year beginning January 1, 1976, which will be based on calendar year 1975 operating revenues.

Upon consideration of the above described matters and good cause appearing therefor:

*It is ordered*, That a proceeding be, and it is hereby, instituted under the authority of sections 12, 20, 204, 220, 313 and 402 of the Interstate Commerce Act and pursuant to sections 553 and 559 of the Administrative Procedure Act with a view to adopting the proposed revisions set forth in Appendices A through I of this Notice, and for the purpose of making such other and further changes as the facts and circumstances may justify and require.

*It is further ordered*, That all Railroads, Electric Railways, Motor Carriers of Passengers, Motor Carriers of Property, Inland and Coastal Waterways Carriers, and Freight Forwarders subject to the Interstate Commerce Act be, and they are hereby, made respondents in this proceeding.

*It is further ordered*, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views, and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

*It is further ordered*, That any interested persons wishing to submit written statements of fact, views, or arguments shall file an original (and, if possible, 15 copies) of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by June 23, 1975 and that all such statements will be considered as evidence and as a part of the record in this proceeding.

*It is further ordered*, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C. during regular business hours.

*And it is further ordered*, That statutory notice of the institution of this proceeding be given to all respondents and to the general public by mailing a copy of this order to the Governor of every State and to the Public Utilities Commissions or Board of each State having jurisdiction over transportation, by posting a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the Federal Register as notice to all interested persons.

This decision is not a major Federal action significantly affecting the quality

of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

#### PART 1201—RAILROAD COMPANIES

Amend Part 1201, Uniform System of Accounts for Railroad Companies, as follows:

##### GENERAL INSTRUCTIONS

The text of instruction 1-1 "Classification of Carriers" is revised to read:

1-1 *Classification of carriers.* (a) For purposes of the accounting and reporting regulations, carriers are grouped into the following two classes:

*Class I.* Carriers having annual carrier operating revenues of \$10 million or more.

*Class II.* Carriers having annual carrier operating revenues of less than \$10 million.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. Class II carriers shall adopt Class I classification effective as of January 1 of the following year.

(2) If at the end of any calendar year a Class I carrier's annual operating revenue is less than \$10 million, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements for Class II carriers. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Newly organized carriers shall be classified on the basis of their annual carrier operating revenues for the latest period of such operation. If actual data are not available, new carriers shall be classified on the basis of their carrier operating revenue known and estimated for a year.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(7) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) Class I carriers shall keep all of the accounts of this system of accounts which are applicable to their operations. Class II carriers shall keep all of the accounts of this system of accounts which are applicable to their operations, except that their accounts for operating expenses may be kept under the accounts of the respective condensed groupings provided for herein.

(d) In applying the classification grouping to any switching or terminal company which is operated as a joint facility of owning or tenant railways the sum of the annual carrier operating revenues, the joint facility rent income, and the totals of the joint facility credit accounts in operating expenses, shall be used in determining its class.

#### PART 1202—ELECTRIC RAILWAYS

Amend Part 1202, Uniform System of Accounts for Electric Railways, as follows:

##### CLASSIFICATION OF CARRIERS

The text of instruction 00-1 "Classification of Carriers" is revised to read:

00-1 *Classification of carriers.*

(a) For purposes of the accounting and reporting regulations, carriers are grouped into the following three classes:

*Class I.* Carriers having annual carrier operating revenues of \$1 million or more.

*Class II.* Carriers having annual carrier operating revenues of \$250,000 but less than \$1 million.

*Class III.* Carriers having annual carrier operating revenues of less than \$250,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. Adoption of the higher classification shall be effective as of January 1 of the following year.

(2) If at the end of any calendar year a carrier's annual operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which it falls. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Newly organized carriers shall be classified on the basis of their annual carrier operating revenues for the latest period of operation. If actual data are not available, new carriers shall be classified on the basis of their carrier operating revenue known and estimated for a year.

(5) When a business combination occurs, such as a merger, reorganization,

or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(c) Both Class I and Class II carriers shall keep the accounts prescribed herein, except that a condensed grouping of primary operating expense accounts is provided for the use of Class II carriers. Class II carriers desiring to do so may maintain the primary accounts prescribed for Class I carriers but must be prepared to combine the accounts for the purpose of making entries in reports filed with the Commission.

#### PART 1206—COMMON AND CONTRACT MOTOR CARRIERS OF PASSENGERS

Amend Part 1206, Common and Contract Motor Carriers of Passengers, as follows:

##### INSTRUCTIONS

The text of instruction 2-1 "Classification of Carriers" is revised to read:

2-1 *Classification of carriers.*

(a) For purposes of the accounting and reporting regulations, carriers are grouped into the following three classes:

*Class I.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$1 million or more.

*Class II.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$200,000 but less than \$1 million.

*Class III.* Carriers having annual carrier operating revenues (including interstate and intrastate) of less than \$200,000.

(b) (1) The class to which any carrier belongs shall be determined by annual gross carrier operating revenue. If at the end of any calendar year such annual gross carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class III carriers adoption of Class II classification shall be effective as of January 1 of the following year. For Class II carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year after the carrier meets the minimum revenue limit for Class I.

(2) If at the end of any calendar year a carrier's operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which the current year revenue falls. Adoption of the lower class shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual carrier operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying conditions justifying an exception.

(d) Only Class I carriers shall keep all the accounts prescribed in this part, where applicable. Class II and Class III are not required to keep the accounts prescribed in this part.

#### PART 1207—CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Amend Part 1207, Class I and Class II Common and Contract Motor Carriers of Property, as follows:

##### CLASS I AND CLASS II MOTOR CARRIERS INSTRUCTIONS

The text of instruction 1 "Classification of Carriers" is revised to read:

1. *Classification of carriers.*

(a) For purposes of accounting and reporting regulations, except those regulations pertaining to accounting and reporting for revenue and expense items, common and contract carriers of property subject to the Interstate Commerce Act are grouped into the following three classes:

*Class I.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$3 million or more.

*Class II.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$500,000 but less than \$3 million.

*Class III.* Carriers having annual carrier operating revenues (including interstate and intrastate) of less than \$500,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class II carriers adoption of

Class I classification shall be effective as of January 1 of the following year. For Class III carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year a carrier's annual carrier operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which the current year revenue falls. Adoption of the lower class shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual carrier operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(c) Special provisions for carriers with revenues from general and special commodities and from household goods operations.

(1) Separate matrices of revenue and expenses are provided for carriers subject to Instructions 27 and 28A and for carriers subject to Instructions 28B for accounting and reporting purposes. For purposes of accounting and reporting, the revenues of common and contract motor carriers of property, shall be categorized as follows: Instructions 27 and 28A (general and other special commodity), Instruction 28B (household goods). Each category of revenue is then classified in accordance with the dollar revenue limits prescribed in paragraph (a). When a carrier has both household goods and general and other special commodity revenue, each category shall be classified (I, II or III) to determine the accounting and reporting regulations which pertain to that category.

(2) If a carrier grouped as Class I or Class II carrier in accordance with paragraph (a) has operations in both categories in paragraph (c) (1) above, and one of the categories is classified as Class III, such revenues and expenses shall be accounted and reported in accordance with the regulations pertaining to the Class I or Class II category.

(3) If a carrier grouped as Class II in accordance with paragraph (a) has operations in both categories and both categories are grouped as Class III in accordance with paragraph (c) (1), such revenues and expenses shall be accounted and reported in accordance with the regulations pertaining to the category with the larger annual carrier operating revenues.

(d) Any carrier, at its option, may adopt the accounting requirements of a higher class than the one in which it falls. Notice of such action shall be promptly filed with the Commission. However, for reporting purposes the carrier shall comply with the reporting requirements of the class applicable to its annual carrier operating revenue.

The introductory text of paragraph (a) of instruction 27 "Distribution of expenses to activities: general commodity carriers" is revised to read:

27. Distribution of expenses to activities: general commodity carriers.

All Class I and Class II common carriers which derive 75 percent or more of their revenues from the intercity transportation of general commodities will be classified as Instruction 27 carriers in the year immediately following the year in which the carriers meet this minimum revenue qualification. They shall distribute expenses to the following activities (see definition 2):

#### PART 1209—INLAND AND COASTAL WATERWAYS CARRIERS

Amend Part 1209, Inland and Coastal Waterways Carriers, as follows:

##### Introduction

The text of instruction (ii) "Classification of Carriers" is revised to read:

(ii) Classification of carriers.

(a) For purposes of the accounting and reporting regulations, carriers are grouped into the following three classes:

Class A. Carriers having annual carrier operating revenues of \$500,000 or more.

Class B. Carriers having annual carrier operating revenues of \$100,000 but less than \$500,000.

Class C. Carriers having annual carrier operating revenues of less than \$100,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class B carriers adoption of Class A classification shall be effective as of January 1 of the following year. For Class C carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year a carrier's annual carrier operating revenue is less than the minimum of the class in which the carrier is classified,

and has been for three consecutive years, the carrier shall adopt the accounting requirements of the lower class in which the current year revenue falls. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual carrier operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. Such request shall be in writing specifying the conditions justifying an exception.

(c) Class A companies shall keep all of the accounts of this system of accounts which are applicable to their operations. Class B companies shall keep all of the accounts of this system of accounts which are applicable to their operations, except that their accounts for operating revenues and operating expenses may be kept under the accounts of the condensed classification provided herein.

#### PART 1210—FREIGHT FORWARDERS

Amend Part 1210, Uniform System of Accounts for Freight Forwarders, as follows:

In the list of instructions and accounts, Line Item "0-1 Introduction" is amended to read:

0-1 Classification of Carriers

Line Item "0-2 Applicability of the Regulations" is deleted.

##### INSTRUCTIONS

The title and text of instruction "0-1 Introduction" is revised to read:

0-1 Classification of carriers.

(a) For purposes of the accounting and reporting regulations, freight forwarders are grouped into the following two classes:

Class A. Freight forwarders having annual operating revenues of \$100,000 or more.

Class B. Freight forwarders having annual operating revenues of less than \$100,000.

The term "operating revenues" refers to the amounts includible in accounts 501, 521, 522, and 523.

(b) (1) The class to which any freight forwarder belongs shall be determined

by annual operating revenue. If at the end of any calendar year such annual operating revenue is greater than the maximum for the class in which the freight forwarder is classified, the freight forwarder shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class B freight forwarders adoption of Class A classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year a Class A freight forwarder's annual operating revenues is less than \$100,000, and has been for three consecutive years, the freight forwarder shall adopt the accounting and reporting requirements applicable to a Class B. Such adoption shall be effective as of January 1 of the following year.

(3) Freight forwarders shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any freight forwarder which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving freight forwarder shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(6) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the freight forwarder, the freight forwarder may request the Commission for an exception to the regulations. Such request shall be in writing specifying the conditions justifying an exception.

(c) Under part IV of the Interstate Commerce Act the observance of the rules and regulations stated in this system of accounts becomes obligatory upon persons having direct charge of the accounts of the freight forwarders concerned, and such persons will be held responsible for their proper application.

Subsection (d) of section 421 of part IV of the Interstate Commerce Act provides that:

(d) Any freight forwarder, or any officer, agent, employee, or representative thereof, who shall willfully fail or refuse to make a report to the Commission as required under this part, or to make specific and full, true, and correct answer to any question within thirty days from the time it is lawfully required by the Commission so to do, or to keep accounts, records, and memoranda in the form and manner prescribed by the Commission, or shall knowingly and willfully falsify, destroy, mutilate, or alter any such report, account, record, or memorandum, or shall knowingly and willfully file with the Commission any false report, account, record, or memorandum, or shall knowingly and willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the freight

forwarder, or shall knowingly and willfully keep any accounts, records, or memoranda contrary to the rules, regulations, or orders of the Commission with respect thereto, shall be guilty of a misdemeanor and upon conviction thereof shall be subject for each offense to a fine of not more than \$5,000. As used in this subsection the word "keep" shall be construed to mean make, prepare, or compile, as well as retain.

(d) Class A companies shall keep all of the accounts of this system of accounts which are applicable to their operations. No uniform system of accounts is prescribed for Class B companies.

#### PART 1240—CLASSES OF CARRIERS

Amend part 1240, Classes of Carriers, as follows:

The texts of §§ 1240.1, 1240.2, 1240.3, 1240.4, 1240.5 and 1240.6 are revised to read as follows:

##### Subpart A—Railroads

§ 1240.1 Classification of rail carriers.

(a) For the purpose of annual, other periodical and special reports, commencing with reports for the year, quarter or month beginning January 1, 1975, and thereafter until further ordered, operating carriers by railroad subject to the provisions of Part I of the Interstate Commerce Act shall be, and they are hereby, grouped into the following classes:

Class I. Carriers having annual carrier operating revenues of \$10 million or more.

Class II. Carriers having annual carrier operating revenues of less than \$10 million.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. Class II carriers shall adopt Class I classification effective as of January 1 of the following year.

(2) If at the end of any calendar year a Class I carrier's annual operating revenue is less than \$10 million, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements for Class II carriers. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Newly organized carriers shall be classified on the basis of their annual carrier operating revenues for the latest period of operation. If actual data are not available, new carriers shall be classified on the basis of their carrier operating revenue known and estimated for a year.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1

of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(d) In applying the classification grouping to any switching or terminal company which is operated as a joint facility of owning or tenant railways the sum of the annual carrier operating revenues, the joint facility rent income, and the totals of the joint facility credit accounts in operating expenses, shall be used in determining its class.

(Sec. 12, 24 Stat. 383, as amended; 49 U.S.C. 12. Interprets or Applies Sec. 20, 24 Stat. 386, as amended; 49 U.S.C. 20)

##### Subpart B—Carriers by Water

§ 1240.2 Classification of carriers by water.

(a) For the purpose of annual, other periodical and special reports, commencing with reports for the year, quarter or month beginning January 1, 1975, carriers by water subject to the provisions of the Interstate Commerce Act shall be, and they are hereby, grouped into the following classes:

Class A. Carriers having annual carrier operating revenues of \$500,000 or more.

Class B. Carriers having annual carrier operating revenues of \$100,000 but less than \$500,000.

Class C. Carriers having annual carrier operating revenues of less than \$100,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class B carriers adoption of Class A classification shall be effective as of January 1 of the following year. For Class C carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year a carrier's annual carrier operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting requirements of the lower class in which the current year revenue falls. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating

rights) shall be classified in accordance with a reasonable estimate of its annual gross carrier operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. Such request shall be in writing specifying the conditions justifying an exception.

(Sec. 12, 24 Stat. 383, as amended, 54 Stat. 933; 49 U.S.C. 12, 904. Interprets or Applies Sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U.S.C. 20, 913)

#### Subpart C—Carriers by Electric Railway

##### § 1240.3 Classification of carriers by electric railway.

(a) For the purpose of annual, other periodical and special reports commencing with the year, quarter or month beginning January 1, 1975, carriers by electric railway subject to the provisions of the Interstate Commerce Act shall be, and they hereby are, grouped into the following classes:

*Class I.* Carriers having annual carrier operating revenues of \$1 million or more.

*Class II.* Carriers having annual carrier operating revenues of \$250,000 but less than \$1 million.

*Class III.* Carriers having annual carrier operating revenues of less than \$250,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. Adoption of the higher classification shall be effective as of January 1 of the following year.

(2) If at the end of any calendar year a carrier's annual carrier operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which it falls. Such adoption shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Newly organized carriers shall be classified on the basis of their annual carrier operating revenues for the latest period of such operation. If actual data are not available, new carriers shall be classified on the basis of their carrier operating revenue known and estimated for a year.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(Sec. 12, 24 Stat. 383, as amended; 49 U.S.C. 12. Interprets or Applies Sec. 20, 24 Stat. 386, as amended; 49 U.S.C. 20)

#### Subpart D—Motor Carriers

##### § 1240.4 Classification of motor carriers of passengers.

(a) For purposes of the accounting and reporting regulations, commencing with the year beginning January 1, 1975, common and contract carriers of passengers subject to the Interstate Commerce Act are grouped into the following classes:

*Class I.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$1 million or more.

*Class II.* Carriers having annual carrier operating revenues (including interstate and intrastate) of \$200,000 but less than \$1 million.

*Class III.* Carriers having annual carrier operating revenues (including interstate and intrastate) of less than \$200,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year or accounting year of 13 4-week periods, such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class III carriers adoption of Class II classification shall be effective as of January 1 of the following year. For Class II carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year after the carrier meets the minimum revenue limit for Class I.

(2) If at the end of any calendar year, or accounting year of 13 4-week periods, a carrier's annual operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which the current year revenue falls. Adoption of the lower class shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority

not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual gross carrier operating revenues.

Any carrier which begins new operations is required to furnish the above estimate, including intrastate, anticipated interstate and local cartage revenues, to the Bureau of Accounts, Section of Reports, prior to the issuance of a certificate or permit.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying conditions justifying an exception.

(Secs. 204, 220, 49 Stat. 546, as amended, 563, as amended 49 U.S.C. 304, 320)

##### § 1240.5 Classification of motor carriers of property.

(a) For purposes of accounting and reporting regulations, commencing with the year beginning January 1, 1975, common and contract carriers of property subject to the Interstate Commerce Act are grouped into the following three classes:

*Class I.* Carriers having annual carrier operating revenues of \$3 million or more.

*Class II.* Carriers having annual carrier operating revenues of \$500,000 but less than \$3 million.

*Class III.* Carriers having annual carrier operating revenues of less than \$500,000.

(b) (1) The class to which any carrier belongs shall be determined by annual carrier operating revenue. If at the end of any calendar year, or accounting year of 13 4-week periods, such annual carrier operating revenue is greater than the maximum for the class in which the carrier is classified, the carrier shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class II carriers adoption of Class I classification shall be effective as of January 1 of the following year. For Class III carriers adoption of a higher classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year, or accounting year of 13 4-week periods a carrier's annual carrier operating revenue is less than the minimum of the class in which the carrier is classified, and has been for three consecutive years, the carrier shall adopt the accounting and reporting requirements of the lower class in which the current year revenue falls. Adoption of the lower class shall be effective as of January 1 of the following year.

(3) The carrier shall notify the Commission of any change in classification

by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any carrier which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual gross carrier operating revenues.

Any carrier which begins new operations is required to furnish the above estimate, including intrastate, anticipated interstate and local cartage revenues, to the Bureau of Accounts, Section of Reports, prior to the issuance of a certificate or permit.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving carrier shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the carrier, the carrier may request the Commission for an exception to the regulations. This request shall be in writing specifying the conditions justifying an exception.

(d) Special Provisions for Carriers with Household Goods Operations.

(1) For purposes of accounting and reporting revenues and expenses, the revenues of common and contract motor carriers of property, that have household goods operations, are categorized as follows:

Instruction 28B (household goods) Instruction 27 and 28A (general commodity and other)

Each category of revenue is then classified in accordance with the dollar revenue limits prescribed in paragraph (a) and shall be classified in accordance with paragraph (b). When a carrier has both household goods and general commodity and other revenue, each category shall be classified (I, II, or III) to determine the accounting and reporting regulations which pertain to that category.

(2) If a carrier grouped as Class I or Class II carrier in accordance with paragraph (a) has operations in both categories in paragraph (c) (1) above, and one of the categories is classified as Class III, such revenues and expenses shall be accounted and reported in accordance with the regulations pertaining to the Class I or Class II category.

(3) If a carrier grouped as Class II in accordance with paragraph (a) has operations in both categories and both categories are grouped as Class III in accordance with paragraph (c) (1), such revenues and expenses shall be accounted and reported in accordance with the regulations pertaining to the category with the larger annual gross carrier operating revenues.

(Secs. 204, 220, 49 Stat. 546, as amended 563, as amended; 49 U.S.C. 304, 320)

#### Subpart E—Freight Forwarders

##### § 1240.6 Classification for freight forwarders.

(a) For the purpose of annual, other periodical and special reports, commencing with the year, quarter or month beginning January 1, 1975, freight forwarders subject to the provision of Part IV of the Interstate Commerce Act, shall be, and they hereby are, grouped into the following classes:

*Class A.* Freight forwarders having annual operating revenues of \$100,000 or more.

*Class B.* Freight forwarders having annual operating revenues of less than \$100,000.

(b) (1) The class to which any freight forwarder belongs shall be determined by annual operating revenue. If at the end of any calendar year such annual operating revenue is greater than the maximum for the class in which the freight forwarder is classified, the freight forwarder shall adopt the accounting and reporting requirements of the higher class in which it falls. For Class B freight forwarders adoption of Class A classification shall be effective as of January 1 of the second succeeding year.

(2) If at the end of any calendar year a Class A freight forwarder's gross operating revenue is less than \$100,000, and has been for three consecutive years, the freight forwarder shall adopt the accounting and reporting requirements applicable to a Class B. Such adoption shall be effective as of January 1 of the following year.

(3) Freight forwarders shall notify the Commission of any change in classification by completing the Carrier Classification Form and sending same to the Commission by October 31 of each year.

(4) Any freight forwarder which begins new operations (obtains operating authority not previously held) or extends its existing authority (obtains additional operating rights) shall be classified in accordance with a reasonable estimate of its annual gross operating revenues.

(5) When a business combination occurs, such as a merger, reorganization, or consolidation, the surviving freight forwarder shall be reclassified effective January 1 of the next calendar year on the basis of the combined revenue for the year when the combination occurred.

(c) In unusual circumstances, such as partial liquidation, and curtailment or elimination of contracted services, where the classification regulations will unduly burden the freight forwarder, the freight forwarder may request the Commission for an exception to the regulations. Such request shall be in writing specifying the conditions justifying an exception.

(d) Any freight forwarder, at its option, may adopt the accounting requirements of a higher class than the one in which it falls. Notice of such action shall be promptly filed with the Commission. However, for reporting purposes the freight forwarder shall comply with the

reporting requirements of the class applicable to its annual gross operating revenue.

(e) Under part IV of the Interstate Commerce Act the observance of the rules and regulations stated in this system of accounts becomes obligatory upon persons having direct charge of the accounts of the freight forwarders concerned, and such persons will be held responsible for their proper application.

(Secs. 403, 412, 56 Stat. 285, 294, 49 U.S.C. 1003, 1012)

#### PART 1249—REPORTS OF MOTOR CARRIERS

Amend Part 1249, Reports of Motor Carriers, as follows:

The text of § 1249.15 is revised to read as follows:

##### § 1249.15 Quarterly report of freight loss and damage claims.

Commencing with reports for the quarter beginning January 1, 1975, and for subsequent quarters thereafter, until further ordered, all common and contract carriers of property having annual operating revenues (including interstate and intrastate) of \$1 million, or more, from property motor carrier operations, shall compile and file quarterly reports in accordance with Motor Carrier Quarterly Report of Freight Loss and Damage Claims, Form QL&D. Carriers shall be exempt from filing such quarterly reports commencing with the year immediately following the third consecutive year in which a carrier fails to meet the minimum revenue qualification. Such quarterly reports (which need not include data relating to claims filed for loss or damage to shipments transported in armored-truck service, as described in Classification of Motor Carriers of Property, 2 M.C.C. 703, at page 712) shall be filed in duplicate in the office of the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, within 40 days after the close of each quarter.

#### CARRIER CLASSIFICATION FORM TO THE INTERSTATE COMMERCE COMMISSION

FOR THE YEAR ENDED DECEMBER 31, 197—

##### APPENDIX I

##### CARRIER CLASSIFICATION FORM

This form is to be completed by carriers to determine the need for new classification and to serve as notification to the Commission of the effective date of the new classification. This form should be returned to the Commission by October 31 of each year.

A. Provide data on respondent carrier in blanks below:

Name of Company \_\_\_\_\_

	Date	Gross carrier operating revenue	Classification adopted by carrier
1. Current year.....	19.....	\$.....	Class.....
2. Previous year.....	19.....	\$.....	Class.....
3. Next previous year.....	19.....	\$.....	Class.....

## PROPOSED RULES

B. On the basis of the information in Part A above and the applicable carrier classification rules in 49 CFR 1240, answer the questions by checking the appropriate box:

- |  |                          |                          |
|--|--------------------------|--------------------------|
| 1. Does the respondent carrier qualify for reclassification to a higher class? | Yes                      | No                       |
| 2. Does the respondent carrier qualify for reclassification to a lower class?  | <input type="checkbox"/> | <input type="checkbox"/> |

If your answer to either question is "Yes" complete the remainder of this form and send to the commission.

C. Based on the information in Parts A and B above and the applicable carrier classification rules in 49 CFR 1240, check the appropriate box relevant to your new classification:

- |                                  |                          |
|----------------------------------|--------------------------|
| 1. Carrier's new classification: | Check one                |
| Class I or Class A.....          | box only                 |
| Class II or Class B.....         | <input type="checkbox"/> |
| Class III or Class C.....        | <input type="checkbox"/> |

## CERTIFICATION

Based on the information provided in this form I will adopt the accounting and reporting requirements for Class -- carriers effective January 1, 19--, in accordance with the provisions of 49 CFR 12--.

Signature of Affiant \_\_\_\_\_

[N. B. Motor carriers of property subject to two classifications of operating accounts (such as household goods carriers having general commodity and other operations) shall complete one form for each operation subject to change in class, in addition to the one applicable to the total operation.]

## notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF THE TREASURY

## Internal Revenue Service

[Order No. 127; Rev. 1, Revocation]

## REGIONAL COMMISSIONERS, ET AL.

## Extension of Time for Making Certain Elections

MAY 20, 1975.

1. Delegation Order No. 127 (Rev. 1) delegated authority under 26 CFR 1.9100, extension of time for making certain elections, to Regional Commissioners, District Directors, and Service Center Directors to grant reasonable extensions of time (not to exceed a total of 240 days) for changing an election made under section 165(h) of the Internal Revenue Code of 1954 beyond the date that such election becomes or became irrevocable which is the later of (1) 90 days after the date on which the election was made, or (2) March 6, 1973.

2. Since the last day of any extension of time granted in accordance with the provisions of Delegation Order No. 127 (Rev. 1) has passed, that Order is no longer necessary.

3. Accordingly, Delegation Order No. 127 (Rev. 1), issued September 4, 1973, is hereby revoked.

Effective Date: May 20, 1975.

DONALD C. ALEXANDER,  
Commissioner.

[Order No. 133; Rev. 1]

DEPUTY COMMISSIONER AND  
DIRECTOR OF PERSONNEL

## Authority To Grant Security Clearances

MAY 20, 1975.

(1) The authority granted to the Commissioner of Internal Revenue by Treasury Department Order No. 82 (Revised 1-17-73), for performing the operating functions relating to Internal Revenue Service personnel security, including the granting of security clearances and the denial or termination of clearances based upon a determination that they are not required, is hereby delegated to:

(a) the Deputy Commissioner, as Personnel Security Officer, to grant, deny and terminate, Top Secret, Secret, and Confidential security clearances for officials and employees occupying critical-sensitive positions as defined in IRM 1312.32 (to be reissued as IRM 0736), or given critical-sensitive assignments, except Top Secret security clearances for:

1. Presidential appointees requiring confirmation by the Senate;

2. Occupants of Executive level positions (Commissioner, Deputy Commissioner and Chief Counsel);

(b) The Director, Personnel Division, to grant, deny and terminate Secret or Confidential security clearances for officials and employees occupying other than critical-sensitive positions or on other than critical-sensitive assignments.

(2) The authority granted in 1(a) may be redelegated to the Assistant to the Deputy Commissioner; the authority granted in 1(b) may not be redelegated.

(3) The authority to deny or terminate clearances granted in both 1(a) and 1(b) includes only the denial or termination of a clearance based upon the determination that the clearance is not required. The authority to terminate (deny or withdraw) clearances based upon security implications is not granted by this Delegation Order. Such authority is held by the Director of Personnel, Department of the Treasury, as delegated by the Secretary of the Treasury and the Assistant Secretary for Administration.

(4) Delegation Order No. 133, issued April 20, 1973, is superseded.

Effective Date: May 20, 1975.

DONALD C. ALEXANDER,  
Commissioner.

[FR Doc.75-13535 Filed 5-22-75;8:45 am]

## Office of the Secretary

[Legal Division Order No. 6 (Rev. 1)]

CHIEF COUNSELS, BUREAU OF ALCOHOL,  
TOBACCO, AND FIREARMS AND  
UNITED STATES CUSTOMS SERVICE

## Delegation of Authority

APRIL 28, 1975.

To include a provision which was inadvertently omitted from section 4, Personnel, of Legal Division Order No. 6, dated December 19, 1974, and to remove an ambiguity from subsection (a) of section 4, I have determined that an appropriate amendment should be adopted.

Accordingly, under the authority vested in me as General Counsel for the Department of the Treasury, including the authority derived from Treasury Department Order No. 190 (Rev.), section 4, Personnel, of Legal Division Order No. 6 is hereby amended:

By striking from subsection (a) "and (3) demotion or separation of attorneys" and inserting in lieu thereof "(3) the reassignment or transfer of attorneys above GS-14, and (4) the classification, demotion or separation of attorneys"; and

By adding a new subsection (d) reading as follows: "(d) To act under the appropriate personnel directives in conducting personnel actions with respect to employees other than attorneys."

[SEAL] RICHARD R. ALBRECHT,  
General Counsel.

## Delegation of Authority

APRIL 28, 1975.

To remove an ambiguity from section 4(a), Personnel, of Legal Division Order No. 7, dated December 19, 1974, I have determined that an appropriate amendment should be adopted.

Accordingly, under the authority vested in me as General Counsel for the Department of the Treasury, including the authority derived from Treasury Department Order No. 190 (Rev.), subsection (a) of section 4, Personnel, of Legal Division Order No. 7 is hereby amended by striking "and (3) demotion or separation of attorneys" and inserting in lieu thereof "(3) the reassignment or transfer of attorneys above GS-14, and (4) the classification, demotion or separation of attorneys".

[SEAL] RICHARD R. ALBRECHT,  
General Counsel.

## DEPARTMENT OF THE INTERIOR

## National Park Service

MIDWEST REGIONAL ADVISORY  
COMMITTEE

## Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that the Midwest Regional Advisory Committee of the National Park Service will meet June 9, 10 and 11 at International Falls, Minnesota.

The Committee was established pursuant to Pub. L. 91-383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Midwest Region of the National Park Service.

The members of the Committee are:

Honorable Robert W. Berrey III (Chairman)  
Mrs. Mildred Curtis  
Mr. Norman G. Duke  
Mr. John J. Franke, Jr.

Mr. Glenn C. Gregg  
Mr. Fred D. Hartley  
Mr. Lewis W. Jones  
Mr. William L. Lieber  
Mr. Erwin D. Sias

On Monday afternoon, June 9, the Committee will meet for briefings. On Tuesday it will tour a portion of Voyageurs National Park and in the evening will conduct a public meeting on the draft master plan for the park. On Wednesday it will hold a business meeting. The Wednesday session would be appropriate for the appearance of anyone with business with the Committee other than presentation of comments on the master plan.

The Monday meeting will be at 3 p.m. in the dining room of Island View Lodge 10 miles east of International Falls on State Highway 11. Space will be limited and only about 15 members of the public can be accommodated. The Committee will be briefed on jurisdiction in the National Parks, regional influence on natural resource management in the Great Lakes Parks, the Michigan Department of Natural Resources proposal for a lamprey weir on Miners River in Pictured Rocks National Lakeshore, and the Voyageurs National Park Master Plan.

At 7:30 p.m. on June 10 the Committee will conduct a public meeting to record comments on the draft master plan for Voyageurs National Park. The meeting will be in the theater of Rainy River Community College at the west edge of International Falls on U.S. Highway 71. The theater will seat approximately 200.

At 8:30 a.m. on June 11 the Committee will meet at the Holiday Inn on U.S. Highway 71 at the west edge of International Falls. The meeting will be open to the public. The meeting room will accommodate approximately 75 persons.

Those interested in making a presentation at the master plan meeting the evening of June 10 may register at the door. Those who wish to appear before the Committee on June 11 should make their requests to the official listed below by 8:30 a.m. on that date. Those who wish to file written statements in connection with any of the business of the Committee may do so.

Further information concerning this meeting may be obtained from Bill W. Dean, Associate Regional Director, Cooperative Activities, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102, telephone area code 402, 221-3481. Minutes of the meeting will be available for public inspection and copying four weeks after the meeting at the Midwest Regional Office, National Park Service, 1709 Jackson Street, Omaha, Nebraska.

Dated: May 13, 1975.

MERRILL D. BEAL,  
Regional Director, Midwest  
Region, National Park Service.

FOREST RESEARCH ADVISORY  
COMMITTEE, ORONO, MAINE  
Meeting

The Forest Research Advisory Committee, Orono, Maine will meet from 10 a.m. to 4 p.m. on June 12, 1975 at the Federal Building on the University of Maine Campus, Orono, Maine.

The purpose of this meeting is to describe and discuss the current research program of the NEFES Orono Work Unit.

The meeting will be open to the public. Persons who wish to attend should notify Barton M. Blum, U.S. Forest Service, Northeastern Forest Experiment Station, Federal Building, University of Maine, Orono, Maine 04473, telephone 866-4140.

BRYAN CLARK,  
Station Director.

NORTHEASTERN FORESTRY RESEARCH  
ADVISORY COMMITTEE

## Meeting

The Northeastern Forestry Research Advisory Committee will meet 8:30 a.m.-6 p.m., June 19; 8:30 a.m.-12 noon, June 20, 1975 at the Preston Hill Inn, Middlebury, Connecticut.

The purpose of this meeting is to enable Advisory Committee members to be briefed on the USDA Gypsy Moth Research Development and Application Program with special emphasis on the research phase. Forest Service scientists located at the Hamden Laboratory, Hamden, Conn., have been assigned major responsibility for this research activity and will participate in this meeting.

The meeting will be open to the public. Persons who wish to attend should notify Dr. F. B. Clark, Northeastern Forest Experiment Station, U.S. Forest Service, 6816 Market St., Upper Darby, Pa. 19082; Telephone No. 215/597-3715. Written statements may be filed with the committee after the meeting.

F. B. CLARK,  
Director.

Soil Conservation Service  
BIG CREEK WATERSHED, MISSISSIPPI

## Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. De-

partment of Agriculture, gives notice that an environmental impact statement is not being prepared for the Big Creek Watershed, Jasper, Jones, and Smith Counties, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the Negative Declaration include conservation land treatment supplemented by floodwater retarding structures and 1.5 miles of channel work. This channel work consists of snagging only and is on an intermittent natural stream.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205.

The negative declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until June 9, 1975.

SPRING CREEK WATERSHED PROJECT,  
NEBRASKA

## Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Spring Creek Watershed Project, Johnson, Otoe, and Nemaha Counties, Nebraska.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project.

As a result of these findings, Mr. Wilson J. Parker, State Conservationist, Soil Conservation Service, USDA, 134 South 12th Street, Room 604, Lincoln, Nebraska 68508, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by three single purpose floodwater retarding structures and nine grade stabilization structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 134 South 12th Street, Room 604, Lincoln, Nebraska 68508.

Single copy requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 9, 1975.

STONE CREEK WATERSHED PROJECT,  
NORTH CAROLINAAvailability of Final Environmental Impact  
Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Stoney Creek Watershed Project, Wayne County, North Carolina, USDA-SCS-EIS-WS-(ADM)-75-01(F)-NC.

The EIS concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement provide for conservation land treatment, 2.1 miles of channel modification on a previously modified perennial stream, 3 multipurpose reservoirs with capacity for floodwater retarding and recreation.

The final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests: Soil Conservation Service, USDA, P.O. Box 27307, Raleigh, North Carolina 27611.

WEST UPPER MAPLE RIVER WATERSHED  
PROJECT, MICHIGANAvailability of Final Environmental Impact  
Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the West Upper Maple River Watershed Project, Clinton and Gratiot Counties, Michigan, USDA-SCS-EIS-WS-(ADM)-75-1(F)-MI.

The EIS concerns a plan for watershed protection, flood prevention, improved drainage on agricultural land, and public fish and wildlife development. The planned works of improvement provide for conservation land treatment, 9.5 miles of levees, 9.2 miles of collection channels, 2 pumping stations, 1.3 miles of channel dredging, 1.1 miles of channel snagging, and public fish and wildlife development with recreational facilities.

The 1.8 miles of suction-type channel dredging and 1.1 miles of channel snagging will be done on the Maple River, a perennial stream, previously modified prior to 1903. Collection channels are new channels with intermittent flows.

The final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests:

## WILL NEILL WATERSHED, MISSISSIPPI

## Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, and § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974;

the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for an independent part of the Will Neill Watershed Project, Holmes, Leflore, Carroll, and Grenada Counties, Mississippi.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. W. L. Heard, State Conservationist, Soil Conservation Service, Room 590, Milner Building, P.O. Box 610, Jackson, Mississippi 39205, has determined that the preparation and review of an environmental impact statement is not needed at this time for this project.

The project concerns a plan for watershed protection, flood prevention and agricultural water management. The remaining planned works of improvement as described in the Negative Declaration include conservation land treatment supplemented by 21 multiple purpose channels with a total length of about 54 miles. Approximately 36 miles of this channel work are on ephemeral altered streams. Seven miles is on ephemeral natural streams, 10 miles are on intermittent altered streams and one mile is on an intermittent natural stream.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
Room 590, Milner Building  
P.O. Box 610  
Jackson, Mississippi 39205

The Negative Declaration is available for single copy requests at the above address.

No administrative action on implementation of the proposal will be taken until June 9, 1975.

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric  
Administration

[Docket No. B-522]

## ALFRED J. SCHEIBENPFLUG

## Application for Transfer of Fishery

MAY 19, 1975.

Alfred J. Scheibenpflug, 75 Fairgrounds Road, West Kingston, Rhode Island 02892, owner of the MYSTIC SEA purchased with the aid of a Fisheries Loan to engage in the fishery for fish for industrial uses, whiting, cod, butterfish, hake, flounders, scup, squid, lobsters, and

mackerel has requested permission to extend his fishing operations to engage in the fishery for fish for industrial uses, whiting, cod, butterfish, hake, flounders, scup, squid, lobsters, mackerel, and swordfish.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, "Fisheries Loan Fund Procedures" (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the con-

templated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, on or before June 23, 1975. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROGER W. SLAVIN,  
Acting Director.

### Food and Drug Administration

#### ADVISORY COMMITTEES

##### Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of General Hospital and Personal Use Devices.	June 23 and 24, 9 a.m., Room 3173, HEW North, 330 Independence Ave. SW., Washington, D.C.	Open June 23, 9 a.m. to 10 a.m., closed June 23 after 10 a.m., closed June 24, William C. Dierksheide, Ph.D., (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-413-2375.

**Purpose.** Reviews and evaluates available data concerning safety, effectiveness, and reliability of general hospital and personal use devices currently in use.

**Agenda.** Open session: Interested parties are encouraged to present information pertinent to the classification of general hospital and personal use devices listed in this announcement. Submission of data is also invited on the tentative classification findings which may be obtained from William C. Dierksheide, Ph.D., Executive Secretary (address noted above). Those desiring to make formal presentations should notify Dr. Dierksheide in writing by June 20, 1975. They should submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also indicate the approximate time required to make their comments. The devices to be classified at this meeting are as follows: heating pads, electric; hot water bottles; buretrol; catheters and feeding tubes; chemotherapy perfusion units; i.v. filters micron .22 and .45; i.v. fluid infusion sets; infusion pumps—noninvasive; infusion pumps with pumping chamber; intravascular catheters; intravenous ceiling mounts; intravenous poles; microdrip sets; pump holders; stylet; umbilical artery catheters; alcohol pad swabs; applicators, antiseptic; applicators, forceps; bandages; cabinet,

formaldehyde; cotton ball; cotton swab; cotton, absorbent; drainage bags; dressing materials; examination and treatment chair, manipulative; eye pads, neonatal; gauze, stockinette; heat lamps; heating water mattress, neonatal; infant airways, newborn; infant airways, premature; oxygen hoods, infant; plastic heat shields; poison kits, snake bite; tape measures; umbilical cord ties, tapes, and clips; urine collector bags, U-bag, newborn, nonsterile; bed pans; CPR board; CPR pulsar; emesis basin; ice cap; Kelly pad; medicine glass; ring cutter; single and double ring stands; transfer forceps; urinals; vacuum bottles; diapers; highchair; nipples, special, lamb; bed frames; bed lights; bed, air flotation; bed, electrical; bed, hydraulic; bed, manual with crank; bed, silicone; bed, tiltable, nursery; bed, water flotation; blocks, elevation; boom, overhead; cabinets, warming; chair, geriatric; chair, geriatric, rocking; cradle, bed; crib top covers; croupette; foot board; foot rest with bed attachment; furniture, invalid assist; isolettes; isolettes, servo care; lift, patient; mattress covers; open beds for sick infant; open cribs; patient rollers; protective restraint devices; radiant heater beds; skin pressure protectors; table over bed; tent, pediatric, aerosol; inhalator; inhalator, infant; intermittent-positive-pressure breathing bags; isolation chambers; nasal prongs; resuscitator, infant. Closed session: The panel will classify the devices listed above.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Vitamin, Minerals and Hematinic Drug Products.	June 24 and 25, 9 a.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed June 24, open June 25, 9 a.m. to 10 a.m., closed June 25 after 10 a.m., Gary P. Troscial, (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-413-4960.

**Purpose.** Reviews and evaluates all available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed non-prescription drug products and the adequacy of their labeling.

**Agenda.** Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter drug products containing vitamin, mineral, and hematinic drug products.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Ear, Nose, and Throat Devices.	June 30 and July 1, 9:30 a.m., Rm. 1400, FB-8, 300 C St. SW., Washington, D.C.	Open June 30, 9:30 a.m. to 11 a.m., closed June 30 after 11 a.m., closed July 1, Harry R. Sauberman, (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-413-3570.

**Purpose.** Reviews and evaluates available data concerning safety, effectiveness, and reliability of ear, nose, and throat devices currently in use.

**Agenda.** Open session: Interested parties are encouraged to present information and data on the tentative classification findings of the panel which may be obtained from Harry R. Sauberman, Executive Secretary (address noted above). Those desiring to make formal presentations should notify Mr. Sauberman in writing by June 15, 1975. They should submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also indicate the approximate time re-

quired to make their comments. The devices to be classified at this meeting are as follows: Olfactometers with electrodes (diagnostic), directoscopes (surgical), and pneumatic saws (surgical). Dr. H. McCurdy, panel chairman, will present a report of the May 7 public hearing of the HEW Intradepartmental Task Force on Hearing Aids. Dr. McCurdy will also report on Senate hearings held on May 20 and 21 on hearing aids. Closed session: The panel will discuss and review possibly needed research in areas relating to device classification. The panel will review proposed labeling provisions for hearing aids, continue classification of ear, nose, and throat devices, and will review all tentative classification results.

Committee name	Date, time, place	Type of meeting and contact person
4. Panel on Review of Hemorrhoidal Drugs.	June 30 and July 1, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open June 30, 9 a.m. to 10 a.m., closed June 30 after 10 a.m., closed July 1, Gary P. Troscial, (HFD-510), 5600 Fishers Lane, Rockville, Md. 301-413-4960.

**Purpose.** Reviews and evaluates all available data concerning the safety and effectiveness of active ingredients, and combinations thereof, of currently marketed nonprescription drug products, and the adequacy of their labeling.

**Agenda.** Open session: Comments and presentations by interested persons. Closed session: Continuing review of over-the-counter drug products containing hemorrhoidal drug products under investigation.

**Agenda items** are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Com-

missioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank

discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this

authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: May 19, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.  
[FR Doc. 75-13547 Filed 5-22-75; 8:45 am]

[DESI 5378; Docket No. FDC-D-582;  
NDA 12-570]

#### BAMADEX SEQUELS

##### Denial of Hearing and Withdrawal of Approval of New Drug Application

The Commissioner of Food and Drugs denies hearing and withdraws approval of new drug application for Bamadex Sequels, effective June 2, 1975.

In a notice published in the FEDERAL REGISTER of August 8, 1970 (35 FR 12678), the Food and Drug Administration (FDA) announced its evaluation of 23 anorectic drugs, including Bamadex Sequels and Bamadex Tablets, NDAs 12-570 and 11-280, held by Lederle Laboratories, Division of American Cyanamid Co., Pearl River, NY 10965, hereafter Lederle.

The announcement stated that the FDA had considered the reports of the National Academy of Sciences-National Research Council (NAS/NRC), Drug Efficacy Study Group, together with other evidence and concluded that there was a lack of substantial evidence for several claims but that the listed drugs were regarded as possibly effective for their anorectic (appetite-suppressant) claims and for their prolonged, continuous or sustained release claims. Manufacturers were given 60 days to revise their labeling to delete those indications for which no substantial evidence of effectiveness had been found and 3 months to provide substantial evidence of effectiveness for the anorectic and sustained release claims. Finally, the notice advised that at the end of the 3-month period, the data would be evaluated to determine whether or not the existence of substantial evidence of effectiveness had been demonstrated, and if it had not, procedures would be initiated to withdraw approval of the new drug applications pursuant to section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)).

In the same issue of the FEDERAL REGISTER of August 8, 1970 (35 FR 12652), the Commissioner of Food and Drugs issued a Statement of Policy (21 CFR

310.504, formerly 21 CFR 130.46) regarding amphetamine containing drugs, including dextroamphetamine. The order stated that the NAS/NRC had found, inter alia, that this class of drugs had a generally short term (a few weeks) anorectic effect, that there was no evidence that they altered the natural history of obesity, and that they had a significant potential for abuse. The FDA concurred with the NAS/NRC report and, in addition, noted that production data indicated that amphetamines were manufactured and used in quantities greatly in excess of demonstrated medical needs. Accordingly, the order required that such drugs be relabeled to reflect the present state of knowledge concerning amphetamines, their potential for misuse and abuse, and their limited medical usefulness. The order was made specifically applicable to combination drugs which contained dextroamphetamine.

In response to the notice (DESI 5378) of August 8, 1970, Lederle submitted three clinical studies for Bamadex Sequels (Noble, Miller, and Schein) and three clinical studies for Bamadex Tablets (Trodelia, Parsons, and Bowlan), together with a list of side effects and combined statistical analysis for all six studies and a combined statistical analysis for the three clinical studies of Bamadex Sequels.

Subsequently, the Commissioner issued a notice of opportunity for hearing, published in the FEDERAL REGISTER of February 12, 1973 (38 FR 4279), covering 13 anorectic combinations including Bamadex Tablets and Bamadex Sequels. The notice stated that the submitted data had been reviewed and found not to provide substantial evidence that the drugs were effective as fixed combinations for their claimed uses. Neither, the notice continued, did the submitted data support the contention that the combination products decrease the incidence or severity of side effects or lessen the abuse potential associated with the single anorectic ingredient. Accordingly, the Commissioner proposed to withdraw approval of the named new drug applications and invited holder(s) of new drug applications and other interested persons, including manufacturers and distributors of identical, related, or similar products, to submit on or before March 14, 1973, a written notice requesting an opportunity for hearing. Those requesting a hearing were instructed to state the reasons why approval of the new drug application should not be withdrawn and to provide a well-organized and full factual analysis of the clinical and other investigational data that they were prepared to prove in support of the requested hearing.

In the same issue of the FEDERAL REGISTER of February 12, 1973 (38 FR 4249), the Statement of Policy regarding amphetamines for human use (21 CFR 310.504, formerly 21 CFR 130.46) was revised to reflect that while sufficient data had been submitted (in response to the previous Statement of Policy) to generally

support the anorectic efficacy of single entity amphetamine drugs, the degree of extra weight loss was small (a few tenths of a pound a week in many cases), variations were great, and the rate of weight loss decreased after the first weeks of therapy. Accordingly, the Commissioner concluded that single entity oral dosage forms of amphetamine or dextroamphetamine were effective in the management of exogenous obesity as a short term (a few weeks) adjunct in a regimen of weight reduction based on caloric restriction for patients in whom obesity is refractory to other measures. The notice advised that anorectic combinations containing sedatives or tranquilizers were regarded as new drugs requiring approved new drug applications and that the data in such applications must meet the requirements of 21 CFR 3.86, fixed combination prescription drugs for human use.

On March 9, 1973, Lederle requested a hearing for NDA 12-570 covering Bamadex Sequels. Lederle did not request a hearing for Bamadex Tablets, and the Commissioner withdrew the approval of the NDA for Bamadex Tablets (NDA 11-280), notice of which was published in the FEDERAL REGISTER of March 30, 1973 (38 FR 8290).

In its hearing request, Lederle contends that its submissions demonstrate (a) that, with respect to weight loss, Bamadex Sequels are significantly better than placebo and not significantly inferior to dextroamphetamine alone, and (b) that the meprobamate component significantly reduces the central nervous system side effects attributable to the dextroamphetamine component. Lederle also argues that Bamadex Sequels must be found effective because meprobamate and dextroamphetamine have each been found by the FDA to be effective as single entities, and that its product must be found safe because Bamadex Sequels were approved on the basis of safety in August 1960 and there has been no clinical experience to the contrary since that time. Lederle contends that the addition of meprobamate, a schedule IV controlled substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) to dextroamphetamine, a schedule II substance under the same act, results in a combination with significantly lower potential for abuse than dextroamphetamine alone, within the meaning of 21 CFR 3.86(a)(2).

Finally, Lederle claims that the FDA interpreted certain data in its investigations in a manner contrary to the observations and reports of the investigators who conducted the studies.

The Commissioner has considered all of the material submitted by Lederle and has concluded that there is no genuine issue of material fact requiring a hearing and that the legal objections offered are insubstantial. A full discussion follows:

#### I. THE DRUG

Bamadex Sequels contains (each capsule) a fixed combination of 15 milligrams dextroamphetamine sulfate and 300 milligrams meprobamate.

#### II. RECOMMENDED USES AND DOSAGE; RATIONALE FOR THE COMBINATION

The labeling reviewed by the NAS/NRC, Drug Efficacy Study Group, claimed that Bamadex Sequels was useful in the management of obesity, curbed appetite with minimal overstimulation of the central nervous system, and provided a sustained release of active ingredients. Lederle's present labeling retains the claims with respect to sustained release and minimal overstimulation of the central nervous system, but incorporates the changes required by 21 CFR 310.504 and recommends Bamadex only for use in exogenous obesity as a short term (a few weeks) adjunct in a regimen of weight reduction based on caloric restriction. The usual adult dosage of Bamadex Sequels is one capsule daily in the morning.

Lederle's rationale for the combination is twofold: (1) The dextroamphetamine sulfate component provides an anorectic effect while the meprobamate counteracts the overstimulation which frequently accompanies the use of dextroamphetamine sulfate, and (2) the addition of meprobamate to dextroamphetamine results in a drug with a lower abuse potential than dextroamphetamine alone.

#### III. DATA SUBMITTED TO SUPPORT CLAIMS OF EFFECTIVENESS

A. *Bamadex Sequels studies.* Lederle submitted three clinical studies in support of the claimed effectiveness of Bamadex Sequels. These studies, with the exceptions noted below, followed substantially identical protocols; they are evaluated as follows:

1. Noble, Rudolph E., "A Comparison of Bamadex Sequels (15 mg dextroamphetamine and 300 mg meprobamate), Bamadex Sequels Minus Meprobamate (15 mg dextroamphetamine) and Placebo on Weight Loss and Side Effects in 90 Overweight Patients," unpublished study, 1971. In an attempt to establish, inter alia, that patients on Bamadex Sequels experience fewer adverse reactions than those who receive dextroamphetamine alone (i.e., that meprobamate reduces the side effects attributable to dextroamphetamine), the investigator selected 90 patients who were 20 percent overweight according to Metropolitan Life Insurance Company standards. These were divided into three equal groups and randomly assigned to one of three treatment regimens of Bamadex Sequels, dextroamphetamine, or placebo. The first group received Bamadex Sequels for 21 days, placebo for 21 days, and then Bamadex Sequels for the final 21 days; the second received dextroamphetamine for 21 days, placebo for 21 days, and dextroamphetamine for 21 days; the third received a placebo for the entire 9-week period. Each patient was instructed to take one capsule each day at least 1 hour before breakfast. Male patients were placed on a 1,500 calorie daily diet; females on a 1,200 calorie daily diet. Prior to entrance in the study and at 3, 6, and 9 weeks after entry into the study, patients' height, weight, pulse, and blood pressure were recorded and compared.

This study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii)(a)(2)(iii) in that it fails to assure that test and control groups were comparable with respect to the use of drugs other than the test drug. Thus, although the investigator undertook statistical analysis to assure that the groups were comparable with respect to age, sex, percent overweight distribution, and the mean dosage duration, no such analysis was performed with respect to the use of concomitant medication. This is always a pertinent variable and particularly so in this study where patients were taking diuretics (which could interfere with the effect of test medication on weight loss) and major tranquilizers, analgesics, and antihistamines with sedative effects (which could interfere with adverse reactions related to the central nervous system).

The study fails to explain the methods of observation and recording of results with respect to side effects (21 CFR 314.111(a)(5)(ii)(a)(3)). Thus, no details are given as to whether subjects were questioned as to whether they experienced side effects or whether only the investigator's observations were counted. If the subjects were questioned regarding side effects, no details are given as to the nature of the questions asked. Were the questions only designed to elicit dextroamphetamine-like side effects or were they also directed at uncovering meprobamate-type side effects? Obviously, it makes no sense to claim that the side effects of dextroamphetamine are reduced if the other component, meprobamate, is responsible for equally serious side effects of its own. Without details as to how adverse reaction data were elicited, it is impossible to determine if the investigators took such a possibility into account. Indeed, without any knowledge as to how data were observed and/or recorded, it is impossible to make any meaningful evaluation as to the reliability of the study's findings.

Even if it could be shown that the groups were comparable and that the data had been assembled and recorded in a proper manner, the results do not support Lederle's contention that the addition of meprobamate to the combination decreases the incidence or severity of side effects associated with the primary ingredient, dextroamphetamine sulfate. Thus, although the raw data showed that there were numerically slightly fewer side effects associated with patients on Bamadex Sequels (10) than there were with patients who used dextroamphetamine alone (13), Lederle's own statistical analysis demonstrated that this difference was not statistically significant since Lederle stated that the proportion of subjects reporting side effects was not significantly different for the three groups. In other words, there was no assurance that the observed difference was not due to chance. Lederle has failed to show that meprobamate significantly reduces the number of side effects attributable to dextroamphetamine and consequently has failed to demonstrate that meprobamate

enhances the safety of the principal ingredient, dextroamphetamine, within the meaning of, and as required by, 21 CFR 3.86(a)(1), and as claimed in its labeling.

The study is incapable of scientifically demonstrating the anorectic effectiveness, or lack thereof, of Bamadex Sequels because, as shown above, the investigator failed to assure group comparability with respect to the use of concurrent medications (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)).

The study also fails to explain the methods of observation and recording of weight loss data (21 CFR 314.111(a)(5)(ii)(a)(3)). Thus the author does not explain whether patients were always weighed at the same time of day, whether the menstrual cycles of female subjects was taken into account and, more importantly, whether any analysis was done to determine which patients, if any, followed their diets. These factors cannot be overlooked in a study designed to measure weight loss.

Using Lederle's criterion for satisfactory weight loss (5 or more pounds in both active drug phases), Lederle's statistical analysis showed that Bamadex Sequels patients did not lose significantly more weight than patients who took the placebo. Lederle also conducted a statistical analysis of the difference in mean weight losses. The difference between the Bamadex and placebo groups were statistically significant only at the end of 3 weeks; there was no statistically significant difference either for the second on-drug period (7 to 9 weeks) or overall (1 to 9 weeks). Thus, Lederle's own findings are inconclusive, and even if they weren't, they would be scientifically meaningless because of the defects pointed out.

2. Schein, M., "A Comparison of Bamadex Sequels, Dextroamphetamine and Placebo on Weight Loss and Number and Types of Side Effects in 90 Overweight Patients," unpublished study, 1971. To exclude climatic conditions as a factor, this investigator had all 90 patients begin the study during the same week. Otherwise, this study followed the same protocol as the just-reviewed Noble study. Accordingly, it too failed to assure comparability with respect to the use of other drugs (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)). Thus, 13 of the 30 patients in the Bamadex group were receiving concomitant medication, while 6 in the amphetamine and 8 in the placebo groups were concurrently using other drugs. As in the Noble study, there were patients receiving anti-inflammatory agents with analgesic properties, antihistamines with sedative properties, and major tranquilizers, any of which could interfere with central nervous system side effects. Similarly, patients in the Bamadex group also used thyroid and diuretic drugs which could also influence weight reduction.

This study also fails to explain the methods of observation and/or recording of results as required by 21 CFR 314.111(a)(5)(ii)(a)(3). No details are given as to whether subjects were questioned as to whether they experienced

side effects or whether only the investigator's observations were counted. Thus, as before, there is no way to determine the accuracy or quality of the data relating to adverse reactions, and hence there is no way to scientifically assess the results. Although the investigator reported only one side effect for the Bamadex group, a check of the patient reports showed that an additional patient, No. 222, experienced depression and had to be switched to other medications. This indicates that the investigator had not accurately observed and/or recorded the results (21 CFR 314.111(a)(5)(ii)(a)(3)). There were 6 patients in the dextroamphetamine group who experienced side effects.

Even if these deficiencies are ignored, Lederle's own statistical analysis admits that there was no statistically significant difference found in the side effects reported for the three groups. This study, therefore, fails to provide evidence that meprobamate contributes to the claimed effects within the meaning of and as required by 21 CFR 3.86(a)(1).

With respect to the claimed anorectic effect, this study shares the identical defects as the just-reviewed Noble study, i.e., the author failed to assure group comparability with respect to the use of concomitant medication (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)) and failed to explain the methods of observation and recording of results (21 CFR 314.111(a)(5)(ii)(a)(3)).

The investigator initially defined a "satisfactory" response as a loss of at least 9 pounds for the 9-week period. Under this definition, he found no statistically significant difference between the three groups, i.e., the placebo group did as well as the Bamadex group. Accordingly, a second, less stringent, standard was adopted which defined "satisfactory" response to be a loss of at least 6 pounds for the first and last 3-week periods. Using this criterion, the results of the Bamadex and dextroamphetamine groups were found to be statistically significant when compared to the placebo group, and the differences between the Bamadex and dextroamphetamine groups were not statistically significant. Lederle's statistical analysis of the mean weight losses claimed statistically significant differences for the Bamadex and dextroamphetamine groups over the placebo group for the end of both active treatment periods (1 to 3 and 7 to 9 weeks) and overall (weeks 1 to 9). However, since the study was not adequate and well-controlled, as discussed above, these reported results are not reliable or scientifically evaluable.

3. Miller, Jerome, "A Comparison of Bamadex Sequels, Dextroamphetamine, and Placebo on Weight Loss and Side Effects in 90 Patients", unpublished study, 1971. This study also followed the basic protocol used in the Noble and Schein studies with only one exception: To assure more reliable weight-loss data, followup weighings were done in circumstances similar to the original weighings with respect to time of day, scales, and clothing.

As with the previous studies, this study failed to assure group comparability with respect to the concurrent use of other drugs which could have interfered with the central nervous system side effects and the claimed anorectic effects (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)). Although the author did explain that he conducted the weighings at the same time of day and under similar conditions with regard to scales and clothing, he failed to explain whether or not, and if so how, he took into account such variables as caloric intake and menstrual cycles (21 CFR 314.111(a)(5)(ii)(a)(3)).

For the third consecutive time, Lederle's statistical analysis showed that there was no statistically significant difference between the three groups with respect to the incidence of side effects. Therefore, this study, too, fails to provide evidence that meprobamate contributes to the claimed effects within the meaning of and as required by 21 CFR 3.86(a)(1).

With respect to anorectic effects, the investigator's own clinical evaluation showed that the number of Bamadex-treated patients with an overall satisfactory clinical (weight loss) response was strikingly similar to the number for the placebo group and smaller than the dextroamphetamine group (Bamadex Sequels, 12; dextroamphetamine, 20; placebo, 10). Since the placebo and Bamadex groups were nearly identical with respect to this variable, if anything, the evidence suggests that Bamadex is no better than a placebo with respect to the claimed anorectic effect. While the statistical analysis of mean weight losses based on averaging total weight loss over all subjects shows that the difference between Bamadex and placebo was statistically significant, this result is at odds with the investigator's evaluation of the overall clinical response based on number of subjects who lost weight and, in any event, is rendered scientifically unreliable by the study's failure to meet the regulatory criteria for an adequate and well-controlled clinical investigation (21 CFR 314.111(a)(5)(ii)).

Lederle's own investigations and analyses of the Bamadex Sequels studies not only fail to substantiate its rationale for the combination, but affirmatively demonstrate that meprobamate does not reduce the incidence of side effects attributable to the principal ingredient, dextroamphetamine. Moreover, using the clinical response data, only one study (Schein) shows that the difference in anorectic effect between Bamadex and placebo was statistically significant, and in that case the investigator was forced to lower his initial criterion of "satisfactory" to find a statistically significant difference.

B. Bamadex Tablets studies. Lederle also conducted three clinical studies with Bamadex Tablets (5 mg dextroamphetamine and 400 mg meprobamate). Since both Bamadex Tablets and Bamadex Sequels contain the same active ingredients and are recommended by their respective labels for the same indication,

i.e., as a short term adjunct in the treatment of exogenous obesity, and since Lederle in its request for hearing dated March 9, 1973, relied upon a listing of side effects and a combined statistical analysis of data from the three Bamadex Sequels studies and three studies of Bamadex Tablets, the three Bamadex Tablets studies are relevant to Lederle's request for a hearing. With the exception of the dosage schedule (one tablet three times daily), these studies followed the protocol used in the Bamadex Sequels studies. The results are summarized as follows:

1. Parsons, W. B., "Comparative Efficacy of Bamadex Tablets (400 mg meprobamate and 5 mg dextroamphetamine), Bamadex Minus Meprobamate, and Placebo in the Control of Obesity and Measurement of Side Effects," unpublished study, 1971. This study is not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii)(a)(2)(iii) in that it failed to assure that the test and control groups were comparable with respect to the use of drugs other than the test drug. Seventeen of 28 patients in the Bamadex group, 18 of 27 patients in the dextroamphetamine group, and 15 of 29 patients in the placebo group were concurrently using drugs other than the test drug. Concurrent medication included diuretics and tranquilizers which could affect the results of a study designed to measure the anorectic effect and the incidence of adverse reactions related to the central nervous system.

The investigators failed to explain the methods of observation and recording of results with respect to side effects (21 CFR 314.111(a)(5)(ii)(a)(3)). No details are given as to whether subjects were questioned, as to whether they experienced side effects, or whether only the investigators' observations were counted.

This study also fails to provide any statistical analysis of the anorectic data and thus does not comply with 21 CFR 314.111(a)(5)(ii)(a)(5).

Even if the defects above, which render the study not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii), are ignored, the results do not support Lederle's contention that the addition of meprobamate to the combination decreases the incidence or severity of side effects associated with the primary ingredient, dextroamphetamine sulfate.

The results of this study showed a markedly higher occurrence of side effects with Bamadex than with either dextroamphetamine alone or placebo. Of the patients who took Bamadex Tablets, 10 reported side effects while only one in the dextroamphetamine and 4 in the placebo group showed adverse reactions. Since the Bamadex Tablets contain more meprobamate and less dextroamphetamine than the Bamadex Sequels (300 mg meprobamate and 15 mg dextroamphetamine), these results directly contradict Lederle's rationale for the inclusion of meprobamate with dextroamphetamine. If, as the sponsor claims, meprobamate

decreases the incidence of adverse effects associated with dextroamphetamine, this decrease should be more evident in the tablet formulation which utilizes a higher ratio of meprobamate to dextroamphetamine. As shown above, however, this was not the case. Since there were 10 times as many side effects associated with the use of Bamadex, there is no support whatever for the contention that meprobamate enhances the safety of the primary ingredient, dextroamphetamine (21 CFR 3.86(a)(1)).

2. Trodella, G. P., "Comparative Efficacy of Bamadex Tablets, Bamadex Minus Meprobamate, and Placebo in the Control of Obesity and Measurement of Side Effects," unpublished study, 1971. The results of this study with respect to side effects were very similar to those in the Parsons' study. The investigator reported three side effects in the Bamadex group, one in the dextroamphetamine group, and two in the placebo group. Since Lederle's own statistical analysis concluded that the differences in the incidence of side effects for the three groups were not statistically significant, the results of this study do not support Lederle's contention that meprobamate significantly decreases the adverse reactions associated with dextroamphetamine, as required by 21 CFR 3.86(a)(1).

This study shares the same defect as the Parsons' study previously described in that the investigator failed to explain the methods of observation and recording of results with respect to side effects, 21 CFR 314.111(a)(5)(ii)(a)(3). No details are given as to whether subjects were questioned as to whether they experienced side effects, or whether only the investigator's observations were counted.

With respect to weight loss (both overall clinical response and average weight loss), Lederle admitted that at the end of the second 21-day period, Bamadex was inferior (both overall clinically and in average weight loss) to the placebo, and at the end of the first 21-day period Bamadex was only equal to a placebo in average weight loss.

3. Bowlan, W. L., "Comparative Efficacy of Bamadex Tablets, Bamadex Minus Meprobamate and Placebo in the Control of Obesity and Measurement of Side Effects," unpublished study, 1971. In this study the incidence of side effects was low for all three groups (one on Bamadex, two on dextroamphetamine, and four on placebo). Statistical analysis failed to demonstrate any statistically significant differences between the active medications with respect to side effects. Consequently, this study fails to support Lederle's contention that meprobamate decreases the side effects associated with dextroamphetamine and therefore, fails to provide evidence that meprobamate enhances the safety of the principal active component of Bamadex as required by 21 CFR 3.86(a)(1).

Lederle did not attempt to perform any statistical analysis on the anorectic data (21 CFR 314.111(a)(5)(ii)(a)(5)).

No details are given as to whether the subjects were questioned as to whether

they experienced side effects or whether only the investigator's observations were counted. Therefore, this study fails to explain the methods of observations and recording of results as is required by 21 CFR 314.111(a)(5)(ii)(a)(3).

The three tablet studies, whether taken individually or together, failed to show a significant decrease in side effects for Bamadex patients when compared to patients who used dextroamphetamine alone. In fact, the combined results for the tablet studies show more side effects for Bamadex patients (14) than for the dextroamphetamine patients (4).

C. Combined statistical analyses. Lederle submitted a combined statistical analysis of the side effects and mean weight loss for the Bamadex, dextroamphetamine, and placebo groups in the six studies reviewed above and a combined statistical analysis of the three sequel studies alone. Since these analyses are dependent upon the data obtained from the individual studies, and since the individual studies have been shown to be not adequate and well-controlled within the meaning of 21 CFR 314.111(a)(5)(ii), any analysis of such data can only yield results that have no scientific validity.

The tabulation for the sequel studies shows discrepancies between the number of side effects recorded by Lederle and the number disclosed by examination of the individual case reports. In the Schein study, Lederle noted only one side effect for the Bamadex group while the case reports reveal that patient No. 222 experienced depression. In the Miller study, Lederle noted only three side effects for the Bamadex group, whereas both Lederle's initial analysis and the case reports show four side effects. Any statistical analysis which is based upon inaccurate reporting of data cannot provide substantial evidence to support drug effectiveness (21 CFR 314.111(a)(5)(ii)(a)(2)(iii)).

Lederle has failed to show that it was justified in pooling the results of the three sequel studies. Thus no details were provided as to whether or not the groups in each study were comparable with respect to concurrent drug use and whether each investigator observed and recorded his data in the same manner. The scanty information that was provided shows that there were differences in study methodology; thus, while Dr. Miller was careful to conduct followup weighings at the same time as the initial weighings, neither Dr. Schein nor Dr. Noble did so. Dr. Schein had all his subjects begin the study during the same week; it does not appear that either Dr. Noble or Dr. Miller followed this procedure. It is, therefore, not at all clear that the data from the three studies are sufficiently homogeneous to warrant pooling.

With respect to the combined statistical analysis for all studies, the discrepancies in the tablet studies are even more striking. In the Bowlan study, Lederle reported only one side effect for the Bamadex group whereas the case reports showed seven patients had side effects (No. 401—"nervous," No. 419—"no en-

ergy," No. 427—"dry mouth," No. 436—"irritable," No. 442—"increased voiding," No. 449—"emotionally upset," and No. 468—"constipated"). Similarly, while Lederle included only 21 patients in the dextroamphetamine group and 20 patients in each of the Bamadex and placebo groups, FDA's check of the case reports showed that the following patients returned for at least one visit after the initial interview and should have been included in the calculation: the Bamadex group, 30 patients; the dextroamphetamine group, 28 patients; and the placebo group, 28 patients. In studying side effects, it is essential to use all data available. To exclude patients who had only one followup and/or who were dropped from the study is to eliminate from consideration the very patients who may have discontinued because of side effects.

In the Trodella study, Lederle reported three, one and two side effects respectively for the Bamadex, dextroamphetamine and placebo groups while the report forms submitted by the investigator showed the Bamadex group had seven side effects (Nos. 508, 510, 522, and 589—"fatigue," No. 545—"irritable," No. 568—"rash and swelling," and No. 576—"marked increase in blood pressure and headaches"); the dextroamphetamine group, four (No. 507—"constipation," No. 521—"swelling of feet," No. 529—"falls asleep," No. 594—"trouble sleeping if took all three pills"; and the placebo, four (No. 525—"headaches," No. 538—"nauseated and upset," No. 540—"very tired," and No. 590—"sleepy").

Finally, in the Parsons study Lederle based its calculations on 26 patients in the Bamadex and dextroamphetamine groups and 25 patients in the placebo group. A check of the patient report forms, however, shows that 27 patients should have been evaluated in the Bamadex group (only No. 610 failed to show up after initial visit), 28 in the dextroamphetamine group (all patients evaluated through at least first phase), and 28 in the placebo group (only No. 648 failed to show up after initial visit).

Using Lederle's interpretation in the patient report forms, the results for all six studies show that the identical number of side effects (28) occurred for both the Bamadex and dextroamphetamine groups. There is no basis for the contention that meprobamate significantly reduces the number of side effects associated with dextroamphetamine. In addition, Lederle's statistical analysis of the reduction in the total number of side effects of Bamadex when compared to the total number of side effects for dextroamphetamine only "approached significance."

These data provide no evidence that meprobamate contributes to the combination's claimed effect. Lederle has clearly failed to come forward with any evidence derived from adequate and well-controlled studies showing that meprobamate reduces the number of side effects attributable to dextroamphetamine within the meaning of, and as required by, 21 CFR 3.86(a)(1).

closing date for receipt of applications from State educational agencies, institutions of higher education, and school boards under sections 403 (technical assistance), 404 (training institutes), and 405 (grants to school boards), respectively, of the Act.

Applications must be submitted to the appropriate U.S. Office of Education Regional Office by the normal close of business time on the closing date, as set out below. Applicants for the assistance described above which have previously submitted applications will be permitted, if they desire, to modify and resubmit their applications by the new closing date.

B. *Applications sent by mail.* An application sent by mail should be addressed to the appropriate U.S. Office of Education Regional Office as follows:

Address	Deadline for Submission (local time)
Region I—(Boston)—Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. U.S. Office of Education, Equal Educational Opportunity, John Fitzgerald Kennedy Federal Bldg., Government Center, Boston, Massachusetts 02203.	5 p.m.
Region II—(New York City)—New York, New Jersey, Puerto Rico and Virgin Islands. U.S. Office of Education, Equal Educational Opportunity, Federal Bldg., 26 Federal Plaza, New York, New York 10007.	5 p.m.
Region III—(Philadelphia)—Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia. U.S. Office of Education, Equal Educational Opportunity, P.O. Box 13716, 3535 Market Street, Philadelphia, Pennsylvania 19101.	5 p.m.
Region IV—(Atlanta)—Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, and Tennessee. U.S. Office of Education, Equal Educational Opportunity, 50 -7th Street, N.E., Atlanta, Georgia 30323.	4:30 p.m.
Region V—(Chicago)—Illinois, Indiana, Minnesota, Michigan, Ohio, and Wisconsin. U.S. Office of Education, Equal Educational Opportunity, 300 South Wacker Drive, Chicago, Illinois 60606.	4:45 p.m.
Region VI—(Dallas)—Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. U.S. Office of Education, Equal Educational Opportunity, 1114 Commerce Street, Dallas, Texas 75202.	4:30 p.m.
Region VII—(Kansas City)—Iowa, Kansas, Missouri, and Nebraska. U.S. Office of Education, Equal Educational Opportunity, New Federal Office Bldg., 601 East 12th Street, Kansas City, Missouri 64106.	4:45 p.m.
Region VIII—(Denver)—Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. U.S. Office of Education, Equal Educational Opportunity, 1961 Stout Street, Denver, Colorado 80202.	4:30 p.m.

Address	Deadline for Submission (local time)
Region IX—(San Francisco)—Arizona, California, Hawaii, Nevada, American Samoa, Guam, and the Trust Territory of the Pacific Islands. U.S. Office of Education, Equal Educational Opportunity, 50 Fulton Street, Room 359, San Francisco, California 94102.	4:30 p.m.
Region X—(Seattle)—Alaska, Idaho, Oregon and Washington. U.S. Office of Education, Equal Educational Opportunity, Arcade Plaza Bldg.—M/S 628, 1321 Second Avenue, Seattle, Washington 98101.	4:30 p.m.

An application sent by mail will be considered to have been received on time by the Regional Office if:

(1) The application was sent by registered or certified mail not later than May 28, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by the appropriate Regional Office mail room. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, the U.S. Office of Education, or the Regional Offices.)

C. *Hand delivered applications.* An application to be hand delivered must be taken to the appropriate U.S. Office of Education Regional Office at the address listed above. No application will be accepted by a U.S. Office of Education Regional Office after the time referred to above on the closing date.

D. *Applicable regulations.* Awards made pursuant to this notice will be subject to the Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a) and to 45 CFR Part 180, Subparts A, B, D, and E upon publication of those regulations in final form. In developing their applications applicants should consult those regulations as published in the FEDERAL REGISTER as a notice of proposed rulemaking on March 17, 1975 (40 FR 12243).

(Catalog of Federal Domestic Assistance Program number 13.405, Civil Rights Technical Assistance and Training Program.)

Dated: May 21, 1975.

T. H. BELL,

U.S. Commissioner of Education.

#### EMERGENCY SCHOOL AID

##### Notice of Extension of Closing Date for Receipt of Applications

A. *Extended closing date for receipt of applications.* Inquiries directed to the United States Office of Education indicate that many applicants were unable to complete their applications for assistance under the Emergency School

Aid Act (20 U.S.C. 1601-1619) in time for submission by the deadline which appeared in the FEDERAL REGISTER on April 11, 1975 (40 FR 16354). Therefore, the Commissioner of Education hereby extends the date for submission of applications for Basic Grants, Pilot Projects, Grants to Public or Nonprofit Private Organizations, and Bilingual Projects under sections 706(a), 706(b), 708(b) and 708(c) of the Act, respectively, until June 2, 1975, at the normal close of business time for the appropriate U.S. Office of Education Regional Office, listed below. Applicants for awards under the above sections of the Act which have already submitted applications will be permitted to review, revise and file their applications by the above date.

B. *Applications sent by mail.* An application for a grant under section 706(a), 706(b), 708(b) or 708(c) of the Act sent by mail should be addressed to the appropriate U.S. Office of Education Regional Office as follows:

Address	Deadline for Submission (local time)
Region I—(Boston)—Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. U.S. Office of Education, Equal Educational Opportunity, John Fitzgerald Kennedy Federal Bldg., Government Center, Boston, Massachusetts 02203.	5 p.m.
Region II—(New York City)—New York and New Jersey. U.S. Office of Education, Equal Educational Opportunity, Federal Bldg., 26 Federal Plaza, New York, New York 10007.	5 p.m.
Region III—(Philadelphia)—Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia. U.S. Office of Education, Equal Educational Opportunity, P.O. Box 13716/3535 Market Street, Philadelphia, Pennsylvania 19101.	5 p.m.
Region IV—(Atlanta)—Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, and Tennessee. U.S. Office of Education, Equal Educational Opportunity, 50 -7th Street, N.E., Atlanta, Georgia 30323.	4:30 p.m.
Region V—(Chicago)—Illinois, Indiana, Minnesota, Michigan, Ohio, and Wisconsin. U.S. Office of Education, Equal Educational Opportunity, 300 South Wacker Drive, Chicago, Illinois 60606.	4:45 p.m.
Region VI—(Dallas)—Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. U.S. Office of Education, Equal Educational Opportunity, 1114 Commerce Street, Dallas, Texas 75202.	4:30 p.m.

Address	Deadline for Submission (local time)
Region VII—(Kansas City)—Iowa, Kansas, Missouri, and Nebraska. U.S. Office of Education, Equal Educational Opportunity, New Federal Office Bldg., 601 East 12th Street, Kansas City, Missouri 64106.	4:45 p.m.
Region VIII—(Denver)—Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. U.S. Office of Education, Equal Educational Opportunity, 1961 Stout Street, Denver, Colorado 80202.	4:30 p.m.
Region IX—(San Francisco)—Arizona, California, Hawaii, and Nevada. U.S. Office of Education, Equal Educational Opportunity, 50 Fulton Street, Room 359, San Francisco, California 94102.	4:30 p.m.
Region X—(Seattle)—Alaska, Idaho, Oregon, and Washington. U.S. Office of Education, Equal Educational Opportunity, Arcade Plaza Bldg.—M/S 628, 1321 Second Avenue, Seattle, Washington 98101.	4:30 p.m.

An application sent by mail will be considered to have been received on time if:

(1) The application was sent to the appropriate office by registered mail not later than May 28, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by the appropriate U.S.O.E. mail room. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, the U.S. Office of Education, or the Regional Offices.)

C. *Hand delivered applications.* A hand delivered application for a grant under sections 706(a), 706(b), 708(b), or 708(c) of the Act must be taken to the appropriate U.S. Office of Education Regional Office at the address listed under Part B of this notice. No application will be accepted by a U.S. Office of Education Regional Office after the time referred to above on the closing date.

D. *Project periods.* Grant awards will be made pursuant to this notice for projects commencing no earlier than July 1, 1975, and terminating no later than June 30, 1976.

E. *Applicable regulations.* Grant awards made pursuant to this notice will be subject to the regulations in 45 CFR Part 185, relating to the Emergency School Aid Act, and except where inconsistent with Part 185, to the Office of Education general provisions regulations in 45 CFR Parts 100 and 100a, relating to direct project assistance programs. In addition, such grant awards

will be subject to amendments to Part 185, published in the FEDERAL REGISTER as a notice of proposed rulemaking on March 28, 1975 (40 FR 14166), after review of such amendments in light of public comment and their republication in final form. Therefore, applicants should consult the proposed regulations in developing their applications.

(Catalog of Federal Domestic Assistance numbers 13.525 (Basic Grants), 13.526 (Pilot Projects), 13.528 (Bilingual Projects), and 13.529 (Projects to be carried out by Public or Nonprofit Private Organizations))

Dated: May 21, 1975.

T. H. BELL,

U.S. Commissioner of Education.

#### Office of the Secretary

##### SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

#### Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will sponsor on Thursday and Friday, June 12-13, 1975 a conference on Child Care and the Working Woman from 9 a.m. to 5 p.m. in the auditorium of the Department of HEW—North Building, 330 Independence Ave., SW, Washington, D.C.

The agenda for the Conference includes a discussion by invited speakers and participants of the cost and availability of child care services for the working woman. The keynote speaker will be Congresswoman Margaret Heckler (Mass.). Osta Underwood, Chairperson, of the Secretary's Advisory Committee on the Rights and Responsibilities of Women will chair the conference.

Because of the timeliness of the subject and its far-reaching significance at a time when mothers of young children are entering the workforce in ever increasing numbers, broad interest in the conference is anticipated.

Interested persons wishing to address the conference panelists, should contact the Acting Executive Secretary by COB Monday, June 9th. Phone: 202-245-8454. Written statements received by June 9th will be distributed at the conference. Members of the public are invited to attend.

Dated: May 13, 1975.

SANDRA S. KRAMER,  
Acting Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

#### PROJECT NEWGATE AND OTHER PRISON COLLEGE PROGRAMS

##### Study Results

Pursuant to section 606 of the Economic Opportunity Act of 1964, as amended, 42 USC 2946, this agency announces the results, findings, data, or recommendations reported as a result of activities associated with HEW project entitled, "Additional Data Analysis and Evaluation of 'Project NewGate' and Other Prison College Programs."

This report presents additional data analysis from an evaluation study of the Office of Economic Opportunity (OEO) funded Project NewGate which operated a prison college education program at five prisons across the country and four other (non-NewGate models) prison college programs. The original evaluation study and analysis was carried out under OEO Contract #B2C-5322. The additional data analysis confirmed the findings of the original study vis-a-vis recidivism, achieving post-release stability, and in realizing life goals. In addition it was found that:

Participation in a prison college program reduced drinking and drug abuse problems.

Program participation raised occupational level.

A post-release program providing structure, guidance, and financial support to exconvicts enrolled in college is essential to maximize the post-release education experience.

Post-release programs of high quality are characterized by close supervision of exconvict students. This close supervision also results in decreased recidivism.

NewGate programs were more successful than other program types in enrolling and maintaining educationally and economically disadvantaged students in college.

Background SES was almost eliminated as a determinant of post-release college enrollment in the NewGate projects but not in the non-NewGate programs.

A copy of this report will be filed and available as soon as possible, from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated: May 20, 1975.

WILLIAM A. MORRILL,  
Assistant Secretary for Planning and Evaluation.

#### DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

##### Office of the Secretary

[Docket No. D-75-330]

#### ASSISTANT SECRETARY AND DEPUTY ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT

##### Delegation of Authority

The Assistant Secretary for Housing Production and Mortgage Credit and

Federal Housing Commissioner, and Deputy Assistant Secretary for Housing Production and Mortgage Credit and Deputy Federal Housing Commissioner are each authorized to exercise the authority of the Secretary of Housing and Urban Development pursuant to section 236 of the National Housing Act with respect to those Agreements for Interest Reduction Payments between the New York State Urban Development Corporation (UDC), HUD, and the mortgagors covering certain mortgages originally held by UDC and referred to in a letter agreement dated on or about May 20, 1975 addressed to banks who were parties to a Credit Agreement dated May 12, 1975 and UDC.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d))).

**Effective Date:** This delegation shall be effective as of May 16, 1975.

CARLA A. HILLS,  
Secretary of Housing  
and Urban Development.

#### DEPARTMENT OF TRANSPORTATION

##### Coast Guard

[CGD 75-091]

#### MARINE SANITATION DEVICES

##### Certifications Granted

##### Correction

In FR Doc. 75-11814 appearing on page 19873 in the issue for Wednesday, May 7, 1975, in the first column of the table on page 19874, the following changes should be made:

1. "Bridge Warren (O), . . . Mont," should read "Bridge Warren (O), . . . Minn."
2. "Firestone Corp. (M), . . . Ariz.," should read "Firestone Corp. (M), . . . Ark."

#### National Highway Traffic Safety Administration

[Docket No. EX75-14; Notice 3]

#### HARNISCHFEGER CORP.

#### Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

Harnischfeger Corporation of Cedar Rapids, Iowa, has asked the Administrator to reconsider his denial of its petition for temporary exemption from 49 CFR § 571.121, Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, on grounds of substantial economic hardship.

Notice of the petition was published on March 10, 1975, (40 FR 11019) and an opportunity afforded for comment. Oshkosh Truck Corporation opposed the petition. No other comments were filed. Notice of the denial of its petition was published on April 25, 1975, (40 FR 18209).

Specifically, Harnischfeger has asked the Administrator to reconsider that portion of his decision covering its crane

carrier models T 150/200. The Administrator in his denial commented:

The T 150/200 models accounted for approximately 11½ percent of Harnischfeger's production in fiscal 1974 (107 units out of 922). According to the petitioner "The 1975 fiscal year production rate has been 10 units/month. Perhaps one-half will be shipped to the export market." Since vehicles manufactured for export do not have to meet Standard No. 121, the question is whether a cessation of production of five units a month, representing perhaps 6 percent of Harnischfeger's overall vehicle production, would cause substantial economic hardship. In light of Harnischfeger's net income of \$11,645,839 in fiscal 1974, it is concluded that hardship has not been proven. The effect upon employment should be minimal as petitioner will be able to continue producing vehicles for the export market.

In addressing itself to the Administrator, Harnischfeger stated that "The loss of five T-150 machines per month at \$78,000 per machine is \$390,000 per month." The corresponding loss in manpower is 50 jobs at the Cedar Rapids facility. The company states that none of its major competitors in the truck crane carrier industry "has of this date [May 6, 1975] assembled a prototype, tested and approved the combination of the new axle and the electronic skid control device." These competitors are: Grove Corporation, Bucyrus Erie, Koehring Company, Crane Carrier Corporation, and Hendrickson Manufacturing Company. Harnischfeger argues that it has in good faith attempted to comply in a timely manner with Standard No. 121, ordering "our material as early as our vendors would accept orders." It blames its compliance problems on vendor delay and is of the view that axle suppliers have given low priority to filling the orders of the truck crane industry. By May 15, 1975, Harnischfeger expects to have all parts necessary for construction of 121 prototypes, and it requests an exemption until March 1, 1976, for testing and production changes.

This notice of receipt of a petition for reconsideration of a denial of a temporary exemption is published in accordance with the NHTSA regulations on temporary exemptions (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Harnischfeger Corporation described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the

extent possible. When the petition is granted or denied, notice will be published in the *FEDERAL REGISTER* pursuant to the authority indicated below.

**Comment closing date:** June 2, 1975.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on May 20, 1975.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

[FR Doc. 75-13674 Filed 5-21-75; 11:39 am]

#### NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

##### Public Meeting

On June 11 and 12, 1975, the National Motor Vehicle Safety Advisory Council will hold open meetings in the DOT Headquarters Building, 400 Seventh Street, SW, Washington, D.C. The Advisory Council is composed of 25 members, a majority of whom are representatives of the general public, including representatives of State and local governments, with the remainder including representatives of motor vehicle manufacturers, motor vehicle equipment manufacturers, and motor vehicle dealers. The Advisory Council makes recommendations to the Secretary of Transportation on motor vehicle safety and property loss reduction programs carried out by the National Highway Traffic Safety Administration.

The following meetings are subject to the approval of the National Highway Traffic Safety Administrator.

On June 11 at 8:30 a.m. in room 4234 of the DOT Headquarters Building the Motorcycle Subcommittee will meet with the following agenda:

Daytime Use of Motorcycle Headlights  
Advanced Training/Licensing Requirements for Motorcyclists  
In-depth Accident Investigation of Motorcycle Accidents—Project Status

At 9 a.m. on June 11 in room 3202 of the DOT Headquarters Building the Crashworthiness Committee will meet with the following agenda:

Council Member Reports on May 19-23 Public Meeting on Occupant Crash Protection (FMVSS 208)  
Update on Crash and Post Crash Safety Standards (FMVSS 200 and 300 series)

On June 11 at 1 p.m. in room 4234 of the DOT Headquarters Building the Consumer and Public Information Committee will meet with the following agenda:

Review of "Hot Line" Systems for Handling Auto-Related Defects and Consumer Problems

On June 12 at 9 a.m. the full Council will meet with the following agenda in room 3202 of the DOT Headquarters Building:

Approval of May 1 Meeting Minutes  
Council Bylaws  
Selection of Excalibur Award Recipient  
Discussion of GAO Report "Contributions of Advisory Groups to Federal Motor Vehicle and Traffic Safety Programs" and New Directions for the Council  
Report of Crashworthiness Committee  
Report of Motorcycle Subcommittee  
Report of Consumer and Public Information Committee  
Status Report—Fourth International Congress on Automotive Safety  
New Business  
Future Meetings

For further information contact the NHTSA Executive Secretary, Room 5215, 400 Seventh Street, SW, Washington, D.C., telephone 202-426-2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92-463, Federal Advisory Committee Act (FACA), effective January 5, 1973.

Issued: May 19, 1975.

WM. H. MARSH,  
Executive Secretary.

[FR Doc. 75-13605 Filed 5-22-75; 8:45 am]

[Docket No. EX 75-18; Notice 1]

#### ORCON INDUSTRIES, INC.

#### Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

Orcon Industries, Inc., of Ortonville, Minnesota, has petitioned for a 1-year exemption from Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, on the basis that compliance would cause it substantial economic hardship.

Petitioner manufactures semi-trailers for hauling asphalt and produced 56 such vehicles "in the past year." It estimates "change over costs" to Standard No. 121 as totaling \$60,000, attributing \$5,000 to engineering, \$20,000 to testing, and \$35,000 to "stock change over." Orcon had a net loss of \$154,352.57 in the first 9 months of its current fiscal year, a net loss of \$76,905.29 in its fiscal year ending April 30, 1974, and a net profit of \$3,720.92 in the preceding fiscal year. How much of the loss is attributable to trailer manufacturing is unclear, as the company was incorporated to conduct "a general steel fabrication business." The source of its income since January 1, 1975, the effective date of Standard No. 121 for trailers, is also unclear.

The company appears to argue that its limited financial resources have been directed towards "developing the trailer and getting into the trailer industry" by setting up "dealerships all over the United States at great expense" rather than towards compliance. It stated, "Because we are a small manufacturing operation and lack the necessary finances, and a more complete engineering section, we were forced to delay or put aside the necessary engineering, research, development, and testing time required for adequate implementation of S-121." Orcon does not allege any specific difficulty in complying with Standard No. 121, but

notes that the retail price increase of \$2,000 required for a conforming vehicle will make it "less attractive for a prospective purchaser," and it offers to present conforming vehicles as a consumer option while the exemption is in effect.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Orcon Industries described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the *FEDERAL REGISTER* pursuant to the authority indicated below.

**Comment closing date:** June 2, 1975.

(Sec. 3 Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on May 20, 1975.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

[FR Doc. 75-13663 Filed 5-21-75; 4:18 pm]

#### Office of Pipeline Safety

[Docket No. Pet. 75-4]

#### TRANS-ALASKA CRUDE OIL PIPELINE Grant of Waiver

By letters dated March 19, and May 3, 1975, the Alyeska Pipeline Service Company requested a waiver from compliance with the coating and cathodic protection requirements of §§ 195.238(a)(5) and 195.242(a) of Title 49 of the Code of Federal Regulations with respect to the following sections of the Trans-Alaska crude oil pipeline: (1) three special buried, refrigerated sections totaling 4.3 miles; (2) approximately 240 short buried transition sections, each approximately 60-80 feet long; and (3) approximately 20 buried "sag bend" sections, each approximately 120 feet long.

Section 195.238(a)(5) provides:

(a) No pipeline system component may be buried unless that component has an external protective coating that—

(5) Supports any supplemental cathodic protection.

Section 195.242(a) provides:

(a) A cathodic protection system must be installed for all buried facilities to mitigate corrosion deterioration that might result in structural failure. A test procedure must be developed to determine whether adequate cathodic protection has been achieved.

All sections of the pipeline for which the waiver is requested are to be covered with thermal insulation-type coating consisting of 3 inches of a closed-cell polyurethane insulation material and a 0.19-inch fiberglass reinforced polyester outer jacket. This coating presents a highly resistant path for electrical current from a cathodic protection source to locations on the surface of an underlying pipeline. As a result, the coating precludes the effective operation of an external cathodic protection system.

The 4.30 miles of buried, refrigerated sections of the pipeline will be located in permafrost at migratory animal crossings. Both the thermal insulation-type coating and refrigeration of the surrounding soil are necessary to safeguard those crossings against thawing of the permafrost by the high temperature of the buried pipe. Thawing of the permafrost would not only reduce the support for the pipe, but would increase the likelihood of corrosion due to the presence of liquid water.

About half the length of the 800-mile pipeline will be elevated to avoid burying it in ice-rich permafrost. The 240 short buried transition sections lie between the elevated and buried portions of the pipeline. If the pipeline is shut down for a long period, the insulation-type coating on the transition sections is necessary to retard congelation of the oil in those sections due to very low surrounding soil temperatures near the ground surface. Oil in the elevated portions of the pipeline will be similarly protected by an insulation-type coating.

The "sag bend" sections are located where elevated portions of the pipeline dip below the surface of permafrost to provide animal crossings. The thermal insulation-type coating is necessary on these sections to protect against thawing of the permafrost. Additional protection against thawing will be provided by lining the pipe trench with 12 inches of polystyrene closed-cell insulation. Refrigeration of the surrounding soil is not warranted for these relatively short belowground sections as it is for the longer migratory animal crossings because support for the pipe is provided by vertical members placed in the permafrost.

In support of its petition, Alyeska states:

(1) In the absence of moisture penetration, the thermal insulation-type coating provides a very high electrical resistance, thus minimizing the possibility of corrosion.

(2) Before the application of the thermal insulation-type coating, the pipe will be coated with Scotchkote 202 thermoset epoxy. Except for approximately 220 lengths of pipe, the Scotchkote coating will be visually and electrically inspected and any defective coating, foreign material, and pipe surface imperfection removed and repaired. Approximately 220 lengths of pipe (totaling 1.7

miles) have had thermal insulation-type coating applied without inspection of the Scotchkote coating. These 200 lengths of pipe would be installed in refrigerated soil to eliminate exposure to liquid water.

(3) If a crack occurs in the outer jacket of the thermal insulation-type coating, the low permeability of polyurethane to water and the high operating temperature of the pipe tend to keep water away from the pipe.

(4) The shear strength of the bond of the polyurethane to the outer jacket and to the Scotchkote coating is equal to or greater than the shear strength of the polyurethane itself.

(5) The closed-cell thermal insulation-type system slows the replenishment of oxygen necessary for corrosion.

(6) In those sections where the soil surrounding the pipe is refrigerated, liquid water will not be present and thus the likelihood for corrosive action is virtually eliminated.

(7) Artificial zinc anodes installed along the pipeline provide "spill-over" cathodic protection in the short buried transition sections where the thermal insulation-type coating may be damaged.

The Office of Pipeline Safety (OPS) has reviewed the information submitted in connection with the petition. Based on that review and other relevant information, OPS finds that under the condition stated hereinafter, a waiver is appropriate and consistent with pipeline safety for the following reasons: (1) the fiberglass reinforced polyester outer jacket is a relatively impermeable barrier to moisture which is necessary for corrosion to occur; (2) in the event of a break in the outer jacket allowing the introduction of moisture, the possibility of corrosion is minimized by the combination of low permeability of the polyurethane to water, the high temperature of the pipe tending to drive any water away, and the existence of an underlying coating of Scotchkote 202 epoxy except at field joints where a coating of Royston Greenline tape is to be applied (as a condition of this waiver); (3) in the case of the refrigerated sections, additional protection is afforded by the virtual elimination of corrosive action due to the very high resistivity of frozen soil; (4) except for approximately 220 lengths of pipe, before the thermal insulation-type coating is applied to the pipe, the existing Scotchkote 202 coating is to be visually and electrically inspected and any defective coating, foreign materials, and pipe surface imperfections are to be removed and repaired; and (5) in the case of the approximately 220 lengths of pipe on which thermal insulation-type coating has been applied without inspection of the underlying Scotchkote 202 coating, that pipe is to be installed in refrigerated soil where corrosive action is virtually eliminated.

Accordingly, effective immediately, the Alyeska Pipeline Service Company is hereby granted a waiver from compliance with the coating and cathodic protection requirements of 49 CFR 195.238(a) (5) and 195.242(a) with respect to those portions of the pipeline described here-

before, subject to the following condition:

That section of pipe extending from each field girth weld joint which is not covered with mill applied thermal insulation-type coating before the pipe is joined must be primed with Roybond 747 primer, wrapped with Royston Greenline tape, and covered with prefabricated C-type thermal insulation-type coating.

This Notice is issued under the authority of sections 831-835 of Title 18, United States Code, Section 6(e) (4) of the Department of Transportation Act (49 USC 1655(e) (4)), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the re-delegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A to Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C. on May 19, 1975.

JOSEPH C. CALDWELL,  
Director,  
Office of Pipeline Safety.

#### ADMINISTRATIVE CONFERENCE OF THE UNITED STATES COMMITTEE ON INFORMAL ACTION Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Informal Action of the Administrative Conference of the United States, to be held at 10 a.m., June 5, 1975, in the offices of Shea & Gardner, 734 15th Street, N.W., Washington, D.C. 20005.

The Committee will meet to consider its project on the exercise of prosecutorial discretion in antitrust cases. Professor Maroney, the Conference's consultant on this matter, will be present to discuss the scope and direction of his study.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee, before, during or after the meeting.

For further information concerning this Committee meeting contact Mr. Jorge A. Duarte (phone: 202-254-7065). Minutes of the meeting will be available on request.

Dated: May 21, 1975.

RICHARD K. BERG,  
Executive Secretary.

##### Correction

The date "May 5, 1975", which appears at the beginning of FR Doc. 75-12429 on page 20848 of the issue for Tuesday, May 13, 1975, should be part of an introductory sentence reading "Issued under delegated authority on May 5, 1975."

[Docket No. 27664]

#### PAN AMERICAN WORLD AIRWAYS, INC.

##### Proposed Approval

##### Correction

In FR Doc. 75-11973 appearing at page 19876 of the issue for Wednesday, May 7, 1975, at the bottom of the first column on page 19877, following the line "This order shall be effective and become", insert this omitted line: "the action of the Civil Aeronautics Board".

[Docket 26494, 25280; Agreement C.A.B. 25054 R-1 through R-33; 25080; Order 75-5-72]

#### INTERNATIONAL AIR TRANSPORT ASSOCIATION

##### Passenger Fares

May 16, 1975.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conference of the International Air Transport Association (IATA).

Agreement C.A.B. 25054, adopted at a meeting held December 2-6, 1974, in Geneva, would establish the IATA passenger fare structure for travel within Europe through March 31, 1976. The Board will approve the proposed normal first class and economy fares, as well as certain promotional fares, which are combinable with fares to/from U.S. points and thus have indirect application in air transportation as defined by the Act. Jurisdiction will be disclaimed on other, non-combinable fares. We will also disclaim jurisdiction on Agreement C.A.B. 25080, which involves amendments to non-combinable specific commodity rates.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14: 1. It is not found that the following resolutions, incorporated in Agreement C.A.B. 25054 as indicated, and which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

#### NOTICES

Agreement CAB	IATA No.	Title	Application
25054:			
R-1	001L	Special Escape for TC2 Agreements	2
R-2	001Q	TC2 Special European Escape Resolution	2
R-3	002	Special Readoption Resolution	2
R-4	002a	Special Readoption Resolution	2
R-5	005	Procedures for changes to Fares and Conditions within Scandinavia	2
R-6	014a	Construction Rule for Passenger Fares	2
R-7	014ss	Special UK Add-On Fares (Europe)	2
R-8	0224d	TC2 Special Rules for Sales of Passenger Air Transportation	2
R-9	062	TC2 First Class Fares	2
R-10	060	Economy Class Conditions of Service	2
R-11	062	TC2 Economy Class Fares	2
R-12	070c	TC2 14 Day Holiday Fares Switzerland to England	2
R-13	070q	TC2 12 Day Round Trip Fares, Ireland to UK	2
R-14	072z	TC2 Creative Fares Board—Europe	2
R-20	091	TC2 Family Fares—Europe	2

2. It is not found that the following resolutions, incorporated in the agreements indicated, affect air transportation within the meaning of the Act:

Agreement CAB	IATA No.	Title	Application
R-15	075h	TC2 Group Fares—Benelux/Europe	2
R-16	072k	90 Day Excursion Fare from Poland to Europe	2
R-17	075n	TC2 Common Interest Group Fares, Iceland—Scandinavia, Finland	2
R-18	075q	TC2 Common Interest Group Fares—Europe	2

R-32	095j	Individual Military Fares Between the United Kingdom and Germany	2
R-33	315	Air Ferry Rates for Vehicles	2
25080	590	Specific Commodity Rates Board (Amending)	2

Accordingly, it is ordered That: 1. Those portions of Agreement C.A.B. 25054 set forth in finding paragraph 1 above be and hereby are approved; and 2. Jurisdiction be and hereby is disclaimed with respect to those portions of Agreements C.A.B. 25054 and C.A.B. 25080 set forth in finding paragraph 2 above.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

[Docket No. 27456; Order 75-5-77]

#### NORTHWEST AIRLINES, INC.

##### Application for Amendment of Certificate of Public Convenience and Necessity

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 20th day of May, 1975.

On January 29, 1975, Northwest Airlines, Inc., filed an application, pursuant

to Subpart N of Part 302 of the Board's Procedural Regulations, for amendment of its certificate of public convenience and necessity for route 3 so as to remove that part of condition 7 which prohibits turnaround service between Minneapolis, on the one hand, and Cleveland and Pittsburgh, on the other hand.

Allegheny Airlines, Inc. has filed a statement requesting that the Board disclaim that portion of Northwest's application which relates to turnaround service in the Minneapolis-Pittsburgh market.

Upon consideration of the foregoing, we do not find that Northwest's application is not in compliance with, or is inappropriate for processing under, the provisions of Subpart N. Accordingly, we order further proceedings pursuant to the provisions of Subpart N, Sections 1406-1410, with respect to Northwest's application.

Accordingly, it is ordered That: 1. The application of Northwest Airlines, Inc., Docket 27456, be and it hereby is set for further proceedings pursuant to Rules 1406-1410 of the Board's Procedural Regulations; and

2. This order shall be served upon all parties served by Northwest Airlines in its application.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

[FR Doc. 75-13628 Filed 5-22-75; 8:45 am]

#### CIVIL SERVICE COMMISSION FEDERAL EMPLOYEES PAY COUNCIL Meeting

Pursuant to section 10(a) (2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, June 18, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street, N.W., and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

RICHARD H. HALL,  
Advisory Committee Manage-  
ment Officer for the Presi-  
dent's Agent.

#### COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SE- VERELY HANDICAPPED

##### PROCUREMENT LIST 1975

##### Proposed Addition

Notice is hereby given pursuant to section 2(a) (2) of Pub. L. 92-28; 85 Stat. 79, of the proposal to increase the quantity provided from one-third to one-half of the total Government requirements for the following commodity included on Procurement List 1975, November 12, 1974 (39 FR 39964).

CLASS 8465

Bag, Sleeping, Firefighter's (IB) 8465-00-081-0798 (GSA Regions 9 and 10)

Comments and views regarding this proposal may be filed with the Committee not later than June 23, 1975. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

C. W. FLETCHER,  
Executive Director.

# PROCUREMENT LIST 1975 Proposed Additions

Notice is hereby given pursuant to section 2(a) (2) of Pub. L. 92-28; 85 Stat. 79, of the proposed addition of the following commodities to Procurement List 1975, November 12, 1974 (39 FR 39964).

## CLASS 5510

Stakes (For GSA Region 7):  
5510-00-171-7700  
5510-00-171-7701  
5510-00-171-7734  
5510-00-171-7732  
5510-00-171-7733

## CLASS 7340

Flatware, Plastic, Heavy Duty:  
7340-00-022-1315  
7340-00-022-1316  
7340-00-022-1317

Comments and views regarding these proposed additions may be filed with the Committee not later than June 23, 1975. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

C. W. FLETCHER,  
Executive Director.

# PROCUREMENT LIST 1975 Proposed Addition

Notice is hereby given pursuant to section 2(a) (2) of Pub. L. 92-28; 85 Stat. 70, of the proposed addition of the following service to Procurement List 1975, November 12, 1974 (39 FR 39964).

## Industrial class 7349

Janitorial/Maid  
Naval Air Station  
Whidbey Island  
Oak Harbor, Washington, for following buildings:  
Building 308  
Building 381

Comments and views regarding this proposed addition may be filed with the Committee not later than June 23, 1975. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically canceled November 24, 1975.

By the Committee.

C. W. FLETCHER,  
Executive Director.

[FR Doc.75-13767 Filed 5-22-75; 10:01 am]

# COUNCIL ON ENVIRONMENTAL QUALITY

## ENVIRONMENTAL IMPACT STATEMENTS List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from May 12, through May 16, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (July 8, 1975). The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

## DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250 (202) 447-3853.

## FOREST SERVICE

### Draft

Stillman Point Unit, Nezperce N.F., Idaho County, Idaho, May 5: The statement concerns a land use plan for the Stillman Point Planning Unit of Nezperce National Forest. The plan provides for timber management, recreation, watershed protection, and roadless areas. Principle adverse effects are those associated with timber harvest and culture, treatment of big game winter ranges, and recreation developments and use (288 pages). (ELR Order No. 50715.)

### Final

Timber Management, White Mountain N.F., May 12: The statement refers to the proposed Timber Management Plan which will cover the White Mountain National Forest from July 1, 1974 through June 30, 1982. The plan includes a potential yield of 19,210,000 of sawlogs and 68,900 cords of products annually. There will be impacts to aesthetics, air, water and soil qualities, and fish and wildlife. Comments made by: EPA, USDA, and state and local agencies. (ELR Order No. 50701.)

Sluslaw, Siskiyou, Umpqua N.F.'s, Supplement, Oregon and California, May 14: The statement supplements a final eis which was filed with CEQ on February 25, 1974, and refers to the use of herbicides on the three forests in forest management activities. The chemical agents to be used include 2,4-D, 2,4,5-T, 2,4,5-TP, Amitrole-T, atrazine, picloram, and dicamba. There will be impacts to non-target species and to wildlife. Comments made by: USDA, COE, HUD, DOI, DOT, state and local agencies, groups, businesses, and individuals. (ELR Order No. 50709.)

## RURAL ELECTRIFICATION ADMINISTRATION

### Draft

115 kV Transmission Line, Teton to Jackson, Teton County, Wyoming, May 14: The statement concerns a loan application from

Lower Valley Power and Light, Inc., to finance approximately 11 miles of 115 kV transmission line from Teton to Jackson, Wyoming. The proposed project will cross Grand Teton National Park and the National Elk Refuge. It will also cross the Snake River in an area that has been designated under Section 5(a) for potential addition to the National Wild and Scenic Rivers System and Gros Ventre River which is being considered for study. Adverse impacts include introducing negative visual impacts into scenic areas, the removal of a small number of trees, and some soil erosion which may affect nearby waterways (23 pages). (ELR Order No. 50713.)

A notice of availability for this draft EIS appeared on April 2, 1975, in the FEDERAL REGISTER (40 FR 14787) with a 60 day comment period ending June 2. However, due to an error, the statement was not filed with the Council until May 15, 1975. Because public notice was made and the draft EIS was distributed to all interested parties, unless objections are received by the Council the comment period is hereby shortened and will end June 2, 1975.

## SOIL CONSERVATION SERVICE

### Final

West Fork of Bayou Lacassine Watershed, Jefferson, Davis, and Calcasieu Counties, Louisiana, May 12: The statement refers to a watershed protection, flood prevention, and agricultural water management project. Project measures include 83 miles of channel works, land treatment measures, weirs, and pipe drops. There will be adverse impact to air and water quality, and to mature hardwood stands. Comments made by: COE, HEW, DOI, DOT, EPA, AHP, and state agencies. (ELR Order No. 50697.)

## DEPARTMENT OF DEFENSE

## ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue, SW., Washington, D.C. 20314 (202) 693-6861.

### Draft

Permit Actions in Hawaii Wai Marina, Hawaii, May 12: The statement concerns the issuance of dredging permits to Kaiser-Aetna to perform maintenance dredging in Hawaii Kai Marina over a 10-year period and by individual marina residents to construct private boat docks in the marina. The dredged spoil will be allowed to dry in ponds, and later used as embankment material. The action will result in increased turbidity, loss of some marine life and nursery areas, reduction of vegetation cover on undeveloped urban land, and continued reduction in bird habitat, and it could influence water quality (Honolulu District). (ELR Order No. 50704.)

### Final

Kings River Channel Improvement Project, Kings and Fresno Counties, California, May 16: The statement refers to the Kings River Channel Improvement Project, Cole Slough-Laton Area, California. About 14,000 lineal feet of new levee and patrol road will be constructed in the vicinity of Laton, 5,000 lineal feet of bank protection work will be placed at 16 different sites. Levee construction and bank protection work may cause limited short-term turbidity. Also 5 acres of riparian habitat will be cleared (Sacramento District). Comments made by: EPA, DOI, USDA, HEW, DOT, and state and local agencies. (ELR Order No. 50718.)

San Diego Harbor, San Diego County, California, May 16: The project involves deepening and widening of navigation channels and turning basins in San Diego Harbor. Dredged materials will be used to create new land in San Diego Bay and placed on the ocean beach at the city of Imperial Beach and opposite the U.S. Naval Amphibious Base. Adverse effects consist of the destruction of organisms and alteration of habitats in dredged areas, destruction of 55 acres of intertidal and shallow subtidal habitats of high ecological value, and turbidity in nearshore ocean waters while spoil is discharged on the ocean beach (Los Angeles District). Comments made by: AHP, EPA, USDA, DOC, HEW, DOI, DOT, USCG, and state and local agencies. (ELR Order No. 50719.)

## FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426 (202) 386-6084.

### Final

Crawford Storage Field, Fairfield and Hocking Counties, Ohio, May 12: Proposed is the granting of a certificate of public convenience and necessity to Columbia Gas Transmission Corp. for the construction and operation of an underground natural gas storage field. Included would be: 230 injection/withdrawal wells; 137 miles of 4 to 30 inch well and field pipelines; and miscellaneous facilities at the Crawford Compressor Station. The field would cover an area of 36,800 acres. Environmental impact would occur with respect to effects on "man, soil, vegetation, wildlife, water quality, air quality and noise levels." Comments made by: EPA, USDA, DOI, USCG, HEW, COE, and AHP. (ELR Order No. 50699.)

## DEPARTMENT OF HUD

Contact: Mr. Richard H. Brown, Director, Office of Environmental Quality, Room 7258, 451 7th Street SW., Washington, D.C. 20410 (202) 755-6308.

## Section 104(h)

### Draft

Nautausaun Brook Improvement Project, Rockland County, New York, May 12: The statement describes a proposed flood alleviation project including channelization of portions of the brook, replacement of structures incapable of withstanding a 100-year retention period flood, the acquisition of land for flood-water retention and right-of-way and easements for purposes of construction. Land use management alternatives are discussed in contrast to engineering solutions. Defolting of the area and construction disruption will result. (ELR Order No. 50706.)

Pascack Brook Improvement Project, Rockland County, New York, May 12: Proposed is a project for flood alleviation including channelization of portions of the Brook, replacement of structures incapable of withstanding a 100-year return period flood, and the acquisition of flood easements along sparsely settled reaches of the Brook. Adverse impacts include the alteration and containment of the natural meandering of a stream and general construction disruption. (ELR Order No. 50707.)

Washington Square West Urban Renewal, Philadelphia, Philadelphia County, Pennsylvania, May 12: The statement concerns an urban renewal project for a 107-acre area in southeast Philadelphia. The major adverse environmental effects are those associated with the disruption of an existing area/community by project activities and busi-

nesses. Parking problems and noise and air pollution are also discerned. (ELR Order No. 50696.)

Grays Ferry Urban Renewal, Philadelphia, Philadelphia County, Pennsylvania, May 12: The statement concerns a 160.9-acre urban renewal project in southwest Philadelphia. The plan includes residential, commercial, and semi-public rehabilitation, active and passive recreation facilities, and street improvements. The project has displaced 272 families, 95 individuals, and 43 businesses. Construction disruption will result (43 pages). (ELR Order No. 50705.)

## DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240 (202) 343-3891.

## BUREAU OF RECLAMATION

### Final

Central Valley Project Water Use, several counties in California, May 12: The proposed action is a water service contract which will involve the delivery of about 128,000 acre-feet of water to ten water user organizations in Kings, Kern, Tulare, and Fresno Counties. Three thousands acre-feet of the water will be used for municipal supply; the remainder will be used for supplemental irrigation. Existing California Water Project and Central Valley Project facilities will be used for delivery. The principal impact of the action will be the continued use of lands for agriculture. Comments made by: DOI, USDA, DOC, EPA, AHP, and COE. (ELR Order No. 50700.)

## BUREAU OF SPORTS FISHERIES AND WILDLIFE

### Draft

Mattamuskeet Wildlife Enhancement Project, Hyde County, North Carolina, May 15: The proposal recommends construction of eight low-dike marsh impoundments totaling 2,420 acres within the Mattamuskeet National Wildlife Refuge and renovation of 12 miles of existing canals originating within the refuge and extending to Pamlico Sound in order to enhance wildlife management capabilities of the refuge. Dike and borrow ditches will replace 162 acres of natural marsh. Canal renovation will result in 519,000 cubic yards of spoil which will be deposited on existing spoil areas. Vegetation on existing spoil deposit areas will be destroyed and wildlife temporarily displaced. Revegetation will occur in a few years. (ELR Order No. 50717.)

## NATIONAL PARK SERVICE

### Draft

Rehabilitation of the National Mall, District of Columbia, May 15: The proposed rehabilitation program for the National Mall in Washington, D.C. would include replacement of streets for automobiles with pedestrian walks, replacement of park furniture, and construction of various other pedestrian-centered facilities. Fringe parking and shuttle busses would be provided at RFK Stadium. The project would result in fewer facilities for automobiles on the Mall and temporary construction disruption. (ELR Order No. 50716.)

## DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

## FEDERAL AVIATION ADMINISTRATION

### Draft

Bismarck Municipal Airport, Burleigh County, North Dakota, May 12: The state-

ment concerns the Master Plan for the Bismarck Municipal Airport. The Plan provides for acquisition of an additional 700 acres of land, extension of existing runways, and construction of a noise-abatement runway. The project will displace approximately 58 persons. (ELR Order No. 50702.)

## FEDERAL HIGHWAY ADMINISTRATION

### Draft

S.R. 842 (Broward Blvd.), Ft. Lauderdale, Broward County, Florida, May 12: The proposed project will widen a 1.6 mile section of S.R. 842 (Broward Blvd.) from S.R. 9 (I-95) to N.E. 3rd Avenue in Ft. Lauderdale. The present undivided, 4-lane arterial will be upgraded to 6 lanes with a median. The project will displace 8 families, 39 businesses, and 1 non-profit organization. Noise levels will exceed FHWA Interim Noise Standards for the improved roadway but will be less than those resulting if the facility is not improved. A 4(f) statement is included concerning Stranahan Park. (ELR Order No. 50708.)

P.A.S. Route 28, Scottsbluff County, Nebraska, May 15: The proposed improvement consists of a 2.6 mile segment of two projects. The first is the reconstruction of 0.3 mile of presently gravelled roadway which will be upgraded to conform to current design standards and resurfaced with high type surfacing. The second project consists of 1.1 miles of reconstruction of presently gravelled roadway which will be upgraded to conform to current design standards and 1.2 miles of new construction. The project will require an additional 12 acres for right-of-way. (ELR Order No. 50714.)

I-70, Sevier Valley, Sevier County, Utah, May 14: Proposed is the construction of 32 miles of 4-lane, divided I-70 between Clear Creek Canyon and Salina Canyon, Utah. Principal environmental impacts would be in the spheres of agriculture, wildlife, economic stimulation, and land use changes (231 pages). (ELR Order No. 50710.)

### Final

PR-23, F. D. Roosevelt Avenue, Puerto Rico, May 14: Proposed is the improvement of a 1.02 mile segment of PR-23, F. D. Roosevelt Avenue from Fernando I Street to Barbosa Avenue in San Juan. The project will displace 21 families and 2 businesses and will require a strip of Gandara Park (183 pages). Comments made by: USDA, EPA, DOI, and State agencies. (ELR Order No. 50712.)

F.M. 1765, Galveston County, Texas, May 12: The statement refers to the construction of 2.19 miles of F.M. 1765 from I-45 east to SR-3 adjacent to and representing the common city limits of Texas City and La Marque. The facility will provide a 6-lane roadway with curbs and gutters and a 14 ft. flush median for continuous left-turn lanes. There will be construction inconveniences caused by the project. Comments made by: HEW, DOT, COE, USDA, HUD, EPA, and DOI. (ELR Order No. 50698.)

US 54, El Paso County, Texas, May 12: Proposed is the construction of 10.32 miles of US 54 between Loop 375 and the Texas-New Mexico State line at Newman. The statement indicates no significant impacts. Comments made by: COE, USDA, HEW, DOI, and State and local agencies. (ELR Order No. 50703.)

In the FEDERAL REGISTER of May 16, 1975, I-82, Union Gap to Prosser, Prosser Vicinity, was noticed as a draft eis. The statement is a final, and the review pe-

riod will begin from 05/05/75, the date of receipt.

GARY L. WIDMAN,  
General Counsel.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 377-7; OPP-32000/253]

### RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

#### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or before July 22, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until after July 22, 1975. If no claims are received by July 22, 1975, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after July 22, 1975.

Dated: May 16, 1975.

JOHN B. RITCH, Jr.,  
Director, Registration Division.

## NOTICES

### APPLICATIONS RECEIVED (OPP-32000/253)

EPA File Symbol 12483-G. Aetna Chem. Co., Wallace St., Extension, E., Paterson NJ 07407. ACTONA ALGECIDE II. Active Ingredients: Disodium cyanodithiolimidocarbonate 3.68%; Potassium N-methylthiocarbamate 5.07%. Method of Support: Application proceeds under 2(b) of interim policy. PM33

EPA Reg. No. 8590-379. Agway Inc., Chem. Div., Box 1333, Syracuse NY 13201. AGWAY GLYODIN SOLUTION. Active Ingredients: Glyodin (2-heptadecylimidazole acetate) 30%. Method of Support: Application proceeds under 2(a) of interim policy. PM21

EPA Reg. No. 8590-277. Agway Inc., Fertilizer Chem. Div., Box 1333, Syracuse NY 13201. AGWAY GLYODEX 37-22W. Active Ingredients: Glyodin (2-heptadecylimidazole acetate) 37.5%; Dodine (n-dodecylguanidine acetate) 22.5%. Method of Support: Application proceeds under 2(a) of interim policy. PM21

EPA Reg. No. 5481-92. Amvac Chem. Corp., 4100 E. Washington Blvd., Los Angeles CA 90023. DURHAM NEMATOCIDE EM 12.1. Active Ingredients: 1,2-dibromo-3-chloropropane 82.4%; Other halogenated C3 Compounds 2.6%. Method of Support: Application proceeds under 2(c) of interim policy. Republished: Additional uses. PM21

EPA File Symbol 35896-R. C.P. Chem., Inc., Arbor St., Seward NJ 07077. BASIC COPPER CS-56. Active Ingredients: Copper 56%. Method of Support: Application proceeds under 2(c) of interim policy. PM22

EPA File Symbol 35572-U. Chem-Tab Chem. Corp., 1729 Seabright Ave., Long Beach CA 90813. SPP CONCENTRATED CHLORINE GRANULAR II. Active Ingredients: Sodium Dichloro-s-triazinetriene 100%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 35572-L. Chem-Tab Chem. Corp. SPP CONCENTRATED CHLORINE TABLETS. Active Ingredients: Trichloro-s-triazinetriene 100%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 35572-G. Chem-Tab Chem. Corp. SPP CONCENTRATED CHLORINE 2 1/2" JUMBO TABLETS. Active Ingredients: Trichloro-s-triazinetriene 100%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 35572-E. Chem-Tab Chem. Corp. SPP ALGAE-Out. Active Ingredients: Trichloro-s-triazinetriene 100%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 14943-L. Corporate Brands Inc., 9840 Dorchester Ave., Chicago IL 60628. SPECTRUM-B CLEANER-DISINFECTANT - DEODORIZER - FUNGICIDE-VIRUCIDE. Active Ingredients: Didecyl dimethyl ammonium chloride 4.5%; Tetrasodium ethylenediamine tetraacetate 2.0%; Sodium carbonate 1.0%; Sodium metasilicate 0.5%. Method of Support: Application proceeds under 2(c) of interim policy. PM33

EPA File Symbol 270-RRE. Farnam Co., Inc., PO Box 21447, Phoenix AZ 85036. FARNAM MUSCALURE (TECHNICAL TRICOSENE). Active Ingredients: Z-9-Tricosene 98.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM17

EPA File Symbol 10583-0. General Control Co., Inc., 3334 Post Pennsylvania St., Tucson AZ 85714. CONTROL QUALITY WEED KILLERS RAPID KILL #1. Active Ingredients: Diquat dibromide [6,7-dihydrodipyrido (1,2-a:2',1'-c) pyrazinedium dibromide] 2.7%; Trifluralin (a, a, a-trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine 0.6%. Method of Support: Application proceeds under 2(c) of interim policy. PM24

EPA File Symbol 10583-RN. General Control Co., Inc., 3334 E. Pennsylvania St., Tucson AZ 85714. CONTROL QUALITY WEED KILLERS RAPID KILL #1. Active Ingredients: Diquat dibromide [6,7-dihydrodipyrido (1,2-a:2',1'-c) pyrazinedium dibromide] 0.23%. Method of Support: Application proceeds under 2(c) of interim policy. PM24

EPA File Symbol 24411-R. Hatchik Supply Co., 1548 Davidson Rd., McLean VA 22101. SHS SODIUM HYPOCHLORITE. Active Ingredients: Sodium Hypochlorite 10%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 2393-EO. Hopkins Agricultural Chem. Co., PO Box 584, Madison WI 53701. HOPKINS ATRAZINE 4 LB. FLOWABLE. Active Ingredients: Atrazine; 2-chloro-4-(ethylamino)-6-(isopropylamino)-s-triazine 40.80%; Related Compounds 2.20%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 21164-G. Rio Linda Chem. Co., 1311 I St., Rio Linda CA 95873. DURA KIOR MICROBIOCIDES. Active Ingredients: Chlorine Dioxide 6%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 12047-G. Lone Star Brush & Chem. Co., 4406 Irving Blvd., Dallas TX 75207. BIG GUN II. Active Ingredients: Octyl Decyl Dimethyl Ammonium Chloride 0.950%; Didecyl Dimethyl Ammonium Chloride 0.475%; Didecyl Dimethyl Ammonium Chloride 0.475%; Tetrasodium Ethylenediamine Tetraacetate 1.000%; Trisodium Phosphate 2.000%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

EPA File Symbol 8249-0. Maintenance Engineering Corp., 3711 Clinton Drive, PO Box 1729, Houston TX 77001. MECO MICROBIOCIDES C-11. Active Ingredients: Disodium Cyanodithiolimidocarbonate 7.35%; Potassium N-methylthiocarbamate 10.15%. Method of Support: Application proceeds under 2(b) of interim policy. PM33

EPA File Symbol 1021-ROUO. McLaughlin Gormley King Co., 8810 10th Ave., N. Minneapolis MN 55427. D-TRANS INTERMEDIATE 2038. Active Ingredients: d-trans Allethrin (allyl homolog of Cinerin I) 16.25%; Piperonyl butoxide, technical 25.00%; N-octyl bicycloheptene dicarboximide 25.00%; Petroleum distillate 2.50%. Method of Support: Application proceeds under 2(c) of interim policy. PM17

EPA File Symbol 11602-U. Molar Enterprises, Inc., 1621 Hennepin Ave., S. Minneapolis MN 55403. MOLAR SANITIZER/CLEANER Q-2000S. Active Ingredients: Alkyl (60% C14, 30% C16, 5% C12, 5% C18) Dimethyl Benzyl Ammonium Chlorides 1.28%; Alkyl (68% C12, 32% C14) Dimethyl Ethylbenzyl Ammonium Chlorides 1.28%; Sodium carbonate 2.00%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

EPA File Symbol 5891-EE. Mt. Hood Chem. Corp., 4444 NW. Yeon Ave., Portland OR 97210. IOP SANITIZER. Active Ingredients: Butoxy polypropoxy polyethoxy ethanol-iodine complex 12.47%; Polyethoxy polypropoxy polyethoxy ethanol-iodine complex 0.37%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 36371-U. National Chem. Inc., 940 W. Oakwood Rd., Oak Creek WI 53154. NC-20 FORMULA GERMICIDE. Active Ingredients: Octyl Decyl Dimethyl Ammonium Chloride 3.750%; Didecyl Dimethyl Ammonium Chloride 1.875%; Didecyl Dimethyl Ammonium Chloride 1.875%; Alkyl (C14 50%, C12 40%, C16 10%) Benzyl Dimethyl Ammonium Chloride 5.000%; Tetrasodium Ethylenediamine Tetraacetate 3.420%; Isopropyl Alcohol 3.000%; Ethyl Alcohol 1.000%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

EPA File Symbol 36371-G. National Chem. Inc. NC-25 FORMULATION HEAVY-DUTY GERMICIDE. Active Ingredients: Octyl Decyl Dimethyl Ammonium Chloride 4.50%; Didecyl Dimethyl Ammonium Chloride 2.25%; Didecyl Dimethyl Ammonium Chloride 2.25%; Tetrasodium Ethylenediamine Tetraacetate 2.40%; Isopropyl Alcohol 3.60%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

### RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

#### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, DC 20460.

On or before July 22, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington, DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until after July 22, 1975. If no claims are received by July 22, 1975, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under

the Act. No claims will be accepted for possible EPA adjudication which are received after July 22, 1975.

Dated: May 18, 1975.

JOHN B. RITCH, Jr.,  
Director, Registration Division.

[FRL 378-4]

#### POST-ATTAINMENT DATE VARIANCES UNDER STATE IMPLEMENTATION PLANS

Interim Variance Policy in View of the Recent Supreme Court Decision in Train v. NRDC, et al.

On April 16, 1975, the Supreme Court of the United States issued a decision that has a direct effect on EPA's policy and regulations concerning deferral beyond the attainment dates for national ambient air quality standards of State implementation plan requirements for individual air pollution sources. Under existing regulations, no source may obtain a variance if the variance permits the source to comply with a control strategy requirement approved under 40 CFR Part 52 after the applicable attainment date established under that part. (See 39 FR 34533, September 26, 1974.) In *Train v. Natural Resources Defense Council, Inc.*, et al. (7 ERC 1735) the Supreme Court held that EPA may approve such a variance as a revision to the State plan, if the variance will not adversely affect attainment of the national ambient air quality standards by the applicable attainment date, and maintenance thereafter.

In the near future EPA intends to conform existing regulations to the Supreme Court decision. The modified regulations will specify what a State must submit to demonstrate that a variance will not adversely impact on timely attainment and maintenance of the ambient standards. During the interim, if a variance is approved by the State and submitted to EPA as a plan revision, EPA will review it for purposes of determining whether it is consistent with existing control strategy requirements established under 40 CFR Part 51, pursuant to section 110 (a) (2) of the Act. If, after reviewing the variance, the Agency determines that it is consistent with the control strategy provisions of Part 51, the Agency will notify the originating State of that determination and will advise the State that no Federal enforcement action will be taken against the source while it is in compliance with the variance. Upon publication of modified regulations that conform to the Supreme Court's opinion, the

interim action taken by the Agency would be proposed as a plan revision.

It should be noted that existing procedural requirements relating to plan revisions (See 40 CFR 51.6) are not affected by the Court's opinion and must be observed; this interim policy should not be interpreted as a departure from those requirements. It should also be noted that a variance may not become effective as a part of the State implementation plan until it has been approved by EPA (See *Train v. NRDC*, et al., at 1746).

The air quality demonstration requirements that will be included in EPA's modified regulations, may differ according to different circumstances, but it can be expected that it will usually necessitate, along with other appropriate information, a submittal of current ambient data and a modeling calculation designed to show that the individual source involved will not interfere with attainment of the pertinent national ambient air quality standard by its attainment date in the appropriate air quality control region. It will also require a showing that during the period of the variance the source will not interfere with maintenance of any such standard. The demonstration requirement will, in all likelihood, be more stringent in areas that presently have high ambient pollution concentrations than in areas with low concentrations. But we expect the demonstration to be difficult whenever attainment or maintenance of the primary standard is at issue. Only in a clear case will such a variance be approved. (State agencies are invited to discuss with EPA's regional office any troublesome air quality questions or issues that may arise.)

A source for which an adequate demonstration cannot be made will not, of course, be eligible for a variance. Any such source which also is unable to comply by the date specified in the State plan will at that time be in violation and subject to both State and Federal enforcement. In this regard, it should be noted that EPA has, in recently proposed regulations (40 FR 14876, April 2, 1975), expressed its policy on post attainment date enforcement actions. Comments on these regulations are still being considered. (See EPA notice at 40 FR 21046, May 15, 1975.) The Agency believes that the recent Supreme Court decision will have minimal effect, if any, on these regulations. It is expected that finalization will take place shortly after termination of the extended comment period.

Dated: May 19, 1975.

ROGER STRELOW,  
Assistant Administrator  
for Air and Waste Management.

#### PESTICIDE PRODUCTS CONTAINING HEPTACHLOR/CHLORDANE

Denial of Applications To Register

On November 26, 1974, the Environmental Protection Agency (EPA) gave

notice (39 FR 41298) of its intent to cancel all registered uses of heptachlor and chlordane pursuant to section 6 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 7 U.S.C. 136d), with the exception of the uses of heptachlor or chlordane through subsurface ground insertion for termite control and the dipping of roots or tops of nonfood plants. Affected parties have been afforded the opportunity to contest this action by requesting a hearing on specific registered uses.

On this same day, the EPA also issued a regulation (39 FR 41256) pertaining to the registration of pesticide products containing heptachlor or chlordane shipped in intrastate commerce. The Agency invoked its authority to bring intrastate products containing heptachlor and chlordane under Federal control, pursuant to the provisions of sections 3 and 25(a) of FIFRA (86 Stat. 979, 997), because (1) a public hearing process for Federally registered products is available through established administrative procedures for those persons affected by the notice of intent to cancel and (2) the Agency believes it is important to provide registrants and users of similar products containing heptachlor or chlordane, that are manufactured, sold and used intrastate and not presently registered at the Federal level, the same hearing rights as those afforded users and registrants of such Federally registered products. This regulation became effective on November 26, and at that time, all affected persons were instructed to apply for Federal registration. Applications were made not only by those who currently ship such products in intrastate commerce, but by affected persons who sought Federal registration as well. All persons affected by this regulation who made application to the Agency to register products containing heptachlor or chlordane received notices of intent to deny such registration by certified mail. These applicants have been afforded 30 days from the date of receipt of such letters of intent to deny to request a hearing pursuant to section 6 of FIFRA.

#### PESTICIDE PRODUCTS INTENDED FOR SHIPMENT IN INTRASTATE COMMERCE

Applications for registration were made to the Agency as a result of the November 26 Federal Register notice implementing § 162.20 of 40 CFR. Notices of intent to deny registration have been mailed applicants based on the notice regarding intrastate products. Applicants were instructed that they could request a hearing within 30 days of receipt of such notice pursuant to section 6 of FIFRA as set forth in the Federal Register notice. Applicants were also advised that if they did request a hearing in accordance with the procedures established, their products could continue to be sold in the state where it has been registered pending completion of the scheduled cancellation proceedings. Applications made to the Agency were published in the Federal Register in accordance with the provisions of the Agency's interim policy with respect to the administration of section 3(c)(1)(D), which provides that upon receipt of every application for registration the EPA will publish such notice.

Notices of intent to deny registration have been sent to the following applicants for the listed products:

#### PESTICIDE PRODUCTS INTENDED FOR SHIPMENT IN INTERSTATE COMMERCE

Notices of intent to deny registration have also been mailed in response to applications for registration made to the Agency for products containing heptachlor or chlordane intended for sale in interstate commerce. Such notices were based on the November 26 Federal Register notice of intent to cancel. Applicants were advised that pursuant to Section 3(c)(6) they had 30 days from receipt of the notice of intent to deny to make any changes necessary to meet the Agency's requirements for registration. The only change possible to comply with current requirements is to restrict such products to use as subsurface ground applications for termite control or for dip-

ping of roots or tops of nonfood plants as set forth in the Federal Register notice of intent to cancel. Applicants have also been advised that if this change is possible and desired they may submit a revised application. Otherwise, such applications to register are denied. Products not registered with the Agency cannot be legally sold. Applicants were also told that remedies for denial are available through the administrative procedures set forth in section 6(b) of FIFRA.

Applications made to the Agency were published in the Federal Register in accordance with the provisions of the Agency's interim policy with respect to the administration of section 3(c)(1) (D).

Notices of intent to deny registration have been sent to the following applicants for the listed products.

## CONCLUSION

Any person adversely affected by this notice may, on or before June 23, 1975, request a hearing with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington, D.C. 20460. Any questions concerning this notice should be directed to Product Manager 15, Registration Division, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

Notice of the Agency's denial of these applications for registration is given pursuant to the provisions of section 3 (c) (6) of FIFRA.

Dated: May 21, 1975.

JAMES L. AGEE,  
Assistant Administrator for  
Water and Hazardous Materials.

# FEDERAL ENERGY ADMINISTRATION ENVIRONMENTAL ADVISORY COMMITTEE Charter Amendment

This notice is given to advise of a revision in the charter of the Environmental Advisory Committee. The charter was published in the August 21, 1974, issue of the Federal Register (39 FR 30196).

The amendment will revise the charter to provide for inclusion of subcommittees. No other changes are being made in the charter.

The Office of Management and Budget has concurred in this revision.

The revised charter is published below and is effective immediately.

Issued at Washington, D.C. on May 20, 1975.

ROBERT E. MONTGOMERY, JR.,  
General Counsel.

## FEDERAL ENERGY ADMINISTRATION ENVIRONMENTAL ADVISORY COMMITTEE NOTICE OF CHARTER AMENDMENT

A. *Establishment.* The Administrator, Federal Energy Administration (FEA), having determined after consultation with the Director, Office of Management and Budget, that the establishment of an advisory committee to deal with environmental matters, is in the public interest in connection with duties imposed on the Federal Energy Administration by law, hereby establishes the Environmental Advisory Committee pursuant to the Federal Advisory Committee Act (Pub. L. 92-463).

B. *Duties, Functions, and Administrative Provisions.* 1. *Objectives and Scope.*—The objectives of the Environmental Advisory Committee are to provide advice and information to FEA concerning environmental aspects of FEA policies and programs.

2. *Committee Tenure.*—In view of the goals and purposes of the Committee, it will be expected to continue for the duration of FEA.

3. *Official to Whom Committee Reports.*—The Committee shall report to the Administrator, Federal Energy Administration.

4. *Support Services.*—Necessary support shall be furnished by the Federal Energy Administration.

5. *Committee Duties.*—The duties of the Committee are solely advisory and are stated in Paragraph 1 above.

6. *Estimated Annual Operating Costs.*—The estimated annual operating costs for the Committee are \$30,000 and involve approximately one-man-year of staff support.

7. *Meetings.*—The Committee will meet approximately bimonthly.

8. *Termination Date.*—The Committee will terminate on June 30, 1978, or if the Federal Energy Administration Act of 1974 is amended to extend the duration of FEA beyond that date, the Committee will terminate on such later date or two years from the date of this Charter, whichever occurs earlier.

9. *Subcommittees.*—The Environmental Advisory Committee shall have five Subcommittees as follows:

- OCS Development Subcommittee
- Coal Leasing and Mining Subcommittee
- Transportation Subcommittee
- Coal Utilization Subcommittee
- Energy Conservation Subcommittee

The objectives of the Subcommittees are to make recommendations to the parent Committee with regard to advice and information which shall be provided to the Administrator, FEA, concerning environmental aspects of FEA policies and programs. The Subcommittees shall be comprised of the 26 members of the parent Committee. The provisions of B 1 through 8 shall apply to these Subcommittees.

Dated: May 20, 1975.

ROBERT E. MONTGOMERY, JR.,  
General Counsel.

## FEDERAL POWER COMMISSION

[Docket Nos. R-411; RM74-4]

### ADVANCES FOR GAS EXPLORATION, DEVELOPMENT, AND PRODUCTION

Order Amending Prior Order

MAY 16, 1975.

On April 28, 1975, the Commission issued an order in this proceeding which, *inter alia*, instituted an investigation of the Commission's advance payment program under Order Nos. 465 and 499 (40 FR 19532; May 5, 1975). That order also designated all of the pipelines which had made advance payments to producers under the Commission's advance payment program respondents to the investigation and listed the respondents in Appendix A of the order. However, through an oversight, Louisiana-Nevada Transit Company (Louisiana-Nevada) was not included on the list. Accordingly, we shall amend the April 28, 1975, to add as Louisiana-Nevada a respondent in this proceeding.

The Commission finds: It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that the Commission's April 28, 1975, order in this proceeding be amended as hereinafter ordered.

The Commission orders: The Commission's April 28, 1975, order in this proceeding is hereby amended to add as a respondent on Appendix A to the order, Louisiana-Nevada Transit Company, 821 17th Street, Denver, Colorado 80202.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13568 Filed 5-22-75; 8:45 am]

[Docket No. RP75-88]

### ALGONQUIN GAS TRANSMISSION CO. Order

MAY 19, 1975.

On April 8, 1975, Algonquin Gas Transmission Company (Algonquin), tendered for filing a revised tariff sheet<sup>1</sup> reflecting a jurisdictional revenue increase of approximately \$25.4 million based on the twelve month period ending December 31, 1974, as adjusted. Algonquin requests an effective date of May 23, 1975, for its proposed changes. Of the entire increase, about \$21.3 million is applicable to service under Algonquin's Rate Schedule SNG-1 and the remainder is applicable, in varying degrees, to all other rate schedules. The company sets forth as reasons for its rate increase application, increased costs of operation, reduced sales volumes, increased costs of feedstock for its SNG operations and an overall rate of return of 10.75 percent. Our analysis of Algonquin's filing indicates that each of these items should be the subject of examination within the hearing ordered herein.

<sup>1</sup>Seventh Revised Sheet No. 10 to Algonquin's FPC Gas Tariff, First Revised Volume No. 1.

We are particularly concerned with the magnitude of the increase as it relates to Rate Schedule SNG-1. The determination of the reasonableness of costs incurred by Algonquin from its subsidiary, Algonquin SNG, Incorporated is required so that we can properly analyze what portion of the SNG costs should properly be passed on to Algonquin's customers. We have been concerned from the very outset that such SNG related costs might escalate beyond the zone of reasonableness.<sup>2</sup>

Further, Algonquin has proposed, as it did at Docket No. RP74-92, a two-part rate for its SNG service which establishes the commodity rate on the basis of feedstock costs and the demand charge on the basis of all other costs. This rate design is the subject of an investigation into its reasonableness in the proceedings at the underlying docket.

In the instant filing, Algonquin also departs from the practice of utilizing plant capacity for rate design billing determinants and, instead, designs its demand-commodity levels on the basis of actual sales achieved during the last winter period. As a result, an overstatement of rate levels could occur if it should be determined that use of capacity volumes is proper for rate design purposes. Under these circumstances, it should be made clear that the company may be exposed to refunds for overcollections if it should be determined that a one-part rate is appropriate for service rendered under Rate Schedule SNG-1 or that capacity billing determinants are proper for rate design purposes.

Our review of the subject rate filing indicates that the proposed rates have not been shown to be just and reasonable, and that they may be excessive, unduly discriminatory or otherwise unjust and unreasonable. Accordingly, the proposed tariff sheet shall be accepted for filing, suspended for the full five month statutory period, subject to refund, and set for hearing.

Public notice of Algonquin's filing was issued with protests or petitions to intervene due on or before April 28, 1975. To date, one petition to intervene has been filed on behalf of the twenty parties listed at Appendix A.

The Commission finds: (1) The rates proposed by Algonquin have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Algonquin's FPC Gas Tariff as proposed to be amended in Docket No. RP75-88, and that the re-

<sup>2</sup> See, Commission Opinion No. 837 at Algonquin SNG, Inc., et al., Docket Nos. CP72-35 et al., issued December 7, 1972; and Commission Opinion No. 837-A, at Algonquin SNG, Inc., et al., Docket Nos. CP72-35 et al., issued February 6, 1973.

vised tariff sheet filed therein be suspended, and the use thereof deferred as hereinafter ordered.

(3) The participation of the above-named petitioners may be in the public interest, provided that such participation shall be limited as set forth below.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, and the Commission's rules and regulations, a public hearing shall be held on November 21, 1975, in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classification, and services contained in Algonquin's FPC Gas Tariff, as proposed to be amended herein.

(B) On or before October 10, 1975, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any and all intervenors shall be served on or before October 24, 1975. Any rebuttal evidence by Algonquin shall be served on or before November 7, 1975.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the Natural Gas Act, the Commission's rules and regulations, and the terms of this order.

(D) Pending hearing and a decision thereon, Algonquin's proposed revised sheets tendered for filing on April 8, 1975 are hereby suspended for five months and the use thereof deferred until October 23, 1975, or until such time as they are made effective in the manner provided by the Natural Gas Act.

(E) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMS,  
Secretary.

#### ARKANSAS-MISSOURI POWER CO.

#### Further Extension of Procedural Dates

MAY 16, 1975.

On May 14, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued November 29, 1974, as most recently modified by notice issued April 17, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, June 17, 1975.  
Service of Intervenor's Testimony, July 1, 1975.  
Service of Company Rebuttal, July 15, 1975.  
Hearing, August 26, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMS,  
Secretary.

[FR Doc.75-13549 Filed 5-22-75;8:45 am]

[Docket Nos. E-8250, etc.]

#### ARKANSAS POWER & LIGHT CO.

#### Order

MAY 16, 1975.

By Order issued July 31, 1973, the Commission, *inter alia*, accepted for filing Arkansas Power & Light Company's (AP&L) proposed rate increase filed in Docket No. E-8250 on June 1, 1973, suspended the proposed rates for five months to become effective January 1, 1974, subject to refund, permitted nine of AP&L's affected customers (Intervenors) to intervene in the proceeding, and consolidated the proceedings with those in Docket Nos. E-8071 and E-8142.

On February 14, 1975, the Commission Staff filed a motion in this proceeding requesting that the Commission limit its findings at the present time to a determination of just and reasonable rates for the locked-in period from January 1, 1974 to December 19, 1974. The Commission Staff also requested that the Commission require AP&L to submit, within thirty days, cost of service data for the year 1975 consisting of available actual data and estimates for the remainder of the year and to set procedural dates for the purpose of determining a just and reasonable rate commencing December 19, 1974.

In support of its motion, Staff states that on December 19, 1974 AP&L placed the Arkansas Nuclear One Unit #1 (ANO#1) generating station in service, representing what AP&L claims to be a \$216,000,000 addition to its end-of-test-period electric plant in service. Staff alleges that since the impact of this additional capacity would have a substantial impact on AP&L's operations, the rates for the pre-December 19, 1974 period must be considerably different from those for the period after the nuclear unit was placed in service. Staff concludes that no single rate for both periods could be just and reasonable and therefore requests that the rate proceeding be phased. Staff notes that AP&L had included the impact of ANO#1 as a pro forma adjustment to its test year ended June 30, 1973. Finally, Staff states, in support of its motion to require AP&L to file updated cost support for the period commencing December 19, 1974, that the impact of ANO#1 upon the operations of AP&L cannot be accurately measured against a test year beginning in July, 1972 and ending in June, 1973.

On February 27, 1975, Intervenor's filed their concurrence in Staff's February 14, 1975, motion, stating that Staff's motion would offer a resolution which would avoid considerable difficulty which would otherwise face the Commission in this proceeding.

AP&L filed its response to Staff's motion on March 3, 1975. AP&L states that while it does not agree with certain of the statements made in Staff's motion, it concurs in the motion and requests the Commission to expeditiously grant Staff's February 14, 1975 motion, as modified to require AP&L to supply the requested cost of service data on or before May 20, 1975.

On May 2, 1975, the Staff filed a request on behalf of all parties, that its motion be revised to reflect June 24, 1975, as the date for filing the requested data.

For the reasons set forth in Staff's motion, we believe that AP&L should be required to provide, on or before June 24, 1975, updated cost of service data applicable to the period commencing December 19, 1974, the date that ANO#1 was placed in service.

The Commission finds: Good cause exists to grant the Commission Staff's February 14, 1975 Motion as hereinafter ordered.

The Commission orders: (A) Staff's February 14, 1975 motion is hereby granted for purposes of allowing two rates to be determined in this proceeding; the first for the period January 1, 1974 to December 19, 1974, and the second commencing December 19, 1974.

(B) AP&L shall file, on or before June 24, 1975, cost of service data for the year 1975.

(C) The following procedural dates are hereby established for the purpose of providing the parties an opportunity to present evidence related to AP&L's

updated cost of service data for the year 1975; the Commission Staff shall serve its prepared testimony and exhibits on or before July 22, 1975. Any intervenor evidence shall be filed on or before August 5, 1975. Any rebuttal evidence by AP&L shall be served on or before August 19, 1975.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMS,  
Secretary.

[FR Doc.75-13550 Filed 5-22-75;8:45 am]

[Docket Nos. C174-489; C174-490]

#### BELCO PETROLEUM CORP.

#### Order Denying Petition

MAY 16, 1975.

On April 28, 1975, Belco Petroleum Corporation, Agent for Belco 1972 Oil and Gas Fund, Ltd. (Petitioner) filed in Docket Nos. C174-489 and C174-490 a petition to effect relief from the conditions imposed by ordering paragraph (G) of the order issued in the subject dockets on May 9, 1974, so as to permit Petitioner to increase the rate charged for natural gas sold pursuant to authorization issued by said order to the nationwide rate promulgated by § 2.56a of the Commission's General Policy and Interpretations (18 CFR 2.56a), all as more fully set forth in the petition in this proceeding.

The Commission, in the May 9, 1974, order, issued 18-month limited-term certificates to Petitioner to sell gas for resale in interstate commerce to El Paso Natural Gas Company (El Paso) from Eddy and Lea Counties, New Mexico. The certificates are conditioned upon a rate of 45 cents per Mcf to remain in effect for the term of the authorization. Petitioner states it commenced deliveries on May 10, 1974.

Petitioner now requests the Commission to permit the charging of the nationwide rate prescribed in § 2.56a as of January 30, 1975, when Petitioner submitted notices of change in rate for the subject sales.

Petitioner asserts that the contractual rate for the subject sales was originally 55 cents per Mcf, but that it advised the Commission of its willingness to accept a rate of 45 cents per Mcf, the price level at which the Commission was issuing limited-term certificates without formal hearings at the time the applications were filed. Petitioner maintains that, when the contracts were amended to provide for the 45-cent rate, it agreed with El Paso that such a price would be subject to escalation in the event the Commission established a higher just and reasonable nationwide rate that would be applicable to sales of the subject gas. Petitioner submitted notices of change in rate on January 30, 1975. The notices were rejected by letter dated March 4, 1975.

Petitioner states that the subject gas qualifies as "new gas" within the meaning of § 2.56a because it is being produced from wells commenced after January 1, 1973, and the gas was not sold in interstate commerce previous to that date. Petitioner asserts that it has a contractual right to the nationwide just and reasonable rate of 51 cents per Mcf plus adjustments. Petitioner further asserts that it could not have been known at the time it agreed to accept certificates at the 45-cent rate that the Commission would have ultimately found the just and reasonable nationwide rate to be in excess of 45 cents. Petitioner urges that it is neither just nor reasonable to invoke the condition inserted by the Commission in ordering paragraph (G) of the May 9, 1974, order so as to deny Petitioner its contractual right to sell gas at the just and reasonable nationwide rate for new gas. Petitioner further states that this is all the more true in light of the fact that Petitioner specifically bargained for the contractual provision providing for such increase in price in return for agreeing to commence sales at a price 10 cents below the original contract price.

To grant petitioner's motion would be inconsistent with the concept of the limited-term certificate program. Producers granted such certificates have been permitted to sell gas for specific periods with pre-granted abandonment authorization at above-ceiling prices to help alleviate purchasers' need for gas. Such producers were not required to demonstrate cost support for such above-ceiling rates or to obtain abandonment authorization upon the expiration of the agreed-upon term.

The May 9, 1974, order is quite explicit in its conditions and the Commission fails to see how ordering paragraph (G) can be interpreted other than by its plain language, nor does the Commission perceive any reason for altering the conditions imposed by the May 9, 1974, order. Petitioner, furthermore, has had the benefit of the above-ceiling price for several months, which has served to obviate any alleged unfair treatment of Petitioner by its loss of the right to charge the nationwide rate. By commencing deliveries under the certificate authorization, Petitioner accepted all conditions of the certificate notwithstanding contract provisions that may have been inconsistent with said conditions. Petitioner may not complain after such acceptance that it desired other terms than were provided for in the certificate.

The Commission finds: No good cause exists to modify the order issued May 9, 1974, in Docket Nos. C174-489 and C174-490.

The Commission orders: Petitioner's petition in the instant docket is denied.

By the Commission.

[SEAL] KENNETH F. PLUMS,  
Secretary.

[FR Doc.75-13551 Filed 5-22-75;8:45 am]

[Docket No. CP74-324]

**CITIES SERVICE GAS CO.  
Amendment to Application**

MAY 16, 1975.

Take notice that on April 30, 1975, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP74-324 an amendment to its application filed in the subject docket pursuant to section 7 (b) and (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the relocation and operation of certain facilities and for an order permitting and approving the abandonment of certain facilities and service on its transmission system, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

In its application in this proceeding Applicant sought authorization to abandon certain facilities and to construct and operate replacement facilities with regard to 8 separate projects. By order issued April 1, 1975, in the subject docket projects 1 through 7 were authorized. By notice issued March 3, 1975, proceedings relative to project 8 were deferred pending the filing of the instant amendment and Commission action thereon.

As project 8, Applicant proposes to abandon by reclaim approximately 7.2 miles of 20-inch gas pipeline and to relocate measuring facilities for Garvey International, Inc., in Applicant's Pampa 20-inch pipeline located in Sedgwick County, Kansas.

Applicant states that the facilities which it proposes to abandon by reclaim are no longer required for the operation of Applicant's pipeline system, are obsolete in view of the operational requirements and can no longer be economically operated and maintained.

Applicant seeks authority to discontinue gas deliveries to The Gas Service Company for resale to three domestic consumers served from the section of its Pampa 20-inch pipeline which it proposes to abandon. Service would be terminated 60 days after the date of the Commission order approving the requested abandonment. Applicant states that three rural customers affected by the proposed abandonment have been advised of the proposed termination of service and notified that they will be reimbursed for the actual costs of conversion to propane up to the amount of \$630.

The estimated cost of constructing the proposed measuring facilities is \$750. The estimated salvage value of the measuring facilities is \$383 and the cost of removal is \$140. The estimated reclaim cost for the proposed abandonment is \$92,460, and the estimated salvage value is \$122,020.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and pro-

cedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed petitions to intervene, notices of intervention or protests to the granting of the application in this proceeding need not file again.

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. CI75-438; CI75-540]

**FOREST OIL CORP.****Postponement of Hearing**

MAY 15, 1975.

In the matter of Coleve Forest Drilling Venture, Forest Oil Corporation.

On May 14, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued April 11, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the hearing date in the above matter is postponed until July 1, 1975, at 10:00 a.m. (e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13553 Filed 5-22-75;8:45 am]

[Docket No. RP75-91]

**CONSOLIDATED GAS SUPPLY CORP.****Order**

MAY 19, 1975.

On April 16, 1975, Consolidated Gas Supply Corporation (Consolidated) filed in the above captioned docket proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1 and Original Volume No. 2, with a proposed effective date of June 1, 1975. The proposed rate changes would increase Consolidated's revenues from jurisdictional sales and services by \$20.5 million annually (3.6%) over rates effective April 1, 1975, based upon the twelve months ended December 31, 1974, adjusted for known changes for a nine month period through September 30, 1975. Of the total increase, \$8.8 million reflects supplier rate increases.

Consolidated states that the higher rates are required to recoup, *inter alia*, increased transportation costs paid to other pipelines, increased cost of capital, and an increase in capital expenditures, depreciation expense and operating costs.

<sup>1</sup> Second Revised Volume No. 1: Third Revised Sheet No. 8, Third Revised Sheet No. 9; Original Volume No. 2: Seventh Revised Sheet No. 272, Fourth Revised Sheet No. 272-A.

The increased transportation costs result from increases in transportation rates proposed by Transcontinental Gas Pipe Line Corporation and Texas Eastern Transmission Corporation in Docket Nos. RP75-75 and RP75-73, respectively. Both of these increases are proposed to be effective on May 1, 1975, but their effectiveness has been suspended until October 1, 1975.

The proposed rates include an overall rate of return of 10.50% reflecting a 13.65% return on common equity which represented 51.9% of capitalization as of December 31, 1974.

Depreciation of transmission facilities located in the "Southern States" area of the United States is proposed to be changed from the present rate of 4% to a unit of production method.

Consolidated estimates capital expenditures of about \$34 million dollars, of which \$22.4 million would be for production, \$4.0 million for storage, and \$7.5 million for transmission facilities.

Increased operating costs include increased labor and material costs, increases in taxes other than income, and a higher unit cost of operation of Consolidated's pipeline system due to the continuing decline in Consolidated's gas supply and the consequent reduction in annual sales volumes.

The claimed deficiency of \$20.5 million includes \$8.8 million of increases in purchased gas costs estimated to become effective during the nine month adjustment period although they are recoverable under Consolidated's existing PGA clause.

Consolidated states that the proposed rates do not include the appropriate surcharge or surcharge credit as provided by its PGA clause. Consolidated states that at such time as the increased rates are to become effective, Consolidated will make the appropriate filing to reflect the applicable surcharge adjustment in effect at that time.

Consolidated states that it will submit studies with its Statement P to demonstrate that special circumstances exist in accordance with § 2.16(a)(4) of the Commission's rules and regulations which justify cost of service treatment for Consolidated's production from new leases in the Appalachian area.

Consolidated has eliminated full cost accounting for unsuccessful wells on leases acquired after October 7, 1969, in the Appalachian area; and it has provided for the normalization of deferred taxes relating to intangible drilling costs on leases acquired prior to October 8, 1969.

Consolidated states that the total cost of service was allocated between intra-state and interstate sales and services and jurisdictional costs were allocated to the GSS rate schedule by application of the method of Opinion No. 703, issued August 28, 1974, in Docket No. RP71-77.

Consolidated states that costs allocated to the sales for resale were further allocated among rate zones employing the historical revenue method of allocation of Opinion No. 703. Consolidated states

that allocated zone costs were functionalized and classified in accordance with unmodified *Atlantic Seaboard*, and sales rates designed using the procedures followed in Consolidated's last general rate increase filing in Docket No. RP74-90.

Consolidated submitted *pro forma* tariff sheets containing provisions that would authorize it to include in its current rates, changes in rate base reflecting construction work in progress on new supply projects. Consolidated does not propose to make such tariff sheets effective prior to a Commission order approving them.

Consolidated's April 16, 1975, filing was noticed on April 23, 1975, with protests and petitions to intervene due on or before May 16, 1975. Southern Tier Gas Corporation, New York State Electric & Gas Corporation, The Rochester Gas and Electric Corporation and Peoples Natural Gas Company filed timely petitions to intervene. The Public Service Commission of West Virginia filed a timely notice of intervention.

We note that the rate design included in the instant filing reflects the unmodified *Seaboard* method of cost classification and cost allocation.

In Opinion No. 671, we expressed our concern over the worsening gas supply situation and particularly as it existed on United's system. Based upon the record in that case we concluded that more weight should be given to annual use of United's pipeline system than is characteristic of the unmodified *Seaboard* methodology. Therefore, we assigned 75 percent of fixed costs to the commodity component of two-part rates and to the straight-line rates. Part of our rationale was that in view of the gas supply shortage, low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed.

In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on the Consolidated system, all parties to this proceeding should direct their attention, and file any evidence they wish to submit, as to the propriety of the continued use of the *Seaboard* method of cost classification and allocation, as well as to the propriety of Consolidated's rate design proposed herein. Further, we urge all parties to suggest alternative methods of cost classification, allocation and rate design which they believe may more closely reflect or implement the Commission's objectives in this area. In this connection we refer the parties to our recent rulemaking Docket No. RM75-19 issued February 20, 1975.

Our review of Consolidated's filing indicates that the proposed rates have not been shown to be just and reasonable and

<sup>2</sup> See: Footnote 3 in our order of May 31, 1974, in *Columbia Gas Transmission, et al.*, Docket Nos. RP74-82 and RP74-81.

may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. We shall, therefore, accept the proposed rates for filing, suspend their effect for the full statutory period, and set the matter for hearing.

*The Commission finds:* (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Consolidated's FPC Gas Tariff, as proposed to be amended by Docket No. RP75-91, and that the tariff sheets tendered in the aforementioned docket be accepted for filing and suspended for five months.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene.

*The Commission orders:* (A) Pending a hearing and a decision thereon, Consolidated's proposed tariff sheets as listed in Footnote 1 of this order, tendered for filing on April 16, 1975, are hereby accepted for filing and suspended for the full statutory period and the use thereof deferred until November 1, 1975, or until such time as they are made effective in the manner provided in the Natural Gas Act, subject to refund.

(B) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing for purposes of cross-examination concerning the lawfulness and reasonableness of the rates and charges in Consolidated's FPC Gas Tariff, as proposed to be amended herein, shall be held commencing on October 28, 1975, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) On or before September 3, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any intervenor evidence shall be filed on or before September 24, 1975. Any rebuttal evidence by the company shall be served on or before October 15, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's Rules of Practice and Procedure.

(E) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however*, that participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene and *Provided, further*, that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved

because of any order or orders of the Commission entered in this proceeding.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13554 Filed 5-22-75;8:45 am]

[Docket Nos. CP65-393; CI65-584]

**FLORIDA GAS TRANSMISSION CO.****Order To Show Cause**

MAY 16, 1975.

From the presentation in *Sea Robin Pipeline Company*, Docket No. CP72-119, it appears that a question arises as to whether the transportation of gas by Florida Gas Transmission Company (Florida Gas) for Florida Power and Light Company (Florida Power) authorized in Docket No. CP65-393 should be continued, limited or amended. A similar question arises as to the sale of gas by Amoco Production Company (Amoco) to Florida Gas authorized in Docket No. CI65-584. Florida Gas and Amoco will be required to show cause why their aforesaid authorizations to sell or transport gas should not be amended, limited or otherwise modified, and Florida Power will be accorded the opportunity to be heard thereon.

*The Commission orders:* (A) Amoco and Florida Gas shall show cause within 20 days of this order why the authorization of Amoco in Docket No. CI65-584 to sell gas to Florida Gas, and the authorization of Florida Gas in Docket No. CP65-393 to transport gas to Florida Power, should not be amended, limited, or otherwise modified.

(B) Florida Power shall be served with a copy of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13555 Filed 5-22-75;8:45 am]

[Docket No. CI76-559]

**MCCULLOCH OIL CORP.****Order**

MAY 19, 1975.

On March 21, 1975, McCulloch Oil Corporation (McCulloch) filed an application pursuant to section 7 of the Natural Gas Act and Opinion No. 699-H for a sale to Northern Natural Gas Company (Northern) from the Olson Field, Ellis County, Oklahoma, at an initial rate of 70 cents per Mcf with one cent per Mcf escalation every five years and upward and downward Btu adjustment. The proposed initial rate exceeds the just and reasonable nationwide rate set in Opinion No. 699-H. This sale is intended to be made under a March 19, 1975 amendment to the base November 5, 1974 contract with Northern.

In addition to its application for a permanent certificate for the proposed rate, McCulloch also requests authorization to begin the sale immediately at the contract rate with the provision that should the Commission later determine the just and reasonable rate for this sale to be below the contract rate, the difference will be refunded to Northern out of future production.

The McCulloch application, because the contract price is above the nationwide ceiling, must be viewed as a petition for special relief pursuant to § 2.56a(g) of the Commission's regulations, which provides that a seller cannot file for a rate in excess of the national rate without the permission of the Commission, said permission to be based on a full justification of the need for the excess amount. The Commission does not have before it at this time information sufficient to make the determination required under § 2.56a(g). It is necessary, therefore, to set this matter for hearing, and for this reason, the request for temporary authorization to begin sales at the contract rate pending the outcome of the petition for special relief should be denied.

In Opinion No. 713<sup>1</sup> we granted an application under § 2.75 filed by McCulloch on behalf of itself as general partner and for certain limited partnerships. The sellers were authorized to collect an initial rate of 45.5 cents per Mcf from Northern pursuant to a December 27, 1972 contract for production from two wells located in the Olson Field. As support for this application McCulloch submitted project cost evidence that included certain elements of cost pertaining to the entire Olson Prospect, rather than just the costs incurred with respect to the two successful wells. The Commission relied upon this presentation in approving the certificate granted in Opinion No. 713. In its instant petition, however, McCulloch states that the wells that are the subject of its petition are an extension of the development of the Olson Field that was begun pursuant to the 1972 contract with Northern that was approved in Opinion No. 713. Necessarily, therefore, there is some overlap in the cost presentation that was made to justify the result in Opinion No. 713 and that must be made to justify the 70 cents per Mcf initial rate proposed by the McCulloch petition. McCulloch will be required to explore this issue, whether the new wells are a part of the project considered in Opinion No. 713, fully at the hearing, with specific reference to (a) what costs that would ordinarily be attributable to the petition for special relief but have already been written off under the authorization granted in Opinion No. 713, and (b) the public policy questions involved in McCulloch's piecemeal development and dedication of the Olson Prospect, noting especially the difficulties inherent

<sup>1</sup> Opinion No. 713, McCulloch Oil Corporation, Docket No. C173-521, Opinion And Order Granting Certificate Under Optional Procedure, 52 FPC — (Issued November 26, 1974).

in overlapping cost presentations in different and succeeding proceedings.

It was our understanding as expressed in Opinion No. 713, that the Olson Prospect was owned jointly by McCulloch as general partner and the certain limited partnerships. It is not clear from the petition whether McCulloch is seeking to sell only its individual interest in the production or its interest plus that of the other interest owners. McCulloch is directed to clarify this matter in its evidence to be submitted at the hearing.

Notice of the petition was April 16, 1975, and appeared in the FEDERAL REGISTER on April 23, 1975, at 40 FR 17881. A petition to intervene in support of the application was filed by Northern on April 28, 1975.

The Commission finds: (1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) Good cause exists to permit the intervention of Northern.

The Commission orders: (A) The request of McCulloch for temporary authorization to immediately commence the proposed sale at the contract rate pending the final determination of the applicable just and reasonable rate is denied.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 14, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), Docket No. C175-559 is set for the purpose of hearing and disposition.

(C) A public hearing on the issues presented by the application herein shall be held commencing on June 17, 1975, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(E) McCulloch and any intervenor in support of the petition shall file their direct testimony and evidence on or before May 30, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(F) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on a date to be fixed by the Administrative Law Judge. All such testimony and evidence shall be served upon the Administrative Law Judge, and all other parties to this proceeding.

(G) All rebuttal testimony and evidence shall be served on a date to be fixed by the Administrative Law Judge. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Administrative

Law Judge, the Commission Staff, and all other parties to this proceeding.

(H) The above-named petitioner is permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; *Provided, however*, That the participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further*, That the admission of such interest shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding; and, *Provided, further*, That such intervenor shall accept the record as it has been established in this proceeding to date.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13556 Filed 5-22-75; 8:45 am]

[Docket No. RP75-96]

# MICHIGAN WISCONSIN PIPE LINE CO. Order

MAY 19, 1975.

On April 30, 1975, Michigan-Wisconsin Pipe Line Company (Mich-Wis) tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1 and First Revised Volume No. 2.<sup>1</sup> The proposed changes, Mich-Wis states, will result in increased charges to jurisdictional customers in the amount of \$65,992,505 per year, based on a test period of 12 months ended January 31, 1975, as adjusted for known and measurable changes through October 31, 1975. Mich-Wis requests that the subject increase be permitted to become effective on June 1, 1975.

Public notice of Mich-Wis' filing was issued on May 8, 1975, with comments, protests and petitions to intervene due on or before May 21, 1975.

Mich-Wis contends that the increased charges contained in the instant filing are necessitated by an increased cost of capital, an increased depreciation rate, increased costs associated with the acquisition of gas supplies, a reduction in sales, and increased costs of labor, supplies and other operation expenses. The proposed increase represents an overall rate of return of 10.75 per cent, including return on common equity of 13.7 per cent, according to the company.

Mich-Wis' filing reflects, *inter alia*, the sum of \$11,265,490 representing interest reimbursement to producers under the category of "Adjustments to Actual Operating Expenses." The Commission has

<sup>1</sup> The proposed revision to Second Revised Volume No. 1 is designated Tenth Revised Sheet No. 27F. The proposed revisions to First Revised Volume No. 2 are designated Sixth Revised Sheet Nos. 92, 110, 129, and 130; Fifth Revised Sheet Nos. 141, 142, and 171; Third Revised Sheet Nos. 214 and 215; Second Revised Sheet Nos. 231, 232, 297, 315, and 399; and First Revised Sheet Nos. 420 and 421.

allowed payments to producers before delivery of gas, but only under certain, prescribed conditions.<sup>2</sup> The payments which Mich-Wis has included in the instant filing do not meet the requirements of our advance payment regulations and accordingly must be rejected.<sup>3</sup> The purpose of our advance payment programs has been to assist the producers in capital formation in order to stimulate exploration, development, and production for the interstate market. (Order No. 441, 46 FPC 1178 at 1180). These programs are not intended to provide that jurisdictional rate payers pay interest through pipeline rates on capital which the producer is demonstrably able to acquire. It is apparent by the nature of these agreements that the producers do have the ability to acquire the capital associated with the projects. Therefore, Mich-Wis' proposed rate treatment of these interest reimbursement payments to producers must be rejected as inconsistent with the requirements and intent of our outstanding advance payment rulemaking orders. Further, we believe it more appropriate to consider the viability of such proposals in the context of any future rulemaking extending the present advance payment program.

Based on our review of Mich-Wis' proposed rate increases, including the documents, information and studies submitted therewith as required by the Commission's regulations, we find that the requested increase may be excessive or otherwise unlawful under the Natural Gas Act. Accordingly, we shall suspend the use of the proposed rates for five months until November 1, 1975, subject to the terms and conditions of this order.

We note that the rate design included in the instant filing reflects the unmodified Seaboard method of cost classification and cost allocation.

In Opinion No. 871 we expressed our concern over the worsening gas supply situation and particularly as it existed on United's system. Based upon the record in that case we concluded that more weight should be given to annual use of United's pipeline system than is characteristic of the unmodified Seaboard methodology. Therefore, we assigned 75 percent of fixed costs to the commodity component of two-part rates and to the straight-line rates. Part of our rationale was that in view of the gas supply shortage, low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed.

In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on the Mich-Wis system, all parties to this proceeding should direct their attention, and file any evidence they wish to submit, as to the propriety of the continued use of the Seaboard method of cost classification and cost allocation.

Order Nos. 410, 410-A, 441, 465, 499.

<sup>2</sup> See Accounts 165 and 166 in Part 201 of the Commission's Regulations Under the Natural Gas Act.

tion and allocation, as well as to the propriety of Mich-Wis' rate design proposed herein. Further, we urge all parties to suggest alternative methods of cost classification, allocation and rate design which they believe may more closely reflect or implement the Commission's objectives in this area.<sup>4</sup> In this connection we refer the parties to our recent rulemaking Docket No. RM75-19 issued February 20, 1975.

We note that Mich-Wis has included in the tariff sheets proposed herein costs associated with \$35.7 million of non-certificated storage and gathering facilities. Should these facilities not be constructed and in service by the end of the suspension period ordered herein, we shall require Mich-Wis to amend its filing to reflect exclusion of these costs.

We note further that Mich-Wis has included in the tariff sheets proposed herein approximately \$46.4 million of Construction Work in Progress (CWIP) as a rate base item. While there is currently pending a proposed rulemaking which, if adopted, would permit inclusion in rate base of certain amounts expended for CWIP,<sup>5</sup> our presently-existing regulations specifically exclude from rate base plant in process of construction.<sup>6</sup> Therefore, we shall provide that if the facilities presently represented by such CWIP amounts are not certificated and in service on the date the proposed rates take effect, subject to refund, Mich-Wis shall file substitute tariff sheets including rates which reflect only those facilities which are certificated and in service as of that date.

The Commission finds: (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Mich-Wis' FPC Gas Tariff, as proposed to be amended in Docket No. RP75-96, and that the tendered tariff sheets be accepted for filing as hereinafter conditioned and suspended as hereinafter provided.

(2) Certain portions of Mich-Wis' proposed filing must be rejected for failure to comply with Commission regulations and orders, specifically, those portions which reflect the \$11,265,490 of interest reimbursement payments to producers and that portion representing plant that will not be certificated and in service before November 1, 1975.

The Commission orders: (A) Mich-Wis' tariff sheets proffered in Docket No. RP75-96 are accepted for filing and suspended for the full statutory period of five months until November 1, 1975, subject to the terms and conditions of this order.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4

<sup>4</sup> See Footnote 3 in our order of May 31, 1974, in *Columbia Gas Transmission, et al.*, Docket Nos. RP74-82 and RP74-81.

<sup>5</sup> See "Notice of Proposed Rulemaking", issued November 18, 1974, in Docket No. RM75-18.

<sup>6</sup> See Section 154.63(f) (Schedule C-1).

and 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held on October 28, 1975, at 10 a.m., prevailing time, in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classification, and services contained in Mich-Wis' FPC Gas Tariff, as proposed to be amended herein.

(C) On or before September 16, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors shall be served on or before September 30, 1975. Company rebuttal shall be served October 14, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's rules and regulations.

(E) Pending hearing and a decision thereon, the subject tariff sheets tendered by Mich-Wis are suspended for five months, the use thereof deferred until November 1, 1975, or until such further time as they are made effective in the manner prescribed by the Natural Gas Act, subject to the condition that before November 1, 1975, Mich-Wis shall file substitute rates to be effective November 1, 1975, reflecting the elimination from its proposed rates of costs associated with the \$11,265,490 interest reimbursement payments to producers reflected in the instant filing; and subject to the further condition that before November 1, 1975, Mich-Wis shall file substitute tariff sheets reflecting exclusion of costs included in Mich-Wis' proposed rates which are associated with facilities which have not been certificated and placed in service as of November 1, 1975.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. RP75-90]

# NATURAL GAS PIPELINE COMPANY OF AMERICA

## Order Denying Petition and Granting Intervention

MAY 16, 1975.

On April 15, 1975, Natural Gas Pipeline Company of America (Natural) filed a Petition for Order Permitting Periodic Adjustment of Rates (Petition) in order that Natural be able to recover costs associated with payments made or to be made to Exxon Company, U.S.A. (Exxon). These payments are pursuant to agreements with Exxon and relate to Ex-

## NOTICES

xon's interest in gas in the Prudhoe Bay Area and Offshore Gulf of Mexico.

Notice of this petition was issued April 21, 1975. To date, various petitions to intervene and notices of intervention have been filed, either supporting the petition, or requesting formal hearing.<sup>1</sup>

Natural's Agreements provide that Natural shall have the exclusive right to negotiate for purchase of 20% of Exxon's interest in gas reserves in the Prudhoe Bay Area and a continuing option to purchase 20% to 40% of Exxon's interest in gas reserves in the Gulf of Mexico. As consideration for this right, Natural has agreed to make semi-annual payments of the interest expense Exxon would incur if it borrowed funds to finance the exploration, development and production costs in the Prudhoe Bay and Gulf of Mexico areas.

With regard to the Gulf of Mexico area, Natural has also agreed to modify its existing gas purchase contracts to include excess royalty, deregulation, national and area rate, and Btu adjustment provisions. Exxon has further agreed to undertake a \$4 million work program in fields currently attached to Natural's system.

Natural seeks to reflect the payments to Exxon by a semi-annual adjustment to its rates pursuant to tracking provisions in tariff sheets filed together with the Petition.<sup>2</sup>

Natural asserts that this proposal is consistent with the objectives of Order No. 499.

However, the purpose of our advance payment programs has been to provide additional capital for producers in order to stimulate exploration, development, and production for the interstate market.<sup>3</sup> These programs are not intended to provide that jurisdictional ratepayers pay interest through pipeline rates on capital which the producer is demonstrably able to acquire. It is apparent from the nature of these agreements that Exxon does have the ability to acquire the capital associated with these projects. Therefore, the agreements and Northern's petition are not consistent with the objectives of Order No. 499. Further, we believe it more appropriate to consider the viability of proposals such as that raised by the instant pleading in the context of any future rulemaking extending the present advance payment program. We shall, accordingly, deny the petition and reject the tendered tariff sheets.

*The Commission finds:* (1) It is necessary and proper in the public interest and in the administration of the Natural Gas Act that Natural's petition be denied.

(2) Good cause exists to grant the intervention of the above named petitioners.

*The Commission orders:* (A) Natural's petition in the instant docket is hereby denied.

<sup>1</sup> See Appendix A.

<sup>2</sup> Original Sheet Nos. 143, 144 and 145.

<sup>3</sup> Docket No. R-411, Order of Clarification and Denial of Rehearing or Modification, issued February 27, 1973.

(B) The above named petitioners are hereby permitted to intervene.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. CP75-16, etc.]

## NATURAL GAS PIPELINE COMPANY OF AMERICA, ET AL.

## Denial of Postponement of Conference

MAY 16, 1975.

In the matter of Natural Gas Pipeline Company of America, Docket No. CP75-16; Texas Offshore Pipeline System, Inc., Docket No. CP75-81; Amtex Offshore Pipe Line Company, Docket No. CP75-104.

On May 8, 1975, the Commission gave Notice of the convening of a public informal conference on May 22, 1975, between Staff, Applicants and persons who have filed petitions to intervene in Docket Nos. CP75-16, CP75-81 and CP75-104, which involve apparent competitive applications, to explore the possibility and feasibility of construction of, *inter alia*, a single project with appropriate transmission arrangements made for the other Applicants.

By letter dated May 14, 1975, Natural Gas Pipeline Company of America (Natural) requested that the Commission delay the conference, ostensibly to permit Natural to complete an unspecified reevaluation of its programs to obtain gas from offshore Texas. In response to Natural's request, Michigan Wisconsin Pipe Line Company filed on May 15, 1975, its opposition to any postponement of the conference based upon its view of the urgent need for offshore Texas gas and the escalation in construction costs which would accompany further delay.

Upon review of the submissions made to the Commission as well as the facts underlying the prompt scheduling of the conference, there does not appear to be sufficient cause shown in Natural's request to warrant reversal of the Commission's efforts to expedite these proceedings. Accordingly no good cause is found upon which to grant Natural's request for delay of the May 22, 1975, public informal conference.

It should be noted with respect to the foregoing that the purpose of the public informal conference is to initiate a meaningful dialogue on, among other issues, the apparent competitive problems in this matter and that such timely first step will not foreclose further input from Natural

on its current offshore Texas program reevaluation.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP75-89]

## NORTHERN NATURAL GAS CO.

## Order

MAY 16, 1975.

On April 11, 1975, Northern Natural Gas Company (Northern) tendered for filing proposed changes in its FPC Gas Tariff.<sup>1</sup> The change provides for an average increase of 12.72¢ per Mcf, for an annual increase in jurisdictional revenues of \$69,172,745 based on the twelve months ended December 31, 1974, as adjusted.

Notice of this filing was issued April 18, 1975, with comments, protests, or petitions to intervene due on or before May 1, 1975. Several of Northern's customers and other interested parties have filed petitions to intervene.<sup>2</sup> Northern requested an effective date of May 27, 1975, for the proposed increase.

Northern's increase relates to sales in Northern's principal market area as well as to field sales in areas south of its principal market area. Northern also proposes a new rate schedule, Rate Schedule E-1, to provide for sale of gas to certain gas utility customers during emergency situations. The rates for this service are based on rates under two other rate schedules, the Pipeline Overrun and the Authorized Overrun Service, plus 50¢ per Mcf.

The proposed increase is based on diverse factors, including increases in the cost of new gas supplies, increases in costs of certain LNG and other storage facilities, loss of revenues from reduced interruptible sales, and an increase in the overall rate of return and in the annual depreciation rate.

Included within the increase in the cost of obtaining new gas supplies are costs associated with certain agreements between Northern and Exxon Company, U.S.A., respecting Exxon's interests in gas in the Prudhoe Bay and Offshore Gulf of Mexico areas. These agreements provide that Northern make interest payments instead of advance payments. These agreements are inconsistent with the purpose of our advance payments programs, which are to provide needed capital for exploration, development, and production for the interstate market and not to relieve producers of interest payments when they can already obtain the capital.<sup>3</sup> Furthermore, we believe it more appropriate to consider the viability of such proposals in the context of any future rulemaking extending the present

<sup>1</sup> Eighth Revised Sheet No. 1, Seventh Revised Sheet No. 4a, Original Sheet No. 4b, and Original Sheets No. 45, 46, 47, and 48 to Third Revised Volume No. 1; Seventh Revised Sheet No. 1c to Original Volume No. 2.

<sup>2</sup> See Appendix A.

<sup>3</sup> Docket No. R-411, Order of Clarification and Denial of Rehearing or Modification, issued February 27, 1973.

advance payment program. Accordingly, we shall accept these tariff sheets on the condition that Northern file revised tariff sheets eliminating the impact of these costs.

Northern has applied the entire increase herein to the commodity component of its jurisdictional rates. As a result of this application, Northern states that 75.2% of its fixed costs will be recovered from the commodity component of its rates, with the remaining 24.8% of fixed costs to be recovered in the demand component of the rates. We believe that the parties should address Northern's proposed rate design, as well as any other methods of rate design, including our proposal related to End Use Rate Schedules<sup>4</sup> to provide a complete record upon which our decision can be made in this regard.

Rate Schedule E-1 provides for sales of volumes of gas not otherwise available under Northern's other rate schedules. This rate schedule is for service which Northern has no certificate authority to provide. Accordingly, we shall reject the tendered tariff sheets containing Rate Schedule E-1.<sup>5</sup>

Northern's filing also includes in rate base certain amounts of construction work in progress. These amounts relate in part to facilities for which a certificate application has been filed.<sup>6</sup> \$154.63 of our regulations require that facilities must be certificated and in service to be included in rate base. We have not yet adopted our proposed rulemaking, notice of which was issued in Docket No. RM75-13<sup>7</sup>, relating to the inclusion of construction work in progress in rate base. We accordingly provide that if the facilities included in rate base are not certificated and in service by October 27, 1975, Northern shall file revised tariff sheets to become effective October 27, 1975, reflecting the elimination of these amounts from its rate base.

Our review of the changes in rates filed herein otherwise indicates that the proposed rates have not been shown to be just and reasonable. We shall therefore accept those sheets for filing and suspend them for the full statutory period, when they will be permitted to become effective, subject to refund. We shall also provide for an evidentiary hearing to test the lawfulness of the proposed rates.

*The Commission finds:* (1) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act to enter upon a hearing as to the lawfulness of Northern's proposed changes as accepted and conditioned herein.

(2) The proposed changes in Northern's FPC Gas Tariff should be accepted for filing and suspended for five months, until October 27, 1975, or until they are made effective in the manner provided

<sup>4</sup> Notice of Proposed Rulemaking with Request for Comments, Docket No. RM75-19, issued February 20, 1975.

<sup>5</sup> Sheet Nos. 4b, 45, 46, 47, and 48.

<sup>6</sup> Docket Nos. CP75-229 and CP75-280.

<sup>7</sup> Issued November 14, 1974.

## NOTICES

under the Natural Gas Act, subject to refund, all as conditioned and ordered herein.

(3) Good cause exists to permit the intervention of the above mentioned petitioners.

(4) Good cause exists to reject proposed Rate Schedule E-1.

(5) Good cause exists to grant waiver of § 154.63(e)(2)(ii) of the regulations as hereinafter ordered and conditioned.

*The Commission orders:* (A) Pending hearing and decision thereon, Northern's proposed tariff sheets filed in the instant docket are hereby accepted for filing and suspended for five months and the use thereof deferred until October 27, 1975, or until such time as they are made effective in the manner provided in the Natural Gas Act, subject to refund, all as hereinafter ordered and conditioned.

(B) Pursuant to the authority of the Natural Gas Act, particularly Sections 4 and 5 thereof, the Commission's rules and regulations (18 CFR, Chapter I), a hearing for purposes of cross examination concerning the lawfulness and reasonableness of the proposed changes in the rates and charges in Northern's FPC Gas Tariff, shall be held on October 21, 1975, at 10 a.m., e.d.t. in a hearing room of the Federal Power Commission, 225 North Capitol Street, N.E., Washington, D.C. 20426.

(C) On or before September 9, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any Intervenor testimony and exhibits will be served on or before September 23, 1975. Company rebuttal evidence, if any, will be served on or before October 7, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(E) Within thirty days of the issuance of this order, Northern shall file revised tariff sheets reflecting elimination of the rate effect of its agreements with Exxon, U.S.A.

(F) Those tariff sheets containing Rate Schedule E-1 are hereby rejected.

(G) The subject tariff sheets are accepted for filing and suspended provided, however, that in the event that the facilities included in rate base are not certificated and in service by October 27, 1975, Northern shall file revised tariff sheets to become effective October 27, 1975, reflecting elimination of these amounts from its rate base.

(H) Waiver of § 154.63(e)(2)(ii) is hereby granted subject to the foregoing condition.

(I) The above mentioned petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission; Provided, however, that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene; and Provided, further, that the admission of such intervenors shall not be construed as recognition that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(J) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

## NORTHEAST BLANCO DEVELOPMENT CORP.

## Order Permitting Movant To Become Co-Petitioner

MAY 19, 1975.

On April 14, 1975, Blackwood & Nichols Co., Ltd. (Blackwood & Nichols) filed a motion to be substituted, insofar as its interest is concerned, for Northeast Blanco Development Corp. (Blanco) in the captioned proceedings. By assignment, dated March 24, 1975, effective March 1, 1975, Blanco assigned its interest in certain leases covered by Blanco's FPC Gas Rate Schedule No. 1, which are involved in this proceeding, to Blackwood & Nichols.

Consequently, we find that good cause exists to allow Blackwood & Nichols to become a co-petitioner in this proceeding.

*The Commission orders:* Blackwood & Nichols is hereby deemed to be a co-petitioner in Docket No. RI75-166; Provided, that Blackwood and Nichols shall take the record in this proceeding as it now stands.

By the Commission.

[Docket No. C175-656]

**PERMIAN CORP.**

**Application**

MAY 16, 1975.

Take notice that on May 8, 1975, The Permian Corporation (Applicant), P.O. Box 1183, Houston, Texas 77001, filed in Docket No. C175-656 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a sale of natural gas in interstate commerce to El Paso Natural Gas Company (El Paso) from production by Bill J. Graham in the Susita Field, Crockett County, Texas, all as more fully set forth in the application on which is on file with the Commission and open to public inspection.

Applicant proposes to abandon the sale of gas to El Paso at 25 cents per Mcf (14.65 psia) from the Susita Field which has been made pursuant to Applicant's FPC Gas Rate Schedule No. 3.<sup>1</sup> Applicant

<sup>1</sup> As other sales of gas are made by Applicant pursuant to its FPC Gas Rate Schedule No. 8, the proposed abandonment is a partial abandonment.

shows as its reason for the proposed abandonment that its gas supplier for the subject sale to El Paso, Bill J. Graham, is terminating his sale to Applicant.<sup>2</sup> The application indicates that Bill J. Graham is abandoning his percentage-type sale to Applicant because such sale is no longer economical.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. E-8586; E-8587]

**PUBLIC SERVICE COMPANY OF INDIANA**

**Order Denying Reconsideration**

MAY 16, 1975.

On April 16, 1975, the Indiana Municipal Electric Association and 24 Cities and towns in the State of Indiana (collectively the IMEA Cities), pursuant to section 313(a) of the Federal Power Act and § 1.34 of our regulations thereunder, applied for rehearing of an order issued March 17, 1975, in the above-captioned proceedings. In that order we affirmed the ruling of the Presiding Administrative Law Judge to strike from evidence the testimony and exhibits of IMEA Cities' witness Professor John M. Kuhlman. IMEA Cities request us, upon rehearing, to order the record in these proceedings re-opened for the purpose of receiving into evidence the subject items for consideration by the Presiding Judge in reaching his initial decision.

Section 1.34 specifies that applications for rehearing must relate to final decisions or orders of the Commission. The order here complained of its interlocutory and purely procedural in nature. Accordingly, we must dismiss IMEA Cities' application for rehearing as improvidently taken. Consistent with our established practice in such circumstances, however, we shall treat said filing as a motion for reconsideration of our March 17, 1975 order. Pursuant to § 1.12(c) of our regulations, we therefore accept for consideration the responsive pleadings filed on April 30, 1975 and May 1, 1975 by the Public Service Company of Indiana (PSCI) and the Hoosier Energy Division of the Indiana Statewide Rural Electric Cooperative, Inc. (Hoosier), respectively.

PSCI tendered proposed revisions to its municipal tariff on January 8, 1974. IMEA Cities petitioned to intervene in the proceedings on January 28, 1974, and requested the Commission to reject the proposed increase as violative of the antitrust laws and the Federal Power Act. In an order issued March 7, 1974, we accepted the tendered rate increase, suspended it for five months, granted intervention to IMEA Cities, and set the matter for hearing. With respect to IMEA Cities, we noted that the anticompetitive allegations which they raised in their petition had arisen from the same factual background and involved the

same parties then the subject of proceedings before the Commission in Docket Nos. E-7638 and E-7647.<sup>1</sup> We deemed it advisable to avoid duplicate litigation of the antitrust issues and, accordingly, ordered them removed from consideration in the instant proceedings.

In the course of hearing, IMEA Cities produced witness Kuhlman, whose prepared testimony was originally transcribed into the record at Tr. 1320-1344. In his presentation he made reference to two interconnection agreements marked for identification as Exhibits 34 and 35. These are described in detail in the first footnote in our order of March 17, 1975. The testimony and exhibits were challenged by the Commission Staff, PSCI, and Hoosier. After considering oral comments and subsequently filed briefs supporting and opposing the admissibility of the subject evidence, the Presiding Judge determined to strike said evidence in accordance with our March 7, 1974, severance of antitrust issues from these proceedings. Upon review of his certified ruling in this regard, we upheld the result, although we based our decision upon what we found to be a lack of relevancy in the subject evidence.

Upon a thorough review of Professor Kuhlman's testimony, and after having given thorough consideration to IMEA Cities' application, we conclude that we must deny the application for rehearing. Professor Kuhlman's testimony clearly presents as the principal issue the authority of the Commission to establish hypothetical rates not based on actual service. Professor Kuhlman's testimony puts forth the issue of the authority of the Commission to establish

... those rates which would have prevailed in the absence of such anti-competitive practices and which would have been established through competitive bargaining between the seller of bulk power and the buyers of bulk power with the latter having an unimpeded and unrestricted power to exercise their alternatives. (Professor Kuhlman's testimony at page 25.)

We stated in our March 17, 1975 order, and we now reaffirm our view, that the Federal Power Act does not authorize the Commission to establish rates for service which is not provided, that is rates for service which is only hypothetical or speculative.<sup>2</sup> Similarly we do not have the authority to order rate reparations for antitrust violations, if found. Claims for any damages which may have been incurred by IMEA Cities due to antitrust violations must be pursued in the appropriate court under the antitrust laws.

With respect to future relief from any anticompetitive violations, we note, as we did in our March 17, 1975 order, that anticompetitive issues are presently the

<sup>1</sup> Currently on remand to the Commission in City of Huntington, Indiana v. F.P.C., 498 F.2d 778 (D.C. Cir. 1974).

<sup>2</sup> We would therefore be precluded from fixing as the rates to IMEA Cities those rates which Hoosier would have charged had Hoosier been able and willing to offer service to IMEA Cities during the period in question.

subject of our consideration in Docket Nos. E-7638 and E-7647 involving PSCI. We intend to pursue those issues in that consolidated proceeding.

In their application for rehearing, however, IMEA Cities present a new approach. The Cities, in arguing that the testimony should be admitted, state

Just as the rates should be appropriately adjusted under Section 206 of the Act when they are found to have been adversely affected by anti-competitive factors, a filing under section 205 of unduly discriminatory rates caused by anti-competitive factors must likewise be remedied as of the date the increased rates were first placed into effect. (Cities' application, at 3.)

Cities further state that the Commission has both the authority and the obligation to consider antitrust allegations and "to make its remedy effective as of the date the rates were put into effect subject to refund". (Cities' application, at 3.)

We have not, and do not here, dispute this argument. We have not, by our action in this proceeding, denied our authority or obligation to consider antitrust allegations. We have merely found the proper forum for the allegations to be another pending proceeding. With respect to our rate relief authority, by refusing Cities' allegations of any reparation authority, we have consistently and implicitly held that we do have the authority to remedy undue discrimination from the date the rates were placed into effect subject to refund.

If such relief is the relief requested by Cities, and if the authority of the Commission to grant such relief is the actual issue presented, as Cities' most recent pleading clearly indicates, we must reaffirm our previous order and deny the admission into evidence of Professor Kuhlman's testimony on the grounds of lack of relevancy. As earlier indicated, both in this order and in our March 17, 1975 order, Professor Kuhlman's testimony is directed to the issue of the Commission's authority to set as proper rates the rates which would have existed if Cities had been afforded alternatives. This testimony is not directed to, and presents no relevant evidence on the principal issue now expounded by Cities—that it is entitled to the same rates as presently offered Hoosier. Because Professor Kuhlman's proffered testimony is clearly irrelevant to the testimony necessary to support Cities' newly advanced issue of relief we must reaffirm our prior affirmation of exclusion and deny Cities' application for rehearing. This action is required both by the provisions of our own Rules of Practice and Procedure<sup>3</sup> and by the provisions of the Administrative Procedure Act.<sup>4</sup>

<sup>3</sup> Section 1.26(a) of the Commission's rules of practice and procedure provides in part: In any proceeding before the Commission or a presiding officer relevant and material evidence shall be admissible . . . (emphasis supplied).

<sup>4</sup> Section 7(c) of the Administrative Procedure Act provides in part: Any oral or documentary evidence may be received, but

Because we find that the proffered testimony should be excluded on the basis of lack of relevancy we conclude that Cities' citation of the Conway decision<sup>5</sup> to be unpersuasive. We note moreover that the Conway case did not involve the issue of rate discrimination due to a foreclosure of alternate supply sources but involved the issue of "price squeeze", an issue not raised in the instant proceeding. Furthermore, the U.S. Court of Appeals for the D.C. Circuit has stayed the mandate in that decision until June 25, 1975 upon motion of this Commission to allow time to seek certiorari. Consequently, that decision is not yet final.

The Commission finds: IMEA Cities' April 16, 1975 request for reconsideration of our March 17, 1975 order affirming the Presiding Judge's exclusion from evidence of the proffered testimony and exhibits of Professor Kuhlman presents no new grounds or issues which would warrant grant of reconsideration.

The Commission orders: (1) IMEA Cities' request for reconsideration is hereby denied.

(2) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13564 Filed 5-22-75; 8:45 am]

[Project No. 1894]

**SOUTH CAROLINA ELECTRIC & GAS CO.  
Application for Divergence From Approved  
Exhibit To Use Borrow Area**

MAY 16, 1975.

Public notice is hereby given that an application for divergence from an approved exhibit to use a borrow area above the high water mark of the Monticello Reservoir was filed on April 4, 1975, under the Federal Power Act (16 U.S.C. 791a-824r) by South Carolina Electric and Gas Company (Applicant) (Correspondence to: Mr. V. C. Summer, Senior Vice President, South Carolina Electric & Gas Company, P.O. Box 764, Columbia, South Carolina 29202) for the Farr Project No. 1894, located on the Broad River in Fairfield and Newberry Counties, South Carolina, and affecting lands of the United States within the Sumter National Forest. Applicant requests Commission approval to use a 34-acre area above the high water mark of the Monticello Reservoir to obtain 950,000 cubic yards of borrow material for the construction of dams to create the Monticello Reservoir.

Applicant had previously in its Exhibit V stated that it intended to take borrow material from the cleared Mon-

every agency shall as a matter of policy provide for the exclusion of irrelevant, immaterial or unduly repetitious evidence. . . . (emphasis supplied).

<sup>5</sup> Conway Corp. v. F.P.C., — F.2d — (D.C. Cir. No. 73-2207, decided April 4, 1975).

ticello Reservoir. This statement was approved and made a part of the license for this project. Applicant now states that, while there is sufficient borrow material within the reservoir area, a savings of \$250,000 can be achieved by obtaining a portion of the borrow material needed from the 34-acre area.

The proposed borrow area is located adjacent to Dam "A" in Fairfield County and, more specifically, is located within the N. 483,000, N. 487,000, E. 1,898,000, and E. 1,900,000 State Grid System Coordinates. Applicant states that no United States lands or lands owned by the State of South Carolina would be affected. Applicant further states that no residences, cemeteries, historical, or archaeological sites would be affected. Finally, Applicant states that the borrow area will be terraced and graded to the satisfaction of the U.S. Department of Agriculture, Soil Conservation Service. Applicant would then cover the area with the original topsoil and plant the area with a ground cover recommended by the South Carolina Department of Wildlife and Marine Resources. Because of the fact that matters related to the construction of new capacity are being considered, a shortened notice period is appropriate.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act (16 U.S.C. 825g, 825h) and the Commission's rules of practice and procedure, specifically § 1.32(b) (18 CFR 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of § 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or ini-

tial pleader to appear or be represented at the hearing before the Commission.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP75-84]

#### SOUTHERN NATURAL GAS CO.

##### Order

MAY 15, 1975.

On March 31, 1975, Southern Natural Gas Company (Southern) tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1. The proposed changes are based on the 12-month period ending December 31, 1974, as adjusted, and would increase jurisdictional revenues by \$91,080,244. Notice of Southern's filing was issued on April 7, 1975 with protests and petitions to intervene due on or before April 25, 1975. The proposed effective date is May 16, 1975.

Southern states that the principal reasons for the proposed rate increase are to reflect (1) an increase in the overall rate of return to 10.69%; (2) an increase in the book depreciation rates to 8.5% for Southern's supply system and 5.25% for Southern's transmission and storage system; (3) to adjust Southern's plant for Construction Work in Progress (CWIP); (4) to reflect increased operation and maintenance expenses, including \$12.0 million of interest reimbursement advances to producers and increases in purchased gas costs and expenses for gas from Company-owned production and from independent producers; and (5) to reflect increased levels of advance payments to producers.

Southern states that CWIP is included in rate base in light of proposed rulemaking in Docket No. RM75-13. We have not yet ruled on the merits of the proposed rulemaking at Docket No. RM75-13, therefore, it is premature to assume its adoption. The Commission's present Regulations, Section 154.63, requires that plant included in the rate base at the time of filing must be certified. In addition, such plant must be in service by the end of the test period. Southern has not conformed with these requirements and therefore, we will reject the filing insofar as it reflects inclusion in rate base of any facilities not certified and in service at the end of test period.

As noted above Southern's filing also reflects \$12.0 million of interest reimbursement to producers under the category of operating and maintenance expenses. The Commission has allowed payments to producers before delivery of gas, but only under certain, prescribed conditions. The payments which Southern has included in the instant filing do not meet the requirements of our advance payment regulations and accordingly must be rejected. The purpose of

\* Thirteenth Revised Sheet No. 4A.

\* Order Nos. 410, 410-A, 441, 465, 499.

our advance payment programs has been to assist the producers in capital formation in order to stimulate exploration, development, and production for the interstate market. (Order No. 441, 48 FPC 1178 at 1180.) These programs are not intended to provide that jurisdictional rate payers pay interest through pipeline rates on capital which the producer is demonstrably able to acquire. It is apparent by the nature of these agreements that the producers do have the ability to acquire the capital associated with the projects. Therefore, Southern's proposed rate treatment of these interest reimbursement payments to producers must be rejected as inconsistent with the requirements and intent of our outstanding advance payment rulemaking orders. Further, we believe it more appropriate to consider the viability of such proposals in the context of any future rulemaking extending the advance payment program.

We note that the rate design included in Southern's filing reflects the unmodified *Seaboard* method of cost classification and cost allocation.

In Opinion No. 671 we expressed our concern over the worsening gas supply situation and particularly as it existed on United's system. Based upon the record in that case we concluded that more weight should be given to annual use of United's pipeline system than is characteristic of the unmodified *Seaboard* methodology. Therefore, we assigned 75 percent of fixed costs to the commodity component of two-part rates and to the straight-line rates. Part of our rationale was that in view of the gas supply shortage, low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed.

In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on the Southern system, all parties to this proceeding should direct their attention, and file any evidence they wish to submit, as to the propriety of the continued use of the *Seaboard* method of cost classification and allocation, as well as to the propriety of Southern's rate design proposed herein. Further, we urge all parties to suggest alternative methods of cost classification, allocation and rate design which they believe may more closely reflect or implement the Commission's objectives in this area. In this connection we refer the parties to our recent rulemaking Docket No. RM75-19 issued February 20, 1975.

Numerous petitions to intervene have been received. (See Appendix A). Good cause exists to grant all these petitions.

\* See Accounts 165 and 166 in Part 201 of the Commission's Regulations Under the Natural Gas Act.

[Docket Nos. CI75-45, et al.]

#### TENNECO OIL COMPANY, ET AL. Order Consolidating Proceedings and Prescribing Service of Evidence

MAY 16, 1975.

By order issued April 14, 1975, the Commission, *inter alia*, consolidated a number of proceedings in Docket No. CI75-45, et al., granted petitions to intervene, ordered a formal hearing to convene on May 19, 1975, and prescribed procedures to be followed therein.

Subsequent to the issuance of the Commission's April 14, 1975, order, Trunkline Gas Company (Trunkline) filed an application in Docket No. CP75-330, seeking a certificate of public convenience and necessity authorizing the transportation of certain volumes of gas for two groups of producers. These groups include Placid Oil Company, Hunt Industries, Hunt Petroleum Corporation, Hamilton Brothers Oil Company, Hamilton Brothers Exploration Company, Hamilton Brothers Petroleum Corporation (Placid Group) and Ashland Oil, Inc., Highland Resources, Inc. and Kewanee Oil Company (Ashland Group). This application also involves the transportation of offshore reserves from South Marsh Island Blocks 268, 269 and 281. The gas to be transported will be received in a common stream with other gas purchased by Trunkline from other producers and will be transported through facilities requested by Trunkline in Docket No. CP75-19. On May 7, 1975, Trunkline filed a motion requesting the Commission to consolidate the above referenced docket with Docket No. CP75-19.

The Commission in considering Trunkline's motion has taken note of the relationship of the issues contained in the instant proceeding to those set forth in Docket No. CP75-19, which has been consolidated, with other dockets, into Docket No. CI75-45, et al., and has determined that a sufficiently direct relationship exists to warrant the consolidation of this docket with Docket No. CI75-45, et al.

*The Commission finds:* The proceeding involved in Docket No. CP75-330 contains common questions of law and fact with the proceedings in Docket No. CP75-45, et al., consequently, good cause exists to consolidate this proceeding with Docket No. CP75-45, et al.

*The Commission orders:* (A) The proceeding involved in Docket No. CP75-330 is hereby consolidated with the proceedings in Docket No. CP75-45, et al., for purposes of hearing and decision.

(B) Applicants and persons in support of the application in Docket No. CP75-330 shall serve prepared testimony in support thereof, including prepared testimony of witnesses and exhibits, on the Office of the Administrative Law Judge, the Commission's Staff, and every party to this proceeding within ten days after issuance of this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13567 Filed 5-22-75; 8:45 am]

dence by CIG shall be served on or before October 10, 1975.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Pending hearing and a decision thereon Southern's tariff sheets are suspended for five months and the use thereof deferred until October 16, 1975, or until such further time as they are made effective in the manner provided in the Natural Gas Act subject to the condition that before October 16, 1975, Southern Natural shall file substitute rates to be effective October 16, 1975, reflecting the elimination from its proposed rates of costs associated with facilities not certificated and in service by that date and the \$12.0 million interest reimbursement payments to producers reflected in the instant filing.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

#### SUN OIL CO.

##### Further Extension of Procedural Dates

MAY 15, 1975.

On April 30, 1975, Sun Oil Company filed a motion to extend the procedural dates fixed by order issued February 28, 1975, as most recently modified by notice issued March 25, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Direct Testimony, June 2, 1975.

Service of Staff's Testimony, June 16, 1975.

Service of Company Rebuttal, June 23, 1975.

Hearing, June 30, 1975 (10 a.m. e.d.t.)

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13566 Filed 5-22-75; 8:45 am]

(Docket No. RP74-39-8, etc.)

TEXAS EASTERN TRANSMISSION CORP.  
ET AL

## Order

May 16, 1975.

In the matter of Texas Eastern Transmission Corporation (North Alabama Gas District), Docket No. RP74-39-8; Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (North Alabama Gas District), Docket No. RP74-91-20; Alabama-Tennessee Natural Gas Company (United States Steel Corporation), Docket No. RP75-44-3.

United States Steel Corporation (USS) owns an anhydrous ammonia manufacturing facility in Cherokee, Alabama. It uses natural gas for feedstock and to heat a catalyst in the manufacturing process.

USS purchases all of its natural gas from two sources—North Alabama Gas District (North Alabama) and Alabama-Tennessee Natural Gas Company (A-T), the latter being a jurisdictional pipeline company. North Alabama, in turn, purchases all of the volumes it sells to USS from two jurisdictional pipelines, Texas Eastern Transmission Corporation (TETCO) and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (TGP).

On March 19, 1974, North Alabama filed, in Docket No. RP74-39-8, a petition for extraordinary relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure. At the time of the filing, TETCO was the only one of USS's pipeline suppliers in curtailment. Now all three are curtailing USS at least at some times during the year.

Eight days of hearing resulted in a full record, on the basis of which we granted North Alabama's petition for relief.<sup>1</sup> On February 26, 1975, we issued an order, subsequently modified by our order of May 1, 1975, which provided that TETCO deliver to North Alabama up to the following volumes:

Prior to May 1, 1975, 14,800 Mcf per day.  
May 1, 1975 through August 31, 1976, 12,017 Mcf per day.  
On and After September 1, 1976, 7,211 Mcf per day.

In our February 26 order, we reduced the relief volumes to be provided by TETCO after May 1, 1975 in order to reflect curtailments by TGP and A-T. We stated:

Imposition of this limitation should insure that relief gas diverted from other TETCO customers will not be used to remedy curtailments imposed by other suppliers and also should encourage Ag-Chem to seek any necessary additional gas by petitioning separately for relief from Alabama-Tennessee and Tennessee, which are not parties to this proceeding. However, we will delay the imposition of this volumetric limitation until May 1, 1975, in order to give Ag-Chem sufficient time to file those petitions and to prevent a severe loss in production during March when

<sup>1</sup> Among other things, it was determined that USS requires up to 17,623 Mcf per day (at 15.025 psia) to achieve maximum output of ammonia. The plant's capacity is reduced in warmer weather.

Ag-Chem will not receive any gas from Tennessee.

On March 25, 1975, North Alabama filed, in Docket No. RP74-91-20, a petition for extraordinary relief from curtailment by TGP. The petition was supplemented by a filing of April 21, 1975. North Alabama requests that we issue an order directing TGP to deliver 1,667 Mcf per day for the use of USS. North Alabama requests that we grant its petition without a hearing.

On March 24, 1975, USS filed, in Docket No. RP75-44-3, a petition for extraordinary relief from curtailment by A-T. The petition was supplemented by filings of April 18, 1975 and May 2, 1975. USS requests that we issue an order directing A-T to deliver to it its full contract volumes, or, in the alternative, sufficient volumes to bring the total deliveries at USS to 17,623 Mcf per day. USS requested that we grant its petition without a hearing.

USS has contracts with its suppliers for the following volumes (all at 15.025 psia):

	Thousand cubic feet per day
TETCO	14,800
TGP	2,000
A-T	1,471
Interruptible	3,431
Total	21,702

Current projections of supply to USS for May 1975 through October 1975 are shown below (all volumes at 15.025 psia):

Month	Texas Eastern <sup>1</sup>	A-T <sup>2</sup>	Tennessee <sup>3</sup>	Total	Percent of 17,623	Shortfall
May	12,017	2,074	2,000	16,091	91.3	1,532
June	12,017	2,074	2,000	16,113	91.4	1,510
July	12,017	2,074	2,000	16,091	91.3	1,532
August	12,017	2,074	2,000	16,091	91.3	1,532
September	12,017	2,074	2,000	16,091	91.3	1,532
October	12,017	2,074	2,000	16,091	91.3	1,532

<sup>1</sup> Pursuant to our order of May 1, 1975, in Docket No. RP74-39-8.

<sup>2</sup> Figures taken from answer of A-T filed in Docket No. RP 75-44-3 on Apr. 18, 1975.

<sup>3</sup> Figures verified by TGP letters attached to North Alabama's supplemental petition filed Apr. 21, 1975.

USS and North Alabama request that relief from curtailments by A-T and TGP be granted without a hearing. We shall deny those requests. In our May 1 order, in Docket No. RP74-39-8, we stated "This order should not be interpreted as a pre-judgment of those petitions filed by USS and North Alabama in Docket Nos. RP75-44-3 and RP74-91-20, or as a preliminary statement that further relief is actually necessary or justified on those systems."<sup>2</sup> We believe that we must ascertain the impact upon TGP, A-T and their customers of granting relief on those systems, prior to granting the two petitions. A hearing is necessary in order to accomplish that end.

Additionally, inasmuch as the relief sought by the two petitioners is for an indefinite period of time, and inasmuch as the claim for relief rests upon petitioners' assertions of a nationwide shortage of fertilizer, we believe it necessary to place on the record a current picture of the fertilizer situation. In order to protect the interests of TETCO's customers, we shall reopen the proceedings in Docket No. RP74-39-8 for the limited purposes of taking evidence on the current status of fertilizer supply, and to update the record with regard to petitioners' success, or lack thereof, in obtaining supplemental supplies of natural gas or SNG.

We shall consolidate Docket Nos. RP74-39-8, RP74-91-20 and RP75-44-3 for the purposes of hearing and decision.

North Alabama and USS shall be required to present evidence on the following issues:

(1) The degree of severity of the ammonia and fertilizer shortages, and

\* Order Modifying Order Granting Extraordinary Relief and Denying Applications for Rehearing, mimeo at 6n.\*

particularly the current supply and demand projections by both industry and government. This evidence should include, but should not be limited to, current projections for the Spring, 1975 planting season.

(2) The current and future ability of North Alabama and USS to obtain alternate supplies of SNG and natural gas of either an interstate or intrastate nature.

Public notice of TGP's petition, and of A-T's petition was issued on April 2 and April 3, 1975, respectively, with protests and petitions to intervene in both proceedings on or before April 18, 1975. Petitions to intervene were received from the following parties:

Docket No. RP75-44-3

Tennessee Valley Authority

Docket No. RP74-91-20

Bay State Gas Company, et al.  
Columbia Gas Transmission Corporation  
General Motors Corporation  
Peoples Gas Light and Coke Company  
Brooklyn Union Gas Company

Columbia Gas Transmission Corporation, Peoples Gas Light and Coke Company and Brooklyn Union Gas Company request that a hearing be held.

The Commission finds: (1) Good cause exists to reopen the record in Docket No. RP74-39-8 for the limited purposes hereinafter ordered.

(2) Good cause exists to consolidate the proceedings in Docket Nos. RP74-39-8, RP74-91-20 and RP75-44-3 for the purposes of hearing and decision.

(3) Good cause exists to set these consolidated proceedings for formal hearing.

(4) The participation of each of the parties who filed petitions to intervene

in Docket Nos. RP74-91-20 and RP75-44-3 may be in the public interest.

The Commission orders: (A) The record in the proceedings in Docket No. RP 74-39-8 shall be reopened for the purposes of taking evidence on the current fertilizer supply situation, and to update the record regarding petitioners' success in obtaining supplemental supplies of natural gas, and for the issuance of any supplemental order in this Docket as the record may require.

(B) The proceedings in Docket Nos. RP74-39-8, RP74-91-20 and RP75-44-3 shall be consolidated for the purposes of hearing and decision.

(C) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on June 18, 1975 at 10 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the USS and North Alabama petitions.

(D) USS and North Alabama should present, *inter alia*, evidence which is relevant and material to the following issues:

(1) The degree of severity of the ammonia and fertilizer shortages, and particularly the current supply and demand projections by both industry and government. This evidence should include, but should not be limited to, current projections for the Spring, 1975 planting season.

(2) The current and future ability of North Alabama and USS to obtain alternate supplies of SNG and natural gas of either an interstate or intrastate nature.

(E) The above-named petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of this Commission: *Provided*, however, that the participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in said petitions for leave to intervene; and, *Provided*, further, that the admission of such parties as intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(F) On or before June 4, 1975, USS, North Alabama and any supporting party shall file with the Commission and serve on all parties, including Commission Staff, their testimony and exhibits in support of their positions including the two issues enumerated above.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority [18 CFR 3.5(d)]—shall preside at the hearing in this proceeding in accordance with the policies expressed in the Commission's rules

[Docket No. E-8878]

## ALLEGHENY POWER SERVICE CORP.

## Filing of Proposed Fuel Clause

MAY 19, 1975.

Take notice that Allegheny Power Service Corporation (Allegheny Power), on May 7, 1975, tendered for filing on behalf of Potomac Edison Company (Potomac Edison) proposed changes in Potomac Edison's FPC Electric Tariff, Volume No. 2. The proposed changes reflect a fuel clause provision in Potomac Edison's tariff which is filed pursuant to Order No. 517.

Potomac Edison's tendered fuel clause is proposed to be effective May 1, 1975. The applicant states that since the filing conforms to the Commission's regulations and is supported by cost-of-service data filed in Docket No. E-8878, it is not including any cost-of-service support.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before May 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9343]

COLUMBUS AND SOUTHERN OHIO  
ELECTRIC COMPANY

## Compliance Filing

MAY 19, 1975.

Take notice that on May 8, 1975, Columbus and Southern Ohio Electric Company (C&S) tendered for filing certain information which, the Company contends, will correct the deficiency in its March 27, 1975, filing in the above-referenced docket. C&S states that the following information is tendered in its May 8 filing:

(1) Test year revenue under the proposed rate schedule and FPC Order No. 517 fuel adjustment clause.

(2) Revised Statement N showing a comparison of these revenues with the test period allocated cost of service.

(3) Rationale for the derivation of the fuel adjustment base.

(4) Revised fuel adjustment clause, which indicates the manner in which our cost of fuel will be determined.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-8947]

## DELMARVA POWER &amp; LIGHT CO.

## Conference

MAY 19, 1975.

Take notice that on May 30, 1975, a conference of all parties to intervene in this proceeding, Delmarva Power & Light, and the Commission Staff will be held in the Commission's Conference Room No. 3200, at 941 North Capitol Street, NE. (the North Building), Washington, D.C. at 10:00 a.m. (e.s.t.).

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

Copies of this notice are being mailed this date to all jurisdictional customers and interested State commissions.

KENNETH F. PLUMB,  
Secretary.

Power Contract with the City of Kings Mountain.

Duke states that this contract is on file with the Commission as Duke Power Company Rate Schedule FPC No. 260.

One document has been submitted with this filing entitled Exhibit A-1. Delivery Point No. Temp. 1 and dated May 5, 1975. Exhibit A-1, according to Duke, is intended to delete Delivery Point No. Temp. 1 from the contract due to the termination of this point of delivery at the request of the customer. Attachment No. 1, states the Company, is an estimate of sales and revenues for the 12 months immediately preceding the effective date of the termination. Duke also states the service will be billed on Schedule 10, and that the Company has no other rate for similar service.

Duke proposes an effective date for the supplement as April 9, 1975, and requests waiver of the thirty day notice requirement, under paragraph 35.11 of the Commission's regulations, for the reason that the customer was unable to notify the Company thirty days prior to the actual termination of this delivery point.

Duke states that a copy of the tendered filing has been mailed to Mr. John Henry Moss, Mayor, Kings Mountain, North Carolina.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before June 2, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. E-3843]

#### HOLYOKE WATER POWER CO. AND HOLYOKE POWER AND ELECTRIC CO. Further Extension of Procedural Dates

MAY 19, 1975.

On May 9, 1975, Chicopee Electric Light Department of Chicopee, Massachusetts filed a motion to extend the procedural dates fixed by order issued August 9, 1975, as most recently modified by notice issued March 26, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's Testimony, June 18, 1975.

Service of Company, Rebuttal, June 30, 1975.

Hearing, July 15, 1975 (10 a.m. e.d.t.).

[Docket No. RP75-100]

#### INTER-CITY MINNESOTA PIPELINES, LTD., INC.

##### Tariff Rate Filing

MAY 19, 1975.

Take notice that on May 1, 1975, as supplemented on May 6, 1975, Inter-City Minnesota Pipelines, Ltd., Inc. (Inter-City) filed herein certain revised tariff sheets, together with cost of service data pursuant to § 154.63 of the Commission's regulations, and copies of its financial statements for the year ended December 31, 1974.

The above filing was submitted by Inter-City apparently as an amendment to its previous filing of December 5, 1974, in Docket No. RP73-66. However for purposes of review and disposition by the Commission, the filing will be treated as a new filing, and has been assigned FPC Docket No. RP75-100.

The filing does not indicate when the subject tariff changes are proposed to become effective, and it is assumed, therefore, for purposes of this notice, that the proposed effective date is June 1, 1975, or 30 days after filing, as prescribed by the Natural Gas Act.

While the transmittal letter does not indicate the precise nature of the filing nor its rate impact, a preliminary review of the submittal indicates that Inter-City is proposing to increase its basic sales and transportation rates.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene

<sup>1</sup> Fourth Revised Sheet No. 4 and First Revised Sheet Nos. 8, 11, and 12 to Inter-City's FPC Gas Tariff, Original Volume No. 1.

or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Inter-City's filing is on file with the Commission and available for public inspection.

KENNETH F. PLUMBS,  
Secretary.

[FR Doc. 75-13642 Filed 5-22-75; 8:45 am]

#### NATIONAL POWER SURVEY Meeting

Agenda: For a meeting of the Technical Advisory Committee on the Impact of Inadequate electric power supply to be held at the Federal Power Commission Offices, 825 North Capitol Street, NE., Washington, D.C., 10 a.m., June 10, 1975, Room 5200.

1. Meeting opened by FPC Coordinating Representative.

2. Objectives and purposes of meeting.

a. Correction and additions to minutes of previous meeting.

b. Approval of final draft of committee report.

c. Other business.

3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMBS,  
Secretary.

[FR Doc. 75-13636 Filed 5-22-75; 8:45 am]

[Docket No. CP75-269]

#### NATURAL GAS PIPELINE COMPANY OF AMERICA

##### Amendment to Application

MAY 19, 1975.

Take notice that on May 9, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-269 an amendment to its application filed in the subject docket pursuant to section 7(c) of the Natural Gas Act so as to reduce the extent of the facilities it proposes to construct, all as more fully set forth in the amendment to the application, which is on file with the

Commission and open to public inspection.

In its original application, notice of which was published in the FEDERAL REGISTER on April 4, 1975 (40 FR 15130), Applicant requests authorization to sell and deliver an additional 147,368 Mcf per day of natural gas to certain of its existing customers under Applicant's Rate Schedules WS-1 and WS-2 and to construct related facilities. Applicant states that the application further implements arrangements whereby Applicant made an advance payment to Shell Oil Company of \$40 million in return for the right to purchase natural gas produced from reserves offshore Louisiana.

In the instant filing Applicant proposes to construct 2.6 miles of 30-inch pipeline loop in lieu of the 11.94 miles it proposed in the original application. Applicant states that the proposed reduction in facilities will result in a reduction in the estimated cost of facilities from \$9,953,000 to \$5,936,000, and will avoid the proposed construction of looping pipeline in the Village of South Barrington, the Village of North Barrington and the Village of Barrington Hills, or in residential areas in proximity to these villages, in Cook and Lake Counties, Illinois.

Applicant states it is able to reduce its facilities requirements as a result of its application in Docket No. CP75-274, which was filed subsequent to the application in the instant docket. In connection with the proposal in the application in Docket No. CP75-274, Applicant would receive natural gas from Michigan Wisconsin Pipe Line Company at an existing point of interconnection of the two pipeline systems near Woodstock, Illinois, as part of an exchange agreement. Applicant states that, since Woodstock is on the north end of its system, Applicant would be able to provide the winter service proposed in the application in this docket to customers on the north end of its system from the gas redelivered at Woodstock. Gas freed by such displacement would then be used to provide the storage service proposed by Applicant in its application in Docket No. CP75-274.

Applicant further states that all other proposals in the original application in Docket No. CP75-269 remain as set forth in said original application.

Applicant states that the reduction in facilities proposed in the instant amendment to the application assumes favorable action on its application in Docket No. CP75-274, but that even if approval of the application in Docket No. CP75-274 is not received Applicant could meet the peak winter day design condition and fall short by 2 percent (6,000 Mcf per day) of meeting the peak hour day design condition.

Any person desiring to be heard or to make any protest with reference to said amendment to the application should on or before June 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10)

and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have already filed petitions to intervene or protests need not file again.

KENNETH F. PLUMBS,  
Secretary.

[FR Doc. 75-13644 Filed 5-22-75; 8:45 am]

[Docket No. CP74-41]

#### NATURAL GAS PIPELINE COMPANY OF AMERICA

##### Petition To Amend

MAY 19, 1975.

Take notice that on May 5, 1975, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74-41 a petition to amend the order of the Commission issued pursuant to section 7(c) of the Natural Gas Act on January 11, 1974, 51 FPC 169, as previously amended by an order issued February 20, 1975, in said docket by authorizing an increase in the volumes of natural gas to be exchanged with Mississippi River Transmission Corporation (MRT), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the Commission's order of January 11, 1974, as amended on February 20, 1975, in the subject docket, Petitioner was authorized to transport and exchange up to 150,000 Mcf of gas per day with MRT in Wheeler County, Texas, Randolph County, Arkansas, and Clinton County, Illinois, for a period of two years under the terms of a gas exchange agreement dated July 9, 1973, as amended. Petitioner states that under said exchange agreement Petitioner purchases up to one-third of the gas delivered by MRT and transports the remaining volume for redelivery to MRT.

The petition states that petitioner and MRT have amended the subject exchange agreement to increase the maximum allowable exchange quantity to 200,000 Mcf of gas per day. It is said that in all other respects the gas purchase and exchange agreement authorized in this docket remains unchanged. Petitioner states that it will retain all of the Mills Ranch gas delivered to it from MRT during December and through termination of the authorization. Thus, Petitioner states, approval of the authorization sought herein will enable Petitioner to augment its overall gas supply during the winter heating season.

Petitioner does not propose to revise its existing facilities to accommodate the increased deliveries because the authorization herein will terminate on January 11, 1976.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 5, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMBS,  
Secretary.

[Docket No. RP74-75]

#### NORTHERN NATURAL GAS CO. Extension of Procedural Dates

MAY 19, 1975.

On May 6, 1975, Northern Natural Gas Company filed a motion to extend the procedural dates fixed by order issued April 1, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company's Supplemental Testimony, July 8, 1975.

Service of Staff's and Intervenor's Testimony, August 8, 1975.

Service of Company Rebuttal, August 29, 1975.

Hearing, September 9, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMBS,  
Secretary.

[FR Doc. 75-13646 Filed 5-22-75; 8:45 am]

[Docket No. RP72-154; PGA75-5]

#### NORTHWEST PIPELINE CORP.

##### Change in Rates Pursuant to Purchased Gas Costs Adjustment

MAY 19, 1975.

Take notice that Northwest Pipeline Corporation, on May 15, 1975, tendered for filing and acceptance a notice of change in rates applicable to service rendered under rate schedules affected by and subject to the Purchased Gas Cost Adjustment Provision ("PGAC"), as contained in its FPC Gas Tariff, Original Volume No. 1. The proposed change in rates would increase revenues from jurisdictional sales and service by \$115,886,308 based on the 12-month period ending December 31, 1974.

Such change in rates is occasioned by a substantial increase in the cost of Canadian gas purchased by Northwest from its Canadian pipeline supplier, Westcoast Transmission Company, Limited ("Westcoast"), in compliance with the Canadian Government's decision to increase the border export price

to \$1.40 per Mcf, effective August 1, 1975. Northwest obtains approximately two-thirds of its total gas supply from Westcoast. A border export price of \$1.40 will result in an annualized increase in Northwest's purchased gas cost expense amounting to \$117,413,539, which equates to an increase of 2.630¢ per therm above the currently effective rates. While this tariff filing covers only the effect of the Canadian price increase to \$1.40 per Mcf on August 1, 1975, Northwest will make an appropriate tariff filing later to cover the Canadian price increase to \$1.60 per Mcf, effective November 1, 1975. Northwest estimates that the November 1, 1975 price increase will result in increased gas purchased costs of approximately \$58.6 million so that the total of the August 1 and November 1, 1975 increases is estimated to be \$176,000,000.

Although Northwest's PGA provides for the tracking of changes in the cost of purchased gas each six months, Northwest emphasizes that the magnitude of the increase in Northwest's purchased gas cost expense requires immediate rate relief on a firm basis concurrently with the effective date of the increased export price. Northwest respectfully requests that waiver be granted of Northwest's PGAC and applicable Commission regulations, as necessary, so as to permit acceptance and effectiveness of the tendered change in rates on August 1, 1975.

Copies of this filing have been served upon Northwest's jurisdictional customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 5, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13647 Filed 5-22-75; 8:45 am]

[Docket No. RP75-101]

**PACIFIC GAS TRANSMISSION CO.  
Rate Change**

MAY 19, 1975.

Take notice that on May 13, 1975, Pacific Gas Transmission Company (PGT) tendered for filing a "Notice Of Rate Change To Reflect Increases In The Price Of Canadian Gas In Cost Of Serv-

ice Charges, And Request For Expedited Consideration."

PGT states that its filing is made in compliance with this Commission's orders in Docket No. RP73-111 which require PGT to make filings pursuant to Section 4 of the Natural Gas Act before there is reflected in PGT's cost of service charges any increase in the cost of gas imposed or required by Canadian authorities.

PGT indicates that its filing will effect increases in rates charged under its PL-1 rate schedule which is applicable only to sales of gas made by PGT to its one customer for sale, Pacific Gas and Electric Company. PGT states that no other rate schedule is affected.

The filed changes in rates will reflect in PGT's cost of service charges certain increases mandated by Canadian authorities in the price of gas imported from Canada, commencing August 1, 1975, and November 1, 1975. PGT obtains its entire supply of gas from Canada at a present border price of \$1.00 (Canadian) per MMBtu. PGT recites that on May 5, 1975, the Canadian Government announced that existing export licenses would be amended to establish a border price of \$1.40 (Canadian) per MMBtu of gas commencing August 1, 1975, and increasing to \$1.60 (Canadian) per MMBtu commencing November 1, 1975. On the basis of present volumes and Btu content, and a given U.S.-Canadian monetary exchange rate, PGT estimates that the effect of the August 1, 1975, increase would be approximately \$162,668,000 (U.S.) on an annualized basis, although it should be noted that this increase to \$1.40 (Canadian) will be in effect for only three months. The November 1, 1975, increase to \$1.60 (Canadian) will, according to PGT's estimate, amount to approximately \$244,001,000 (U.S.) in increased annual costs.

PGT advises that copies of its filing have been mailed to its customers and to interested state commissions. PGT requests that expedited consideration be given to the instant filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-13648 Filed 5-22-75; 8:45 am]

[Docket No. CP75-249]

**PACIFIC INTERSTATE TRANSMISSION CO.  
Supplement to Application**

MAY 19, 1975.

Take notice that on April 30, 1975, Pacific Interstate Transmission Company (Applicant), 720 West Eighth Street, Los Angeles, California 90017, filed in Docket No. CP75-249 a supplement to its application filed in the subject docket on March 3, 1975, pursuant to section 7(c) of the Natural Gas Act by submitting Exhibit H (gas supply data) and Exhibit P (pro forma tariff) in compliance with §§ 157.14(a) (10) and 157.14(a) (18) of the Commission's regulations (18 CFR 157.14 (a) (10) and (18)), respectively, and by submitting letters from El Paso Natural Gas Company and Northwest Pipeline Corporation evidencing a willingness to assist Applicant in connection with the alternate proposal of Interstate Transmission Associates (Arctic) (ITAA), all as more fully set forth in the supplement which is on file with the Commission and open to public inspection.

In its March 3, 1975, application Applicant seeks certification for a sale for resale of natural gas in interstate commerce to Southern California Gas Company, an affiliate of Applicant. Applicant proposes to transport gas from Alaska's north slope through Canada into the eoterminal states of the United States by means of the facilities of Alaskan Arctic Gas Pipeline Company (Alaskan Arctic) and Canadian Arctic Gas Pipeline Limited. At the U.S.-Canadian border near Kingsgate, British Columbia, ITAA would transport the gas for the account of Applicant to interconnections with other pipelines for delivery to western region markets pursuant to ITAA's application, as supplemented, in Docket No. CP74-292. The application in the instant docket does not include certain required exhibits, including Exhibits H and P, which are included in the instant supplement.

Applicant notes that ITAA has proposed, in its third supplement to its application in Docket No. CP74-292, a 277-mile pipeline system from Kingsgate to Stanfield, Oregon, which system is alternative to the pipeline system originally proposed by ITAA. To implement the alternative ITAA proposal if it were approved, Applicant states that El Paso Natural Gas Company and Northwest Pipeline Company have offered technical advice and assistance relative to the utilization of their facilities.<sup>1</sup>

Taking account of ITAA's dual proposals, Applicant submits herein as Exhibit P two pro forma tariffs under which Applicant could operate. The first is said to cover the original ITAA proposal of a pipeline 877 miles in length extending from Kingsgate to the California-Nevada

<sup>1</sup> El Paso's offer is stated to be without prejudice to El Paso's present preference for the project proposed by El Paso Alaska Company in Docket No. CP75-96.

border; the second is to cover the alternative pipeline to Stanfield, Oregon. The application indicates that both tariffs are based upon cost-of-service and contemplate a return on equity of 16 percent.

In compliance with § 157.14(a) (10) of the Regulations Applicant also submits herein gas supply data. Applicant states that it has obtained through its affiliate, Pacific Lighting Gas Development Company (PLGD), exclusive negotiating rights to 60 percent of Atlantic Richfield Company's (Atlantic Richfield) working interest in the Prudhoe Oil Pool and associated gas caps in exchange for \$420 million to be financed by Applicant through borrowings from banks and institutional lenders. Applicant submits in the instant supplement the funding agreement between PLGD and Atlantic Richfield dated March 25, 1975. Applicant states that it has also acquired through PLGD from Mono Power Company various interests in the exploration program in the Kavik-North Slope area in Alaska which it is contemplated will provide Applicant with a source of dry gas.<sup>2</sup> Applicant states that it adopts the estimates of recoverable reserves and deliverability for the Prudhoe Bay and Mackenzie Delta gas supply areas set forth in Exhibit H of Alaskan Arctic's application in Docket No. CP74-239.

Because Applicant proposes only to transport and sell gas and not to construct facilities, Applicant states that Exhibit G (flow diagrams) is omitted as being inapplicable and that Exhibit L (financing) is omitted as being indeterminable at this time. Furthermore, Applicant states that it is unable at this time to provide an estimate of the full cost of transportation to its customers if the alternative pipeline proposal by ITAA is adopted. Accordingly, Applicant requests waiver of Commission requirements under Section 157.14 to the extent necessary to permit the supplementation of its application proposed herein.

Any person desiring to be heard or to make any protest with reference to said supplement should on or before May 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Any person who has heretofore filed a petition to intervene, notice of intervention or protest to the

<sup>2</sup> Applicant states that the funding agreements between various producers and Mono Power Company, Natural Gas Corporation of California and El Paso have been filed in Docket No. RP72-M6.

granting of the application in this proceeding need not file again.

[Docket No. E-9434]

**PUBLIC SERVICE INDIANA**

**Termination of Interconnection Agreement**  
MAY 19, 1975.

Take notice that Public Service Indiana (PSI), tendered for filing on April 7, 1975, by letter, notice of its intention to terminate its interconnection agreement with the City of Crawfordsville, Indiana (City).

PSI states that the interconnection agreement is dated March 6, 1968; is on file with the FPC as Rate Schedule FPC No. 211; and that PSI's action is pursuant to § 10.2 of Article 10 of said agreement. PSI states that it intends to terminate the agreement at the end of the fixed term of ten consecutive years, provided by the agreement.

PSI states that City's contention before the FPC that the present interconnection agreement is a fixed rate contract and that the rates incorporated therein cannot be changed by PSI even in the light of PSI's escalating costs makes it necessary for PSI to give this "notice of termination".

PSI states that this "notice" is given more than 30 months prior to the termination of the fixed term of the present interconnection agreement so that there is ample time for PSI and the City to negotiate a new interconnection agreement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP72-98; AP75-1]

**TEXAS EASTERN TRANSMISSION CORP.  
Proposed Changes in FPC Gas Tariff**

MAY 19, 1975.

Take notice that Texas Eastern Transmission Corporation on May 1, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

Eleventh Revised Sheet No. 14  
Eleventh Revised Sheet No. 14A  
Eleventh Revised Sheet No. 14B  
Eleventh Revised Sheet No. 14C  
Eleventh Revised Sheet No. 14D

Texas Eastern is reducing its rates pursuant to Article VI, Second Revised Stipulation and Agreement dated July 25, 1973, under Docket No. RP72-98. The proposed effective date of the above tariff sheets is June 1, 1975.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

**TRANSCONTINENTAL GAS PIPE LINE CORP.**

**Further Extension of Procedural Dates**  
MAY 19, 1975.

On May 14, 1975, Transcontinental Gas Pipe Line Corporation filed a motion to extend the procedural dates fixed by order issued August 30, 1974, as most recently modified by notice issued April 25, 1975, in the above-designated matter. This schedule would apply to issues not settled and submitted to the Commission on May 13, 1975. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Supplemental Testimony on Unsettled Issues, June 2, 1975.  
Service of Staff's Supplemental Testimony on Unsettled Issues, June 16, 1975.  
Service of Intervenor's Supplemental Testimony on Unsettled Issues, July 7, 1975.  
Service of Company Rebuttal on Unsettled Issues, July 17, 1975.  
Hearing, July 29, 1975 (10 a.m. e.d.t.).

**VIRGINIA ELECTRIC AND POWER CO.**  
 Further Extension of Procedural Dates

MAY 19, 1975.

On May 8, 1975, Staff Counsel filed a motion to extend the Phase I procedural dates fixed by order issued January 22, 1975, as most recently modified by notice issued April 2, 1975, in the above-designated matter. On May 13, 1975, Electricities of North Carolina filed a motion to extend the Phase II procedural dates. The latter motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

**PHASE I**

Service of Staff's Testimony, July 15, 1975.  
 Service of Intervenor's Testimony, July 29, 1975.  
 Service of Company Rebuttal, August 12, 1975.  
 Hearing, August 26, 1975 (10 a.m. e.d.t.).  
 Service of Intervenor's Testimony, July 15, 1975.  
 Service of Staff's Testimony, August 5, 1975.  
 Service of Company Direct Testimony, August 26, 1975.  
 Service of Intervenor's Rebuttal, September 9, 1975.  
 Hearing, September 23, 1975 (10 a.m. e.d.t.).

**FEDERAL TRADE COMMISSION**  
**PROPOSED CORPORATE PATTERNS**  
**SURVEY FOR 1972**
**Meeting**

Notice is hereby given that the Federal Trade Commission will meet on Thursday, June 12, 1975, at 10:00 a.m., in Room 432 of the Federal Trade Commission Building, 6th & Penn. Ave., NW., Washington, D.C., with representatives of the Office of Management and Budget, and the Bureau of the Census, to consider the impact of the Commission's Proposed Corporate Patterns Survey for 1972 upon the data-gathering functions of the Bureau of the Census.

The meeting will be open to the public as space is available.

Further information regarding this scheduled meeting may be obtained by telephone from Nathaniel Greenspun, Area Code 202, 254-7686. Written inquiries should be addressed to the Assistant Director for Industry Analysis, Federal Trade Commission, Washington, D.C. 20580.

Issued by direction of the Commission of May 13, 1975.

**GENERAL ACCOUNTING OFFICE**
**FEDERAL COMMUNICATIONS**  
**COMMISSION**
**Receipt of Regulatory Reports Review**  
**Proposal**

The following request for clearance of an application intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on May 16, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before June 10, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, N.W., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

**FEDERAL COMMUNICATIONS COMMISSION**

Request for clearance of an extension (no change) of FCC Form 915, Priority Request and Certification to be filed by Industrial/Commercial users of communications common carriers' leased intercity private line services when requesting a priority for the restoration of leased intercity private line service if service is interrupted pursuant to FCC Rules and Regulations (§ 64.401 and Appendix A to Part 64). It is estimated that respondent burden would average one hour per response. There will be no processing of FCC Form 915 until the resolution of FCC's Notice of Proposed Rule Making of August 18, 1971 (Docket No. 19308) in the matter of an amendment to Part 64 of the Commission's Rules to provide for a new priority system for use and restoration of leased intercity private line services. Upon resolution of Docket No. 19308, it is anticipated that approximately 1000 requests will be processed during the first year after such resolution.

**FEDERAL POWER COMMISSION**
**Receipt of Regulatory Reports Review**  
**Proposal**

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on May 16, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed report form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before June 10, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, N.W., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

**FEDERAL POWER COMMISSION**

On April 3, 1970, the Federal Power Commission (FPC) issued Order No. 398—acting pursuant to the Federal Power Act, as amended, particularly sections 304, 309, and 311 thereof (49 Stat. 855, 858, and 859; 16 U.S.C. 825c, 825h and 825j)—adding a new Section 141.27 implementing Form No. 82, Report of Changes in Retail Rates, prescribing the reporting within sixty days of the effective date of a new retail rate schedule or change of an existing retail rate schedule the 12-month dollar effect of such change. Initially, Form 82 was approved by the Bureau of the Budget, for a period ending June 30, 1975. FPC is requesting an extension no change of this form. Respondents are electric utilities that serve communities of 2,500 people or more and there will be approximately 350 respondents per year. It is estimated that an average of 8 man-hours will be required per response. The information collected through Form 82 will continue to be made available to the Congress, to other Government agencies and to the general public in a quarterly press release.

**NATIONAL ADVISORY COUNCIL ON**  
**THE EDUCATION OF DISADVANTAGED CHILDREN**
**CHILD AND FAMILY SERVICES****Meeting**

Notice is hereby given, pursuant to PL 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on June 13, 1975 from 9:00 a.m.-4:30 p.m., in the Snow Room of the HEW North Building located at 330 C Street, SW., Room 5051, Washington, D.C.; and on June 14, 1975 from 9:00 a.m.-3:00 p.m.—the meeting will be held at 425 Thirteenth Street, NW., Suite 1012, Washington, D.C.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The meeting of the 13th will include briefings by specialists in Early Childhood Education. The agenda of the 14th includes a detailed plan of site visits, the summer meeting schedule, and a discussion of the Child and Family Services Act.

Because of limited space, all persons wishing to attend should call for reservations by June 4, 1975, Area Code 202/382-6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425-13th Street, NW., Suite 1012, Washington, D.C.

Signed at Washington, D.C. on May 19, 1975.

**NASA WAGE COMMITTEE**

Pursuant to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the National Aeronautics and Space Administration Wage Committee is scheduled for June 24, 1975, from 1:30 p.m. to 4:30 p.m. The meeting will be held in Room 226-B, 600 Independence Avenue, Washington, D.C. 20546.

The Committee's primary responsibility is to consider and make recommendations to the Director of Personnel, National Aeronautics and Space Administration, on all matters involved in the development and authorization of a wage schedule for the Cleveland, Ohio wage area pursuant to Pub. L. 92-392.

The approved agenda of the Committee provides that it will consider wage survey data, local reports, recommendations, and statistical analyses, and proposed wage schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-463 and 5 U.S.C. 552(b)(4) it has been determined that this meeting will be closed to the public.

However, members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, National Aeronautics and Space Administration Wage Committee, Mail Stop 3-9, Lewis Research Center, National Aeronautics and Space Administration, 21000 Brookpark Road, Cleveland, Ohio 44135.

Dated: May 16, 1975.

*Secretary.*

[FR Doc.75-13581 Filed 5-22-75; 8:45 am]

**CHICAGO BOARD OPTIONS EXCHANGE,**  
**INC.**
**Proposed Amendments to Options Plan**

Notice is hereby given that the Chicago Board Options Exchange, Inc. ("CBOE") has filed proposed changes in its Option Plan which were previously filed pursuant to Rule 9b-1 under the Securities

Exchange Act of 1934 (17 CFR 240.9b-1). The original amendments were noticed on December 20, 1974 at 39 FR 44100 and on January 24, 1975 at 40 FR 3809 CBOE's decision to delay their effectiveness was noticed.

The revised proposed amendments concern Exchange Rules 2.8 and 18.1(c) and 18.7(b) governing its Arbitration Procedure. The amendment to Rule 2.8 revises the previously proposed amendment to that Rule, insofar as the earlier proposal would have permitted persons engaged in the securities or commodities business to serve as non-member arbitrators. The formerly proposed amendment to Rule 2.8 was designed to make clear that attorneys or other professionals engaging in a practice related to the Federal securities laws and university professors acting in consultation roles or industry studies were not disqualified from serving as nonmember arbitrators. However, as a matter of interpretation, it appears that Rule 2.8 presently would allow those persons to serve as non-member arbitrators. For that reason, the Exchange does not believe the previously proposed amendment is necessary.

The revisions to proposed Rule 18.1(c) and 18.7(b), are minor technical changes.

The proposed corrections will become effective thirty days after the date of this notice or upon such earlier date as the Commission may allow unless the Commission shall disapprove the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed corrections to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. Reference should be made to file number 10-54. The proposed corrections are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

#### FIRST MISSISSIPPI CORP. ET AL.

##### Applications for Unlisted Trading Privileges and Opportunity for Hearing

MAY 16, 1975.

In the matter of applications of the Boston Stock Exchange for unlisted trading privileges in certain securities (Securities Exchange Act of 1934).

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f) (1) (B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

File No.	
First Mississippi Corp.	7-4727
Maytag Company (The)	7-4728
Owens Corning Fiberglas Corp.	7-2729
Rosario Resources Corp.	7-2730

Upon receipt of a request, on or before June 2, 1975 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in

which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.  
[FR Doc.75-13580 Filed 5-22-75; 8:45 am]

[File Nos. 2-49337 (22-7675); Administrative Proceeding File No. 3-4661]

#### FLEXI-VAN CORP.

##### Filing of Application

MAY 15, 1975.

In the matter of Flexi-Van Corporation, 330 Madison Avenue, New York, New York 10017.

Notice is hereby given that Flexi-Van Corporation (the "Company") has filed an application under Clause (ii) of section 310(b) (1) for the Trust Indenture Act of 1939 (the "Act") for a finding that the trusteeship of Bankers Trust Company under an indenture of the Company dated as of December 1, 1974 (the "1974 Indenture") which was not qualified under the Act, and the succession by Bankers Trust Company to the trusteeship under an indenture of the Company dated as of November 15, 1973 (the "1973 Indenture") which was heretofore qualified under the Act is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Bankers Trust Company from acting as Trustee under the 1973 Indenture and the 1974 Indenture.

Section 310(b) of the Act, which is included in Section 12.05 of the 1973 Indenture, provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall within ninety days after ascertaining that it has such conflicting interest or resign. Subsection (1) of such Section provides, in effect, with certain exceptions that a Trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding.

Under Clause (ii) of Subsection (1), however, there may be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding, if the

issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under either of such indentures. The Company alleges that:

(1) It has outstanding \$25,000,000 principal amount 8.75% Collateral Trusts Debentures, Series A, due December 1, 1993 issued under the 1973 Indenture. The Debentures issued pursuant to the 1973 Indenture were registered under the Securities Act of 1933 (File No. 2-49337) and the 1973 Indenture was qualified under the Trust Indenture Act of 1939 (File No. 22-7675). The First National Bank of Boston is Trustee under the 1973 Indenture. However, The First National Bank of Boston intends to resign such trusteeship and the Company wishes to appoint Bankers Trust Company as successor Trustee under the 1973 Indenture.

(2) It has outstanding \$18,500,000 principal amount of 10¾% Collateral Trust Notes due 1975-1987 issued under the 1974 Indenture. The Notes issued pursuant to the 1974 Indenture were purchased by institutional investors for investment and not with a view to distribution. The issuance of these Notes was therefore exempt from the registration requirements of the Securities Act of 1933 and the 1974 Indenture is exempt from the qualification provisions of the Trust Indenture Act of 1939. Bankers Trust Company is Trustee under the 1974 Indenture.

(3) The 1973 Indenture and the 1974 Indenture are each secured by the assignment and pledge to the respective Trustees of separate demand promissory notes of the Company's principal subsidiary in the respective principal amount of the Company's outstanding Debentures and Notes. These promissory notes are unsecured and rank *pari passu*. These promissory notes may, upon the happening of certain events, in turn become secured by the creation of a security interest in certain vehicles and vehicle leases of the Company's subsidiaries in favor of the Trustee under the 1974 Indenture, but such security interest is expressly required to be held and administered by the Trustee under the 1974 Indenture for the equal and ratable benefit of both promissory notes (as well as certain bank loans). The only material differences between the Indentures and the rights of the holders of the Debentures and Notes respectively issued thereunder relate to aggregate principal amounts, dates of issue, maturity and interest payment dates, interest rates, redemption prices and procedures, and sinking fund provisions. The 1974 Indenture contains stricter covenants; however, both Indentures contain cross-default provisions.

(4) The Debentures and the Notes are general obligations of the Applicant and

rank *pari passu*. At present, the Debentures and the Notes are secured by the 1973 Leasing Note and the 1974 Leasing Note, respectively, which are general obligations of Leasing and which rank *pari passu*. The 1974 Indenture contains stricter negative covenants than the 1973 Indenture; however, both the 1973 Indenture and the 1974 Indenture contain cross-default provisions so that the occurrence of an event of default under either Indenture would constitute an event of default under the other Indenture, and the 1973 Trustee and the 1974 Trustee would have *pari passu* claims against Applicant and against Leasing without priority of one Trustee over the other.

In the event a security interest is created under the 1974 Indenture in Vehicles and Vehicle Leases of Leasing and certain Leasing Subsidiaries, the 1974 Indenture requires the 1974 Trustee to hold such property in trust for the ratable benefit of the 1973 Trustee and itself (as well as the Bank Lender) so that should the 1974 Trustee have occasion to proceed against such property, such action would not create any conflict of interest between the 1973 Trustee and the 1974 Trustee.

Both the 1973 Indenture and the 1974 Indenture contemplate the possible issuance of additional series of Debentures and Notes upon pledge to the respective Trustees of additional Loan Agreements and Leasing Notes. The 1974 Indenture has a specific granting clause covering the possibility of such future pledges. Any such future pledges under the 1973 Indenture would be covered by the general granting clause covering any other property which may be subjected to the lien of the 1973 Indenture. Any such additional Leasing Note pledged under either Indenture would be an unsecured obligation of Leasing and would rank *pari passu* with the 1973 Leasing Note and the 1974 Leasing Note and would create no conflict between the two Indentures.

With regard to additional property other than additional Loan Agreements and Leasing Notes, the 1974 Indenture has a standard additional property granting clause similar to Granting Clause III of the 1973 Indenture. No such additional property of any kind is presently held by either the 1973 Trustee or the 1974 Trustee and it is not presently intended that any such additional property will ever be subjected to the lien of either Indenture. In any event, any such additional property other than Leasing Notes would be incidental to the security represented by the 1973 Leasing Note, the 1974 Leasing Note and the Vehicles and Vehicle Leases.

Thus, the existence of the dual trusteeship should in no way inhibit or discourage the Trustees' action.

(5) It is not in default under the 1973 Indenture or the 1974 Indenture.

(6) Neither the differences indicated above, nor any other provisions of the aforementioned indentures, are likely to involve a material conflict of interest so as to make it necessary in the public interest or for the protection of any of

the Debentureholders to disqualify Bankers Trust Company from acting as Trustee under either of the aforementioned indentures.

(7) Applicant waives (a) notice of hearing, (b) hearing on the issues raised by this application and (c) all rights to specify procedures under Rule 8(b) of the Commission's Rules of Practice.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission's Public Reference Section at 1100 L St., N.W., Washington, D.C. 20549.

Notice is further given that any interested person may, not later than June 12, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

(SEAL) GEORGE A. FITZSIMMONS,  
Secretary.

[Rel. No. 8793; 812-3777]

#### INVESTORS SYNDICATE OF AMERICA INC.

##### Filing of Application

MAY 16, 1975.

In the matter of Investors Syndicate of America, Inc., IDS Tower, Minneapolis, Minnesota 55402.

Notice is hereby given that Investors Syndicate of America, Inc. ("Applicant"), a face-amount certificate company registered under the Investment Company Act of 1940 ("Act"), has filed an application for an order pursuant to section 28(c) of the Act approving an amendment to a depository agreement to cover a new series of face-amount certificates, to be designated Series SP 75. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Section 28(c) provides, to the extent relevant, that the Commission shall by order, in the public interest or for the protection of investors, require a registered face-amount certificate company to deposit and maintain, with a bank having specified qualifications, all or any part of its investments required as certificate reserves under the provisions of section 28(b) of the Act.

On November 16, 1940, the Commission issued an order approving the depository agreement between Applicant and The Marquette National Bank, which requires Applicant to deposit and maintain qualified assets at least equal to the certificate reserve requirements of section 28 of the Act (Investment Company Act Release No. 18) for certain outstanding certificates. Subsequently, from time to time, the Commission has issued orders granting applications for amendments to the initial agreement to include coverage of new series of securities proposed to be issued (Investment Company Act Release Nos. 792, 1895, 3105, 3552, 3751, 4390, 6810, and 8551). The amendment to the depository agreement, for which approval is now requested, concerns the deposit of assets to be maintained for the benefit of holders of the new series. Applicant agrees that it remains subject to all the terms and conditions contained in the foregoing orders of the Commission relating to the depository agreement and amendments thereto.

Notice is further given that any interested person may, not later than June 9, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who re-

## NOTICES

quest a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Release No. 18991; 70-5682]

**MIDDLE SOUTH UTILITIES INC.**  
**Proposed Issue and Sale of Short-Term Promissory Notes**

In the matter of Middle South Utilities, Inc., 225 Baronne Street, New Orleans, Louisiana 70112.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the following proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Middle South proposes, under a revolving credit agreement with a group of banks headed by Manufacturers Hanover Trust Company of New York ("MHTC"), to issue and sell its unsecured short-term promissory notes in an aggregate amount not to exceed \$221,200,000 outstanding at any one time.

The initial borrowing under the credit agreement will be used for the payment of \$127.7 million of short-term notes issued by Middle South to MHTC and various commercial banks under a prior credit agreement dated July 1, 1973, as amended, which borrowings were approved by this Commission (File No. 70-5366). Such borrowings were utilized by Middle South to purchase, at various times, the common stocks of certain of its subsidiary companies. These subsidiary companies used the amounts thereby obtained to reduce outstanding bank loans and commercial paper indebtedness incurred, pending permanent financing of construction expenditures. Subsequent borrowings under the new credit agreement will be used by Middle South to purchase additional common stock of its subsidiaries. The issuance, sale, and acquisition of such common stock will be the subject of separate filings with this Commission.

Under the terms of the revolving credit agreement, Middle South may borrow and reborrow until June 30, 1976, up to an aggregate of \$221,200,000 outstanding at any one time. The names of the banks joining in the credit agreement and their respective participation are as follows:

Name of bank	Maximum amount to be borrowed and designation
Manufacturers Hanover Trust Co., New York, N.Y.	\$21,300 B
First National City Bank, New York, N.Y.	27,700 B
Bank of America National Trust and Savings Association, Los Angeles, Calif.	20,000 B
Continental Illinois National Bank and Trust Company of Chicago, Ill.	20,000 C
First National Bank of Boston, Mass.	20,000 A
The Northern Trust Company, Chicago, Ill.	11,100 A
Irving Trust Company, New York, N.Y.	11,100 B
Morgan Guaranty Trust Company of New York, N.Y.	10,000 A
First National Bank of Boston, Mass.	10,000 B
North Carolina National Bank, Charlotte, N.C.	10,000 B
First Pennsylvania Bank, N.A., Philadelphia, Pa.	5,000 A
The Fidelity Bank, Philadelphia, Pa.	5,000 A
Crocker National Bank, San Francisco, Calif.	5,000 A
Union Bank, Los Angeles, Calif.	5,000 A
Total	221,300

Each borrowing and each payment by Middle South will be made *pro-rata* among the lending banks according to their original commitment. The notes issued to those banks designated as A banks in the credit agreement will bear interest from the date thereof on their unpaid principal amount at a rate per annum equal to the commercial loan rate of MHTC from time to time in effect on borrowings having a 90-day maturity by its most responsible and substantial domestic corporate borrowers ("MHTC Rate"); the notes issued to those banks designated as B banks in the credit agreement will bear interest from the date thereof on their unpaid principal amount at a rate per annum equal to 122% of the MHTC rate; and the notes issued to that bank designated in the credit agreement as a C bank will bear interest from the date thereof on their unpaid principal amount at a rate per annum equal to 112% of the MHTC rate.

Middle South will pay to each participating bank a commitment fee for the period from and including May 1, 1975, to June 30, 1976 (or any earlier date of termination of the commitments), computed at the rate of  $\frac{1}{2}$  of 1% per annum on the average daily unused portion of the commitments in effect during the period for which payment is made. Middle South will also pay to each of the A and B banks a facility fee on the average daily amount of such bank's commitment (whether used or unused) from May 1, 1975, to and including June 30, 1976, at a rate of  $\frac{1}{4}$  of 1% per annum. Middle South will pay to the C bank a facility fee on the average daily amount of such bank's commitment (whether used or unused) from May 1, 1975, to and including June 30, 1976. The rate of the facility fee applicable to the C bank shall be 10% of the MHTC rate in effect from time to time.

It is stated that, based on a  $7\frac{1}{2}$ % prime rate, the effective interest cost of the A, B, and C banks, including the facility fees and assuming balances of 10% on the line and 10% on the borrowing from the A banks, would be 9.69%, 9.40%, and 9.15%, respectively.

Middle South presently intends to repay the principal of the notes out of the proceeds of the sale of additional shares of its common stock. The notes will be prepayable at any time on two business days' notice in whole or in part without premium. Middle South will have the right at any time on three business days' notice to the participating banks to terminate or, from time to time, to reduce the commitments.

The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. No special or separate expenses are anticipated in connection with the proposed transactions except for the Commission's filing fee.

Notice is further given that any interested person may, not later than June 10, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

## NOTICES

22615

[Release No. 18989; 70-5678]  
**NATIONAL FUEL GAS CO. ET AL**  
**Proposed Issue and Sale of Debentures**  
MAY 15, 1975.

In the matter of National Fuel Gas Company, 30 Rockefeller Plaza, New York, New York 10020; National Fuel Gas Distribution Corporation, 10 Lafayette Square, Buffalo, N.Y. 14203; National Fuel Gas Supply Corporation, 308 Seneca Street, Oil City, Pennsylvania 16301.

Notice is hereby given that National Fuel Gas Company ("National"), a registered holding company, and two of its subsidiary companies, National Fuel Gas Distribution Corporation ("Distribution Corporation") and National Fuel Gas Supply Corporation ("Supply Corporation"), have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 42, 43, 45, and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

National proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, \$21,000,000 principal amount of % Debentures, Series due June 1984. The interest rate of the debentures (which shall be a multiple of  $\frac{1}{4}$  of 1%) and the price, exclusive of accrued interest, to be paid to National (which shall be not less than 99% nor more than 102% of the principal amount thereof) will be determined by the competitive bidding. The debentures will be issued under an indenture dated as of August 15, 1968, between National and Manufacturers Hanover Trust Company as Trustee, as heretofore supplemented and as to be further supplemented by a Fifth Supplemental Indenture dated as of June 15, 1975. The debentures may not be redeemed prior to June 15, 1980, if such redemption is for the purpose or in anticipation of their refunding through the use, directly or indirectly, of funds borrowed by the company at an effective interest cost of less than the effective interest cost of the debentures.

On the date the proceeds are available from the sale of the \$21,000,000 principal amount of debentures, National proposes to return to Distribution Corporation and Supply Corporation their notes totaling \$15,116,600 and \$5,883,400 respectively, all of which mature on August 15, 1975, and which were originally issued in 1970 in connection with 8% Debentures due August 15, 1975. Concurrently, Distribution Corporation and Supply Corporation propose to issue new notes to National in the same amounts having a maturity date of June 15, 1984. The interest rate per annum will be equal to the effective cost of money incurred by National in the sale of the

new debentures, rounded to the next highest multiple of  $\frac{1}{4}$  of 1%.

The fees and expenses to be paid by National in connection with the proposed debentures are estimated at \$90,000, including legal fees of \$27,000 and auditor's fees of \$7,000. The fees and expenses in connection with the proposed notes are estimated at \$5,050 and are to be paid by National.

It is stated that the proposed issue and sale of notes by Distribution Corporation are subject to the jurisdiction of the Public Service Commission of New York and the Pennsylvania Public Utility Commission and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 6, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Release No. 8792; 812-3783]

**TAX-EXEMPT MUNICIPAL TRUST**  
**Filing of Application**

In the matter of Tax-Exempt Municipal Trust (First New York Series and Subsequent Series), 767 Fifth Avenue, New York, New York.

Notice is hereby given that Tax-Exempt Municipal Trust (First New York Series and Subsequent Series) ("Appli-

cant"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), filed an application on March 20, 1975, pursuant to section 6(c) of the Act for an order of the Commission exempting Applicant from the provisions of Rule 19b-1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant is a trust organized under the laws of the State of New York. Shearson Hayden Stone, Inc. ("Sponsor") acts as Applicant's sponsor. Each series of Applicant is or will be governed by a trust agreement ("Trust Agreement") with United States Trust Company ("Trustee") as Trustee, Standard & Poor's Corporation ("Evaluator") serves as Evaluator.

On December 26, 1974, Applicant filed a registration statement on Form S-6 under the Securities Act of 1933 ("Securities Act"). The registration statement was declared effective on February 19, 1975, and covered a maximum of 10,000 Units of Tax-Exempt Municipal Trust, First New York Series which were offered to investors at the public offering price computed in the manner set forth in the Prospectus dated February 19, 1975.

First New York Series is, and each future series issued by Applicant will be, subject to a trust agreement for that series ("Trust Agreement") entered into prior to or on the effective date of a registration statement under the Securities Act for the Units of such series. The Trust Agreement for each series will name the Sponsor as sponsor and the Trustee as trustee and will contain terms and conditions of trust common to all series.

Rule 19b-1(a) under the Act provides, in substance, that no registered investment company which is a "regulated investment company" shall distribute more than one capital gain distribution in any one taxable year. Paragraph (b) of the Rule contains a similar prohibition for a company not a "regulated investment company," provided, however, that a unit investment trust may distribute capital gains distributions received from a "regulated investment company" within a reasonable time after receipt.

Applicant states that the Trust is an unmanaged investment company with portfolios of predeposited and specifically identified bonds. Once the initial deposit is made for a specific series, prior to the public offering of Units for said series, other securities may not be acquired in addition to or in substitution for any of the bonds except in the case of refunding or refinancings. Although bonds may be sold by the Trustee upon the Sponsor's direction under certain circumstances, stated in the Trust Agreement, such circumstances are limited.

Distributions of principal which constitute, in part, capital gains to holders of Units may arise in the following in-

stances: (1) an issuer might call or redeem an issue held in the portfolio and (2) bonds might be liquidated in order to provide the funds necessary to meet redemptions.

Applicant, contemplates making monthly distributions of principal and interest to Unitholders of first New York Series and subsequent series. Applicant states that the dangers against which Rule 19b-1 is intended to guard do not exist in Applicant's situation since the events which may give rise to capital gains are substantially independent of any action by the Sponsor and the Trustee.

Any capital gains or return of capital distributions will be clearly distinguished from interest distributions in the accompanying report by the Trustee to Unitholders. Applicants contend that it would be to the detriment of Unitholders if a series is required to hold any money, which might be capital gains, until the end of its taxable year before distributing such gains to Unitholders.

Applicants further state that the purpose behind paragraph (b) of Rule 19b-1 is to avoid forcing a unit investment trust to accumulate valid distributions received throughout the year until year end and that the Trust's situation is within the intended objectives of such provisions even though each series will not invest in regulated investment companies.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than June 9, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons

who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

#### SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 1141]

##### MARYLAND

##### Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of April, because of the

effects of a certain disaster, damage resulted to property located in the State of Maryland;

Whereas, the Small Business Administration has investigated and received reports of other investigations in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, Therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Cecil, Kent and Somerset Counties, and adjacent affected areas, suffered damage or destruction resulting from high winds and wave action which occurred April 3-7, 1975. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Office: Small Business Administration, District Office, 7800 York Road, Towson, Maryland 21204.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to July 14, 1975. EIDL applications will not be accepted subsequent to February 16, 1976.

Dated, May 14, 1975.

THOMAS S. KLEPPE,  
Administrator.

[PR Doc 75-13516 Filed 5-22-75; 8:45 am]

[Notice of Disaster Loan Area 1131; Amdt. 1]

##### VIRGINIA

##### Amendment to Notice of Disaster Relief Loan Availability

As a result of the SBA declaration of the State of Virginia as a disaster area following high wind which occurred on or about April 3-4, 1975, applications for disaster relief loans will be accepted by the Small Business Administration from disaster victims in the following additional counties: Accomack, Gloucester, Mathews, Northampton, Northumberland, Westmoreland and adjacent affected areas. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines. (See 40 FR 19048)

Applications may be filed at the:

Small Business Administration, District Office, Federal Building—Room 3015, 400 North Eighth Street, Richmond, Virginia 23240.

and at such temporary offices as are established. Such addresses will be announced locally.

Closing date for accepting applications under this amendment in the additionally designated counties not previously included as an adjacent affected area is July 14, 1975. EIDL applications will not

be accepted subsequent to February 16, 1976.

Dated: May 15, 1975.

THOMAS S. KLEPPE,  
Administrator.

#### GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. A-11]

##### INCREASED TRAVEL ALLOWANCES

##### Change in Federal Travel Regulations Correction and Republication

In FR Doc. 75-13532 appearing at page 22182 in the issue of Wednesday, May 21, 1975, the following changes should be made:

1. The headings should read as set forth above.

2. In the first column on page 22183, in the second line of paragraph (4), "Government contract" should read "Government-contract".

3. In the second column on page 22184, before paragraph 10, paragraph 9 was inadvertently omitted. For the convenience of the reader the entire document is republished to read as follows:

1. **Purpose.** This regulation amends Federal Property Management Regulations 101-7, Federal Travel Regulations, (a) to implement the Travel Expense Amendments Act of 1975 (Pub. L. 94-22, approved May 19, 1975) and (b) to provide for increases in the mileage allowances for use of privately owned automobiles when used in lieu of Government-furnished automobiles.

2. **Effective date.** This regulation is effective for travel performed on or after May 19, 1975.

3. **Expiration date.** This regulation expires May 1, 1976. Prior to expiration, the provisions of this regulation will be incorporated, as appropriate, in the Federal Travel Regulations (FTR), FPMR 101-7.

4. **Applicability.** The provisions of this regulation apply to the official travel of employees of Government agencies as defined in 5 U.S.C. 5701, except employees of the judicial branch.

5. **Background.** a. Pub. L. 94-22, Travel Expense Amendments Act of 1975, hereinafter referred to as the act, authorizes increases in the statutory maximum travel allowances and makes certain other technical and clarifying changes by amending Subchapter 1 of Chapter 57 of Title 5 of the United States Code (5 U.S.C. 5701-5709). It also establishes a new concept of high rate geographical areas to accommodate those areas where unusually high travel costs are incurred. In addition, the act authorizes the Administrator of General Services to provide regulations setting per diem and mileage allowances not to exceed the statutory maximum amounts and to prescribe the conditions of travel and reimbursement.

b. Because of increased costs of operating Government motor vehicles,

mileage rates for use of a privately owned vehicle when such use is in lieu of a Government-furnished vehicle are increased.

c. In consonance with the provisions of this regulation, and to achieve maximum uniformity, the General Services Administration (GSA) proposes to publish additional criteria for the computation of per diem rates for official travel including circumstances which require reduced per diem and/or where the lodgings-plus method may not be appropriate. This action will be reflected in a proposed revision to the FTR after a thorough review has been made of the various travel circumstances and agency comments and recommendations.

6. **Explanation of changes.** Provisions stated in attachment A to this regulation amend the FTR for the reasons given below. It should be noted that certain existing FTR paragraphs have been incorporated for clarity and continuity purposes and to facilitate use of this regulation. The following changes are made in the FTR which are incorporated by reference into 41 CFR Part 101-7 and transmitted by GSA Bulletin FPMR A-40:

a. Paragraph 1-1.2 is revised to clarify the applicability of Chapter 1 of the FTR to include certain experts and consultants and individuals serving without pay or at \$1 a year who were covered under 5 U.S.C. 5703 prior to amendment by the act. These individuals are now considered to be employees for purposes of the administration of travel allowances under Chapter 1. It also specifically excludes employees of the judicial branch of the Government.

b. Paragraph 1-1.3c is amended to add new definitions and to incorporate modified definitions previously in FPMR Temporary Regulation A-9.

c. Paragraph 1-2.2 is revised to incorporate modified provisions of FPMR Temporary Regulation A-9 to clarify the methods and priorities of transportation to be used for official travel.

d. Paragraph 1-4.1c is revised to authorize reimbursement for the cost of airplane parking, landing, and tiedown fees in addition to the mileage allowance.

e. Paragraph 1-4.2 is amended to increase mileage allowances for use of privately owned conveyances when such use is advantageous to the Government.

f. Paragraph 1-4.4 is amended to increase the mileage allowances for use of a privately owned automobile when such use is in lieu of a Government-furnished automobile.

g. Paragraph 1-7.1a is revised for clarification because of the new high rate geographical area provisions in Part 8.

h. Paragraph 1-7.2 is amended to increase the maximum per diem allowance for official travel within the conterminous United States to \$33.

i. Paragraph 1-7.3c is revised to establish a uniform set rate of \$14 for meals and miscellaneous subsistence expenses and to clarify the method to be used in computing the average cost of lodgings.

j. Paragraphs 1-8.1, 1-8.2, and 1-8.3 are revised to increase the maximum al-

lowance for actual subsistence expense travel, to provide for the newly authorized high rate geographical area method, and to include more detailed and uniform guidance for the authorization and reimbursement of actual subsistence expense travel.

k. Paragraph 1-8.6 is added to designate those cities or areas that have been determined to be high rate geographical areas and to prescribe the maximum allowable rate of reimbursement.

l. Paragraph 2-2.3 is amended to increase the maximum allowable mileage rates for use of a privately owned automobile during permanent change of station travel.

m. The table of contents is amended to add the captions of the new paragraphs provided herein through appropriate annotations.

7. **Assistance.** Agencies may obtain additional information and assistance concerning the provisions of this regulation by contacting the General Services Administration (FTR), Washington, D.C. 20406, telephone: (703) 557-9030.

8. **Effect on other issuances.** FPMR Temporary Regulation A-9 dated February 6, 1974, and Supplement 2 thereto dated January 24, 1975, are canceled. The applicable provisions of the canceled regulation are modified and incorporated herein.

9. **Agency comments.** Comments and recommendations concerning the provisions of this regulation are requested and should be submitted to the General Services Administration (FTR), Washington, D.C. 20406, within 60 calendar days of the effective date of this regulation for possible incorporation into the permanent regulation. Comments are also desired concerning the proposal to prescribe guidance and rates applicable to all agencies for computation of per diem and for travel circumstances that require reduced per diem rates as described in subparagraph 5c. Comments should include descriptions of travel circumstances requiring reduced per diem (especially those situations unique to the agency commenting) and recommendations for specific rates, if appropriate.

ARTHUR F. SAMPSON,  
Administrator of  
General Services.

MAY 19, 1975.

#### CHANGES TO FEDERAL TRAVEL REGULATIONS, FPMR 101-7

1. Paragraph 1-1.2 is revised to read as follows:

1-1.2. **Applicability.**

(a) The provisions of this chapter apply to official travel of civilian employees of Government agencies, including civilian employees of the Department of Defense, as authorized under 5 U.S.C. 5701-5709, but excluding employees of the judicial branch of the Government.

(b) The provisions of this chapter also apply to official travel of individuals employed intermittently in the Government service as consultants or experts and paid on a daily when-actually-employed (WAE) basis and of individuals serving

without pay or at \$1 a year. These individuals are not considered to have a "permanent duty station" within the general meaning of that term; however, they may be allowed travel or transportation expenses under this chapter while traveling on official business for the Government away from their homes or regular places of business and while at places of Government employment or service. Maximum rates prescribed herein are applicable unless a higher rate is specifically authorized in an appropriation or other statute.

2. Paragraph 1-1.3c is amended by adding new subparagraphs as follows:

1-1.3. *General rules.*

c. *Definitions.*

(3) *Government-furnished automobile.* The term Government-furnished automobile includes an automobile which is (a) owned by an agency, (b) assigned or dispatched to an agency on a rental basis from a GSA interagency motor pool, or (c) leased by the Government for a period of 30 days or longer from a commercial firm.

(4) *Government-contract rental automobile.* A Government-contract rental automobile is an automobile obtained from a commercial firm under the provisions of an appropriate General Services Administration (GSA) Federal Supply Schedule contract.

(5) *Special conveyance.* Special conveyance is any method of transportation other than common carrier, Government-furnished or privately owned, which requires specific authorization or approval for the use thereof. Such transportation generally includes conveyances obtained through commercial rental means for less than 30 days.

(6) *Employee.* As used in this chapter, employee means an individual employed in or under an agency, including an individual employed intermittently in the Government service as an expert or consultant and paid on a daily when-actually-employed (WAE) basis and an individual serving without pay or at \$1 a year.

(7) *Government.* Government means the Government of the United States and the government of the District of Columbia.

(8) *Agency.* Agency means an executive agency; a military department; an office, agency, or other establishment in the legislative branch; and the government of the District of Columbia but does not include a Government-controlled corporation; a member of Congress; or an office or committee of either House of Congress or of the two Houses.

3. Paragraph 1-2.2 is revised as follows:

1-2.2. *Methods of transportation.*

a. *Authorized methods.* Methods of transportation authorized for official travel include railroads, airlines, helicopter service, ships, buses, streetcars, subways, taxicabs; Government-furnished and contract rental automobiles and airplanes; privately owned and rented automobiles and airplanes; and

any other necessary means of conveyance.

b. *Selecting method of transportation to be used.* Travel on official business shall be by the method of transportation which will result in the greatest advantage to the Government, cost and other factors considered. In selecting a particular method of transportation to be used, consideration shall be given to energy conservation and to the total cost to the Government, including costs of per diem, overtime, lost work time, and actual transportation costs. Additional factors to be considered are the total distance of travel, the number of points visited, and the number of travelers. 5 U.S.C. 5733 requires that, "The travel of an employee shall be by the most expeditious means of transportation practicable and shall be commensurate with the nature and purpose of the duties of the employee requiring such travel."

c. *Presumptions as to most advantageous method of transportation.* (1) *Common carrier.* Since travel by common carrier (air, rail, or bus) will generally result in the most efficient use of energy resources and in the last costly and most expeditious performance of travel, this method shall be used whenever it is reasonably available. Other methods of transportation may be authorized as advantageous only when the use of common carrier transportation would seriously interfere with the performance of official business or impose an undue hardship upon the traveler, or when the total cost by common carrier would exceed the cost by some other method of transportation. The determination that another method of transportation would be more advantageous to the Government than common carrier transportation shall not be made on the basis of personal preference or minor inconvenience to the traveler resulting from common carrier scheduling.

(2) *Government-furnished automobiles.* When it is determined that common carrier transportation is not advantageous to the Government and that an automobile is required for official travel, a Government-furnished automobile shall be used whenever it is reasonably available.

(3) *Privately owned conveyance.* Except as provided in 1-2.2d, the use of a privately owned conveyance shall be authorized only when such use is advantageous to the Government. A determination that the use of a privately owned conveyance would be advantageous to the Government shall be preceded by a determination that common carrier transportation or Government-furnished vehicle transportation is not available or would not be advantageous to the Government. To the maximum extent possible, these determinations and the authorization to use a privately owned conveyance shall be made before the performance of travel.

(4) *Special conveyance.* Commercially rented vehicles and other special conveyances shall be used only when it is determined that use of other methods of transportation discussed in 1-2.2c would

not be more advantageous to the Government. In the selection of commercially rented vehicles, first consideration shall be given to Government-contract rental vehicles available under an appropriate GSA Federal Supply Schedule contract.

d. *Permissive use of a privately owned conveyance.* When an employee uses a privately owned conveyance as a matter of personal preference and such use is compatible with the performance of official business, although not determined to be advantageous to the Government under 1-2.2c(3), such use may be authorized or approved: *Provided*, That reimbursement is limited in accordance with the provisions of 1-4.

4. Paragraph 1-4.1c is revised as follows:

1-4.1 *Basic rules.*

c. *Other allowable costs.* Reimbursement for parking fees; ferry fees; bridge, road, and tunnel costs; and airplane parking, landing, and tiedown fees shall be allowed in addition to the mileage allowance unless the travel orders or other administrative determinations restrict such allowance.

5. Paragraph 1-4.2 is amended as follows:

1-4.2. *When use of a privately owned conveyance is advantageous to the Government.*

a. *Mileage rate determinations.* When it is determined that use of a privately owned conveyance by the traveler is advantageous to the Government as provided in 1-2.2c(3), the reimbursement mileage rates shall be as follows:

- (1) 8 cents per mile for use of a privately owned motorcycle.
- (2) 15 cents per mile for use of a privately owned automobile.
- (3) 22 cents per mile for use of a privately owned airplane.

c. *To and from common carrier terminals and office.* (1) *Round trip when in lieu of taxicab to carrier terminals.* In lieu of the use of a taxicab under 1-2.3c, payment on a mileage basis at the rate of 15 cents per mile and other allowable costs as set forth in 1-4.1c shall be allowed for the round-trip mileage of a privately owned automobile used by an employee going from either his home or place of business to a terminal or from a terminal to either his home or place of business. However, the amount of reimbursement for the round trip shall not in either instance exceed the taxicab fare, including tip, allowable under 1-2.3c for a one-way trip between the applicable points.

(2) *Round trip when in lieu of taxicab between residence and office on day of travel.* In lieu of the use of taxicab under 1-2.3d, payment on a mileage basis at the rate of 15 cents per mile and other allowable costs as set forth in 1-4.1c shall be allowed for round-trip mileage of a privately owned automobile used by an employee going from his residence to his place of business or returning from place of business to residence on a day travel is performed. However, the

amount of reimbursement for the round trip shall not exceed the taxicab fare, including tip, allowable under 1-2.3d for a one-way trip between the points involved.

6. Paragraph 1-4.4 is amended as follows:

1-4.4. *When use of a privately owned conveyance is in lieu of a Government-furnished automobile.*

b. *Reimbursement based on Government costs.* Based upon average rental rates which agencies pay for GSA motor pool automobiles and the administrative cost to the user agency, it has been determined that the average mileage cost for use of a Government-furnished automobile for travel in the conterminous United States is 11 cents. Therefore, the mileage rate for authorized use of a privately owned conveyance when use of a Government-furnished automobile would be most advantageous to the Government shall be 11 cents. Exceptions to the above limitation may be authorized if an agency determines that, because of unusual circumstances, the cost of providing a Government-furnished automobile would be higher than 11 cents. In such instances the agency may allow reimbursement at such higher rate within the statutory maximum that will most nearly equal the cost of providing a Government-furnished automobile in those circumstances. In addition to mileage for the distance allowed under 1-4.1b, the employee may be reimbursed for expenses authorized under 1-4.1c which would have been incurred if a Government-furnished vehicle had been used.

c. *Partial reimbursement when Government automobile is available.* When an employee who is committed to using a Government-furnished automobile, or who because of the availability of Government-furnished automobiles, would not ordinarily be authorized to use a privately owned conveyance in lieu of a Government-furnished automobile nevertheless requests use of a privately owned conveyance, reimbursement may be authorized or approved. The rate of reimbursement shall be 6 cents per mile, which is the approximate cost of operating a Government-furnished automobile, fixed costs excluded.

d. *Reimbursement claims.* When claiming mileage at the 11 cent rate, the employee shall state on his voucher that he had not made a commitment to use a Government-furnished automobile and that reimbursement for use of a privately owned automobile was not limited under 1-4.4c.

7. Paragraph 1-7.1a is revised as follows:

1-7.1. *Coverage.*

a. *Travel for which per diem shall be paid.* Per diem allowances under 1-7 shall be paid for official travel except when it is determined that reimbursement should be on the basis of actual subsistence expenses as provided in 1-8.

8. Paragraph 1-7.2 is amended as follows:

1-7.2. *Maximum locality rates.* A per diem allowance in lieu of actual subsistence expenses for travel on official business shall be authorized or approved with the following maximum rates:

a. *Conterminous United States.* Reimbursement for official travel within the limits of the conterminous United States shall be a daily rate not in excess of \$33 except when actual subsistence expenses travel is authorized or approved due to the unusual circumstances of the travel assignment or for travel to a designated high rate geographical area as provided in 1-8.1.

9. The caption of paragraph 1-7.3 is changed and paragraph 1-7.3c is revised as follows:

1-7.3. *Agency responsibility for authorizing individual rates.*

c. *When lodgings are required.* (1) For travel in the conterminous United States when lodging away from the official duty station is required, the per diem rate shall be established on the basis of the average amount the traveler pays for lodging, plus an allowance of \$14 for meals and miscellaneous subsistence expenses. Calculation shall be as follows:

(a) To determine the average cost of lodging, divide the total amount paid for lodgings during the period covered by the voucher by the number of nights for which lodgings were or would have been required while away from the official station. Exclude from this computation the night of the employee's return to his residence or official station.

(b) To the average cost of lodging add the allowance for meals and miscellaneous expenses. The resulting amount rounded to the next whole dollar, subject to the maximum prescribed in 1-7.2a, is the rate to be applied to the traveler's reimbursement voucher.

(2) No minimum allowance is authorized for lodging since those allowances are based on actual lodging costs. Receipts for lodging costs may be required at the discretion of each agency; however, employees are required to certify on their vouchers that per diem claimed is based on the average cost for lodging while on official travel within the conterminous United States during the period covered by the voucher.

(3) An agency may determine that the lodging-plus method as prescribed herein is not appropriate in circumstances such as when quarters or meals, or both, are provided at no cost or at a nominal cost by the Government or when for some other reason the subsistence costs to be incurred by the employee can be determined in advance. In such instances a specific per diem rate may be established and reductions made in accordance with this part, provided the exception from the lodging-plus method is authorized in writing by an appropriate official of the agency involved.

10. Paragraphs 1-8.1 thru 1-8.3 are revised as follows:

1-8.1. *Authorization or approval.*

a. *General.* Authority for reimbursement of actual and necessary subsistence expenses incurred during official travel is normally contingent upon the entitlement to per diem (see 1-7) and the determination that the authorized maximum per diem allowance would be inadequate to cover the actual and necessary expenses of the traveler. A traveler may be reimbursed for the actual and necessary expenses of the official travel when the maximum per diem allowance otherwise allowable is determined to be inadequate due to the unusual circumstances of the travel assignment or for travel to high rate geographical areas. Heads of those agencies defined in 5 U.S.C. 5701, or their designees (see 1-8.3), shall authorize or approve reimbursement for the actual and necessary subsistence expenses of a traveler incurred during official travel in accordance with the provisions of this part.

b. *Travel to high rate geographical areas.* Actual subsistence expense reimbursement shall be authorized or approved whenever temporary duty travel is performed to or in a location designated as a high rate geographical area in 1-8.6, except when the high rate geographical area is only an intermediate stopover point at which no official duty is performed.

c. *Unusual circumstances of the travel assignment.* Actual subsistence expense reimbursement may be authorized or approved for specific travel assignments within and outside the conterminous United States when it is determined that maximum per diem allowance (see 1-7.2) would be inadequate due to the unusual circumstances of the travel assignment.

(1) The actual subsistence expense basis of reimbursement shall not be authorized or approved in instances in which the actual and necessary subsistence expenses exceed the maximum per diem allowable only by a small amount. The actual subsistence expense basis may appropriately be authorized or approved for travel assignments which otherwise meet conditions prescribed herein and by the head of the agency if, due to unusual circumstances:

(a) The actual and necessary subsistence expenses exceed the maximum per diem allowance (see 1-7.2) by 10 percent or more, or

(b) The traveler has no alternative but to incur hotel costs which absorb all or nearly all of the maximum per diem allowance (see 1-7.2), since hotel accommodations constitute the major portion of necessary subsistence expenses.

(2) Notwithstanding the criteria outlined above, actual subsistence expense reimbursement shall not be authorized or approved solely on the basis of inflated lodging and/or meal costs since inflated costs are common to all travelers; some unusual circumstances of the travel assignment must be involved to cause the lodging and/or meal costs to

be higher than those which normally would be incurred at a particular location (42 Comp. Gen. 440).

(3) Travel which involves unusual circumstances may include, but is not limited to, the following situations:

(a) The traveler attends a meeting, conference, or training session away from his official duty station where lodging and/or meals must be procured at a prearranged place (such as the hotel where the meeting, conference, or training session is being held) and the lodging costs, incurred because of such prearranged accommodations, absorb all or practically all of the maximum per diem allowance.

(b) The traveler, by reason of the assignment, necessarily incurs unusually high expenses in the conduct of official business such as for superior or extraordinary accommodations including a suite or other quarters for which the charge is well above that which he would normally have to pay for accommodations.

(c) The traveler necessarily incurs unusually high expenses incident to his assignment to accompany another traveler in a situation as described above.

d. *Maximum to be stated in travel authorization.* The amount per calendar day authorized by the agency or as prescribed herein for high rate geographical areas shall be stated in the travel authorization for a specific travel assignment.

e. *Conditions warranting approval.* If travel is performed without prior authorization or is authorized on a per diem basis and otherwise conforms to the provisions of this part, the actual and necessary subsistence expenses incurred may be approved within the authorized maximum rates as stated herein.

#### 1-8.2. Authorized reimbursement.

a. *Maximum daily reimbursement.* When the actual subsistence expenses incurred during any one day are less than the daily rate authorized, the traveler will be reimbursed only for the lesser amount. The daily rate shall not be prorated for fractions of a day; however, expenses incurred and claimed for a fraction of a day shall be reviewed and allowed only to the extent determined to be reasonable by the agency concerned. The maximum amount of reimbursement for actual subsistence expense travel which may be authorized or approved for each calendar day or fraction thereof, is limited as follows:

(1) For travel within the conterminous United States to designated high rate geographical areas, under the provisions of 1-8.1b, the maximum authorized rates have been set administratively as provided in 1-8.6. These are uniform maximum actual subsistence expense rates and are not subject to change by the agencies concerned. However, this does not preclude agency determination of other appropriate and necessary rates under 1-8.2a(2) if the travel to a high rate geographical area also involves un-

usual circumstances of the travel assignment.

(2) For travel within the conterminous United States involving unusual circumstances, the statutory maximum daily rate is \$50. Agencies shall determine appropriate and necessary daily maximum rates not to exceed this amount.

(3) For travel outside the conterminous United States involving unusual circumstances, the statutory maximum daily rate is \$21 per day plus the maximum per diem allowance officially established for the overseas locality in which the travel is performed (see 1-7.2). Agencies shall determine appropriate and necessary daily maximum rates not to exceed this limitation.

b. *Allowable expenses.* Actual subsistence expense reimbursement shall be allowed for the same type of expenses normally covered by the per diem allowance under the provisions of 1-7.1b.

c. *Special rules for mixed travel (per diem and actual subsistence expense).* Travel may be authorized or approved on both a per diem basis and an actual subsistence expense basis during a single trip when travel is performed in several locations including high rate geographical areas; however, only one method of reimbursement (per diem or actual subsistence expense) shall be authorized within the same day.

(1) *Rate and method of reimbursement determined by location.* In instances of mixed travel involving both per diem and actual subsistence expense, or several high rate geographical areas, the method of reimbursement and authorized rate for a calendar day (beginning at 12:01 a.m.) shall be determined by the location where the lodgings are obtained for that day. For example, when a traveler performs travel in a per diem area for part of a day and completes that day's travel in a high rate geographical area where he performs official duty and obtains lodging, the traveler should be reimbursed under the actual subsistence expense method for the entire day not to exceed the maximum rate prescribed for the high rate geographical area where the lodgings were obtained.

(2) *Reimbursement for day of return.* The method of reimbursement for the day of return to home or official station (where lodgings are not involved) shall be the same method of reimbursement authorized for the first day of travel. For example, if a traveler is authorized actual subsistence expense reimbursement for the first day of travel, reimbursement for the day of return to home or official station shall also be on an actual subsistence expense basis; if per diem is authorized for the first day of travel, per diem shall also be authorized for the day of return to home or official station.

(3) *Reimbursement computation.* A traveler's claim for reimbursement may include several different rates depending upon the location(s) in which travel is

performed. See figure 1-8.2c for examples showing computation of mixed travel reimbursement.

#### 1-8.3 Agency responsibilities, review, and administrative controls.

a. *Delegation of authority.* Heads of agencies may delegate, with provisions for limited redelegation, authority to authorize or approve travel on an actual subsistence expense basis.

(1) The delegation or redelegation of authority to authorize or approve travel on an actual subsistence expense basis due to unusual circumstances of the travel assignment shall be held to as high an administrative level as practicable to ensure adequate consideration and review of the circumstances surrounding the need for travel on the actual subsistence expense basis.

(2) Since travel to designated high rate geographical areas is automatically on an actual subsistence expense basis, the delegation or redelegation of authority to authorize or approve this type of travel should be at a lower administrative level than that stated in (1), above.

b. *Review and administrative controls.* Heads of agencies shall establish necessary administrative arrangements for an appropriate review of the justification for travel on the actual subsistence expense basis and of the expenses claimed by a traveler to determine whether they are allowable subsistence expenses and were necessarily incurred in connection with the specific travel assignment. Agencies shall ensure that travel on an actual subsistence expense basis is properly administered and shall take necessary action to prevent abuses.

11. Paragraph 1-8.6 is added as follows:

1-8.6. *Designated high rate geographical areas.* Pursuant to the provisions of 1-8.1b and 1-8.2a(1), for temporary duty travel to or within the cities designated as high rate geographical areas below, a traveler automatically shall be placed in an actual subsistence expense status and shall be reimbursed for the actual and necessary subsistence expenses incurred not to exceed the maximum rate prescribed for the particular geographical area involved.

Designated High Rate Geographical Areas	Prescribed maximum daily rates
Boston, Mass. (all locations within the corporate limits of Boston and Cambridge, Massachusetts).....	\$38
Chicago, Ill. (all locations within the corporate limits thereof).....	39
Los Angeles, Calif. (all locations within the corporate limits of the city of Los Angeles).....	37

12. Paragraph 2-2.3 is amended as follows:

2-2.3. For use of a privately owned automobile in connection with permanent change of station.

b. Mileage rates prescribed. Payment of mileage allowances when authorized or approved in connection with the transfer shall be allowed as follows:

Occupants of automobile	Mileage rate (cents)
Employee only; or 1 member of immediate family	8
Employee and 1 member; or 2 members of immediate family	10
Employee and 2 members; or 3 members of immediate family	12
Employee and 3 or more members; or 4 or more members of immediate family	15

c. Mileage rates in special circumstances. Heads of agencies may prescribe that travel orders or other administrative determinations specify higher mileage rates not in excess of 15 cents for individual transfers of employees or transfers of groups of employees when:

## DEPARTMENT OF LABOR

### Bureau of Labor Statistics

#### BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEES ON PRODUCTIVITY AND TECHNOLOGICAL DEVELOPMENTS AND FOREIGN LABOR AND TRADE

##### Meeting

There will be a joint meeting of the BRAC Committees on Productivity and Technological Developments and Foreign Labor and Trade on June 19, 1975, at 1:30 p.m., in Room 2106 of the General Accounting Office Building, 441 G Street, N.W., Washington, D.C. The agenda for the meeting is as follows:

1. The impact of the Trade Act of 1974 on BLS programs.
2. Description of developments, current status, and organizational arrangement of the following BLS programs:
  - (a) International comparisons, productivity, labor cost, and employment.
  - (b) Import-export price indexes.
  - (c) Training of foreign statisticians.
3. Brief report on the status of selected productivity programs.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auker, Executive Secretary, Business Research Advisory Council on (Area Code 202) 961-2559.

Signed at Washington, D.C. this 16th day of May 1975.

JULIUS SHISKIN,  
Commissioner of Labor Statistics.

#### Manpower Administration EMPLOYMENT TRANSFER AND BUSINESS COMPETITION

##### Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Manpower, 601 D Street, NW, Washington, D.C. 20213.

Signed at Washington, D.C. this 16th day of May, 1975.

BEN BURDETSKY,  
Deputy Assistant Secretary  
for Manpower.

Applications received during the week ending May 16, 1975

Name of applicant	Location of enterprise	Principal product or activity
Flake Realty Corp.	Fairfield, Maine	Health care facility.
Management Systems & Techniques, Inc.	Burlington, Vt.	Data processing and facilities management.
N&W Realty Corp.	Walpole, N.H.	Shopping plaza.
Northern Utilities, Inc.	Rockingham and Strafford Counties, N.H., and Androscoggin, Cumberland, and York Counties, Maine.	Distribution of natural gas.
Joseph M. Reis	Pedricktown, N.J.	Landscaping, excavating, hauling, and demolition.
Summer Bornstein	Hagerstown, Md.	Manufacture upholstery furniture.
Manheim Stone, Inc.	Manheim, W. Va.	Limestone aggregate and blacktop.
Fulton Industries, Inc.	McConnellsburg, Pa. (Tenant of McConnellsburg)	Aerial work platforms.
Farrow's Red & White Supermarket	Engelhard, N.C.	Supermarket.
Slade-Harold Foods, Inc.	West New Bern, N.C.	Manufacture and distribute feed to poultry and livestock farms.
RSC Industries, Inc.	Allendale, S.C. (Tenant of Allendale County)	Manufacture insulated copper wire.
Recycle Corp. of America	Seaside, Fla. (Tenant of Jackson County Port Authority)	Recycles used cars.

Name of applicant	Location of enterprise	Principal product or activity
Housing by Vogue, Inc.	Pembroke, N.C. (Tenant to Town of Pembroke)	Manufacture of mobile homes.
J. M. McMillan Sawmill, Inc.	Stockton, Ala.	Manufacture of hardwood lumber and chips.
The Industrial Development Board of the County of Hickman Leasing to Hickman Metal Corp.	Wright, Tenn.	Foundry (metal casting), and machined castings.
Benjamin Mill & Lumber Co., Inc.	Rose City, Mich.	Retail building materials.

#### INTERSTATE COMMERCE COMMISSION

##### IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

##### Elimination of Gateway Letter-Notices

MAY 20, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 2, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 9325 (Sub-No. E5), filed May 13, 1974. Applicant: K LINES, INC., P.O. Box 1348, Lake Oswego, Ore. 97034. Applicant's representative: Michael P. Crew, 620 Blue Cross Bldg., Portland, Ore. 97201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Cement, in bulk, between points in Washington west of the Cascade Mountains, on the one hand, and, on the other, points in Oregon, restricted against traffic moving between points in Whatcom, Skagit, Snohomish, Island, Kitsap, Clallam, Jefferson, Mason, and King Counties, Wash., on the one hand, and, on the other, points in Wallowa, Union, and Umatilla Counties, Ore. The purpose of this filing is to eliminate the gateway of points in Oregon west of the Cascade Mountains.

No. MC 9325 (Sub-No. E8), filed May 13, 1974. Applicant: K LINES, INC.,

P.O. Box 1348, Lake Oswego, Ore. 97034. Applicant's representative: Michael P. Crew, 620 Blue Cross Bldg., Portland, Ore. 97201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Cement, in bulk, from points in Washington and Oregon (except points in Klamath, Lake, Harney, and Malheur Counties), to points in Siskiyou, Del Norte, Shasta, and Humboldt Counties, Calif. The purpose of this filing is to eliminate the gateways of points in Benton and Franklin Counties, Wash., and points in Umatilla County, Ore., and Gold Hill, Ore., or points in Oregon west of the Cascade Mountains and Gold Hill, Ore.

No. MC 21170 (Sub-No. E127), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 4, thence along Iowa Highway 4 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 89, thence along Iowa Highway 89 to junction Iowa Highway 210, thence along Iowa Highway 210 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril, to the Iowa-Missouri State line, to points in New York, on, west, and south of a line beginning at the New York-New Jersey State line and extending along U.S. Highway 209 to junction U.S. Highway 9W, thence along U.S. Highway 9W to junction New York Highway 23A, thence along New York Highway 23A to junction New York Highway 66, thence along New York Highway 66 to junction New York Highway 295, thence along New York Highway 295 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 20, thence along U.S. Highway 20 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

York Highway 22, thence along New York Highway 22 to the New York-Connecticut State line. The purpose of this filing is to eliminate the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E128), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 9 to junction Iowa Highway 182, thence along Iowa Highway 182 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 44, thence along Iowa Highway 44 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril, to the Iowa-Missouri State line, to points in New York, on, west, and south of a line beginning at the New York-New Jersey State line and extending along U.S. Highway 209 to junction U.S. Highway 9W, thence along U.S. Highway 9W to junction New York Highway 23A, thence along New York Highway 23A to junction New York Highway 66, thence along New York Highway 66 to junction New York Highway 295, thence along New York Highway 295 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 20, thence along U.S. Highway 20 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E129), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority

sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Iowa Highway 117, thence along Iowa Highway 117 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril, to the Iowa-Missouri State line, to points in Massachusetts on and east of a line beginning at Massachusetts Bay and extending along Massachusetts Highway 18 to junction Massachusetts Highway 123, thence along Massachusetts Highway 123 to junction Massachusetts Highway 138, thence along Massachusetts Highway 138 to the Massachusetts-Rhode Island State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E130), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohurski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act, in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 9 to junction Iowa Highway 182, thence along Iowa Highway 182 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 44, thence along Iowa Highway 44 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 80, thence along U.S. Highway

80 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 34 and U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril, to the Iowa-Missouri State line, to points in Massachusetts. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E131), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohurski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and west of a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 4 to junction Iowa Highway 7, thence along Iowa Highway 7 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Iowa Highway 89, thence along Iowa Highway 89 to junction Iowa Highway 210, thence along Iowa Highway 210 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction unnumbered highway near Milton, thence along unnumbered highway through Cantril to the Iowa-Missouri State line, to points in Massachusetts on, west, and south of a line beginning at the Massachusetts-Connecticut State line and extending along unnumbered highway through Clayton and Southfield, to junction Massachusetts Highway 57 at New Marlboro, thence along Massachusetts Highway 57 to junction U.S. Highway 202, thence along U.S. Highway 202 to junction Massachusetts Highway 9, thence along Massachusetts Highway 9 to junction Massachusetts Highway 109, thence along Massachusetts Highway 109 to the Massachusetts Bay. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation, Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E132), filed June 4, 1974. Applicant: BOS LINES,

INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohurski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Iowa on and east of a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 218 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction unnumbered highway at Bloomfield, thence along unnumbered highway through Savannah, to the Iowa-Missouri State line, to points in Colorado on and south of a line beginning at the Colorado-Utah State line and extending along Colorado Highway 90 to junction Colorado Highway 145, thence along Colorado Highway 145 to junction Colorado Highway 62, thence along Colorado Highway 62 to junction U.S. Highway 550, thence along U.S. Highway 550 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Colorado-Kansas State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E170), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohurski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in Minnesota on and west of a line beginning at the United States-Canada International Boundary line and extending along Minnesota Highway 72 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Minnesota Highway 9, thence along Minnesota Highway 9 to junction U.S. Highway 94, thence along U.S. Highway 94 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Minnesota-Iowa State line, to points in Kentucky on and south of a line beginning at the Indiana-Kentucky State line and extending along U.S. Highway 64 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway

23, thence along U.S. Highway 23 to the Kentucky-West Virginia State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E171), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohurski (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food products* and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, from points in Minnesota on and west of a line beginning at the United States-Canada International Boundary line and extending along Minnesota Highway 18 to junction Minnesota Highway 1-169, thence along Minnesota Highway 1-169 to junction Minnesota Highway 21, thence along Minnesota Highway 21 to junction Minnesota Highway 135, thence along Minnesota Highway 135 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to the Minnesota-Wisconsin State line, thence along the Minnesota-Wisconsin State line to junction Minnesota Highway 58, thence along Minnesota Highway 58 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Minnesota-Iowa State line, to points in Kentucky on and south of a line beginning at the Illinois-Kentucky State line and extending along U.S. Highway 62 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Kentucky Highway 100, thence along Kentucky Highway 100 to junction U.S. Highway 31W, thence along U.S. Highway 31W to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The authorities mentioned above were purchased by Cedar Rapids Steel Transportation Inc., pursuant to MC-F-10199.

No. MC 30844 (Sub-No. E14), filed May 28, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coffee beans*, from Philadelphia to Denver, Colo., Manhattan, Pittsburg, Topeka, and Wichita, Kans., Joplin and Kansas City, Mo., Lincoln, Norfolk, and Omaha, Nebr., Bristow, Oklahoma City, and Tulsa, Okla., and Amarillo, Arlington, Bernham, Corpus Christi, Dallas, Lubbock, San Angelo, and San Antonio, Tex. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E16), filed May 28, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen vegetables*, from Camden, N.J., to Denver, Colo., Manhattan, Pittsburg, Topeka, and Wichita, Kans., Joplin and Kansas City, Mo., Lincoln, Norfolk, and Omaha, Nebr., Bristow, Oklahoma City, and Tulsa, Okla., and Amarillo, Arlington, Bernham, Corpus Christi, Dallas, Lubbock, San Angelo, and San Antonio, Tex. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E16), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, from points in Indiana on and north of Indiana Highway 18 to Kansas City, Mo. The purpose of this filing is to eliminate the gateway of Marshalltown, Iowa.

No. MC 30844 (Sub-No. E17), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coffee beans*, from New York, N.Y., to points in Texas, Oklahoma, Kansas, Nebraska, Colorado, and those points in Missouri on and west of U.S. Highway 65. The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa.

No. MC 30844 (Sub-No. E18), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen potatoes and potato products*, from Easton, Portland, and Presque Isle, Maine, to points in Texas, Oklahoma, Kansas, Nebraska, and Colorado, and Arkansas. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E19), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 788 (except

hides and commodities in bulk), from Lawrence and Topeka, Kans., Joplin and Kansas City, Mo., Henryetta, Muskogee, Oklahoma City, Okmulgee, and Tulsa, Okla., to points in Maine, Massachusetts, Vermont, New Hampshire, Rhode Island, Connecticut, Pennsylvania (except Pittsburgh), New York, New Jersey, Delaware, Maryland, District of Columbia, Ohio on and north of a line extending from the Indiana-Ohio State line along U.S. Highway 40 through Springfield and Columbus, Ohio, to junction Ohio Highway 440 (formerly portion U.S. Highway 40), near Kirkersville, Ohio, thence along Ohio Highway 440 to junction U.S. Highway 40 near Brownsville, Ohio, thence along U.S. Highway 40 through Cambridge and Bridgeport, Ohio, to the Ohio-West Virginia State line (except Columbus and Toledo, Ohio), Altoona, and points in Pennsylvania on and west of a line extending from the Maryland-Pennsylvania State line along U.S. Highway 219 through Salisbury, Johnston, Du Bois, and Bradford, Pa., to the New York-Pennsylvania State line, and Buffalo, Niagara Falls, Rochester, Syracuse, and Utica, N.Y., and Michigan (except Detroit, Flint, and Saginaw). The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 30844 (Sub-No. E20), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from Alton, Leroy, Mt. Morris, Oakfield, and South Dayton, N.Y., to Denver, Colo., Lincoln, Norfolk, and Omaha, Nebr. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E21), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cocoa beans*, from New York City to Denver, Colo., Manhattan, Pittsburg, Topeka, and Wichita, Kans., Joplin and Kansas City, Mo., Lincoln, Norfolk, and Omaha, Nebr., Bristow, Oklahoma City, and Tulsa, Okla., and Amarillo, Arlington, Bernham, Corpus Christi, Dallas, Lubbock, San Angelo, and San Antonio, Tex. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E22), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* (other than frozen), as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier*

Certificates, 61 M.C.C. 209 and 766, from Quakertown, Pa., to points in Kansas, Nebraska, Henryetta, Muskogee, Oklahoma City, Okmulgee, and Tulsa, Okla., and Denver, Colorado Springs, and Pueblo, Colo. The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 30844 (Sub-No. E23), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Flour, prepared edible flour mixes, cornmeal, bran, wheat germ, and bird feed* (except commodities in bulk), from New Prague, New Ulm, and Wabasha, Minn., to points in Texas, Arkansas, Oklahoma, Kansas, Missouri, Colorado, Nebraska, Indiana, and Ohio. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E24), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from the Lower Peninsula of Michigan to points in Missouri on and west of U.S. Highway 65 and those in Arkansas on and west of Arkansas Highway 7. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 30844 (Sub-No. E25), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Whiteford, Md., to points in Texas, Oklahoma, Kansas, Colorado, and those in Missouri on and west of U.S. Highway 65. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Keokuk, Iowa.

No. MC 73165 (Sub-No. E99), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cement asbestos pipe and plastic pipe*, which are embraced in the description in (1) below: (1) *Machinery, equipment, material, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining, and

mining of lead, zinc, iron, coal, and other minerals, and *commodities* the transportation of which by reason of their size or weight, require the use of special equipment or special handling, when any of the commodities described in this paragraph consist of the following:

(a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (b) *Machinery, equipment, materials, and supplies* used in, or in connection with, the drilling of water wells, or (c) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right-of-way, from points in that part of Montana on and east of a line beginning at the Montana-Wyoming State line near Alzada, Mont., and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Mont., thence along Montana Highway 22 to Jordan, Mont., thence northwesterly in a straight line to Malta, Mont., and thence along Montana Highway 242 to the United States-Canada International Boundary line, points in that part of North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to junction unnumbered highway at Lehr, N. Dak., and thence along unnumbered highway to Ashley, thence along North Dakota Highway 3 to the South Dakota-North Dakota State line, and points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, to points in Mississippi, Alabama, Georgia, South Carolina, and Florida. The purpose of this filing is to eliminate the gateways of Ottawa County, Okla., and Van Buren, Ark.

No. MC 73165 (Sub-No. E113), filed October 8, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Contractors' outfits and equipment* consisting of commodities described in (1) below (except those of unusual value, dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those requiring special equipment (except pipe, pipeline material, machinery, equipment, and supplies incidental to and used in con-

nection with the construction, dismantling, and repair of pipelines), (1) *Machinery, equipment, materials, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, supplies, and equipment* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining, and milling of lead, zinc, iron, coal, and other minerals, when any of the commodities described in this paragraph consist of the following: (a) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines including the stringing and picking up thereof; (b) *Machinery, equipment, materials, and supplies* used in, or in connection with, the drilling of water wells; or (c) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline right-of-way; (aa) between points in that part of Montana on and east of a line beginning at the Montana-Wyoming State line near Alzada, Mont., and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Mont., thence along Montana Highway 22 to Jordan, Mont., thence northwesterly in a straight line to Malta, Mont., and thence along Montana Highway 242 to the United States-Canada International Boundary line, points in that part of North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to junction unnumbered highway at Lehr, N. Dak., and thence along unnumbered highway to Ashley, thence along North Dakota Highway 3 to the South Dakota-North Dakota State line, and points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, on the one hand, and, on the other, points in Georgia on and south of U.S. Highway 80; (bb) from points in that part of Montana on and east of a line beginning at the Montana-Wyoming State line near Alzada, Mont., and extending along U.S. Highway 212 to junction U.S. Highway 312, thence along U.S. Highway 312 to Miles City, Mont., thence along Montana Highway 22 to Jordan, Mont., thence northwesterly in a straight line to Malta, Mont., and thence along Montana Highway 242 to the United States-

Canada International Boundary line, points in that part of North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to junction unnumbered highway at Lehr, N. Dak., and thence along unnumbered highway to Ashley, thence along North Dakota Highway 3 to the South Dakota-North Dakota State line, and points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, to points in Florida on and north of a line beginning at St. Petersburg, thence across Gandy Bridge to Tampa, thence along U.S. Highway 92 to Kissimmee, Fla., thence along U.S. Highway 192 to Melbourne, Fla., and thence along unnumbered highway to the Atlantic Seaboard. The purpose of this filing is to eliminate the gateways of Birmingham, Ala., Ottawa County, Okla., Arkansas, and Tennessee.

No. MC 83539 (Sub-No. E6), filed May 5, 1974. Applicant: C & H TRANSPORTATION CO., INC., P.O. Box 5976, Dallas, Tex. 75223. Applicant's representative: Wiley C. Willingham (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, (2) *Machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines including the stringing and picking up thereof, and (3) *Earth drilling machinery* and equipment, and *machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, the completion of holes or wells drilled, the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and the injection or removal of commodities into or from holes or wells; (1) between points in Alabama, on the one hand, and, on the other, points in Arizona (points in Texas and New Mexico), Colorado (points in Texas or Kansas), Illinois, Indiana, Kentucky (points in Tennessee), Montana (points in Texas or Kansas and Colorado), New Mexico (points in Texas), North Dakota (points in Oklahoma), Oregon (points in Kansas), South Dakota (points in Oklahoma), Utah (points in Texas or Oklahoma), Washington (points in Kansas), Wisconsin (points in Mississippi), Wyoming (points in Oklahoma or Texas or Kansas and Colorado); (2) Between points in Arizona, on the one hand, and, on the other, points in Arkansas, Illinois, Indiana, Kansas, Kentucky, Louisiana, Mississippi, Texas, Wisconsin (points in New Mexico), Florida, Georgia, Michigan, New York,

North Carolina, Ohio, South Carolina, Tennessee, Virginia, West Virginia, (points in New Mexico and Texas), Nebraska (Oklahoma and Colorado), North Dakota, South Dakota (Oklahoma), and Pennsylvania (New Mexico and Wichita Falls, Tex.); (3) between points in Arkansas, on the one hand, and, on the other, points in Colorado, North Dakota, South Dakota, Utah, Washington, Wyoming (points in Oklahoma), Montana (points in Kansas and Colorado or Texas), Nevada (points in Kansas or Kansas), Oregon (points in Oklahoma or Kansas), Illinois, Indiana, Kentucky (points in Tennessee), New York, Ohio, Pennsylvania, South Carolina, Virginia, West Virginia (points in Georgia), North Dakota, South Dakota (points in Oklahoma), Oregon, Washington (points in Kansas), Utah, Wyoming (points in Texas or Kansas and Colorado), Wisconsin (points in Mississippi), Ohio (points in Texas or Tulsa, Okla.), and Wisconsin (Wichita Falls, Tex.); (14) points in New Mexico, on the one hand, and, on the other, points in New York, West Virginia (Tulsa, Okla.), North Carolina, Tennessee, Virginia (points in Arkansas), Ohio (points in Texas or Tulsa, Okla.), Pennsylvania (Wichita Falls, Tex.), South Carolina (Arkansas or Louisiana), South Dakota (points in Colorado), (15) between points in New York, on the one hand, and, on the other, points in North Dakota (Braddock, Pa.), Oklahoma (points in Ohio), Oregon, Washington, Wyoming (points in Kansas and Braddock, Pa.), Utah (points in Colorado and Braddock, Pa.); (16) Between points in North Carolina, on the one hand, and, on the other, points in Oregon, Washington (points in Kansas), Utah, Wyoming (points in Kansas and Colorado), South Dakota (points in Oklahoma), Oregon (points in Tennessee), South Carolina (points in Oklahoma), Kentucky), (7) between points in Kansas, on the one hand, and, on the other, Montana, Utah, Wyoming (points in Colorado), New York, Pennsylvania (Braddock, Pa.), South Carolina (points in Tennessee), Virginia (points in Tennessee and Braddock, Pa.); (8) Between points in Kentucky, on the one hand, and, on the other, points in Utah, Washington, Wyoming (points in Oklahoma), Louisiana (points in Mississippi), Nevada (points in Oklahoma), North Carolina (points in Tennessee), Oregon (points in Tennessee and Kansas), (9) between points in Louisiana, on the one hand, and, on the other, points in Michigan, Nevada (points in Texas), Montana (points in Kansas and Colorado), North Dakota, South Dakota (points in Oklahoma), Utah (points in Oklahoma or Kansas and Colorado), Oregon (points in Oklahoma, Kansas, or Texas), Washington (points in Kansas, Oklahoma, or Texas), Wyoming (points in Kansas and Colorado), (10) between points in Mississippi on the one hand, and, on the other, points in Montana (points in Kansas and Colorado), Nevada (points in Texas), Oregon, Utah, Washington, and Wyoming (points in Oklahoma), (11) between points in Montana, on the one hand, and, on the other, points in North Carolina,

Tennessee (points in Colorado and Kansas), New Mexico (points in Colorado), Pennsylvania (points in Colorado, Kansas and Arkansas or Tennessee), Tennessee (points in Colorado and Kansas), Wisconsin (points in Wyoming); (12) between points in Nebraska, on the one hand, and, on the other, Nevada and New Mexico (points in Colorado); (13) between points in Nevada, on the one hand, and, on the other, points in New York (points in Ohio and Tulsa, Okla.), North Carolina (points in Colorado), Ohio (points in Texas or Tulsa, Okla.), Pennsylvania (Wichita Falls, Tex.), South Carolina (points in Kansas and Tennessee), South Dakota (points in Colorado), Tennessee (points in Texas), West Virginia (Tulsa, Okla.), and Wisconsin (points in Kansas); (14) points in New Mexico, on the one hand, and, on the other, points in New York, West Virginia (Tulsa, Okla.), North Carolina, Tennessee, Virginia (points in Arkansas), Ohio (points in Texas or Tulsa, Okla.), Pennsylvania (Wichita Falls, Tex.), South Carolina (Arkansas or Louisiana), South Dakota (points in Colorado), (15) between points in New York, on the one hand, and, on the other, points in North Dakota (Braddock, Pa.), Oklahoma (points in Ohio), Oregon, Washington, Wyoming (points in Kansas and Braddock, Pa.), Utah (points in Colorado and Braddock, Pa.); (16) Between points in North Carolina, on the one hand, and, on the other, points in Oregon, Washington (points in Kansas), Utah, Wyoming (points in Kansas and Colorado), South Dakota (points in Oklahoma), Oregon (points in Tennessee), South Carolina (points in Oklahoma), Kentucky), (7) between points in Kansas, on the one hand, and, on the other, Montana, Utah, Wyoming (points in Colorado), New York, Pennsylvania (Braddock, Pa.), South Carolina (points in Tennessee), Virginia (points in Tennessee and Braddock, Pa.); (8) Between points in Kentucky, on the one hand, and, on the other, points in Utah, Washington, Wyoming (points in Oklahoma), Louisiana (points in Mississippi), Nevada (points in Oklahoma), North Carolina (points in Tennessee), Oregon (points in Tennessee and Kansas), (9) between points in Louisiana, on the one hand, and, on the other, points in Michigan, Nevada (points in Texas), Montana (points in Kansas and Colorado), North Dakota, South Dakota (points in Oklahoma), Utah (points in Oklahoma or Kansas and Colorado), Oregon (points in Oklahoma, Kansas, or Texas), Washington (points in Kansas, Oklahoma, or Texas), Wyoming (points in Kansas and Colorado), (10) between points in Mississippi on the one hand, and, on the other, points in Montana (points in Kansas and Colorado), Nevada (points in Texas), Oregon, Utah, Washington, and Wyoming (points in Oklahoma), (11) between points in Montana, on the one hand, and, on the other, points in North Carolina,

Tennessee (points in Colorado and Kansas), New Mexico (points in Colorado), Pennsylvania (points in Colorado, Kansas and Arkansas or Tennessee), Tennessee (points in Colorado and Kansas), Wisconsin (points in Wyoming); (12) between points in Nebraska, on the one hand, and, on the other, Nevada and New Mexico (points in Colorado); (13) between points in Nevada, on the one hand, and, on the other, points in New York (points in Ohio and Tulsa, Okla.), North Carolina (points in Colorado), Ohio (points in Texas or Tulsa, Okla.), Pennsylvania (Wichita Falls, Tex.), South Carolina (points in Kansas and Tennessee), South Dakota (points in Colorado), Tennessee (points in Texas), West Virginia (Tulsa, Okla.), and Wisconsin (points in Kansas); (14) points in New Mexico, on the one hand, and, on the other, points in New York, West Virginia (Tulsa, Okla.), North Carolina, Tennessee, Virginia (points in Arkansas), Ohio (points in Texas or Tulsa, Okla.), Pennsylvania (Wichita Falls, Tex.), South Carolina (Arkansas or Louisiana), South Dakota (points in Colorado), (15) between points in New York, on the one hand, and, on the other, points in North Dakota (Braddock, Pa.), Oklahoma (points in Ohio), Oregon, Washington, Wyoming (points in Kansas and Braddock, Pa.), Utah (points in Colorado and Braddock, Pa.); (16) Between points in North Carolina, on the one hand, and, on the other, points in Oregon, Washington (points in Kansas), Utah, Wyoming (points in Kansas and Colorado), South Dakota (points in Oklahoma), Oregon (points in Tennessee), South Carolina (points in Oklahoma), Kentucky), (7) between points in Kansas, on the one hand, and, on the other, Montana, Utah, Wyoming (points in Colorado), New York, Pennsylvania (Braddock, Pa.), South Carolina (points in Tennessee), Virginia (points in Tennessee and Braddock, Pa.); (8) Between points in Kentucky, on the one hand, and, on the other, points in Utah, Washington, Wyoming (points in Oklahoma), Louisiana (points in Mississippi), Nevada (points in Oklahoma), North Carolina (points in Tennessee), Oregon (points in Tennessee and Kansas), (9) between points in Louisiana, on the one hand, and, on the other, points in Michigan, Nevada (points in Texas), Montana (points in Kansas and Colorado), North Dakota, South Dakota (points in Oklahoma), Utah (points in Oklahoma or Kansas and Colorado), Oregon (points in Oklahoma, Kansas, or Texas), Washington (points in Kansas, Oklahoma, or Texas), Wyoming (points in Kansas and Colorado), (10) between points in Mississippi on the one hand, and, on the other, points in Montana (points in Kansas and Colorado), Nevada (points in Texas), Oregon, Utah, Washington, and Wyoming (points in Oklahoma), (11) between points in Montana, on the one hand, and, on the other, points in North Carolina,

on the one hand, and, on the other, points in Oregon, Washington (points in Kansas), Utah, Wyoming (points in Kansas and Colorado), South Dakota (points in Oklahoma), Oregon (points in Tennessee), South Carolina (points in Oklahoma), Kentucky), (7) between points in Kansas, on the one hand, and, on the other, Montana, Utah, Wyoming (points in Colorado), New York, Pennsylvania (Braddock, Pa.), South Carolina (points in Tennessee), Virginia (points in Tennessee and Braddock, Pa.); (8) Between points in Kentucky, on the one hand, and, on the other, points in Utah, Washington, Wyoming (points in Oklahoma), Louisiana (points in Mississippi), Nevada (points in Oklahoma), North Carolina (points in Tennessee), Oregon (points in Tennessee and Kansas), (9) between points in Louisiana, on the one hand, and, on the other, points in Michigan, Nevada (points in Texas), Montana (points in Kansas and Colorado), North Dakota, South Dakota (points in Oklahoma), Utah (points in Oklahoma or Kansas and Colorado), Oregon (points in Oklahoma, Kansas, or Texas), Washington (points in Kansas, Oklahoma, or Texas), Wyoming (points in Kansas and Colorado), (10) between points in Mississippi on the one hand, and, on the other, points in Montana (points in Kansas and Colorado), Nevada (points in Texas), Oregon, Utah, Washington, and Wyoming (points in Oklahoma), (11) between points in Montana, on the one hand, and, on the other, points in North Carolina,

other, points in Utah, Wyoming (points in Kansas and Colorado)\*, Washington (points in Kansas)\*; (24) between points in Texas, on the one hand, and, on the other, points in Virginia (points in Tennessee)\*; and West Virginia (Tulsa, Okla.)\*; (25) between points in Utah, on the one hand, and, on the other, points in West Virginia (points in Colorado and Coffeyville, Kans.)\*, and Wisconsin (points in Colorado)\*; (26) between points in Virginia, on the one hand, and, on the other, points in Washington (points in Tennessee and Kansas or Ohio and Kansas)\*; and (27) between points in Washington, on the one hand, and, on the other, points in West Virginia (Coffeyville, Kans.)\*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 83539 (Sub-No. E32), filed June 4, 1974. Applicant: C & H TRANSPORTATION CO., INC., P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Willey C. Willingham (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which because of size or weight require the use of special equipment; (2) *Self-propelled articles*, each weighing 15,000 pounds or more (except in driveway service); and (3) *Related machinery, parts, materials, and supplies* moving in mixed loads, respectively, with the commodities described in (1) and (2) above; between points in California, on the one hand, and, on the other, points in Arkansas, Louisiana, Mississippi, and Oklahoma.

No. MC 83539 (Sub-No. E48), filed June 4, 1974. Applicant: C & H TRANSPORTATION CO., INC., 2010 W. Commerce St., P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Kenneth Weeks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of size or weight, require the use of special equipment and related machinery parts and supplies when their transportation is incidental to the transportation by the carrier of commodities which, because of size or weight, require the use of special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith, restricted to commodities which are transported on trailers, between points in Wyoming (except those in Laramie, Goshen, Platte, Albany, and Carbon Counties), on the one hand, and, on the other, points in Iowa (except those in and south of Harrison, Shelby, Audubon, Adair, Madison, Warren, Lucas, Monroe, and Davis Counties). The purpose of this filing is to eliminate the gateway of points in South Dakota.

No. MC 83539 (Sub-No. E72), filed June 2, 1974. Applicant: C & H TRANSPORTATION CO., INC., P.O. Box 5976,

Dallas, Tex. 75222. Applicant's representative: Willey C. Willingham (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and Steel Articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 from the facilities of CF&I Steel Corporation, at or near Pueblo, Colo., to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia and the District of Columbia. The purpose of this filing is to eliminate the gateway of Nashville, Tenn.

No. MC 95540 (Sub-No. E366) (Correction), filed May 16, 1974, published in the FEDERAL REGISTER May 5, 1975. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Bananas, coconuts, and pineapples, when moving in the same vehicle and at the same time with bananas, and from those points in New Jersey on and south of a line beginning at the Atlantic Ocean and extending along U.S. Highway 40/322 to junction New Jersey Highway 522, thence along New Jersey Highway 522 to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction U.S. Highway 40, thence along U.S. Highway 40 to the New Jersey-Pennsylvania State line, to those points in Alabama on and south of a line beginning at the Georgia-Alabama State line extending along Alabama Highway 10 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Alabama-Mississippi State line. The purpose of this filing is to eliminate the gateway of Jacksonville, Fla. The purpose of this correction is to include the destination points.

No. MC 95540 (Sub-No. E466) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER April 21, 1975. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, in vehicles equipped with mechanical refrigeration (except in bulk and except meat, meat products, meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 768), from those points in Texas on and south of a line beginning at the Texas-Oklahoma State line and extending along Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 82/277, thence along U.S. Highway 82/277 to junction Texas Highway 116, thence along Texas Highway 116 to

the Texas-New Mexico State line to all points in Michigan on and east of a line beginning at the Lake-Michigan-Midigan State line, extending southeast on Michigan Highway 40 to junction Michigan Highway 43, thence along Michigan Highway 43 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Interstate Highway 69, thence along Interstate Highway 69 to the Michigan-Indiana State line, thence referring to the northern peninsula of Michigan, all points on and east of a line beginning at Grand Marais on the West Bay, Lake Superior, extending along Michigan Highway 77 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction unnumbered highway, thence along unnumbered highway to the shores of Lake Michigan. The purpose of this filing is to eliminate the gateway of Florence, Ala. The purpose of this correction is to include the destination areas.

No. MC 100666 (Sub-No. E247), filed March 20, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic pipe* (except oil field commodities as described by the Commission in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from the facilities of Celanese Piping Systems, Inc., Louisville, Ky., to points in Alabama on, south, and west of a line beginning at the Alabama-Mississippi State line and extending along U.S. Highway 98 to junction Alabama Highway 225, thence along Alabama Highway 225 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 41, thence along Alabama Highway 41 to the Alabama-Florida State line. The purpose of this filing is to eliminate the gateway of Columbia, Miss.

No. MC 100666 (Sub-No. E251), filed April 11, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Paul L. Caplinger (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Lumber and pallets*, from Union City, Ga., to points in (a) Illinois on and west of a line beginning at the Kentucky-Illinois State line and extending along U.S. Highway 51 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Iowa State line, Iowa, Minnesota, Mississippi, on, north, and west of a line beginning at the Arkansas-Mississippi State line and extending along U.S. Highway 82 to junction U.S. Highway 49W, thence along U.S. Highway 49W to junction Mississippi Highway 3 to the Mississippi-Tennessee State line, North Dakota, South Dakota, and Wisconsin on and west of a line beginning at the Wisconsin-Illinois State line and extending along Interstate Highway 90

to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay, Wis.; (b) Mississippi on, west, and south of a line beginning at the Louisiana-Mississippi State line and extending along Interstate Highway 55 to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Mississippi State line; (c) Shelby, Tipton, Lauderdale, Dyer, Lake, and Obion Counties, Tenn. (except Memphis, Tenn.), and (d) Missouri and Memphis, Tenn. (except pallets to Memphis); (2) *Lumber*, from Union City, Ga., to points in (a) New Mexico, (b) Colorado, and (c) Arizona; (3) *Plywood*, from Union City, Ga., to points in (a) California, Idaho, Montana, Nevada, Oregon, Utah, and Washington, and (b) Wyoming; (4) *Wallboard, fiberboard, particleboard, composition roofing, insulating board, sheathing board, gypsum board and plywood*, from Cuthbert, Ga., to points in (a) Illinois, Iowa, Kansas, Missouri, Oklahoma, Tennessee on and west of a line beginning at the Mississippi-Tennessee State line and extending along U.S. Highway 45 to junction U.S. Highway 45E, thence along U.S. Highway 45E to the Kentucky-Tennessee State line, Texas on, west, and north of a line beginning at the Arkansas-Texas State line and extending along U.S. Highway 59 to junction Texas Highway 155, thence along Texas Highway 155 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 81, thence along U.S. Highway 81 to Laredo, Tex.; (b) California, Idaho, Montana, Nevada, Oregon, Utah, and Washington, and (c) Colorado and New Mexico; (5) *Plywood*, from Cuthbert, Ga., to points in (a) Arkansas, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin; (b) Arizona, and (c) Wyoming; and (6) *Wallboard, fiberboard, particleboard, composition roofing board, insulating board, sheathing board, and gypsum board*, from Cuthbert, Ga., to points in (a) Arizona, Minnesota, Nebraska, North Dakota, and South Dakota, and (b) Wyoming. The purpose of this filing is to eliminate the gateways of: in (1) (a), (c), and (d) above, Arkansas; in (1) (b) above, Louisiana; in (2) (a) above, Oklahoma; in (2) (b), and (c) above, Duke, Okla.; in (2) (c) and (5) (b) above, Texarkana, Tex.; in (3) (a) and (4) (b) and (6) (a) above, Pittsburg, Kans.; in (3) (b) and (5) (c) above, the plant site of Permaneer Corp., in Calhoun County, Ark.; in (4) (a), (b), and (c), (5) (a), (b), and (c), and (6) (a) and (b) above, West Memphis, Ark.; and in (6) (b) above, Henry County, Tenn.

No. MC 102657 (Sub-No. E7), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., 2040 North Loop West, Houston, Tex. 77018. Applicant's representative: Tom Wright (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from Henderson, Tex., and points in Texas within 150 miles of Henderson, to those points in Georgia south of a line beginning at the Georgia-Alabama State line and extending along Georgia Highway 26 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Georgia-South Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Co., at Avondale, La.

No. MC 102657 (Sub-No. E15), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: J. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from Henderson, Tex., and points in Texas within 150 miles of Henderson, to those points in Georgia south of a line beginning at the Georgia-Alabama State line and extending along Georgia Highway 26 to junction Interstate Highway 95, thence along Interstate Highway 95 to the Georgia-South Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Co., at Avondale, La.

No. MC 102567 (Sub-No. E12), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas, Louisiana, and Arkansas within 150 miles of Henderson, Tex., including Henderson, and which are west of a line beginning at the junction of Arkansas Highway 9, thence along Arkansas Highway 9 and U.S. Highway 79 at or near Eagle Mills, and extending along U.S. Highway 79 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction U.S. Highway 167, thence along U.S. Highway 167 to Alexandria, La., to those points in Florida south of Florida Highway 528. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Co., at Avondale, La.

No. MC 102567 (Sub-No. E13), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas and Louisiana within 150 miles of Henderson, Tex., including Henderson, and which are west of a line beginning at the Pittsburg-Atoka County line in Oklahoma, and extending along U.S. Highway 217, to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to Alexandria, La., to those points in Florida south of a line beginning at the Gulf of Mexico and extending along Florida Highway 60 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of a point in Texas within 150 miles of Henderson and the plant site of American Cyanamid Company, at Avondale, La.

No. MC 102567 (Sub-No. E15), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: J. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas and Louisiana within 150 miles of Henderson, Tex., including Henderson, and which are west of a line beginning at the Pittsburg-Atoka County line in Oklahoma, and extending along U.S. Highway 217, to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to Alexandria, La., to those points in Florida south of a line beginning at the Gulf of Mexico and extending along Florida Highway 60 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of a point in Texas within 150 miles of Henderson and the plant site of American Cyanamid Company, at Avondale, La.

No. MC 102567 (Sub-No. E27), filed June 2, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: J. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common

carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from Henderson, Tex., and points within 150 miles of Henderson, to those points in North Carolina south and east of a line beginning at the North Carolina-Virginia State line, and extending along North Carolina Highway 49 to junction North Carolina Highway 200, thence along North Carolina Highway 200 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Co., at Avondale, La.

No. MC 102567 (Sub-No. E20), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: J. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Denton, Tex., and extending along Interstate Highway 35E, to junction U.S. Highway 175, to junction U.S. Highway 69, to junction Texas Highway 63, to the Texas-Louisiana State line, to points in North Carolina. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E26), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Louisiana, Arkansas, and Texas within 150 miles of Henderson, Tex., including Henderson, and which are west of a line beginning at Big Cedar, Okla., and extending along U.S. Highway 259 to junction Texas Highway 4, to junction Texas Highway 41, to junction Texas Highway 32, to junction U.S. Highway 59, to junction U.S. Highway 80, to junction U.S. Highway 171, to junction Louisiana Highway 10, to Oakdale, La., to points in Florida. The purpose of this filing is to eliminate the gateway of points in Texas within 150 miles of Henderson, Tex., and the plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E27), filed June 2, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: J. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common

carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are liquid chemicals (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas and Louisiana within 150 miles of Henderson, Tex., including Henderson, and which are west of a line beginning at the Pittsburg-Atoka County line in Oklahoma, and extending along U.S. Highway 271 to junction U.S. Highway 80, to junction Louisiana Highway 1, to Alexandria, La., to those points in Florida south of a line beginning at the Gulf of Mexico and extending along U.S. Highway 19 to Florida Highway 528, to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of points in Texas within 150 miles of Henderson, Tex., and the plantsite of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E42), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are liquid chemicals (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas, Arkansas, Louisiana, within 150 miles of Henderson, Tex., which are west of a line beginning at Mena, Ark., and extending along U.S. Highway 167 to junction Louisiana Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Louisiana Highway 9, thence along Louisiana Highway 9 to junction Louisiana Highway 147, thence along Louisiana Highway 147 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 28, thence along Louisiana Highway 28 to junction Louisiana Highway 171, thence along Louisiana Highway 171 to junction Louisiana Highway 8, thence along Louisiana Highway 8 to junction Texas Highway 63, thence along Texas Highway 63 to junction U.S. Highway 96, thence along U.S. Highway 96 to the Gulf of Mexico, to those points in Tennessee east of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 25E to junction Interstate Highway 40, thence along Interstate Highway 40 to the Tennessee-North Carolina State line. The purpose of this filing is to eliminate the gateway of the plant site of Dow Chemicals, U.S.A., in Columbia County, Ark.

No. MC 102567 (Sub-No. E43), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are liquid chemicals (except liquefied petroleum gases), in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are west of a

line beginning at Mena, Ark., and extending along U.S. Highway 71 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Louisiana Highway 146, thence along Louisiana Highway 146 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Louisiana Highway 34, thence along Louisiana Highway 34 to junction Louisiana Highway 4, thence along Louisiana Highway 4 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Louisiana Highway 6, thence along Louisiana Highway 6 to junction Texas Highway 87, thence along Texas Highway 87 to junction Texas Highway 63, thence along Texas Highway 63 to junction U.S. Highway 96, thence along U.S. Highway 96 to junction Texas Highway 86, thence along Texas Highway 86 to Port Arthur, Tex., to those points in Tennessee east of a line beginning at the Kentucky-Tennessee State line and extending along Interstate Highway 65, thence along Interstate Highway 65 to junction Tennessee Highway 25, thence along Tennessee Highway 25 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Tennessee-Alabama State line. The purpose of this filing is to eliminate the gateway of the plant site of Dow Chemicals, U.S.A., in Columbia County, Ark.

No. MC 102567 (Sub-No. E44), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles (except liquefied petroleum gases, anhydrous ammonia, and asphalt), from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are north of a line beginning at Arkadelphia, Ark., and extending along Interstate Highway 30 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Interstate Highway 30, thence along Interstate Highway 30 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction U.S. Highway 80 and U.S. Highway 180 near Weatherford, Tex., to points in Florida. The purpose of this filing is to eliminate the gateway of El Dorado, Ark., Cotton Valley, La., and Waskom and Mt. Pleasant, Tex.

No. MC 102567 (Sub-No. E45), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products, as described in Appendix XIII to

the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles (except liquefied petroleum gas, anhydrous ammonia, and asphalt), from those points in Arkansas, Louisiana, and Texas within 150 miles of Henderson, Tex., which are west of a line beginning at Callon, Ark., and extending along U.S. Highway 167 to Alexandria, La., to those points in Florida south of U.S. Highway 50. The purpose of this filing is to eliminate the gateway of El Dorado, Ark., Cotton Valley, La., and Waskom and Mt. Pleasant, Tex.

No. MC 102657 (Sub-No. E47), filed June 3, 1974. Applicant: MCNAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles (except liquefied petroleum gas, anhydrous ammonia, and asphalt), from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are west of a line beginning at Mena, Ark., and extending along U.S. Highway 71 to junction U.S. Highway 79, thence along U.S. Highway 79 to Rockdale, Tex., to those points in Florida south of a line beginning at the Gulf of Mexico and extending along Florida Highway 24 to junction U.S. Highway 301, thence along U.S. Highway 301 to junction Florida Highway A1A, thence along Florida Highway A1A to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of El Dorado, Ark., Cotton Valley, La., and Waskom and Mt. Pleasant, Tex.

No. MC 107295 (Sub-No. E173) (Correction), filed May 14, 1974, published in the *Federal Register* March 10, 1975. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Wallboard, from the plant site and warehouse facilities of Upson Company at Bristol, Ind.; (1) to points in Alabama, California, Idaho, Minnesota, Montana, Nevada, Oklahoma, Oregon, Utah, Washington, and Wyoming; (2) to points in Arizona, Mississippi, New Mexico, and Texas; (3) to points in Connecticut, Delaware, the District of Columbia, Florida, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, West Virginia, and to points in that part of Virginia located north of U.S. Highway 460 and west of U.S. Highway 301; and (4) to points in Louisiana. The purpose of this filing is to eliminate the gateways of (1) the plant site and warehouse facilities of the Keene Corporation in Kalamazoo, Mich.; (2) Trumann, Ark.; (3) points in Lucas County, Ohio; and (4) points in Henry County, Tenn. The pur-

pose of this correction is to correct the gateway.

No. MC 111170 (Sub-No. E1) (correction), filed May 13, 1974, published in the *Federal Register* April 10, 1975. Applicant: WHEELING PIPE LINE, INC., P.O. Box 1718, El Dorado, Ark. 71730. Applicant's representative: Tom E. Moore (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (5) Petrochemicals, in bulk, in tank vehicles, from points in that part of Texas beginning at the Texas-Louisiana State line and extending along U.S. Highway 84 to Rush, Tex., thence along U.S. Highway 79 to Tyler, Tex., thence along U.S. Highway 271 to Mount Pleasant, Tex., thence along U.S. Highway 67 to the Texas-Arkansas State line and thence along the Texas-Arkansas State line and the Texas-Louisiana State line to point of beginning to points in Tennessee, restricted against the transportation of fertilizer and fertilizer ingredients. The purpose of this filing is to eliminate the gateway of Malvern, Ark. The purpose of this correction is to correct the gateway.

No. MC 111401 (Sub-No. E55), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products (except lubricating oils), in bulk, in tank vehicles, from points in Oklahoma on and north of Interstate Highway 40 and on and west of U.S. Highway 75 to points in Alabama, Kentucky, Louisiana, Mississippi, and Tennessee. The purpose of this filing is to eliminate the gateways of Ardmore, Cleveland, Cushing, Duncan, Tulsa, and Wynnewood, Oklahoma.

No. MC 111401 (Sub-No. E56), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid petrochemicals, in bulk, in tank vehicles, from points in Texas located on, south, and east of a line beginning at Galveston and extending along Interstate Highway 45 to its junction with U.S. Highway 90 to its junction with U.S. Highway 77 to the United States-Mexico International boundary line. The purpose of this filing is to eliminate the gateway of Texas City, Tex.

No. MC 111401 (Sub-No. E-87), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Nitrogen fertilizer solutions which are derived from petroleum and petroleum products, in bulk, in

tank vehicles, (1) from points in Kansas to points in Arizona on and south of U.S. Highway 66 and New Mexico on and south of U.S. Highway 66, (2) from points in Kansas on and south of U.S. Highway 54 to points in Utah. The purpose of this filing is to eliminate the gateway of Etter, Tex.

No. MC 111401 (Sub-No. E88), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Mr. Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, in tank or hopper type vehicles, from points in Arkansas on and south of a line beginning at the Texas-Arkansas State line and extending along Interstate Highway 30 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction Arkansas Highway 81, on and west of a line beginning at the junction of Arkansas Highway 4 and Arkansas Highway 81 and extending along Arkansas Highway 81 to the Arkansas-Louisiana State line to points in Arizona, Connecticut, Idaho, Maine, Massachusetts, Montana, Nevada, New Hampshire, New Jersey, New Mexico, North Dakota, Rhode Island, South Dakota, Utah, Vermont, and Wyoming. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 111401 (Sub-No. E89), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Mr. Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid petrochemicals, in bulk, in tank vehicles, from points in Texas south of a line beginning at the Texas-Louisiana State line and extending along Interstate Highway 10 to junction U.S. Highway 77, and east of a line beginning at U.S. Highway 10 and Interstate Highway 77 and extending along Interstate Highway 77 to junction U.S. Highway 87 to Lavaca Bay to points in Arizona, Nebraska, Utah, and Wyoming. The purpose of this filing is to eliminate the gateway of Freeport, Tex.

No. MC 111401 (Sub-No. E90), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petrochemicals, in bulk, in tank vehicles; (1) from points in Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 277 to junction U.S. Highway 83, thence along U.S. Highway 83 to the United States-Mexico International Boundary line and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 271 to junction U.S. Highway 259, thence along U.S. Highway 259 to junction U.S. Highway

69, thence along U.S. Highway 69 to the Gulf of Mexico, to points in Iowa and Nebraska; and (2) from points in Texas on and west of Texas Highway 70 and on and north of U.S. Highway 66 to points in Iowa, Missouri, and Nebraska on and east of U.S. Highway 77. The purpose of this filing is to eliminate the gateway of Wichita, Kans.

No. MC 113678 (Sub-No. E8), filed May 5, 1974. Applicant: CURTIS, INC., P.O. Box 16004 Stockyards Station, Denver, Colo. 80216. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Fresh, frozen, and cured meats, (a) from Denver, Colo., to points in Oregon on and west of Interstate Highway 5, and points in Washington on and west of Interstate Highway 5, and points in Washington on and west of Interstate Highway 5 (Alturas, Calif.); and (b) from Greeley, Colo., to points in Oregon on and west of Interstate Highway 5, and points in Washington on and west of Interstate Highway 5 (Alturas, Calif.); (2) Meats, meat products, and meat by-products as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (a) from Los Angeles, Calif., to points in Florida, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, and Wyoming; (b) from San Diego, Calif., to points in Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin (Greeley, Colo.); (c) from San Francisco, Calif., to points in Alabama, Louisiana, Mississippi, Nebraska, Oklahoma, points in Texas on and north-east of a line extending along U.S. Highway 83 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction Texas Highway 6, thence along Texas Highway 6 to Galveston, Tex.; Florida, Kansas, Missouri, Minnesota, points in North Dakota on and east of U.S. Highway 83, South Dakota, Wisconsin, and points in Iowa on and west of U.S. Highway 169 (except Sioux City, Iowa) (Greeley, Colo.); (d) from Los Angeles, Calif., to points in Alabama, Iowa, Kansas, Louisiana, (except points located south-west of U.S. Highway 90), Minnesota, Mississippi, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, Arkansas, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, Florida, Illinois (except Chicago, Ill.) (Denver, Colo.); (e) from San Diego, Calif., to points in Alabama, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, points in Arkansas on and northeast of U.S. Highway 65, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, Florida, Illinois (except Chicago, Ill.) (Denver, Colo.); (f) from San Francisco, Calif., to points in Alabama, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Ne-

braska, points in North Dakota on and east of U.S. Highway 83, South Dakota, Wisconsin, Arkansas, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, Florida, Illinois (except Chicago, Ill.) (Denver, Colo.), (g) from Los Angeles, San Diego, and San Francisco, Calif., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia (Greeley, Colo., and York, Nebr.), (h) from Los Angeles, San Diego, and San Francisco, Calif., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia (Greeley, Colo., and Lexington, Nebr.), (i) from Los Angeles, San Diego, and San Francisco, Calif., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia (Denver, Colo., and York, Nebr.), (j) from Los Angeles, San Diego, and San Francisco, Calif., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia (Denver, Colo., and Lexington, Nebr.), (k) from Los Angeles, San Diego, and San Francisco, Calif., to points in North Carolina, South Carolina, and South Dakota (Sterling, Colo.), and (l) from Colorado Springs, Colo., to points in California, points in Oregon on and west of U.S. Highway 395, and points in Washington on and southwest of a line extending along U.S. Highway 97 to junction Washington Highway 17, thence along Washington Highway 17 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 10, thence along U.S. Highway 10 to the Washington-Idaho State line (Teec Nos Pos, Ariz.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113678 (Sub-No. E12), filed May 5, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Frozen meats, frozen meat products, and frozen meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the facilities of Iowa Beef Processors, Inc., at or near LeMars, Iowa, to points in Washington, Oregon, and Idaho (Hall County (Grand Island), Nebr.); (2) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (a) from the facilities of Iowa Beef Processors, Inc., at or near LeMars, Iowa, to points in Colorado (except Denver, Colo.) (Lexington,

Nebr.), and (b) from the facilities of Iowa Beef Processors, Inc., at or near LeMars, Iowa, to points in Arizona, California, Nevada, and points in that part of New Mexico on and west of a line extending along Interstate Highway 25 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line (Lexington, Nebr., and Greeley, Colo.). Restriction: The operations authorized in (1) and (2) above, are restricted to the transportation of shipments originating at the described plant site of and storage facilities. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113678 (Sub-No. E18), filed May 5, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Frozen meats, frozen meat products, and frozen meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Ames, Iowa, to points in Arizona, California, Nevada, and points in New Mexico on and west of U.S. Highway extending along Interstate Highway 25 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line (Denver, Colo.); (2) *Frozen dairy products, frozen bakery products, frozen fruits, frozen vegetables, frozen berries, frozen french fries, frozen pizza, and pizza pie ingredients*, from Ames, Iowa, to points in New Mexico on and west of a line extending along Interstate Highway 25 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line (Denver, Colo.); and (3) *Frozen dairy products, frozen bakery products, frozen fruits, frozen vegetables, frozen berries, frozen french fries, frozen pizza, and pizza pie ingredients*, from Ames, Iowa, to points in New Mexico on and west of a line extending along Interstate Highway 25 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line (Denver, Colo.). The purpose of this filing is to eliminate the gateways indicated with asterisks above.

No. MC 113678 (Sub-No. E64), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat by-products*, and *articles* distributed by meat packinghouses, as defined in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the plant sites

of Cornland Dressed Beef Company, at or near Lexington, Nebr., and Minden Beef Company, at or near Minden, Nebr., (a) to points in Montana on and west of a line extending from the United States-Canada International Boundary line along County Highway 247 to junction Montana Highway 24, thence along Montana Highway 24 to junction Montana Highway 200, thence along Montana Highway 200 to junction Montana Highway 22, thence along Montana Highway 22 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction County Highway 315, thence along County Highway 315 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line (Greeley, Colo.), and (b) to points in North Carolina and South Carolina (Sterling, Colo.); (2) *Meats, meat products, and meat by-products*, as defined in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the plant sites of Cornland Dressed Beef Company, at or near Lexington, Nebr., and Minden Beef Company, at or near Minden, Nebr., to points in California, Arizona, Nevada, and points in New Mexico on and west of Interstate Highway 25 (Greeley, Colo.); and (3) *Fresh, frozen, and cured meats*, from the plant sites of Cornland Dressed Beef Company, at or near Lexington, Nebr., and Minden Beef Company, at or near Minden, Nebr., to points in Oregon on and west of Interstate Highway 5 (Greeley, Colo., and Alturas, Calif.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113678 (Sub-No. E66), filed May 17, 1974. Applicant: CURTIS, INC., 4810 Pontiac St., Commerce City, Colo. 80022. Applicant's representative: David L. Metzler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Frozen meats, frozen meat products, and frozen meat by-products*, and *frozen articles* distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, and hides), (1) from points in Idaho, Oregon, and Washington (except Kennewick), (a) to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia (Lexington, Nebr.), (b) to Chicago, Ill. (Omaha, Nebr.), (c) to points in Alabama, Louisiana, Mississippi, Arkansas, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, West Virginia, and Illinois (except Chicago) (Denver, Colo.), (d) to points in Kansas, Missouri, Oklahoma, and Texas (Greeley, Colo.); (2) from points in Idaho on and south of a line extending along Interstate Highway 80N to junction Idaho Highway 68,

thence along Idaho Highway 68 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Idaho-Wyoming State line, (a) to points in Iowa east of U.S. Highway 169, and to Sioux City, Iowa (Denver, Colo.); (b) to points in Wisconsin on and south of U.S. Highway 8, points in Minnesota on and south of a line extending along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, and points in Iowa on and west of U.S. Highway 169 (except Sioux City) (Greeley, Colo.).

(3) From points in Washington (except Kennewick and points east of U.S. Highway 97), (a) to points in Iowa east of U.S. Highway 169, and to Sioux City, Iowa (Denver, Colo.), and (b) to points in Iowa on and west of U.S. Highway 169 (except Sioux City), points in Minnesota on and south of a line extending along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-Wisconsin State line, and points in Wisconsin on and south of a line extending along U.S. Highway 12 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction Wisconsin Highway 22, thence along Wisconsin Highway 22 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Wisconsin-Michigan State line (Greeley, Colo.); (B) *Frozen meats, frozen meat products, and frozen meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (1) from points in Idaho, Oregon, and Washington (except Kennewick), (a) to points in Maine, New Hampshire, Vermont, Ohio, and Michigan (the plant site of Black Hills Packing Company at Rapid City, S. Dak.), and (b) to points in Florida (Denver, Colo.); (2) from points in Idaho on and south of a line extending along Interstate Highway 80N to junction Idaho Highway 68, thence along Idaho Highway 68 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Idaho-Wyoming State line, from points in Washington (except Kennewick and points east of U.S. Highway 97), and from points in Oregon, to points in that part of Iowa east of U.S. Highway 169, and to Sioux City, Iowa (Denver, Colo.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 113908 (Sub-No. E16), filed June 4, 1974. Applicant: ERICKSON TRANSPORT CORPORATION, P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kansas 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Condensed milk and cream*, in bulk, in tank vehicles, from Kansas City, Missouri to points in Tennessee (except points in the Lake, Obion, Carroll, Benton, Henry and Dyer Counties). The purpose of this filing is to eliminate the gateway of Little Rock, Ark.

No. MC 113908 (Sub-No. E144), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Missouri 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kansas 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vinegar and vinegar stock*, in bulk, in tank vehicles, from points in California (except Riverside, San Bernardino, and Imperial Counties) to Oklahoma City, Okla. The purpose of this filing is to eliminate the gateway of Paris, Tex.

No. MC 114457 (Sub-No. E1), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Edible animal fats, animal oils, vegetables oils, including products and blends thereof, in packages, and oleomargarine in packages*, from the site of the refinery plant of Swift & Company, at or near Bradley, Ill., to points in Nebraska in and north of Keith, McPherson, Logan, Blaine, Loup, Holt, and Knox Counties. The purpose of this filing is to eliminate the gateway of the plant site of the Green Grant Company at or near Blue Earth, Minn.

No. MC 114457 (Sub-No. E11), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers*, and when moving therewith, *container ends and containers accessories*, from the plantsite and warehouse facilities of Continental Can Company, Inc., at St. Joseph, Mich., to points in West Virginia in and east of Pleasants, Ritchie, Calhoun, Braxton, Nicholas, and Greenbrier Counties. The purpose of this filing is to eliminate the gateway of Detroit, Mich.

No. MC 114457 (Sub-No. E12), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers and container ends accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use

of special equipment), when moving in mixed loads with metal containers, used as a canning factory supply, from points in Minnesota in and east of Faribault, Blue Earth, Nicollet, Sibley, McLeod, Meeker, Stearns, Todd, Wadena, Hubbard, Beltrami, and Lake and Lake of the Woods Counties, to points in Texas in east and south of Bowie, Cass, Upshur, Smith, Anderson, Freestone, Morris, Leon, Madison, Brazos, Burleson, Lee, Bastrop, Caldwell, Guadalupe, Bexar, Medina, Uvalde, and Kinney Counties. The purpose of this filing is to eliminate the gateway of St. Louis, Mo.

No. MC 114457 (Sub-No. E13), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers, container ends, and accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk or those which because of size or weight require special equipment), from the plant site or warehouse facilities of Continental Can Company, Inc., at Peoria, Ill., to points in Tennessee in and east of Robertson, Davidson, Williamson, Maury and Giles Counties. The purpose of this filing is to eliminate the gateway of Kankakee, Ill.

No. MC 114457 (Sub-No. E19), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in North Dakota, to points in Iowa in and east of Kossuth, Humboldt, Webster, Carroll, Audubon, Cass, Adams, and Taylor Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E20), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in North Dakota to points in Illinois. The purpose of this fil-

ing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E21), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers from points in Missouri to points in Wisconsin in and west of Pierce, St. Croix, Barron, Sawyer, and Ashland Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E22), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Iowa in and east of Winnebago, Hancock, Wright, Hamilton, Boone, Polk, Warren, Clarke, and Decatur Counties), to points in Montana. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E25), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Missouri in and east of Scotland, Knox, Shelby, Monroe, Audrain, Boone, Cole, Maries, Phelps, Texas, and Howell Counties, to points in South Dakota, in and north of Lawrence, Meade, Haakon, Stanley, Hughes, Hyde, Buffalo, Jerauld, Sanborn, Miner, Lake, and Moody Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E28), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 North Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers and (2) of container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment) when moving in mixed loads with metal containers, from Kankakee, Ill., to points in Michigan. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 114457 (Sub-No. E37), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in South Dakota in and north of Grant, Codington, Clark, Beadle, Hand, Hyde, Hughes, Stanley, Haakon, and Pennington Counties, to points in Iowa in and east of Howard, Chickasaw, Bremer, Black Hawk, Benton, Iowa, Washington, Jefferson, and Van Buren Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E40), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal canned goods containers and container ends, accessories, and materials, and supplies* used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in South Dakota in and north of Lawrence, Meade, Haakon, Stanley, Hughes, Hyde, Buffalo, Jerauld, Sanborn, Miner, Lake, and Moody Counties, to points in Missouri in and east of Scotland, Knox, Shelby, Monroe, Audrain, Boone, Cole, Maries, Phelps, Texas, and Howell Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E42), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tin plate* utilized in the manufacture of canned goods containers, from Milwaukee, Wis., to points in Montana, North Dakota, South Dakota, and points in Lyon, Osceola, Dickinson, Emmet, Sioux, O'Brien, Clay, Plymouth, and Woodbury Counties, Iowa. The purpose of this filing is to eliminate the gateway of Mankato, Minn.

No. MC 114457 (Sub-No. E43), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods metal container caps and enclosures*, from the plant and warehouse sites of Crown Cork & Seal Co., Inc., at Chicago, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E46), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E47), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E48), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E49), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E50), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E51), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Wilson & Co., Inc., at Monmouth, Ill., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

## NOTICES

utilized in the manufacture of canned goods containers, from Milwaukee, Wis., to points in Montana, North Dakota, South Dakota, and points in Lyon, Osceola, Dickinson, Emmet, Sioux, O'Brien, Clay, Plymouth, and Woodbury Counties, Iowa. The purpose of this filing is to eliminate the gateway of Mankato, Minn.

No. MC 114457 (Sub-No. E114), filed June 4, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tin plate* used as a canning factory supply from the plant site of the Bethlehem Steel Corporation, located at Burns Harbor, Ind., to points in Montana and South Dakota. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E117), filed June 4, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site of Armour and Company, near Worthington, Minn., to points in Montana. The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E122), filed June 4, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned meats and canned meat products*, from the plant site and storage facilities utilized by Wilson & Co., Inc., at or near Cherokee, Iowa, to points in North Dakota, Montana, and South Dakota (except points in Charles Mix, Douglas, Hutchinson, Bon Homme, Turner, Yankton, Lincoln, Clay, and Union Counties). The purpose of this filing is to eliminate the gateway of points in Minnesota.

No. MC 114457 (Sub-No. E134), filed May 25, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Wisconsin in and north of Pepin, Eau Claire, Clark, Marathon, Shawano, Oconto, and Door Counties, to points in Iowa in and west of Worth, Cerro Gordo, Franklin, Hamilton, Boone, Guthrie, Cass, Montgomery, and Page Counties. The purpose of this fil-

ing is to eliminate the gateway of Chanhassen, Minn.

No. MC 114457 (Sub-No. E137), filed May 25, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in North Dakota, to points in Iowa in and east of Kossuth, Humboldt, Webster, Carroll, Audubon, Cass, Adams, and Taylor Counties. The purpose of this filing is to eliminate the gateway of Chanhassen, Minn.

No. MC 114457 (Sub-No. E138), filed May 25, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Montana to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Chanhassen, Minn.

No. MC 114457 (Sub-No. E139), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Missouri, to points in Wisconsin in, north, and west of Iron, Price, Rusk, Chippewa, Dunn, and Pepin Counties. The purpose of this filing is to eliminate the gateway of Chanhassen, Minn.

No. MC 114457 (Sub-No. E140), filed June 3, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen meats and frozen meat products*, from the plant site of Armour and Company, near Worthington, Minn., to points in Connecticut, Delaware, Indiana, the Lower Peninsula of Michigan, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and the District of Columbia. The purpose of this filing is to eliminate the gateways of St. James Madella, and Butterfield, Minn.

No. MC 114457 (Sub-No. E141), filed May 25, 1974. Applicant: DART TRAN-SIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Iowa in and east of Kossuth, Humboldt, Webster, Carroll, Audubon, Cass, Adams, and Taylor Counties, to points in North Dakota. #### ASSIGNMENT OF HEARINGS

May 20, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 21436 Sub 3, Thomas F. Welsh, d.b.a. Reliance Van Company, now assigned June 3, 1975 at Washington, D.C., is postponed indefinitely.

MC 61592 (Sub 321), Jenkins Truck Line, Inc. and MC 119493 (Sub 110), Monken Co., Inc., now assigned June 5, 1975, at Chicago, Ill., is postponed indefinitely.

MC 96881 Sub 16, Orville M. Fine, d.b.a. Fine Truck Line, Inc., now assigned July 21, 1975, at Little Rock, Arkansas, is canceled and reassigned for hearing on July 21, 1975, at Fayetteville, Arkansas; in a hearing room to be designated later.

MC 74321 Sub 105, B. F. Walker, Inc., now assigned June 30, 1975 at Washington, D.C., is canceled and application dismissed.

MC 107304 Sub 10, Transway, Inc., now assigned July 8, 1975, at New Orleans, Louisiana will be held at the Sheraton-Chateau LeMoine, 301 Rue Dauphine Street.

MC 123407 Sub 197, Sawyer Transport, Inc., now assigned June 10, 1975, at Denver, Colorado, will be held in Room 269 2nd Floor, Federal Building & U.S. Post Office, 1823 Stout Street.

MC 61592 Sub 329, Jenkins Truck Line, Inc. and MC 124692 Sub 136, Sammons Trucking now assigned June 11, 1975, at Denver, Colorado, will be held in Room 269 2nd Floor, Federal Building & U.S. Post Office, 1823 Stout Street.

MC 133233 Sub 32, Clarence L. Werner, d.b.a. Werner Enterprises, now assigned June 16, 1975, at Denver, Colorado, will be held in Room B-230, New Custom House, 721 19th Street.

MC 111375 Sub 72, Pirkle Refrigerated Freight Lines, Inc., MC 117119 Sub 522, Willis Shaw Frozen Express, Inc. and MC 119619 Sub 77, Distributors Service Co., now assigned June 18, 1975, at Denver, Colorado, will be held in Room B-230 New Custom House, 721 19th Street.

MC 129480 Sub 14, Tri-Line Expressways Ltd. and 133941 Sub 4, Northern Industrial Carriers Ltd., now assigned June 23, 1975, at Denver, Colorado, will be held in Room 587 Tax Court, U.S. Federal Building, 1927 Stout Street.

MC 111729 Sub 497, Puroator Courier Corp., now being assigned for pre-hearing conference on June 23, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-P-11986, Ligon Specialized Hauler, Inc.—Purchase (Portion)—Webb Transfer Line, Inc., John C. Ryan, Trustee, MC-P-11988 O'Nan Transportation Co., Inc.—Purchase (Portion)—Webb Transfer Line, Inc., John C. Ryan, Trustee, and MC 133916 O'Nan Transportation Co., Inc., now assigned June 16, 1975, at Washington, D.C. is cancelled and the application dismissed.

[Notice No. 294]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

May 23, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's

Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 12, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75713. By order of May 15, 1975, the Motor Carrier Board approved the transfer to Reyco Motor Express, Inc., Fort Smith, Ark., of Certificates of Registration No. MC-28892 (Sub-No. 3), MC-28892 (Sub-No. 4) and MC-28892 (Sub-No. 6) issued April 1, 1965, August 23, 1968 and December 13, 1972 respectively to Potet Truck Lines, Inc., Little Rock, Ark., evidencing a right to engage in transportation in interstate commerce as described in motor carrier Certificates No. B-219 and M-362 issued by the Arkansas Transportation Commission. David A. Sutherland, 1140 Conn. Ave., NW, Washington, D.C. 20036, Attorney for applicants.

No. MC-FC-75824. By order of May 19, 1975, the Motor Carrier Board approved the transfer to Helen G. Lee, doing business as Refrigerated Express, Huntington, W. Va., of that portion of the operating rights in Certificate No. MC-4197 issued December 18, 1963, to Logan Transfer Company, a corporation, Huntington, W. Va., authorizing the transportation of such commodities as are manufactured, sold, and distributed by packinghouses, between Williamson and Logan, W. Va., on the one hand, and, on the other, points in Wyoming, Logan, and Lincoln Counties, W. Va., and between Logan, W. Va., on the one hand, and, on the other, points in Mingo and Wayne Counties, W. Va., and those in Pike County, Ky.; and meats, meat products and meat by-products, dairy products, and articles distributed by meat packinghouses, between Logan, W. Va., on the one hand, and, on the other, points in Cabell and Putnam Counties, W. Va., Lawrence and Scioto Counties, Ohio, Russell, Ky., and points in Boyd and Lawrence Counties, Ky., and from Huntington, W. Va., to points in West Virginia, Ohio, and Kentucky within 100 miles of Huntington, W. Va. John M. Friedman, 2930 Putnam Avenue, Hurricane, W. Va. 25526, Registered Practitioner for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

## DEPARTMENT OF LABOR

Office of the Secretary

■

## HIGH UNEMPLOYMENT AREAS

Comprehensive Manpower Programs  
and Grants

V 40-101 MAY 23 75

XUM

## Title 29—Labor

## SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

## COMPREHENSIVE MANPOWER PROGRAM AND GRANTS TO AREAS OF HIGH UNEMPLOYMENT

On Friday, March 7, 1975, the Department of Labor published in the *FEDERAL REGISTER* (40 FR 10828) proposed revisions to the regulations for Titles I and II of the Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, 87 Stat. 839 and Pub. L. 93-567 88 Stat. 1845), to take effect with the planning and implementation of programs funded for Fiscal Year 1976. At that time, the Department invited interested persons to submit comments on the regulations, and stated that the comments received by April 7, 1975, would be evaluated to determine whether the regulations should, in any respect, be amended.

On Wednesday, March 26, 1975, the Department of Labor published in the *FEDERAL REGISTER* (40 FR 13452) material inadvertently omitted from the proposal published on March 7, 1975. Comments were received on this additional material until April 17, 1975.

Numerous comments were received by the Department pursuant to these invitations. The Department studied these comments carefully, and established an evaluation procedure to allow consideration of each comment on its own merits and in relation to other comments received on the same or similar subjects.

This evaluation procedure has resulted in a decision to amend the current regulations for Titles I and II in certain respects. These amendments are described below and are incorporated in a set of revised regulations published today. With one exception, these revised regulations are not applicable to programs developed and operated for Fiscal Year 1975. Those programs will continue to be governed by the regulations published June 4, 1974. The one exception relates to the requirement contained in these revised regulations requiring public disclosure of the names of program participants and staff. That requirement will also apply to Fiscal Year 1975 programs.

A short explanatory statement accompanies each amendment description. A description of the amendments follows:

In § 94.1, *Scope and purpose of the Act*, the list of Titles of the Act has been amended to be consistent with the provisions of the Emergency Jobs and Unemployment Assistance Act of 1974 (Pub. L. 93-567, 88 Stat. 1845) which established a new Title VI and renumbered the previous Title VI to Title VII. Appropriate changes have been made throughout the regulations to reflect the change of Title VI to Title VII.

In § 94.3, *Consolidated table of contents for Parts 94-99*, the table of contents for Parts 97 and 99 of Title 29 have been included for completeness.

In § 94.4, *Definitions*, the following additions and changes have been made:

The definition for "area of substantial unemployment" has been limited to

Title II, since "area of substantial unemployment" for Title VI purposes is defined in Part 99;

A definition of the word "audit" has been added to clarify the specific activities that are meant by such a procedure;

A definition of the term "audit standards" has been added to mean specifically the standards found in *The Standards for Audit of Government Organizations, Programs, Activities and Functions* promulgated by the Comptroller General of the United States;

All references to "client" have been changed to "participant";

The definition of "consortium" has been changed to clarify that the consortium is an entity formed by an agreement, not the agreement itself.

The definition of "dependent" has been reworded and simplified for clarification; no substantive change was made.

A definition of "disabled veteran" has been added to mean a person who served in the Armed Forces and who was discharged or released therefrom with other than a dishonorable discharge and who has been given a disability rating of 30 percentum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty;

The definition of "employing agency" has been clarified to specifically exclude private-for-profit organizations and to clarify that the administrative arm of a consortium eligible applicant can be an employing agency only for the purpose of hiring participants to administer the program;

A definition for "family" has been added to permit uniform application of the criteria for the term "economically disadvantaged";

A definition of "Federal Audits" has been added to mean those audits conducted by the U.S. Department of Labor and its agents;

The definition of "grantee" has been expanded to include Title VI eligible applicants;

A definition of "grant allotment" has been added to mean the total amount of funds under a title of the Act planned at a particular point in time to be granted to the prime sponsor in any fiscal year;

The definition of "low income" has been clarified to be used for allocation purposes only;

A definition of "manpower allotment" has been added to mean sums received by a prime sponsor distributed under sections 103(a)(1), 103(a)(2), 103(a)(4), and 103(f) of the Act;

A definition of "multijurisdictional agreement" has been added to mean an agreement between a State and a unit of local government within the State that has a population of 100,000 or more to operate a comprehensive manpower program under the Act;

A definition of "Non-Federal Audits" has been added to mean those audits conducted by State, county and city governments or their agents;

The definition for "obligation" has been broadened to include legal commitments of funds by any grantor;

The definition of "participant" has been further defined to indicate when an individual becomes a participant;

The definition of "placement" has been changed by deleting the term "self-placement" and counting those individuals who have found a job on their own initiative after receiving a service under the Act as "obtained employment." This categorization is standard for all Department of Labor usage;

The definition of "program agent" has been changed to include standards to be used in determining whether combinations of units of local government qualify as a program agent;

The definition of "program of demonstrated effectiveness" has been clarified to mean a program which demonstrates to the prime sponsor that it either has carried out a program effectively in the prime sponsor's jurisdiction or has carried out similar programs effectively in other jurisdictions, and can carry out such programs effectively in the prime sponsor's jurisdiction;

A definition for "public assistance" has been added to refer to Aid to Families with Dependent Children (AFDC) and Supplemental Security Income for the Aged, Blind, and Disabled;

The definition of "public service" has been expanded to include child care as a type of work which can be performed and to specify that part-time work may be allowed for certain individuals;

The definition of "significant segments" has been changed to specify the general types of groups which may be defined by the prime sponsor to receive services under the Act;

The definition of "States" has been clarified by mentioning the 50 States;

The definition of "underemployed person" has been changed to clarify that the poverty level income guideline criteria is applied to the individual's wages rather than the total family income; and

The definitions of "unemployed person" have been changed to permit the immediate eligibility of veterans just discharged.

Throughout Part 95 the term *Projet Operating Plan* has been changed to *Program Planning Summary and Budget Information Summary* due to the substitution of new forms required by the Office of Management and Budget (OMB).

In § 95.2, *Allocation of funds*, the language in paragraph (b)(2), (c)(2), and (c)(4) has been corrected to reflect the application of the three-part allocation formula, as well as the 50/150 provision, to the one percent State Manpower Services Council (SMSC) funds, four percent State services funds, and five percent Vocational Education funds.

In § 95.11, *Preapplication for Federal Assistance; consortium agreements*, the title of this section has been changed from "Notification of intent to apply" to "Preapplication."

The language in paragraphs (a) and (b) has been combined into one paragraph (a) to specify that the ARDM will notify all potentially eligible applicants and to require that the preapplication process set forth in Federal Management

Circular (FMC) 74-7 issued by the General Services Administration (formerly OMB Circular No. A-102) shall be followed and Preapplication for Federal Assistance, Part I (FMC 74-7) is to be used with an attachment of additional information specifically required for grants under the Act. The language of paragraph (a)(1)(iii) has been corrected to reflect that consortia prime sponsors do not have the "required general governmental authority" that State or local grantees have.

Paragraph (a)(1)(v) simplifies the signature process on the preapplication form for established consortia.

Paragraph (b) has been rewritten to describe the agreement process for consortia. It has been changed to reflect that an established consortium may attest in writing that the agreement is the same as in the prior year. The attestation must be signed by all parties to the consortium.

The role of the consortium administrative arm in employing participants has been clarified in paragraph (e) to be limited to hiring only those who will administer the program.

In § 95.13, *Planning process; advisory councils*, the language of paragraph (c) has been clarified to indicate that the Prime Sponsor Planning Council functions in relation to Title II programs as well as Title I.

A statement has been added to paragraphs (c) and (d) to caution against use of public agency employees as representatives of client groups to be selected for the Prime Sponsor Planning Council and the State Manpower Services Council (SMSC).

Paragraph (d) has been edited to consolidate all functions under (d)(4). The monitoring role of the SMSC has been emphasized, which is distinct from the Federal compliance monitoring role, and is required to be clearly defined by the SMSC and publicized to all affected agencies. The language of (d)(4)(v) has been edited to conform with the provision of the Act on the SMSC's annual report to the Governor.

In § 95.14, *Content and description of grant application*, the language in paragraph (a) has been clarified to specify that the application will be for the total grant allotment even if it is to be obligated by the ARDM in increments. Provision for incorporating Title I and Title II funds into a single grant at the discretion of the ARDM has been added.

The summary of the narrative description of the Title I program has been changed to reflect the integration into this narrative description of the description of public service employment programs funded under Title I. The item in the narrative on explanation of the consideration given to existing facilities has been elaborated and an additional item of narrative has been included which requires description of continuity of services to participants when the geographical area of the prime sponsor changes.

The Program Transition Schedule, which was necessary in the first year of transition from categorical to compre-

hensive program operations, has been deleted. All assurances applicable to Title I have been summarized and every citation of the Act has been included.

The grant signature sheet has been described and included as part of the grant application.

In § 95.15, *Comment and publication procedures relating to submission of grant application*, The phrase "no later than the date of its submission of an application to the ARDM" has been deleted from paragraph (a) since publication of the contents of a grant application must now be done 30 days prior to its submission.

Paragraph (b) has been changed to require that a copy of the newspaper publication be sent to the ARDM. The information to be published has been clarified and a comparison of performance against prior year's plan has been added in response to the requirement in section 705(f) of the Act.

The language of paragraph (c) deletes interim FY 1975 clearinghouse procedures; ongoing procedures have been retained and clarified.

A new paragraph (f) has been added to indicate the ARDM will respond to an A-95 clearinghouse comment which recommends disapproval when, after reviewing the recommendation, the ARDM decides to approve the grant without incorporating the recommendation.

In § 95.17, *Standards for reviewing grant application*, two standards have been added to paragraph (b): training for skill shortage occupations and public service jobs satisfying the requirements of § 96.23. Two of the existing standards have been elaborated as follows: an explanation of the consideration given to utilizing existing facilities has been added to the standard for selection of delivery agents, and a provision for modifying the plan in response to changing economic conditions in the locality has been added to the standard for meeting the goals of the prior year's plan.

In § 95.18, *Application approval; grant agreement*, notification by the ARDM of the clearinghouse within 7 days of any action on the application has been added to paragraph (c); the old paragraph (d) has been deleted since the grant signature sheet has been described as part of the grant application; and a new (d) has been added which provides for funding a new program year through modifying an existing grant.

In § 95.21, *Modification of grant agreement*, the language has been changed to clarify that a grant modification is required when the total grant allotment changes, not when the amount of funds obligated by the ARDM changes. In paragraph (b) the forms to be submitted when a grant modification is initiated have been explained, and in paragraph (c) the publication procedure has been simplified. A provision has been added for concurrent submittal to A-95 clearinghouses when, at the discretion of the Department, the term of the grant is extended to complete the program without a substantive change in activity.

In § 95.22, *Modification of Comprehensive Manpower Plan*, paragraph (b) has been changed to reflect the requirement for submission of changes to the Narrative Description of Program when substantial changes in program design are necessitated by changes in the Program Planning Summary or Budget Information Summary. Only substantial changes in program design will require the submission of rewritten portions of the narrative.

Paragraph (b)(2) has been changed to permit modification for subsequent quarters only, and to provide for a simplified publication procedure.

Paragraph (d) has been moved to (e) and the procedure and conditions under which the ARDM may initiate a modification have been added. The ARDM may require a modification to assure compliance with the regulations. As distinguished from the proposed regulations published March 7, 1975, the ARDM may request a reassessment and appropriate modification to the approved plan when the ARDM believes that the changing economic situation in the jurisdiction makes such a reassessment and modification necessary. The effectiveness of a prime sponsor's response to changing economic conditions will be taken into consideration in reviewing the subsequent year's grant application. If the prime sponsor disagrees with the ARDM's request, it may request a hearing. A new paragraph (d) providing for modification to the narrative has been added.

In § 95.32, *Eligibility for participation in a Title I program*, paragraph (b)(2) has been changed to indicate that economically disadvantaged, unemployed, or underemployed persons may be eligible to participate in a Title I public service employment program. Previously, only unemployed and underemployed persons were eligible.

In paragraph (d) a statement on the ineligibility of illegal aliens has been added.

The provisions on veterans in paragraph (e) have been made consistent with the Title II provisions.

A new paragraph (f) has been added which provides that EEA, Title II, and Title VI participants may be concurrently enrolled in a Title I component and may be transferred into a Title I funded program without an intervening period of unemployment. Title III participants may be enrolled in Title I if they met the Title I eligibility requirements when they first entered the Title III program.

A new paragraph (g) has been added which states that while the selection of students for participation is not prohibited, in providing for any such participation, prime sponsors should give special consideration to those most in need of services under the Act.

In § 95.33, *Types of manpower program activity available*, clarification of the minimum wage requirements under the Act as they apply to the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of

## RULES AND REGULATIONS

the Pacific Islands has been made throughout Part 95.

Reference to § 95.24 has been included in the section on participant benefits provided to OJT participants in paragraph (d) (2) (vi).

A statement has been added to paragraph (d) (3) which provides that public service employment includes subsidized employment opportunities with public employers as well as private non-profit employers.

Paragraph (d) (3) (i) states the specific exclusions of requirements in Part 96 when public service employment is conducted under Title I.

In paragraph (d) (4) (i), a statement has been inserted that requires the prime sponsor to describe the design of a work experience program in the approved Comprehensive Manpower Plan. The description includes the basic design, a statement on the characteristics of the work experience participants, the objectives of the activity, the duration and expected outcomes of work experience.

In paragraph (d) (4) (vi), the method of compensation of work experience participants has been limited to wages. Previously, prime sponsors had the option of paying either allowances or wages.

In paragraph (d) (5), two new subparagraphs have been inserted. A new paragraph (iii) indicates that post placement services may be provided to terminated participants for a period of 30 days from termination. Also, a new paragraph (iv) provides that participants enrolled in services to participants, as a component of another activity, may be paid allowances. Participants may also receive allowances for time spent in services to participants if such activities are on a regularly scheduled basis.

In paragraph (d) (6), a new paragraph has been inserted which provides that allowances may be paid to participants enrolled in other manpower activities when they are provided as a component of another activity or as a separate activity on a regularly scheduled basis. These activities must be described in the Comprehensive Manpower Plan. The new paragraph is numbered (iii) *Participants benefits*.

A new subsection has been added as paragraph (e), *Combined activities*, which provides that a prime sponsor may establish a uniform compensation system for participants enrolled simultaneously in training and employment activities. If the prime sponsor sets up such a system it shall only pay wages to participants if their primary activity is an activity for which wages are paid; the prime sponsor shall only pay allowances to participants if their primary activity is an activity for which allowances are paid.

In § 95.34, *Training allowances*, the subsections starting with paragraph (c), *Eligibility for allowances*, through paragraph (k), *Repayments*, have been revised. The highlights of the revisions include:

(a) The basic allowance payment system is a straight minimum wage rate of

compensation for each scheduled hour of participation.

(b) Scheduled participation may include classroom training, services to participants, and other activities, and need not be limited to classroom sessions only.

(c) Dependents allowances are to be provided as an addition to the basic allowances and may not be adjusted or prorated for part-time participation or absences. Dependents allowances may only be waived when the entire basic allowance is waived.

(d) Incentive allowances of \$30 per week are in lieu of basic allowances to participants who receive public assistance; however, the incentive allowance may be reduced pro rata only for absences without good cause.

(e) The waiver provisions for the basic allowance have been clarified by requiring the prime sponsor to describe the circumstances under which allowances will be waived. In addition, specific conditions under which a waiver can be provided have been included.

Sections 95.36, 95.37, 95.38, 95.39, and 95.41 have been deleted and inserted in Part 96 since these sections apply to both Title I and Title II funded programs. This transfer of sections will clarify the operational provisions of Titles I and II programs and provide greater consistency. The remaining § 95.40 and § 95.42 have been renumbered as § 95.36 and § 95.37, respectively.

Throughout Subpart D the words "Vocational Education" have been preceded by the word "State" where applicable, for clarification purposes.

In § 95.52, *Grant application*, a new sentence has been added at the end of paragraph (a), "A copy of all forms and instructions for the Application for Special Grants is contained in the Forms Preparation Handbook."

The summarization of the special grant program narrative has been clarified and additional items on costs have been added to correspond with the narratives being required.

A new paragraph (b) (2) (iv) has been added to include a description of the Special Grant Signature Sheet and to indicate it is part of the grant package.

Paragraph (b) (2) (iii) (C) (4) has clarified the role of the State in fulfilling the Secretary's responsibility under mandatory listing.

In § 95.54, *Modifications; limitations on use of funds*, the language has been clarified to indicate that a grant modification is required when the total grant allotment changes, not when the amount of funds obligated by the ARDM changes.

In § 95.55, *Governor's distribution of Vocational Education funds*, a requirement has been added that the Governor inform prime sponsors of the methodology used to distribute funds within the State.

In § 95.56, *Program operation*, paragraph (a) (2) clarifies the definition of supportive services and specifies the use of Vocational Education funds under the Act to pay allowances and administrative costs.

The role of the State in mandatory listing has been clarified.

In § 95.57, *Funding; grant administration*, a provision for the pass-through to the local non-financial agreement program of at least 50 percent of the funds allocated to administration has been added.

In § 96.1, *Scope and purpose*, a new paragraph (b) has been added stating that all provisions for Title II programs for Indian tribes on Federal and State reservations are found in Subpart D of Part 96.

The original paragraphs (b) and (c) have been relettered as (c) and (d).

In § 96.2, *Allocation of funds*, in paragraph (b) (2), the words "fiscal year" have been inserted before the word "allocation" in the last sentence for clarification.

In paragraph (c) the words "due to the level of unemployment" have been deleted and the words "under the formula specified in paragraph (b) (1) for use" have been substituted for clarification purposes.

In § 96.3, *Eligibility of funds*, paragraph (e) (2) has been subdivided into two sections ((e) (2) (i) and (e) (2) (ii)). Paragraph (e) (2) (i) remains unchanged from the original (e) (2) in the June 4, 1974, regulations. Paragraph (e) (2) (ii) has been added to specify that no eligible applicant may make other arrangements for serving an area of substantial unemployment within the jurisdiction of a program agent except with the review and concurrence of the ARDM.

A new paragraph (f) (3) has been added specifying that an eligible applicant or program agent with less than a 6.5 percent unemployment rate must allocate its funds for those areas of substantial unemployment specified by the Secretary.

In §§ 96.10-96.19, dealing with the procedures for obtaining and modifying a grant, revisions have been made to make these procedures consistent with those contained in §§ 95.10-95.22 of Part 95 of the regulations.

In § 96.14 (b) (2) (iv), a Monthly Schedule, giving a monthly estimate of total individuals on board at the end of the month and total cumulative expenditures, has been added as an additional part of the Comprehensive Title II Plan. Additional assurances required only for Title II are summarized in § 96.14 (b) (3).

In § 96.21 (h), *Basic responsibilities of eligible applicants*, the language has been revised to indicate that eligible applicants must assure that employing agencies provide information regarding their job openings to the employment service for the benefit of those veterans specified in § 96.30 (a).

In § 96.22, *Basic responsibilities of program agents; relationship with eligible applicants*, in paragraph (c), the word "irreconcilable" has been changed to "unreconciled" for editorial purposes. A new paragraph (d) has been added stating that, if a program agent fails to administer its program in accordance with the grant application, the eligible applicant may take corrective action, including the reallocation of funds (subject to the concurrence of the ARDM).

In § 96.23, *Acceptable public employment positions*, paragraph (b) (4) has been revised to add a sentence specifying that the eligible applicant has the ultimate responsibility for determining the equitable distribution of jobs to State and local agencies and for all other aspects of the jobs.

A new paragraph (b) (5) has been added clarifying that, to the extent consistent with the maintenance of effort requirements of § 96.24, private non-profit agencies which provide public service employment may be allocated jobs.

A new paragraph (b) (6) has been added stating that participants may be outstationed in Federal agencies.

A new paragraph (b) (7) has been added specifying that jobs may be located outside an eligible applicant's jurisdiction, if the eligible applicant feels it is necessary for an effective program, provided that they employ residents of the eligible applicant's jurisdiction and are within reasonable commuting distance.

The original paragraphs (b) (5) through (b) (10) have been renumbered as (b) (8) through (b) (13).

In § 96.24, *Maintenance of Effort*, a paragraph (c) has been added clarifying that no eligible applicant may lay-off, terminate or reduce the working hours of employees in anticipation of hiring them under Title II of CETA.

A paragraph (d) has been added including the policy formerly contained in § 96.27 (h) that no person may be hired when any other person is on lay-off from the same or any substantially equivalent job and adding the specification that if lay-offs of regular employees occur during the Title II grant period, Title II participants may not remain working in the same or substantially equivalent job with that employing agency. Under these circumstances, the Title II participants would either be transferred to positions not affected, or laid-off. The addition was made to further clarify the intent of the maintenance of effort provisions.

A paragraph (e) has been added specifying that the ARDM, at his discretion, may request the submission of pertinent documentation relevant to the maintenance of effort requirements of § 96.24.

In § 96.25, *Responsibility for selecting participants*, paragraph (a) has been revised to specify that the ultimate responsibility for the selection of participants rests with the eligible applicant and that it may delegate the administration of this responsibility, subject to its direction.

In the last sentence of this paragraph the words "for a reasonable period of time" have been replaced by "as provided in § 96.18 (b)" in order to clarify the period of time selecting agencies shall retain the applications of persons not selected for participation. Similarly, the words "as provided in § 96.18 (b)" have been inserted in the next to last sentence of the paragraph after the word "folder".

In § 96.26, *Place of residence for participants*, the title has been changed from *Special limitations on programs and participant selection* because several of the

## RULES AND REGULATIONS

22677

original paragraphs have been deleted from this section and placed in Part 98 of these regulations. This has resulted in the renumbering of the original paragraphs and subsections which remain.

Paragraph (a) (2) has been expanded to cover the possibility of an eligible applicant receiving additional funds as a subgrantee of another eligible applicant for manpower program activities as well as for public service jobs. A sentence has been added specifying that jobs or programs must be within reasonable commuting distance of residents of the other eligible applicant's jurisdiction.

Paragraph (b) has been expanded to cover the possibility of both manpower activities and public service jobs being funded and to allow such activities or jobs to be located outside, as well as within, the boundaries of the consortium.

The original paragraphs (b), (c), and (d) have been deleted from Part 96 of these regulations and have been incorporated into Part 98.

In § 96.27, *Eligibility for participation in a Title II program*, a sentence has been added stating that an individual who obtains permanent, full-time employment after application may no longer be considered eligible.

A new paragraph (b) has been inserted after paragraph (a) stating that a veteran who has served on active duty in the U.S. Armed Forces for a period of more than 180 days or who was discharged or released from active duty for a service-connected disability shall be immediately eligible, upon discharge, for participation in a Title II program without regard to the 30 day unemployment requirement which would otherwise pertain.

In paragraph (c), the phrase "at the time of the grant award under this Act" has been deleted, and a phrase allowing the transfer of EEA participants into Title II "in order to provide for the orderly phaseout of EEA programs" has been added.

A new paragraph (d) has been added specifying that: (1) Title I, section 302, and section 303 enrollees may be transferred into a Title II program only if they met the Title II eligibility requirements at the time of their original enrollment, (2) Title VI enrollees who met Title II eligibility requirements at the time of their enrollment in Title VI may be transferred into Title II, and (3) WIN public service employment participants are to be treated in the same manner as any other Title II applicants.

In paragraph (g) a sentence has been added specifying that no services shall be provided to illegal aliens.

The original paragraph (h) has been deleted from this section and has been added as the first sentence of § 96.24 (d). A new paragraph (h) has been added indicating that, while the selection of eligible full-time students for Title II programs is not prohibited, eligible applicants should exercise caution in providing for such participation and should provide for it only in accordance with these regulations.

The original paragraphs (d) through (g) have been relettered as paragraphs (e) through (h).

The original paragraphs (d) through (g) have been relettered as paragraphs (e) through (h).

In § 96.28, *Special consideration for most severely disadvantaged persons*, language has been inserted to indicate that special consideration in enrolling applicants into all manpower activities and services funded with Title II monies shall be given to unemployed persons who are the most severely disadvantaged in terms of the length of time they have been unemployed. In the regulations printed on June 4, 1974, the special consideration was directed only to filling public service jobs under Title II.

In § 96.30, *Groups to be provided special consideration*, paragraphs (a), (b), and (c) have been revised to indicate that the groups to be provided special consideration may be enrolled in manpower activities as well as in public service jobs.

Paragraph (a) which refers to special consideration for veterans has been further revised to extend special consideration to disabled veterans and veterans who served in the Armed Forces and were discharged within four years before the date of their application. The 48 hour listing of jobs with the employment service has been clarified to exclude holidays and weekends.

In § 96.31, *Training and supportive services*, revisions have been made to indicate that training and supportive services for Title II participants may be provided with Title II funds or with funds made available under other titles of the Act. A sentence encouraging due consideration to be given to existing services of Federal, State and local agencies has been added. The phrase, "provided that such contracts are not entered into with private-for-profit organizations for the employment of participants," has been deleted for editorial purposes.

In § 96.32, *Linkages with other manpower programs*, a sentence has been added encouraging the maintaining of linkages with agencies that can provide supportive services, such as the elimination of any barriers to employment created by the architectural design of the worksite.

In § 96.33, *Placement goals*, new paragraphs (d), (e), and (f) have been added, similar to those used in the Title VI regulations, clarifying that placement goals established are not to be considered as placement requirements and that an eligible applicant may request a waiver of such goals.

In § 96.34, *Compensation for participants*, a section (4) has been added to paragraph (a), identical to § 95.35 (a) (3) (iv) of these regulations, giving wage guidelines for occupations new to the eligible applicant's establishment. The original paragraph 96.35 (b) from the June 4, 1974, regulations has been added as paragraph (b) (2). The remainder of the original § 96.35 has been deleted from Part 96 and has been incorporated into Part 98.

A new § 96.35, *Administrative Staff*, has been added.

The original § 96.36, *Retirement Benefits for Participants*, has been deleted

V 40-101 MAY 23 75

XUM

from Part 96 and incorporated into Part 98.

The original § 96.38, *Limitation of Funds*, has been renumbered as § 96.36.

In § 96.37, *Use of Title II funds for programs under Titles I and III A*, language has been added in paragraph (a) to indicate that when Title II funds are used to fund programs other than public service employment under either Title I or Part A of Title III, the following sections are not applicable: §§ 96.20, 96.21 (b), (c), (d), (e), (g), and (h), 96.23, 96.24, 96.27(e); 96.31, 96.32, 96.33, 96.34, and 96.36. In the regulations published on June 4, 1974, only § 96.38(a) was specified as not applicable when Title II monies are used to fund programs under other sections of the Act.

The original paragraph (b), dealing with use of Title II funds for a summer program, has been deleted and the words, "summer employment programs," have been deleted from the § 96.37 title.

In § 96.40, *General*, a paragraph has been added giving the Division of Indian Manpower Programs full responsibility for all matters pertaining to Title II funding of Indian tribes on Federal and State reservations.

For the purposes of those persons working under Subpart D of the Title II regulations, it is noted that all references to the ARDM throughout Part 96 should be interpreted as Director, Division of Indian Manpower Programs.

In § 96.41 *Distribution of funds*, in paragraph (a), a reference has been added to the ratio for distribution of funds prescribed in Subpart A, § 96.2. Changes in the lettering and numbering of paragraphs subsequent to paragraph (a) are due to the addition of a new paragraph (b).

In paragraph (b) (2), the language in the former paragraph (a) (2) has been changed to read "• • • best available estimates of unemployment • • •". The reference to population has been deleted.

In paragraph (c), the language in the former paragraph (b) has been changed to read "Funds shall only be granted for individual reservations which have a governing body and either have a population. . . ." Reference to a governing body has been added. The words "section 302" have been added following the reference to Title III.

Paragraph (d) is the former paragraph (c).

In paragraph (e), the language in the former paragraph (d) has been changed to read "Within a single reservation, or within those small reservations which are members of a consortium, the eligible applicant • • •". This language clarifies the original sentence.

In § 96.42, *Eligibility for funds*, the entire section has been rewritten.

§ 96.43, *Funding of prime sponsors*, has been added and supersedes the previous § 96.43 which was entitled, *Assistance by the Secretary*.

§ 96.44, *Planning process; advisory councils*, has been added. It prescribes that eligible applicants should utilize their planning councils. This section replaces the former § 96.44 which was en-

titled, *Nepotism*. The *Nepotism* section is now § 96.48.

§ 96.45, *Comment and publication procedures relating to submission of Indian grant applications*, has been renumbered. This section was formerly numbered 96.47.

In paragraph (a), the reference to "the ARDM" has been changed to "the Director, Division of Indian Manpower Programs."

In paragraph (b), the words "of this section" and "available" have been deleted; the reference to "the ARDM" has been changed to "the Director, Division of Indian Manpower Programs."

In paragraph (c), the reference to "the ARDM" has been changed to "the Director, Division of Indian Manpower Programs."

§ 96.46, *Assistance by the Director, Division of Indian Manpower Programs*, has been renumbered. It was formerly numbered § 96.43. New language has been added providing for assistance from the Director, Division of Indian Manpower Programs rather than from the Secretary.

§ 96.47, *Participant eligibility* has been added. Section 96.47 was previously entitled *Comment and publication procedures relating to submission of Indian grant procedures*.

§ 96.48, *Nepotism*, has been renumbered. This section was formerly § 96.44. The "administrative capacity" definition has been expanded to include all elected and appointed officials who have any responsibility for obtaining and/or approval of any grant funded under the Act as well as other officials who have any influence or control over the administration of the program. The words "has a population of less than 1,000 persons and" have been deleted from 96.48(b) to allow subgrantees under this Subpart D to request a waiver of the nepotism provisions of paragraph (a) based on adequate justification that no other persons within the subgrantee's jurisdiction are eligible and available for participation.

§ 96.49, *Non-discrimination*, has been renumbered. This section was formerly § 96.45.

§ 96.50, *Subgrants*, was formerly § 96.46. The former language "• • • requirements concerning subgrants, • • •" has been changed to "• • • requirements as set forth in § 98.27 concerning subgrants."

§ 96.51, *Travel requirements*, is new.

In Part 98, *Administrative Provisions*, references have been corrected from Title VI to Title VII of the Act. All references to OMB Circular A-102 have been changed to FMC 74-7, references to OMB Circular A-87 have been changed to 41 CFR Part 1-15 and references to the QPR have been changed to the Program Status Summary and the Financial Status Report.

In § 98.2, *Payment*, the language has been revised to clarify when the advance or reimbursement system of payments will be followed and to provide for working capital advances. Also, the procedure to be followed for direct funding of contracts under the Integrated Grant Administration Program has been added.

In § 98.3, *Letter of credit*, the language has been revised to clarify the conditions for use of a letter of credit.

In § 98.4, *Payment by Treasury check*, the language has been revised to clarify the conditions governing use of Treasury checks, to provide for working capital advances, and to set forth conditions under which the maintenance of separate bank accounts may be required.

In § 98.5, *Financial management systems*, a new paragraph (c) has been added setting forth what financial documentation is required to fulfill the requirement that auditable records be maintained by the grantee.

In § 98.6, *Audit*, paragraph (b) has been revised to provide for coordination of audit schedules with the grantee to the extent practical.

Paragraph (c) has been revised to provide for funding of departmental audits of grantees from other than grant funds.

Paragraph (d) has been revised adding the provision for selected reviews of economy and efficiency and program results.

Paragraph (e) has been added to require grantees to audit subgrant and contractor programs with grant funds, and to provide audit reports of their own operations to the Assistant Regional Director for Manpower and the Associate Regional Director for Audit.

Paragraph (f) has been added to provide for preliminary audit surveys under specified conditions.

Paragraph (g) has been added setting forth the procedures which will be followed in issuing audit reports and resolving audit questions.

In § 98.7, *Reporting requirements in general*, the language has been changed to correspond to the two new reporting forms for FY 1976 which will replace the Quarterly Progress Report. Also, reports that may be required under the authority of other Federal agencies have been recognized here.

In § 98.8, *Program Status Summary, Financial Status Report and Monthly Progress Report*, the title has been changed from *Quarterly progress report*, to correspond to the two new report names and a monthly report on Title II activities. A new paragraph (h) has been added to require a Monthly Progress Report of Title II participants enrolled at the end of the month and accrued expenditures for the month.

In § 98.9, *Quarterly Summary of Participant Characteristics*, the name has been changed from *Quarterly Summary of Client Characteristics*. Item (c) has been revised to require aggregation of wage data only on those participants who enter employment at termination. A new paragraph (f) has been added to require submittal of this report to the Governor.

In § 98.10(a), *Report of Federal cash transactions*, "an annual grant" has been changed to "annual grants" to require grantees receiving grants totalling \$1 million or more to submit the Report of Federal Cash Transactions monthly.

In § 98.11(b), *Reallocation based on nonperformance*, a reference to 103(1) of the Act has been changed to 702(b) of the Act.

In § 98.11(c), *Reallocation based on need*, "Title I" has been inserted to clarify that reallocations based on need apply only to Title I grants.

In § 98.12, *Allowable Federal costs*, paragraph (a) has been revised to provide for appropriate sections of 41 CFR 1-15 to apply to cost determination depending on the type of grantee or contractor organization.

Paragraph (a) (ii) has been added providing procedures for approval of indirect cost rates.

Paragraph (b) (1) has been revised to limit the restriction on purchase of materials, equipment, supplies and real property to provide for purchase of work tools, uniforms or other equipment for the ownership of participants in public service employment activities as fringe benefits.

A new paragraph (b) (1) (ii) has been added to allow for the purchase of training equipment and materials in public service employment programs out of the 10 percent of funds which may be used for administration, training, and supportive services.

A new paragraph (e) has been added setting forth principles to be followed in classifying costs by cost category, including the classification of the cost for workmen's compensation benefits to those in classroom training as administrative costs.

A new paragraph (f) sets forth examples of costs allowable under each of the cost categories.

A new paragraph (g) has been added to cover travel costs.

In § 98.13, *Allocation of allowable costs among program activities*, a comma has been inserted in paragraph (a) between the words "training" and "allowances".

Paragraph (b) has been revised to indicate that wages and fringe benefits are an allowable cost with public and non-profit employers only.

Paragraph (d) has been revised deleting the word "allowances" since this type of cost will no longer be allowable under work experience activities.

In paragraph (e) (2), the words "including post placement services" after the words "supportive services" have been inserted.

In § 98.14, *Basic personnel standards for grantees*, paragraph (c) has been revised to clarify how personnel standards will be applied to consortia. The reference in paragraph (a) has been corrected.

Paragraph (d) has been relettered (e). A new paragraph (d) has been added to require units exempt from basic personnel principles under paragraph (c) to ensure equal employment opportunity based on objective standards.

In § 98.15, *Adjustments in payments*, the content of paragraphs (a) and (b) has been combined in a new paragraph (a) and the provision for the Secretary to withhold funds has been added.

A new paragraph (b) establishes the grantee's responsibility to maintain program levels irrespective of action by the Secretary under paragraph (a).

In § 98.18, *Termination of grant; suspension of grant in emergency situations*, the title has been changed from *Termination of grant*. "Contractor" has been inserted between "subgrantee" and "or." A new paragraph (c) reflects the Secretary's discretion to immediately suspend payments and withdraw granted funds in emergency situations and to call for a hearing.

In § 98.17, *Grant closeout procedures*, a new paragraph (b) has been added to provide cancellation/adjustment of letter of credit by the ARDM upon notification of the termination of the grant.

Paragraph (e) has been added to indicate that procedures for closeout of grants concerning subgrants and contracts which extend beyond the specified termination of the grant will be contained in the *Forms Preparation Handbook*.

In § 98.18, the title has been changed to read "Maintenance and Retention of Records".

Paragraph (b) (5) has been added to specify that the names of all participants and staff are public information and that other information on participants and staff is public information to the same degree it makes such information available regarding its own employees.

In § 98.19, *Program income*, paragraph (c) has revised "Attachment N of OMB Circular A-102" to read "the MA Property Handbook which implements Attachment N of FMC 74-7".

In § 98.20, *Procurement standards*, the waiver of approval requirements for OJT sole source contracts has been added.

In § 98.21, *Non-discrimination and equal employment opportunities*, the EEO requirement previously contained in Part 98 has been incorporated into this section.

Paragraph (a) has been relettered (b) and "age" has been included as a prohibition against age discrimination.

Paragraph (b) (2) has been added to provide for an interpretation that the prohibition against age discrimination shall not be interpreted to prohibit establishment of training and employment programs designed to serve the legitimate needs of specific age groups or the establishment of bona fide qualifications for participation in any program under the Act.

A requirement has been added that the effective mechanism to assure equal employment opportunity be described in the Comprehensive Manpower Plan.

In § 98.22, *Nepotism*, the nepotism requirement previously contained in § 96.26 has been incorporated into this section. The term "administrative position" has been changed to "staff position" and a definition for the term has been added, specifying that it includes all CETA staff positions funded under the Act. The definition for the term "administrative capacity" has been expanded to include all elected and appointed officials who have any responsibility for the obtaining and/

or approval of any grant funded under the Act as well as other officials who have any influence or control over the administration of the program.

In § 98.23, *Special limitations on participant activities*, the title has been changed from *Special limitations on participant selection*.

Paragraph (a) (1) and (2) were revised deleting restrictions on participant activities which are no longer applicable as a result of amendment to Chapter 15 of Title 5, United States Code. A new paragraph (b) covers political patronage. A new paragraph (c) covers lobbying activities. The old paragraph (b) has been relettered (d).

§ 98.24, *General benefits and working conditions for program participants*, has been added to incorporate and clarify general benefit requirements previously contained in Parts 95 and 96 and to define appropriate workmen's compensation protection for participants under the Act. Paragraph (a) indicates (1) that participants in activities where others similarly engaged are not covered by an applicable workmen's compensation statute shall be provided workmen's compensation insurance or medical and accident insurance; and (2) that fringe benefits in addition to workmen's compensation insurance are not required for work experience participants where there is no employee of the employer performing the same or similar work in the employment situation.

In § 98.25, *Retirement programs*, a new section has been added to incorporate the provisions concerning retirement benefits previously contained in Part 96. The section has been reworded for clarity.

In § 98.26, *Procedures for resolving issues between grantees and complainants*, a new section has been added to incorporate eligible applicant and prime sponsor review requirements previously contained in Part 95. The information has been rearranged and lettered for clarity. Paragraph (b) suggests that grantees establish procedures to deal with all issues and complaints.

In § 98.27, *Grantee contracts and subgrants*, a new section has been added to incorporate provisions for grantee contracts and subgrants previously contained in Part 95. A new paragraph (c) has been added to cover PSE contracts and subgrants. The old paragraph (c) is now (d) and additional language has been added to assure that subgrantee and contractor records will be made available to the Department of Labor and the grantee.

In § 98.29, *Non-Federal status of participants*, a new section has been added to incorporate non-Federal status of participants previously contained in Part 95, and to make this section applicable to participants in all programs under the Act.

In § 98.32, *Responsibilities of the Secretary*, a phrase has been added in 98.32 (b) (1) to also require compliance with the regulations under the Act.

In paragraph (b) (2) a phrase has been added to indicate that contractor and subgrantee programs may also be reviewed.

V 40-101 MAY 23 75

In § 98.33, *Limitation*, a comma has been added between "individual" and "institution," for editorial purposes.

In § 98.34, *Consultation with the Secretary of Health, Education, and Welfare*, a new sentence indicates that the ARDM will provide copies of Title I and II grant applications to the Regional Director of Health, Education, and Welfare for review and comment on proposed activities of a health, education, and welfare character.

In § 98.41, *Review of plans and applications; violations*, a reference to § 98.46 has been inserted in paragraph (b) (4).

As required by section 702(a) of the Act, these revised regulations take effect and may be enforced June 23, 1975. Prime sponsors are urged, however, to utilize these regulations immediately upon publication in order to expedite planning and execution of Fiscal Year 1976 programs. Unless otherwise noted, these regulations are not applicable to programs instituted for Fiscal Year 1975. The revised Parts 94, 95, 96, and 98 read as follows:

#### PART 94—GENERAL PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

- Sec.  
94.1 Scope and purpose of the Act.  
94.2 Format for the regulations promulgated under the Act.  
94.3 Consolidated table of contents for Parts 94-99.  
94.4 Definitions.

**AUTHORITY:** Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, 87 Stat. 839, Pub. L. 93-567, 88 Stat. 1845), sec. 702(a) unless otherwise noted.

##### § 94.1 Scope and purpose of the Act.

(a) It is the purpose of the Act to provide job training and employment opportunities for economically disadvantaged, unemployed and underemployed persons, and to assure that training and other services lead to maximum employment opportunities and enhance self-sufficiency. The purpose of the Act is to be accomplished by the establishment of a flexible and decentralized system of Federal, State and local programs.

(b) The Act is comprised of seven titles, as follows:

(1) Title I establishes a program to provide comprehensive manpower services throughout the Nation, including the development, and creation of job opportunities, and the training, education and other services needed to enable individuals to secure and retain employment at their maximum capacity.

(2) Title II authorizes public service employment and manpower training programs for unemployed and underemployed persons in areas of substantial unemployment.

(3) Title III provides for the establishment and administration by the Secretary of Labor of:

(1) Special programs for Indians, seasonal farmworkers both migratory and non-migratory;

(ii) Manpower services for youth, offenders, older workers, persons of limited English-speaking ability and other special target groups; and

(iii) Research, training and evaluation of programs and activities conducted under the Act.

(4) Title IV establishes a Job Corps within the Department of Labor to provide residential and non-residential manpower services for low-income disadvantaged young men and women.

(5) Title V, establishes a National Commission for Manpower Policy. The responsibilities of the Commission include the examination of national manpower issues, the suggestions of ways and means of dealing with such issues and advising the Secretary on national manpower issues.

(6) Title VI, authorizes additional public service jobs and training programs for unemployed and underemployed persons and provides special provisions for programs in areas of excessively high unemployment. Title I of the Emergency Jobs and Unemployment Assistance Act of 1974, Pub. L. 93-567, 88 Stat. 1845 amended the Comprehensive Employment and Training Act of 1973, Pub. L. 93-203, 87 Stat. 839, by inserting the new Title VI described here and redesignating the existing Title VI as Title VII.

(7) Title VII, formerly Title VI, sets forth the general provisions, including applicable definitions, under the Act.

##### § 94.2 Format for the regulations promulgated under the Act.

(a) The regulations promulgated to carry out the Act are set forth in Parts 94 through 99 of Title 29, Code of Federal Regulations.

(b) As each substantive Title of the Act provides for the establishment of a specific type of program, the regulations promulgated in Parts 94 through 99 provide for a separate part for each basic type of activity (e.g., Part 95 deals with comprehensive manpower programs; Part 96 deals with Title II programs). Two parts are also included which deal with general matters relating to the Act: Part 94 deals with basic explanatory and definitional matters, and Part 98 deals with general administrative matters.

(c) Statutory authority for the regulations contained in Parts 94 through 99 may be found in section 702(a) of the Act, as well as in other substantive provisions of the Act. Applicable statutory provisions, other than section 702(a), are noted generally in these regulations.

##### § 94.3 Consolidated table of contents for Parts 94-99.

The table of contents for Parts 94-99 is as follows:

#### PART 94—GENERAL PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

- Sec.  
94.1 Scope and purpose of the Act.  
94.2 Format for the regulations promulgated under the Act.  
94.3 Consolidated table of contents for Parts 94-99.  
94.4 Definitions.

#### PART 95—PROGRAMS UNDER TITLE I OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

##### SUBPART A—GENERAL

- Sec.  
95.1 Scope and purpose of Part 95.  
95.2 Allocation of funds.  
95.3 Eligibility for funds.  
95.4 Data base for determining eligibility.

##### SUBPART B—GRANT PLANNING, APPLICATION AND MODIFICATION PROCEDURES

- 95.10 General.  
95.11 Preapplication for Federal Assistance; consortium agreements.  
95.12 Prime sponsor designation.  
95.13 Planning process; advisory councils.  
95.14 Content and description of grant application.  
95.15 Comment and publication procedures relating to submission of grant application.  
95.16 Submission of grant application.  
95.17 Standards for reviewing grant applications.  
95.18 Application approval; grant agreement.  
95.19 Application disapproval.  
95.20 Use of alternative prime sponsors; services by the Secretary.  
95.21 Modification of grant agreement.  
95.22 Modification of Comprehensive Manpower Plan.

##### SUBPART C—PROGRAM OPERATION

- 95.30 General.  
95.31 Basic responsibilities of prime sponsors.  
95.32 Eligibility for participation in a Title I Program.  
95.33 Types of manpower program activities available.  
95.34 Training allowances.  
95.35 Wages; minimum duration of training and reasonable expectation of employment.  
95.36 Training for lower wage industries; relocation of industries.  
95.37 Cooperative relationships between prime sponsor and other manpower agencies.

##### SUBPART D—SPECIAL GRANTS TO GOVERNORS

- 95.50 General.  
95.51 Distribution of funds.  
95.52 Grant application.  
95.53 Application approval and disapproval; grant agreement.  
95.54 Modifications; limitations on use of funds.  
95.55 Governor's distribution of vocational education funds.  
95.56 Program operations.  
95.57 Funding; grant administration.  
95.58 Nonfinancial agreement between prime sponsor and State Vocational Education Board.  
95.59 Coordination with prime sponsor.

#### PART 96—PROGRAMS UNDER TITLE II OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

##### SUBPART A—GENERAL

- 96.1 Scope and purpose.  
96.2 Allocation of funds.  
96.3 Eligibility for funds.

##### SUBPART B—GRANT APPLICATION

- 96.10 General.  
96.11 Preapplication for Federal Assistance; consortium agreements.  
96.12 Eligible applicant designation.  
96.13 Planning process; advisory councils.  
96.14 Content and description of grant application.  
96.15 Comment and publication procedures relating to submission of grant application.

- Sec.  
96.16 Submission of grant application; standards for reviewing grant application.  
96.17 Application approval; application disapproval; grant agreement.  
96.18 Use of alternative eligible applicant; services by the Secretary.  
96.19 Modification of grant agreement; modification of Comprehensive Title II Plan.

##### SUBPART C—PROGRAM OPERATION

- 96.20 General.  
96.21 Basic responsibilities of eligible applicants.  
96.22 Basic responsibilities of program agents; relationship with eligible applicants.  
96.23 Acceptable public employment positions.  
96.24 Maintenance of effort.  
96.25 Responsibility for selecting participants.  
96.26 Place of residence for participants.  
96.27 Eligibility for participation in a Title II Program.  
96.28 Special consideration for most severely disadvantaged persons.  
96.29 Serving significant segments of the population.  
96.30 Groups to be provided special consideration.  
96.31 Training and supportive services.  
96.32 Linkages with other manpower programs.  
96.33 Placement goals.  
96.34 Compensation for participants.  
96.35 Administrative staff.  
96.36 Limitation on funds.  
96.37 Use of Title II funds for programs under Titles I and III-A.

##### SUBPART D—SPECIAL CONDITIONS FOR GRANTS TO INDIAN TRIBES ON FEDERAL AND STATE RESERVATIONS

- 96.40 General.  
96.41 Distribution of funds.  
96.42 Eligibility for funds.  
96.43 Funding of eligible applicants.  
96.44 Planning process; advisory councils.  
96.45 Comment and publication procedures relating to submission of Indian grant applications.  
96.46 Assistance by the Director, Division of Indian Manpower Programs.  
96.47 Participant eligibility.  
96.48 Nepotism.  
96.49 Nondiscrimination.  
96.50 Subgrants.  
96.51 Travel requirements.

##### PART 97—SPECIAL FEDERAL PROGRAMS AND RESPONSIBILITIES UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

##### SUBPART A—1974 SUMMER PROGRAM FOR ECONOMICALLY DISADVANTAGED YOUTH

- 97.1 Scope and purpose.  
97.2 Definitions.  
97.3 Allocations of funds.  
97.4 Eligibility for funds.  
97.5 Notification of intent.  
97.6 Application for grants; standards for reviewing grant applications.  
97.7 Application approval and disapproval.  
97.8 Use of alternative sponsors and services by the Secretary.  
97.9 Content and description of grant application.  
97.10 Modification of the grant agreement; modification of the program plan.  
97.11 Basic responsibilities of sponsors.  
97.12 Eligibility for participation.  
97.13 Types of manpower services available in the summer program for economically disadvantaged youth.  
97.14 Participant benefits.  
97.15 Sponsor review.

- Sec.  
97.16 Non-Federal status of participants.  
97.17 Worksite standards; safety and health requirements for participants.  
97.18 Training for lower wage industries and relocation of industries.  
97.19 Sponsor contracts and subgrants.  
97.20 Cooperative relationships between sponsors and other manpower agencies.  
97.21 Reporting requirements.  
97.22 Terminal date for 1974 summer program.

##### SUBPART B—INDIAN MANPOWER PROGRAMS

- General*  
97.101 Scope and purpose of Title III, section 302, programs.  
97.102 Scope and purpose of this subpart.  
97.103 Definitions.  
97.104 Eligibility for funds; allocation of funds.

##### *Grant planning, application and modification procedures*

- 97.110 Grant planning, application and modification procedures in general.  
97.111 Notifications of intent to apply for prime sponsorship; consortium agreements.  
97.112 Prime sponsor designation.  
97.113 Planning process; advisory councils.  
97.114 Content and description of grant application.  
97.115 Comment and publication procedures relating to submission of grant application.  
97.116 Submission of grant application.  
97.117 Standards for reviewing grant applications.  
97.118 Application approval, grant application.  
97.119 Application disapproval.  
97.120 Use of alternative prime sponsors; services by the Secretary.  
97.121 Modification of grant agreement.  
97.122 Modification of Comprehensive Manpower Plan.

##### *Program operation*

- 97.130 Program operation in general.  
97.131 Basic responsibilities of prime sponsors.  
97.132 Eligibility for participation in a Title III, section 302, program.  
97.133 Types of manpower program activity available.  
97.134 Training allowances.  
97.135 Wages; minimum duration of training and reasonable expectation of employment.  
97.136 General benefits for program participants.  
97.137 Prime sponsor review.  
97.138 Non-Federal status of participants.  
97.139 Safety and health requirements for participants.  
97.140 Training for lower wage industries; relocation of industries.  
97.141 Prime sponsor contracts and subgrants.  
97.142 Cooperative relationships between prime sponsor and other manpower agencies.

##### *Grant administration*

- 97.150 Grant administration in general.  
97.151 Payment.  
97.152 Letter of credit.  
97.153 Payment by Treasury check.  
97.154 Financial management systems.  
97.155 Audit and evaluation.  
97.156 Reporting requirements in general.  
97.157 Quarterly Progress Report.  
97.158 Summary of Client Characteristics Report.

- Sec.  
97.159 Report of Federal Cash Transactions.  
97.160 Reallocation of funds.  
97.161 Allowable Federal costs.  
97.162 Allocation of allowable costs among program activities.  
97.163 Basic personnel standards for prime sponsors.  
97.164 Adjustments in payments.  
97.165 Termination of grant.  
97.166 Grant closeout procedures.  
97.167 Retention of records.  
97.168 Program income.  
97.169 Procurement standards.  
97.170 Nondiscrimination and equal employment opportunities.

##### *Assessment and evaluation*

- 97.180 Assessment and evaluation in general.  
97.191 Review of plans and applications; responsibilities of the Secretary.  
97.182 Limitation.  
97.183 Consultation with the Secretary of Health, Education, and Welfare.

##### *Hearings and judicial review*

- 97.190 Purpose and policy.  
97.191 Review of plans and applications; violations.  
97.192 Complaints; filing of formal allegation; dismissal.  
97.193 Form.  
97.194 Contents of formal allegations; amendment.  
97.195 Investigations.  
97.196 Opportunity for hearings; when required.  
97.197 Hearings.  
97.198 Initial certification, decisions and notices.  
97.199 Judicial review.

##### SUBPART C—MIGRANT AND OTHER SEASONALLY EMPLOYED FARMWORKER PROGRAMS

##### *General*

- 97.201 Scope and purpose of Title III, section 303, programs.  
97.202 Scope and purpose of this subpart.  
97.203 Definitions.  
97.204 Allocation of funds.  
97.205 Eligibility for allocable funds.

##### *Grant planning and application procedures*

- 97.210 Grant planning and application procedures in general.  
97.211 Announcement of invitation to submit Qualifications Statement.  
97.212 Submission of Qualifications Statement.  
97.213 Review of Qualifications Statement.  
97.214 Notification of qualified applicants.  
97.215 Content and description of grant application.  
97.216 Submission of funding request.  
97.217 Standards for reviewing funding requests and selecting grantees.  
97.218 Notification of selection.  
97.219 Negotiation of final grant.  
97.220 Grant award.  
97.221 Option to renew.  
97.222 Modification of grant agreement.  
97.223 Modification of comprehensive plan for farmworkers.

##### *Program operation*

- 97.230 General.  
97.231 Basic responsibilities of grantees under Section 303.  
97.232 Eligibility for participation in Section 303 programs.  
97.233 Types of activities and services available.  
97.234 Training allowances.  
97.235 Wages, minimum duration of training, and reasonable expectation of employment.

99.101	Subgrants.
<b>§ 94.4 Definitions.</b>	
The following definitions consistent with section 701(a) of the Act apply to Parts 94 through 99, inclusive:	
(a) "Act" shall mean the Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, 87 Stat. 839; Pub. L. 93-567, 88 Stat. 1845).	
(b) "Allocation" shall mean the distribution of funds among prime sponsors or eligible applicants according to the formulas contained in the Act.	
(c) "ARDM" shall mean the Department of Labor's Assistant Regional Director for Manpower, or his designee, having the responsibility for the area in which a prime sponsor or eligible applicant is located.	
(d) (1) "Area of substantial unemployment" shall mean for Title II any area, other than in relation to an Indian tribe, which:	

(i) Has a population of at least 10,000 persons;

(ii) Qualifies for a minimum allocation of \$25,000 under Title II of the Act; and

(iii) Has a rate of unemployment of at least 6.5 percent for a period of three consecutive months, as determined by the Secretary of Labor at least once each fiscal year.

(2) "Area of substantial unemployment" shall mean for Title II, in relation to an Indian tribe, an Indian reservation, as a whole, with a rate of unemployment of at least 6.5 percent for a period of three consecutive months, as determined by the Secretary of Labor at least once each fiscal year.

(e) "Audit" shall mean a systematic review or appraisal to determine and report whether:

(1) Financial operations are being properly conducted;

(2) Financial reports are presented fairly; and

(3) Applicable laws and regulations are being complied with. A selected number of operational audits will include a review of economy and efficiency and/or program results of programs under the Act.

(f) "Audit Standards" shall mean those standards set forth in *The Standards for Audit of Government Organizations, Programs, Activities and Functions* promulgated by the Comptroller General of the United States.

(g) "Balance of county" shall mean the area within the jurisdiction of a county, as a prime sponsor or eligible applicant, that is not included in the comprehensive manpower plan of another prime sponsor or eligible applicant.

(h) "Balance of State" shall mean the area within the jurisdiction of a State, as a prime sponsor or eligible applicant, which is not included in the comprehensive manpower plan of another prime sponsor or eligible applicant.

(i) "Capital improvement" shall mean any modification, addition, or restoration which increases the value, usefulness, productivity, or serviceable life of an existing building, structure, or major item of equipment which is classified for accounting purposes as "fixed asset" and the recorded value of which is increased by the cost of the improvement and subject to depreciation.

(j) "Certification" shall mean a legally binding statement that certain requirements have been fulfilled.

(k) "Chief elected official" and "chief executive officer" shall include their designees.

(l) "Community-based organizations" shall mean organizations which are representative of communities or significant segments of communities and which provide manpower services (for example Opportunities Industrialization Centers, Urban League, Jobs for Progress, Mainstream, Community Action Agencies and other community organizations).

(m) "Compensation" as applied to a participant in a Title II program shall mean the wages and salary payable, but

## RULES AND REGULATIONS

22683

does not include fringe benefits or supportive services.

(n) "Consortium" shall mean an entity formed by an agreement among local units of government, consistent with the requirements of § 95.3, to plan and operate a comprehensive manpower program under the Act.

(o) "Contractor" shall mean any person, corporation, partnership, or similar entity or a public agency, which enters into a contract with the Department, with a grantee, or with a subgrantee under the Act.

(p) "Construction" shall mean the erection, installation, or assembly of a new facility or a major addition, expansion, or extension of an existing facility, and the related site preparation, excavation, filling and landscaping or other land improvements.

(q) "Department" shall mean the United States Department of Labor and includes each of its operating agencies and other organizational units.

(r) "Dependent" shall mean:

(1) any relative for whom the participant has assumed a responsibility for support, and who is either: (i) a member of the immediate household, or (ii) one of the following relatives:

(A) A parent of the participant;

(B) A child of the participant;

(C) A relative of the participant who is unemployed because of a physical or mental disability; or

(2) Any individual who is currently being supported by the participant, is a member of the participant's immediate household; and during the preceding twelve months, earned less than \$750.

(s) "Disabled veteran" shall mean a person who served in the Armed Forces and who was discharged or released therefrom with other than a dishonorable discharge and who has been given a disability rating of 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.

(t) "Economically disadvantaged" shall mean a person who is a member of a family:

(1) Which receives cash welfare payments; or

(2) Whose annual income in relation to family size does not exceed the poverty level determined in accordance with criteria established by the Office of Management and Budget (OMB).

(u) "Eligible applicant" for purposes of Title II shall mean a prime sponsor or an Indian tribe on a Federal or State reservation which includes an area or areas of substantial unemployment.

(v) "Employing agency" for purposes of public service employment programs shall mean any employer designated by an eligible applicant, program agent, or other subgrantee, or by the Secretary of Labor, to employ participants pursuant to public service employment programs under the Act. The term shall include an eligible applicant, program agent, or other subgrantee when acting as employer. Private for profit organizations shall not be considered employing agencies under the Act.

(w) "Family" shall mean one person, or more than one person living in a single household who are related to each other by blood, marriage, or adoption. A stepchild or foster child who receives at least 50 percent of his/her support from the stepparent or foster parents shall be counted as a member of the stepparent's or foster parents' family. An unmarried member of a household:

(1) Who is 18 or older, and

(2) Who receives less than 50 percent (50%) of his/her maintenance from the family, shall not be considered to be a member of the family. Such an individual shall be considered as a family residing alone or in group quarters.

(x) "Federal Audits" shall mean those audits conducted by the U.S. Department of Labor and its agents.

(y) "Federal reservation" shall mean lands which have been set aside for Indian tribes and for which the United States is trustee, as identified by the Bureau of Indian Affairs, including non-trust land under the tribal jurisdiction.

(z) "Governor" shall mean the chief executive officer of a State, or his designee.

(aa) "Grantee" shall mean any individual or organization, including a prime sponsor under Title I or Title III of the Act, or an eligible applicant under Title II or Title VI of the Act which receives a grant from the Department to establish or operate any program or activity under the Act.

(bb) "Grant Allotment" shall mean the total amount of funds planned at any given time to be granted to a prime sponsor or eligible applicant for any fiscal year under Title I or Title II of the Act.

(cc) "Health care" includes but is not limited to preventive and clinical medical treatment, voluntary family planning services, nutritional services, and appropriate psychiatric, psychological and prosthetic services, to the extent any such treatment or services are necessary to enable a participant to obtain or retain employment under the Act.

(dd) "Indian tribe" shall mean a tribe, group or band of American Indians or Alaskan natives identified on the basis of historical, geographical or cultural characteristics, or subpart of such a tribe, group or band.

(ee) "Low-income level," which is a definition used only in the allocation of funds under Title I, shall mean an annual income of \$7,000 with respect to income in 1969; for any later year it shall mean that amount which bears the same relationship to \$7,000 as the Consumer Price Index for that year bears to the Consumer Price Index for 1969, rounded to the nearest \$1,000.

(ff) "Manpower Allotment" means sums received by a prime sponsor distributed under sections 103(a)(1); 103(a)(2); 103(a)(4); and 103(f) of the Act.

(gg) "Multijurisdictional Agreement" shall mean an agreement, consistent with the requirements of § 95.3, between a

V 4 0 1 0 1 M A Y 2 3 7 5

XUM

## RULES AND REGULATIONS

State and any unit of general local government within the State that has a population of at least 100,000 persons, to plan and operate a comprehensive manpower program under the Act.

(hh) "Non-Federal Audits" shall mean those audits conducted by State, county, and city governments or their agents.

(ii) "Obligation" shall mean the amount of funds which a grantor has legally committed and authorized a grantee, subgrantee, or contractor to expend.

(jj) "Offender" shall mean any person who is confined in any type of correctional institution, including a community-based facility, or who is subject to any stage of the judicial, correctional, or probationary process where manpower training and services may be beneficial, as determined by the Secretary of Labor, after consultation with judicial correctional, probationary or other appropriate authorities.

(kk) "OMB" shall mean the Office of Management and Budget.

(l) "Participant" shall mean an individual who qualifies and receives services or takes part in activities under provisions of the Act. An individual applicant becomes a participant when the following three conditions are met:

(1) The individual is declared eligible upon intake;

(2) The individual receives employment, training or services funded under the Act following intake; and

(3) Part D or E, recording activity or service received, of the participant record as described in the *Forms Preparation Handbook* is completed on the individual.

(mm) "Participant community" shall mean the group or groups of people to be served by a program or program activity; for example, the unemployed, persons of limited English speaking ability, seasonal farmworkers either migratory or non-migratory and economically disadvantaged.

(nn) "Placement" shall mean the hiring into unsubsidized employment by an employer of an individual referred by the prime sponsor or its subgrantee or contractor for a job or an interview, providing that the prime sponsor, subgrantee or contractor completed all of the following steps:

(1) Made prior arrangements with the employer for referral of an individual or individuals;

(2) Referred an individual who has not been specifically designated by the employer;

(3) Verified from a reliable source, preferably the employer, that the individual had entered on a job; and

(4) Recorded the transaction on an employer form or other appropriate form.

(nn-1) There are three levels of placement based on the expected duration of the job:

(1) Short-term placements in jobs which are expected to have a duration of three days or less;

(2) Mid-term placements in jobs which are expected to have a duration

from four days to one-hundred-fifty days; and

(3) Long-term placements in jobs which are expected to have a duration of more than one-hundred-fifty days.

Placement does not include referral to another program activity, enrollment in education or training courses not supported under the Act, or entrance into the Armed Forces.

(oo) "Poverty level" shall mean the annual income threshold below which families are considered to live in poverty, as determined in accordance with criteria established by the Director of the Office of Management and Budget.

(pp) "Prime sponsor" shall mean a unit of government, combinations of units of government, or a rural Concentrated Employment Program grantee, as set forth in § 95.3, which has entered into a grant with the Department to provide comprehensive manpower services under Title I of the Act.

(qq) "Professional work" shall mean work performed by an individual acting in a bona fide professional capacity, as such term is used in section 13(a)(1) of the Fair Labor Standards Act.

(rr) "Program agent" for purposes of Title II shall mean a subgrantee within the jurisdiction of an eligible applicant which is a unit of general local government or a combination of such units having a population of 50,000 or more which contains an area of substantial unemployment. In determining whether a combination of units of general local government qualifies as a program agent, the eligible applicant shall use the following standards:

(1) The combination of units as a subgrantee possesses the legal authority to receive Federal funds, and to transact business as a representative of the population within its jurisdiction; and

(2) The combination of units as a subgrantee possesses the administrative capability to plan, administer, and operate a manpower program; in making this determination, the eligible applicant may consider whether a combination of units of general local governments which consists of units which are not contiguous to each other is capable of planning, administering and operating a manpower program.

(ss) "Program of demonstrated effectiveness" shall mean a manpower program, including a program conducted by a community based organization, which has a history of providing manpower services to the economically disadvantaged, which has demonstrated the capacity to meet contractual goals at reasonable costs, and is either (1) a program which has demonstrated to the prime sponsor that it has performed effectively within the prime sponsor's jurisdiction, or (2) a program which can demonstrate to the prime sponsor that it has carried out effectively a similar program under similar circumstances in other jurisdictions and can carry out such a program effectively within the prime sponsor's jurisdiction.

(tt) "Public assistance" shall mean supplemental income or money payments

received pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind, and Disabled).

(uu) "Public service" shall mean service normally provided by government and includes, but is not limited to, work in such fields as beautification, conservation, crime prevention and control, education, child care, environmental quality, fire protection, health care, housing and neighborhood improvements, manpower services, parks, street and other public safety, recreation, rural development, solid waste removal, transportation, veterans outreach and other fields of human betterment and community improvement. It includes part-time work for individuals who are unable to work full-time because of age, handicap or other factors. It excludes building and highway construction work (except that which is normally performed by the prime sponsor or eligible applicant) and other work which inures primarily to the benefit of a private profit-making organization.

(vv) "Rate of unemployment" shall mean the number of unemployed persons, as a percentage of the total number of persons in the civilian labor force, as determined by the Secretary.

(ww) "Secretary" shall mean the Secretary of the United States Department of Labor, or his designee.

(xx) "SESA" shall mean the State employment security agencies affiliated with the United States Employment Service, established by the Wagner-Peyser Act of 1933, as amended. The term shall include the system of public employment service offices and Unemployment Insurance offices.

(yy) "Significant segments" shall mean those groups of people, to be characterized, if appropriate by racial or ethnic, sex, age, occupational or veteran status, which causes them to generally experience unusual difficulty in obtaining employment and who are most in need of the service provided by the Act. Other descriptive categories may be used to define a "significant segment," if appropriate.

(zz) "Special veteran" shall mean an individual who served in the Armed Forces in Indochina or Korea, including the waters adjacent thereto, on or after August 5, 1964, who received other than a dishonorable discharge.

(aaa) "State" includes the fifty states, District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(bbb) "State reservation" shall mean an Indian reservation recognized by the State in which it is located.

(ccc) "Subgrantee" shall mean any governmental unit or private nonprofit agency which receives a grant from a prime sponsor, grantee, or eligible applicant under the Act.

(ddd) "Sufficient size and scope" shall mean for Title II an area or combination of areas, other than an Indian reservation,

which has a population of 10,000 or more persons and qualifies for a minimum allocation under Title II of \$25,000.

(eee) "Supportive or manpower services" shall mean services which are designed to contribute to the employability of participants, enhance their employment opportunities, assist them to retain employment, and facilitate their movement into permanent employment not subsidized under the Act.

(fff) "Underemployed person" shall mean

(1) A person who is working part-time but seeking full-time work, or

(2) A person who is working full-time but whose salary relative to his or her family size is below the poverty level.

(ggg) "Unemployed person" shall mean for Title I activities except in the case of welfare recipients:

(1) A person who is without a job and who wants and is available for work, defined as follows:

(i) A person who is without a job is a person who did not work during the calendar week preceding the week in which the determination of his eligibility for participation is made. Except in the case of persons described in paragraph (ggg)(2) of this section, the determination of who wants and is available for work will be made by the prime sponsors or his designee. Persons who have been discouraged from seeking work but are currently available for work, shall not be excluded from eligibility.

(ii) If a person is confined in a jail, penitentiary, or other institution and there is a reasonable expectation that release will follow the completion of training within a reasonable time, the individual shall be considered unemployed.

(iii) A person is not to be considered to be available for work if that individual is without a job because of participation in an on-going strike or lock-out at his usual place of employment.

(2) In the case of welfare recipients, and except for purposes of sections 103 and 202 of the Act, the term "unemployed person" shall mean an adult who, or whose family, receives supplemental security income or money payments pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind and Disabled), or would be eligible for such payments according to the standards set forth at 45 CFR Part 233 and 20 CFR Part 416 if both parents were not present in the home, and

(i) Who is available for work, and

(ii) Who is either without a job or working in a job providing insufficient income to enable such a person and his family to be self-supporting without welfare.

(3) A veteran serving on active duty in the U.S. Armed Forces for a period of more than 180 days or discharged or released from active duty for a service-connected disability, shall be immediately eligible, upon discharge, for participation in a program under Title II of the Act, without regard to the 30 day unemployment requirement which would otherwise pertain. This provision is not applicable if the individual obtains employment subsequent to discharge (Pub. L. 92-540, sec. 2013).

(iii) "Unemployment compensation" shall mean the compensation payable in accordance with the provisions of a State or Federal unemployment compensation law, and payments of unemployment assistance in accordance with the provisions of the Disaster Relief Act, trade readjustment allowances in accordance with the provisions of the Trade Expansion Act, and payments or similar assistance or allowances in accordance with the provisions of any other Federal law.

(jjj) "Unit of general local government" shall mean any city, municipality, county, town, township, parish, village or other general purpose political subdivision which has the power to levy taxes

## RULES AND REGULATIONS

22685

calendar week unemployment requirement which would otherwise pertain. This provision is not applicable if the individual obtains employment subsequent to discharge (Pub. L. 92-540, sec. 2013).

(hhh) "Unemployed person" shall mean for Title II activities:

(1) A person who is without a job and who wants and is available for work. Except in the case of persons described in (2) below, the determination of who wants and is available for work will be made by the prime sponsor or his designee. Persons who have been discouraged from seeking work but are currently available for work, shall not be excluded from eligibility.

(2) Except for purpose of sections 103 and 202 of the Act, an adult who, or whose family, receives supplemental security income or money payments pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind and Disabled) or would be eligible for such payments according to the standards set forth at 45 CFR Part 233 and 20 CFR Part 416 if both parents were not present in the home, and

(i) Is available for work, and

(ii) Who is either without a job or working on a job providing insufficient income to enable such a person and his family to be self-supporting without welfare assistance.

(3) A person is "without a job" if, during the 30 days preceding his application, he has worked no more than 10 hours or has earned no more than \$30 in any calendar week.

(4) A person is not to be considered available for work if he is without a job because of participation in an ongoing strike or lock-out at his usual place of employment.

(5) A veteran serving on active duty in the U.S. Armed Forces for a period of more than 180 days or discharged or released from active duty for a service-connected disability, shall be immediately eligible, upon discharge, for participation in a program under Title II of the Act, without regard to the 30 day unemployment requirement which would otherwise pertain. This provision is not applicable if the individual obtains employment subsequent to discharge (Pub. L. 92-540, sec. 2013).

(iii) "Unemployment compensation" shall mean the compensation payable in accordance with the provisions of a State or Federal unemployment compensation law, and payments of unemployment assistance in accordance with the provisions of the Disaster Relief Act, trade readjustment allowances in accordance with the provisions of the Trade Expansion Act, and payments or similar assistance or allowances in accordance with the provisions of any other Federal law.

(jjj) "Unit of general local government" shall mean any city, municipality, county, town, township, parish, village or other general purpose political subdivision which has the power to levy taxes

and spend funds, as well as general corporate and police powers.

(kkk) "Unsubsidized employment" shall mean employment not financed from funds provided under the Act.

(lll) "Veteran" shall mean a person who:

(i) served on active duty for a period of more than 180 days, and was discharged, separated, or released therefrom with other than a dishonorable discharge, or

(ii) was discharged or released from active duty for a service-connected disability.

(mmm) "Wagner-Peyser Act" shall mean "An act to provide for the establishment of a national employment system and for cooperation with the States in the promotion of such system, and for other purposes," approved June 6, 1933, (48 Stat. 113), as amended (29 U.S.C. 49 et seq.).

## PART 95—PROGRAMS UNDER TITLE I OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart A—General	
Sec.	Scope and purpose of Part 95.
95.1	Allocation of funds.
95.2	Eligibility for funds.
95.3	Data base for determining eligibility.
95.4	

## Subpart B—Grant Planning, Application and Modification Procedures

95.10	General.
95.11	Preapplication for Federal Assistance; consortium agreements.
95.12	Prime sponsor designation.
95.13	Planning process; advisory councils.
95.14	Content and description of grant application.
95.15	Comment and publication procedures relating to submission of grant application.
95.16	Submission of grant application.
95.17	Standards for reviewing grant applications.
95.18	Application approval; grant agreement.
95.19	Application disapproval.
95.20	Use of alternative prime sponsors; services by the Secretary.
95.21	Modification of grant agreement.
95.22	Modification of Comprehensive Manpower Plan.

## Subpart C—Program Operation

95.30	General.
95.31	Basic responsibilities of prime sponsors.
95.32	Eligibility for participation in a Title I Program.
95.33	Types of manpower program activities available.
95.34	Training allowances.
95.35	Wages; minimum duration of training and reasonable expectation of employment.
95.36	Training for lower wage industries; relocation of industries.
95.37	Cooperative relationships between prime sponsor and other manpower agencies.

## Subpart D—Special Grants to Governors

95.50	General.
95.51	Distribution of funds.
95.52	Grant application.
95.53	Application approval and disapproval; grant agreement.
95.54	Modifications; Limitations on use of funds.
95.55	Governor's distribution of vocational education funds.

V 40-101 MAY 23 75

XUM

- Sec.  
95.56 Program operations.  
95.57 Funding; grant administration.  
95.58 Nonfinancial agreement between prime sponsor and State Vocational Education Board.  
95.59 Coordination with prime sponsor.

**AUTHORITY:** Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, 87 Stat. 839; Pub. L. 93-567, 88 Stat. 1845), sec. 702(a) unless otherwise noted.

#### Subpart A—General

##### § 95.1 Scope and purpose of Part 95.

(a) This Part 95 contains the Department of Labor's regulations for the establishment and provision of comprehensive manpower services, including public service employment, under Title I of the Act.

(b) This Part 95 should be read in conjunction with Parts 94 through 99 of this Title 29, Code of Federal Regulations. These parts, in total, comprise the regulations promulgated by the Secretary pursuant to the authority in the Act.

(c) Definitions for acronyms and major terms may be found in Part 94.

(d) Statutory authority for the regulations contained in this Part 95 may be found in section 702(a) of the Act, as well as other substantive provisions of the Act. Applicable statutory provisions, other than section 702(a), are noted generally in these regulations.

##### § 95.2 Allocation of funds.

(a) **General.** (1) This § 95.2 sets out the procedures for allocating funds under Title I of the Act. Of the funds available for Title I in any fiscal year, 80 percent shall be allocated according to the procedures set forth in paragraph (b) of this section. The remaining 20 percent shall be allocated as set out in paragraphs (c) and (d) of this section. (sec. 103)

(2) Allocations made to prime sponsors under this section shall be published in the FEDERAL REGISTER as soon as possible after the enactment of any fiscal year appropriation. The Secretary may publish preliminary allocations to assist prime sponsors in planning for programs under Title I of the Act.

(3) The Secretary may reallocate Title I funds as provided in § 98.11.

(b) **Prime sponsor basic allocations.** (1) Eighty percent of the funds available under Title I of the Act shall be allocated as provided in this paragraph (b). Funds provided pursuant to this paragraph are for prime sponsors, as defined in § 95.3, except for prime sponsors which are rural Concentrated Employment Programs (CEP). This paragraph (b) does not apply to rural CEP's.

(2) One percent of the amount available under this paragraph (b) shall be allocated by the Secretary to State prime sponsors for the costs incurred in staffing and servicing State Manpower Services Councils. If such funds exceed the amount needed for these costs, the excess may be used to carry out State services under Section 106 of the Act. Allocations under this paragraph shall be made according to the paragraph (b) (4) and (5) (i) allocation formula.

(3) Not less than \$2,000,000 of the funds under this paragraph (b) shall be allocated among Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, consistent with the factors set out in (b) (4).

(4) Subject to the requirements of paragraph (b) (5) of this subsection, funds remaining after application of paragraphs (b) (2) and (3) shall be allocated to prime sponsors according to the following basic formula:

(i) Fifty percent of the funds subject to formula allocation shall be allocated on the basis of each prime sponsor area's proportion of the manpower allotment for all prime sponsor areas in the prior fiscal year;

(ii) Thirty-seven and one-half percent of the funds subject to formula allocation shall be allocated on the basis of a prime sponsor's proportion of the total number of unemployed persons (as defined by the Bureau of Labor Statistics) in all prime sponsor areas;

(iii) Twelve and one-half percent of the funds subject to the allocation formula shall be allocated on the basis of a prime sponsor's proportion of the number of adults in low income families in all prime sponsor areas.

(5) (i) No prime sponsor shall be allocated an amount under the paragraph (b) (4) allocation formula which is more than 150 percent of the amount of the manpower allotment obligated by the ARDM in the prior fiscal year for the area served by the prime sponsor; except that if the amount so allocated is less than 50 percent of the amount of manpower funds to which it is entitled under the (b) (4) allocation formula, such allocation shall be increased to 50 percent of its entitlement under the formula.

(ii) If any prime sponsor, pursuant to the paragraph (b) (4) and (5) allocation formula, is allocated less than 90 percent of the manpower allotment that was obligated by the ARDM to that area in the previous fiscal year, that prime sponsor shall, to the extent feasible, be provided an amount from the Secretary's discretionary fund, set out in paragraph (d) of this section, that will bring its funding during the current fiscal year to the 90 percent level.

(c) **Additional prime sponsor allocations.** This paragraph describes those prime sponsor allocations that are not subject to the basic allocation procedures of paragraph (b).

(1) **Consortia incentive funds.** In order to encourage consortia, as defined in § 95.3, that also comprise substantial portions (e.g., 75 percent) of labor market areas, the Secretary may use up to 5 percent of the funds available for Title I of the Act to provide additional funding for such consortia. Consortia which do not serve such areas shall not be eligible for additional funds. Prior to making decisions concerning these funds, the Assistant Regional Director for Manpower (ARDM) shall consult with the Governors of the appropriate States and afford them an opportunity to make recommendations.

(2) **State manpower services allocations.** The Secretary shall allocate to the States, according to the paragraph (b) (4) and (5) (i) allocation formula, 4 percent of the funds available under Title I of the Act, to enable the States to provide services, as set out in Subpart D of this Part 95.

(3) **Allocations for prime sponsors which were rural CEP's.** The Secretary shall fund a limited number of prime sponsors which were rural CEP's from any funds available to carry out Title I, except funds allocated under paragraph (b).

(4) **Vocational education allocation.** The Secretary shall allocate to the Governors, according to the paragraph (b) (4) and (5) (i) allocation formula, 5 percent of the funds available under Title I to provide financial assistance for vocational education. Each Governor shall allocate these funds as required in Subpart D of this Part 95.

(d) **Secretary's discretionary fund.** Any funds available under Title I that are not allocated under paragraphs (b) and (c) shall be first utilized by the Secretary to assure each prime sponsor, including rural CEP prime sponsors, of funding at the 90 percent level, as set out in paragraph (b) (5) (i) of this § 95.2. The Secretary shall utilize the remainder of the funds available under this paragraph at his discretion, taking into consideration (1) the provision of incentive funds for multijurisdictional agreements entered into by States, as set out in § 95.3 (b) and (d); (2) continued funding through prime sponsors of programs of demonstrated effectiveness; and (3) other factors the Secretary deems necessary to the carrying out of his responsibilities under the Act.

##### § 95.3 Eligibility for funds.

(a) Funds may be allocated by the Secretary to prime sponsors (sec. 102). Prime sponsors are:

(1) States;

(2) Units of general local government which have a population of 100,000 or more persons;

(3) (i) Consortia consisting of general local governments which are (A) located in reasonable proximity to each other; (B) each of which retains responsibility for operation of the program; (C) at least one of which has a population of 100,000 or more persons; and (D) which, as a consortium, can plan and operate a comprehensive manpower program that provides administrative and programmatic advantage over the other methods of delivering services under the Act;

(ii) A consortium, under this paragraph (3), which consists of units of local government in more than one State, may be approved by the ARDM after the approval of the Governors of the States involved has been obtained.

(iii) No consortium agreement will be approved if one of the parties to the agreement is a unit of local government, which is not eligible to be a prime sponsor under the Act and if, in addition, the effect of the agreement is to render ineligible the prime sponsor otherwise re-

sponsible for serving the area of the ineligible local government; provided, however, that nothing in this paragraph shall prohibit the otherwise responsible prime sponsor from granting its consent to such a consortium agreement;

(4) Any unit of general local government, or any combination of such units, without regard to population, which, in exceptional circumstances, is determined by the Secretary, after giving serious consideration to comments from the prime sponsor otherwise responsible for the area and the Governor, (i) to serve a substantial portion (e.g., 75 percent) of a functioning labor market area or to be a rural area with a high level of unemployment, and (ii) to have demonstrated that (A) it has the capability for effectively carrying out a comprehensive manpower program under the Act, evidenced by its effective operation of programs such as CEP or other multicomponent programs, (B) there is a special need for services provided by the Act (e.g., the area has a high proportion of such groups within the population as older workers, high school dropouts, or has a high unemployment rate, substantial outmigration or unique commuting problems), and (C) it will afford administrative and programmatic advantages over other methods of delivering services under the Act; and,

(5) A limited number of CEP grantees existing at the time of the enactment of the Act, serving rural areas having a high level of unemployment which the Secretary determines have demonstrated through prior performance a special capability for carrying out programs in such areas and are designated for that purpose.

(b) (1) A State may enter into a multijurisdictional agreement with any unit of local government within the State that has a population of at least 100,000 persons in order to provide services within a designated area. Such an agreement may be approved by the ARDM when, to the extent consistent with State and local law, each party signatory to the consortium agreement accepts responsibility for the operation of the program, and the ARDM believes that the parties will, pursuant to the agreement, plan and operate a comprehensive manpower program which provides administrative and programmatic advantages over other methods of delivering services under the Act. All requirements for consortia in Parts 94 through 99 apply to such State multijurisdiction agreements unless otherwise stated.

(2) Incentive funds may be provided for an agreement under paragraph (1) if the agreement includes every eligible prime sponsor in the State.

(c) A consortium which comprises a substantial portion of a functioning labor market (e.g., 75 percent) shall be eligible for incentive funds, as provided in § 95.2(c) (1). The ARDM shall make such determinations, taking into consideration the definition and listing of labor market areas published by the Department, and the recommendations of the Governors.

(d) Incentive funds for consortia or State multijurisdictional agreements shall be a nationally uniform percentage increase of the amount due them under § 95.2(b) (4), but shall not exceed 10 percent of the amount.

(e) No State, unit of general local government, or consortium may apply or be designated as a prime sponsor for any area within its jurisdiction that is also within the jurisdiction of another prime sponsor unless that other prime sponsor consents or fails to submit an approvable Comprehensive Manpower Plan, or has its plan terminated, in whole or in part, by the Secretary.

(f) Any unit of general local government that does not intend to be served by the prime sponsor which would normally serve it under Title I shall inform that prime sponsor of its determination.

##### § 95.4 Data base for determining eligibility.

In order to determine prime sponsor eligibility, the Secretary shall use the 1970 official Census as published by the U.S. Bureau of the Census or Bureau of the Census certified updates which are satisfactory to the Secretary of Labor.

#### Subpart B—Grant Planning, Application, and Modification Procedures

##### § 95.10 General.

This Subpart B provides the procedures for obtaining and modifying a grant to operate programs under Title I of the Act. Specifically, this subpart describes the procedures in the grant award process—from preapplication through the grant application process, to review by the Department, approval or disapproval of the grant, and modification. This subpart also describes the functions of prime sponsor manpower planning councils and State Manpower Services Councils.

##### § 95.11 Preapplication for Federal assistance; consortium agreements.

(a) (1) The appropriate ARDM shall inform in writing all potential applicants of their eligibility to receive funds under Title I. An applicant interested in receiving financial assistance shall submit a preapplication to the ARDM, the Governor and the appropriate State and areawide A-95 clearinghouses (See OMB Circular A-95). The preapplication will consist of the Preapplication for Federal Assistance form Part I, contained in Federal Management Circular (FMC) 74-7 (formerly OMB Circular A-102), with an attachment giving the following information:

(i) Geographical area(s) to be served;

(ii) Population of area(s) to be served;

(iii) Certification that applicant, except for CEP and consortia prime sponsors, has the required general government authority, as defined in § 94.4;

(iv) Name of any ineligible unit of general local government, located within the prime sponsor applicant's jurisdiction, that has informed the prime sponsor applicant that it will not be participating in the prime sponsor applicant's plan.

(v) Certification that the development of the applicant's plan will be in accordance with the requirements of the Act and regulations (e.g., involvement of local elected officials of the areas to be served); and

(vi) The signature of the chief elected official(s) or chief executive officer(s), as appropriate, of each applicant. For a newly formed consortium, and for a consortium in which one or more members have joined or withdrawn, the signature of the chief elected official or chief executive officer of each consortium member is required. In the case of an established consortium with no membership changes, the preapplication may, with the consent of all consortium members, be signed by the consortium's chief executive officer. In either case, submission shall be by a date set by the Secretary (section 102(c)).

(b) In addition to the preapplication, each consortium of local governments shall, at a date established by the ARDM, submit to the ARDM for his approval an agreement covering programs funded under Title I and Title II. The agreement shall include the items required by this paragraph (b). The agreement shall be signed by the chief elected official or chief executive officer of each consortium member. The agreement shall include the following:

(1) A statement that the agreement has been formed under the Comprehensive Employment and Training Act of 1973, as amended, and the dates through which the consortium takes effect. An agreement shall be written to establish a consortium arrangement for the express purpose of conducting a program under the Act or an existing joint powers or other agreement shall be amended to include reference to the Act as part of the agreement.

(2) A listing of the units of government which are parties signatory to the agreement (i.e., the governmental units that are members of a consortium; not those governmental units that are merely served by a consortium);

(3) A listing of any ineligible governmental unit which would normally be within the jurisdiction of the consortium but has informed the members of the agreement of its desire not to have services provided through the consortium;

(4) A description of the geographical areas which will be served through the agreement;

(5) The population to be served;

(6) A certification that State and local law permits services under the consortium agreement to be provided within the entire geographical area covered by the agreement, including within the jurisdiction of any local government located within the geographical area covered by the agreement (i.e., that the agreement is not prevented by State or local law from taking effect in the entire geographical area which it intends to serve);

(7) An attached letter from each unit's chief legal officer assuring that each party signatory has the legal authority, under State or local law, to enter into the consortium agreement (these letters are made part of the agreement);

(8) A statement that one of the following procedures shall be used for signing grant agreements with the Department:

(i) That grant agreements with the Department shall be signed by the chief elected official or chief executive officer of each party to the consortium agreement; or

(ii) That, pursuant to a specific designation in the consortium agreement, grant agreements with the Department shall be signed by the chief elected official or chief executive officer of one or more of the parties to the consortium agreement, or by the chief executive officer of the administrative unit established under paragraph (d)(1) of this section;

(9) A certification that to the extent consistent with State or local law, each party signatory to the consortium agreement accepts responsibility for the operation of the program (i.e., each member of the consortium, rather than any administrative arm, has ultimate responsibility for the program's operation and success);

(10) A description of the powers, functions and responsibilities reserved by the parties to the consortium agreement, specifying the process by which decisions will be made, the process by which each party to the agreement will review and approve the Comprehensive Manpower Plan, and the procedure by which chief elected officials will participate in the planning and operation of the program, if they so desire. However, no agreement that has been validly entered into prior to the establishment of this requirement by the regulations for this Act published March 19, 1974, need be modified to include this provision.

(11) A statement of the powers, functions and responsibilities which will be delegated to an administrative entity to operate the program and the name and organizational structure of that entity.

(c) An established consortium which submitted an agreement in a prior year shall attest in writing that the agreement remains the same or has been changed in certain specific respects which it shall set forth in the attestation and this attestation shall be signed by the chief elected official or chief executive officer of each consortium member.

(d) In signing grant agreements with the Department, the authorized consortium signatory(s) shall certify that the procedures described in the consortium agreement pursuant to paragraph (b)(10) of this section have been utilized.

(e) (1) The consortium shall be the prime sponsor under the Act. An administrative unit or one member of the consortium must be designated to operate the program.

(2) The division of powers, functions, and responsibilities between the consortium members and the administrative unit shall be workable and clearly delineated. The administrative unit may be delegated the power to enter into contracts and subgrants and other necessary agreements, to receive and expend funds, to employ personnel including participants under the Act for the purposes of

administering the program only, to organize and train staff, to develop procedures for program planning, operation, assessment and fiscal management, to evaluate program performance and determine resulting need to reallocate resources, and to modify the grant agreement with the Department. The administrative arm of the consortium should have responsibility for the entire operation of the program, but the consortium members shall reserve to the consortium the right of evaluation and the decision to reprogram funds.

(f) A consortium established under these regulations shall have a stated duration at least equal to the period of the grant.

(g) All preapplications from applicants which are eligible only in exceptional circumstances, as defined in § 95.3(a)(4) of this Part 95, shall, in addition to the requirements of paragraph (a), include in their preapplications a statement and justification that they meet the requirements of § 95.3(a)(4). Consortia formed in exceptional circumstances shall also submit an agreement as required in paragraph (b).

#### § 95.12 Prime sponsor designation.

Upon receipt of a completed preapplication, the ARDM shall determine whether the applicant is eligible to be designated as a prime sponsor and shall notify the applicant of his determination. Exhibit M-2, Notice of Preapplication Review Action, FMC 74-7 will be used. A grant application package (§ 95.14(b)) shall be sent to each applicant designated as being eligible.

#### § 95.13 Planning process: advisory councils.

(a) General. An applicant for financial assistance shall submit an approvable Comprehensive Manpower Plan, as set out in § 95.14 of this Part 95. In developing and modifying such a plan, an applicant shall utilize the advisory councils set out in this section (sections 104, 105, and 107).

(b) Planning process. The prime sponsor shall have a planning process for the development of its Comprehensive Manpower Plan. That process shall utilize, as appropriate, the advisory councils established in this section and shall also assure the participation in program planning of community-based organizations and the population to be served.

(c) Prime sponsor Manpower Planning Council. (1) Each prime sponsor shall appoint a Manpower Planning Council representative of the geographic area to be served. The Planning Council function is advisory. The Council's advisory authority does not free the prime sponsor from its final decisionmaking responsibilities under the Act.

(2) The Planning Council shall advise the prime sponsor in the setting of basic goals, policies, and procedures for its program under Title I and Title II of the Act. It shall make recommendations regarding program plans, and provide for continuing analyses of needs for employment, training, and related services in such areas. Planning Councils should

monitor all manpower programs funded under Title I and Title II of the Act and provide for objective evaluations of other manpower and related programs operating in the prime sponsor's areas, for the purpose of improving the utilization and coordination of the delivery of such services. The procedures for evaluating programs not funded under Title I and Title II of the Act will be developed in cooperation with the agencies affected. The Planning Council shall make recommendations based upon its analyses to the prime sponsor, which will consider them in the content of its overall decision-making responsibility.

(3) Each prime sponsor shall, to the extent practical, include as appointments to its Planning Council members who are representative of the participant community (e.g., women, persons of limited English-speaking ability and other minority groups), community-based organizations, the Employment Service, education and training agencies and institutions, business, organized labor, and where appropriate, agriculture. Generally, staff of State or local government agencies would not provide appropriate representation of the participant community their agency serves. Persons representative of other interested groups may also be appointed. The prime sponsor shall appoint a chairman of the Planning Council and provide professional, clerical, and technical staff to serve it. Funds for supportive services and related staff costs for the Planning Council may be made available from a prime sponsor's basic allocation.

(d) State Manpower Services Council. (1) A State prime sponsor shall establish, in addition to its Planning Council under paragraph (c), a State Manpower Services Council (SMSC) representative of the geographic area to be served. The SMSC function is advisory and does not relieve the State of its final decisionmaking responsibilities under the Act.

(2) Consistent with the requirements of Section 107 of the Act, the Governor shall appoint Council members, as follows:

(i) At least one-third of the membership of the Council shall be composed of representatives of prime sponsors who have been designated in accordance with procedures agreed upon by the chief executive officers of such prime sponsors. (All prime sponsors within the State need not be represented; whatever the size of the Council, one-third of its membership shall be representatives of prime sponsors within the State.)

(ii) One representative shall be appointed from each of the following: the State Board of Vocational Education, the State employment service, and any State agency the Governor believes has an interest in manpower or manpower-related services within the State.

(iii) Representatives shall be appointed from organized labor, business and industry, the general public, community-based organizations, and from the population to be served under the Act (including representation of women, persons of limited English-speaking ability,

and other minority groups when such persons represent a significant portion of the participant population). Generally, staff of State or local government agencies would not provide appropriate representation under this paragraph.

(3) The Governor shall appoint a chairman for the Council and provide the Council with professional, technical, and clerical staff. The Council shall meet as it deems necessary.

(4) Council responsibilities shall include, but not be limited to;

(i) Reviewing prime sponsor plans, proposed modifications, and comments thereon;

(ii) Reviewing State agency plans for providing services to prime sponsors;

(iii) Making recommendations to prime sponsors, agencies providing manpower services, the Governor, and the general public on improving the coordination and effectiveness of manpower services within the State;

(iv) Monitoring continuously (A) the operation of programs conducted by prime sponsors in the State and (B) the availability, responsiveness, adequacy, and effective coordination of State services provided by all manpower-related agencies. The monitoring conducted by SMSC's shall include an emphasis upon reviewing statewide and inter-prime sponsor issues of utilization and coordination of manpower resources of State agencies, and the coordination of plans and operations in contiguous areas. The extent and procedures for monitoring prime sponsors and State agencies must be defined by the SMSC and publicized to all prime sponsors and State agencies affected prior to their being implemented; and

(v) Submitting an annual report to the Governor which will be a public document, and issuing such other studies, reports or documents to the Governor and prime sponsors as the SMSC believes necessary to effectively carry out the Act.

(e) Combined planning and services councils. In any State where the State is the only prime sponsor, the prime sponsor planning council may also perform the functions of the State Manpower Services Council. In such instances, the membership of the prime sponsor's planning council shall reflect the membership requirements of the State Manpower Services Council, in addition to meeting the membership requirements of a prime sponsor planning council, except that the provision of § 95.13(d)(2)(i) is not required.

#### § 95.14 Content and description of grant application.

(a) General. (1) This section describes the grant application which prime sponsor applicants will use to apply for their grant allotment of funds under Title I of the Act. A single grant document may be provided by the ARDM for obtaining funds under Titles I and II. Such a document shall contain all the requirements set out for such grants in these regulations. Procedures for special State grants under Title I are in Subpart D of this Part 95 (sec. 105).

(2) A copy of all forms and instructions are contained in the *Forms Preparation Handbook*.

(b) Grant application forms—(1) Application for Federal Assistance. The Application for Federal Assistance identifies the applicant and the amount of funds requested; it provides information concerning the area to be served and the number of people expected to benefit from the program. The form for Part I of the Application for Federal Assistance (Nonconstruction Programs) contained in FMC 74-7 is being used.

(2) Title I Comprehensive Manpower Plan. The Title I Comprehensive Manpower Plan is a statement of how the applicant intends to use its Title I funds and to coordinate its activities with other manpower programs and services operating within its jurisdiction. The Title I Comprehensive Manpower Plan consists of the Narrative Description of the Title I Program, the Program Planning Summary, Budget Information Summary and Occupational Summary, all described below. For consortia the approved consortium agreement shall be a part of the plan.

(i) Narrative Description of Title I Program. The Narrative Description of the Title I Program provides for a narrative outline of the proposed program under the Act. It identifies and explains the manpower problems within the applicant's jurisdiction, describes proposed program activities and delivery systems to deal with those problems, and projects the results which may be expected from the program. The Narrative Description of the Title I Program requires a detailed statement on the program including the following items. The *Forms Preparation Handbook* gives detailed instructions for these items required in the Narrative Description of the Title I Program:

(A) Objectives and needs for assistance. (1) Policy statement on purpose of program;

(2) Description of economic conditions;

(3) Description of labor force characteristics;

(4) Explanation of skill shortage occupations;

(5) Definition of manpower needs;

(6) Statement of groups to be served including consideration given to priority groups and occupations;

(7) Statement of goals to be accomplished.

(B) Results and benefits expected. (1) Statement relating planned outputs to needs;

(2) Rationale for selection of program activities in the program design;

(3) Statement of how the program design will provide participants with economic self-sufficiency; and

(4) Explanation of how the program will enhance career development.

(C) Approach. (1) Description of the planning system and participation of community based organizations and the population to be served;

(2) Statement of strategy for accomplishing goals;

(3) Description of each program activity and service and the enrollee flow;

(4) Description of methods to be used to recruit, select and determine eligibility of participants;

(5) Description of how persons of limited English-speaking ability will be served if they represent a significant portion of an applicant's program;

(6) Description of special considerations to veterans;

(7) Description of continuity of services to participants when the geographical area of the prime sponsor has changed;

(8) Description of the applicant's administrative system including accounting for placements;

(9) Description of the mechanism for assuring equal employment opportunity;

(10) Description of allowance payment system;

(11) Description of consideration given to programs of demonstrated effectiveness and explanation of reasons specific delivery agents were selected including reason existing services and facilities, including State employment security agencies, State vocational education agencies, vocational rehabilitation agencies, local education agencies, post secondary training and educational institutions, community action agencies, and area skill centers, were not utilized and justification of any duplication of services.

(12) Description of coordination with deliverers of manpower services not supported by the Act; and

(13) Justification of administrative costs planned;

(D) Geographic location served. Description of the geographical locations to be served.

(E) Additional items relating to State applicants. (1) A description of arrangements for serving all geographic areas under its jurisdiction, (i.e., balance of State) except for areas served by other prime sponsors;

(2) Description of the functions of the State Manpower Services Council;

(3) Description of State Manpower Services to be undertaken.

(F) Additional items relating to Public Service Employment Programs. (1) Description of unmet public service needs and priorities;

(2) Relationship of types of jobs to public service needs described above;

(3) Justification of funding and job allocation to government agencies;

(4) Description of strategy for serving and matching jobs to special veterans' skills;

(5) Description of plan for providing services to significant segments of the population, and disabled veterans, special veterans, and those veterans discharged within four years of the date of application, welfare recipients, and former manpower trainees;

(6) Description of the methods of determining rates of compensation when they differ from what is normally paid by the employer and reasons for the difference;

(7) Description of actions to insure compliance with personnel procedures and collective bargaining agreements for

jobs in other than the entry level in any job category;

(8) Plans to improve and expand employment and advancement opportunities of the target population;

(9) Description of supervisory training, education and other services to participants;

(10) Explanation of linkages with other programs;

(11) Description of efforts to remove artificial barriers; and

(12) Maintenance of effort verification.

(ii) **Program Planning Summary.** The Program Planning Summary requires a prime sponsor to provide a quantitative statement of planned enrollment levels, the participants to be served by each program activity (classroom training, on-the-job training, public service employment, work experience, and other activities) and outcomes for program participants. It also requires an identification of the significant segments of the population and the number of individuals to be served in each.

(iii) **Budget Information Summary.** The Budget Information Summary requires a prime sponsor to provide a quantitative statement of planned expenditures and obligations by the grantee. It requires prime sponsors to indicate yearly planned expenditures by cost category (administration, allowances, wages, fringe benefits, training, and services); the prime sponsor is to reflect planned quarterly obligations, and planned quarterly expenditures by program activity.

(iv) **Public Service Employment Occupational Summary.** The Occupational Summary requires a prime sponsor operating a public service employment program under the Act to provide a description of proposed job opportunities, occupations and wages, including a comparison of such wages with wages for similar nonsubsidized jobs in the employing agency.

(3) **Assurances and Certifications.** The Assurances and Certifications form is a signature sheet on which the prime sponsor assures and certifies that it will comply with the Act, the regulations of the Department, other applicable laws, and applicable Federal Management Circulars and Office of Management and Budget (OMB) circulars. The Assurances and Certifications form appears in and *Forms Preparation Handbook*. Following is a summary of the items which are described in detail on that form:

(i) **General Assurances:**

(A) Compliance with the Act and regulations, including conformance to amendments;

(B) Compliance with FMC 74-4 and 74-7 and OMB Circular A-95;

(C) Legal authority to apply for the grant (secs. 102(a), 701(a)(9)(10));

(D) Compliance with Title VI of the Civil Rights Act of 1964;

(E) Non-discrimination (secs. 703(1) and 712);

(F) Compliance with the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (FMC 74-7);

(G) Compliance with the Hatch Act

as amended and restrictions on political activities (sec. 710);

(H) Prohibition on use of position for private gain (sec. 702(a));

(I) Access of Comptroller General and Secretary to records and documents pertaining to the Act (sec. 713(2));

(J) Non-support of religious facilities (sec. 703(4));

(K) Maintenance of required health and safety standards (sec. 703(5));

(L) Provision of appropriate employment and training conditions in regard to type of work, geographical region and proficiency of the participant (sec. 703(4));

(M) Provision of workmen's compensation protection to participants in on-the-job training, work experience, or public service employment programs under the Act at the same level and to the same extent as other employees of the employer who are covered by a State or industry workmen's compensation statute; and provision of workmen's compensation insurance or medical and accident insurance for injury or disease resulting from their participation to those individuals engaged in any program activity under the Act, i.e., work experience, on-the-job training, public service employment, classroom training, services to participants, and other activities, where others similarly engaged are not covered by an applicable workmen's compensation statute (secs. 703(6) and 208(4));

(N) Use of funds under the Act to supplement, rather than supplant funds otherwise available, prohibition on displacement of employed workers by participants employed under the Act, and prohibition on impairment of existing contracts for services (secs. 703(11) and 703(7));

(O) Training only in occupations which require two or more weeks of pre-employment training, unless there are immediate employment opportunities (secs. 703(8), and 105(a)(6));

(P) Training which has a reasonable expectation to lead to unsubsidized employment and which provides for the development of participants' potential consistent with their capabilities (secs. 703(9), 105(a)(6), and 703(10));

(Q) Use of funds to supplement rather than supplant the level of funds otherwise available for the planning and administration of the program (sec. 703(11));

(R) Compliance with reporting and recordkeeping requirements of the Act and regulations (secs. 703(12) and 311(c));

(S) Contribution to the occupational development or upward mobility of individual participants (sec. 703(13));

(T) Provision of required administrative and accounting controls (sec. 703(14));

(U) Provision for the manpower needs of youth in the area served (sec. 703(15));

(V) Compliance with minimum wage requirements specified under the Act (secs. 111(a) and (b) and 208(a)(2));

(W) Compliance with applicable labor standards pertaining to the worksite or training facility (secs. 111(b) and 706);

(X) Services and activities provided under this Act will be administered by or under the supervision of the applicant (sec. 105(a)(1)(D));

(i) Additional assurances for Title I programs, as required by the Act:

(A) Provision of manpower services to those most in need of them, and consideration of the need for continued funding of programs of demonstrated effectiveness to serve them (sec. 105(a)(1)(D));

(B) Design of programs of institutional skill training for skill shortage occupations (sec. 105(a)(6));

(C) Submission of a comprehensive plan in accordance with section 105(a) and compliance with the provisions of section 105(b);

(D) Arrangements to assist the Secretary in carrying out his responsibilities under sections 105 and 108 of the Act (sec. 105(a)(7));

(E) Special consideration given to the needs to unemployed disabled veterans, special veterans and veterans discharged within four years of the date of application and special outreach and coordination efforts to serve such veterans (secs. 205(c)(5), 205(c)(26) and 104(b) of the Emergency Jobs and Unemployment Assistance Act of 1974 (Pub. L. 93-567));

(ii) Additional assurances relating to public service employment programs as follows:

(A) Special consideration be given to the filling of jobs which provide prospects for advancement or continued employment by providing complementary training and manpower services in accordance with procedures established in section 205(c)(4);

(B) Provision of public service jobs, to the extent feasible, in occupational fields most likely to expand within the public or private sector as the unemployment rate recedes (sec. 205(c)(6));

(C) Special consideration in filling transitional public service jobs be given to persons most severely disadvantaged in terms of length of unemployment and prospects for finding employment unassisted, but not authorize the hiring of any person when another person is on lay-off from the same or equivalent job (sec. 205(c)(7));

(D) Prohibition against the use of funds to hire any person to fill a job opening created by the action of an employer in laying off or terminating the employment of any other regular employee not supported under the Act in anticipation of filling such vacancy by hiring an employee to be supported under the Act (sec. 205(c)(8));

(E) Consideration of persons who have participated in manpower training programs (sec. 205(c)(9));

(F) Compliance with periodic review procedures pursuant to section 207(a) of the Act (sec. 205(c)(12));

(G) Removal of artificial barriers to public employment by agencies and institutions receiving financial assistance and contributing, to the maximum ex-

tent feasible, to the elimination of artificial barriers to employment and occupational advancement (secs. 205(c)(12) and 205(c)(21));

(H) Maintenance or provision of linkages with upgrading and other manpower programs to assist persons employed in public employment programs to fulfill their career goals (sec. 205(c)(19));

(I) Employment of not more than one-third of the participants in a bona fide professional capacity except in the case of classroom teachers; the Secretary may waive this limitation in exceptional circumstances (sec. 205(c)(22));

(J) Allocation of jobs equitably to local governments and agencies (sec. 205(c)(23));

(K) Provisions of jobs in each job category which will not infringe upon the promotional opportunities of unsubsidized current employees and provision of jobs only at the entry level in each job category until applicable personnel procedures and collective bargaining agreements have been met (sec. 205(c)(24));

(L) Provision of jobs in addition to those that would otherwise be funded by the prime sponsor without assistance under the Act (sec. 205(c)(25));

(iv) Special certification for State grantees: Compliance with requirements and provisions of sections 106 and 107 of the Act.

(4) **Grant Signature Sheet.** The Grant Signature Sheet records the acceptance by the grantee and grantor of the terms and conditions of the grant and any changes to the grant. It records the time period for which the grant is effective, the grant allotment, the amount of funds obligated by the ARDM to the grantee, the title of the act under which the funding is authorized and the name, title and signature of the approving official on both sides.

§ 95.15 **Comment and publication procedures relating to submission of grant application.**

(a) As provided in paragraphs (b) and (c) of this section, each prime sponsor shall provide an opportunity for comment on the application (secs. 105(c)(2) and 108).

(b) (1) Each prime sponsor shall publish a summary of the grant application, including the proposed grant allotment of funds, in a newspaper or newspapers (including minority newspaper(s), where feasible) which will provide for a general circulation throughout the area to be served by the prime sponsor's plan. Such publication shall be for three consecutive issues. The publication shall be made 30 days prior to the submission of the application to the ARDM. A copy of the newspaper article shall be transmitted to the ARDM.

(2) The information published shall include the following:

(i) The numbers of individuals to be served and terminated, including the number to be placed in unsubsidized employment;

(ii) The significant segments of the population to be served, and number of planned participants in each segment;

(iii) The program activities and services to be provided by the program in each geographical area and the funds to be planned for each activity and service;

(iv) The total funds in the plan (i.e., grant allotment plus carry in, if any) and the distribution of funds by cost categories;

(v) The location and hours when the complete grant application can be reviewed and the address and phone number where questions and comments may be directed;

(vi) A comparison of performance against prior year's plan through the most recent quarter, including items such as:

(A) Comparison of planned and actual enrollments by program activities;

(B) Comparison of planned and actual placements and terminations;

(C) Comparison of planned and actual numbers of individuals in each significant segment;

(D) Comparison of planned and actual expenditures by program activity and cost categories (sec. 705(f)).

(c) In addition to general newspaper circulation, each prime sponsor applicant shall provide a copy of its application for the purpose of commenting thereon, to the Governor and the appropriate State and sub-State A-95 clearinghouse(s) 30 days prior to its submission to the ARDM. At the same time it shall provide a summary to appropriate units of general local government with a population of at least 10,000 persons, to appropriate Indian prime sponsors, and to labor organizations representing employees engaged in similar work in the same area as that for which enrollees will receive subsidized employment or training.

(d) Comments pursuant to paragraphs (b) and (c) shall be made to the prime sponsor applicant and the ARDM within 30 days of publication. The prime sponsor shall provide copies of all written comments to its Prime Sponsor Planning Council and the Governor. In addition all substantive written comments and responses will be transmitted to the ARDM with the grant application, unless the comments are received after the application's submission, in which case they will be sent separately to the ARDM.

(e) A prime sponsor applicant shall acknowledge any written comment made pursuant to this section. It shall inform any party submitting a substantive written comment of whether any plan revision will be made in response to the comment and the reasons for the prime sponsor's determination.

(f) If any party commenting to the ARDM pursuant to the A-95 clearinghouse review process recommends disapproval of the grant in whole or in part and if the ARDM after review of the recommendation determines that the grant should be approved, the ARDM shall inform the party making the comment of the reasons for the ARDM's determination.

§ 95.16 **Submission of grant application.**

(a) Each prime sponsor applicant shall submit its grant application to the ARDM on or before a date set by the Secretary.

(b) A grant application shall include all items set out in § 95.14 of this Part 95.

§ 95.17 **Standards for reviewing grant applications.**

(a) A grant application will be reviewed to determine if it meets the requirements of the Act, the regulations promulgated under the Act, and other applicable law.

(b) In reviewing a grant application as provided in paragraph (a), of this section, the ARDM shall determine whether:

(1) The application is complete;

(2) The needs and priorities identified in the application are supported and justified by the documentation provided by the prime sponsor;

(3) The planned expenditures for program activities are substantiated by documentation of the needs and priorities identified in the application;

(4) The performance goals identified in the application are reasonable in light of past program experience in the same or similar activities and the documentation provided by the prime sponsor;

(5) Documentation is presented that reasonable arrangements have been made to involve the population to be served and community-based organizations in the planning process, through representation on the Prime Sponsor Manpower Planning Council or through participation in the specific planning of the program;

(6) The prime sponsor applicant's selection of the method of delivery of services is supported by adequate documentation based on availability and capability of delivery agents and appropriateness of services for the population to be served and provides evidence that due consideration has been given to the utilization of those services and facilities available from Federal, State, and local agencies (sec. 105(a)(3)(B));

(7) Maximum efforts have been made to meet the goals of the prior year's plan; such efforts shall include monitoring, evaluation, and remedial activities, such as, but not limited to, modification of the plan to reflect significant economic changes within the jurisdiction (sec. 105(a));

(8) The administrative costs in the application are reasonable and provide, to the maximum extent feasible, for Federal funds to be expended for direct program activities and services, and, if administrative costs exceed 20 percent of non public service employment activities whether the prime sponsor has cited an adequate reason and provided supporting documentation. Costs for public service employment other than wages and fringe benefits may not exceed 10 percent (secs. 108(d)(2) and 203(b));

(9) The prime sponsor has adequate internal administrative controls, accounting requirements, personnel stand-

ards, and number of planned participants in each segment;

(iii) The program activities and services to be provided by the program in each geographical area and the funds to be planned for each activity and service;

(iv) The total funds in the plan (i.e., grant allotment plus carry in, if any) and the distribution of funds by cost categories;

(v) The location and hours when the complete grant application can be reviewed and the address and phone number where questions and comments may be directed;

(vi) A comparison of performance against prior year's plan through the most recent quarter, including items such as:

(A) Comparison of planned and actual enrollments by program activities;

(B) Comparison of planned and actual placements and terminations;

(C) Comparison of planned and actual numbers of individuals in each significant segment;

(D) Comparison of planned and actual expenditures by program activity and cost categories (sec. 705(f)).

(c) In addition to general newspaper circulation, each prime sponsor applicant shall provide a copy of its application for the purpose of commenting thereon, to the Governor and the appropriate State and sub-State A-95 clearinghouse(s) 30 days prior to its submission to the ARDM. At the same time it shall provide a summary to appropriate units of general local government with a population of at least 10,000 persons, to appropriate Indian prime sponsors, and to labor organizations representing employees engaged in similar work in the same area as that for which enrollees will receive subsidized employment or training.

(d) Comments pursuant to paragraphs (b) and (c) shall be made to the prime sponsor applicant and the ARDM within 30 days of publication. The prime sponsor shall provide copies of all written comments to its Prime Sponsor Planning Council and the Governor. In addition all substantive written comments and responses will be transmitted to the ARDM with the grant application, unless the comments are received after the application's submission, in which case they will be sent separately to the ARDM.

(e) A prime sponsor applicant shall acknowledge any written comment made pursuant to this section. It shall inform any party submitting a substantive written comment of whether any plan revision will be made in response to the comment and the reasons for the prime sponsor's determination.

(f) If any party commenting to the ARDM pursuant to the A-95 clearinghouse review process recommends disapproval of the grant in whole or in part and if the ARDM after review of the recommendation determines that the grant should be approved, the ARDM shall inform the party making the comment of the reasons for the ARDM's determination.

(g) The prime sponsor has adequate internal administrative controls, accounting requirements, personnel stand-

ards, and number of planned participants in each segment;

(iii) The program activities and services to be provided by the program in each geographical area and the funds to be planned for each activity and service;

(iv) The total funds in the plan (i.e., grant allotment plus carry in, if any) and the distribution of funds by cost categories;

(v) The location and hours when the complete grant application can be reviewed and the address and phone number where questions and comments may be directed;

(vi) A comparison of performance against prior year's plan through the most recent quarter, including items such as:

(A) Comparison of planned and actual enrollments by program activities;

(B) Comparison of planned and actual placements and terminations;

(C) Comparison of planned and actual numbers of individuals in each significant segment;

(D) Comparison of planned and actual expenditures by program activity and cost categories (sec. 705(f)).

(c) In addition to general newspaper circulation, each prime sponsor applicant shall provide a copy of its application for the purpose of commenting thereon, to the Governor and the appropriate State and sub-State A-95 clearinghouse(s) 30 days prior to its submission to the ARDM. At the same time it shall provide a summary to appropriate units of general local government with a population of at least 10,000 persons, to appropriate Indian prime sponsors, and to labor organizations representing employees engaged in similar work in the same area as that for which enrollees will receive subsidized employment or training.

(d) Comments pursuant to paragraphs (b) and (c) shall be made to the prime sponsor applicant and the ARDM within 30 days of publication. The prime sponsor shall provide copies of all written comments to its Prime Sponsor Planning Council and the Governor. In addition all substantive written comments and responses will be transmitted to the ARDM with the grant application, unless the comments are received after the application's submission, in which case they will be sent separately to the ARDM.

(e) A prime sponsor applicant shall acknowledge any written comment made pursuant to this section. It shall inform any party submitting a substantive written comment of whether any plan revision will be made in response to the comment and the reasons for the prime sponsor's determination.

(f) If any party commenting to the ARDM pursuant to the A-95 clearinghouse review process recommends disapproval of the grant in whole or in part and if the ARDM after review of the recommendation determines that the grant should be approved, the ARDM shall inform the party making the comment of the reasons for the ARDM's determination.

(g) The prime sponsor has adequate internal administrative controls, accounting requirements, personnel stand-

ards, monitoring and evaluation procedures, availability of in-service training and technical assistance, and such other policies as may be necessary to promote the effective use of funds provided under Title I of the Act;

(10) All parties required to be afforded an opportunity to comment on comprehensive manpower plans have been afforded such an opportunity;

(11) Any comment on a comprehensive manpower plan evidences non-compliance with the Act, the regulations promulgated pursuant to the Act, or any other applicable law;

(12) Documentation is presented that programs of institutional training are designed for occupations in which skill shortages exist (sec. 105(a)(6)); and

(13) The public service employment job opportunities satisfy the requirements set forth in § 96.23 with the exception of § 96.23(b)(13);

#### § 95.18 Application approval; grant agreement.

(a) An application for a grant shall be approved if it meets the requirements of the Act, the regulations promulgated under the Act, other applicable law, and if the ARDM determines that the prime sponsor has demonstrated maximum efforts to meet the goals of the prior year's plan.

(b) An application for a grant from a consortium, or pursuant to a State multi-jurisdictional agreement, shall be approved if, in addition, an agreement among the parties has been submitted to and approved by the ARDM.

(c) A prime sponsor applicant, the Governor, and the A-95 clearinghouse shall be notified by the ARDM within 7 days of action taken on the application. If an application is approved, the ARDM shall provide the prime sponsor with a grant agreement, consisting of the Grant Signature Sheet and the Assurances and Certification Form, and the Comprehensive Manpower Plan which is included by reference. The Comprehensive Manpower Plan shall be attached to the grant agreement.

(d) The grant agreement for the subsequent program year may be effectuated by a modification to the existing grant. In such cases all of the requirements in Subpart B of this Part 95 apply.

#### § 95.19 Application disapproval.

(a) An application for a grant shall be disapproved if it fails to meet any requirement of the Act, the regulations promulgated under the Act, or any other applicable law (secs. 105 and 108).

(b) No application shall be disapproved solely because of the percentage of the total funds devoted to any allowable program activity.

(c) No application for a grant shall be disapproved until:

(1) The prime sponsor applicant has been notified that its application fails to meet a requirement of the Act, regulations promulgated under the Act, or other applicable law; and

(2) The prime sponsor applicant is provided with suggestions as to those cor-

rective steps which may be utilized to remedy any defect found in the application; and

(3) The prime sponsor applicant has been provided a reasonable opportunity, but not less than 30 days, to remedy any defect found in the application, but has failed to do so.

(d) When an application is disapproved, a notice of disapproval shall be transmitted to the prime sponsor and the Governor, accompanied by a statement of the grounds of the disapproval. Such disapproval shall not be effective until notice and opportunity for a hearing has been provided, as required in Subpart C of Part 98.

#### § 95.20 Use of alternative prime sponsors; services by the Secretary.

If an application is not filed, as required, or is denied, or if a grant is terminated in whole or in part during a fiscal year, the Secretary may make provision for the funds so released to be used by the State or another alternative prime sponsor to service the area originally to be served by the primary prime sponsor, or the Secretary may serve such an area directly. In so doing, the Secretary shall make every effort to minimize or prevent any disruption in participant activities (sec. 110(a)).

#### § 95.21 Modification of grant agreement.

(a) A modification to the grant agreement is required when the ARDM requires a change in (1) the term of the grant, (2) the grant allotment, or (3) the assurances and certifications included in the grant agreement. The procedures for modification of the grant agreement shall be undertaken as described in paragraphs (b) through (e) of this § 95.21. This § 95.21 does not apply when a grant is modified as described in § 95.18(d) to implement a new program year.

(b) When the term or grant allotment is changed, the prime sponsor shall also submit a revised form, Application for Federal Assistance, Part I and a revised Program Planning Summary and Budget Information Summary to account for the change in funds and activity. If the change in the term or grant allotment necessitates a substantial change in program design, revised portion(s) of the narrative description of the program which reflect the change will also be submitted. A revision of the PSE Occupational Summary is not required.

(c) When the term or grant allotment is changed, the review and comment procedures provided in § 95.15 (c), (d), (e), and (f) shall be followed; except when the Department, at its convenience, extends the term of the grant in order to provide for the completion of the program without a substantive change in activities, submission as provided in § 95.15(c) shall be concurrent with submission to the ARDM. Substantive change for this purpose means an alteration in the direction, nature, scope, location or scale of the program or changes in the population to be served or significant segments. (See A-95 Ad-

ministrative Note Applications for Continuation and Extension Grants, July 1, 1974). The newspaper publication procedure provided in § 95.22(b)(2)(ii) shall be followed in either case.

(d) When the grant allotment is obligated by the ARDM in increments, each subsequent obligation by the ARDM requires a new grant signature sheet to be signed by representatives of the prime sponsor and the Department of Labor. Such a new signature sheet is not accompanied by a revised Comprehensive Manpower Plan, and does not require publication or comment procedures to be followed.

(e) A denial of a prime sponsor's request for a grant modification shall be subject to the appeal procedures set out in Part 98.

#### § 95.22 Modification of Comprehensive Manpower Plan.

(a) General. Prime sponsors may make three types of modifications to Comprehensive Manpower Plans: major, minor and narrative. An ARDM may initiate a modification as described in paragraph (e) of this section.

(b) Major plan modification. (1) When a prime sponsor intends to change its plan beyond the levels indicated, a major modification is required. A major modification is not required solely because actual performance varies from plan in excess of such levels. When a plan modification falls into one of the following categories, it will be considered to be a major plan modification:

(i) For grants of \$100,000 or less:

(A) When the cumulative transfer of funds among program activities or cost categories exceeds \$5,000; or

(B) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement terminations, or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(ii) For grants of over \$100,000.

(A) When the cumulative transfer of funds among program activities or cost categories exceeds \$10,000 or 5 percent of the total grant budget whichever is greater.

(B) When the cumulative number of individuals to be served, planned enrollment levels for program activities, planned placement terminations, or individuals to be served within significant client groups is to be increased or decreased by 15 percent or more.

(2) (i) A prime sponsor desiring a major modification shall submit a revised Program Planning Summary and Budget Information Summary for subsequent quarters only, and an explanation of the proposed changes to the ARDM; except that such modifications may be received by the ARDM within 20 days after the beginning of the quarter affected. If the proposed changes result in a substantial change in program design, rewritten portions of the narrative shall also be submitted; in all other cases the existing narrative need not be changed. A revision of the PSE Occupational Summary is not required.

(ii) In accordance with the procedures outlined in § 95.15 (d) and (e), and no later than the date of submission to the ARDM, this modification will be forwarded for comment to the Governor, to appropriate units of general local government with a population of at least 10,000 persons, to appropriate Indian sponsors, and to labor organizations representing employees engaged in similar work in the same area as that for which participants will receive subsidized employment or training; and the prime sponsor shall publish for three (3) consecutive issues in a newspaper or newspapers (including minority newspapers), where feasible, of general circulation throughout the area to be served a summary of the proposed changes including:

(i) The proposal of any change from the approved plan in the allowance payment system, including, but not limited to, the conditions for waivers; or

(ii) The proposal of any substantial change in program design.

(e) ARDM initiated modification. (1) After consultation with a prime sponsor, modifications may be required by the ARDM as necessary to assure compliance with the regulations.

(2) A prime sponsor is responsible for assuring that its programs are responsive to the changing economic situation in its jurisdiction and for making appropriate modifications to its plan. The ARDM may request such a reassessment and appropriate modification when the ARDM believes that the changing economic situation in a jurisdiction makes such a reassessment appropriate.

(3) The effectiveness of a prime sponsor's response to changing economic conditions in its jurisdiction will be taken into consideration in reviewing the subsequent year's grant application.

(4) If the prime sponsor disagrees with the ARDM under paragraphs (1) or (2) above, it may initiate a hearing pursuant to § 98.47 of these regulations.

(5) Procedures pertaining to each kind of modification as specified in (b) and (c) of this section shall be followed when that modification is initiated under this paragraph.

## RULES AND REGULATIONS

22693

(iii) The ARDM shall notify the prime sponsor of tentative approval or of tentative disapproval within 10 days of receipt of the proposed modification. Final ARDM action on approval or disapproval shall be taken within 30 days of the receipt of the proposed modification. Appeal of any such determination may be obtained through the procedures set out in Part 98 of the regulations.

(c) Minor plan modification. A prime sponsor may make any change in its Program Planning Summary or Budget Information Summary which is not set out in paragraph (b) of this section without prior approval, but must show any such change in the first Program Status Summary or Financial Status Report, as appropriate, submitted to the Department after the change has been made. At the same time this report is submitted, an updated Program Planning Summary or Budget Information Summary, as appropriate, shall also be submitted to the ARDM. Only those lines and columns affected by the modification need be shown.

(d) Modification of the narrative description of Title I program. (1) Except as provided in paragraph (d)(2) of this section when a prime sponsor chooses to replan and change a portion of its narrative description which does not necessitate a commensurate change on the Program Planning Summary or Budget Information Summary, it may submit such a change to the ARDM for incorporation into its plan without prior approval.

(2) A narrative modification requires prior approval of the ARDM under the following circumstances:

(i) The proposal of any change from the approved plan in the allowance payment system, including, but not limited to, the conditions for waivers; or

(ii) The proposal of any substantial change in program design.

(e) ARDM initiated modification. (1) After consultation with a prime sponsor, modifications may be required by the ARDM as necessary to assure compliance with the regulations.

(2) A prime sponsor is responsible for assuring that its programs are responsive to the changing economic situation in its jurisdiction and for making appropriate modifications to its plan. The ARDM may request such a reassessment and appropriate modification when the ARDM believes that the changing economic situation in a jurisdiction makes such a reassessment appropriate.

(3) The effectiveness of a prime sponsor's response to changing economic conditions in its jurisdiction will be taken into consideration in reviewing the subsequent year's grant application.

(4) If the prime sponsor disagrees with the ARDM under paragraphs (1) or (2) above, it may initiate a hearing pursuant to § 98.47 of these regulations.

## Subpart C—Program Operations

### § 95.30 General.

This Subpart sets out the program operation requirements for comprehensive manpower services under Title I of the Act. The utilization of funds under Title I is conditioned upon adherence to the Act, the regulations promulgated under the Act, and other applicable law.

### § 95.31 Basic responsibilities of prime sponsors.

A prime sponsor shall be responsible for:

(a) Compliance with plans and assurances;

(b) Compliance with Part 98 of these regulations;

(c) Establishing priorities for receipt of assistance authorized under the Act taking into account the priorities identified by the Secretary and the significant segments represented among the economically disadvantaged, unemployed, and underemployed residing within its jurisdiction;

(d) Designing program operating activities which are, to the maximum extent feasible, consistent with every participant's fullest capabilities and which will lead to employment opportunities enabling every participant to become economically self-sufficient, and which will contribute to the occupational development or upward mobility of every participant (secs. 101 and 703(9)).

(e) Advising all participants of their rights and responsibilities prior to entering the program and granting the opportunity for an informal hearing as provided in § 98.26; and

(f) Making maximum efforts to achieve the provisions of its plan.

### § 95.32 Eligibility for participation in a Title I program.

(a) A person who is economically disadvantaged, unemployed, or underemployed (as defined in § 94.4) may, subject to paragraph (b) of this section, participate in a program offered by the prime sponsor under Title I of the Act (secs. 105(a) and 108(d)).

(b) For the purpose of participating in a public service employment program under Title I of the Act, participation is permitted for persons who:

(1) Reside, as defined in paragraph (c) of this section, anywhere within the geographical area covered by the prime sponsor's comprehensive manpower plan; and

(2) Are unemployed (as defined for Title I in § 94.4), or underemployed (as defined in § 94.4), or economically disadvantaged (as defined in § 94.4); and are otherwise eligible for participation consistent with the requirements of sections 205(c) and 208 of the Act (sec. 105(a)(5)).

(c) For the purpose of defining residence in paragraph (b) of this section, the term residence shall mean an individual's permanent dwelling place or home, both at the time the individual applies and is selected for participation in a public service employment program under Title I of the Act. In determining whether a particular place is an individual's dwelling place or home, the intention of the individual is the key element. Maintenance of an "address" is not necessarily the same as maintenance of a dwelling place or home.

(d) Citizenship shall not be used as a criterion to prevent permanent residents, including permanent resident aliens, from participating in a program to the extent consistent with applicable State or local law. However, no services shall be provided to illegal aliens (those who do not have a bona fide Alien Registration Receipt form, or cannot present other documentation from the Immigration Service allowing them to seek employment).

(e) (1) Prime sponsors shall give special consideration to the needs of eligible disabled veterans, special veterans, and veterans who served in the Armed Forces and who received other than a dishonorable discharge within 4 years before the date of their application. Each prime sponsor in selecting participants for programs funded under Title I of the Act, shall take into consideration the extent that such veterans are available in the area. Specific effort should be made to develop appropriate full or part-time opportunities for such veterans. The prime sponsor should utilize the assistance of the State and local veterans employment service representative in formulating its program objectives.

(2) Each prime sponsor shall, on a continuing and timely basis, provide information on job vacancies, and training opportunities funded under Title I of the Act to the State and local veterans employment service representative for the purpose of disseminating information to eligible veterans (sec. 104(b) of Emer-

V40-101MAY2375

agency Jobs and Unemployment Assistance Act of 1974).

(f) Since all Title II, Title VI, and Emergency Employment Act (EEA) participants would have also qualified at time of enrollment for Title I, a Title II, Title VI, or EEA participant, for whom maximum efforts have been made to find unsubsidized employment, or for whom supplemental training or services is needed as a prerequisite to a job, may be transferred into or concurrently enrolled in a program offered by the prime sponsor under Title I of the Act without an intervening period of unemployment. Title III participants who met the eligibility criteria for Title I at the time of their enrollment may also be transferred into or enrolled concurrently in the Title I program (secs. 205(c) (14) and (19), and 105(a) (2)).

(g) While the selection of eligible full-time students for participation in programs funded under Title I of the Act is not prohibited, grantees should exercise caution in providing for such participation and should provide for such participation only in accordance with these regulations. In providing for such participation, prime sponsors should give special consideration to those most in need of service, including economically disadvantaged persons.

#### § 95.33 Types of manpower program activities available.

(a) A prime sponsor may provide any type of manpower program activity which is consistent with the purposes of Title I of the Act. Such program activities include but are not limited to the development and creation of job opportunities, and the training, education, and other services needed to enable an individual to secure and retain employment at the individual's maximum capacity. Program activities should be primarily directed toward the placement of individuals in unsubsidized employment, either directly at the outset of program participation as a result of intake and assessment or indirectly through provision of training or services (sec. 101). As provided in the nondiscrimination provisions of these regulations, the prime sponsor shall not include in the design of its program traditional hiring practices which result in discrimination based on race, creed, color, handicap, national origin, sex, age, political affiliation, or beliefs, and shall not permit such hiring practices to limit its responsiveness to the needs of the economically disadvantaged, unemployed, and underemployed population in the locality.

(b) (1) A prime sponsor may, consistent with these regulations, determine the operating levels and program activities in its area. It may select any of the program activities described in paragraph (d) of this section or devise other activities within the framework of the Act. No prime sponsor plan will be disapproved solely because of the percentage of funds devoted to a particular program activity (sec. 108(c)).

(2) A prime sponsor in designing the types of manpower services that will be

funded under the Act and determining the methods for providing these services, shall make an adequate review of the existing services and facilities in the community and give due considerations to the utilization of these facilities. The Comprehensive Manpower Plan shall provide a description of each service including evidence that due consideration has been given to existing facilities which are available from Federal, State, and local agencies, including community-based organizations. The discussion shall provide documentations on the costs, responsiveness, adequacy, and effectiveness of each agencies' services to assure that unnecessary duplication has been avoided.

(c) A prime sponsor shall develop special program provisions for persons of limited English-speaking ability when such persons constitute a significant portion of a prime sponsor's program. The prime sponsor shall establish operating procedures for (sec. 301(b)).

(1) Teaching occupational skills in the primary language of such persons for occupations which do not require a high proficiency in English;

(2) Developing new employment opportunities for persons limited in English-speaking ability;

(3) Developing opportunities for promotion within existing employment situations for such persons;

(4) Disseminating appropriate information and providing job placement and counseling assistance in the primary language of such persons;

(5) Conducting training and employment programs in the primary language of such persons; and

(6) Conducting programs designed to increase the English-speaking ability of such persons.

(d) The basic types of manpower activities available to a prime sponsor include, but are not limited to the following:

(1) *Classroom training.* (i) This program activity is any training conducted in an institutional setting designed to provide individuals with the technical skills and information required to perform a specific job or group of jobs. It may also include training designed to enhance the employability of individuals by upgrading basic skills, through the provision of course in, for instance, remedial education, training in the primary language of persons of limited English-speaking ability, or English-as-a-second-language training.

(ii) Occupational training shall be designed for occupations in which skills shortages exist (sec. 105(a) (6)) and for which there is reasonable expectation of employment (sec. 703(10)). In making these determinations, a prime sponsor shall utilize available community resources such as the local SESO office, the National Alliance of Businessmen, etc.

(iii) Participants' benefits. Allowances and other benefits as provided in § 95.34 may be paid to participants receiving training or education, provided that such allowances are not paid for any course

having a duration in excess of 104 weeks (sec. 111(a)).

(iv) Vocational education services may be supported with funds provided through (A) the prime sponsor's Title I grant or (B) special grants to Governors for vocational education and services in prime sponsor areas. In order to obtain services under (B) of this paragraph the prime sponsor will negotiate nonfinancial agreements with State Vocational Education Boards utilizing the procedures described in Subpart D of this Part 95.

(2) *On-the-job training.* (i) On-the-job training (OJT) is training conducted in a work environment designed to enable individuals to learn a bona fide skill and/or qualify for a particular occupation through demonstration and practice. Such training may be conducted on a "hire first, train later" basis, or with ultimate placement with the training organization or an employer other than the training organization. OJT may involve individuals at the entry level of employment or be used to upgrade present employees into occupations requiring higher skills. Training shall be designed to lead to the maximum development of participants' potentials and to their economic self-sufficiency.

(ii) Inducements to employers. Prime sponsors may provide payments or other inducements to public or private employers for the bona fide training and related costs of enrolling individuals in the program; provided that payments to employers organized for profit are only made for the costs of recruiting, training and supportive services which are over and above those normally provided by the employer. Direct subsidization of wages for participants employed by private employers organized for profit is not an allowable expenditure (sec. 101(5)).

(iii) Labor organization consultation. Appropriate labor organizations should be consulted in the design and conduct of on-the-job training programs where collective bargaining agreements exist with the employer.

(iv) Participants' benefits. Wages and other benefits provided to OJT participants shall be in accordance with conditions specified in § 95.35 of this Subpart and § 98.24.

(3) *Public Service Employment.* (i) Public service employment is subsidized employment with public employers and private non-profit employers who provide public services as defined in § 94.4. This program activity may also include training, manpower services, and other services incident to such subsidized employment. Conditions for participation in public service employment under Title I are contained in § 95.32(b) of this Part 95. Operating conditions and allowable expenditures applicable when Title I funds are used for this activity are the same as those used for this activity when Title II funds are used, as enumerated in Subpart C of Part 96 with the following exceptions: §§ 96.20, 96.22, 96.23(b) (13), 96.26(a) (1), (b), and (c), 96.27, 96.35(a), 96.36(c), and 96.37 (sec. 105(a) (5)).

(ii) Participants' benefits. Wages and benefits for persons in a public service

employment program shall be as provided in Part 96.

(4) *Work experience.* (i) Work experience is a short-term work assignment with a public employer or private non-profit employing agency. It shall be designed to enhance the future employability of youth or to increase the potential of adults in attaining a planned occupational goal. Prime sponsors shall describe in the approved comprehensive employment plan the basic design of their work experience program, including the characteristics of participants who will participate in work experience activity, the objectives of the activity, the duration and expected outcomes of work experience.

(ii) Work experience activities for youth include part-time employment for students attending school, short-term employment for students during summer, short-term employment for out-of-school youth adjusting to a work setting and in transition from school to a job setting; short-term employment for recent graduates; and short-term or part-time employment for those youth who have no definite occupational goal and for whom no training or job opportunity immediately exists.

(iii) Work experience activities for adults include part-time or short-term employment for the chronically unemployed, retired persons, recently discharged military individuals, handicapped individuals, institutional residents and inmates, and others who have not been working in the competitive labor population for extended periods of time. In addition, it may include short-term employment while a definite occupational goal and a training or job opportunity are being developed.

(iv) Program outcomes for work experience participants include (A) return to school; (B) enrollment in post secondary education; (C) enlistment in the military services; (D) enrollment in manpower training and (E) placement in subsidized or unsubsidized employment.

(v) Work experience in the private for profit sector is prohibited.

(vi) Participant benefits. Each participant in a work experience activity shall receive wages. Wages shall be commensurate with such factors as the type of work performed, the geographical region of the program, and the skill proficiency of the participant, provided that a participant's hourly rate of pay shall be at least the highest of (A) the minimum wage prescribed by State or local law for similar employment or (B) the minimum hourly wage set out in sec. 6 (a) (1) of the Fair Labor Standards Act of 1938, as amended, Wages in the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be consistent with the Federal, State, or local law otherwise applicable. Participants in work experience activities shall be provided workmen's compensation and other fringe benefits as specified in § 98.24.

(5) *Services to participants.* This program activity is designed to provide

supportive and manpower services which are needed to enable individuals to obtain employment or retain employment through the post-placement services described in paragraph (iii) of this paragraph (d) (5) or to participate in other manpower program activities funded under this Act or any other Act, leading to their eventual placement in unsubsidized employment. Such services include, but are not limited to the following:

(i) *Manpower Services:* (A) Outreach; (B) Intake and assessment; (C) Orientation; (D) Counseling; (E) Job development; (F) Job placement; and (G) Transportation.

(ii) *Supportive Services:* (A) Health care and medical services; (B) Child care; (C) Residential support; (D) Assistance in securing bonds; (E) Family planning services, provided that such services are made available to a participant only on a voluntary basis, and are not to be a prerequisite for participation in, or receipt of, any services or benefit from the program; and (F) Legal services.

(iii) *Post-placement services.* Manpower and supportive services, as described in paragraphs (i) and (ii) of paragraph (d) (5), may be provided as appropriate to terminated participants who have been placed in unsubsidized employment. These services shall be provided at the discretion of the prime sponsor and shall enable the terminated participant to retain employment. Such services may be provided during the 30 day period following a participant's termination from the program.

(iv) *Participant benefits.* Allowances as described in § 95.34 may be paid to a participant enrolled in services to participants as described in this paragraph (5) when such services are a component of another activity as described in § 95.33 (d) or when such services are regularly scheduled as the only activity in which the participant is enrolled.

(6) *Other manpower activities.* (i) These activities are manpower activities not described in the categories above, or manpower related activities designed to expand job opportunities and enhance the participation of individuals who are eligible to participate in programs funded under the Act. The approved Comprehensive Manpower Plan must describe the basic design of activities undertaken as "other manpower program activities," and the manpower objectives to be accomplished through these activities. These program activities do not fit into any of the above categories, and include, but are not limited to, the following:

(A) Removal of artificial barriers to employment; (B) Job restructuring; (C) Revision or establishment of merit systems; and (D) Development and implementation of affirmative action plans.

(ii) *Participant benefits.* Allowances as described in § 95.34 may be paid to a participant enrolled in other manpower activities as described in this paragraph (6) when such activities are a component of another activity described in § 95.33(d) or when such activities are regularly scheduled as the only activities in which the participant is enrolled and are described in the approved Comprehensive Manpower Plan.

(7) *Combined activities.* (i) A participant enrolled in any activity funded under the Act may be enrolled simultaneously in any other activity as a component of the participant's primary activity. The primary activity constitutes any activity in which the participant is enrolled for more than 50 percent of the scheduled time.

(ii) *Participant benefits.* A participant enrolled in a primary activity for which wages are paid and simultaneously in an activity for which allowances are payable may, at the prime sponsor's option, be paid wages for all hours of participation. A participant enrolled in a primary activity for which allowances are payable may, at the prime sponsor's option, be paid allowances for all hours of participation. However, in this latter case, before placing any individual in such an activity, the prime sponsor shall request a determination from the Internal Revenue Service as to whether income from the non-primary component is taxable.

#### § 95.34 Training allowances.

(a) *The payment system.* To assure accountability and uniformity, and to facilitate the necessary coordination with other programs, the system for payment of allowances under the Act shall be maintained as a standard payment system which will insure prompt and efficient payment to all participants (sec. 111(a)). In addition, the delivery system selected by the prime sponsor shall incorporate a procedure to obtain information concerning receipt of unemployment compensation by participants. The prime sponsor in selecting the delivery system for the payment of participant allowances should give consideration to the use of existing agencies which have experience in operating an allowance payment system. The payment system shall include the following elements:

(1) Determination of entitlement and computation of amount to be paid;

(2) Issuance and distribution of payments;

(3) Maintenance of payment records and preparation of required reports;

(4) Maintenance of a system to detect and collect overpayments; and

(5) Arrangements with other agencies to obtain necessary information to minimize unauthorized allowable payments under this section. This shall include arrangements with:

(i) The State employment security agency for verification of unemployment compensation benefits;

(ii) Local welfare agencies for verification of public assistance payments; and

(iii) Training facilities for submittal of payment requests and certification of attendance.

(b) *Selection of delivery agent.* The prime sponsor is required to provide a standard allowance payment system either directly or through contract with an organization it considers appropriate for its particular circumstances. The prime sponsor may want to give consideration to the Unemployment Insurance Service when selecting the delivery agent for allowance payments.

(c) *Eligibility for allowances.* Subject to paragraphs (j) and § 95.33(d)(7)(ii) allowances shall be paid. Allowances may be paid to participants for time spent in classroom training, other activities as specified in § 95.33(d)(6), or manpower services such as: assessment, orientation, counseling, and transportation. However, allowances for participation in manpower services or other activities may be provided only if such activities are a component of another program activity described in § 95.33(d) or participation is on a regularly scheduled basis as described in the approved Comprehensive Manpower Plan. Furthermore, no allowances will be paid for any course having a duration in excess of 104 weeks (sec. 111a).

(d) *Application for unemployment compensation.* Participants should be encouraged to apply for unemployment compensation benefits, as defined in § 94.4, if they are not already receiving such benefits.

(e) *Basic allowances.* A basic allowance for one week shall, except under the provisions of paragraphs (i) and (j) of this section, equal the highest of:

(1) The minimum hourly wage prescribed by State or local law for employment in the prime sponsor's area, multiplied by the number of hours of participation in which the trainee attends as required, or is absent for good cause; or

(2) The minimum hourly wage set out under Section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended, multiplied by the number of hours of participation, which the trainee attends as required, or is absent from for good cause; provided that for the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands the rate provided by the Federal, State, or local law applicable to those areas shall pertain. To compute the number of hours of participation, the prime sponsor may count time spent in classroom training, services to participants, or other activities as specified in § 95.33(d).

(3) *Dependents allowances, incentive allowances, and additional allowances* as described in § 95.34 (f), (g) and (h) are not to be included as a part of the basic allowances.

(f) *Dependents allowances.* Dependents allowances of \$5 per week for each dependent over two, up to a maximum of four additional dependents, for a total maximum of \$20 for six or more dependents shall be provided to participants in activities for which basic allowances are paid. Participants eligible for dependents allowances who also receive dependents allowances from other

sources shall not be precluded from receiving dependents allowances funded under the Act.

(g) *Incentive allowances for persons receiving public assistance or who are in institutions.* (1) Incentive allowances, at the rate of \$30 per week, are in lieu of basic allowances and shall be paid to participants receiving public assistance, as defined in § 94.4, or whose needs or income are taken into account in determining such public assistance payments to others.

(i) Incentive allowances may be reduced pro rata only for absences without good cause.

(ii) Incentive allowances shall be disregarded in determining the amount of public assistance payments individuals are entitled to receive under Federal or federally assisted public assistance programs (sec. 111a).

(2) Incentive allowances, in lieu of basic allowances, but not in excess of such allowances, may be paid institutionalized persons, including prison inmates participating in program activities. The determination as to whether such allowances will be paid, and the amounts thereof, shall be made by the prime sponsor in consultation with officials of the institutions. In the case of prison inmates, all or part of such payments, as determined by the prime sponsor and the head of the institution, may be held in reserve and delivered upon the participants' release from the institution.

(h) *Additional allowances.* Additional reasonable allowances may be paid to participants to cover extraordinary costs associated with participation in an activity. The circumstances in which additional allowances will be paid shall be described in the approved Comprehensive Manpower Plan.

(i) *Adjustments in allowances.* (1) The basic allowance shall be reduced, on a weekly basis, by the amount of unemployment compensation payments, if any, received by participants.

(2) No basic allowance to which an individual may otherwise be entitled shall be diminished in any respect because of receipt of a separation payment provided under any collective bargaining agreement.

(3) The basic allowance may be adjusted upward to the degree that the local cost of living exceeds the national norm, if conditions for such increases are described in the approved plan.

(4) Periodic increases to the basic allowance may be provided as an incentive to participation when such increases are described in the approved plan.

(j) *Waivers of allowance payments.* (1) The payment of all or part of the basic allowance, described in paragraph (e) of this section, may be waived only in accordance with paragraphs (j) (2) or (3) under the conditions described in the approved Comprehensive Manpower Plan or approved modifications to the plan.

(2) Waivers of basic allowance payments, as provided in paragraph (j) (1), shall be allowable only under the following conditions:

(i) That the waiver will be applied to the total enrollment in a course or project and will not be imposed on an individual basis, except as provided in paragraph (j) (3) of this section;

(ii) That the waiver will not have the effect of denying participation to individuals who could not participate without receipt of the allowances;

(iii) That the waiver will increase the number of individuals served;

(iv) That the waiver will otherwise promote the purposes of the Act; and

(v) That all participants for whom allowances are waived will be so notified in writing.

(3) In exceptional circumstances, individual waivers when described in the approved plan or approved modifications to the plan, may be granted under the following conditions:

(i) The waiver is at the written agreement of the participant; and

(ii) Individual waivers may only be granted when all of the funds allocated in the Budget Information Summary for allowances have been obligated and training opportunities are still available and are unfilled.

(4) The dependents allowances described in paragraph (f) of this section may not be waived, except in cases where the entire basic allowance is waived.

(5) Allowance payments may not be waived solely because a participant is a veteran and receives benefits through the Vietnam Era Veteran's Readjustment Assistance Act, as amended.

(k) *Repayments.* Prime sponsors may require participants to repay the amount of any overpayment of allowances under this part. Any overpayment not repaid may be set off against any future allowance or other benefits under the Act to which the participant may become entitled. Where the overpayment was made in the absence of fault on the part of the participant, repayment shall be waived where such recovery would be against equity and good conscience or would otherwise defeat the purposes of the program.

§ 95.35 *Wages; minimum duration of training and reasonable expectation of employment.*

(a) *Wages.* (1) Participants in public service employment programs shall be paid wages as required by Part 96 of these regulations.

(2) Participants in work experience shall be paid wages as required by § 95.33 (d) (4) (vi).

(3) Participants in on-the-job training shall be compensated by the employer at such rates, including periodic increases, as are reasonable considering such factors as industry, geographical region, and trainee proficiency (sec. 111 (b)). In no event shall the rate be less than the highest of the following:

(i) The minimum wage rate specified in Section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended;

(ii) The State or local minimum wage for the most nearly comparable covered employment;

(iii) The prevailing rates of pay for persons employed in similar occupations by the same employer; or

(iv) The minimum entrance rate for inexperienced workers in the same occupation in the establishment or, if the occupation is new to the establishment, the prevailing entrance rate for the occupation among other establishments in the community or area or, any minimum rate required by an applicable collective bargaining agreement.

(4) For hours spent in the production of goods or services, the rate of compensation to be paid to trainees by employers, public or private, shall be specified in a written agreement entered into by the training or employing facility and the prime sponsor.

(5) Wages in the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be consistent with provisions of the Federal, State or local law, otherwise applicable.

(b) *Duration of training.* An individual shall not be referred for training in an occupation which requires less than two weeks of preemployment training unless there are immediate employment opportunities available in that occupation (sec. 703(8)).

(c) *Reasonable expectation of employment.* An individual shall not be referred to training unless the prime sponsor determines, after utilizing available and appropriate community resources, that there is a reasonable expectation of employment for such an individual in the occupation for which the person is being trained (sec. 703(10)).

§ 95.36 *Training for lower wage industries; relocation of industries.*

No participant may be enrolled in any activity or service under this Act in any lower wage industry in jobs where prior skill or training is typically not a prerequisite to hiring and where labor turnover is high, nor may any authority conferred by this Act be used to assist in any relocation of an establishment from one area to another unless the Secretary determines that such relocation will not result in an increase in unemployment in the area of original location or any other area where it conducts business operations (sec. 704(a)).

§ 95.37 *Cooperative relationships between prime sponsor and other manpower agencies.*

(a) Each prime sponsor shall, to the extent feasible, establish cooperative relationships or linkages with other manpower and manpower related agencies in the area within its jurisdiction, in particular, with agencies operating programs funded through the Department (sec. 105(a)(3)(D)).

(b) Prime sponsors shall, to the extent feasible, notify the appropriate apprenticeship agency of training activities in apprenticeship occupations (sec. 105(a)(3)(D)).

(c) Any prime sponsor which intends to provide services under the Act to recipients of Aid to Families with Dependent Children (AFDC) should coordinate

such services with the local sponsor of the Work Incentive Program, if any, to assure that the delivery of services under this Act is consistent with the WIN requirements. The provision of comprehensive manpower services to recipients of AFDC who are required to register for the WIN program may be affected by provisions of Title IV of the Social Security Act. Limitations on length of training, requirements to accept work in lieu of training, and other regulatory requirements may affect the AFDC recipient's participation in programs under the Act.

Subpart D—Special Grants to Governors  
§ 95.50 *General.*

(a) Funds shall be allocated to each State through a special grant for the support of:

(1) Vocational education services for prime sponsors;

(2) The State Manpower Services Council; and

(3) State manpower services.

(b) Funds available under paragraph (a) shall be granted to each Governor in accordance with the formula allocation set out in § 95.2 of these regulations. Each Governor shall distribute these funds as provided in § 95.55. (secs. 103, 106, 107, and 112)

(c) Provisions generally applicable in Parts 94 through 99 of these regulations shall apply to special grants under this subpart unless otherwise provided.

§ 95.51 *Distribution of funds.*

(a) Five percent of the funds available under Title I of the Act shall be allocated to the Governors of the States to provide needed vocational education and services for prime sponsors through State Vocational Education Boards as set out in § 95.2. These services are to be provided to participants under Title I of the Act.

(b) State Manpower Services Councils shall be supported with funds as set forth in § 95.2(b)(2).

(c) State manpower services provided under Section 106 of the Act shall be funded as set forth in § 95.2(c)(2).

§ 95.52 *Grant application.*

(a) Upon notification by the Secretary of the amount of funds available for a special grant to the State, the Governor shall submit a Special Grant Application to the ARDM on a date set by the Secretary. The ARDM shall determine whether the application shall be approved and shall notify the Governor of his determination. A copy of all forms and instructions for the application for Special Grants are contained in the *Forms Preparation Handbook*.

(b) The Special Grant Application shall contain the following:

(1) *Application for Federal Assistance.* The form provided in FMC 74-7 for Part I of a grant application for non-construction projects is being used for the application for the special grant.

(2) *Special Grant Plan.* This plan consists of:

(i) *Special Grant-Program Planning Summary.* The Special Grant-Program

Planning Summary is a multiprogram form providing for statistical entries on numbers of participants served by vocational education projects and State Manpower Services.

(ii) *Special Grant-Budget Information Summary.* The Special Grant-Budget Information Summary is a multiprogram form providing for entries on funds planned to be obligated and expended in vocational education projects, State Manpower Services Council, and State manpower services.

(iii) *Special Grant Program Narrative.* The narrative for the special grant will be composed of three separate sections. The Program Narrative form contained in the *Forms Preparation Handbook* requires a detailed statement on the program including the following items:

(A) *Vocational Education Services Program Narrative.*

(1) an explanation of the method used to allocate funds to prime sponsor areas and the rationale for the method used;

(2) a summary of all agreements required in § 95.56 between individual prime sponsors and the State Vocational Education Board;

(3) a copy of each such agreement. The summary should follow the procedures established for the development of individual program narratives supporting each nonfinancial agreement. If all of the nonfinancial agreements are not available when the application is submitted, the Governor shall describe the training and services which he expects to be supplied by the State Vocational Education Board to each prime sponsor. Nonfinancial agreements received after the grant is made will be forwarded to the ARDM; and

(4) an explanation of administrative costs which exceed 20 percent.

(B) *State Manpower Services Council Program Narrative.* (1) A listing of members of the Council, identifying the group each member represents;

(2) Identification of the chairman;

(3) A statement of the procedures which will be followed in reviewing prime sponsor plans and making recommendations which will provide more effective overall coordination of manpower services in the State;

(4) A description of the system to be used in monitoring other prime sponsors and State manpower services;

(5) A description of the types of data, materials, and information which will be included in the annual report to the Governor;

(6) If the Governor plans to use part of the funds authorized for the Council under section 103(d) of the Act (one percent of the allocation) for Section 106 (State services), the specific use of the funds shall also be described, including the amount of funds and objectives to be accomplished.

(7) A breakdown of staff and other council costs. This breakdown should include administration, wages, and fringe benefits.

(C) *State Manpower Services Program Narrative.*

(1) Explanation of steps taken to assure cooperation of State agencies with prime sponsors in implementing the program;

(2) Description of State plan for sharing of manpower resources and facilities for most efficient and economical operation;

(3) Coordination of programs financed under Wagner-Peyser Act to provide assistance to individuals in accordance with policies of this Act;

(4) An explanation of the arrangements made by the State to assist the Secretary in carrying out the Secretary's mandatory listing responsibilities under section 2012(a) of title 38 U.S. Code. Such arrangements shall be explained in the State Comprehensive Manpower Plan and shall relate only to Federal contractors and subcontractors and should not be interpreted to include the grantee, subgrantees, or contractors under the Act;

(5) Description of any arrangements for planning areas to serve geographical regions within the State;

(6) Description of provisions for coordination of the manpower and related services to be provided by the State in areas to be served by prime sponsors other than the State, including the exchange of information and coordination of manpower plans;

(7) A description of any of the activities allowable under section 106(c) of the Act, that the State chooses to provide, detailing those activities to be undertaken and the costs and goals of such activities, including:

(i) A description of allowable services being delivered under the Act throughout the State, by State agencies responsible for employment, training, and related services (sec. 106(c)(1));

(ii) A description of special programs and services for rural areas outside major labor market areas; (sec. 106(c)(2));

(iii) A description of the extent to which information will be developed and published regarding economic, industrial, and labor market conditions;

(iv) A description of information and technical assistance to be provided to prime sponsors in the State; and

(v) A description of any model training and employment programs.

(iii) *Assurances and certifications.* The assurances and certifications form applicable to Title I and Title II grants will be included in the special grant application and agreement.

(iv) *Special Grant to Governors Signature Sheet.* The Special Grants to Governors Signature Sheet records the acceptance by the grantee and grantor of the terms and conditions of the grant and any changes to the grant. It records the time period for which the grant is effective, the grant allotment, and amount of funds obligated by the ARDM to the grantee, the section of the Act (i.e., 103(c), 103(d), 103(e)) under which the funding is authorized and the name, title, and signature of the approving official on both sides.

§ 95.53 Application approval and disapproval; grant agreement.

(a) The ARDM shall approve any grant application which meets the following standards and requirements:

(1) It contains all the required forms, information, and certifications required by the regulations; and

(2) It meets the conditions for approval of grant applications under Subpart B of this Part 95.

(b) A special grant agreement shall be signed when the grant application is approved by the ARDM. This agreement is composed of a Special Grant to Governors Signature Sheet and an Assurances and Certifications Form and the Special Grant Plan which is included by reference. The Special Grant Plan shall be attached to the grant agreement.

(c) An application for a special grant shall be disapproved if it fails to meet any requirement of the Act, the regulations promulgated under the Act, or any other applicable law. All other conditions set forth in § 95.19 shall apply to the disapproval of special grants.

(d) Upon approval, the Governor shall provide a summary of the Special Grant to each prime sponsor in the State.

§ 95.54 Modifications; limitations on use of funds.

A modification to a Governor's special grant may be accomplished in three different ways depending upon the magnitude of the modification:

(a) *Modification of grant agreement.*

(1) A modification to the grant agreement is required when the ARDM requires a change in (i) the term of the grant, (ii) the grant allotment, or (iii) the assurances and certifications included in the grant agreement (sections 105 and 108).

(2) When the change in term or grant allotment necessitates substantial change in program design, the prime sponsor shall also submit revised portions of its Special Grant Plan to specifically identify the changes.

(3) When the term or grant allotment is changed, the Governor shall provide a summary of the change to each prime sponsor in the State.

(4) The request for modification will consist of the following: a grant signature sheet; a Special Grant Program Planning Summary and Special Grant Budget Information Summary (one each for the total project and one each for each prime sponsor whose vocational education plan is changed); and a program narrative explaining the proposed modification.

(5) A denial of a Governor's request for a grant modification shall be subject to the appeal procedures set out in Part 98.

(b) *Major plan modification.* (1) When a plan modification falls into one of the following categories, it will be considered to be major plan modification:

(i) When the cumulative amount of transfers among cost categories exceeds

\$10,000 or 5 percent of the grant, whichever is greater; or

(ii) When there is a 15 percent cumulative change in the number of program participants.

(iii) A Governor desiring a major modification shall submit a revised Special Grant-Program Planning Summary and a Special Grant Budget Information Summary and a narrative explanation of the proposed changes to the ARDM. When the quantitative changes necessitate a substantial change in program design, revised portions of the special grant narrative shall also be submitted. The ARDM shall notify the prime sponsor of tentative approval or of tentative disapproval within 10 days of receipt of the proposed modification. Final ARDM action on approval or disapproval shall be taken within 30 days of the receipt of the proposed modification. Appeal of any such determination may be obtained through the procedures set out in Part 98 of the regulations.

(c) *Minor Modifications.* Any other modification shall be considered a minor modification and as such can be made without the prior notification and approval of the ARDM. Such a modification shall be included in the Special Grant-Program Status Summary and Special Grant-Financial Status Report and revised Special Grant-Program Planning Summary and Special Grant-Budget Information Summary reflecting only the items to be modified shall be submitted to the ARDM along with the quarterly report.

(d) *Limitation on use of funds.*

(1) Funds for vocational education services may not be used for any other activities included in this special grant.

(2) Funds for State Manpower Services Councils may be used for State manpower services to the extent such funds are not needed for this council.

§ 95.55 Governor's distribution of vocational education funds.

(a) Upon notification of the funds available to his State for vocational education, the Governor shall inform in writing the State Vocational Education Board and each prime sponsor of the amount of funds available to be spent in each prime sponsor's area and the methodology used to determine that amount. If a prime sponsor elects not to use all or part of the funds provided for its area, it shall notify the Governor who will redistribute the funds among other eligible prime sponsors.

(b) The Governor shall determine the amount of funds to be made available in each prime sponsor's area assuring that such funds do not increase by more than 20 percent the amount of funds available to that prime sponsor's area under the basic allocation formula set out in § 95.2(b).

§ 95.56 Program operations.

(a) *Vocational education services and activities.* (1) The Governor shall provide vocational education funds he receives by special grant to the State Vocational

Education Board as described in § 95.55 of this Subpart D. The State Vocational Education Board will then provide the training and services detailed in a non-financial agreement with the prime sponsor as described in § 95.58 of this Subpart D. This agreement will be developed at the local level between prime sponsors and the State Vocational Education Board to provide vocational education and services to prime sponsor participants eligible under this Part 95 which are consistent with provisions of the prime sponsors' comprehensive plan.

The agreement will then be forwarded to the Governor, to become part of his special grant application which shall be submitted to the ARDM.

(2) Vocational education services which may be provided by a State Vocational Education Board include, but are not limited to, basic or general education, educational programs conducted for offenders, institutional training, and supportive services as defined in § 95.33 (d)(5) or as authorized as supportive services in vocational education programs administered by a State Vocational Education Board. The services provided must be consistent with the provisions of the Act and regulations. Vocational education funds allocated under this Subpart D may also be utilized, as appropriate, for the payment of allowances to participants in vocational education training and for administrative costs incurred for the vocational education programs funded under the Act.

(3) If no Vocational Education Board exists within a State, the Governor may provide financial assistance to an alternate agency which serves the same purpose as a State Vocational Education Board.

(b) *State Manpower Services Council.* The Governor shall, from funds available under § 95.2(b)(2), provide staff and other necessary services in support of the Manpower Services Council in performing its functions under § 95.13(d).

(c) *State manpower services.* Funds provided under § 95.2(c)(2) of these regulations are to be used for the following:

(1) Activities required to be performed by State prime sponsors:

(i) Assurance that the State agencies providing manpower and manpower-related services either independently or as subgrantees or contractors will cooperate with prime sponsors and eligible applicants in implementation of the program.

(ii) Development of methods for the sharing of resources and facilities in order to carry out manpower programs throughout the State. The administration of such programs will be designed to meet the needs of the area with minimum duplication and in the most efficient and economical manner.

(iii) Coordination of programs financed under the Wagner-Peyser Act in accordance with such rules, regulations, and guidelines as the Secretary determines necessary for the purpose of providing coordinate and comprehensive assistance to those individuals requiring manpower and manpower-related serv-

ices to achieve their full occupational potential in accordance with the policies of the Act;

(iv) Arrangements made by the State to assist the Secretary in carrying out the Secretary's mandatory listing responsibilities under section 2012(a) of title 38 U.S. Code. Such arrangements shall be explained in the State Comprehensive Manpower Plan and shall relate only to Federal contractors and subcontractors and should not be interpreted to include grantees, subgrantees or contractors under the Act (sec. 106(b)(5)).

(v) Arrangements for any planning areas to service geographical regions within the State, including a description of the roles and responsibilities of the planning area with particular emphasis on the steps taken to assure that plans of all State agencies for delivery of services have been effectively coordinated.

(vi) Coordination of the manpower related services to be provided by the State in areas to be serviced by prime sponsors other than the State, and that provision has been made for the establishment of mechanisms to (A) provide for the exchange of information between States and local governments on State, intrastate, and regional planning in areas such as economic development, human resource development, education, and such other areas that may be relevant to manpower planning; and (B) promote the coordination of all manpower plans in a State so as to eliminate conflict, duplication, and overlapping between manpower services under the Act and manpower services provided under other statutory authority.

(2) Activities which may be provided at the option of the State (sec. 106(c)) are as follows:

(i) Provision of allowable services under the Act which are being delivered throughout the State by State agencies responsible for employment and training and related services;

(ii) The provision of financial assistance for special programs and services designed to meet the needs of rural areas outside major labor market areas;

(iii) Development and publication of information regarding economic, industrial, and labor market conditions, including but not limited to job opportunities and skill requirements, labor supply in various skills, occupations, and economic and business development and location trends;

(iv) Provision of services without reimbursement and upon request to any prime sponsor serving an area within the State, such information and technical assistance to assist any such prime sponsor in developing and implementing its programs under the Act; and

(v) Development of special model training and employment programs and related services, including programs for offenders similar to programs described in Section 301(c) of this Act.

§ 95.57 Funding; grant administration.

(a) *Funding.* Special grants will be funded in the same way as basic grants under this Part 95.

(b) *Grant administration.* The requirements relating to grant administration contained in Part 98 are applicable to special grants to Governors, except as provided in Subpart D of Part 95.

(1) The overall 20 percent limitation on funds used for administration as set out in § 98.12(f)(6) shall not apply to the special grant.

(i) Funds provided for vocational education services through the special grant are subject to the provisions of the 20 percent limitation on use of funds § 98.12(f)(6). Fifty percent (50%) of the vocational education funds allocated to administration shall be made available to local prime sponsors through the non-financial agreement unless adequate justification for not doing so is provided to the ARDM by the Governor.

(ii) There is no administrative cost limitation on funds for State Manpower Services Councils on State manpower services.

(2) When funds for vocational education services are used for the payment of allowances to participants, the method of payment utilized must be that of the prime sponsor whose participants are receiving such allowances.

(i) Where the prime sponsor has an established delivery system for the payment of allowances pursuant to § 95.34, the State Vocational Education Board shall transfer the required funds to the agency administering that system.

(ii) Where the prime sponsor has no allowance payment delivery system, the method of payment shall be developed between the prime sponsor and the State Vocational Education Board, subject to the requirements of § 95.34.

(c) *Reports for special grants.* A Special Grant-Program Status Summary and Special Grant-Financial Status Report containing financial and statistical data is required. The Governor will supply to each prime sponsor to which he is providing services a Special Grant-Program Status Summary and Special Grant-Financial Status Report for funds expended in its area and will submit a summary Special Grant-Program Status Summary and Special Grant-Financial Status Report, with copies of the individual prime sponsor reports attached, to the ARDM. These reports will be submitted for each Federal fiscal year quarter, to be submitted no later than 30 days after the end of the reporting quarter. Instructions for completion of these reports are in the *Forms Preparation Handbook*.

§ 95.58 Nonfinancial agreement between prime sponsor and State Vocational Education Board.

(a) Upon notification of the funds available for its area, the prime sponsor shall develop a financial, statistical, and narrative plan for the expenditure of such funds by the Vocational Education Board in the prime sponsor's area. This plan shall be developed consistent with the prime sponsor's Comprehensive Manpower Plan and shall be submitted to the Vocational Education Board for its approval. When approved, the plan will be signed by both the prime sponsor

and the Board and will constitute a non-financial agreement.

(b) The Vocational Education Board shall provide services to the prime sponsor upon receipt of the necessary funds from the Governor. The non-financial agreement will consist of the following four sections:

(1) Prime sponsor vocational education nonfinancial agreement signature sheet;

(2) Part I of the Special Grant-Program Planning Summary;

(3) Appropriate columns of the Special Grant-Budget Information Summary;

(4) Vocational education program narrative.

(c) After the agreement is signed, a copy will be sent to the Governor for his review and approval.

(d) The Governor shall develop procedures for the prime sponsors and the Vocational Education Board to follow when they desire to modify the nonfinancial agreement.

(e) The Governor shall develop procedures to assure that the Vocational Education Board provides services consistent with the Governor's vocational education plan and the nonfinancial agreements between the Board and the prime sponsors.

#### § 95.59 Coordination with prime sponsor.

(a) The financial and statistical information from the approved Nonfinancial Agreement Program Planning Summary and Budget Information Summary will be entered into the relevant columns of the prime sponsor's basic grant Program Planning Summary and Budget Information Summary as provided in the *Forms Preparation Handbook*. If the Comprehensive Manpower grant has been signed prior to final approval of the Vocational Education Agreement, a modified prime sponsor's grant Program Planning Summary and Budget Information Summary will be submitted when the vocational education information is available.

(b) Information provided by the Vocational Education Program Status Report and Financial Status Report, supplied to the prime sponsor from the Governor, will be entered in the prime sponsor's basic grant Program Status Report and Financial Status Report.

#### PART 96—PROGRAMS UNDER TITLE II OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart A—General	
Sec.	
96.1	Scope and purpose.
96.2	Allocation of funds.
96.3	Eligibility for funds.
Subpart B—Grant Application	
96.10	General.
96.11	Preapplication for Federal Assistance; consortium agreements.
96.12	Eligible applicant designation.
96.13	Planning process; advisory councils.
96.14	Content and description of grant application.

Sec.	
96.15	Comment and publication procedures relating to submission of grant application.
96.16	Submission of grant application; standards for reviewing grant application.
96.17	Application approval; application disapproval; grant agreement.
96.18	Use of alternative eligible applicant; services by the Secretary.
96.19	Modification of grant agreement; modification of Comprehensive Title II Plan.

Subpart C—Program Operation	
96.20	General.
96.21	Basic responsibilities of eligible applicants.
96.22	Basic responsibilities of program agents; relationship with eligible applicants.
96.23	Acceptable public employment positions.
96.24	Maintenance of effort.
96.25	Responsibility for selecting participants.
96.26	Place of residence for participants.
96.27	Eligibility for participation in a Title II Program.
96.28	Special consideration for most severely disadvantaged persons.
96.29	Serving significant segments of the population.
96.30	Groups to be provided special consideration.
96.31	Training and supportive services.
96.32	Linkages with other manpower programs.
96.33	Placement goals.
96.34	Compensation for participants.
96.35	Administrative staff.
96.36	Limitation on funds.
96.37	Use of Title II funds for programs under Titles I and III-A.

Subpart D—Special Conditions for Grants to Indian Tribes on Federal and State Reservations	
96.40	General.
96.41	Distribution of funds.
96.42	Eligibility for funds.
96.43	Funding of eligible applicants.
96.44	Planning process; advisory councils.
96.45	Comment and publication procedures relating to submission of Indian grant applications.
96.46	Assistance by the Director, Division of Indian Manpower Programs.
96.47	Participant eligibility.
96.48	Nepotism.
96.49	Nondiscrimination.
96.50	Subgrants.
96.51	Travel requirements.

AUTHORITY: Comprehensive Employment and Training Act of 1973, as amended (Pub. L. 93-203, sec. 702(a), 87 Stat. 839; Pub. L. 93-567, 88 Stat. 184), sec. 702(a), unless otherwise noted.

#### Subpart A—General

##### § 96.1 Scope and purpose.

(a) This part contains the Department of Labor's regulations providing for the establishment and operation of public service employment programs, and other manpower programs, under title II of the Act.

(b) Provisions for Title II programs for Indian tribes on Federal and State reservations are found in Subpart D of this Part 96. The provisions of Subparts A, B, and C apply only to non-Indian eligible applicants except as otherwise noted in Subpart D.

(c) Definitions for every abbreviation and major term may be found in Part 94 of these regulations.

(d) Statutory authority for the regulations contained in this Part 96 may be found in section 702(a) of the Act, as well as in other substantive provisions of the Act. Applicable statutory provisions, other than section 702(a) are noted generally in these regulations.

#### § 96.2 Allocation of funds.

(a) Funds appropriated under Title II of the Act are available only for areas of substantial unemployment and may be allocated by the Secretary only to eligible applicants (secs. 204(a) and 204(c)).

(b) (1) At least 80 percent of the funds available under Title II shall be allocated among eligible applicants in accordance with a ratio comparing the number of unemployed persons residing in areas of substantial unemployment within each eligible applicant's jurisdiction to the number of unemployed persons residing in all areas of substantial unemployment (sec. 202(a)).

(2) Funds not allocated as provided in paragraph (b) (1) of this section, may be distributed by the Secretary at his discretion taking into account the severity of unemployment in such areas and may include additional areas of substantial unemployment designated by the Secretary after the fiscal year allocation of Title II funds (sec. 202(b)).

(c) An eligible applicant shall distribute to a program agent those funds that are allotted to the eligible applicant under the formula specified in paragraph (b) (1) for use within the program agent's jurisdiction, unless the program agent declines to operate a program under Title II of the Act, in which case, the eligible applicant will make other arrangements to serve that jurisdiction (sec. 204(d) (1)).

#### § 96.3 Eligibility for funds.

(a) Funds shall be allocated by the Secretary only to eligible applicants. Eligible applicants are those prime sponsors and Indian tribes on Federal or State reservations, as defined in § 94.4, which include areas of substantial unemployment (sec. 204(a)).

(b) For the purpose of allocating funds, the term "eligible applicant" shall include any entity which is eligible to be a prime sponsor under Title I of the Act and Indian tribes on Federal or State reservations as described in § 96.42 (sec. 204(b)).

(c) A State shall not qualify as an eligible applicant for any geographical area within the jurisdiction of any other eligible applicant within the State unless the non-State eligible applicant has not submitted an approvable application for Title II funds (secs. 204(a) (1) and 102(b) (1)).

(d) A unit of general local government shall not qualify as an eligible applicant with respect to any area within the jurisdiction of another eligible unit of general local government unless such

smaller unit has not submitted an approvable application for such areas (sec. 204(b) and 102(a) (b) (2)).

(e) (1) Eligible applicants shall distribute funds to program agents, as provided in § 96.2(c) of this Part 96 (sec. 204(d) (1)).

(2) (i) No program agent shall receive or continue to receive funds for any area of substantial unemployment within the jurisdiction of another program agent unless the ARDM determines that the smaller program agent has not carried out its administrative responsibility for developing, funding, overseeing, and monitoring programs within its area, consistent with the application for financial assistance developed by the eligible applicant in cooperation with the program agent (secs. 204(d) (3) and 102(b) (2)).

(ii) No eligible applicant may make other arrangements, as specified in § 96.2(d), for serving an area of substantial unemployment being served by a program agent, which the eligible applicant determines is not carrying out its administrative responsibility for developing, funding, overseeing, and monitoring programs within its area, consistent with the application for financial assistance developed by the eligible applicant in cooperation with the program agent, except with the review and the concurrence of the ARDM (sec. 204(d) (2)).

(f) (1) An eligible applicant or program agent, other than a State, whose entire jurisdiction qualifies as an area of substantial unemployment shall, to the extent feasible, allocate funds for identifiable subareas which meet the unemployment rate requirement of areas of substantial unemployment in § 94.4. Such allocation to subareas shall be based on the ratio of the number of unemployed persons residing in each subarea to the total number of unemployed persons within the eligible applicant or program agent's jurisdiction.

(2) Where the eligible applicant is a State that has an unemployment rate for its jurisdiction of at least 6.5 percent, the State shall, to the extent feasible, allocate its funds under Title II to individual areas of substantial unemployment within its jurisdiction. Such allocations shall be based on the ratio of the number of unemployed persons residing in each individual area of substantial unemployment to the sum of unemployed persons residing in all such areas of substantial unemployment within the State's jurisdiction.

(3) An eligible applicant or program agent with an overall unemployment rate of less than 6.5 percent shall allocate its funds only for those areas of substantial unemployment specified by the Secretary (secs. 204 and 202(a)).

(g) If an eligible applicant finds that there is an area of substantial unemployment within its jurisdiction that has not been designated by the Secretary to receive assistance, it may recommend that such area be considered for assistance by the Secretary. In making any such recommendation, the eligible appli-

cant must include a precise geographical definition of the area to be served and its population. Such a recommendation shall be submitted to the ARDM. The Secretary shall, within a reasonable time, make a determination on the recommendation and inform the eligible applicant of the determination and the reasons therefor.

#### Subpart B—Grant Application

##### § 96.10 General.

This Subpart B provides the procedures for obtaining grants to operate programs under Title II of the Act.

##### § 96.11 "Preapplication for Federal Assistance"; Consortium Agreements.

Potentially eligible applicants, including consortia formed under § 95.11 of these regulations, shall be notified of their eligibility to apply for grants under Title II. At that time such applicants shall submit a preapplication following the procedures set forth in § 95.11(a) of these regulations.

##### § 96.12 Eligible applicant designation.

Upon receipt of a completed preapplication the ARDM shall determine whether the applicant is eligible to operate a program under Title II of the Act. The ARDM shall notify the applicant of the determination according to the procedures set forth in § 95.12 of these regulations.

##### § 96.13 Planning process; advisory councils.

To receive financial assistance under Title II of the Act, eligible applicants shall submit an approvable comprehensive Title II plan, as set out in § 96.14 of this Part 96. In developing and modifying such a plan, an eligible applicant shall utilize the planning process and the advisory councils as set out in § 95.13 (b), (c), (d), and (e) of these regulations.

##### § 96.14 Content and description of grant application.

(a) General. (1) This section describes the grant application which the applicant will use to apply for its grant allotment of funds under Title II of the Act. A single grant document may be provided by the ARDM for obtaining funds under Titles I and II. Such a document shall contain all the requirements set out for such grants in these regulations.

(2) A copy of all forms and instructions are contained in the *Forms Preparation Handbook*.

(b) Grant application forms—(1) Application for Federal Assistance. The Application for Federal Assistance identifies the eligible applicant and the amount of funds requested; it provides information concerning the area to be served and the number of people expected to benefit from the program. The form for Part I of the Application for Federal Assistance (Nonconstruction) contained in FMC 74-7 is being used.

(2) The Comprehensive Title II Plan. The Comprehensive Title II Plan is a statement of how the eligible applicant

intends to use Title II funds and to coordinate its activities with other manpower programs and services operating within its jurisdiction. The Comprehensive Title II Plan consists of the Narrative Description of the Title II Program, the Program Planning Summary, the Budget Information Summary, the Monthly Schedule, the Public Service Employment Occupational Summary, and the Program Summary all described below. For consortia, the consortia agreement approved pursuant to § 95.11 (b) will be a part of the plan.

(i) Narrative Description of the Title II Program. The Narrative Description of the Title II program provides for a narrative outline of the proposed program under Title II of the Act. It identifies and explains the manpower programs within the eligible applicant's jurisdiction, describes proposed program activities and delivery systems to deal with those problems, and projects the results which may be expected from the program. The Narrative Description of the Title II program requires a detailed statement on the program, including the following items:

(A) Objectives and needs for assistance. (1) Policy statement on purpose of program;

(2) Description of economic conditions;

(3) Description of labor force characteristics;

(4) Explanation of skill shortage occupations;

(5) Definition of manpower needs;

(6) Statement of groups to be served including consideration given to priority groups and occupations; and

(7) Statement of goals to be accomplished;

(B) Results and benefits expected. (1) Statement relating planned outputs to needs;

(2) Rationale for selection of program activities;

(3) Statement of how the program design will provide participants with economic self-sufficiency; and

(4) Explanation of how the program will enhance career development.

(C) Approach. (1) Public Service Employment Programs. (i) Description of unmet public service needs and priorities;

(ii) Relationship of types of jobs to public service needs described above;

(iii) Justification of funding and job allocation to government agencies and by subarea;

(iv) Description of strategy for serving and matching jobs to special veterans skills;

(v) Description of plan for providing services to significant segments, and disabled, special, and recently discharged veterans, welfare recipients, and former manpower trainees;

(vi) Description of orientation procedures for participants in a public service employment program;

(vii) Description of determination of rates of compensation when they differ from what is normally paid by the employer;

(viii) Description of actions to insure compliance with personnel procedures and collective bargaining agreements for jobs in other than the entry level;

(ix) Plans to improve and expand employment and advancement opportunities of the target population;

(x) Description of supervisory training, education and other services to participants;

(xi) Explanation of linkages with other programs;

(xii) Description of efforts to remove artificial barriers;

(xiii) Maintenance of effort verification;

(xiv) Description of special consideration to veterans; and

(xv) Description of continuity of services to participants when the geographical area of the prime sponsor jurisdiction changes.

(2) Other program activities. (i) Rationale for selection of activities;

(ii) Description of each activity;

(iii) Description of enrollee flow and any relationship among activities;

(iv) Description of methods to be used to recruit, select, and determine eligibility of participants;

(v) Description of how persons of limited English-speaking ability will be served if they represent a significant portion of an eligible applicant's program;

(vi) Explanation of reasons specific delivery agents were selected including reasons existing public delivery agents, such as area skill centers and State employment service offices, were not utilized; and

(vii) Description of coordination with deliverers of manpower services not supported by the Act.

(3) Description of administrative system including accounting for placements and allowance payment system.

(4) Description of the mechanism for assuring equal employment opportunity.

(5) Justification of administrative costs planned.

(6) Description of the geographical locations to be served.

(ii) *Program Planning Summary.* The Program Planning Summary requires a prime sponsor to provide a quantitative statement of planned enrollment levels; the participants to be served by each program activity (classroom training, on-the-job-training, public service employment, work experience, and other activities) and outcomes for program participants. It also requires an identification of the significant segments of the population and the number of individuals to be served in each.

(iii) *Budget Information Summary.* The Budget Information Summary requires a prime sponsor to provide a quantitative statement of planned expenditures and obligations. It requires prime sponsors to indicate yearly planned expenditures by cost category (administration, allowances, wages, fringe benefits, training, and services). The prime sponsor is to reflect planned quarterly obligations and planned expenditures by program activity.

(iv) *Monthly Schedule.* A monthly estimate of total individuals enrolled at the end of the month and total cumulative expenditures shall be provided. Such monthly schedule will reflect the activity for each month during the grant period under Title II.

(v) *Public Service Employment Occupational Summary.* The Occupational Summary requires an eligible applicant operating a public service employment program under Title II of the Act to provide a description of proposed job opportunities, occupations and wages, including a comparison of such wages with wages for similar nonsubsidized jobs in the employing agency.

(vi) *Program Summary.* The Program Summary presents a distribution of jobs, training slots, and funds to be provided to eligible applicants and subgrantees. It designates the areas to be served, the population and employing agencies of each area.

(3) *Assurances and Certifications.* The Assurances and Certifications form is a signature sheet on which the eligible applicant assures and certifies that it will comply with the Act, the regulations of the Department, other applicable laws, and applicable Federal Management Circulars and Office of Management and Budget (OMB) circulars. The Assurances and Certifications form appears in the *Forms Preparation Handbook*. Assurances for Titles I and II are submitted on the same form. The assurances are summarized in § 95.14(b)(3) of these regulations. In addition to these assurances, the assurances, summarized below, are also required for Title II:

(i) Hiring of residents of areas of substantial unemployment for all jobs created under Title II and providing services to benefit residents of such areas.

(ii) Selection of other than necessary technical, supervisory and administrative personnel from the unemployed and underemployed population.

(iii) Special consideration for eligible disabled veterans, special veterans, and veterans who served in the Armed Forces and who received other than a dishonorable discharge within four years before the date of their application.

(4) *Grant Signature Sheet.* The Grant Signature Sheet records the acceptance by the grantee and grantor of the terms and conditions of the grant and any changes thereto. It records the time period for which the grant is effective, the grant allotment, the amount of funds obligated by the ARDM to the grantee, the title of the act under which the funding is authorized, and the name, title and signature of the approving official on both sides.

§ 96.15 *Comment and publication procedures relating to submission of grant application.*

Each eligible applicant shall provide an opportunity for comment on the application as set out in § 95.15 of these regulations.

§ 96.16 *Submission of grant application; standards for reviewing grant applications.*

(a) Each eligible applicant shall submit its grant application to the ARDM on or before a date set by the Secretary.

(b) A grant application shall include all items set out in § 96.14 of this Part 96.

(c) A grant application will be reviewed to determine if it meets the requirements of the Act, the regulations promulgated under the Act, and other applicable law. In reviewing a grant application, the ARDM shall use the standards set forth in § 95.17(b) of these regulations.

§ 96.17 *Application approval; application disapproval; grant agreement.*

The procedures set forth in § 95.18 and § 95.19 shall apply for Title II applications and grant agreements.

§ 96.18 *Use of alternative eligible applicant; services by the secretary.*

The provisions detailed in § 95.20 shall apply to applications and grants made pursuant to Title II of the Act.

§ 96.19 *Modification of grant agreement; modification of comprehensive Title II Plan.*

(a) The procedures set forth in § 95.21 of these regulations concerning the modification of grant agreements shall apply to grant agreements funded under Title II of the Act, with the additional requirement that when the grant allotment is changed a revised Program Summary, reflecting only the changes resulting from the change in grant allotment, will be included as a part of the modification submittal.

(b) The procedures set forth in § 95.22 of these regulations shall apply to the modification of the comprehensive Title II plan.

#### Subpart C—Program Operation

§ 96.20 *General.*

This Subpart C sets out the program operation requirements for eligible applicants and subgrantees. The utilization of funds under Title II of the Act is conditioned upon adherence to the requirements of this subpart, as well as adherence to the Act, other applicable law, and other terms and conditions of the regulations promulgated in this part.

§ 96.21 *Basic responsibilities of eligible applicants.*

An eligible applicant is responsible for:

(a) Requesting, receiving and administering funds within its jurisdiction (secs. 203(a) and 205(c)(1));

(b) Allocating funds and jobs equitably among public agencies within its jurisdiction (sec. 205(c)(23));

(c) Developing a plan to effectively implement a program of transitional public employment and related training and manpower services (sec. 203(a));

(d) Developing, to the greatest extent possible, new careers and opportunities for career advancement for participants (sec. 205(c)(4));

(e) Performing reviews at 6-month intervals on the status of each participant to assure that the participant's job has potential for advancement or suitable continued employment (sec. 207(a));

(f) Administering or supervising all activities under its approved plan including the establishment of hearing procedures, as set out in Part 98 of this title, (sec. 205(c)(1));

(g) Assuring that the program will, to the extent feasible, contribute to the elimination of artificial barriers to employment and occupational advancement within its jurisdiction (sec. 205(c)(18)); and

(h) Assuring that employing agencies provide information regarding their employment opportunities funded under the Act to the local State employment service and that such vacancies are filled, as specified in § 96.30(a).

§ 96.22 *Basic responsibilities of program agents; relationship with eligible applicants.*

(a) A program agent, as defined in § 94.4, shall be delegated by the eligible applicant the administrative responsibility for developing, funding, overseeing and monitoring programs with respect to the funds made available to it under Title II of the Act.

(b) A program agent shall carry out its functions consistent with the grant application developed by the eligible applicant in cooperation with the program agent and shall be responsible to the eligible applicant for carrying out its program in a manner consistent with the application (sec. 204(d)(2)).

(c) Unreconciled differences between an eligible applicant and a program agent shall be submitted to the ARDM.

(d) If a program agent fails to comply with paragraph (b), it is the responsibility of the eligible applicant, consistent with the regulations, to initiate whatever action is necessary to assure program agent compliance. Such action may include the eligible applicant reallocating funds to an alternative program agent to serve the original area or deciding to serve the area itself. However, no such action shall be taken by an eligible applicant except with the review and concurrence of the ARDM.

§ 96.23 *Acceptable public employment positions.*

(a) Funds provided under Title II which are used for public service employment shall only be used to fund public service needs which have not been met and to implement new public services (sec. 201).

(b) In developing job opportunities under this Part 96 the following requirements shall apply:

(1) The jobs provided must meet public service needs as defined in the Act and the regulations promulgated in this Part 96 (sec. 205(a));

(2) Program emphasis shall be on transitional employment; jobs which are likely to lead to regular, unsubsidized employment or opportunities for contin-

ued training (secs. 201, 205(b)(4), (b)(6), (b)(11), and 205(c)(26));

(3) Jobs shall be provided, to the extent feasible, in occupational fields which are most likely to expand within the public or private sector as the unemployment rate recedes (sec. 205(c)(6));

(4) Jobs shall be allocated among State and local public agencies and subdivisions thereof, such as educational agencies, within the applicant's jurisdiction, taking into account the number of unemployed persons within each area, their needs and skill levels, the needs of the agencies and the ratio of jobs in the area at each governmental level. The eligible applicant has the ultimate responsibility for determining the equitable distribution and for selections, job structure, participant benefits, and all other aspects of the jobs funded under this title (sec. 205(c)(23));

(5) To the extent consistent with the maintenance of effort requirements of § 96.24, jobs may also be allocated to private non-profit agencies which provide public service employment, such as educational, social service and health agencies, within an eligible applicant's jurisdiction where jobs in such agencies may best serve the unemployed population based on the considerations stated in § 96.23(b)(4);

(6) Title II participants may be stationed at work-stations hosted by Federal agencies provided the employment is geared to the skills and abilities of the participant and is consistent with these regulations;

(7) Jobs may be located only within the eligible applicant's jurisdiction unless the eligible applicant determines that the effective operation of its program under Title II is possible only by creation of some jobs outside of its jurisdiction. In such cases, the jobs created must employ residents of the eligible applicant's jurisdiction and be within reasonable commuting distance of the residents of the eligible applicant's jurisdiction;

(8) Jobs will not be "deadend," but will contribute to career advancement and the development of the employment potential of participants. Opportunities for continued training are to be provided to support the upward mobility of participants (secs. 205(a), 205(c)(4), and 208(a)(6));

(9) No more than one-third of the participants in any program may be employed in a bona fide professional capacity as defined in 29 CFR 541.3 issued pursuant to section 13(a)(1) of the Fair Labor Standards Act of 1938, as amended. The exception to this limitation is the hiring of classroom teachers. (Generally, according to the F.L.S.A., a professional is an individual (i) with a professional education, usually requiring more education than a Bachelor's degree or whose work is original and creative in an artistic field, (ii) at least 80 percent of whose work requires discretion and judgment and is intellectual in nature, and (iii) who earns at least \$170 a week (\$150 in Puerto Rico, Virgin Islands, or American Samoa). A less stringent test applies to individuals earning \$250 or more a week. Lawyers, doctors and teachers working as such are professional without regard to their earnings (for further explanation see 29 CFR 541.3) (sec. 205(c)(22));

(10) The program excludes employment in building and highway construction work (except that which is normally performed by the prime sponsor or eligible applicant) and other work which inures primarily to the benefit of a private profit-making organization;

(11) Jobs in each job category shall in no way infringe upon the promotional opportunities which would otherwise be available to persons currently employed in public service jobs not subsidized under Title II (sec. 205(c)(24));

(12) No job will be filled in other than an entry level position in each job category until applicable personnel procedures and collective bargaining agreements have been complied with (sec. 205(c)(24)); and

(13) To the extent feasible, the public services provided by the jobs should be designed to serve the residents of the areas of substantial unemployment designated for Title II funds (sec. 205(c)(3)).

§ 96.24 *Maintenance of effort.*

(a) Employment funded under Title II of the Act shall only be in addition to employment which would otherwise be financed by the eligible applicant without assistance under this title (sec. 205(c)(25)).

(b) To assure maintenance of effort, a public service employment program under Title II of the Act:

(1) Shall result in an increase in employment opportunities over those which would otherwise be available;

(2) Shall not result in the displacement of currently employed workers, including partial displacement such as a reduction in hours of non-overtime work, wages, or employment benefits;

(3) Shall not impair existing contracts for service or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed; and

(4) Shall not substitute public service jobs for existing federally assisted jobs (sec. 208(a)(1)).

(c) Eligible applicants, program agents and other subgrantees may not terminate, lay-off or reduce the normal working hours of an employee for the purpose of hiring an individual under a Title II program (secs. 205(c)(8) and 208(a)(1)(B)). However, the hiring of former employees who lost their jobs due to a bona fide lay-off is not prohibited if it does not constitute a violation of the maintenance of effort provisions of the Act and these regulations.

(d) These regulations do not authorize the hiring of any person when any other person is on lay-off from the same or any substantially equivalent job (sec. 205(c)(7)(8)). If lay-offs of regular employees occur during the Title II grant period, Title II participants may not remain working in the same or substantially equivalent job within the employing agency that is affected by the

5

lay-off. Under these circumstances, the Title II participants would either be transferred to positions not affected or be laid off (sec. 205(c)(8)).

(e) Eligible applicants shall, at the direction of the ARDM, submit budgetary expenditure documentation, revenue statements, and other information relevant to determination under this section, in addition to that required with the grant application.

#### § 96.25 Responsibility for selecting participants.

(a) The ultimate responsibility for the selection of participants rests with the eligible applicant. The eligible applicant, subject to its direction, may delegate the administration of this responsibility to program agents, other subgrantees and employing agencies. The selecting agency must provide adequate documentation of each applicant's eligibility and retain in the participant's folder, as provided in § 98.18(b), the information on which this documentation is based. The selecting agency shall also retain, as provided in § 98.18(b), the applications of persons not selected for participation and the reasons for their nonselection (sec. 205(c)(2)(26)).

(b) Adequate documentation shall consist of a signed, and dated, complete application for employment, including the last date of employment, which attests that the information in the application is true, to the best of the applicant's knowledge.

#### § 96.26 Place of residence for participants.

(a) *General.* (1) At the time of both application and selection, program participants shall reside in an area of substantial unemployment within the jurisdiction of the eligible applicant or program agent (sec. 205(c)(3)).

(2) An eligible applicant may receive additional funds as a subgrantee of another eligible applicant to enroll residents of the other eligible applicant's jurisdiction in any public service job or other manpower program under Title II. The eligible applicant receiving funds must offer jobs or programs which are within reasonable commuting distance of residents of the other eligible applicant's jurisdiction.

(b) *Consortia of eligible applicants.* In the case where two or more eligible applicants have formed a consortium to operate programs under Title I and Title II, residents of any designated area of substantial unemployment within the boundaries of the consortium may be employed in public service jobs or enrolled in any other manpower activity either within the geographical boundaries of the consortium or outside such boundaries in which case the provisions of § 96.23(b)(7) shall apply; provided, that the total amount of funds available for residents of each area of substantial unemployment of each participating eligible applicant equals the amount of funds that the area would have received if the consortium had not been formed.

(c) *Consortia of units of general local*

*government formed in order to qualify as program agents; multijurisdictional eligible applicants.* The provisions of paragraphs (a) and (b) shall apply to consortia of units of general local government formed in order to qualify as program agents and shall apply to multijurisdictional eligible applicants.

#### § 96.27 Eligibility for participation in a Title II program.

(a) A person residing, as defined in paragraph (f) of this section in an area of substantial unemployment who has been unemployed for at least 30 days prior to application or is underemployed is eligible to participate in a program under Title II of the Act (sec. 201 and 205(a)). A person who obtains permanent, full-time unsubsidized employment after application shall no longer be considered eligible for Title II, unless, even with his full-time employment, he still qualifies under § 94.4(hhh)(2) or § 94.4(fff) of these regulations.

(b) A veteran who has served on active duty in the U.S. Armed Forces for a period of more than 180 days or who was discharged or released from active duty for a service connected disability, shall be immediately eligible, upon discharge, for participation in a program under Title II of the Act without regard to the 30-day unemployment requirement which would otherwise pertain (sec. 2013, Vietnam Era Veterans' Readjustment Assistance Act of 1972, Pub. L. 92-540).

(c) A person participating in a public employment program under a section 5 or section 6 grant funded by the Emergency Employment Act (EEA) who is currently, or was at the time of his selection for such participation, geographically eligible may be transferred into the Title II grant program covering that geographical area, in order to provide for the orderly phase out of the EEA grant, provided that maximum efforts have been made to place such an individual in unsubsidized employment or training.

(d) (1) Title I, section 302, and section 303 enrollees under the Act may be transferred into a Title II program only if they met the requirements of paragraphs (a) and (f) of this section prior to their entry into the Title I, section 302, or section 303 program, and if maximum efforts have been made to place such individuals in unsubsidized employment or training (sec. 105(a)(2)).

(2) Title VI participants who met the requirements contained in paragraphs (a) and (f) of this section prior to their entry into a Title VI program may be transferred into Title II.

(3) A person participating in a WIN public service employment program under Part C, Title IV of the Social Security Act, who leaves or is removed from the public service employment position, and wishes to enroll in Title II shall be treated in the same manner as any other Title II applicant.

(4) If such an individual is still receiving cash welfare payments, that individ-

ual meets the definition of unemployed for this title, and is immediately eligible for Title II if the individual also meets the requirements of paragraphs (f) and (g) of this section.

(ii) If the individual is no longer receiving welfare payments, that individual must meet the standard eligibility criteria for Title II, including the appropriate period of unemployment.

(e) A participant in a public service employment program under this Part 96 may change jobs within a particular eligible applicant's jurisdiction without an intervening period of unemployment, but may not be employed in a job for any other eligible applicant without an intervening period of unemployment of at least 30 days.

(f) For the purpose of this section, the term residence shall mean an individual's dwelling place or home, both at the time the individual applies and is selected for participation in a program under Title II of the Act. In determining whether a particular place is an individual's dwelling place or home, the intention of the individual is the key element. Maintenance of an "address" is not necessarily the same as the maintenance of a dwelling place or home.

(g) Citizenship will not be used as a criterion to prevent permanent residents, including permanent resident aliens, from participating in a program under Title II to the extent consistent with applicable State law. However, no services shall be provided to illegal aliens (those who do not have a bona fide Alien Registration Receipt form or cannot present other documentation from the Immigration and Naturalization Service which shows they may seek employment). Any question arising under this provision may be referred to the immigration specialist in the appropriate Manpower Administration regional office of the Department of Labor.

(h) While selection of eligible full-time students for participation in programs funded under Title II of the Act is not prohibited, eligible applicants should exercise caution in providing for such participation and should provide for such participation only in accordance with these regulations. In providing for such participation, eligible applicants should give special consideration to those persons most severely disadvantaged in terms of length of time they have been unemployed and their prospects for finding employment without assistance under Title II.

#### § 96.28 Special consideration for most severely disadvantaged persons.

Special consideration in enrolling applicants in public service employment and other manpower activities provided under Title II shall be given to unemployed persons who are the most severely disadvantaged in terms of the length of time they have been unemployed and their prospects for finding employment without assistance under Title II (secs. 205(c)(7) and 210).

#### § 96.29 Serving significant segments of the population.

(a) The significant segments of an eligible applicant's population shall be served on an equitable basis. For example, individuals from each significant segment could be placed in programs under Title II in a manner consistent with their incidence in the unemployed population of the eligible applicant's jurisdiction or other measures of equity could be utilized (secs. 205(c)(2) and 208(b)).

(b) Each eligible applicant shall monitor its program to assure that the significant segments of its population are being served in accordance with the requirements of this section.

#### § 96.30 Groups to be provided special consideration.

(a) *Veterans.* (1) Special consideration shall be given to eligible disabled veterans, special veterans, and veterans who served in the Armed Forces and who received other than a dishonorable discharge within four years before the date of their application. Each eligible applicant in selecting participants for programs funded under Title II of the Act, shall take into consideration the extent that such veterans are available in the area. Specific effort should be made to develop appropriate full or part-time opportunities for such veterans. In order to insure special consideration for veterans, all public service employment vacancies under Title II, except those to which former employees are being recalled, must be listed with the State employment service at least 48 hours (excluding Saturdays, Sundays, and holidays) before such vacancies are filled. During this period, the employment service will refer those veterans specified above. If sufficient numbers of veterans are not available, the employment service, upon request, may also refer members of other significant segments. All other applicants are to be referred after the 48-hour period (sec. 205(c)(5)). The eligible applicant should utilize the assistance of State and local veterans employment representatives in formulating its program objectives.

(2) Each eligible applicant shall, on a continuing and timely basis, provide information on job vacancies and training opportunities funded under Title II of the Act to State and local veterans employment representatives and to other veterans organizations for the purpose of disseminating information to eligible veterans (sec. 104(b) of Emergency Jobs and Unemployment Assistance Act of 1974).

(b) *Welfare recipients.* In designing an eligible applicant's plan and enrolling individuals in manpower programs funded under Title II of the Act, special consideration shall be given to welfare recipients.

(c) *Former manpower trainees.* Special consideration shall be given, in developing an eligible applicant's plan and enrolling individuals in the manpower programs funded under Title II of the Act, to persons who have participated in manpower training programs and for

whom work opportunities are not otherwise immediately available (sec. 205(c)(9)).

#### § 96.31 Training and supportive services.

Eligible applicants may provide training and supportive services to an individual participating in a public service employment program. Training may be that which is auxiliary to a participant's position or that which is of benefit to the participant in obtaining employment not subsidized under the Act. Such training may be provided with Title II funds or with funds made available under other imbursement of the reasonable cost, from which are available, with or without re-titles of the Act (consistent with these provisions of existing services and facilities should be given to the utilization or private organizations. Due consideration may be purchased from public and 99). Such training may be provided regulations, 29 CFR, Parts 94, 95, 96, 98, Federal, State and local agencies (secs. 105(a)(3)(B), 105(c)(2) and 205(c)(14) and (19)).

#### § 96.32 Linkages with other manpower programs.

An eligible applicant shall, where appropriate, maintain or provide linkages with upgrading and other manpower programs for the purpose of (1) providing public service employment participants who want to pursue work with the employer, in the same or similar work, with opportunities to do so and to find permanent, upwardly mobile careers in that field, and (2) providing those persons so employed, who do not wish to pursue permanent careers in such field, with opportunities to seek, prepare for, and obtain work in other fields. Eligible applicants shall also maintain linkages with agencies, such as State vocational rehabilitation departments, to provide needed supportive services for participants, such as the elimination of any barriers to employment created by the architectural design of the worksite.

#### § 96.33 Placement goals.

(a) Public service employment programs under the Act shall, to the extent feasible, be designed to enable all individuals to move from such employment programs into unsubsidized full-time jobs in the private or public sector, and shall emphasize the development of new careers and career development opportunities (secs. 201 and 205).

(b) Each eligible applicant, program agent, and subgrantee shall be responsible for efforts to place all participants in unsubsidized employment in both the private sector and the public sector, or in training programs.

(c) To carry out the intent of paragraph (b), each eligible applicant, program agent and subgrantee, to the extent consistent with law and applicable collective bargaining agreements, shall have the goal of accomplishing on an annual basis at least one of the following:

(1) Placing half of the cumulative participants in unsubsidized private or public sector employment; and

(2) Placing participants in half the vacancies occurring in suitable occupations in an eligible applicant, program agent, or subgrantee's permanent work force which are not filled by promotion from within the agency.

(d) Placement goals established consistent with paragraph (c) above are to be understood as goals and are not prescribed as placement requirements. (sec. 211(b)).

(e) Any eligible applicant shall have the right to request a waiver of such placement goals. The request for a waiver may be submitted at any time, and may be granted by the ARDM when in the ARDM's judgment local economic conditions and budgetary constraints warrant such a waiver. (sec. 211(b)).

(f) Whenever such a waiver has been granted by the ARDM, failure to meet the placement goals shall not be cited in any official review or evaluation of that eligible applicant's program (sec. 211(b)).

#### § 96.34 Compensation for participants.

(a) *Minimum wage for participants.* Each participant shall be paid at a rate no less than the highest of the following:

(1) The minimum wage which would be applicable to the employee under the Fair Labor Standards Act of 1938, if section 6(a)(1) of the Act applied to the participant and if he were not exempt under section 13 thereof (wages to participants in the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa and the Trust Territories of the Pacific shall be consistent with the Federal, State or local law otherwise applicable);

(2) The State or local minimum wage for the most nearly comparable covered employment;

(3) The prevailing rate of pay for persons employed in similar public occupations by the same employer (sec. 208(a)); or

(4) The minimum entrance rate for inexperienced workers in the same occupation in the establishment, or, if the occupation is new to the establishment, the prevailing entrance rate for the occupation among other establishments in the community or area, or any minimum rate required by an applicable collective bargaining agreement.

(b) *Limitations on participant's salary.* (1) Compensation to any participant from Title II Federal funds is limited to a maximum full-time rate of \$10,000 per year, plus the cost of fringe benefits to the extent they do not exceed those paid to workers earning \$10,000 a year. This limitation shall also be applicable for participants in public service employment funded under other titles of the Act.

(2) When a participant is eligible for a promotion or general salary increase that would mean a salary in excess of \$10,000, the participant is entitled to it if other employees similarly employed would be promoted. The employer must pay the amount above \$10,000 from his own funds as well as a prorated share of the increased fringe benefits. Funds from

other titles of the Act shall not be used to supplement the maximum salary limitation for participants.

#### § 96.35 Administrative staff.

(a) *General.* To the extent possible, administrative staff shall be drawn from the unemployed and underemployed population. However, if necessary technical, supervisory and administrative personnel are not available in the unemployed and underemployed population, staff may be recruited from other available sources (sec. 205(c)(20)).

(b) *Compensation.* Eligible applicants may compensate administrative staff from:

(1) Funds not provided under the Act. No maximum salary limitation will apply in this case;

(2) Administrative funds allowed under Title II as specified in § 96.36 of this Part 96. This applies only to non-participants on the administrative staff in which case no salary limitation will apply; or

(3) Funds expended under Title II for wages and fringe benefits for participants as specified in § 96.36 of this Part 96. In this case, the administrative staff member must meet the Title II participant eligibility requirements and be hired as a Title II participant. The salary limitation specified in § 96.34(b) shall apply. Any salary paid to a participant in excess of \$10,000 must be paid from funds other than those provided under the Act.

#### § 96.36 Limitation on funds.

(a) Not less than 90 percent (90%) of the funds appropriated pursuant to Title II of the Act which are used by an eligible applicant for public service employment programs shall be expended for wages and fringe benefits to persons employed in public service jobs (sec. 203(b)).

(b) The remaining 10 percent (10%) may be used for administration, training, or supportive services to participants in public service employment.

(c) An eligible applicant which does not itself administer the entire program may not retain the entire 10 percent (10%) mentioned in paragraph (b) for its own use unless this is agreed to by its subgrantees. At least 5 percent (5%) of a subgrantee's grant must be available to it for costs other than wages and fringe benefits.

#### § 96.37 Use of Title II funds for programs under Titles I and III-A.

Funds available to an eligible applicant may, at its option, be utilized for residents of the areas of substantial unemployment designated under this Part 96 for programs authorized under Title I and Part A of Title III of the Act. Where Title II funds are used for activities authorized under other Titles of the Act, all provisions under this Part 96, except § 96.20, § 96.21(b)(c)(d)(e)(g) and (h), § 96.23, § 96.24, § 96.27(e), § 96.31, § 96.32, § 96.33, § 96.34, and § 96.38, shall apply in addition to those provisions applicable for programs under Title I and Part A of Title III (sec. 210);

however, when Title II funds are used to fund public service employment, all of the provisions of this Part 96 shall apply.

#### Subpart D—Special Conditions for Grants to Indian Tribes on Federal and State Reservations

##### § 96.40 General.

This Subpart D contains special conditions for grants to Indian tribes on Federal and State reservations. To the extent that any provision of this Subpart D differs from any other provision of this Part 96, the provisions of this Subpart D shall govern. In all other matters the requirements of Part 96 apply to this Subpart D. The Division of Indian Manpower Programs in the Office of National Programs shall have full responsibility for all matters pertaining to funds allocated to Indian tribes on Federal and State reservations under Title II of the Act. All references to ARDM in Part 96 shall be read as Director, Division of Indian Manpower Programs.

##### § 96.41 Distribution of funds.

(a) This section describes the methodology for the distribution of funds allocated to Indian tribes on Federal and State reservations as determined by the ratio prescribed in Subpart A, § 96.2.

(b) Funds for Indian tribes eligible for application under Title II shall be distributed as follows:

(1) Funds for use under this Subpart D shall be distributed on the basis of a ratio taking into account the total number of unemployed Indians on all Federal and State Indian reservations which have areas of substantial unemployment and comparing this number with the total number of unemployed persons in all eligible applicant jurisdictions under this Part 96;

(2) Funds determined under paragraph (b)(1) shall be distributed for use by the individual Indian reservations which have areas of substantial unemployment according to the best available estimates of unemployment on each such reservation as compared to the total unemployment on all such reservations;

(c) Funds shall only be granted for individual reservations which have a governing body and either have a population of at least 1,000 resident Indians or are entitled to a Title III, Section 302, grant of at least \$50,000. Reservations which do not meet either of these requirements may, however, be combined to qualify for funds as provided in § 96.42 of this part (sec. 204(c));

(d) An eligible applicant which represents more than one reservation shall further allocate funds for use among those reservations in accordance, to the extent feasible, with the amounts indicated by the Secretary for each reservation; and

(e) Within a single reservation, or within those small reservations which are members of a consortium, the eligible applicant shall, to the extent feasible, allo-

cate granted funds among identifiable areas of high unemployment (sec. 204(c)).

##### § 96.42 Eligibility for funds.

(a) An independently eligible applicant shall be an Indian tribe on a Federal or State reservation which includes areas of substantial unemployment.

(b) An eligible applicant shall come under one of the following categories:

(1) *Independently eligible applicant.* An independently eligible applicant shall be an Indian or Alaskan tribe which has:

(i) An identifiable resident population of at least 1,000 individuals or which is entitled to an allocation of at least \$50,000 under CETA Title III section 302 regulations, i.e., Part 97, Subpart B of these regulations; and

(ii) A governing body. A governing body is defined as one having substantive powers, i.e., consists of duly elected representatives who have authority to provide services and to enter into contracts and grants on behalf of the electorate and who are recognized as having such authority by the appropriate Federal or State agencies (sec. 204(c)). In the case of a reservation with more than one tribe, each tribe which is independently eligible according to the criteria of this paragraph shall be entitled to a separate grant. Such tribes, however, will be encouraged to form a consortium for the administration and operation of a comprehensive manpower program.

(2) *Consortium prime sponsor.* Indian or Alaskan entities which do not meet the criteria to be an independently eligible applicant as outlined in paragraph (b)(1) of the section may participate in a consortium as set forth below:

(i) Consortium including an independently eligible applicant. An Indian or Alaskan entity may enter into a consortium with an eligible applicant under paragraph (b)(1) of this section. The consortium thus formed shall be the eligible applicant, and a member of the consortium, or an entity formed by the members, must be designated as the administrative arm and be delegated the responsibility for operating the program. Such a consortium may operate in more than one State. The administrative unit must be capable of performing both the functions required of a governing body and those necessary to carry out a public service employment program as prescribed by this Subpart.

(ii) Consortium where no member meets the criteria to be an independently eligible applicant. A consortium may be formed by Indian or Alaskan entities, none of which is eligible to be an independently eligible applicant under paragraph (b)(1) of this section, provided that:

(A) All of the members are in geographic proximity to one another; and

(B) The combination of entities has a resident population of at least 1,000 persons; or

(C) The combination of entities is entitled to an allocation of at least \$50,000, under CETA Title III section 302 criteria (Part 97, Subpart B of the regulations).

(iii) Consortium involving public or private non-profit agencies. An Indian or Alaskan entity may enter into a consortium with a public or private non-profit agency. The consortium thus formed shall be the eligible applicant and the public or private non-profit agency shall be the administrative arm. This type of consortium may be formed where such entity is not independently eligible to be an eligible applicant, chooses not to be an applicant, or determines that such a consortium will provide for a more effective and efficient program. Whenever an Indian or Alaskan entity joins with a public or private non-profit agency to form a consortium, such agency must be capable of performing both the functions required of a governing body and those necessary to administer a comprehensive manpower program. The minimum combined population requirement of 1,000 persons shall not be applicable to this type of consortium. However, the combined allocations for the members must be of such an amount that, in the opinion of the Secretary, it will be possible and feasible to provide public employment services to those unemployed and underemployed Indians who are in need of such services. Examples of eligible agencies are Intertribal Councils, Title I prime sponsors and Tribal Chairmen's Associations.

(c) Where there are Indian or Alaskan entities which do not meet the eligibility criteria to be an independently eligible applicant, or which do not meet the criteria, but decline to operate a program, the Secretary shall designate an eligible applicant deemed appropriate and capable of providing the required services except that the Indian or Alaskan entities shall have the right of approval of such eligible applicant, provided:

(1) The Indian or Alaskan entity meets the definition for Indian tribe, band, group, or Alaskan native village and can prove that it represents at least 1,000 individuals. In addition, the Indian or Alaskan entity must provide a written explanation of the official procedures utilized to select its spokesman. Such Indian or Alaskan entity shall either have determined it does not wish to sponsor a public service employment program, or have been declared ineligible for independent eligibility because of the lack of a governing body or because of its inability to perform the functions necessary to carry out a public service employment program; or

(2) A combination of entities, as defined in this Subpart, can prove, by providing the Secretary with a list of its members living within the designated areas, that, when combined, such combined, such combination represents at least 1,000 individuals. Such combination shall not be an independently eligible applicant either because it chooses not to become one, or lacks the ability to perform the functions required of a governing body, or lacks the ability to perform the functions necessary to administer a public service employment program, as defined by these regulations, or all of the above.

#### § 96.43 Funding of eligible applicants.

(a) In order to be funded, a potentially eligible applicant must request to operate a program under Title II by complying with the provisions of § 97.111 of the regulations for Indian Manpower Programs funded under Section 302 of the Act. Applications shall be postmarked no later than March 1, in any given year.

(b) Each potentially eligible applicant will receive a tentative allocation against which it will prepare and submit its grant application.

(c) The grant application will consist of the Employment Plan and Grant Signature Sheet. The Employment Plan shall consist of:

- (1) a full narrative description of the program;
- (2) a Program Planning Summary (see § 96.14(b)(2)(ii));
- (3) a Budget Information Summary (see § 96.14(b)(2)(iii));
- (4) a Monthly Schedule (see § 96.14(b)(2)(iv));
- (5) an occupational summary;
- (6) a program summary; and
- (7) assurances and certifications

#### § 96.44 Planning process; advisory councils.

Eligible applicants should utilize the services of their planning councils authorized under § 97.113 of the regulations for Indian Manpower Programs funded under section 302 of the Act.

#### § 96.45 Comment and publication procedures relating to submission of Indian grant applications.

(a) Each eligible Indian applicant which plans to apply for a grant shall, no later than the date of its submission of an application to the Director, Division of Indian Manpower Programs, provide an opportunity to comment on its application to the following officials in accordance with section 206 of the Act:

- (1) The Governor;
- (2) Appropriate officials of units of general local government; and
- (3) Officials of labor organizations representing employees who are engaged in similar work in the same area.

(b) Comments by those individuals and officials listed in paragraph (a) shall be made to the eligible applicant and the Director within 30 days of the receipt of notice of the opportunity to comment.

(c) Eligible Indian applicants shall acknowledge any comments made pursuant to this section by providing the commenting party with appropriate information and notice regarding the actions or revisions the applicant intends to take or adopt, if any, due to the comment. All such comments and responses shall be transmitted to the Director, Division of Indian Manpower Programs.

#### § 96.46 Assistance by the Director, Division of Indian Manpower Programs.

Applicants eligible under this Subpart D may request technical assistance from the Director of Indian Manpower Programs in the preparation, submission, and/or implementation of a Title II pro-

gram. Requests for assistance should be addressed to: Director, Division of Indian Manpower Programs, 601 D Street NW., Washington, D.C. 20213.

#### § 96.47 Participant eligibility.

Unemployed and underemployed Indians are eligible to participate in programs funded with eligible applicants under this Subpart D or in programs funded with all other eligible applicants in whose jurisdictions they reside.

#### § 96.48 Nepotism.

(a) No eligible applicant or subgrantee under this Subpart D shall hire, or permit the hiring of, any person in a position funded under Title II of the Act if a member of the person's immediate family is employed in an administrative capacity by the eligible applicant. For the purposes of this section, the term "immediate family" means wife, husband, son, daughter, mother, father, brother, and sister; the term "administrative capacity" includes those persons who have overall administrative responsibility for a program, including: all elected and appointed officials who have any responsibility for the obtaining of and/or approval of any grant funded under the Act as well as other officials who have any influence or control over the administration of the program, such as the project director, deputy director, and unit chiefs; and persons who have selection, hiring, or supervisory responsibilities for participants in a program under this Part 96, or operational responsibility for the program.

(b) If a subgrantee under this Subpart D cannot hire program participants without an immediate family member being included, the Director, Division of Indian Manpower Programs may waive the requirement of paragraph (a) if adequate justification is received from such subgrantee that no other persons within the subgrantee's jurisdiction are eligible and available for participation.

(c) Where a tribal policy regarding nepotism exists which is more restrictive than this policy, the eligible applicant shall follow the tribal rule in lieu of this policy.

#### § 96.49 Non-discrimination.

Section 98.21 shall be applicable to Indian programs funded pursuant to Title II of the Act, except to the extent that such provisions conflict with 42 U.S.C. 2000e(b).

#### § 96.50 Subgrants.

In addition to the requirements as set forth in § 98.27 concerning subgrants, Indian tribes may require that subgrantees agree, to the maximum extent feasible, to hire qualified Indians to provide services called for pursuant to the subgrant in accordance with 42 U.S.C. 2000e-2(i).

#### § 96.51 Travel requirements.

Travel regulations for grantees under this subpart shall be consistent with the travel regulations that will be provided under Subtitle A, Part 97, Subpart B, Indian Manpower Programs, Section 97.161(7) Travel Regulations.

98.27 Grantee contracts and subgrants.  
98.28 Non-Federal status of participants.

## **Subpart B—Assessment and Evaluation**

- 98.30 General.  
98.31 Responsibilities of the prime sponsor or eligible applicant.  
98.32 Responsibilities of the Secretary.  
98.33 Limitation.  
98.34 Consultation with the Secretary of Health, Education, and Welfare.

## **Subpart C—Hearings and Judicial Review**

- Sec. 98.40 Purpose and policy.  
98.41 Review of plans and applications; violations.  
98.42 Complaints; filing of formal allegations; dismissal.  
98.43 Forms.  
98.44 Contents of formal allegation; amendment.  
98.45 Investigations.  
98.46 Opportunity for hearings; when required.  
98.47 Hearings.  
98.48 Initial certification, decisions and notices.  
98.49 Judicial review.

**AUTHORITY:** Comprehensive Employment and Training Act of 1973, as amended, (Pub. L. 93-203, 87 Stat. 839; Pub. L. 93-567, 88 Stat. 1845), sec. 702(a), unless otherwise noted.

## **Subpart A—Grant Administration**

### **§ 98.1 General.**

(a) This Subpart A describes Federal requirements relating to the administration of grants by grantees (secs. 703(14) and 713). Administrative requirements found in this subpart apply to all programs under the Act unless stated to the contrary for any specific program.

(b) The Secretary will provide each grantee with the specific procedures to be followed to comply with the requirements of this Subpart A (Sections 703(14) and 713).

(c) Statutory authority for the regulations contained in this Part 98 may be found in section 702(a) of the Act, as well as other substantive provisions of the Act. Applicable statutory provisions, other than section 702(a), are noted generally in these regulations.

### **§ 98.2 Payment.**

(a) Advance payments will be made to all grantees able to satisfy the following criteria established consistent with Treasury Department regulations (31 CFR Part 205), and 34 CFR Part 256 (Attachment J of FMC 74-7): (1) demonstrated willingness and ability to establish procedures for minimizing the time elapsing between the transfer of cash and its disbursement by the grantee; (2) establishment of substantially identical procedures for advances to subgrantees and other secondary recipients; (3) a financial management system able to satisfy the requirements of § 98.5; and (4) performance of all other obligations incident to the receipt of funds under the Act to the satisfaction of the ARDM. Advance payments may be made by means of a letter of credit or a request for advance.

(b) When the grantee is unable or unwilling to satisfy the criteria in (a) above, the preferred method for making payments shall be reimbursement of disbursements made using the grantee's own cash.

(c) When the grantee contracts under an Integrated Grant Administration Program (IGA) he may authorize direct advances from the Department of Labor. These advances may be by letter of credit or U.S. Treasury check under that contract.

(d) In the event that a grantee cannot meet the criteria for advance payments described in paragraph (a) of this section and reimbursement as described in paragraph (b) is not feasible, arrangements may be made to provide cash on a working capital advance basis, as described in § 98.4(c).

### **§ 98.3 Letter of credit.**

(a) When a grantee is able to satisfy the criteria described in § 98.2(a), grants will be financed by means of a letter of credit when the following conditions are met:

- (1) the grant is for \$250,000 or more;
  - (2) a continuing relationship exists for at least 12 months;
  - (3) the grantee can assure that the timing and amount of drawdowns will be as close as possible to disbursement needs as provided in the Department of the Treasury Regulations found at 31 CFR 205; and
  - (4) the grantee's accounting system will meet the recordkeeping and reporting requirements of this subpart.
- (b) [Reserved.]

### **§ 98.4 Payment by Treasury check.**

(a) A grantee which does not meet the requirements for the letter of credit must submit a request for advance or reimbursement in order to obtain its cash requirements as provided in Attachment H of FMC 74-7. The ARDM will determine whether such Treasury check payments will be made on an advance, working capital advance, or reimbursement basis. In making such a determination, the ARDM will consider the grantee's ability to satisfy the criteria of § 98.2(a), particularly the accounting and recordkeeping capabilities of its financial management system.

(b) Grantees are authorized to submit the request for advance or reimbursement at least monthly.

(c) Grantees ineligible for advance financing under either the letter of credit or request methods may be provided cash on a working capital advance basis when they lack sufficient working capital to be placed on the reimbursement basis. Under this procedure, a cash advance is made to the grantee to cover its expected disbursements for an initial period generally geared to the grantee's disbursing cycle. The grantee is thereafter reimbursed for its actual cash disbursements reported on the request for advance or reimbursement.

(d) Prime sponsors other than State and local governments which are operating programs under Titles I and II may be required by the ARDM to maintain special bank accounts, as provided in 41 CFR 1-30, 413-414. Where special accounts are required, all receipts of grant funds must be deposited in the special account and all grant disbursements must be made from the account. The ARDM may also require the use of special bank accounts by secondary recipients if the prime sponsor is required to maintain a special account unless the secondary recipient is a State or local government unit.

(e) Advance by Treasury check will provide for advance payments through use of predetermined payment schedules or upon the request of the grantee. When the request method is used, payments will be made to a grantee based upon a schedule contained on the Request for Advance or Reimbursement.

### **§ 98.5 Financial management systems.**

(a) Each grantee and subgrantee shall maintain a financial management system which will: provide accurate, current, and complete disclosure of the financial results of each program activity by title of the Act, including Title II program activities by each area of substantial unemployment; provide the ability to evaluate the effectiveness of program activities; and meet the reporting requirements of this subpart.

(b) Each grantee and subgrantee shall maintain its fiscal accounts in a manner sufficient to permit the reports required by the Secretary to be prepared therefrom.

(c) To be acceptable for audit under the Act a report of Federal Cash Trans-

actions, Program Status Summary and Financial Status Report shall be:

- (1) current as of the cut-off date of the audit;
- (2) taken directly from or linked by worksheet to the sponsor's books of original entry; and
- (3) traceable to source documentation of the unit transaction. In cases where these financial records do not meet these requirements, the auditor shall submit a letter to the contracting officer within ten days of such a determination delineating the reason for such a determination and recommendations as to the action required to place the records in condition for audit.

### **§ 98.6 Audit.**

(a) The Secretary of Labor, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the State and local government and their subgrantees and contractors which are pertinent to a specific grant program under the Act for the purpose of making surveys, audits, examinations, excerpts, and transcripts (sec. 713(2)).

(b) The Secretary shall be responsible for scheduling surveys, audits or examinations of grantees and their subgrantees and contractors. These schedules will be coordinated with the grantee, to the extent practical.

(c) The Secretary shall, with reasonable frequency, survey, audit or examine, or arrange for the survey, audit or examination of grantees and their subgrantees and contractors using city or state auditors; or certified or licensed public accountants. Such surveys, audits, or examinations shall normally be conducted annually but not less than once every two years. The cost of these audits shall be funded by the Department of Labor and shall not be a part of the grantees administrative cost under the grant.

(d) Surveys, audits and examinations will conform to *The Standards for Audit of Governmental Organizations, Programs, Activities, and Functions*, issued by the Comptroller General of the United States and guides issued by the Secretary. Surveys, audits or examinations contracted by the Secretary will conform, at a minimum to the first element of the Comptroller General's Standards: An audit to determine (1) whether financial operations are properly conducted, (2) whether the financial reports are fairly presented, and (3) whether the available information indicates that the entity has complied with applicable laws, regulations, and administrative requirements. (In addition, selected Federal audits will include reviews of the economy and efficiency and/or program results of programs under the Act. As a result of such audits a report including appropriate recommendations will be issued to the Manpower Administration.) Existing audit systems, where acceptable under the Comptroller General's Standards, such as State audits of city and county activities will be used to the maximum possible extent (sec. 713(1)).

(e) Each grantee shall arrange for an independent audit of each of its contractors and subgrantees at least once every two years. Audits may be conducted by the grantee, by State and local government audit staffs, or by certified public accountants and audit firms under contract to the grantee. All audits performed by the grantee shall be conducted in accordance with the provisions of paragraph (d) of this section and shall not be subject to prior approval by the ARDM. Each grantee shall provide non-Federal audit reports of their own operations to the Assistant Regional Director for Manpower and the appropriate Assistant Regional Director for Audit. Subgrant and contract audit reports will be provided upon request. The cost of these audits shall be considered a part of the grantee's administrative cost and funded from its grant.

(f) (1) Upon making a new grant or a significant increase in the funding level of an on-going grant, the Assistant Secretary for Manpower may request the Assistant Secretary for Administration and Management, Department of Labor to conduct a preliminary audit survey to evaluate the adequacy of the grantee's accounting system and internal controls as established by these regulations including but not limited to §§ 95.14, 98.8, 98.18, 98.24, 98.25, 98.26, 98.27, and 98.31.

(2) On the basis of the findings, conclusions and recommendations of the survey, the grantee will be advised in writing what action, if any, is needed to satisfy Department of Labor requirements.

(g) (1) Audit reports shall be written in the format prescribed by the Department of Labor Audit Program. Previous audit reports considered relevant and the full text of any sponsor's comments will be included as an appendix to the report.

(2) Department of Labor audit report will be distributed by the appropriate Department Assistant Regional Director of Audit.

(3) Grantees shall respond in writing to the findings, conclusions and recommendations in the audit reports when requested to do so by the ARDM. Unless an extension of time is expressly granted, the response shall be submitted to the responsible Assistant Regional Director for Manpower with a copy to the responsible Assistant Regional Director of Audit within thirty calendar days from the date of Department of Labor notification of the findings and recommendations.

(4) The grantee may take exception to particular findings and recommendations. The rationale for such exceptions should be included in the response. The response should point out corrections already made and state what action is proposed and the estimated completion date of such action.

(5) The ARDM will consider the grantee's response and any additional information provided by the prime sponsor when determining whether specific expenditures should be disallowed. The appropriate ARDM will notify the prime sponsor in writing of the determination to disallow expenditures.

### **§ 98.7 Reporting requirements in general.**

Each grantee will be required to submit four periodic reports which will be used by the Secretary to assess its performance in carrying out the objectives of the Act. These four reports are: (a) The Program Status Summary, (b) The Financial Status Report (These two reports replace the Quarterly Progress Report), (c) The Quarterly Summary of Participant Characteristics and (d) The Report of Federal Cash Transactions. In addition, grantees may from time to time be required to prepare and submit reports requested by other Federal agencies for the performance of the legislative responsibilities of these agencies. Grantees operating Title II programs will also be required to submit the monthly progress report. Detailed descriptions of these forms are in the *Forms Preparation Handbook*.

### **§ 98.8 Program Status Summary, Financial Status Report and Monthly Report.**

The Program Status Summary (PSS) and the Financial Status Report (FSR) will be used to measure accomplishments in achieving objectives stated in the Program Planning Summary and the Budget Information Summary, respectively.

(a) *Program Status Summary.* Each grantee will include the following items in this report together with a comparison of the same items as they appear in the Program Planning Summary:

- (1) The total number of enrollments with granted funds during the grant period;
- (2) The total number of individuals (participants) placed in unsubsidized employment at termination from the project and the number entering school, other training or military service;
- (3) The level of enrollment associated with each program activity;
- (4) The number of individuals within each significant segment of the population being served by the program; and
- (5) The objectives and accomplishments other than those established by the Secretary. If a prime sponsor or eligible applicant elects to include these other activities in its report, they will be used by the Secretary in his evaluation of the performance of the prime sponsor or eligible applicant's program.

(b) *Financial Status Report.* Each grantee will submit a Financial Status Report (FSR) which includes the following items:

- (1) The distribution of total accrued expenditures among program activities and percent of plan accomplished;
  - (2) Indirect costs for the grant period to date;
  - (3) The distribution of total accrued expenditures to date by cost category; and
  - (4) A certification of the correctness of the costs reported.
- (c) If performance goals are not being achieved, the ARDM may request additional information from grantees including reasons for the failure to achieve the goals.

(d) The reports required by paragraphs (a) and (b) of this section shall be prepared to coincide with the ending dates of Federal fiscal year quarters. These reports should be sent by the grantee to be received by the ARDM no later than 30 days after the end of the reporting period. If a grantee's period ends at a date other than the Federal fiscal year quarter, a fifth set of reports, covering the entire grant period will be required. These reports shall also be submitted by the grantee to the Governor of the State.

(e) Accountability must be maintained by the grantee for each of the activities authorized under the Act. Therefore, separate reports will be required for the Title I Grant, the Title II Grant and the special grant.

(f) The Secretary reserves the right to require the submittal of these reports by grantees more frequently than quarterly in cases of major deviation from the Program Planning Summary and Budget Information Summary.

(g) **Monthly Progress Report.** Grantees operating a Title II funded program will submit the Monthly Progress Report (MPR) on which they will record the cumulative participants served and terminated, the number of participants on board at the end of the month, the number of participants who had previously been employed by the grantee or agent, and the actual versus planned accrued expenditures cumulative for the program year to the end of the month. The monthly report period is the calendar month. This report will be submitted to the appropriate ARDM no later than 10 working days after the end of the report period. The monthly report will be phased out when economic conditions and programmatic considerations no longer warrant its submission.

(h) Specific procedures for meeting these reporting requirements will be furnished to each grantee in the *Forms Preparation Handbook*.

#### § 98.9 Quarterly Summary of Participant Characteristics.

(a) The Quarterly Summary of Participant Characteristics (QSPC) contains aggregate characteristics data on all participants in the program. The Summary is to be submitted to the ARDM with the Program Status Summary and Financial Status Report.

(b) The Summary will include characteristics data aggregated for all participants, as set forth in the report form and will include all participants terminating or placed during the reporting period.

(c) For those participants who entered employment during the report period, the Summary will also aggregate and determine the average wage before enrollment and at termination.

(d) A separate report will be required for Title I and Title II.

(e) Specific reporting procedures and appropriate definitions will be furnished to each grantee in the *Forms Preparation Handbook*.

(f) This report will be submitted by the grantee to the Governor of the State.

#### § 98.10 Report of Federal cash transactions.

(a) Each grantee shall submit periodically a report of Federal cash transactions. The report will be used to monitor cash advances and to obtain disbursement information. This report will be submitted monthly by each grantee receiving annual grants totalling \$1 million or more, and quarterly by other grantees (sec. 713(3)).

(b) Specific reporting procedures will be furnished to each grantee in the *Forms Preparation Handbook*.

#### § 98.11 Reallocation of funds.

(a) **General.** The Secretary may reallocate funds from a grantee under the circumstances and in accordance with the procedures described in this section (secs. 103(l) and 702(b)).

(b) **Reallocation based on nonperformance.** (1) Pursuant to section 702(b) of the Act, when the Secretary considers through review of the grantee's reports, monitoring or auditing of the program that its performance may be inadequate or that it may have failed to comply with the Act or regulations, he shall give due notice and opportunity for a public hearing as provided in § 98.47.

(2) If the Secretary then decides to reallocate funds based on a ground set forth in paragraph (b) (1), he shall:

(i) revoke the grantee's plan for the area, in whole or in part;

(ii) make no further payments under the Act to the grantee, to the extent which he deems necessary; and

(iii) notify the grantee of the amount of funds which shall be returned from unexpended funds paid to the grantee during that fiscal year.

(3) **The Secretary shall make provision for the reallocation of funds to be used by the State or other alternative prime sponsor to service the area which was served by the prime sponsor before the reallocation, or the Secretary may serve such an area directly.** (See § 95.20.)

(c) **Reallocation based on need.** (1) In a limited number of circumstances, the Secretary may determine that the unobligated portion of a grantee's Title I grant should be reallocated to another area because the funds are not needed where they were originally allocated. Such reallocations may be made only after the ninth month of the fiscal year for which the grant was made.

(2) Before reallocating funds as set forth in paragraph (c) (1), the Secretary must determine that:

(i) the grantee's plan will be carried out without expending all the funds previously made available for that plan; and

(ii) the excess funds identified under paragraph (c) (2) (i) cannot reasonably be expected to be needed in the following grant period.

(d) **Reallocation.** When the Secretary determines that funds should be reallocated based on the criteria in paragraph (c), he will take the following actions:

(1) **Notice of intent to reallocate funds.** When the Secretary determines that a reallocation is appropriate, he will

notify the grantee and the appropriate Governor of the proposed action to remove funds from the grant. The notice shall include the basis for the proposed reallocation.

(2) **Comments by prime sponsor or eligible applicant and the Governor.** The grantee and the Governor will be invited to submit comments on a proposed reallocation of funds out of their area. These comments shall be submitted to the appropriate ARDM within 30 days of receipt of the notice. The Secretary shall consider these comments before making a final determination to reallocate.

(3) **Notification of final determination.** After reviewing any comments submitted by the grantee or Governor, the Secretary will notify them of his decision. A final decision to reallocate funds of a grantee will be published in the Federal Register and a modification will be made to the grant.

(4) **Reallocation procedures.** In reallocating such funds to supplement other grantee grants, the Secretary shall first consider the need for additional funds by other grantees within the same State. A decision to increase a grantee's grant with reallocated funds will not be made without prior consultation with the grantee as to how the funds will be expended, and prior notification to the Governor. Such a decision will be published in the Federal Register with an announcement of the grantee(s) receiving additional allocations and the amounts.

#### § 98.12 Allowable Federal costs.

(a) **General.** Except as modified in these regulations, Federal funds granted under the Act may be expended only for purposes permitted under the provisions of part 1-15 of Title 41 of the Code of Federal Regulations, 41 CFR 1-15.2 which applies to commercial and non-profit organizations; 41 CFR 1-15.3 which applies to educational institutions; and 41 CFR 1-15.7 which applies to State and local governments. Allowable costs include both direct and indirect costs. Costs are intended to be directed to increase the employability of participants.

(1) **Direct and indirect costs.** Direct costs are those which can be specifically identified as relating to the project. Indirect costs are those computed by application of an indirect cost rate. In determining the reasonableness of indirect costs, reliance will be placed on procedures established pursuant to 41 CFR Part 1-15, including reliance on determinations 41 CFR Part 1-15.

(2) **Policies and procedures.** Cost allocation plans and indirect cost proposals shall be developed and approved in accordance with applicable cost principles and procedures set forth in 41 CFR 1-3.7 and 41 CFR 1-15. Beginning with FY 1976, the Department must approve in advance all prime sponsors' indirect cost allocations used to determine charges to grants under the Act. Where the Department has the responsibility for establishing the indirect cost rate, the reasonableness of indirect costs claimed

by State and local governments will be determined in accordance with procedures established pursuant to 41 CFR 1-15.7 (FMC 74-4), including reliance on determination made by other Federal agencies.

(b) **Restriction on use of funds.** (1) (i) Federal funds used for public service employment programs under Title I and for any program under Title II of the Act shall not be used for the acquisition of or for the rental or leasing of administrative supplies, equipment, materials or real property, whether these expenses are budgeted as a direct or indirect cost, provided however that training materials, work tools, uniforms or other equipment ordinarily provided by the employer to his regular employees, and which are for the benefit and ownership of the participants may be considered fringe benefit costs for public service employment participants (sec. 208(a)(7)).

(ii) The 10 percent of funds used by a prime sponsor or an eligible applicant for public service employment programs under Title I and Title II, after the 90 percent requirements of § 96.36(a) is met, may be used for administration, training, and supportive services, including equipment and materials used in the training of participants, as defined in § 98.12(f)(4) of this subtitle (secs. 205(a), 205(b)(14), 211).

(2) No funds granted under the Act may be used, directly or indirectly, as a contribution for the purpose of obtaining Federal funds under any other law of the United States which requires a contribution from the grantee in order to receive such funds, except if authorized under that law. However, the use of funds granted under the Act as a matching contribution in order to obtain additional funds under the Act is not prohibited.

(c) **Expenditures for repairs, maintenance and capital improvements and construction.** (1) Title I funds may not be expended for new construction (including additions to existing facilities) but may be expended for building repairs, maintenance and capital improvements to existing facilities. These costs must be related to a facility or building which is used primarily for programs under the Act (sec. 702(b)).

(2) No funds for new construction (including additions to existing facilities) are allowable except as part of a training program in a construction occupation or for the payment of wages for public service employment participants. Training costs may include such items as, instructors' salaries, training tools and books, and allowances or wages to participants (if appropriate) but may not include materials used in construction or land acquisitions. Construction costs for training programs shall be allowable only when such construction would not normally be performed by an outside contractor.

(d) **Allowable cost categories.** Allowable costs shall be reported against the following cost categories: Administration; wages; training; fringe benefits; allowances; and services (sec. 101). (1) Costs are allocable to a particular cost

category to the extent of benefits received by such category.

(2) All grantees are required to plan, control, and report expenditures against the aforementioned cost categories.

(e) **Classification of costs by category.** The following principles shall be followed in classifying costs by cost category: (1) Participants' wages shall be charged to wages;

(2) Participants' fringe benefits shall be charged to fringe benefits; (Insurance with comparable coverage to workmen's compensation for participants enrolled in classroom training and services to clients is considered to be an administrative cost).

(3) Allowances paid to program participants shall be charged to allowances.

(4) Training costs consisting of goods and services which directly and immediately affect program participants shall be charged to training. Goods and services which have direct and immediate impact on participants are limited to those actually involved in the participant training process itself as opposed to those which are supportive of that process. For examples of training-related costs which may and may not be charged to training see paragraph (f)(4), Training.

(5) Supportive and manpower services costs which consist of goods and services which directly and immediately affect program participants shall be charged to Services. Goods and services considered to have direct and immediate impact on participants are limited to those actually involved in the process of providing participants with supportive and manpower services as opposed to those which are ancillary to that process. For examples of services-related costs which may and may not be charged to Services see paragraph (f)(5), Services.

(6) Allowable costs which do not fall into any of the above classifications will be charged to administration.

(7) When contractors bill the grantee with a single unit charge containing costs which are chargeable to more than one cost category the grantee will endeavor to obtain the detail necessary to charge these costs to the proper cost categories. If this cannot be done, an estimate of the breakdown of the single charge among cost categories will be obtained. Any profit (or loss) should be prorated among all the affected cost categories.

(8) **Classification of equipment costs** present special problems since many items of equipment can be used for various purposes. In the case of multiuse equipment there must be a proration of cost or, if there is a predominant usage relating to one cost category, a charge shall be made to that category.

(9) Any single cost such as staff salaries and/or fringe benefits which is properly chargeable to more than one cost category shall be prorated among the affected categories.

(f) **Following are examples of costs properly chargeable to each of the cost categories.**

(1) **Wages.** All wages paid to participants receiving on-the-job training in public or private nonprofit organizations, and all wages paid to participants in transitional subsidized employment and in work experience will be allowed. Wages paid to participants while receiving on-the-job training from a private employer organized for profit cannot be supported by funds under the Act (sec. 101(5)).

(2) **Fringe benefits.** Allowable fringe benefit costs for participants include, but are not limited to the following: annual, sick, court and military leave pursuant to an approved leave system; employer's contribution for social security, employees' life and health insurance plans; unemployment insurance, workmen's compensation insurance; retirement benefits provided such benefits are granted under an approved plan; and such training materials, work tools, uniforms, or other equipment which may be charged to the fringe benefits category under Public Service Employment programs, in accordance with § 98.12(b)(1).

(3) **Allowances.** All allowances paid to program participants pursuant to § 95.34 of these regulations shall be charged to this cost category.

(4) **Training.** Training costs include, but are not limited to the following: Salaries and fringe benefits of personnel engaged in providing training; books and other teaching aids; equipment and materials used in providing training to participants; and that part of entrance and tuition fees which represent instructional costs having a direct and immediate impact on participants. The following are examples of costs not properly chargeable to Training: General and administrative costs of the training facility; supervision, clerical support, and training (skill maintenance and upgrading) of instructors; staff travel; rents, utilities, and other facilities costs; supplies and equipment not used directly in the course of participant training; transportation of participants to training sites; and costs of processing allowance payments. The compensation of individuals who both instruct and supervise other instructors must be prorated among the Training and Administration cost categories on the basis of time records or other equitable means. Similarly, tuition fees and the costs of supplies used in the course of both participants and other activities should be prorated among the benefiting uses.

(5) **Services.** (i) **Services include,** but are not limited to supportive and manpower services, as set forth in § 95.33(d)(5).

(ii) **Supportive services include** child care, health care and medical and dental services, residential support, assistance in securing bonding, and family planning.

(iii) **Manpower services include** outreach, intake and assessment, orientation, counseling, job development, and job placement.

(iv) **Allowable services costs include,** but are not limited to salaries and fringe benefits of personnel engaged in

providing services to participants; and that part of single unit charges for child care, health care, and other services which represent only the costs of services directly beneficial to participants. Transportation of participants is properly chargeable to Services only where it cannot reasonably be considered to be merely incidental to providing employment, training, and services which themselves directly benefit participants. For example, if rural participants have to be transported over long distances in order to reach work or training sites, particularly where no public transportation service is available, the cost of chartering or purchasing a bus may be charged to Services.

(v) The following are examples of costs not properly chargeable to Services: General and administrative costs of the services provided; supervision, clerical support, staff training, staff travel, rent and other facilities costs, and costs of supplies, materials, and equipment not used directly in providing services to participants.

(6) **Administrative costs.** (i) Administrative costs shall be limited to those necessary to effectively operate the program. They should not exceed 20 percent of the total planned costs for all program activities other than public service employment unless the Program Narrative Description under § 95.14(b) (2)(i) sets forth an explanation of how such additional costs have been determined and a detailed documentation to support that amount. The restriction on the use of funds for administration in public service employment programs is set forth in § 96.36 (sec. 108(d)(2)).

(ii) Supportive costs are comprised of general and administrative costs, overhead, and similar cost groupings representing the general management and support functions of an organization as well as secondary management and support functions at the bureau or division level. Included are salaries and fringe benefits of personnel engaged in executive, fiscal, personnel, legal, audit, procurement, data processing, communications, transportation, maintenance, and similar functions, related materials, supplies, equipment, office space costs, and staff training.

(iii) Direct program costs which are not an integral part of training and services provided participants are comprised of goods and services which neither contribute to the management and support functions of an organization nor directly and immediately affect participants. Included are direct program salaries and fringe benefits of supervisory and clerical personnel, program analysts, labor market analysts, and project directors. In addition, all costs of materials, supplies and equipment which are not solely identifiable with the provision of training and services to participants are included here as are all costs of space and staff travel identifiable with direct program effort. Some examples of administrative costs included here are the salary of a clerical assistant to an instructor, that part of

an instructor's salary representing the time he spends supervising other instructors, desk-top supplies used in participant training and in general office administration, a job developer's travel costs, rent, depreciation, or maintenance of classroom training facility, consultants services under contract not involving direct training or services to participants, cost incurred in the establishment and maintenance of State Manpower Services Councils or Prime Sponsor Planning Councils or in publishing a Comprehensive Manpower Plan, and costs of providing technical assistance to contractor and subgrantee staff.

(iv) Services normally chargeable to Administration when performed by staff personnel shall be charged to Wages or Fringe Benefits, as appropriate, when performed by program participants.

(g) **Travel costs.** (1) The cost of participant travel and staff travel necessary for the operation or administration of programs under the Act is allowable as provided herein.

(2) Travel costs of the Governor of a State or the chief executive of a political subdivision (and their immediate staff that do not have continuing programmatic responsibilities), are allowable only if the travel specifically relates to programs under the Act and is approved in advance by the ARDM. These costs shall be charged to administration.

(3) Travel costs of other governmental officials charged with overall governmental responsibilities are allowable if costs specifically relate to programs under the Act. Prior approval by the ARDM is not required. These costs shall be charged to administration.

(4) Travel costs for administrative staff, including participants in administrative positions, are allowable when the travel is specifically related to the operation of programs under the Act. These costs shall be charged to administration.

(5) Travel costs, based on mileage, for participants using their personal automobiles in the performance of their jobs are allowable if the employing agency normally reimburses its other employees in this way. These costs shall be charged to fringe benefits.

(6) Travel costs to enable participants to obtain employment or to participate in programs under the Act are allowable as supportive services but shall be restricted to the grantee's jurisdiction or within daily commuting distance.

#### § 98.13 Allocation of allowable costs among program activities.

The program activities against which program costs shall be planned, controlled, and reported upon are: classroom training; on-the-job training; public service employment; work experience; services to participants and other activities. The cost categories under each of these activities are defined in § 98.12 (d). The extent to which these cost categories are chargeable to specific program activities is set forth below (sec. 101).

(a) **Classroom training.** Cost categories chargeable are: administration, training, allowances, and services.

(b) **On-the-job training.** Cost categories chargeable are: wages and fringe benefits (attributable to public or private nonprofit employers only); administration; training; and services.

(c) **Public service employment.** Cost categories chargeable are: administration, wages, fringe benefits, services and training.

(d) **Work experience.** Cost categories chargeable are: administration, training, services, wages, and fringe benefits.

(e) **Services to participants.** Cost categories chargeable are:

(1) **Allowances.** This includes all allowances paid for short periods of time to participants who are registered for training, but are waiting for startup of a component.

(2) **Services.** This includes all manpower and supportive services including post-placement services which are not part of another program activity and which are provided to participants by a prime sponsor, eligible applicant, contractor or subgrantee.

(3) **Administration.** This includes all allowable administrative costs directly associated with this activity and a pro rata share of each prime sponsor or eligible applicant's administrative costs under the Act not directly associated with any program activity.

(f) **Other activities.** Cost categories chargeable are: administration, training, allowances, and services.

#### § 98.14 Basic personnel standards for grantees.

(a) Each prime sponsor and eligible applicant shall assure that it will maintain personnel policies and practices for its employees in accord with State and local laws and regulations that adequately reflect the merit principles declared in the Intergovernmental Personnel Act of 1970 (Pub. L. 91-648). Prime sponsors may meet this requirement by certifying compliance with uniform Federal Standards for a Merit System of Personnel Administration (45 CFR Part 70) including any amendments thereto (sec. 703(14)).

(b) Except as provided in paragraph (c) of this section, any prime sponsor or eligible applicant's personnel system that has not been certified previously as meeting these standards for other Federal grant programs shall certify that it will take necessary action to provide for merit based personnel system coverage within a reasonable period.

(c) Any nongovernmental prime sponsor, or administrative unit for a consortium which is not a unit of government, is not subject to the requirements of paragraphs (a) and (b) of this section. A consortium administered by one of the member governments or a unit thereof or a unit of government not a member shall be subject to paragraphs (a) and (b) of this section.

(d) Units exempt under paragraph (c) of this section shall ensure equal employment opportunity based on objective standards of recruitment, selection, promotion, classification, compensation, performance evaluation, and employee management relations.

(e) Prime sponsors and eligible applicants are encouraged to include on their staffs individuals who are representative of the population to be served by the program.

#### § 98.15 Adjustments in payments.

(a) If any funds are expended by a grantee, subgrantee, or employing agency in violation of the Act, the regulations or grant conditions, the Secretary may make necessary adjustments in payments on account of such expenditures. He may draw back unexpended funds which have been made available in order to assure that they will be used in accordance with the purposes of the Act, or to prevent further unauthorized expenditures, and he may withhold funds otherwise payable under the Act in order to recover any amount expended for unauthorized purposes in the current or immediately preceding fiscal year (sec. 208(b)(2) and 702(b)).

(b) No action taken by the Secretary of Labor under paragraph (a) of this section shall entitle the grantee to reduce program operations, or allowances for any participant or to expend less during the effective period of the contract or grant than those sums called for in the comprehensive manpower plan. Any such reduction in expenditures may be deemed sufficient cause for termination (sec. 108(b)(2) and 108(d)).

#### § 98.16 Termination of grant; suspension of grant in emergency situations.

(a) If a grantee violates or permits a subgrantee, contractor or an employing agency to violate the regulations, or grant terms or conditions which the Secretary has issued or shall subsequently issue during the period of the grant, the Secretary may terminate the grant in whole or in part; provided, however, that the grantee may request a hearing under § 98.47 of these regulations within a 30 day period and that such request will stay the determination pending the outcome of the hearing.

(b) Termination shall be effected by a notice of termination which shall specify the extent of termination and the date upon which such termination becomes effective. Upon receipt of notice of termination, the grantee shall:

- (1) discontinue further commitments of grant funds to the extent that they relate to the terminated portion of the grant;
- (2) promptly cancel all subgrants, agreements, and contracts utilizing funds under this grant to the extent that they relate to the terminated portion of the grant;
- (3) settle, with the approval of the Secretary, all outstanding claims arising from such termination;
- (4) submit, within a reasonable period of time after the receipt of the notice of termination, a termination settlement proposal which shall include a final statement of all unreimbursed costs related to the terminated portion of the grant, but in case of terminations under paragraph (a) of this section will not include the cost of preparing a settlement proposal (secs. 108(b)(2), 110(b), and 702(b)).

(c) In emergency situations where the Secretary believes that there has been illegal use of program funds under the Act, and that immediate action is necessary to protect the integrity of the grant program, the Secretary may immediately suspend payments and withdraw unexpended funds as he deems appropriate under the grant and make alternative temporary arrangements to carry out the grant program. In such a situation the Secretary shall notify the grantee of the reasons for his action and set a date for a prompt hearing on the matter, after which the Secretary shall make an appropriate determination.

#### § 98.17 Grant closeout procedures.

(a) The closeout of a grant is the process by which a Federal grantor agency determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the grantor. The following procedures will be complied with during this process of determination.

(b) The ARDM shall notify each grantee that its grant will expire on a specified date. If the grant is funded by letter of credit the ARDM shall notify the grantee that the letter of credit is being cancelled/adjusted and that reimbursement for the balance of allowable costs under the grant will be made by Treasury checks upon submission and approval of invoices.

(c) The ARDM shall notify each grantee of steps to be taken in the closeout process which includes the following:

- (1) An immediate refund to the ARDM of any unencumbered balance of cash drawn from the letter of credit or advanced by Treasury checks. Items to be included in the refund checks are detailed in the *Forms Preparation Handbook*.
- (2) The following financial and inventory reports, as described in the *Forms Preparation Handbook* will be submitted to the ARDM; when applicable:

- (i) A final report of Federal Cash Transactions;
- (ii) Grantee's Assignment of Refunds, Rebates and Credits;
- (iii) Bank Statement-Special Bank/Financial Account;
- (iv) Cancellation/Adjustment Fidelity Bond;
- (v) List of possible claimants for unclaimed checks cancelled or payment stopped;
- (vi) Grant Closeout Tax Certification;
- (vii) Government Property Adjustment; and
- (viii) Inventory Certificate.

(3) The Grantee's Release form, as described in the *Forms Preparation Handbook*, will be submitted to the ARDM.

(4) A final Program Status Summary and Financial Status Report as described in the *Forms Preparation Handbook* will be prepared and sent to the ARDM for each grant and title under which programs were conducted under the Act.

(5) A final Summary of Participant Characteristics Report, as described in the *Forms Preparation Handbook*, shall be prepared and sent to the ARDM.

(d) Upon closeout, the ARDM will insure that: (1) Prompt payment is made to the prime sponsor or eligible applicant for reimbursement of costs under the grant being closed out.

(2) After the final reports are received, a settlement is made for any upward or downward adjustments which are made to the Federal share of the costs.

(3) Final program and fiscal audits are performed as soon as possible after the completion of termination date of the grant.

(e) Procedures for closeout of grants contained in the *Forms Preparation Handbook* will contain instructions concerning subgrants or contracts which extend beyond the specified termination date of the grant under § 98.27.

#### § 98.18 Maintenance and retention of records.

(a) Grantees are required to maintain records on each program participant. The following types of information shall be recorded:

- (1) Personal identifying information;
- (2) Residence;
- (3) Work history of the participant;
- (4) Program activities in which the individual participated;
- (5) Supportive services received by the participant; and
- (6) Status of participant at termination from program.

Specific items, instructions, and definitions are contained in the *Forms Preparation Handbook*.

(b) Pursuant to the provisions set forth in Attachment C of FMC 74-7 the following shall apply with regard to the retention of records pertaining to any grant program under this Act (secs. 703(12) and 713).

(1) Financial records, supporting documents, statistical records and all other pertinent records shall be retained for a period of 3 years. No Federal requirements for records retention which exceed those established by State or local governments shall be otherwise imposed, with the following qualifications:

- (i) Records shall be retained beyond the 3-year period if audit findings have not been resolved;
- (ii) Records for nonexpendable property acquired with Federal grant funds shall be retained for 3 years after its disposition; and
- (iii) When grant program records are transferred to or maintained by the Secretary, the 3-year retention requirement will not be applicable to the grantee which had administered that grant program.

(2) The retention period shall start from the date of submission of the annual or final expenditure report, whichever applies to the particular grant.

(3) The substitution of microfilm copies in lieu of original records may be authorized by the ARDM upon request of the grantee.

(4) The Secretary will request State and local prime sponsors to transfer grant records to the Department's custody when it is determined that such

records have long-term retention value. However, suitable arrangements to avoid duplicate recordkeeping shall be made where the Department and any grantee needs such records for joint use.

(5) (i) The names of all participants supported under the Act are considered public information.

(ii) Other information regarding applicants, project participants, or their immediate families, which may be obtained through application forms, interviews, tests, reports from public agencies or counselors or any other source, shall be made available to the public by the grantee to the same degree it makes such information available about its own employees in the governmental jurisdiction. Without the permission of the applicant or participant, such information which is not normally made available to the public on the grantee's own employees in the governmental jurisdiction shall be divulged only as necessary for purposes related to the performance or evaluation of the grant under the Act to persons having responsibilities under the grant, including those furnishing services to the project under subgrant or contract, and to governmental authorities to the extent necessary for the proper administration of law.

(iii) The names of all individuals employed in staff positions under the Act are considered public information. A grantee shall make other information available to the public pertaining to individuals employed in staff positions under the Act in the same manner and to the same extent as such information is made available on its regular employees. A grantee shall make other information available to the public on individuals employed in staff positions by the administrative unit of a consortium, who are not also employed by a member jurisdiction, in accordance with the policy of the member jurisdiction which has the least restrictive policy.

(iv) Irrespective of any other provision in these regulations, this paragraph (5) is applicable to participants and staff for programs in Fiscal Year 1975, as well as thereafter.

#### § 98.19 Program income.

(a) The State and any agency or instrumentality of a State which is a grantee shall not be held accountable for interest earned on grant-in-aid funds pending their disbursement for program purposes under the Act (FMC 74-7).

(b) Units of local government shall be required to return to the Federal Government interest earned on advances of grant-in-aid funds in accordance with a decision of the Comptroller General of the United States (42 Comp. Gen. 289).

(c) Proceeds from the sale of real and personal property, either provided by the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with the MA Property Handbook which implements Attachments N of FMC 74-7.

(d) Royalties received from copyrights and patents during the grant period shall be retained by the grantee and be added

to the funds already committed to the program. After termination or completion of the grant, the Federal share of royalties in excess of \$200 received annually shall be returned to the Federal grantor agency (FMC 74-7).

(e) All other program income earned during the grant period shall be retained by the grantee and, in accordance with the grant agreement, shall be added to funds committed to the project and be used to further program objectives (FMC 74-7).

(f) The prime sponsor shall record the receipt and expenditure of revenues (such as taxes, special assessments, levies, fines, etc.) as a part of grant project transactions.

#### § 98.20 Procurement standards.

The standards to be used for the procurement of supplies, equipment, and other materials and services with Federal grant funds are those described in Attachment O of FMC 74-7 with the following exceptions. On-the-job training contracts are not subject to the sole source approval requirement under paragraph 6(b) and all subgrants are exempt from the requirements of Attachment O. When on-the-job training contracts are made under this exception a record of the name of the contractor, the amount and the services to be provided must be made available to the ARDM upon request. These standards are furnished to assure that such materials and services are obtained in compliance with the provisions of applicable Federal laws and Executive Orders.

#### § 98.21 Nondiscrimination and equal employment opportunities.

(a) *Nondiscrimination generally.* Every grant made pursuant to this part shall contain an assurance concerning the provision of equal employment opportunity under the grant.

(b) (1) No person shall on the ground of race, creed, color, handicap (as defined in paragraph (h)), national origin, sex, age, as provided in paragraph (2) below, political affiliation, or beliefs be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with funds made available under the Act (Sections 703(1), 712, and Vocational Rehabilitation Act, Section 504).

(2) The prohibition against age discrimination shall not be interpreted to prohibit establishment of training and employment programs under the Act designed to serve the legitimate needs of specific age groups. The prohibition against age discrimination shall not be interpreted to prohibit establishment of bona fide qualifications for participation in any program under the Act.

(c) When the Secretary determines that a grantee has failed to comply with the requirements of paragraph (a), he shall notify the grantee of the noncompliance and request the grantee to secure compliance. If within a reasonable time, not to exceed 60 days, the grantee fails or refuses to secure compliance, the Secre-

tary may, subject to the hearing requirements of this Part 98, terminate financial assistance under the Act and:

(1) May refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted;

(2) May exercise the powers and functions provided by Title VI of the Civil Rights Act of 1964 (42 USC 2000 (d)); and

(3) May take other actions as may be provided by law.

(d) when a matter under this section is referred to the Attorney General, or when the Secretary of Labor believes that a pattern or practice of discrimination exists, the Attorney General may bring a civil action in any appropriate United States District Court, including injunctive relief.

(e) The Secretary shall enforce the provisions of paragraph (a) of this section with regard to discrimination on the basis of sex in accordance with Section 602 of the Civil Rights Act of 1964. Section 603 of such Act shall apply with respect to any action taken by the Secretary to enforce these provisions.

(f) This section shall not be construed as affecting any other legal remedy that a person may have if that person is excluded from participation in, denied the benefits of, subjected to discrimination under, or denied employment in connection with any program or activity receiving assistance under the Act.

(g) The grantee shall be responsible for assuring that no discrimination prohibited by this section occurs in any program for which it has responsibility, and shall establish an effective mechanism for this purpose which is described in its plan. The grantee may, as one possible means of establishing this mechanism, assign the responsibility for administering the Equal Employment Opportunity (EEO) program to one individual and require subgrantees and contractors to prepare affirmative action plans. In such cases, the grantee may include in its comprehensive manpower plan a description of its EEO program and the related affirmative action plans of its subgrantees and contractors, including the procedures established for monitoring these activities.

(h) The term "handicapped individual" means any individual who (1) has a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment, and (2) can reasonably be expected to benefit in terms of employability from an activity under the Act.

#### § 98.22 Nepotism.

The provisions of this section are applicable as stated, except that the requirements found in § 96.48 shall not be superseded.

(a) *Restriction.* No grantee, subgrantee, contractor or employing agency may hire a person in an administrative capacity, staff position or public service employment position funded under the Act if a member of his or her immediate family is employed in an admin-

istrative capacity for the same grantee or its subgrantees, contractors, or employing agencies. Where a State or local statute regarding nepotism exists which is more restrictive than this policy, the eligible applicant should follow the State or local statute in lieu of this policy.

(b) *Definitions.* (1) For purposes of this section, the term "member of the immediate family" includes: wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent, and stepchild.

(2) The term "staff position" includes all CETA staff positions funded under the Act, such as instructors, counselors, and other staff involved in administrative, training or services activities.

(3) The term "administrative capacity" includes: those persons who have overall administrative responsibility for a program, including: all elected and appointed officials who have any responsibility for the obtaining of and/or approval of any grant funded under the Act as well as other officials who have any influence or control over the administration of the program, such as the project director, deputy director and unit chiefs; and persons who have selection, hiring, placement or supervisory responsibilities for public service employment participants.

#### § 98.23 Special limitations on participant activities.

(a) (1) *Political activities.* (i) No program under this Act may involve political activities. (ii) Neither the program nor the funds provided therefor, nor the personnel employed in the administration of the program, shall be in any way or to any extent, engaged in the conduct of political activities in contravention of Chapter 15 of Title 5, United States Code (sec. 208(g) and 710).

(2) Participants employed by State and local government in the administration of the program and participants whose principal employment is in connection with an activity financed by other Federal grants or loans are covered by the Hatch Act (sec. 208(g) and 710).

(b) *Political patronage.* No program will be funded if the eligible applicant discriminates with respect to political affiliation. Specifically, no eligible applicant, subgrantee or employing agency may select, reject, or promote a participant based on that individual's political affiliation or beliefs. The selection or advancement of employees as a reward for political services or as a form of political patronage, whether or not the political service or patronage is partisan in nature, is discrimination based on political belief or affiliation, and is prohibited (sec. 208(f)).

(c) *Lobbying activities.* No funds made available under this Act may be used for lobbying activities as prohibited in 18 USCA 1913.

(d) *Sectarian activities.* No participant in any program under this part may be employed in the construction, operation, or maintenance of such part of any facility as is used or will be used for sectarian instruction or as a place of religious worship (sec. 208(h)).

#### § 98.24 General benefits and working conditions for program participants.

(a) Each participant in an on-the-job training, work experience or public service employment program under the Act shall be assured of workmen's compensation benefits at the same level and to the same extent as other employees of the employer who are covered by a State or industry workmen's compensation statute. Participants engaged in any CETA program activity, i.e., work experience, public service employment, on-the-job training, classroom training, services to participants and other activities, where others similarly engaged are not covered by an applicable workmen's compensation statute shall be provided workmen's compensation insurance or medical and accident insurance for injury or diseases resulting from such participation. The costs of such insurance shall be charged to the appropriate cost category as provided in § 98.12. Each participant in an on-the-job training, work experience, or public service employment program shall also be assured of health insurance, unemployment insurance and other benefits at the same levels and to the same extent as other employees in the employment situation, and to working conditions and promotional opportunities neither more nor less favorable than such other employees similarly employed (secs. 208(a) (4), 703(5) and 703(6)). Nothing in this section shall be interpreted to require coverage for health insurance, unemployment insurance and similar benefits for participants, such as work experience participants, where there is no employee of the employer performing the same or similar work in the employment situation. In determining whether the work is the same or similar to that of a person regularly employed, the prime sponsor will take into consideration, but shall not be limited to, employment status, type of work performed, job classification and method of appointment to the position.

(b) Every participant must be advised prior to entering upon employment of the name of his employer, and of his rights and benefits in connection with his employment (sec. 208(a) (8)).

(c) No participant will be required or permitted to work, be trained, or receive services in buildings or surroundings or under working conditions which are unsanitary, hazardous or dangerous to his health or safety. In the case of participants employed or trained for jobs inherently dangerous, e.g., fire or police jobs, participants will be assigned to work in accordance with reasonable safety practices. The provisions of section 2(a) (3) of Pub. L. 89-286 (relating to health and safety conditions) shall apply to such programs or activity (secs. 208(a) (5) and 703(5)).

#### § 98.25 Retirement programs.

(a) As the nature of programs under the Act involve temporary training and employment, participation in a retirement system is not generally encouraged. However, such participation is not prohibited on behalf of participants in on-the-job training in public or private non-profit agencies, work experience and public service employment where such payments are warranted. Such payments are warranted when any of the following conditions are met:

(1) Payments are for retirement benefits that are part of a consolidated package, including such benefits as health insurance and workmen's compensation, if separation of the benefits is not allowed;

(2) Payments are for participants who are immediately hired into positions normally covered by the employing agency's retirement system;

(3) Payments are for participants whom the employing agency or another employer intends to hire into permanent jobs at some future date, provided that:

(i) Payments on behalf of such participants are made into and retained in a reserve account, and not paid into the retirement fund until the participant has acquired regular employee status; and

(ii) If regular employment occurs with other than the employing agency, retirement fund payments may be allowed only if the participant is employed within the State, and the retirement benefits are portable; or

(4) Payments are for retirement benefits required by Federal, State, or local law, or for retirement plans set up by State or local law which will not permit the exclusion of participants from coverage.

(b) Expenditures may be made from program funds for payments under the Social Security Act.

#### § 98.26 Procedures for resolving issues between grantees and complainants.

(a) Each prime sponsor or eligible applicant shall establish a procedure for resolving any issue arising between it (including any subgrantee or subcontractor of the prime sponsor) and a participant under any Title of the Act. Such procedures shall include an opportunity for an informal hearing, and a prompt determination of any issue which has not been resolved. When the prime sponsor or eligible applicant proposes to take an adverse action against a participant, such procedures shall also include a written notice setting forth the grounds for any adverse action proposed to be taken by the prime sponsor or eligible applicant and giving the participant an opportunity to respond.

(b) Each prime sponsor or eligible applicant should establish informal review procedures such as informal hearings or some other process, to deal with issues arising between it and any aggrieved party.

(c) Final determinations made as a result of the review process shall be provided to the complainant in writing. Such

notice shall include the procedures by which the complainant may appeal the final determination, set forth in Subpart C of Part 98. No individual subject to the issue resolution requirements of this section may initiate the hearing procedures of Part 98 until all remedies under this section have been exhausted.

#### § 98.27 Grantee contracts and subgrants.

(a) Contracts may be entered into between a grantee and any party, public or private, for purposes set forth in a grant agreement except as indicated in paragraph (c) of this section. Procurement standards shall be those set forth in § 98.20.

(b) Subgrants may be entered into only between the grantee and units of State and local general government, public agencies and nonprofit organizations.

(c) Contracts or subgrants which propose to expend Federal funds for a public service employment program may be entered into only with other public agencies or with private nonprofit agencies, except for the provision of administrative services (e.g., auditing, payroll, staff training) which may be entered into with private profit-making organizations. These services shall not include direct public service employment program services such as the employment of participants.

(d) Grantee responsibility for development, approval and operation of contracts and subgrants. The grantee is responsible for development, approval and operation of all contracts and subgrants and shall require that its contractors and subgrantees adhere to the requirements of the Act, regulations promulgated under the Act, and other applicable law. It shall require contractors and subgrantees to maintain effective control and accountability over all funds, property and other assets covered by the contract or subgrant. The grantee shall assure that contractors and subgrantees shall maintain and make available for review by the grantee and the Department of Labor all records pertaining to the operations of programs under such contracts and subgrants, consistent with the maintenance and retention of records requirements of § 98.18 of these regulations (sec. 105(a)(1)(B) and 208(d)).

(e) Cancellation. If a contractor or subgrantee does not comply with any requirement of the Act, the regulations promulgated under the Act, and other applicable law the grantee shall, as appropriate, cancel the contract or subgrant in whole or in part. The grantee may cancel for noncompliance with additional conditions established by the grantee for the contract or subgrant.

(f) Continuity of service when contract or subgrant is cancelled. If a contract or subgrant is cancelled, in whole or in part, the grantee shall develop procedures for assuring continuity of service to participants and provide adequate notice to affected staff of the change (secs. 105(a)(1)(B) and 208(d)).

(g) Contracts and subgrants extending beyond the term of the grant. The nature of certain training programs may make it necessary for contracts or subgrants to be entered into by the grantee which will extend beyond the term of the grant under the Act. The grantee is authorized to enter into contracts or subgrants which extend past the termination date of the grant but such extension shall not exceed one year and shall be subject to the provisions of § 98.15 and § 98.16. In such cases, the grantee shall continue to be responsible for the administration of such contracts and subgrants.

#### § 98.28 Non-Federal status of participants.

Except where specifically provided to the contrary, participants in a program under the Act shall not be deemed Federal employees and shall not be subject to the provisions of law relating to Federal employment, including those relating to hours of work, rates of compensation, leave, unemployment compensation, and Federal employment benefits.

#### Subpart B—Assessment and Evaluation

##### § 98.30 General.

(a) This Subpart B sets forth the assessment and evaluation responsibilities of the grantee (§ 98.31) and the Secretary of Labor (§ 98.32). The grantee shall, as part of its general responsibility to carry out the purposes and provisions of the Act, establish adequate program management for the purposes of examining, in a systematic fashion, the performance of its program in meeting the goals and objectives contained in the plan and measuring the effectiveness and impact of its program in resolving manpower problems identified in that plan (secs. 105(a)(1)(B) and 703(14)).

(b) The Secretary shall assess grantees to determine whether they are carrying out the purposes and provisions of the Act in accordance with their approved plans. The Secretary shall also evaluate the overall programs and activities conducted under the Act to aid in the overall administration of the Act (secs. 311(c)(d) and 313(b)).

##### § 98.31 Responsibilities of the prime sponsor or eligible applicant.

(a) As prescribed under Subpart A of this Part 98, the grantee shall submit periodic reports on the performance of its program in relation to its plan as required by the Secretary (secs. 313(b) and 703(12)). The grantee shall implement and maintain the necessary recordkeeping required to complete these periodic reports. While such recordkeeping will support reports to the Secretary, it is principally for the use of the grantee to provide basic internal management information.

(b) The grantee is required to establish internal program management procedures (sec. 703(14)). Such procedures shall be used by the grantee in the monitoring of day-to-day operations, to periodically review the performance of the program in relation to program goals

and objectives, and to measure the effectiveness and impact of program results in terms of participants, program activities, and the community. The objective of such procedures shall be the improvement of overall program management and effectiveness.

(c) The grantee shall monitor all activities for which it has been provided funds under the Act to determine whether the assurances and certifications made in its plans and the purposes and provisions of the Act are being met, and to identify problems which may require the grantee to take corrective action in order to assure such compliance. The grantee shall fulfill this monitoring function through the use of internal evaluative procedures, the examination of program data, or through such special analysis or checking as it deems necessary and appropriate (secs. 105(a) and (b), 108(d), and 703).

(d) The grantee shall cooperate with the Secretary's evaluation and assessments by providing special reports on program activities and operations as requested; the findings of evaluations of effectiveness and impact; and access to its records and program operations.

(e) When the grantee finds that operations do not equal planned performance, it shall develop and implement appropriate corrective action.

##### § 98.32 Responsibilities of the Secretary.

(a) As used in this section, the term "assessment" refers to the Federal review of plans and performance of individual grantees, and the term "evaluation" refers to the Federal study of the overall effectiveness and impact of programs and activities under the Act.

(b) The Secretary has the responsibility to determine that the grantee is operating in general accordance with its approved plan in carrying out the purposes and provisions of the Act, and has demonstrated maximum efforts to implement the provisions in its prior year's plan.

(1) The Secretary shall assess the grantee's program and activities in order to determine compliance with assurances and certifications of its plan, compliance with the purposes and provisions of the Act, compliance with the regulations promulgated under the Act and performance in the achievement of goals and objectives specified in the approved plan (secs. 105, 108(d), and 703).

(2) Such assessment shall be conducted through the review of required periodic reports and shall be supplemented by special reports from the grantee, the examination of records maintained by the prime sponsor or eligible applicant, selective on-site reviews including in certain instances, reviews of contractors and subgrantees after prior consultation with the grantee, the investigation of allegations or complaints, or other examination as deemed necessary and appropriate by the Secretary (secs. 311(c)(d), 313(a)(b), 703(12), and 108).

(3) Assessment may also be conducted for purposes of the offering of technical

assistance and/or recommendations for corrective actions to grantees as considered necessary. Such assessments will be made in consultation with grantees.

(c) The Secretary has the responsibility to provide for the continuing evaluation of all programs and activities conducted pursuant to the Act. Such studies shall include examination of:

- (1) Cost in relation to effectiveness;
- (2) Impact on communities and participants;
- (3) Implication for related programs;
- (4) Extent to which needs of various age groups are met;
- (5) Adequacy of mechanisms for the delivery of services;
- (6) Comparative effectiveness of grantee programs with similar programs conducted by the Secretary under Section 110 or Title III;
- (7) Opinions of participants about the strengths and weaknesses of the programs;

(8) Relative and comparative effectiveness of programs under this Act and Part C of Title IV of the Social Security Act (Work Incentive Program for Welfare recipients) (sec. 313(a) and (b));

(9) The effectiveness of programs in meeting the employment needs of disadvantaged, unemployed, and underemployed persons; and

(10) The extent to which artificial barriers restricting employment and advancement opportunities in agencies receiving funds under the Act have been removed.

(d) The Secretary shall compile, on a State, regional and national basis, information obtained from periodic reports or special reports, surveys, or samples required from grantees, including information on:

(1) Enrollee characteristics, including age, sex, race, health, education level, and previous work and employment experience;

(2) Duration in training and employment situations, including information on the duration of program participation, for at least a year following the termination of participation in federally-assisted programs and comparable information on other employees or trainees or participating employers; and

(3) Total dollar cost per trainee, including breakdown between salary or allowance, training and supportive services, and administrative costs (sec. 313(b)).

(e) Evaluations carried out in accordance with paragraph (d) of this section may be conducted directly by Department of Labor staff or through contract, grant or other arrangement, as the Secretary deems necessary or appropriate (sec. 311(c)).

##### § 98.33 Limitation.

No prime sponsor or eligible applicant nor the Secretary shall, in arranging for evaluation of any program under the Act, utilize for such evaluation any non-governmental individual, institution, or organization which is associated with that program as a consultant, technical advisor or in any similar capacity (sec. 704(c)).

#### § 98.34 Consultation with the Secretary of Health, Education, and Welfare.

The Secretary shall consult with the Secretary of Health, Education, and Welfare with respect to arrangements for services of a health, education, or welfare character in plans under this Act. This consultation shall focus on the relationship of such services to be delivered under this Act with those being delivered under other applicable laws for which the Secretary of Health, Education, and Welfare is responsible. The ARDM will provide copies of Title I and II grant applications to the Regional Director of Health, Education, and Welfare for review and comment on proposed activities of a health, education, and welfare character as provided for in the Memorandum of Agreement signed June 3, 1974, and July 25, 1974, by the Secretary of Labor and the Secretary of Health, Education, and Welfare, respectively.

#### Subpart C—Hearings and Judicial Review

##### § 98.40 Purpose and policy.

(a) The regulations set forth in this Subpart C contain the procedures established by the Secretary for carrying out his responsibilities under the Act for the review of comprehensive manpower plans and applications for financial assistance, and for the receipt, investigation, hearing and determination of questions of non-compliance with the requirements of the Act and the regulations promulgated under the authority of the Act (sec. 108).

(b) It is the policy of the Secretary to receive information concerning alleged violations of any title of the Act and the regulations promulgated pursuant thereto from any person, or any unit of Federal, State or local government. Assistance in the filing of a formal allegation may be secured from the appropriate Regional Solicitor, by any person who desires and needs such assistance.

(c) A participant in a program under the Act must exhaust the administrative remedies established by the prime sponsor or eligible applicant for resolving matters in dispute prior to utilizing the procedures under this Subpart C. The filing of such a complaint shall not, however, automatically act as a stay of the decision rendered by the prime sponsor or eligible applicant. A participant may initiate an action under this subpart within 30 days of any final decision by a grantee.

##### § 98.41 Review of plans and applications; violations.

(a) The Secretary shall not finally disapprove any Comprehensive Manpower Plan or application for financial assistance submitted under any title of the Act, or any modifications, or amendments thereof, without first affording the grantee submitting the plan or application reasonable notice and opportunity for a hearing as provided in § 98.47 et seq.

(b) When information available to the Secretary indicates that a grantee may be:

(1) maintaining a pattern or practice of discrimination in violation of section 703(1) or section 712(a) of the Act or otherwise failing to serve equitably the economically disadvantaged, unemployed, or underemployed persons in the area it serves;

(2) incurring unreasonable administrative costs in the conduct of activities and program, as determined pursuant to regulation;

(3) failing to give due consideration to continued funding of programs of locally demonstrated effectiveness including those previously conducted under provisions of law repealed by Section 714 of the Act; or

(4) otherwise materially failing to carry out the purposes and provisions of the Act or regulations issued pursuant to the Act; he shall, before taking final action on such grounds, notify the grantee of his proposed action and provide the grantee a reasonable time within which to respond. All further proceedings shall be conducted as provided in §§ 98.46 and 98.47 et seq.

(c) Every other person claiming legal injury because of any action under the Act may be heard only by initiating a complaint under § 98.42.

##### § 98.42 Complaints; filing of formal allegations; dismissal.

(a) Every complaint by any complainant, whether in writing or not, shall be filed as a formal allegation before the commencement of any investigation or corrective action is required under this part.

(b) All formal allegations shall be filed with the appropriate ARDM. A formal allegation so filed may be withdrawn only with the consent of the Secretary.

(c) A formal allegation pending more than 6 months after filing because the complainant has failed to cooperate or make himself available during investigation of the matter may be dismissed by the ARDM upon notice to the last known address of the complainant.

##### § 98.43 Form.

Every formal allegation shall be in writing and signed by the complainant, and shall be sworn to before a Notary Public, or other duly authorized person. A formal allegation need not be in any particular form, but should be neat, legible and suitable for flat filing.

##### § 98.44 Contents of formal allegations; amendment.

(a) The formal allegation should contain the following:

(1) The full name and address of the person making the charge.

(2) The full name and address of the party against whom the formal allegation is made (hereinafter referred to as the respondent(s)).

(3) A clear and concise statement of the facts, including pertinent dates, constituting the alleged unlawful practice.

(4) Where known, the provisions of the Act, regulations, Comprehensive Manpower Plan, and application of the grantee believed to have been violated.

(5) A statement disclosing whether proceedings involving the act complained of have been commenced before a State or local authority, and, if so, the date of such commencement and the name of the authority.

(6) A statement that the administrative procedures established by the grantee have been, if applicable, followed to completion by the complainant.

(b) Notwithstanding the provisions of paragraph (a) of this section, a formal allegation will be considered to have been filed when the ARDM receives from the complainant a written statement sufficiently precise to both identify those against whom the allegations are made, and to fairly afford the respondent an opportunity to prepare a defense. A formal allegation may be amended to cure technical defects or omissions, including failure to swear to the allegation, or to clarify and amplify allegations made therein, and such amendments relate back to the original filing date. An amendment alleging additional acts not directly related to or growing out of the subject matter of the original formal allegation will be permitted only where at the date of the amendment the allegation could not have been timely filed as a separate formal allegation and the rights of any respondent will not be prejudiced.

#### § 98.45 Investigations.

(a) The ARDM will make a prompt investigation of each formal allegation filed as provided in this part. The investigation may include, where appropriate, a review of pertinent practices and policies of any grantee, the circumstances under which the possible non-compliance with the Act or regulations issued thereunder occurred, and other factors relevant to a determination as to whether the respondent has failed to comply with requirements of the Act, the regulations, and the Comprehensive Manpower Plan.

(1) If an investigation pursuant to paragraph (a) of this section indicates to the ARDM a failure to comply with the Act, the regulations, or the Comprehensive Manpower Plan, the ARDM will so inform the respondent and the complainant and the matter, will if possible, be resolved by informal means. If informal resolution does not occur within a reasonable period of time, action will be taken as provided in this part or as otherwise provided by law.

(2) If an investigation does not warrant action pursuant to subparagraph (a) (1) of this section, the ARDM will so inform the respondent and the complainant in writing.

(b) No grantee, participant, respondent or other persons shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by the Act, the regulations, the Comprehensive Manpower Plan, or the application of an eligible applicant because he has made a complaint, formal allegation, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of every complainant shall be kept con-

idential except to the extent necessary to carry out the purpose of this part, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

#### § 98.46 Opportunity for hearings; when required.

An opportunity for a public hearing shall be extended in each of the following instances:

(a) When the ARDM receives a formal allegation from an affected unit of general local government that a grantee has changed its Comprehensive Manpower Plan so that it no longer complies with Section 105 of the Act, or that in the administration of the plan there is a failure to comply substantially with any provision of the plan or with the requirements of Section 703 and 704 of the Act and the matter has not been resolved informally within a reasonable period of time; or

(b) After the completion of an investigation, pursuant to § 98.45, or any formal allegation which indicates there is substantial evidence of facts supporting a conclusion of probable cause that a violation of the Act, or regulations issued pursuant thereto, has occurred or is occurring, or is about to occur, and the matter has not been resolved by informal means; or

(c) When the Secretary has reasonable cause to believe that a violation set forth in § 98.41(b) has occurred, or when the Secretary determines that fairness and the effective operation of programs under the Act would be furthered by an opportunity for a public hearing, including a finding under § 98.41 that a hearing should be provided.

#### § 98.47 Hearings.

(a) *Opportunity for hearing.* Whenever an opportunity for a hearing is required by the Act, or § 98.46, and the issue has not been resolved informally, the Secretary or ARDM shall give reasonable notice by registered or certified mail, return receipt requested, to the affected respondent and complainant, if any. This notice shall advise the respondent of the allegations to be heard, the proposed remedial actions which may be taken, and the matters of act or law asserted as the basis for the action. The notice shall (1) fix a date not less than 20 days after the date of such notice within which the respondent may request the Secretary or ARDM that the matter be scheduled for hearing, or (2) advise the respondent and the complainant that the matter in question has been set by a Hearings Officer for hearing at a stated place and time. The time and place shall be fixed by a Hearings Officer in accordance with paragraph (b) and shall be subject to change for cause. A respondent may waive a hearing and submit written information and argument for the record. The failure of a respondent to request a hearing under this section or to appear at a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under the Act and this part, and shall be respondent's consent to the making of a decision on the basis of such information as is available.

(b) *Time and place of hearings.* Hearings shall be held in Washington, D.C., at a time fixed by a Hearings Officer. At the request of the respondent or Department, and upon a determination by the Hearings Officer that the relative conveniences of the respondent and Department so warrant, and no issue presented involved a determination which has been made at the Department's national office, the Hearings Officer may select a place for hearing in the city of the regional office of the Department.

(c) *Right to counsel.* In all proceedings under this section, the respondent and the Department shall have the right to be represented by counsel.

#### (d) Procedures, evidence, and record.

(1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with Section 5-8 of the Administrative Procedure Act, and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments and briefs, requests for findings, and other related matters. Both the Department and the respondent shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the Hearings Officer conducting the hearings at the outset of or during the hearing.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available, and to subject testimony to test by cross-examination, shall be applied where reasonably necessary by the Hearings Officer conducting the hearing. The Hearings Officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(3) The general provisions governing discovery as provided in the Rules of Civil Procedure for the United States District Court, Title V, 28 U.S.C., Rules 26 through 37, may be made applicable in any hearing conducted under this part to the extent that the Hearing Officer concludes that their use would promote the efficient advancement of the hearing.

(4) When a public officer is a respondent in a hearing in his official capacity and during its pendency dies, resigns, or otherwise ceases to hold office, the proceeding does not abate and his successor is automatically substituted as a party. Proceedings following the substitution shall be in the name of the substituted party, but any misnomer not affecting

the substantive rights of the parties shall be disregarded. An order of substitution may be entered at any time, but the omission to enter such an order shall not affect the substitution.

(e) *Consolidated or joint hearings.* In cases in which the same or related facts are asserted to constitute noncompliance with this part with respect to two or more programs to which this part applies or noncompliance with this part and the regulations of one or more other Federal departments or agencies, the Secretary may, by agreement with such other departments or agencies, where applicable, provide for the conduct of consolidated or joint hearings, and for the application to such hearings of rules of procedure not inconsistent with this part. Final decisions in such cases, insofar as this part is concerned, shall be made in accordance with § 98.48.

(f) *Hearing Officers.* Hearings shall be held before an Administrative Law Judge of the Department or by such other person as may be designated by the Secretary.

#### § 98.48 Initial certification, decisions, and notices.

(a) *Authority of hearing officer to render decision.* The Administrative Law Judge or other designated hearing officer is authorized to make an initial decision unless the Secretary otherwise limits this authority in a particular case.

(b) *Decisions and certifications by hearing officers.* The Administrative Law Judge, or other persons designated to hear the matter, shall make an initial decision, if so authorized (see § 98.47(f)), or certify the entire record including his recommended findings of fact, conclusions of laws, and proposed decision to the Secretary for a final decision, and a

copy of such initial decision of certification shall be mailed to the respondent and the complainant. When an initial decision is made the respondent may, within 30 days of mailing of such notice of initial decision, file with the Secretary his exceptions to the initial decision, with his reasons therefor. In the absence of exceptions, the Secretary may on his own motion within 45 days after the initial decision serve on the respondent a notice that he will review the decision. Upon the filing of such exceptions or of such notice of review, the Secretary shall review the initial decision and issue his own decision thereon including the reasons therefor. The decision of the Secretary shall be mailed promptly to the respondent and the complainant, if any. In the absence of either exceptions or a notice of review, the initial decision shall constitute the final decision of the Secretary.

(c) *Decisions on record or review by the Secretary.* Whenever a record is certified to the Secretary for decision or he reviews an initial decision pursuant to paragraph (a) of this section, the respondent shall be given reasonable opportunity to file with him briefs or other written statements of its contentions. A copy of the final decision of the Secretary shall be given in writing to the respondent and to the complainant, if any.

(d) *Decisions on record where a hearing is waived.* Whenever a hearing is waived under this part, a decision shall be made by the Secretary on the record and a copy of such decision shall be given in writing to the respondent, and to the complainant, if any.

(e) *Rulings required.* Each decision of an Administrative Law Judge or the Secretary shall set forth his ruling on each finding, conclusion, or exception

presented, and shall identify the requirement or requirements imposed by or pursuant to the Act or regulations issued thereunder with which it is found that the respondent has failed to comply.

(f) *Content of orders.* The final decision may provide for suspension or termination of, or refusal to grant or continue Federal financial assistance, in whole or in part, under the program involved in accordance with the Act, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and regulations issued thereunder, including provisions designed to assure that no Federal financial assistance will thereafter be extended under such program to the respondent determined by such decision to be in default in its performance of an assurance given by it pursuant to the Act or regulations issued thereunder, or to have otherwise failed to comply with the Act or regulations issued thereunder, unless and until it corrects its noncompliance, and satisfies the Secretary that it will fully comply with the Act and regulations issued thereunder.

#### § 98.49 Judicial review.

Action taken pursuant to section 108 of the Act is subject to judicial review as provided in section 109 of the Act. All other action initiated under the Act and regulations issued thereunder shall be final upon a determination by the Secretary.

Signed in Washington, D.C. this 19th day of May 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

DEPARTMENT OF LABOR  
Employment Standards Administration  
MINIMUM WAGES FOR FEDERAL AND  
FEDERALLY ASSISTED CONSTRUCTION  
General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

## DECISION NO. LA75-4100

## LABORERS - ZONE 7

GROUP 1 - Building laborers; rotary drill laborers; foundation drill crewmen  
GROUP 2 - Mason mixers; plaster mixers; mechanical tool operators; sandblaster;  
laying concrete pipe, clay pipe, plastic pipe, asbestos cement pipe, casing;  
pipe and corrugated metal pipe, as sewer pipe, drain pipe, and underground  
tile (cauliers, joint wrappers, hot pot and pipe layers); gas and oil pipe-  
line laborers, wrappers and dopers

## LABORERS - ZONE 3

GROUP 1 - Building and general laborers; tenders (carpenter, plaster, cement  
finisher, mason); tank and vessel cleaners  
GROUP 2 - Air tool operators (except jackhammer); interior of closed tanks  
and vessels; power equipment  
GROUP 3 - Mortar mixers and jackhammer operators  
GROUP 4 - Blaster  
GROUP 5 - Blaster helpers; concrete cutters behind paving machine and puddlers;  
form setters and lines asphalt worker  
GROUP 6 - Piping joints, laying pipe and tile from pumpcrete  
GROUP 7 - Interior of closed tanks and vessels manually

## LABORERS - ZONES 4 &amp; 5

GROUP 1 - Building and general laborers; carpenter tenders  
GROUP 2 - Power tool operators (hammer men, tamper, vibrators, power bugles,  
concrete chippers or cutters, chain saw operators, etc.); pipe layers (non-  
metallic)  
GROUP 3 - Mason tenders, plaster tenders, cement mix (wet or dry) tenders, hot  
carrier tender; mortar mixers & cement mixers (wet or dry)

## LABORERS - ZONE 6

GROUP 1 - Building laborers  
GROUP 2 - Laborers handling steel pans, stone masons helpers, mechanical tool  
operators, sawmen (bottom men, cauliers, tenders, joint vipers, hot pot,  
grade carriers, layers and ditchers 4 feet and over), sand blaster (nozzlemen  
and pot tender), laying non-metallic pipe over 4 feet deep, septic diggers  
and installers over 4 feet deep, gas and oil pipeline laborers and wrappers  
GROUP 3 - Gunite tool operators  
GROUP 4 - Bricklayers tenders and mason tenders  
GROUP 5 - Hot carriers using prime mover to serve a bricklayer; mortar mixers

## LABORERS - ZONE 7

GROUP 1 - Common laborers  
GROUP 2 - Jackhammer men, sawmen, mason tenders, plaster tenders, stone  
mason helpers, vibrators  
GROUP 3 - Mortar mixers

## LABORERS - ZONE 8

GROUP 1 - Common laborers; carpenter helpers; mason tenders (other than cement);  
plasterers' tenders; stone mason helpers; concrete workers; scaffold builders  
GROUP 2 - Air tool operators (jackhammer, vibrator, and tamper), sewer pipe  
joiners and setters; concrete cutters; hot carriers; creosote materials handler;  
acid worker; mason tenders (cement); mortar mixer (wet or dry); motorized  
buggy operator; water proofers (mastic); form setters (steel paving forms)  
GROUP 3 - Chain saw operator  
GROUP 4 - Asphalt raker, tamper, smoother and shovelers; sewer pipe layers;  
blaster helpers  
GROUP 5 - Powdermen

## DECISION NO. LA75-4100

## LABORERS - ZONE 9

GROUP 1 - Building laborers  
GROUP 2 - Mason tenders, plasterer tenders; Asphalt rollers, asphalt smoothers  
GROUP 3 - Mortar mixers  
GROUP 4 - Air jack operators, vibrator operators; Sewer pipe layers, sewer  
pipe vipers

## LABORERS - ZONE 10

GROUP 1 - Laborers, tenders (brick-masons, stone-masons, cement masons, carpenter,  
plasterers); Stripping & dismantling; concrete form work; loading, unloading,  
carrying & handling steel & steel mesh; assisting to the setting of cut stone,  
granite or artificial stone; building scaffolds; shoring  
GROUP 2 - Mechanical tool operator (air, electric, motor, engine, etc.); Sewer  
pipe layers; mortar mixers (hand or machine); gunite operator  
GROUP 3 - Pipe dopers & burners

## AREA COVERED BY LABORERS (BUILDING CONSTRUCTION) ZONES

ZONE 1 - St. Tammany (as far south as Bayou LaCambre and east to the Mississippi  
State Line at Pearl River), Tangipahoa (except that portion south of a line  
running due east from the western boundary of Tangipahoa Parish which follows  
the northern city limits of Independence, Louisiana to 20 miles east of U.S.  
Highway 651, then running south paralleling Highway 651 at a 70 mile distance  
to Lake Pontchartrain) & Washington Parish

ZONE 2 - Acadia, Iberia, Lafayette, St. Landry, St. Martin, St. Mary & Ver-  
million Parishes

ZONE 3 - Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis & Vernon Parishes  
ZONE 4 - All of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe  
Coupee, West Baton Rouge & West Feliciana Parishes; Parts of Assumption, St.  
James, St. John the Baptist Parishes (north of a line drawn from the southern  
limits of the town of St. James in St. James Parish to the northern limits of  
the town of Napoleonville, in Assumption Parish & then directly west to the  
Parish line, all of St. James Parish except that part which is east of a line  
drawn from Lusher, Louisiana to U.S. Highway 61 (Airline Highway) then west  
on U.S. 61 to Blind River and on a direct line to Manchac, Louisiana)

ZONE 5 - Livingston, St. Helena & Tangipahoa (south & west of a line running  
from the western parish line to a point directly east which touches the  
northern limits of the town of Independence, then directly south to Lake  
Pontchartrain) Parishes

ZONE 6 - Jefferson (except Grand Isle), Orleans, Plaquemine, St. Bernard, St.  
Charles, St. John the Baptist (on the west bank of the Mississippi River and  
the portion of St. John the Baptist on the east bank of the Mississippi River  
as far as the Steamboat Inn Lusher and north to Blind River and Manchac) &  
St. Tammany (north as far as Bayou LaCambre, east to the Mississippi State  
Line at Pearl River) Parishes

POWER EQUIPMENT OPERATORS - ZONES 1, 2, 3 & 4

GROUP 1 - Oiler

GROUP 2 - Mechanic helper

GROUP 3 - Oiler-driver

GROUP 4 - Scalman

GROUP 5 - Air compressor; Asphalt Plant Operator; Bulldozers, D-4 and equivalent & under; Bullfloats; Concrete Spreaders; Distributors (Bitum Surface); Concrete Mixer (16-s or less); Concrete Saw; Distributors (Bitum Surface); Hoist, 1 drum, 4 stories or more; Farm-Type Tractor (with all attachments except backhoe); Fireman; Fork Lifts (other than settling steel, machinery or pipe); Hoist, 1 drum or less than 4 stories); Knam Buff Machine; Mill Gats; Pump (3" and over); Pump, concrete (under 6"); Rollers, except on asphalt or brick; Straddle Puppies; Sweepers on streets & roads (motorized); Winch Truck, A-Frame (other than handling steel or pipe)

GROUP 6 - Asphalt Spreader; Backhoe; Bulldozer, over D-4 and equivalent; Cableways; Concrete Mixer, over 16-s; Grapes; Derricks; Ditching or Trenching Machines; Hoisting; Fork Lifts (settling steel, machinery or pipe); Front-End Loaders (except Farm-type tractors); Grapes Servicer; Hoist, 1 drum, 4 stories or more or 40 feet (on structures other than buildings); Hoist, 2 drums and over; Hydraulic; Heavy Duty Mechanic; Motor Patrols; Pile-drivers; Pump, concrete (6" & over); Road Pavers; Rollers on asphalt or brick; Scaffolding; Scrapers; Side-boom Gats; Shovels; Tractor-trailers; Welder, journeyman; Well Point System; Winch Gats (hoisting); Winch Truck, A-frame (handling steel or pipe)

NOTICES

DECISION NO. LA75-4100

POWER EQUIPMENT OPERATORS - ZONE 5

GROUP 1 - Scale operator; Oiler-driver on Motor Crane; Batch Plant Operator

GROUP 2 - Pumps under 3 inch suction; Mechanic Helper

GROUP 3 - Oiler

GROUP 4 - Fireman

GROUP 5 - Combination Oiler-Compressor; Combination Oiler-Fireman; Asphalt Spreader; Backhoe (all types); Bulldozers; Cableways; Cherry Pickers (all types); Concrete Mixers (over 1 sack); Cranes; Jack-Down (2 drums or over); Front End Loaders (except farm type); Grapes Servicer; Hoist (1 drum, 4 stories, or 40 feet) on construction other than buildings; Hoist (2 drums or over); Locomotives (all types); Mechanic; Mixer Plant Operator; Motor Patrols; Pile-drivers; Pull Gats; Pump Crane, 6" and over discharge; Push Gats; Road Pavers; Derricks; Ditching or Trenching Machine (riding type); Draglines; Dredges; Fork Lifts (other than farm type) outside warehouses; Foundation Drill; Rollers (plant mix asphalt); Scrapers; Shovels; Sidebooms; Unit Operator; Welder, journeyman; Well Point System; Winches; Winch Gats (Cat D-4 and over); Winch Trucks with A-frame (5 tons and over); Winch Trucks, requiring licensed operator

GROUP 6 - Push Hog; Compressors; Concrete Pumps, under 6" discharge; Concrete Saw; Kolon Buff Machines; Mixers (1 sack and over); Motorized street sweepers self-propelled; Pumps (3 inch and over); Duck Winch (1 drum); Distributors; Dovel Bar Machines; Farm-type tractors (when used to pull disc, grass cutters, etc.); Test Pump; Internal combustion engine powered; Ditching or Trenching Machines (non-riding type); Water Blast Pumps; Hoist, 1 drum under 4 stories on buildings); Hoist, 1 drum (40 feet or under on structures other than buildings)

GROUP 7 - Asphalt Plant Operator; Boom Trucks; Bullfloats; Concrete Spreaders; Farm Type Front End Loaders; Rollers (other than plant mix asphalt); Straddle Puppies; Winch Truck with A-Frame (under 5 tons); Winch Boat, not requiring licensed operator; Finishing Machine

POWER EQUIPMENT OPERATORS - ZONE 6

GROUP 1 - Snatch Cat; Pump, 3 inch suction or more

GROUP 2 - Pumps, under 3 inch suction; Mechanic Helper

GROUP 3 - Oiler

GROUP 4 - Patch Plant Operator

GROUP 5 - Air Compressor; Asphalt Plant Operator; Blade Grader; Distributor (Bitum Surface); Finishing Machine (Concrete, Paving); Hoist, 1 drum, less than 4 stories; Concrete Mixer under 16s; Oiler Driver; Pump Crane; Street and Road Sweeper; Roller (except on asphalt or brick); Roller, asphalt or brick (under 5 tons); Post-Hole Digger; Tractor operated Bush Hog and similar grass or brush cutting equipment

GROUP 6 - A-Frame Truck; Bulldozer, under 6; Grap Boat Operator; Fork Lift; Straddle Puppies; Tractor-trailers; Sweepers and similar front-end loading equipment with scoopable or bucket under one (1) cubic yard capacity; Locomotive; Well Point System; Unit Operator; Hoist, 1 drum, 4 stories or over

GROUP 7 - Backhoe; Cableway; Concrete Mixer, 16s & up; Crane; Derrick; Dragline; Dredge; Equipment Maintenance Mechanic; Hoist, 2 drums Locomotive Crane; Paving Mixer; Pile-driver; Road Paver; Roller on Asphalt or Brick (5 tons & over); Shovel; Sideboom Gats; Bulldozer, 6 and over; Motor Patrol; Scraper; Hydrolift Crane; Hydrant Lift Truck; Tard Crane; Cherry Picker, etc.; Foundation Boring and Reaming Machine; Cement Stabilizer; Trenching Machine; Asphalt Spreader; Tractor and similar front-end loading equipment with scoop or bucket of one (1) cubic yard or more capacity; Top Boat Operator; Turnapull; Euclid, DU-10 and other similar self-loading earth moving equipment; Concrete Pump (not Pump Crane)

## CLASSIFICATION DEFINITIONS

**TRUCK DRIVERS - ZONE 1**  
 GROUP 1 - Teamsters, Pick-up drivers & chauffeurs  
 GROUP 2 - Stake bodies (all sizes)  
 GROUP 3 - Trucks trailer & dumps over 8 yds.  
 GROUP 4 - Mixers on trucks up to and including 3 yds.  
 GROUP 5 - Mixers on trucks over 3 yds.  
 GROUP 6 - Winch trucks  
 GROUP 7 - Mississippi wagons & Koehring dumpsters & similar dirt moving equipment (up to and including 8 yds.)  
 GROUP 8 - Trucks - dump  
 GROUP 9 - Mississippi wagons & Koehring dumpsters & similar moving equipment over 8 yds.

**TRUCK DRIVERS - ZONE 2**  
 GROUP 1 - Teamster, Pick-up drivers  
 GROUP 2 - Stake bodies (all sizes)  
 GROUP 3 - Truck & trailer; Dump  
 GROUP 4 - Mixers on trucks, up to and including 3 yds.  
 GROUP 5 - Mixers over 3 yds.  
 GROUP 6 - Winch trucks  
 GROUP 7 - Mississippi wagons & Koehring dumpsters, tandem and similar dirt moving equipment, up to and including 8 yds.  
 GROUP 8 - Mississippi wagons, Koehring dumpsters, tandem and similar dirt moving equipment, over 8 yds.

**TRUCK DRIVERS - ZONE 3**  
 GROUP 1 - Pick-up drivers, spotters & dumpers of dirt, gravel, asphalt & rock; Truck helpers  
 GROUP 2 - Stake bodies; flat beds (all sizes)  
 GROUP 3 - Simple axle dumps & water trucks; transit mix, up to & including 3 yds.  
 GROUP 4 - Tandem axle dump, batch and water trucks over 3 tons, pickups with trailer  
 GROUP 5 - Mississippi wagons; floats; tractor trailers; rubber tired tractors and wobble wheels  
 GROUP 6 - Euclids, low-boys, Dempsey dumpsters, Koehring-dumps, five axle trucks, transit mix over three (3) yards, fuel truck  
 GROUP 7 - Fork lift

LABORERS (Cont'd)

Flathead and that area of Sanders County lying 5 miles north of the 5th Parallel

Group 1: General laborers; scaleman; form strippers; car and truck loaders

Group 2: Concrete handlers, conveying and handling concrete; Nozzlemen (air or water); Sand blast tail hose man; Powderman helper; Power Driven wheelbarrow; Rodder and Spreader; Form setters (paving); Buckman; Small air tool operators, including blow pipes and small power tool operators; Chuck tenders; Asphalt rakers; Dumpmen; Rip rapping; Pipe wrapper; Pot tender; Concrete pumper hosenan; Jackhammer; Pavement breaker; Vibrator; mechanical tamper and other air tools; Cement handlers (sack or bulk); Burning bar

Group 3: Pipe layers (non-metallic); Metal culvert pipe layers; Mason and Plaster tenders; Cement finisher tender; Small concrete mixer operator; Shoring and lagging open ditches; Powderman; Drills, Air-Trac, wagon drill, cat or truck mounted air operated drills, Sand Blaster (wet or dry); gunite nozzleman; barco tamper

Hill and Valley Counties

Group 1: General and Building Laborers' and Scale Men; Form Stripper and Carpenter Tender; Car and Truck Loaders; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpmen (Spotter and Flagman); Small Power Tools, Chippers, Clay Spaders, Pogo Stick, etc.; Fence Erectors and installers, installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers

Group 2: Dumpmen (Grade)

Group 3: Power Driven Concrete Buggies or Power Driven Wheelbarrows; Pipe Layers (non-metallic); Sandblaster, Concrete Nozzlemen, Place Operator, Jackhammer, Pavement Breaker, Vibrator (2-1/2 inches and over) Barco Tamper, Vibrator Turtle; Small Concrete Mixers, Concrete Saw; Nozzlemen (air and water); Sandblaster, Tailhoeman, Pot Tender, Tar Pot Tender; Gunite Nozzlemen; Caisson Workers (Free Air); Tunnels and Shafts (Free Air); Pull Gang, Pot Tender; Chuck Tender, Muckers and Nippers, Primerhouseman

Group 4: Brick Tenders (handling bricks and blocks only)

Group 5: Hod Carriers and Plaster Tenders (men carrying motor either by hod pole or barrow); High Scaler, Wagon Driller, Cat or Truck mounted Air Operated Drills; Asphalt Rakers and Tampers, Gunite, Form Setter (slab steel forms); Stake Setter, Stake Jumper, Rodder and Spreader, Gradenan; Concrete Nozzlemen; Miners

Group 6: Powdermen; Lazer Tools and Equipment

MISSOULA AND SANDERS (SOUTHERN AREA) COUNTIES

Group 1: Laborers

Group 2: All power tools, creosote workers; Jackhammer; Marble and tile setters' tenders; Pipelayers; Pipetrappers; Pot tenders; Small concrete mixers; Vibrators

Group 3: Cement masons and plasterers' tenders; Mason tenders; Pumpcrete, gunite and plaster pump

Cascade and Glacier Counties

Group 1: General and Building Laborers' and Scale Men; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpmen (spotter) and Flagman; Fence Erectors and installers, including the installation and erection of fences, guardrails, medium rails, reference posts, guide posts and right-of-way markers; Vibrators, under 1-1/2" in diameter; Small Air Tools such as Chippers, Clay Spades, etc.; Stake Setters; Stake Jumper, Rodder and Spreader, Form Stripper; Caisson Work-ers (Free Air); Vibrator 1-1/2" to 2-1/2" in diameter

Group 2: Concrete or Asphalt Saws; Creosote Material Handler; Curb Machine Form Setter (Slab Steel Forms); Diamond Drills up through 3 inches in diameter; Jackhammer, Pavement Breaker, Wagon Driller, Cat or Truck Mounted Air Operated Drills, and other Air Tools; Diesel Tamper, Wacker, Jay, Turtle, Pogo Sticks, etc.; Mechanical Tampers; Nozzlemen, Air and Water, Gunite and Placo, Machine (Grout); Pipe Layer (all types); Power Saw (bucking and falling); Power Driven Wheelbarrow; Chuck Tenders, Muckers and Nippers, Primerman

Group 3: Sand Blaster

Group 4: Vibrators, 2-1/2" to 4" in diameter; Brick Tenders; Dumpmen (Grade); Small Concrete Mixers

Group 5: Diamond Drills up through 6 inches in diameter; Hod Carriers and Plaster Tenders (1 - one mixerman per crew); Asphalt Raker and Tamper; High Scaler; Powderman Helper; Concrete Nozzlemen; Miners; Barco Tamper; Air-Trac

Group 6: Diamond Drill, over 6 inches in diameter; Self-Propelled Drills, with the exception of size differential, such as Mustang Drills or Twin Sack Drills; Core Drill Operator; Lazer Equipment and Tools, excluding Transit; Powderman

Group 7: Concrete Vibrator, 4" and over

DECISION NO. ND75-5058

LABORERS

Site Preparation Excavation and Incidental Paving (except Walsh County)

Group 1: General Construction Laborer (Chip Spreader Leveller, Fine Grader, Form Grader, Landscape Worker, Pump Operator (pneumatic), Tunnel Worker, Sign Erector); Reinforced Steel Setter; Sack Shaker (cement and mineral filler); Pipe Handler; Drill Runner Helper; Salamander Heater and Blower Tender

Group 2: Semi-skilled Laborer (Joint Filler Machine Operator, Chip Spreader Operator); Bulk Cement Handler; Conduit Layer, telephone or electrical; Form Setter (pavement); Gas, Electric or Pneumatic Tool Operator (Chipping Hammer, Grinders and Paving Breakers, Tamping Machine, Concrete Vibrator Operator); Chain Saw Operator; Concrete Curing Man (not water); Bituminous Worker (Shovel, Dumper, Raker and Floater); Kettleman (bituminous or lead); Concrete Bucket Signalman; Power Buggy Operator; Brick and Mason Tender; Multiplate Pipe Layer; Culvert Pipe Layer

Group 3: Calson Work; Bottom Man, (sanitary sewer, storm sewer, water, and gas lines); Concrete Mixer Operator (one bag capacity); Mortar Mixer

Group 4: Pipe Layers (sanitary sewer, storm sewer, water, and gas lines); Drill Runner (including Wagon Churn or Air Track); Powderman, Gunite and Sandblast, Nozzleman

POWER EQUIPMENT OPERATORS

Site Preparation Excavation and Incidental Paving (except Walsh County)

Group 1: Cableway Operator; Crane Operator with over 135' boom; Derrick (Guy and Stiff Leg), (power), (skids and stationary); Front End Loader over 10 cu. yds.; Gantry Crane Operator; Mole Operator, including power supply or tunnel mucking machine; Power Shovel and/or other equipment with shovel type controls 3 1/2 cu. yds.

Group 2: Concrete Mixer Stationary Plant Operator over 345; Dredge Operator or Engineer, Dredge Operator (power) and Engineer; Elevator Grader Operator; Locomotive, Crane Operator; Master Mechanic; Mixer (paving) Concrete Paving Operator, road; Power Shovel and/or other equipment with shovels and/or other equipment with shovel type controls up to 3 1/2 cu. yds.; Scraper Tandem; Tandem Pusher Quad 9 or similar; Tractor Operator (pipeline); Side Boom; Truck Crane Operator; Hydrocrane Operator, 15 ton and over

POWER EQUIPMENT OPERATORS (Cont'd)

Group 8: Crawler type tractor pulling compaction or aereating equipment; Farm type rubber tired tractor with backhoe attachment; Self-propelled vibrating packer operator pad type (35 hp and over); Off road self-propelled watering equipment; Room truck operator; Roller, steel and self-propelled rubber, on other than hot mix

Group 9: Bituminous spreader and bituminous finishing machine operator (helper) (power); Concrete batch operator (cement, rock and sand) (manual); Form trench digger (power); Front end loader operator up to 1 cu. yd.; Hyster carrier or forklift; Leverman; Mechanics' helpers or greaser helper; Oiler (power shovel, crane, dragline); Pugmill operator; Pump operator (well points); Self-propelled broom

Group 10: Conveyor operator; Curb machine operator (manual); Dredge deck hand; Farm tractors, rubber tired for compacting and aereating; Front end loader operator (farm type rubber tired tractor); Stump chipper operator; Tile tamper and ballast machine operator

NOTICES

DECISION NO. ND75-5058

POWER EQUIPMENT OPERATORS (Cont'd)

Site Preparation Excavation and Incidental Paving (except Walsh County)

Group 3: Dope machine operator (pipeline); Drill rigs, heavy duty rotary or churn or cable drill; Front end loader operator, 6 cu. yds. and over; Locomotive, all types; Pipeline wrapping, cleaning and bending machine operator; Power actuated horizontal boring machine over 6" operator (pipeline); Pumpcrete operator; Refrigeration plant engineer; Slip form operator (power driven) (paving); Tandem scraper - twin engine, 50 cu. yds. struck and over

Group 4: Asphalt paving machine operator; Asphalt plant operator and console board operator; CMI grading operator; Crushing plant operator (gravel and stone or gravel washing crushing and screening plant operator); Front end loader operator, 1 cu. yd. up to 6 cu. yds.; Grader or motor patrol, finishing earth work and bituminous; Mechanic or welder (heavy duty); Rubber tired industrial tractor with backhoe attachment (water main sanitary sewer and storm sewer, truck line construction); Scraper operator; Tractor type dozer D-6 and over; Trenching machine operator, sewer and water, (except ditch witch or similar use oiler rates); Turnapull operator, (or similar type)

Group 5: Bituminous spreader and bituminous finishing operator (power); Concrete distributor and spreader operator, finishing machine longitudinal float operator, ft. machine operator and spray operator; Concrete mixer operator on job site 16S or over; Paving breaker or tamping machine operator, including machine with power shovel attachments (power driven); Power actuated augers and boring machine operator; Power actuated jacks operator; Power plant engineer, 100 K.W.H. and over; Push tractor; Self-propelled traveling soil stabilizer; Soil cement stabilizer; Truck mechanic

Group 6: Concrete saw operator (multiple blade) (power operated); Fine grade operator; Roller, steel and self-propelled rubber, on hot mix; Asphalt paving; Tractor type dozer under D-6 H.P.; Distributor operator

Group 7: Brakeman or switchman; Concrete batch plant operator (cement, rock and sand) electronic; Concrete mixer operator on job site under 16S; Crane truck oiler; Grader operator (motor patrol) (haul road); Gravel screening plant operator (portable not crushing or washing); Greaser (truck or tractor); Gumite operator (small); Hoist engineer (power); Launchman (tankerman or pilot license); Pick-up sweeper, 1 yd. and over hopper capacity; Shouldering machine operator (power apco or similar type) including self-propelled sand chip spreader; Flaherty or similar; Sheepfoot roller or compactor (self-propelled)

FEDERAL REGISTER, VOL. 40, NO. 101—FRIDAY, MAY 23, 1975

DECISION NO ND75-5058

LINE CONSTRUCTION

Group 1: Cable splicer; Lineman; Tractor dozer operator (D-4 and larger) all rigs erecting steel tower and "H" fixtures, also tension-pulling machines

Group 2: Groundman - operating special equipment hole digging machines; Aerial baskets on energized circuits; Tractors (D-4) and larger; Transmission line pole hauling; All fifth wheel trucks and other setting and assembly equipment excluding steel tower and "H" fixture erection

Group 3: Groundman - truck or tractor driver (with winch); Operators of trucks up to and including 2 1/2 tons; Tractor including D-2 and smaller; Including wheel tractors and crawler tractors

Group 4: Groundman - truck or tractor driver (without winch); Operators of trucks up to and including 2 1/2 tons; D-2 and smaller; Including wheel tractors and crawler tractors; Groundmen

## PA75-3053

## PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

## FOOTNOTES:

- 8 paid holidays, A through F and Washington's Birthday, Good Friday and Christmas Eve, provided the employee has worked 45 full days for the employer during the 120 days prior to the holiday and is available for work the days preceding and following the holiday.
- Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.
- Six paid holidays: A through F.
- \$45.03 per month for employees who have worked sixty hours or more during the month.
- \$29.33 per month for employees who have worked sixty or more hours during the month.
- Paid holidays: Election Day and Labor Day.

## POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS

GROUP 1 - Fireman, Oiler; Mechanic, Grease Truck and Welder's Helpers; Screenshot, Pneumatic roller towed by farm-type tractor or truck; Scale Operator and such as bin-batch; Rubber-tired farm-type tractors and tractors under 35 HP without attachments.

GROUP 2 - Air Compressors, Power Plants, pumps and welding machines (an operating engine will not be required for an air compressor under 315 c.f.m., a pump under three inches or a light plant generating fifteen kilowatts or less, or one welding machine if and when there is another operating engine employed on the job who services the unit); Concrete mixers, under 1 yard and concrete batch plants, under 1 yard, gunite and puccrete machines, mechanical bull floats, spreading and finishing machines; Screening Plants; Drilling machines, Diamond, rotary, core and cable drilling; Well under 6 inches. Hoists, scoop-mobles, A frame Air Cugget; building hoist, 1 drum, hydrolift, hydrocranes, winch truck. Loaders; Elevating, belt type loader, front end loader (under 2 yds) and over head loaders; Forklift and lumber staker on construction job site. Grease truck operator, (Lead Oiler). Motor man and Industrial Locomotive. Tractors under 35 HP with attachments; and farm type tractor with back, or shovel type attachments.

PART IV

FEDERAL ENERGY  
ADMINISTRATIONNATIONAL UTILITY  
RESIDUAL FUEL OIL  
ALLOCATION

Supplier Percentages for June 1975

V 40-101 MAY 23 75

XUM

**FEDERAL ENERGY  
ADMINISTRATION  
NATIONAL UTILITY RESIDUAL FUEL OIL  
ALLOCATION**

**Supplier Percentage Notice for June 1975**

Pursuant to the provisions of 10 CFR 211.163(b) (2), 211.165 and 211.166(d) (2), the Federal Energy Administration (FEA) hereby provides notice of the volumes of residual fuel oil allocated to each utility and the percentage of such volumes required to be supplied by each supplier for delivery in June 1975. This information is set forth in the Appendix to this notice. Adjustments of certain supplier base period percentages have been made at the request of affected utilities and suppliers, pursuant to the criteria of 10 CFR 205.25 and are reflected in the Appendix.

The utility allocations were determined after review of the relative availability of supplies of residual fuel oil for allocation to both utility and non-utility uses. In calculating the allocation level for each utility the FEA considered all of the factors enumerated in 10 CFR 211.163(b) (2) and also the following other factors:

1. The data contained in the Federal Power Commission (FPC) Forms 23 and 23A submitted by utilities;

**NOTICES**

2. Natural gas curtailments;  
3. FEA's prediction that the supply level of residual fuel oil is expected to generally equate to the total demand.

The amounts shown in the Appendix are the quantities of residual fuel oil to be delivered to the utilities listed during the month of June 1975. Some utilities will not receive any allocation for this month for various reasons including the fact that these utilities burn other fuels primarily and use residual fuel oil only for standby purposes.

The Appendix provides the names of the suppliers obligated to supply each utility and each supplier's percentage and volume of each month's allocation to a utility. The first column of the Appendix lists each utility with its suppliers. The second column sets forth the recommended FEA burn level. The third and fourth columns provide each supplier's respective percentage and volume share of a utility's allocated volume of residual fuel oil. The fifth column provides the total volume of residual fuel oil for each utility from all suppliers. Following the name of certain suppliers, an additional supplier is shown in parentheses. The supplier in parentheses is presumed, on the basis of the best information available, to be the supplier of the utility's supplier. This information

is provided for the convenience of such suppliers and the FEA requests that any additions or corrections in this regard be forwarded to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

It is contemplated that corrections or adjustments to delivery levels for certain utilities may be required during the month of June to avoid undue hardship. FEA will consider special circumstances such as unexpected outages which may cause fuel consumption to exceed FEA burn levels in any month. Such corrections or adjustments shall be made pursuant to subparts B and C of 10 CFR Part 205.

FEA expects the utilities to consume supplies at or below FEA burn levels, which are based on the utilities' proposed burn levels.

The utility residual fuel oil allocation program is based in part on the data derived from utilities' filings of FPC Forms 23 and 23A. Thus, the timely submission of these forms will be a necessary prerequisite to receiving future allocations.

Reports should be addressed to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

Issued in Washington, D.C., May 16, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel.

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The **FEDERAL REGISTER** will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **FEDERAL REGISTER**.

FEDERAL REGISTER, VOL. 40, NO. 102—TUESDAY, MAY 27, 1975

rates for piece work..... 22830

# list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 7—Agriculture

#### CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. No. 67]

#### PART 401—FEDERAL CROP INSURANCE

##### Subpart—Regulations for the 1969 and Succeeding Crop Years

##### SUGAR BEETS, CALIF.

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, § 401.149 of the Federal Crop Insurance Corporation Regulations contained in 7 CFR, Part 401, is revised effective beginning with the 1976 Crop Year to read as follows:

##### § 401.149 The Sugar Beet Endorsement (Applicable only in California) for the 1976 and Succeeding Crop Years.

The provisions of the Sugar Beet Endorsement (Applicable only in California) for the 1976 and Succeeding Crop Years are as follows:

1. *Insured crop.* The crop insured shall be sugar beets grown under a contract with a processor for processing as sugar. Item (1) of the second sentence of subsection 2(c) of the policy shall not be applicable to sugar beets.

Insurance shall not attach or be considered to have attached to any acreage (1) excluded from the processor contract for, or during, the crop year, and (2) unless otherwise provided on the county actuarial table, planted to sugar beets the two preceding crop years.

2. *Production guarantees.* The applicable production guarantees in tons per acre shall be those shown on the county actuarial table (hereinafter called "actuarial table") and are progressive as follows:

(1) *The First Stage*—from planting until thinning or 90 days after planting, whichever occurs first, and to any acreage that the Corporation determines was damaged in this stage to the extent that growers in the area usually would not further care for the crop.

(2) *The Second Stage*—from thinning or the 91st day after planting, whichever occurs first, until 15 percent of the per acre production guarantee for the third stage has been harvested.

(3) *The Third Stage*—after 15 percent of the per acre production guarantee for this stage has been harvested.

The stage of production applicable in any case shall not be determined to be the same for an entire insurance unit unless the entire unit meets the requirements for the same stage. When the entire unit does not meet the requirements for the same stage, the stages of production shall be determined for the various portions of the unit.

3. *Acreage insured.* Notwithstanding the provisions of section 2 of the policy, upon acceptance by the Corporation of an application for sugar beet insurance the acreage insured shall be (a) all insurable acreage planted after the filing of the application and (b) any acreage planted before the fil-

ing of the application, or reinstatement request, that is inspected by the Corporation after a normal stand has been obtained and designated in writing as approved by the Corporation for insurance for the crop year.

4. *Insurance period.* Insurance on any insured acreage shall attach or be considered to have attached at the time the sugar beets are planted and shall cease upon the earlier of (a) harvesting or (b) July 15 for Imperial County or the last day of the 12th calendar month after planting of the acreage for all other counties, unless a written request from the insured for an extension of the insurance period is received prior to such date and is approved by the Corporation.

5. *Claims for loss.* (a) Any claim for loss on an insurance unit (hereinafter called "unit") must be submitted to the Corporation on a form prescribed by the Corporation, no later than 60 days after the applicable calendar date for the end of the insurance period (see section 4 above). The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

(b) It is the responsibility of the insured to provide complete information of all production from the unit, to establish that the loss claimed was caused during the insurance period by one or more of the hazards insured against, and to furnish such other information about the loss as may be required by the Corporation.

(c) Losses shall be determined separately for each unit. The amount of loss with respect to any unit shall be determined by (1) multiplying the insured acreage of sugar beets on the unit by the applicable production guarantee per acre; which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, and (4) multiplying the result obtained in (3) by the insured interest: *Provided*, That if for the unit the insured fails to report all of his interest or insurable acreage, the amount of loss shall be determined with respect to all of his interest and insurable acreage, but in such cases or otherwise, if the premium computed on the basis of the insurable acreage and interest exceeds the premium on the reported acreage and interest, or the acreage and interest when determined by the Corporation under section 3 of the policy, the amount of loss shall be reduced proportionately.

The total production to be counted for a unit shall be determined by the Corporation and, subject to provisions hereinafter, shall include all harvested production and any appraisals made by the Corporation for unharvested or potential production, poor farming practices, uninsured causes of loss, or for acreage abandoned or put to another use without the consent of the Corporation: *Provided*, That for unharvested acreage or acreage not qualifying for the third stage production guarantee only the amount of appraised and harvested production in excess of the difference between the third stage production guarantee and the production

guarantee applicable to such acreage shall be counted except that for acreage abandoned, put to another use without prior written consent of the Corporation, or damaged solely by an uninsured cause, not less than the applicable production guarantee shall be counted.

(d) Any harvested production of sugar beets shall be adjusted by the factor (rounded to three decimal places) obtained by dividing the average percentage of sugar in the sugar beets, as determined from individual tests made at the time of delivery to the processor, by the percentage of sugar shown on the actuarial table: *Provided*, however, That if individual tests of sugar content are not made by the processor at the time of delivery of the sugar beets, the factor to be used shall be 1.000: *Provided*, further, That for harvested sugar beets which are not acceptable under the contract with a processor due to an insurable cause of loss occurring within the insurance period, the Corporation will determine the production to count by dividing the value of the beets, as determined by the Corporation, by the value of undamaged beets containing the percentage of sugar shown on the actuarial table and multiplying the result obtained by the tons of beets harvested: *Provided*, further, That any Corporation appraisals in the preceding paragraph shall be the tons appraised with no adjustment for quality.

6. *Cancellation and termination for indebtedness dates.* That portion of item (1) of section 13(b) of the policy which reads, "other than the premium due on a crop normally harvested in the calendar year in which the termination date for indebtedness for that crop occurs," shall not be applicable with respect to sugar beet crop insurance in any county in California.

The cancellation date shall be June 15, for all counties, preceding the beginning of the crop year for which such cancellation becomes effective.

The termination date for indebtedness shall be the August 31 preceding the beginning of the crop year for Imperial County and for all other counties shall be the date the insured begins planting for the next crop year unless prior to such date the insured has made arrangements satisfactory to the Corporation for payment of the premium owed the Corporation.

7. *Annual premium.* If at any time the cumulative dollar amount of indemnities paid under this endorsement exceeds the cumulative premiums earned through the previous crop year, the premium discounts referred to in section 6(b) of the policy shall not thereafter be applicable until the cumulative earned premiums equal or exceed the cumulative indemnities.

8. *Meaning of terms.* (a) "Harvest" means the lifting and topping of the sugar beets for the purpose of delivery to a processor.

(b) "Crop year," notwithstanding section 19(c) of the policy, shall be the period from planting until the applicable date for the end of the insurance period and shall be designated by reference to the calendar year in which planted if planted by June 15, and if planted after June 15 by reference to the next calendar year.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

The foregoing amendment provides for a revision of the contractual changes in the Sugar Beet Endorsement (Applicable only in California) which are necessary due to the discontinuance of the Sugar Act of 1948, as amended, on December 31, 1974. These contractual revisions will permit the continuation of sugar beet crop insurance with the establishment of a revised method of evaluation of production and acreage records by the Corporation upon which coverage guarantees are based, such records that were heretofore established under the provisions of the now defunct Sugar Act of 1948, as amended. In view of the absence of the Sugar Act of 1948, it is imperative that the foregoing amendment become effective for the 1976 crop year. Notice of changes must be given to insureds by June 15, 1975, and applications will be taken in the near future. Under the circumstances, the Board of Directors found that it would be impracticable and contrary to the public interest to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553 (b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 FR 13804), prior to its adoption. Accordingly, said amendment was adopted by the Board of Directors on May 15, 1975.

[SEAL] PETER F. COLE,  
Secretary, Federal Crop  
Insurance Corporation.

Approved on: May 21, 1975.

EARL L. BUTZ,  
Secretary.

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

##### PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

##### Increase in Expenses of the Prune Administrative Committee and the Rate of Assessment for 1974-75 Crop Year

Notice was published in the April 29, 1975, issue of the FEDERAL REGISTER (40 FR 18562) regarding an increase in expenses of the Prune Administrative Committee and the rate of assessment for the 1974-75 crop year under §§ 993.80 and 993.81 of the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

Interested persons were given until May 15, 1975, in which to submit written data, views, or arguments with respect to the proposal. None were received.

The proposal was based on a unanimous recommendation of the Prune Administrative Committee. The increased expenses of the Committee for the 1974-75 crop year were proposed at \$154,100. Also, the assessment rate was proposed to be increased to \$1.28 per ton of assessable prunes.

Increased Committee operating costs, and changed demand conditions, have created costs that will exceed the expenses previously established for the 1974-75 crop year. It is also necessary to increase the assessment rate for that year to obtain sufficient funds to defray the increased expenses.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Prune Administrative Committee, and other available information, it is found that the expenses of the Prune Administrative Committee and the rate of assessment for the crop year beginning August 1, 1974, shall be as hereinafter set forth.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all salable prunes handled by handlers as the first handlers thereof; and (2) the current crop year began on August 1, 1974, and the rate of assessment hereinafter fixed will automatically apply to all such prunes beginning with that date.

The expenses and assessment rate as set forth in § 993.325 are revised to read as follows:

§ 993.325 Expenses of the Prune Administrative Committee and rate of assessment for the 1974-75 crop year.

(a) *Expenses.* Expenses in the amount of \$154,100 are reasonable and likely to be incurred by the Prune Administrative Committee during the crop year beginning August 1, 1974, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of the marketing agreement, as amended, and this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for such crop year which each handler is required, pursuant to § 993.81, to pay to the Prune Administrative Committee as his pro rata share of the said expenses is fixed at \$1.28 per ton of salable prunes handled by him as the first handler thereof.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 21, 1975.

CHARLES R. BRADER,  
Deputy Director,  
Fruit and Vegetable Division.

#### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER D—GUARANTEED LOANS

[FmHA Instructions 449.1 and 449.2]

##### PART 1842—BUSINESS AND INDUSTRIAL LOANS

##### Prohibition on Use of Guaranteed Loan Funds

On April 7, 1975, there was published in the FEDERAL REGISTER (40 FR 15405) a notice of proposed rulemaking amending § 1842.14(b) of Part 1842, Chapter XVIII, Title 7, Code of Federal Regulations (39 FR 34264) to prohibit guaranteed loan funds from being paid or distributed to one who owns or has an interest in any business if such person retains his equity in the business. Interested persons were given 30 days in which to submit written comments, suggestions or objections to the proposed amendments.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

*Effective date.* This amendment is effective May 27, 1975.

Dated: May 9, 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

Part 1842 is amended by revising § 1842.14(b) to read as follows:

§ 1842.14 Ineligible loan purposes.

(b) For distribution or payment to the owner, partners, shareholders or beneficiaries of the applicant or members of their families when such persons shall retain any portion of their equity in the business.

(7 U.S.C. 1989; delegation of authority by the Sec. of Agr., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70)

[No. 75-443]

##### Title 12—Banks and Banking

##### CHAPTER V—FEDERAL HOME LOAN BANK BOARD

##### SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

##### PART 563—OPERATIONS

##### Investment in Service Corporations

MAY 19, 1975.

*Summary.* The following summary of the amendment adopted by this Resolution is provided for the reader's convenience and is subject to the full provisions of this Resolution, including the provisions in the preamble thereof and in the amended regulation set forth below.

I. *Existing regulation.* Without prior Corporation approval, insured institutions are prohibited from exercising their salvage powers to exceed otherwise authorized investment in their service corporations.

II. *Amended regulation.* The amended regulation restates the existing prohibition in clearer language.

III. *Reason for amending the regulation.* To clarify its meaning.

The Federal Home Loan Bank Board considers it desirable to amend Part 563 of the rules and regulations for Insurance of Accounts (12 CFR 563) by amending § 563.38 thereof to make clear that said section prohibits any investment by an insured institution in its service corporation which would be unauthorized other than as an exercise of such institution's salvage powers, unless prior approval for such investment is obtained pursuant to such section from the Federal Savings and Loan Insurance Corporation. In its present form § 563.38 is susceptible of an interpretation that would also permit Corporation approval of any investment in excess of that permitted by law. To preclude such misreading of § 563.38, the Board considers it desirable to amend paragraph (a) thereof to delete the words "or otherwise" immediately following the words "salvage power" presently therein and adding the word "otherwise" immediately prior to the words "permitted by law" presently therein.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 563 by revising § 563.38(a) thereof, to read as set forth below, effective May 27, 1975.

Since the above amendment is for the purpose of clarification, the Board hereby finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b), and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

Section 563.38(a) is revised as follows:

§ 563.38 Salvage power of insured institution to assist service corporation.

(a) *Salvage power and investment authority.* No insured institution, in the exercise of its salvage power, shall, without the prior approval of the Corporation, make any contribution, loan, or guarantee of a loan made by any other person to its service corporation, or invest in its service corporation or assume any of its liabilities, if such contribution, loan, investment, guarantee, or assumption of liability, together with such guaranteed loans, direct loans, contributions and direct investments by the insured institution in its service corporations, would exceed the maximum investment otherwise permitted by law or regulation.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,  
Assistant Secretary.

[FR Doc.75-13721 Filed 5-23-75; 8:45 am]

##### Title 14—Aeronautics and Space

##### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 75-WE-33-AD; Amdt. 39-2218]

##### PART 39—AIRWORTHINESS DIRECTIVES

##### Douglas Model DC-10 Series Airplanes

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on April 24, 1975, amended on April 28, 1975, and made effective immediately by telegrams dated April 24, 1975, and April 28, 1975, to all known United States operators of certain Douglas Model DC-10 Series airplanes, certificated in all categories. The agency has received a report of inadvertent opening of a forward (No. 1R) passenger door and automatic deployment of the evacuation slide, after arrival and parking at the ramp as the cabin attendant was about to disarm the door. The malfunction was due, in combination, to the close (down) lock not being fully engaged, and the emergency air storage bottle control valve being in a "cocked" condition. The airworthiness directive requires a one-time inspection of the close (down) lock and air bottle control valve lever, and inspection or check of the close (down) lock prior to each flight, with certain specified exceptions. The inspections are intended to preclude inadvertent opening of doors pending further AD action.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest, and good cause existed for making the airworthiness directive effective immediately to all known U.S. operators of certain Douglas Model DC-10-10 and -40 Series airplanes by individual telegrams dated April 24, 1975, and April 28, 1975.

After issuing this emergency AD, the agency has established terminating AD action and, therefore, prior to publishing the original emergency AD in the FEDERAL REGISTER, an airworthiness directive is being issued which supersedes the telegraphic AD. The adopted rule requires installation of production 6½ coil close (down) lock springs and airbottle control valve lever retention springs as terminating action to the mandatory close (down) lock inspection prior to each flight. Also, as a result of a recent incident in which a right-hand close (down) lock was found installed on a left-hand door, and vice versa, the adopted rule requires an inspection to insure left-hand and right-hand close (down) locks are installed on respective left and right-hand doors.

The conditions which required issuance of the telegraphic AD still exist. Immediate adoption of the regulation is required; it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS. Applies to Douglas Model DC-10-10, -10F, -30, -30F, and -40 Series airplanes, certificated in all categories, with factory serial or fuselage numbers as indicated in the following Douglas Service Bulletins or All Operators Letters or later FAA-approved revisions:

Para. (A), below—S/B 52-139, dated April 28, 1975.  
Para. (B), below—AOL 10-814, dated May 9, 1975.  
Para. (C), below—S/B 52-140, dated April 30, 1975.  
Para. (D), below—S/B 52-139, dated April 28, 1975.

To prevent inadvertent opening of Type I passenger doors (most forward left and right doors) accomplish the following:

(A) Compliance required not later than 48 hours after the effective date of this AD, unless already accomplished either within 10 days prior to the effective date of this AD, or in accordance with that telegraphic AD dated April 24, 1975, amended April 28, 1975.

(1) Conduct the following one-time inspection of the Type I doors:

(a) Inspect the close (down) lock torque tube spline for damage. Repair or replace, if required.

(b) Visually inspect the door close (down) lock and spring for general condition and insure the spring is not riding over the flange of the drive spline.

(c) Functionally operate the door to insure that the close (down) lock is properly engaged.

(d) Inspect the air storage bottle control valve lever to insure that it is in its normal operating (stowed) position.

(2) Prior to each flight, except as provided herein, accomplish the following on the Type I doors:

(a) After the door is closed, and the inside operating handle is positioned in the neutral position, inspect or check the close (down) lock to insure that it is properly engaged.

(b) The inspection or check required by (A)(2)(a), above, does not have to be accomplished if it can be verified that the door handle has not been disturbed subsequent to the accomplishment of the inspection or check required by (A)(2)(a), above. Any method used to insure that the operating handle has not been disturbed must not interfere with normal and emergency operation of the door.

(c) The inspection or check required by (A)(2)(a), above, does not have to be accomplished if it can be verified during the inspection required by (A)(1), above, that a production P/N ABA8025-1 8½ coil close (down) lock spring is installed, and the conditions inspected in (A)(1), above, are satisfactory.

(d) The flight crew will be advised after the inspection or check required by (A)(2)(a), above, is satisfactorily accomplished.

(e) The inspection or check required by (A)(2)(a), above, does not have to be accomplished, provided:

## RULES AND REGULATIONS

(1) The close (down) lock torque tube spline is reinspected for damage; and repaired or replaced, if required.

(2) There are no less than 3½ coils in the cut-off P/N ABA8025-1 close (down) lock spring.

(3) A P/N WBA7003-7 washer is installed at the forward end, and a P/N WBA7003-5 washer is installed at the aft end, of the close (down) lock spring. (Reference Douglas Service Bulletin No. 52-139, dated April 28, 1975). And

(4) After the P/N WBA7003-5 and -7 washers have been installed, the door is functionally operated to insure that the close (down) lock is properly engaged.

(5) Any inspection must be performed by the holder of a mechanic or repairman certificate, or by a person under the direct supervision of the holder of such certificate. A check may be performed by qualified or trained personnel designated by the operator for the purpose of performing the checks.

(6) Operators shall advise flight crews and cabin attendants of the foregoing procedures by the most immediate and practicable means.

(B) Compliance required within seven days after the effective date of this AD, unless already accomplished.

Inspect the torque tube close (down) locks on the Type I doors to insure that the P/N ABA8023-1 slide catch and P/N ABA8024-1 stop plate are installed on the left hand door, and the P/N ABA8023-2 slide catch and P/N ABA8024-2 stop plate are installed on the right hand door, in accordance with Douglas All Operators Letter No. 10-814, dated May 9, 1975, or later FAA-approved revisions.

(C) Compliance required within the next 1500 hours' time in service after the effective date of this AD, unless already accomplished.

Install retention springs on the Type I door air storage bottle control valve lever in accordance with Douglas Service Bulletin No. 52-140, dated April 30, 1975, or later FAA-approved revisions.

(D) Compliance required within the next 3000 hours' time in service after the effective date of this AD, unless already accomplished.

(1) Remove the Type I door cut-off P/N ABA8025-1 close (down) lock springs and P/N WBA7003-5 and -7 washers, and install production P/N ABA8025-1 8½ coil close (down) lock springs on the torque tube.

(2) Following installation of the new springs, recheck the engagement of the close (down) lock, and adjust if required, in accordance with Douglas Service Bulletin No. 52-132, Revision 1, dated February 21, 1975, or later FAA-approved revisions.

(E) The Chief, Aircraft Engineering Division, FAA Western Region, may approve equivalent inspections and installations or alternate design modifications upon submission of substantiating data.

(F) Airplanes may be flown to a base for performance of maintenance required by this AD per FAR's 21.197 and 21.199, provided that, with respect to the door(s) identified as in need of maintenance, the emergency evacuation slides or slide/rafts will be either removed or deactivated.

This supersedes the telegraphic AD adopted April 24, 1975, amended April 28, 1975, and distributed by telegrams dated April 24, 1975 and April 28, 1975.

This amendment becomes effective May 30, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on May 15, 1975.

ROBERT H. STANTON,  
Director,  
FAA Western Region.

[FR Doc.75-13667 Filed 5-23-75; 8:45 am]

[Airworthiness Docket No. 75-WE-36-AD; Amdt. 30-2219]

### PART 39—AIRWORTHINESS DIRECTIVES

#### Lockheed-California Company Model L-1011-385-1 Series Airplanes

There have been failures of the Belleville springs on Lockheed-California Company L-1011-385-1 airplanes due to surface flaws that could result in inoperative counterbalances which could cause the most rearward Type I, left and right emergency doors to be inoperative in the emergency mode. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require reduction of Belleville springs prewind as applicable, Type I, door operational checks, and replacement, as required, of counterbalances on Lockheed-California Company L-1011-385-1 Series airplanes, incorporating counterbalances identified by Lockheed Part Number 671827-107, -109, -113.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LOCKHEED-CALIFORNIA COMPANY. Applies to Model L-1011-385-1 Series Airplanes, certificated in all categories, incorporating Lockheed counterbalances, P/N 671827-107, -109, -113.

To prevent possible failure of Belleville springs resulting in inoperative counterbalances of the Type I, emergency door actuation system, which could cause the most rearward Type I, left and right doors to be inoperative in the emergency mode, accomplish the following:

Compliance required as indicated.

(a) For airplanes incorporating P/N 671827-113 counterbalances:

(1) Within 300 additional flight hours after the effective date of this AD, unless already accomplished, reduce the spring prewind per accomplishment instructions of Lockheed-California Company Service Bulletin 093-52-072, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions.

(2) Within 300 additional flight hours after the effective date of this AD, unless previously accomplished within the last 1,300 flight hours prior to the effective date of this AD, and at intervals not to exceed 1,600 hours thereafter, until (3) below is accomplished, perform the operational checks on the door emergency mode for proper functioning of the counterbalance for the most rearward Type I, left and right doors, per the accomplishment instructions of Lockheed-California Service Bulletin 093-52-072,

Revision Number 1, dated May 8, 1975, or later FAA-approved revisions.

(i) If the operational checks are not satisfactory, replace the defective counterbalances, P/N 671827-113, with either a P/N 671827-107, or -109 counterbalance per Lockheed-California Company Service Bulletin 093-52-072, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions, or a counterbalance P/N 671827-115 or -117 per Lockheed-California Service Bulletin 093-52-076, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions. Prior to further flight perform the operational checks to ensure that the operation of the doors with the new counterbalances is satisfactory.

(ii) Mark the defective P/N 671827-113 counterbalances in a conspicuous manner to prevent inadvertent return to service.

(3) Within 8000 hours additional flight time after the effective date of this AD, unless already accomplished, replace all counterbalances P/N 671827-113 with either counterbalances P/N 671827-115 or -117, per Service Bulletin 093-52-076, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions or with counterbalances P/N 671827-107 or -109 per Lockheed-California Company Service Bulletin 093-52-072, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions. Prior to further flight perform the operational checks to ensure that the operation of the doors with the new counterbalances is satisfactory. If satisfactory operation of the doors exist no further inspections are required per this AD.

(b) For airplanes incorporating counterbalances P/N 671827-107 and -109:

(1) Within 300 additional flight hours after the effective date of this AD, unless already accomplished, perform the operational checks of the door emergency mode for the most rearward Type I, left and right doors, per the accomplishment instructions of the Lockheed-California Company Service Bulletin 093-52-072, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions.

(i) If the operational checks are satisfactory then no further checks are required per this AD.

(ii) If the operational checks are not satisfactory, replace the defective counterbalances, P/N 671827-107 or -109, with either a new counterbalance, P/N 671827-107 or -109, per Lockheed-California Company Service Bulletin 093-52-072, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions, or with counterbalances, P/N 671827-115 or -117, per Lockheed-California Company Service Bulletin 093-52-076, Revision Number 1, dated May 8, 1975, or later FAA-approved revisions. Perform the doors operational checks to ensure that the operation of the doors with the new counterbalance is satisfactory. If satisfactory operation of the doors exist no further inspections are required per this AD.

(iii) Mark the defective P/N 671827-107 or -109 counterbalances in a conspicuous manner to prevent inadvertent return to service.

(c) Equivalent inspections may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(d) Airplanes may be flown to a base where the inspections and modifications can be performed per FAR's 21.197 and 21.199.

This amendment becomes effective May 30, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on May 15, 1975.

ROBERT H. STANTON,  
Director,  
FAA Western Region.

[FR Doc.75-13668 Filed 5-23-75; 8:45 am]

[Docket No. 14609; Amdt. No. 969]

### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

#### Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW, Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW, Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective July 3, 1975.

Alexandria, Ind.—Alexandria Arpt., VOR Rwy 27, Amdt. 2.

Cortez, Colo.—Cortez-Montezuma County Arpt., VOR Rwy 21, Amdt. 3.

Mankato, Minn.—Mankato Municipal Arpt., VOR Rwy 15, Amdt. 1.

Mankato, Minn.—Mankato Municipal Arpt., VOR Rwy 33, Amdt. 2.

##### Proof of Service of Documents

In addition to the amendments announced in the FEDERAL REGISTER issue for Monday, May 19, 1975, at pages 21708-9, pertaining to service of documents, the Federal Trade Commission announces the revision of § 4.4(c) (3) to read as follows:

§ 4.4 Service.

(c) *Proof of service.* . . . .  
(3) When a party has appeared in a proceeding by a partner, officer, or attorney, service on that individual of any document other than those specified in (a) (1) of this section shall be deemed service upon the party.

This amendment is effective May 27, 1975.

### Title 17—Commodity and Securities Exchanges

#### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11425]

#### PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Revised Initial Fee and 1975 Annual Assessment for Nonmember (SECO) Broker-Dealers

On March 20, 1975 the Commission announced in Securities Exchange Act (the "Act") Release No. 11308 which was published in the FEDERAL REGISTER for March 27, 1975 at 40 FR 13525 a proposal

to adopt Form SECO-4-75 (17 CFR 249.504i) pursuant to Rule 15b9-2 (17 CFR 240.15b9-2) under the Act, which sets forth the annual schedule under which registered broker-dealers who are not members of the National Association of Securities Dealers, Inc. ("nonmember" or "SECO" broker-dealers) will be assessed for the current fiscal year and the amendment of Form SECO-2 (17 CFR 249.502) pursuant to Rule 15b9-1, (17 CFR 240.15b9-1) which sets forth the initial fee schedule for new associated persons of SECO broker-dealers. The Commission has considered the comments received regarding the proposals and has adopted them as proposed.

Sections 15(b)(8) and 15(b)(9) under the Act authorize the Commission to collect such reasonable fees and charges as may be necessary to defray the costs of the additional regulatory duties required for nonmember broker-dealers. Pursuant to these sections, the Commission adopted Rules 15b9-1, to establish initial fees, and 15b9-2 to provide for annual assessments. Rule 15b9-2 provides for the annual assessments to be set forth on Form SECO-4 and Rule 15b9-1 provides for initial fees to be set forth on Form SECO-5 and Form SECO-2.

This year's assessments, as set forth on new Form SECO-4-75, includes a base levy of \$250 per firm and an assessment of \$15 for each associated person.<sup>1</sup> As both Rule 15b9-2 and the Form indicate, these annual assessments would ordinarily be due and payable on or before June 1, 1975. But, because of a delay in the adoption of the Form, payment may be made on or before June 20, 1975. This extension of time applies to this year only.

Form SECO-2 will be amended so as to increase the initial assessment fee for a new associated person of a SECO broker-dealer to \$50.<sup>2</sup> The amended Form SECO-2 will become effective June 20, 1975.<sup>3</sup>

<sup>1</sup> Since the institution of the SECO program in 1965, the Commission has utilized fees and assessments which have been based substantially, although not exclusively, on the personnel characteristics of nonmember firms. While it appears that no method of defraying regulatory expenses can provide complete fairness to all firms, the Commission has found that, in general, this method has worked equitably. In the case of the annual personnel assessment, for example, the number of associated persons a firm employs gives a generally appropriate measure of firm size and ability to pay and takes into consideration regulatory costs peculiarly related to sales-oriented businesses. Moreover, this assessment has been a relatively inexpensive measure to administer and enforce.

<sup>2</sup> The initial fee now in effect (Form SECO-5) for each new member firm is \$500 and will remain unchanged.

<sup>3</sup> Form U-4 was approved by the Commission on April 16, 1975 and is scheduled to replace current Form SECO-2 on July 15, 1975. See Securities Exchange Act Release No. 11424.

These increases have been necessitated by the increased costs to the Commission in administering the SECO regulatory program. These administrative costs totalled some \$418,000 for fiscal 1974 and are expected to reach an estimated \$604,000 for fiscal 1975, an increase of approximately 45 percent.

Copies of Form SECO-4-75 will be forwarded to nonmember broker-dealers, and copies of Forms SECO-4-75 and SECO-2, as adopted, have been filed with the Office of the Federal Register. However, since it is the responsibility of each nonmember broker-dealer to comply with the requirements of Rule 15b9-2, any such broker-dealer which does not receive copies of Form SECO-4-75 should contact the Division of Market Regulation at the address and telephone number noted below, to obtain the necessary forms. The completed Form SECO-4-75 and appropriate remittances should be mailed to the Office of the Comptroller, Securities and Exchange Commission, Washington, D.C. 20549 on or before June 20, 1975.

**Commission Action.** The Securities and Exchange Commission, acting pursuant to the Securities Exchange Act of 1934, and particularly sections 15(b) and 23(a) thereof, hereby amends Part 249 of Title 17 of the Code of Federal Regulations as follows:

1. Section 249.504i is added below:

§ 249.504i Form SECO-4-75: 1975 assessment and information form for registered brokers and dealers not members of a registered national securities association.

This form shall be filed on or before June 20, 1975, pursuant to § 240.15b9-2 of this chapter, accompanied by the annual assessment fee required thereunder and as specified in this form, for the fiscal year ended June 30, 1975, by every registered broker and dealer not a member of a registered national securities association.

(Sec. 15(b), 48 Stat. 895, as amended 78 Stat. 565, 15 U.S.C. 78o; sec. 23(a), 48 Stat. 901, as amended, 49 Stat. 1370, sec. 8 (15 U.S.C. 78w))

§ 249.502 [Amended]

2. Section 249.502 is amended by changing the fee specified in form SECO-5 to read "\$50".

Additional copies of both Forms, as well as copies of Rules 15b9-1 and 15b9-2, may be obtained by contacting the Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549 or telephone (202) 755-1369. The foregoing action will become effective on June 20, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Docket No. R-75-327]

#### PART 200—INTRODUCTION

##### Affirmative Fair Housing Market, Regulations Amended

##### Correction

In FR Doc. 75-12112 appearing at page 20080 in the issue for Thursday, May 8, 1975, in the third column, following paragraph E, the effective date should read "August 22, 1974" instead of "August 22, 1975".

#### SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-75-330]

#### MULTIFAMILY, NURSING HOME, AND GROUP PRACTICE FACILITY PROGRAMS

##### Processing Procedure Revised

Parts 207, 213, 221, 232, 236 and 244 of the Regulations are amended to revise a processing procedure in the insured multifamily mortgage, nursing home and group practice facility programs.

The amendments to those mortgage insurance programs eliminate the former requirement that an applicant for mortgage insurance could not elect to omit the conditional commitment processing stage if it had begun with the SAMA (Site Appraisal and Market Analysis) processing stage initially. The purpose of the change is to accelerate and make more efficient the processing procedures in cases where the applicant is prepared to go directly from the SMSA stage to the firm commitment stage. Since these amendments are for the purpose of accelerating processing time and would not adversely affect any applicant for mortgage insurance, advance notice and public procedure are not necessary and good cause exists for making these amendments effective upon publication.

Accordingly, Parts 207, 213, 221, 232, 236 and 244 of Chapter II of Title 24 of the Code of Federal Regulations are amended to read as follows:

#### PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

§ 207.1 [Amended]

1. Section 207.1(a) is amended by deleting the clause which appears after the semicolon in the fifth sentence, which clause begins with the word "however" and ends with the word "initially".

2. Section 207.1(b)(1) is amended by deleting the word "conditional", before the word "commitment", from the last clause before the colon in the third sentence.

#### PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

§ 213.2 [Amended]

3. Section 213.2(a) is amended by deleting the clause which appears after the semicolon in the fifth sentence, which clause begins with the word "however" and ends with the word "initially".

4. Section 213.2(b)(1) is amended by deleting the word "conditional", before the word "commitment", from the last clause before the colon in the third sentence.

#### PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

§ 221.502 [Amended]

5. Section 221.502(c) is amended by deleting the last clause beginning with the word "however" and ending with the word "initially".

§ 221.509 [Amended]

6. Section 221.509(a)(1) is amended by deleting the word "conditional", before the word "commitment", from the last clause before the colon in the third sentence.

#### PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

§ 232.5 [Amended]

7. Section 232.5 is amended by deleting the last clause which appears after the semicolon in the fifth sentence, which clause begins with the word "however" and ends with the word "initially".

§ 232.50 [Amended]

8. Section 232.50(a)(1) is amended by deleting the word "conditional", before the word "commitment", from the last clause before the colon in the third sentence.

#### PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

§ 236.5 [Amended]

9. Section 236.5(c) is amended by deleting the last clause beginning with the word "however" and ending with the word "initially".

#### PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES [TITLE XI]

§ 244.10 [Amended]

10. Section 244.10(a) is amended by deleting the last clause which appears after the semicolon in the fifth sentence, which clause begins with the word "however" and ends with the word "initially".

11. Section 244.10(b)(1) is amended by deleting the word "conditional", before the word "commitment", from the last clause before the colon in the third sentence.

(Sec. 7(d), Department of Housing and Urban Development Act (41 U.S.C. 3535(d)))

Effective date. These amendments will be effective May 27, 1975.

DAVID M. DEWILDE,  
Acting Assistant Secretary for  
Housing Production and  
Mortgage Credit—Federal  
Housing Commissioner.

[FR Doc. 75-13748 Filed 5-23-75; 8:45 am]

#### CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-334]

#### PART 811—FINANCING

##### Subpart A—Tax Exemption of Obligations of Public Housing Agencies

##### INTERIM RULE

The Department is amending Title 24 by adopting a new Part 811—Financing and a new Subpart A—Tax Exemption of Obligations of Public Housing Agencies. Subpart A implements, in accordance with section 201(b) of the Housing and Community Development Act of 1974 (42 USC 1437, note), sections 3(6) and 11(b) of the United States Housing Act of 1937, 42 USC 1437a, 1437i, both of which were added by section 201 of the Housing and Community Development Act of 1974 (42 USC 1437, note). Section 3(6) defines "Public Housing Agency" and section 11(b) authorizes tax exemption of obligations issued by a Public Housing Agency in connection with a low-income project. The Subpart further sets forth requirements and procedures for establishing eligibility and HUD approval of projects that involve tax exempt obligations.

Because this Subpart represents the regulatory promulgation of an existing policy that has been jointly effectuated by the Secretaries of HUD and of Treasury, comment and public procedure are unnecessary and good cause exists for making this amendment effective upon publication.

The Secretary has determined that it would be impracticable and contrary to the public interest to provide for public participation prior to the adoption of this Subpart. However, in furtherance of its policy of providing opportunity for comment in rulemaking procedures to the fullest extent appropriate (see Part 10 of this Title), the Department is inviting interested persons to submit comments, data and suggestions with respect to this Interim Rule. Such materials should be filed with the Rules Docket Clerk, Office of the General Counsel, Room 10245, Department of Housing and Urban Development, 451-7th Street, SW., Washington, D.C. 20410. All relevant comments filed on or before June 30, 1975, will be considered before a final rule is adopted in this proceeding. A copy of each comment will be available for public inspection at the above address during regular business hours, both before and after close of the comment period.

It has been determined that this amendment will not have a substantial environmental impact. A Finding of Inapplicability will be on file for public inspection at the above address.

Accordingly, Title 24 is amended by adding a new Part 811 and a new Subpart A to read as follows:

##### Subpart A—Tax Exemption of Obligations of Public Housing Agencies

Sec.  
811.101 Purpose.  
811.102 Definitions.  
811.103 Tax exemption of obligations.  
811.104 Approval of amount of obligations.  
811.105 Exemption of certain additional obligations.

AUTHORITY: Sections 3(6), 11(b) of the U.S. Housing Act of 1937 (42 USC 1437a, 1437i).

§ 811.101 Purpose.

The purpose of this Subpart A is to provide a basis for determining tax exemption of obligations of Public Housing Agencies in accordance with sections 3(6) and 11(b) of the United States Housing Act of 1937.

§ 811.102 Definitions.

(a) "Act" means the United States Housing Act of 1937, as amended by section 201 of the Housing and Community Development Act of 1974 (42 USC 1437, note), 42 USC 1437, et seq.

(b) "Department" means the Department of Housing and Urban Development.

(c) "Public Housing Agency" means any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of low-income housing projects.

(d) "Secretary" means the Secretary of Housing and Urban Development or designee of the Secretary's authority under sections 3(6) and 11(b) of the Act.

§ 811.103 Tax exemption of obligations.

(a) Subject to requirements of paragraphs (b) and (c) of this section, obligations, including interest thereon, issued by Public Housing Agencies in connection with low-income housing projects developed, acquired or assisted under the Act shall be exempt from all taxation now or hereafter imposed by the United States, whether paid by such Agency or by the Secretary.

(b) To be tax exempt under paragraph (a) of this section, obligations must be issued in connection with a low-income housing project approved by the Department and the amount of the obligations must be approved by the Department as prescribed in § 811.104. An application for a project financed by tax exempt obligations shall be made on a form prescribed by the Department and must be made in accordance with regulations applicable to the project. In order to be eligible for a project involving tax exempt obligations, the applicant must be approved by the Department as a Public Housing Agency and must further be ap-

CHAPTER V—WAGE AND HOUR DIVISION,  
DEPARTMENT OF LABORPART 545—HOMEWORKERS IN  
INDUSTRIES IN PUERTO RICO

## Minimum Wage Rates for Piece Work

proved as qualified to carry out the project.

(c) To obtain the Department's approval of an applicant under paragraph (b) of this section:

(1) An applicant must identify any prior annual contributions contract under the Act (or under the United States Housing Act of 1937 prior to its amendment by the Housing and Community Development Act of 1974) to which contract it is a party and the applicant must also identify any pending application it has made for a contract under the Act. If the applicant has not previously entered into an annual contributions contract, it must furnish sufficient evidence to establish that:

(i) It is legally authorized to engage in or assist in the development or operation of low-income housing; and

(ii) It has the legal capacity to carry out the low-income housing project as described in its application.

(2) If the applicant is applying as an agency or instrumentality in accordance with Sec. 811.102(c), the applicant, in addition to complying with paragraphs (c) (1) (i) and (ii) of this section, must identify the parent entity, must establish the qualifications of that entity under paragraph (c) of this section and must submit documentary evidence of the designation or creation of the applicant as the duly authorized agency or instrumentality of the parent entity with powers to carry out the low-income housing project described in the application.

## § 811.104 Approval of amount of obligations.

Obligations shall be tax exempt under § 811.103(a), only if the amount of the obligation is determined by the Department not to exceed the estimated reasonable development cost of the project plus reasonable expenses of issuing the obligations.

## § 811.105 Exemption of certain additional obligations.

Sections 811.103 (b) and (c) and 811.104 shall not apply to any obligations sold and delivered prior to 5 p.m., e.d.t., January 22, 1975: *Provided*, That evidence of such prior sale and delivery is submitted to the Department and the Department certifies the fact of such prior sale and delivery.

(Sec. 7(d) of the Department of Housing and Urban Development Act, 42 USC 3535(d); sec. 201(b) of the Housing and Community Development Act of 1974, 42 USC 1437, note; sec. 5(b) of the United States Housing Act of 1937, 42 USC 1437c(b).)

*Effective date:* These amendments shall be effective May 27, 1975.

CARLA A. HILLS,  
Secretary of Housing and  
Urban Development.

[FR Doc. 75-13744 Filed 5-23-75; 8:45 am]

Pursuant to the Fair Labor Standards Act of 1938 (52 Stat. 1062, as amended (29 U.S.C. 206), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35)), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), Secretary's Order No. 13-71 (36 FR 8755) and Employment Standards Order 1-74 (39 FR 33841), I hereby amend Part 545 of Title 29 of the Code of Federal Regulations by increasing proportionately the piece rates in industries in Puerto Rico as the result of the Fair Labor Standards Amendments of 1974. As the revised rates are commensurate with and reflect the increases in rates under the Fair Labor Standards Amendments of 1974 and are made pursuant to section 6 of the Act, it is found that notice and public procedure are unnecessary and good cause is found to curtail extensive delay in the effective date.

As revised, § 545.9 reads as follows:  
§ 545.9 Minimum piece rates prescribed by the Administrator.

Pursuant to the provisions of section 6(a) (2) of the act, each homemaker shall be paid in lieu of the applicable minimum hourly rates established by wage order, not less than the piece rates

Rate No.	Operations	Leather gloves		Unit of payment
		Fabric gloves for ladies (cents)	Ladies' Men's (cents)

11	Whip stitch, 5 to 6 stitches per inch	1.354	1.708	Do.

(b) *Minimum piece rates for the handkerchief, scarf, and art linen industry in Puerto Rico.* The piece rates given below have been adjusted to reflect increases in the minimum hourly wage rates in the industry. The piece rates shown are those which became effective on May 1, 1974 and those effective May 1, 1975, as a result of the Fair Labor Standards Amendments of 1974. Of the rates given

prescribed in this section for the operations described herein. On and after the effective date of any increase in any applicable minimum hourly rate established by said wage orders and until the effective date of corresponding revisions in this section, the minimum piece rates which shall be paid are those given in this section adjusted in the same ratio as the change in the old and new applicable minimum hourly rates.

(a) *Minimum piece rates for the gloves and mittens industry in Puerto Rico.* The piece rates given below have been adjusted to reflect increases in the minimum hourly wage rates for the "hand-sewing on fabric gloves" and the "hand-sewing on leather gloves" classifications. The piece rates shown are those which became effective on May 1, 1974 and those effective May 1, 1975 as a result of the Fair Labor Standards Amendments of 1974. The piece rates for operations on fabric gloves are based upon the minimum hourly rate for the "hand-sewing on fabric gloves" classification which was increased from 50 cents to \$1.20 on May 1, 1974, and to \$1.32 effective May 1, 1975. The piece rates for operations on leather gloves are based upon the minimum hourly rate for the "hand-sewing on leather gloves" classification which was increased from 80 cents to \$1.20 on May 1, 1974, and to \$1.32 effective May 1, 1975. Each piece rate below has been increased by the same percent as the hourly rate upon which it is based was increased.

(1) Piece rates effective May 1, 1974.

below, number 37(b) is based upon the minimum hourly rate for the "oblong scarves" classification which was increased from \$1.60 to \$1.75 on May 1, 1974, and to \$1.90 effective May 1, 1975. Rates numbered 106, 107, and 108 are based upon the minimum hourly rate for the "other operations on products other than oblong scarves" classification which was increased from 85 cents to \$1.20 on

## RULES AND REGULATIONS

May 1, 1974, and to \$1.32 effective May 1, 1975. All other piece rates are based upon the minimum hourly rate for the "hand-sewing on products other than oblong scarves" classification, which was in-

creased from 78 cents to \$1.20 on May 1, 1974, and to \$1.32 effective May 1, 1975. Each piece rate below has been increased by the same percent as the hourly rate upon which it is based was increased.

Rate No.	Operations	Effective May 1, 1974 (cents)	Effective May 1, 1975 (cents)	Unit of payment
1	Arenillas (seed stitch), close, 1/2 in squares	144.00	158.40	Per dozen.
2	Arenillas (seed stitch), scattered 1/2 in squares	72.00	79.20	Do.
5	Basting stitch for trimming, forming crosses, etc., 4 stitches per inch	6.00	6.60	Per dozen inches.
6	Basting and folding hem on edges up to 1 1/2 inch hem	2.40	2.64	Do.
7	Blind hemstitch	24.00	26.40	Do.

9	Buttonhole stitch, 24 to 30 stitches per inch	36.00	39.60	Do.
10	Chain stitch, 4 stitches per inch	6.00	6.60	Do.
11	Chain stitch, 8 stitches per inch	12.00	13.20	Do.
12	Cord, solid, on stem	37.55	41.31	Do.
15	Couching or flat cord, 4 stitches per inch	6.00	6.60	Do.
16	Cross stitch, 6 crosses per inch	25.55	28.11	Do.
18	Haisies, 12 to 15 stitches, with double embroidery thread	36.00	39.60	Per dozen.
20	Dots, large, not finished off, 2 to 3 stitches	9.55	10.50	Do.
21	Dots, large, not finished off, 12 stitches	18.00	19.80	Do.
22	Dots, large, filled in, finished off, over 12 stitches	36.00	39.60	Do.
23	Dots, large, not filled in, finished off, over 12 stitches	24.00	26.40	Do.
24	Dots, medium, not finished off, 8 to 9 stitches	15.55	17.14	Do.
25	Dots, medium, in groups, not finished off, 5 stitches, with double embroidery thread	10.22	11.24	Do.
26	Dots, medium, finished off, 5 stitches, with double embroidery thread	13.55	14.91	Do.
28	Embroidery, solid, straight, or diagonal, same as image stitch, filled in, loose	48.00	52.80	Per dozen inches.
29	Embroidery, solid, straight or diagonal, same as image stitch, not filled in, loose	36.00	39.60	Do.
31	Feather stitch, 12 stitches per inch	26.68	29.35	Do.
32	Feather stitch cord	14.08	15.49	Do.
34	French knots, not finished off	5.05	5.56	Per dozen.
35	French knots, finished off, with double embroidery thread	9.60	10.56	Do.
37	Hand or French rolling, 10 stitches or less per inch:			
	(a) Square scarves	33.92	37.31	Per 48 inches.
	(b) Oblong scarves	49.46	53.70	Do.
38	Hand or French rolling, 11 stitches or more per inch	40.75	44.83	Do.
46	Leaves, simple	4.48	4.93	Per dozen.
47	Leaves, solid, not finished off, 1/4 in long	15.95	17.55	Do.
48	Leaves, solid, not finished off, 1/4 in to 1/2 in long	24.00	26.40	Do.
49	Leaves, solid, not finished off, 1/2 in to 3/4 in long	48.00	52.80	Do.
69	Rose buds, worm stitch, 4 worms, 2 colors or tones	35.65	39.22	Do.
71	Shadow stitch, up to 1/4 in wide	77.31	85.04	Do.
72	Spiders, 4 legs	24.00	26.40	Do.
73	Spiders, 8 legs	46.91	51.63	Do.

## SCALLOP CUTTING

Hand-cutting machine-embroidered shallow, curved scallops on handkerchiefs or square scarves				
106	Small, measuring from 1/4 in up to but not including 1/2 in along outside edge	63.54	69.89	Per dozen scallops.
107	Medium, measuring from 1/2 in up to but not including 3/4 in along outside edge	80.00	88.00	Do.
108	Large, measuring from 3/4 in to and inclusive of 1 1/4 in along outside edge	120.00	132.00	Do.

NEEDLEPOINT OPERATIONS<sup>1</sup>

109	Compact florals, figures, and landscapes	124.80	137.28	Per 1,000 stitches.
110	Scattered florals	134.40	147.84	Do.
111	Scattered florals consisting of borders or garlands only	144.00	158.40	Do.
112	Combinations of compact center and scattered borders in which the compact portion totals 45 percent or more of the total design	134.40	147.84	Do.
113	Combinations of compact center and scattered borders in which the compact portion totals less than 45 percent of the entire design	144.00	158.40	Do.
114	Must be added to the above piece rates to cover thumb-tack mounting on frame for each piece of canvas. Employers using other methods must set individual rates for mounting and removing canvas in accordance with Section 545.10.	9.60	10.56	

<sup>1</sup> These piece rates do not apply to the following types of needlepoint: a. Florals having more than 10,000 stitches; b. Florals having more than 36 color tones; c. Figures and landscapes having more than 3,000 stitches; d. Figures and landscapes having more than 25 color tones; e. Petit point; f. Stamped grospoint.

<sup>2</sup> A compact design is one in which 50 percent or more of the finished piece contains no spaces of unsewn canvas.

<sup>3</sup> A scattered design is one in which 50 percent or more of the component parts, when finished, are separated by spaces of unsewn canvas.

(c) *Minimum piece rates for the children's dress and related products industry in Puerto Rico.* The piece rates given below have been adjusted to reflect increases in the minimum hourly wage rates for this industry. All activities covered in this industry increased from \$1.60 to \$1.75 an hour on May 1, 1974, and to \$1.90 an hour effective May 1, 1975, as a result of the Fair Labor Standards Amendments of 1974. Each piece rate below has been increased by the same percent as the hourly rate was increased.

Title 43—Public Lands: Interior  
CHAPTER II—BUREAU OF LAND  
MANAGEMENT

APPENDIX—PUBLIC LAND ORDERS  
[Public Land Order 5499; Idaho 5276]  
IDAHO

Revocation of Reclamation Withdrawals  
Correction

In FR Doc. 75-12127, appearing on page 20084 in the issue of Thursday, May 8, 1975, make the following change: In the second column, the thirty-first

line of the description for Boise Meridian should read, "SW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ ".

Title 45—Public Welfare  
CHAPTER VII—COMMISSION ON CIVIL  
RIGHTS

PART 704—INFORMATION DISCLOSURE  
AND COMMUNICATIONS

Freedom of Information; Miscellaneous  
Amendments

On page 17267 of the FEDERAL REGISTER of April 18, 1975, there was published a

proposal to amend 45 CFR Part 704, § 704.1 Materials available pursuant to 5 U.S.C. 552 as amended. The amendments add a definition section to § 704.1 for key terms. All of the previous § 704.1(d) is deleted and replaced by a new (d) which establishes request procedures, Commission response standards, and time limitations on Commission action on FOIA requests. This new section complies with the requirements of 1974 FOIA amendments. Section 704.1(e) was published as a proposed rule in January 1975 and now is further amended to add provisions for waiver or reduction of fees, appeals from denials of waiver or reduction of fees requests, Commission action on such requests, and time limitations on Commission action. Section 704.1(f) (1) has been amended to reflect statutory changes in FOIA exemptions one and seven. The Commission amendments delete § 704.1 (f) (2) and (3) and replace those provisions with new paragraph (f) (2) and (3) which comply with the 1974 FOIA amendments by incorporating the changes in exemption 7 regarding investigatory records and adding the requirement on the Commission to delete only the exempt portions of requested records and not the entire record. The appeals paragraph § 704.1(g) is replaced in its entirety; although much of the original provision is retained (in different form), time requirements on the Commission are added for processing appeals, including a provision for extension of time as authorized under 5 U.S.C. 552(a) (6) (A).

As a result of comments received, the following changes are made:

1. In § 704.1(d) (1) (ii) the cross reference is to § 704.1(d) (1) (i) (B) instead of § 704.1(d) (1) (i) (A) as stated in the proposed rules published on April 18, 1975.

2. Section 704.1(d) (1) (iii) of the proposed rules contained a cross reference to § 704.1(d) (1) (i) (B) and that "(B)" in the cross reference is omitted.

Accordingly, with these changes and additions, the proposed amendments are adopted as set forth below.

ARTHUR S. FLEMMING,  
Chairman.

§ 704.1 Material available pursuant to 5 U.S.C. 552.

(a) *Purpose, scope, and definitions.* (1) This section contains the regulations of the U.S. Commission on Civil Rights implementing 5 U.S.C. 552. These regulations inform the public with respect to where and how records and information may be obtained from the Commission. Officers and employees of the Commission shall make Commission records available under 5 U.S.C. 552 only as prescribed in this section. Nothing contained in this section, however, shall be construed to prohibit officers or employees of the Commission from routinely furnishing information or records which are customarily furnished in the regular performance of their duties.

(2) For the purposes of these regulations the terms listed below are defined as indicated:

"Commission" means the United States Commission on Civil Rights;

## RULES AND REGULATIONS

"General Counsel" means the General Counsel of the United States Commission on Civil Rights or his/her designee;

"FOIA" Freedom of Information Act, 5 U.S.C. 552;

"FOIA Request" means a request in writing, for records pursuant to 5 U.S.C. 552 which meets the requirements of 704.1(d) herein. These regulations do not apply to telephone or other oral communications and requests not complying with 704.1(d)(1)(i);

"Staff Director" means the Staff Director of the United States Commission on Civil Rights.

(b) *General policy.* In order to foster the maximum participation of an informed public in the affairs of Government, the Commission will make the fullest possible disclosure of its identifiable records and information consistent with such considerations as those provided in the exemptions of 5 U.S.C. 552, which are set forth in paragraph (f) of this section.

(c) *Material maintained on file pursuant to 5 U.S.C. 552(a)(2).* Material maintained on file pursuant to 5 U.S.C. 552(a)(2) shall be available for inspection during regular business hours at the offices of the Commission at 1121 Vermont Avenue, NW, Washington, D.C. 20425. Copies of such material shall be available upon written request, specifying the material desired, addressed to the Office of General Counsel, U.S. Commission on Civil Rights, Washington, D.C. 20425, and upon the payment of fees, if any, determined in accordance with paragraph (e) of this section.

(1) *Current index.* Included in the material available pursuant to 5 U.S.C. 552(a)(2) shall be an index of:

(i) all other material maintained on file pursuant to 5 U.S.C. 552(a)(2); and  
(ii) all material published by the Commission in the FEDERAL REGISTER and currently in effect.

(2) *Deletion of identifying details.* Wherever deletions from material maintained on file pursuant to 5 U.S.C. 552(a)(2) are required in order to prevent a clearly unwarranted invasion of privacy, justification for the deletions shall be placed as a preamble to documents from which such deletions are made.

(d) *Materials available pursuant to 5 U.S.C. 552(a)(3).*

(1) *Request Procedures.* (i) Each request for records pursuant to this subsection shall be in writing over the signature of the requester, addressed to the Office of General Counsel, U.S. Commission on Civil Rights, Washington, D.C. 20425 and: (A) Shall clearly and prominently be identified as a request for information under the Freedom of Information Act (if submitted by mail or otherwise submitted in an envelope or other cover, be clearly and prominently identified as such on the envelope or other cover—e.g., FOIA); and (B) shall contain a sufficiently specific description of the record requested with respect to names, dates, and subject matter to permit such record to be identified and located; and (C) shall contain a statement

that whatever costs involved pursuant to § 704.1(e) will be paid, that such costs will be paid up to a specified amount, or that waiver or reduction of fees is requested pursuant to § 704.1(e).

(ii) If the information submitted pursuant to § 704.1(d)(1)(i)(B) is insufficient to enable identification and location of the records, the General Counsel shall as soon as possible notify the requester in writing indicating the additional information needed. Every reasonable effort shall be made to assist in the identification and location of the record sought. Time requirements under these regulations are tolled from the date notification under this subsection is sent to the requester until an answer in writing to such notification is received from requester.

(iii) A request for records which is not in writing or does not comply with § 704.1(d)(1)(i) is not a request under the Freedom of Information Act and the 10 day time limit for agency response under the Act will not be deemed applicable.

(iv) Except as otherwise provided herein, the General Counsel shall immediately notify the requester of noncompliance with § 704.1(d)(1)(i)(C) and § 704.1(e).

(2) *Agency determinations.* (i) Responses to all requests pursuant to 5 U.S.C. 552(a)(3) shall be made by the General Counsel in writing to the requester within 10 working days after receipt by the General Counsel of such request except as specifically exempted under § 704.1(d)(1)(ii), (iii) and (iv), and shall state: (A) Whether and to what extent the Commission will comply with the request; (B) the probable availability of the records or that the records may be furnished with deletions or that records will be denied as exempt pursuant to 5 U.S.C. 552(b)(1)-(ix); (C) the estimated costs, determined in accordance with 704.1(e) herein, including waiver or reduction of fee as appropriate and any deposit or prepayment requirement; and (D) when records are to be provided, the time and place at which records or copies will be available determined in accordance with the terms of the request and with § 704.1(d)(3). Such response shall be termed a determination notice.

(ii) In the case of denial of requests in whole or part the determination notice shall state: (A) Specifically what records are being denied; (B) the reasons for such denials; (C) the specific statutory exemption(s) upon which such denial is based; (D) the names and titles or positions of every person responsible for the denial of such request; and (E) the right of appeal to the Staff Director of the Commission and procedures for such appeal as provided under § 704.1(g).

(iii) Each request received by the Office of General Counsel for records pursuant to these regulations shall be recorded immediately. The record of each request shall be kept current, stating the date and time the request is received, the name and address of the person making

the request, any amendments to such request, the nature of the records requested, the action taken regarding the request, including waiver of fees, extensions of time pursuant to 5 U.S.C. 552(a)(6)(B), and appeals. The date and subject of any letters pursuant to § 704.1(d)(1) or agency determinations pursuant to (d)(2)(i), the date(s) any records are subsequently furnished, and the payment requested and received.

(3) *Time limitations.* (i) Time limitations for agency response to a request for records established by these regulations shall begin when the request is recorded pursuant to § 704.1(d)(2)(iii). A written request pursuant to FOIA but sent to an office of the Commission other than the Office of General Counsel shall be dated stamped, initialed and redirected immediately to the Office of General Counsel. The required period for agency determination shall begin when it is received by the Office of General Counsel in accordance with § 704.1(d)(2)(iii).

(ii) In unusual circumstances, pursuant to 5 U.S.C. 552(a)(6)(B), the General Counsel may, in the case of initial determinations under these regulations, extend the 10 working day time limit in which the agency is required to make its determination notification. Such extension shall be communicated in writing to the requesting party setting forth with particularity the reasons for such extension and the date on which a determination is expected to be transmitted. Such extensions may not exceed 10 working days for any request and may only be used to the extent necessary to properly process a particular request. Such extension is permissible only where there is a demonstrated need: (A) To search for and collect the requested records from field facilities or other establishments that are separate from the Office of General Counsel; (B) to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or (C) for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the same agency having substantial subject matter interest therein.

(e) *Fees.*—(1) *Fee schedule:*

(i) Photocopy reproductions from all types of copying processes, each reproduction image—\$.03.

(ii) Standard searching, per hour (minimum charge one-quarter hour)—\$4.09.

(iii) Searching requiring particular training or skills not required of clerical personnel, per hour (minimum one-half hour)—\$8.88.

(iv) The above search fee is not applicable to computerized record search: In situations involving the use of computers to locate and extract the requested information charges will be based only on the direct cost to the agency, including labor, material and computer time.

(v) There will be a charge of \$1.00 each for certification of true copies.

(vi) Payment of fees shall be made by cash (if delivered in person), check or money order payable to "U.S. Treasury".

(2) The General Counsel may in his/her discretion, waive fees in whole or part otherwise assessable under paragraph (e)(1) of this section where:

(i) The total cost of providing the records is less than \$5.00.

(ii) Payment of the full fee by a State or local government agency, or nonprofit group would not be in the general public interest.

(iii) The records have been requested by a Federal agency, a foreign government, or an international governmental organization.

(3) Fees shall be waived or reduced for records requested in writing under § 704.1 when the General Counsel determines that:

(i) An individual has provided sufficient evidence in a signed statement that he is indigent and that reduction or waiver would not constitute an unreasonable expense to the Commission.

(ii) A person has demonstrated in a written statement that waiver or reduction of the fees is in the public interest because furnishing the information primarily benefits the general public. Requests for waiver or reduction under this subsection must be accompanied by a signed statement indicating ability to pay.

(4) Whenever waiver or reduction of fee is granted only one copy of the record will be furnished.

(5) Appeals from denials of requests for waiver or reduction of fees shall be considered by the Staff Director pursuant to the criteria set forth in § 704.1(e)(2) and (3). Appeal procedure under this subsection shall be in accordance with § 704.1(g) herein.

(6) Whenever a notification is required under § 704.1(d)(1)(iv) or the estimated costs exceed the limit established by the requesting party and the General Counsel has not determined to waive or reduce such fees as provided herein, such notification shall:

(i) Provide the requesting party with such information regarding cost as may be available;

(ii) Extend an offer to the requesting party to confer with the General Counsel in an attempt to reformulate the request in a manner that will minimize the fees and still meet the needs of the requesting party;

(iii) Inform the requesting party that the time requirement imposed by § 704.1(d)(2)(i) will be tolled pending a reformulation of the request, or receipt of an agreement from the requester to bear the estimated costs.

(7) Whenever a requesting party is notified of the possibility of an unproductive search in accordance with § 704.1(d)(2)(i)(B), no search will be conducted until prepayment is made or waived under § 704.1(e)(2) or (3). The

## RULES AND REGULATIONS

22835

time requirement under § 704.1(d)(2)(i) will be tolled from the date of dispatch prepayment as required.

(8) Whenever the estimated cost of providing requested records exceeds \$25.00, the requesting party will be so notified and required to prepay the estimated cost, unless waived, before a search for such records will be conducted. The time requirement under § 704.1(d)(2)(i) will be tolled from the date of dispatch of notification until the requester makes prepayment as required.

(f) *Exemptions* (5 U.S.C. 552(b))—

(1) *General.* The Commission may exempt from disclosure matters that are:

(i) (A) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and (B) are in fact properly classified pursuant to such Executive Order.

(ii) Related solely to the internal personnel rules and practices of an agency;

(iii) Specifically exempted from disclosure by statute;

(iv) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(v) Interagency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with the agency;

(vi) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(vii) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would: (A) Interfere with enforcement proceedings; (B) deprive a person of a right to a fair trial or an impartial adjudication; (C) constitute an unwarranted invasion of personal privacy; (D) disclose the identity of a confidential source, and in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, would disclose confidential information furnished only by the confidential source; (E) disclose investigative techniques and procedures; or (F) endanger the life or physical safety of law enforcement personnel.

(viii) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; and

(ix) Geological and geophysical information and data, including maps, concerning wells.

(2) *Investigatory records* (5 U.S.C. 552(b)(7)). (i) Among the documents exempt from disclosure pursuant to 704.1(f)(1)(vii) shall be investigative files or similar documents reflecting investigations which either are conducted for the purpose of determining whether a viola-

tion(s) of legal right has taken place, or have disclosed that a violation(s) of legal right has taken place, but only to the extent that production of such records would: (A) Deprive a person of a right to a fair trial or an impartial adjudication; (B) constitute an unwarranted invasion of personal privacy; (C) disclose the identity of a confidential source; (D) disclose investigative techniques and procedures; or (E) endanger the life or physical safety of law enforcement personnel.

(ii) Among the documents included in paragraph (f)(2)(1)(C) of this section, shall be documents which disclose the fact or the substance of a communication made to the Commission in confidence relating to an allegation or support of an allegation of wrongdoing by certain persons. It is sufficient under this subsection to indicate the confidentiality of the source if the substance of the communication or the circumstances of the communication indicate that investigative effectiveness will be inhibited by disclosure.

(3) Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt under this subsection.

(g) *Administrative appeals.* (1) These procedures apply whenever a requester is either denied records under 704.1(d)(2)(i) or denied waiver or reduction of fees under § 704.1(e)(2) or (3).

(2) Parties may appeal 704.1(d)(2)(i) and (e)(2) or (3) decisions within 90 days of the date of such decision by filing a written request for review addressed to the Staff Director, U.S. Commission on Civil Rights, Washington, D.C. 20425, by certified mail, including a copy of the written denial, and may include a statement of the circumstances, reasons or arguments advanced in support of disclosure or waiver/reduction of fees. Review will be made by the Staff Director on the basis of the written record.

(3) The decision on review of any appeal filed under this subsection shall be in writing over the signature of the Staff Director, will be promptly communicated to the person requesting review, and will constitute the final action of the Commission.

(4) Determinations of appeals filed under this subsection shall be made within 20 working days after the receipt of such appeal. If, on appeal, denial of records is in whole or part upheld, the Staff Director shall notify the persons making such request of the provisions for judicial review of that determination under 5 U.S.C. 552(a)(4).

(5) An extension of time may be granted under this subsection pursuant to criteria established in § 704.1(d)(3)(ii) (A) to (C), except that such extension together with any extension which may have been granted pursuant to § 704.1(d)(3)(ii) may not exceed a total of 10 working days.

[FR Doc. 75-13739 Filed 5-23-75; 8:45 am]

V 40-102 MAY 27 75

**Title 47—Telecommunication**  
**CHAPTER I—FEDERAL**  
**COMMUNICATIONS COMMISSION**  
 [Docket No. 19622; FCC 75-542]

**PART 73—RADIO BROADCAST SERVICES**  
**Prime Time Access Rule; Third Report and Order<sup>1</sup>**

1. In this Third Report and Order, the Commission deals with some aspects of its recently amended "prime time access rule" (§ 73.658(k) (40 FR 12088) of the Commission's rules) pursuant to a decision of the U.S. Court of Appeals for the Second Circuit, decided April 21, 1975.<sup>2</sup>

2. In summary, this decision contains the following actions and other determinations concerning the points mentioned by the Court:

(a) The rule amendments adopted in January 1975 ("PTAR III") with modifications adopted herein as to Saturday night and feature film, will become effective September 8, 1975, the date contemplated in the January decision.

(b) At least for the first year of the rule (1975-76), there will be no overall "ceiling" on the amount of time which stations under the rule may devote to network or off-network material under the exemption for children's, documentary or public affairs programming (exemption (1) to the rule).

(c) However, at least for the first year, there may be no use of network or off-network material under that exemption on Saturday night; and feature films (movies) also may not be used on Saturday night in "cleared" or "access" time by stations subject to the rule.

(d) Feature films may be shown by stations on an individual basis on other nights of the week without any restriction such as where or when the movie was previously shown, or its origin.

(e) With respect to the last three matters—absence of a ceiling, rules concerning Saturday night, and feature film—the rules adopted herein do not specify any time limit on the duration of the pertinent provisions. However, it should be understood that these are being adopted as appropriate for the first year, 1975-76. The operation of the rule as modified will be closely observed during the year, and if it appears that the public interest would be served thereby, changes will be proposed for the future.

(f) "Public affairs" programs are defined for the purpose of exemption (1) to the rule.

This decision also discusses some other matters mentioned by the Court in its opinion, although not as specifically requiring Commission action.

The January 1975 decision and the Court's opinion. 3. In brief, the Commission's January 1975 decision adopting

<sup>1</sup> We are reopening this Docket in order to deal with matters discussed herein.

<sup>2</sup> National Association of Independent Television Producers and Distributors et al v. FCC, Case Nos. 75-4021 et al, opinion by Gurfein, J. (Slip Opinion).

"PTAR III" (Second Report and Order in Docket 19622, 50 FCC 2d 829) retained the basic concept of an hour of prime time each evening "cleared" of network or off-network programming, for stations in the top 50 markets which are network-owned or affiliated. Six exemptions from this concept for network or off-network programs were adopted. Four of these were codifications of waiver policies which had developed under the rule (concerning network news if preceded by a full hour of local news, sports rundowns, time-zone-difference situations and special network programs using access time as well as network prime time), and one was basically a continuation of an exemption previously in the rule (network coverage of fast-breaking events and political broadcasts). The other exemption—exemption (1)—provides that network or off-network material need not be counted toward the permissible three hours if it is programming designed for children aged two to 12, documentary programs, or public affairs programs. The decision also adopted a new rule as to feature films, providing that they could be shown in cleared or access time without restriction if never shown on a network, and are completely barred from access time (just like other off-network programs) if they formerly were played on a network.

4. The Court generally affirmed the Commission, both as to the basic rule and as to exemption (1), but it remanded the case for consideration and revision of the rules adopted in three respects. First, the Court directed the Commission to develop a definition of "public affairs" programs comparable to those adopted for children's and documentary programs. Second, the Commission was directed to reconsider its statement in the decision that the networks should present programs under exemption (1) on Saturday night only if required by "compelling public interest reasons". The Court viewed this as an improper delegation of the Commission's obligation to determine what is in the public interest, and directed us either to embody the concept in the rule or drop the admonition. Third, the Court held the new feature film provision to be "arbitrary and capricious", and ordered us to reconsider this matter. Finally, remanding the case for these reasons, the Court also directed us to re-determine the date on which the changes should become effective and in conjunction with that, to consider possible ceilings on the total amount of time which could be used for programming under exemption (1).

A. The effective date, the question of a "ceiling", and the Saturday night provisions. 5. These three subjects, which are related insofar as they bear on the operation of the rule during the 1975-76 year, are discussed together. It should be noted that the questions and the following discussion relate only to use of network or off-network material under "Exemption (1)" for network or off-network material falling into certain program categories. The propriety of the other five exemptions to the rule are not at issue.

6. Effective date. We have concluded that the new rule should be put into effect at the date contemplated in the PTAR III decision—September 8, 1975—without any overall ceiling with respect to use of material under Exemption (1), but with an absolute prohibition on its use, or use of feature films on Saturday night. We reach this conclusion essentially for three reasons: (1) the importance of bringing to the public at an early date the public-interest benefits intended by PTAR III, and (2) the limited degree of impact on the availability of access time to non-network sources of new material and the resultant small likelihood of undue harm to producers and distributors of independent programming; and (3) the absolute protection to access programs, especially hour-long programs and local material, on Saturday night, which we are affording by our actions herein. See pars. 21-22 infra.

7. We concluded in our January 1975 decision that the exemption is necessary to facilitate the presentation of important material of certain types (children's programming, documentaries and public affairs) whose showing is inhibited by the rule as it now stands. We concluded that these benefits should be brought to the public at an early date. See Second Report and Order, FCC 75-67, pars. 21, 29-30, 32-33, 38, 41, 46 and 64; 50 FCC 2d 829 at 838, 840-843, 845-848, 852-853. The general principle that the public should have the benefit of a new policy at an early date is especially compelling when the rule at issue has the impact on the public involved here, in that "(it) directly affects what millions of Americans watch on television for an hour every night and, indirectly, may affect all prime time programming." NAITPD v. FCC, 502 F. 2d 249, 257 (C.A. 2, 1974). We adhere to our earlier view; as to specific benefits, see pars. 9, 18 and 19 infra.

8. In view of the limited impact to be expected from the exemption, discussed below, it is not appropriate to deny the public the benefits of the modified rule for a year. We have also considered the possibility of setting an effective date at some intermediate time, such as January or March 1976, and have decided against it. Aside from the fact that we have no information indicating that any such delay to a "mid-season" date would be of much value to independent producers, this would mean the retention of the present rule's inhibition for another year in an important area, that of network children's specials which under PTAR I generally begin only at 8 p.m. As mentioned in the Commission's papers filed in Court in February 1975 in opposition to a Motion for a Stay (p. 20, footnote 9), the period from October through New Year's is the important time for such material, with some 20 having occurred between October 28, 1974 and January 1975, according to TV Guide listings.

9. In our judgment, the early provision of these benefits outweighs whatever disadvantages may result to those private interests which may be affected (independent producers and distributors) to

the extent that these are pertinent to the public interest. The impact from the "PTAR III" changes was designed to be relatively small, for example as compared with those in "PTAR II", and the possible impact is lessened by our action herein completely preserving access time on Saturday night for new non-network material. It appears that the regular 1975-76 network programming during what is presently "access time" will amount to no more than the additional Sunday hour for each network mentioned. While we foresee that there will be some additional network programming on an occasional basis, e.g., specials in the children's and other exempt categories, it is not anticipated that this would occur with great frequency. Pertinent here are marketplace conditions—the fact that the exempt categories include "the less commercially attractive programs." NAITPD v. FCC (1975), Slip Opinion p. 3023. With respect to possible use of off-network programs under "Exemption (1)", it is more difficult to get a reasonable idea of what will occur; but again it does not appear that the impact would be great. (See par. 17, infra).

10. We have taken into account, as suggested by the Court, the "number of independent programs for first-run syndication then available for early production." The evaluation of this subject is of necessity somewhat inexact. It is not easy to predict, from among the many programs offered early in the year (for example at the N.A.T.P.E. convention in February) how many will get enough customers to warrant going into production for the fall, aside from any uncertainties as to the rule. Moreover, it is hard to say, from this standpoint, what should be classified as an "access program", since numerous programs are shown in access time on one or several affiliated top-50-market stations but also in a number of places at other times, on independent stations or in markets outside the top 50.<sup>3</sup>

11. As far as we can determine from the limited inquiry which time permits, there are some 12 to 14 new syndicated regular program series designed primarily for "access period" use, which were in reasonably definite form as of early spring 1975 and which, at least in the absence of the PTAR III changes, might have a good chance of being seen in fall 1975. Three of these (two game shows which are also in daytime network television, and the MCA Don Adams Screen Test program) will definitely be available this

<sup>3</sup> At an earlier stage of the proceeding, ABC presented a tabulation showing that of 58 syndicated programs shown to some extent in prime time in the top 50 markets (on affiliated or independent stations), only 26 were not also shown in some markets in non-prime time, in 7 cases the non-prime showings outnumbering those in prime time. Of 32 programs shown in 70 or more markets in prime time, only 10 did not also have non-prime showings and 7 had 25% or more of their exposure in non-prime time.

fall in any event.<sup>4</sup> One syndicator claims that the success of his new Bobby Vinton variety-show series, will be jeopardized by the changes; but with a contract covering all 5 CBS-owned stations (at least four in access time) and purchase by two of the other multiple-owner stations mentioned, we certainly cannot assume here that this program will not be successful. Space: 1999, a science fiction series and the only one-hour program in the group, also appears to have a good chance of success under the changed rule, with sale in about half of the top 50 markets including 5 of the top 10 (to independent stations in the top 3) according to Television/Radio Age magazine for April 28. At the other end of the scale, one entertainment program (not a game show) is contracted for by one network company for some of its owned stations only for purchase if PTAR I remains in effect.<sup>5</sup> As to the other programs, it is not possible to say with assurance that PTAR I versus PTAR III would or would not be of crucial importance; some might succeed under PTAR III and others might not be successful under PTAR I.<sup>6</sup>

12. It is similarly difficult to evaluate the impact of the rule with respect to programs in access syndication for 1974-75, as to their availability in 1975-76. For the most part, programs tend to succeed or fail according to their audience appeal.<sup>7</sup> Of a total of 24 programs shown in access time in more than three markets in early 1975,<sup>8</sup> eleven were game shows. It appears that three of these definitely will not be in production, and two others (including that mentioned in footnote 5, above) are questionable. As far as we can determine from the available information, all of the five wildlife or "animal" shows will return (including Wild Kingdom and Animal World). With respect to the 8 other programs (drama, variety, etc.) one was not actually in new production this year and we assume

<sup>4</sup> MCA, in a letter to the Commission, has disassociated itself from the letter of syndicator Sandy Frank urging that PTAR III be postponed.

<sup>5</sup> One existing game-show program is under a similar contingent arrangement with the network group.

<sup>6</sup> The other program series include Skiboy (about a young skier training to make the Olympic team, 13 episodes of which have been produced); Wonderful World of Magic (a series made from tapes of many magicians, with a well-known host); Off Ramp 20, a comedy series; and other programs.

<sup>7</sup> As pointed out in the Appendix to our Second Report and Order (FCC 75-67, Appendix C, p. 39), an exhibit of the major film companies shows 48 syndicated programs which have been produced for access time but have not been continued, including Primus, Dr. Kildare, Dusty's Trail and Ozzy's Girls.

<sup>8</sup> The figure of 24 is based on a list derived from ARB Reports for February 1975, which included only half-hour shows run between 7 and 8 Monday-Saturday and 7-7:30 Sunday. We have added the Welk and Hee Haw hour-long programs, and two programs shown in several markets late Sunday evening (Protectors and Evil Touch).

it will not be seen to any substantial extent this fall; there appears to be a question about two others, and five apparently will definitely return. Thus, the number of these programs which will be available this fall appears to range from 16 to 20. Combined with the successful new programs, the total body of material does not appear to be greatly different from what it was last year.

13. We cannot find, in the matters discussed in the last few paragraphs, reason not to put the rule into effect at an early date, in light of our conclusion that the public interest would be served by that course. In view of the small extent of the impact from the PTAR III changes, especially with the new complete protection of the important Saturday night period, claims of serious injury, if the rule goes into effect this year, must be regarded as substantially speculative. Moreover, to a large extent the claims involve losses which would be likely to occur at whatever time the rule goes into effect and the number of protected access periods is thereby somewhat reduced, whether this occurs in fall 1975 or fall 1976. These parties have had notice since mid-November 1974 as to the Commission's intentions, and thus made their commitments with knowledge thereof. As far as equities are concerned, we would also have to consider the situations of the networks (or the producers of their new programs), who have relied on our November notice and January decision, and have committed themselves accordingly.<sup>9</sup> Moreover, access period producers have been on notice, at least since January 1974 when PTAR II was adopted, that the Commission contemplated some reduction in access time. With our decision herein released early in May, and if it receives judicial affirmation soon thereafter, the position of the access producers will be similar to that of the networks after the Mount Mansfield case four years ago, where the interval between the Court's decision and the effective date of the regulation upheld was less than five months (Mount Mansfield Television, Inc. v. FCC 442 F. 2d 470 (2nd Cir., May 3, 1971)).

14. We also mention one other significant reason for putting the rule into effect at an early date—to avoid the need for consideration of individual waiver requests, particularly for individual "off-network" programs. We have long recognized this as a problem, and the Court in its April 21 opinion expressed disapproval of the waiver situation and cautioned us not to use it in the future in connection with determinations as to whether individual programs come

<sup>9</sup> NBC has estimated its losses following the Court reversal of the "PTAR II" decision at approximately \$2.5 million—\$3.4 million for the cost of the additional programs ordered, less some \$900,000 it was able to save in re-run costs when it used the programming this spring.

within the "Exemption (1)" categories.<sup>10</sup>

15. The imposition of an overall ceiling on "Exemption (1)" material. The Court, in connection with its direction for us to redetermine the effective date, stated (Slip Opinion p. 3034): "The Commission should consider, in conjunction with its new effective date, a ceiling on total hours allowed for the exempted network programs in light of the number of independent programs for first-run syndication then available for early production."

16. We have decided not to adopt such a ceiling, at least for the first year, for three reasons: first, it does not appear to be necessary to afford sufficient protection for access time availability to sources of new non-network material; second, at least at this time on the information now before us, we have no basis for intelligent formulation of an appropriate restriction applicable to each and every station subject to the rule; and third, there is an alternative means of affording a substantial degree of protection, that of not permitting the exemption to be used on Saturday night, a highly important time for access-period material.

17. As to the first of these considerations, the facts with respect to proposed network use of the exemption have been set forth in par. 9. With respect to possible use of off-network programs, it is more difficult to get a reasonable idea of what will occur, but it does not appear that the impact will be great. Inquiry of 6 large multiple owners, whose stations include 20 affiliates in the top 10 markets and 10 more in the top 50, discloses no present plans to use any off-network material on a regular basis significantly different from the present usage of off-network material pursuant to Commission waivers.<sup>11</sup> In this regard a Commission staff analysis of a week of fall 1974 access programming in 48 of the 50 affected markets revealed that less than 3.5 percent of the access period (69 half-hours out of a total of more than 2000 half-hours per week in the 48 markets) was used for off-network programs shown pursuant to waivers.

<sup>10</sup> The Court there described the waiver process as representing other than good administrative practice, and stated: "... the Commission has now attempted to state certain categories for permissible intrusion by network programs on access time without recourse to the waiver procedure of the Commission. This codification has the advantage of a more soundly based rule of administrative procedure and a desirable accent on the licensee's freedom to control his own programming." (Slip Opinion, p. 3021)

<sup>11</sup> The six multiple owners include the three networks, Avco Broadcasting Corp., Storer Broadcasting Co. and Westinghouse Broadcasting Co., Inc. The 30 stations are of course not necessarily typical of all stations subject to the rule, for one reason because they are in the larger markets; but for the same reason they are significant as indicating what is to be expected in these important markets. One of the six companies is contemplating the development of a regular children's series for the stations, one element in which would be some off-network children's specials.

18. Concerning the second reason set forth in paragraph 16, the problem with an overall ceiling, which would have to apply to all stations subject to the rule and deal with both network and off-network programming, is its inflexibility. The problem is particularly difficult because, if our objective of getting out of the business of waivers for particular programs is to be achieved, we have to assume that any ceiling would be applied without such waivers. Therefore, we would have to arrive at a figure which would be suitable in all cases, regardless of the particular needs or desires of the station or network, and even though the presentation of material in excess of that figure by a few stations would not have a significant impact on the overall availability of time to non-network sources of new programming.<sup>12</sup> We do not believe it appropriate, at least at this point, in the absence of a stronger showing of necessity, to replace a flexible approach with a ceiling.<sup>13</sup>

19. Another possible approach is a ceiling only on network use of the exemption, since any network use probably means an incursion by a large number of stations into time available for access material. However, again, we believe that a ceiling limited to network programs introduces an unnecessary degree of inflexibility. The networks' plans to use the exemption for regularly scheduled programs are confined to one hour a week on Sunday for each network. We do not regard this as excessive. Moreover, as previously indicated, paragraph 9, we do not wish to foreclose the possibility of network use of the exemption for specials, particularly in view of the fact that the regularly scheduled network programs under the exemption are, as we understand it, designed to fall within only one of the three categories. Programs in the remaining public affairs and documentary categories would appear to be of particular interest to the public during the forthcoming Bicentennial period. Therefore, we do not regard the imposition of such a ceiling as appropriate at this time.

20. *Prohibition against use of Exemption (1) material or feature film on Saturday evenings.* In our January 1975 decision we recognized the importance of Saturday for access material, particularly for local programming presented on many stations that night, and for hour-long access programs, including

<sup>12</sup> The staff's fall 1974 study showed that 61 stations used off-network programs under waiver during access time of which 53 used a half-hour a week and eight used an hour. The additional half-hour a week by eight stations could certainly not be said to have a significant impact on the overall availability of prime time to access material, and thus a restriction to a half-hour a week would mean public deprivation without any substantial public interest benefit.

<sup>13</sup> It is sometimes said that a regulatory "ceiling" of this type tends to become a "floor" as well, so that those subject to the restriction will tend to make the full use of it even if they would not otherwise do so.

the two variety shows carried then on many stations. We cautioned the networks against incursion into it except for "compelling public interest reasons" (50 FCC 2d 843-844). The Court's April 21 decision held that delegating to others our responsibility to determine what is in the public interest was an improper approach. It stated: "We think that for the sake of orderly regulation, the Commission must either withdraw its admonition concerning Saturday programs or make the exempted categories wholly unavailable to licensees in access time on Saturdays." *NAITPD v. FCC* (1975), Slip Opinion p. 3029.

21. Saturday night is a very important period in this respect for the reasons mentioned. Moreover, as some of the letters from the public have pointed out, it is one night of the week when there is less necessity for children's material to be presented early. Since the Court has held our admonition to be an improper approach, we find that the public interest requires that such a restriction be put into the rule. While the admonition to which the Court objected was directed to networks and their scheduling practices, rather than to individual stations in their use of off-network material, the language of the Court quoted above, dictates the extension of the prohibition to off-network material as well as to network programs. Apart from the Court's language, we have concluded that the importance of protecting this period justifies a broad prohibition against the use of any material under Exemption (1) on Saturdays. We realize that this represents a restriction on station practices to some extent (11 off-network programs totaling 8 hours were presented by stations in the 48 markets in fall 1974), but it is our judgment that it is desirable to preserve the largest full-hour opportunity for new material. This restriction is particularly necessary because of the absence of an overall ceiling and in view of the possibility that off-network material now presented on Sunday might otherwise be moved to Saturday as a result of the additional network programs to be made available on Sunday under the exemption.<sup>14</sup>

22. For the same reasons, to afford the high degree of protection required in the public interest, we are also barring stations subject to the rule from using feature films during access time on Saturdays. As noted by the Court and in our earlier decision, the use of feature films overall has not represented a significant incursion into access time so far (only 25 hours in 48 markets as of fall 1974, or about 2.5 percent of access time). However, the frequency has been much greater on weekend nights (17 of the 25 hours on Saturday and Sunday, compared to 8 on the 5 weeknights combined), apparently because of less station emphasis then on early evening news and "strip-

<sup>14</sup> This restriction does not apply to material under the other exemptions to the rule.

ped" material. Accordingly, while we conclude below that overall the use of feature films is not a sufficient threat to warrant any restriction on their use as to other nights, this does not apply to weekend nights. A restriction is therefore required. However, since the networks plan to program under Exemption (1) on Sundays, and there is no purpose in protecting the access market from feature films then when it already faces network competition, we impose the movie restriction on Saturday only. This is necessary to afford an adequate degree of protection to access material, particularly since otherwise movies now shown on Sunday might be shifted to Saturday, thereby increasing the present incursion. As with the matter of a ceiling, this matter will be closely observed during the early months of 1975-76, and changes proposed if they appear appropriate.

B. *Feature films.* 23. The January 1975 PTAR III decision adopted a provision to the effect that a feature film could be used in access time without restriction if it had not been shown on a network and is barred completely from access time, like any other off-network program, if it had been on a network. The Court held this provision to be arbitrary. After discussion, it stated:

There is no reason, therefore, to bar one class of movies and permit another class to be shown. The differential treatment of feature films adopted by the Commission is arbitrary. Accordingly, so long as the F.C.C. permits movies never seen on a television network to be played in cleared access time it must also permit movies which have been shown on network to be played in that time. (*NAITPD v. FCC* (1975), Slip Opinion pp. 3033-3034).

24. The object of any such restriction is to prevent undue incursion into availability of time for access material, and the impact under "PTAR I" has been small.<sup>15</sup> Moreover, while other distinctions might be considered, such as one based on made-for-theatre v. made-for-television (which is synonymous with made-for-network-television) the language quoted above appears to raise some doubt as to whether the Court would uphold such a differentiation. The same doubt may apply also to continuation of the "two-year" distinction now in effect, as a permanent matter.

25. Therefore, we have a choice at this point of a total ban, no restriction at all, or adoption of some rule distinguishing among feature films which would not run afoul of the Court's language concerning arbitrary distinctions. In view of the small impact so far (in 48 markets, a total of 25 hours in fall 1974, divided about equally among Saturdays, Sun-

<sup>15</sup> Under PTAR I, as clarified by a Commission Public Notice issued in November 1972 (FCC 72-1032), pending the outcome of this proceeding, stations subject to the rule have been permitted to use feature films in access time, irrespective of whether or not they were made for or previously shown on a network, provided they had not been shown on a station in the market within the previous two years.

days and weekdays), we conclude that a total ban is out of the question. Neither of the restrictions mentioned in the last paragraph is desirable since—apart from any concern in relation to the Court's expression—they appear to act largely as a restraint on the freedom of stations wishing to present films to choose those which best serve the needs of their audiences. Accordingly, the rule adopted herein contains no restriction on the use of feature films on a syndicated individual-station basis, whether they are made-for-theatre and never shown on a network, made for theatre and previously shown on a network, or made for network television and later available in syndication, except as to Saturday.

26. We have imposed a total restriction on Saturday night because of the necessity to protect the access market. Otherwise, we do not find reason to fear a substantial incursion from a liberalized rule. However, the Commission will observe during the first year the extent to which feature films are used during access time. If experience indicates that there is a need to preserve the prime time access market on other nights from their impact, an appropriate restriction will be considered for adoption.

C. *Definition of "public affairs" for the purpose of Exemption (1).* 27. In considering our Exemption (1) for programs in certain categories, the Court's April 21 opinion approved the definitions of children's and documentary programs, and directed us to adopt a similar definition for "public affairs" programs, which PTAR III does not now contain, either in positive or negative terms.

28. In our logging rules, 47 CFR § 73.670, Note 1, public affairs programs are defined in the following terms:

(d) Public affairs programs (PA) include talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, roundtables, and similar programs primarily concerning local, national, and international public affairs.

While this definition uses the term "public affairs" as part of its own definition, our experience has not indicated that licensees have any difficulty in ascertaining its meaning. In a recent proceeding on a new television renewal form, comments were solicited regarding the continued use of this definition and it appeared to be generally satisfactory. Formulation of Rules and Policies Relating to the Renewal of Broadcast Licenses, 42 FCC 2d 405, 425 (1973). On April 11, 1975, we issued a Notice of Inquiry, FCC 75-375, Docket 20419, which also asks for comments on the possibility of structuring a more precise definition. In the interest of consistency, we hesitate to depart at this time from the definition in our logging rules, and we are adding it to the prime time rule. If, at the conclusion of our inquiry, a new logging definition is adopted, that definition will also apply to Exemption (1) of the Prime Time Access Rule.

D. *Other matters.*—29. *Determinations as to individual programs under the exemption.*—The Court in its recent

decision discussed the application of the Exemption (1) definitions to particular programs, expressing the view that ad hoc decisions by the Commission in this area are not to be desired because they suggest a system of censorship. Therefore, the Court said: "[w]e must leave it to the licensee himself to interpret the program categories in good faith" (Slip Opinion, p. 3027). The Court also said that the Commission should not make its waiver procedure available for making such determinations.

30. Accordingly, interpretations as to whether or not a particular proposed network or off-network program comes within the exemption are matters for the determination of networks and licensees of stations subject to the rule. We expect such determinations to be made in good faith, bearing in mind the fundamental objectives not only of the exemption but of the prime time access rule.

31. *Fictional material under the children's exemption category.* In footnote 22 of the Court's decision (Slip Opinion, p. 3026), the view was expressed that the Commission may intend to imply that fictional material is excluded from children's programming under Exemption (1). No such implication was intended. While our Second Report and Order emphasized educational and informational material for children (50 FCC 2d at 842, par. 31), we intended to make it clear that the exemption should by no means be so limited. Certainly, fictional material is a highly important part of material designed for young children.

32. In view of the foregoing, it is ordered, That:

(1) Effective September 8, 1975, § 73.658(k) of the Commission's rules, the prime time access rule, is amended, to read in its entirety as set forth below. Authority for the rule changes herein is contained in §§ 1, 2, 4(d), 301, 303 (b), (f), (g), (i) and (r), and 313 of the Communications Act of 1934, as amended.

(2) This proceeding, Docket 19622, is terminated.

(Secs. 1, 2, 4, 301, 303, 48 Stat., as amended, 1064, 1064, 1066, 1081, 1082; 47 U.S.C. 151, 152, 154, 301, 303)

Adopted: May 13, 1975.

Released: May 14, 1975.

FEDERAL COMMUNICATIONS COMMISSION<sup>1</sup>,

VINCENT J. MULLINS,  
Secretary.

Effective September 8, 1975, § 73.658 (k) of the Commission's rules, the prime time access rule, is revised to read as follows:

§ 73.658 Affiliation agreements and network program practices.

(k) Effective September 8, 1975, commercial television stations owned by or affiliated with a national television net-

<sup>1</sup> Statements of Commissioners Reid and Robinson filed as part of the original.

## RULES AND REGULATIONS

work in the 50 largest television markets (see Note 1 to this paragraph) shall devote, during the four hours of prime time (7-11 p.m. e.t. and p.t., 6-10 p.m. c.t. and m.t.), no more than three hours to the presentation of programs from a national network, programs formerly on a national network (off-network programs) other than feature films, or, on Saturdays, feature films; *provided, however*, That the following categories of programs need not be counted toward the three-hour limitation:

(1) On nights other than Saturdays, network or off-network programs designed for children, public affairs programs or documentary programs (see Note 2 to this paragraph for definitions).

(2) Special news programs dealing with fast-breaking news events, on-the-spot coverage of news events or other material related to such coverage, and political broadcasts by or on behalf of legally qualified candidates for public office.

(3) Regular network news broadcasts up to a half hour, when immediately adjacent to a full hour of continuous locally produced news or locally produced public affairs programming.

(4) Runovers of live network broadcasts of sporting events, where the event has been reasonably scheduled to conclude before prime time or occupy only a certain amount of prime time, but the event has gone beyond its expected duration due to circumstances not reasonably foreseeable by the networks or under their control. This exemption does not apply to post-game material.

(5) In the case of stations in the Mountain and Pacific time zones, on evenings when network prime-time programming consists of a sports event or other program broadcast live and simultaneously throughout the contiguous 48 states, such stations may assume that the network's schedule that evening occupies no more of prime time in these time zones than it does in the Eastern and Central time zones.

(6) Network broadcasts of an international sports event (such as the Olympic Games), New Year's Day college football games, or any other network programming of a special nature other than motion pictures or other sports events, when the network devotes all of its time on the same evening to the same programming, except brief incidental fill material.

NOTE 1. The top 50 markets to which this paragraph applies are the 50 largest markets in terms of prime time audience for all stations in the market, as listed each year in the Arbitron publication Television Market Analysis. This publication is currently issued each November, and shortly thereafter the Commission will issue a list of markets to which the rule will apply for the year starting the following September.

NOTE 2. As used in this paragraph, the term "programs designed for children" means programs primarily designed for children aged 2 through 12. The term "documentary programs" means programs which are non-fictional and educational or informational, but not including programs where the information is used as part of a contest among participants in the program, and not including programs relating to the visual entertainment arts (stage, motion pictures or television) where more than 50% of the program is devoted to the presentation of entertainment material itself. The term "public affairs programs" means talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, roundtables, and similar programs primarily concerning local, national, and international public affairs.

## MAMMOTH CAVE NATIONAL PARK, KY.

## Cave Entry

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3), the Act of May 25, 1926 (44 Stat. 635 as amended; 16 U.S.C. 404), the Act of June 5, 1942 (56 Stat. 317, as amended; 16 U.S.C. 404c-3), and pursuant to the delegations contained in 245 DM 1 (34 FR 13879), as amended, and Regional Director, Southeast Region Order No. 5 (37 FR 7721), it is proposed to amend § 7.36 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of this amendment is to establish restrictions on visitor activities and behavior within the caves open to the public within the park. This has become necessary to prevent persons from leaving organized cave tours, to provide for the safety of these persons and to protect the resources of the caves.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Superintendent, Mammoth Cave National Park, Mammoth Cave, Kentucky 42259, on or before June 26, 1975.

Paragraph (b) (2) and (3) of § 7.36 is revised to read as follows:

§ 7.36 Mammoth Cave National Park.

(b) \* \* \*

(2) Persons on guided cave tours must stay on the established designated trails and remain with the guides and tour group at all times. Exploration of side passages, going ahead of the lead guide and tour group or dropping behind the following guide or tour group is prohibited. All persons shall observe and abide by the officially posted signs, printed information and/or verbal instructions given concerning these restrictions.

(3) Persons on "self-guided" or "semi-guided" cave tours must stay on the established, designated trails at all times. Exploration of side passages or taking alternate routes is prohibited. All persons shall observe and abide by the officially posted signs, printed information

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

and/or verbal instructions given concerning these restrictions.

## VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

## Proposed Requirements

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that it is proposed to amend certain of the regulations relating to viruses, serums, toxins, and analogous products in Part 112 of Title 9, Code of Federal Regulations issued pursuant to the provisions of the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151-158).

Recommendations on labels of vaccines used for the prevention of feline panleukopenia are not consistent for all licensees. This has led to confusion and uncertainty among users particularly where products from more than one licensee are being used.

These amendments to the label requirements for these vaccines will correct this inconsistency.

The Department proposes that label changes necessitated by these amendments should be made by all licensees at their next printing of labels to which these changes would apply following the effective date of these proposed amendments, but in all cases not later than January 1, 1976.

This will allow a reasonable time to use any existing supply of labels, and compliance with these amendments will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date thereof.

Section 112.7 is amended by adding a new paragraph (j) to read:

§ 112.7 Special additional requirements.

(j) Unless otherwise authorized in an approved Outline of Production, all but very small final container labels for Feline Panleukopenia Vaccines shall contain the following recommendations for use:

(1) *Killed virus vaccines.* Vaccinate kittens at 9 to 10 weeks of age and repeat the dose in 4 weeks. Annual revaccination with a single dose is recommended.

(2) *Modified live virus vaccines.* Vaccinate kittens at 9 to 10 weeks of age and repeat the dose in 4 weeks, except that a single dose is sufficient if kittens are 12 weeks of age or older when vaccinated. Annual revaccination with a single dose is recommended. Do not vaccinate pregnant cats.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before June 26, 1975, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business.

(7 CFR 1.27(b))

Done at Washington, D.C., this 20th day of May, 1975.

PIERRE A. CHALOUX,  
Acting Deputy Administrator

[ 21 CFR Part 130 ]

ADMINISTRATIVE REVIEW OF DECISIONS  
ON PROBABLY AND POSSIBLY EFFECTIVE  
INDICATIONS FOR DRUGS

## Withdrawal of Proposed Rulemaking

The purpose of this notice is to withdraw the proposed addition of § 130.—*Administrative review of decisions on probably and possibly effective indications for drugs*, published in the FEDERAL REGISTER of February 18, 1971 (36 FR 3127), to the new drug regulations in 21 CFR Part 130. (The provisions of Part 130 were recodified and transferred to Parts 310, 312, 314, and 330 by an order published in the FEDERAL REGISTER of March 29, 1974 (39 FR 11680).)

The comments received on this proposal were generally favorable toward

## PROPOSED RULES

establishing such a review procedure, but suggested a number of revisions in the proposal.

In the interim, the DESI review has been affected by the court order in *APHA v. Veneman*, 349 F. Supp. 1311 (D.D.C. 1972), as set out in the notice published in the *FEDERAL REGISTER* of December 14, 1972 (37 FR 26623), the enactment of the Federal Advisory Committee Act (5 U.S.C. App. I), the expansion of Food and Drug Administration standing advisory committees, the four Supreme Court decisions interpreting the Drug Amendments of 1962 (*Weinberger v. Hynson, Westcott & Dunning Inc.*, 412 U.S. 609 (1973); *CIBA Corp. v. Weinberger*, 412 U.S. 640 (1973); *Weinberger v. Bentex Pharmaceuticals, Inc.*, 412 U.S. 645 (1973); and *USV Pharmaceutical Corp. v. Weinberger*, 412 U.S. 665 (1973)), and the review of the regulations relating to hearings on withdrawal of a new drug application published in the *FEDERAL REGISTER* of March 13, 1974 (39 FR 9750). Published elsewhere in this issue of the *FEDERAL REGISTER* are procedural regulations that include provisions relating to internal review of agency decisions and the use of advisory committees, which are applicable to the DESI project as well as to all other administrative actions under the laws administered by the Commissioner.

Accordingly, the Commissioner concludes that the proposal published in the *FEDERAL REGISTER* of February 18, 1971 (36 FR 3127) is now superseded, and is hereby withdrawn.

This withdrawal is issued under authority of the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701(a), 52 Stat. 1052-1053, as amended, 1055 (21 U.S.C. 355, 371(a))) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: May 20, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

DEPARTMENT OF  
TRANSPORTATION

Hazardous Materials Regulations Board  
[49 CFR Part 171]

[Docket No. HM-22; Notice No. 75-6]

## MATTER INCORPORATED BY REFERENCE

## Notice of Proposed Rule Making

The Hazardous Materials Regulations Board of the Department of Transportation is considering amending § 171.7(d) (1) of the Hazardous Materials Regulations to update the reference to the addenda to sections VIII (Division I) and IX of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code.

The Compressed Gas Association, Inc., has petitioned the Board to effect this change.

In consideration of the foregoing, it is proposed to revise § 171.7(d) (1) to read as follows:

## § 171.7 Matter incorporated by reference.

(d) . . . . .  
(1) ASME Code means sections VIII (Division I) and IX of the 1974 edition of the "American Society of Mechanical Engineers Boiler and Pressure Vessel Code," and addenda thereto through December 31, 1974.

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, Washington, D.C. 20590. Communications received on or before July 1, 1975 will be considered before final action is taken on this proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, Room 6215 Trans Point Building, Second and V Streets SW., Washington, D.C. both before and after the closing date for comments.

(18 U.S.C. 831-835; sec. 6, Pub. L. 89-670, 80 Stat. 937 (49 U.S.C. 1655); Title VI, sec. 902(h), Pub. L. 85-726 (49 U.S.C. 14-1431, 1472(h)))

Issued in Washington, D.C. on May 21, 1975.

W. J. BURNS,  
Director.

Office of Hazardous Materials.

## CIVIL SERVICE COMMISSION

[5 CFR Parts 293, 297]

## PROTECTION OF PRIVACY IN PERSONNEL RECORDS

## Notice of Proposed Rulemaking

The Civil Service Commission proposes to amend 5 CFR Part 293 by adding a subpart A and by establishing a new Part 297 which implement provisions of the Privacy Act of 1974 (Pub. L. 93-579). Part 293, Subpart A is a new subpart that establishes basic policies for the establishment and maintenance of personnel record systems, including safeguarding personnel information in manual and automated records systems. Part 297, subpart A is a new part that establishes procedures for protection of individual privacy in personnel records, including specific requirements regarding the collection of personal information about individuals, individual access to and amendment of personnel records, and the disclosure of information from personnel records.

Any person interested in the amendments herein may participate in this proposed rulemaking by submitting written data, views, or arguments on the proposed amendments, to the Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415 on or before June 27, 1975.

1. Part 293 of Title 5, Code of Federal Regulations, is proposed to be amended

by establishing a new subpart A as follows:

## PART 293—PERSONNEL RECORDS AND FILES

## Subpart A—Basic Policies on Maintenance of Personnel Records and Files

- Sec.  
293.101 Purpose.  
293.102 General policy.  
293.103 Publication of annual notices.  
293.104 New uses of information.  
293.105 Reports concerning changes to systems.  
293.106 Use of Social Security Account Number in personnel systems. [Reserved]  
293.107 Rules of conduct.  
293.108 Safeguarding personnel information in manual record systems.  
293.109 Safeguarding personnel data in automated record systems.  
293.110 Accounting of the disclosure of personnel records.  
293.111 Annual report.

AUTHORITY: (5 U.S.C. 552a); 3 CFR, 1954-1958 Comp., p. 205.

## Subpart A—Basic Policies on Maintenance of Personnel Records and Files

## § 293.101 Purpose.

(a) The purpose of this part is to set forth the basic policies of the Commission governing the establishment and maintenance of personnel records and files within the Federal Government. Records covered by this part are those prescribed by the Commission and maintained by Federal agencies and those maintained by the Commission including those in which other agencies participate through temporary custody of record information. This part applies to each executive department and independent establishment of the Federal Government, including (1) each corporation wholly owned or controlled by the United States, and (2) with respect to positions subject to Civil Service rules and regulations, the legislative and judicial branches of the Federal Government and the Government of the District of Columbia.

(b) In this part:

(1) "Record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including but not limited to education, financial transactions, medical history, and criminal or employment history and that contains a name, or an identifying number, symbol, or other identifying particular assigned to an individual, such as a finger or voice print or photograph;

(2) "System of records" means a group of any records under the control of any agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to an individual;

(3) "Routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected; and

(4) "Personnel Record" means any personal information maintained in a system of records as defined in paragraph (b) (1) of this section that is

needed for personnel management programs or processes such as staffing, employee development, retirement, and grievances and appeals.

## § 293.102 General policy.

The responsibility for effective personnel management administration assigned by laws and Executive Orders to the Commission and to agencies requires the gathering and use of personal information about individuals. The Commission accepts its responsibility to protect the privacy of individuals, involved in any phase of the personnel management processes of the Government. Agencies are to ensure that all personnel records, including those maintained for the Commission, are maintained in such a way that the privacy of all individuals concerned is protected.

## § 293.103 Publication of annual notices.

(a) A notice of the existence of personnel records meeting the definition of a system of records as defined in this part shall be published annually in the format prescribed by the General Services Administration in the *FEDERAL REGISTER*, including:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and the purposes of such use;

(5) The policies and practices of the agency regarding storage, retrievability, access controls, retention, and disposal of the records;

(6) The title and business address of the agency official who is responsible for the system of records;

(7) The agency procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him;

(8) The agency procedures whereby an individual can be notified how access can be gained to any record pertaining to that individual contained in the system of records, and the procedure for correction or contesting of its content; and

(9) The categories of sources of records in the system.

(b) All systems of personnel records that are maintained by an agency are subject to the annual public notice requirement. The Civil Service Commission will assume responsibility for publishing annually in the *FEDERAL REGISTER* a notice of all systems of personnel records. This notice will include personnel records systems that the Commission:

(1) Maintains as an agency;

(2) Specifically requires agencies to maintain;

(3) Authorizes agencies to maintain; and

(4) By implication in the Federal Personnel Manual, places a recordkeeping requirement on agencies.

## PROPOSED RULES

Agencies are responsible for publishing annually in the *FEDERAL REGISTER* a notice of systems of personnel records that they maintain in addition to those cited above.

## § 293.104 New uses of information.

(a) At least 30 days prior to publication of information under § 293.103, agencies shall publish in the *FEDERAL REGISTER* a notice of their intention to establish a new routine use for a system of records. This will give the public an opportunity to comment on such use. This notice must contain:

(1) The name of the system of records for which the routine use is to be established;

(2) The authority for the system;

(3) The purpose for which the record is to be maintained;

(4) The proposed routine use(s);

(5) The purpose of the routine use(s); and

(6) The categories of recipients for each.

(b) Agencies shall publish advance routine uses for all systems for which they publish annual notices. Requests for additions to routine uses for systems for which the Commission publishes the annual notices may be sent to:

Director, Bureau of Manpower Information Systems  
U.S. Civil Service Commission  
1900 E Street, NW  
Washington, D.C. 20415.

## § 293.105 Reports concerning changes to systems.

(a) Agencies shall provide to Congress, the Office of Management and Budget, and the Privacy Protection Study Commission advance notice of any proposal to establish or alter any system of personnel records. This report will be submitted in accordance with guidelines from the Office of Management and Budget.

## § 293.106 Use of the Social Security Account Number in personnel systems. [Reserved]

## § 293.107 Rules of conduct.

It is the responsibility of the head of each agency to assure that persons involved in the design, development, operation, or maintenance of any system of personnel records are informed of all requirements to protect the privacy of the individuals who are subjects of the records. Employees should be informed of all the implications of their actions in this area, including especially:

(a) That there are criminal penalties under 5 U.S.C. section 552a for knowingly and willfully disclosing a record about an individual without the written consent or the written request of that individual or unless disclosure is for one of the reasons listed under section 297.108 of this chapter; and

(b) That the agency may be subject to civil suit due to failure to comply with the provisions of §§ 297.111 and 297.112 of this chapter.

## § 293.108 Safeguarding personnel information in manual personnel record systems.

(a) Each agency shall establish administrative and physical controls to protect personal information in personnel records from unauthorized access or disclosure. Each agency shall designate an official who shall be responsible for providing protection and accountability for such records at all times and insuring that personnel records are secured in appropriate containers whenever they are not in use or under direct control of authorized persons. Personnel records may be used, held, or stored only where facilities or conditions are adequate to prevent unauthorized access. Whenever personnel records are not under the personal control of an authorized person, they must be stored in a metal filing cabinet having a built-in, three-position, dial-type combination lock; or a metal filing cabinet equipped with a steel lock bar, provided it is secured by a GSA-approved changeable combination padlock; or in lockable metal filing cabinets in a secured room. Alternative storage systems may be employed provided they furnish an equivalent or greater degree of physical security than the cited methods.

(b) Access to and use of personnel records shall be permitted only by persons whose official duties require such access or, pursuant to § 297.111 of this chapter, to a person to whom the personnel record pertains or his or her designated personal representative. Access to areas where personnel records are stored will be limited to only those persons whose official duties require work in such areas. Proper control of personnel records shall be maintained at all times, including an accounting of their removal from the storage area.

(c) Each agency shall assure that all persons whose official duties require access to and use of personnel records are adequately trained to protect the security and privacy of personnel records.

(d) The disposal and destruction of personnel records shall be in accordance with General Schedule 1 promulgated by the General Services Administration.

## § 293.109 Safeguarding personnel records in automated personnel record systems.

(a) Each agency shall establish administrative, technical, physical, and security safeguards to prevent unauthorized disclosure or destruction of identifiable personnel data in automated systems of records. These safeguards shall apply to all automated systems in which identifiable personnel data are processed, including all reports and outputs from those systems which contain identifiable personal information. The safeguards must be sufficient to prevent careless, accidental, or unintentional disclosure, modification, or destruction of identifiable personnel data as well as minimizing the risk that skilled technicians or knowl-

## PROPOSED RULES

edgeable persons could improperly obtain access to, modify, or destroy identifiable personnel data; and casual entry by unskilled persons who have no official reason for access to such data. Each agency shall designate an official where automated identifiable personnel data are processed, stored, or maintained who shall be responsible for the protection and accountability of all personnel data in automated systems, including input and output documents, punched cards, and magnetic tape disk or records.

(b) Identifiable personnel information may be processed, stored, or maintained by automated data systems only where facilities or conditions are adequate to prevent unauthorized access to identifiable personnel data in any form. Whenever identifiable personnel data, including input and output documents, punched cards, and magnetic tapes or disk are not under the personal control of an authorized person, such information must be stored in a metal filing cabinet having a built-in, three-position, dial-type combination lock; or a metal filing cabinet equipped with a steel lock bar, provided it is secured by a GSA-approved changeable combination padlock; or in adequate containers in a secured room. These are minimum requirements; however, more stringent physical security controls may be employed.

(c) Access to and use of identifiable personnel data associated with automated data systems shall be limited to those persons whose official duties require such access. Proper control of identifiable personnel data, in any form, associated with automated data systems shall be maintained at all times, including maintenance of accountability records showing disposition of input and output documents.

(d) Each agency shall assure that all persons whose official duties require access to, processing, and maintenance of identifiable personnel data in automated data systems are adequately trained in the security and privacy of personnel data.

(e) The disposal and disposition of identifiable personnel data in automated systems shall be by shredding, burning, or, in the case of magnetic tapes or disk, degaussing.

#### § 293.110 Accounting of the disclosures of personnel records.

(a) All disclosures of records covered by this section shall be accounted for by keeping a written record of the following information: the date, nature, and purpose of each disclosure of a record to any person or to another agency unless made pursuant to paragraph (a), (b), or (c) of § 297.108 of this chapter. In addition, the name and address of the person to whom the disclosure is made shall be recorded.

(b) The accounting of disclosures may be recorded in any system an agency determines is sufficient for this purpose. The agency must be able to construct from its system a listing of all disclosures. The accounting should provide a cross-

reference to the justification or basis upon which the release was made, including any written documentation required when records are released for statistical or law enforcement purposes.

(c) For purposes of this part, the system of accounting of disclosures is not a system of records under the definition in § 293.101(b) of this part and no accounting need be maintained for disclosure of the accounting of disclosures.

#### § 293.111 Annual report.

By April 30th of each year, agencies will submit to the Office of Management and Budget a report covering activities under the Privacy Act of 1974 as they relate to personnel records. Agencies shall follow the instructions issued by the Office of Management and Budget for submitting the report.

2. Title 5, Code of Federal Regulations, is also amended by establishing a new Part 297, Subpart A as follows:

### PART 297—PROTECTION OF PRIVACY IN PERSONNEL RECORDS

#### Subpart A—Records Maintained on Individuals

Sec.	Purpose.
297.101	Content of records systems.
297.102	Collection of personal information from individual concerned.
297.103	Uses of information.
297.104	Standards of accuracy.
297.105	Restriction on maintenance of certain records.
297.106	Routine uses of personnel records.
297.107	Written consent for disclosure.
297.108	Notification of disclosure under compulsory legal process.
297.109	Notification to prior recipients of corrected or disputed records.
297.110	Access to personnel records.
297.111	Requests to amend records and disputes thereto.
297.112	Disclosure of disputed information.
297.113	Publication of rules and procedures.
297.114	Fees.
297.115	Exemptions.

AUTHORITY: (5 U.S.C. 552a); sec. 4, E.O. 10561; 3 CFR 1964-1958 Comp., p. 205.

#### Subpart A—Records Maintained on Individuals

##### § 297.101 Purpose.

This part sets forth the basic policies of the Commission regarding the protection of individual privacy in personnel administration. It covers systems of records prescribed by the Commission, and applies to each executive department and independent establishment of the Federal Government, including (a) each corporation wholly owned or controlled by the United States, and (b) with respect to positions subject to Civil Service rules and regulations, the legislative and judicial branches of the Federal Government and the Government of the District of Columbia.

##### § 297.102 Content of records systems.

Agencies shall maintain in personnel records systems only information about an individual that is relevant to accomplish the personnel administration purposes of the agency required by statute or Executive Order. Agencies shall identify

the specific provision in law which authorizes them to maintain or propose to maintain information in a system of personnel records. Authority to maintain a system of records does not give the agency the authority to maintain any information it deems useful. Agencies should test each item in a system to ensure that it is both relevant and necessary. The Commission shall identify in Chapter 297 of the Federal Personnel Manual those statutes, Executive Orders, or other authority which authorizes agencies to maintain personal information in systems of personnel records. All other items of information recorded in personnel systems shall be similarly identified in an internal publication by the agency.

##### § 297.103 Collection of personal information from individual concerned.

Any information used in whole or in part in making a determination about an individual's rights, benefits, or privileges under Federal personnel programs should, to the extent practicable, be collected directly from the subject individual. Agencies should use information from the individual, such as that provided by the individual in the application for employment, unless: (a) The nature of the information is such that it can only be obtained from a third party; (b) the cost of collecting the information from the individual is unreasonable when compared with the cost of collecting it from a third party; (c) there is no risk that information collected from third parties, if inaccurate, could result in an adverse determination to the individual concerned; (d) the information supplied by an individual must be verified by a third party; or (e) provisions are made to verify with the subject individual information collected from a third party.

##### § 297.104 Uses of information.

Agencies shall ensure that individuals from whom information is collected about themselves are informed of the reasons for requesting the information, how it may be used, and what the consequences are, if any, of not providing the information. As a minimum, the individual should be given the following information in language which is explicit and easily understood and not so lengthy as to deter an individual from reading it:

(a) Cite the specific provisions of the statute or Executive Order, including a brief title or subject, which authorizes the agency to collect the personal information it is requesting. Inform the individual whether or not a response is mandatory or voluntary and the possible consequences for failing to respond. When possible, agencies should avoid including required and optional information on the same form.

(b) Cite the general purposes for which the information will be used including all purposes for which the record will be used by the agency which maintains it. Purposes should be stated specifically, but not in such detail that the individual is discouraged from reading it.

(c) Cite the specific routine uses for which the information will be employed. This may be a summary of the information published in the public notice under § 297.107.

(d) Cite the effects on the individual, if any, of not providing any or all of the information requested.

##### § 297.105 Standards of accuracy.

To minimize the risk that an agency will make an unwarranted adverse personnel determination about an individual or disseminate inaccurate information about an individual, all personnel records which are used in making any such determination shall be maintained with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination. Agencies must provide, at the employee's initiative and by public notice, to employees an opportunity, at least annually, to review automated and manual personnel records that are maintained concerning the employee and that have the potential of being used in making a determination about the individual or being inaccurately disclosed under routine uses outside the agency.

##### § 297.106 Restriction on maintenance of certain records.

Personnel records describing how individuals exercise rights guaranteed by the First Amendment are prohibited unless specifically authorized by statute, or by the individual concerned, or unless pertinent to and within the scope of an authorized law enforcement activity. The exercise of these rights includes, but is not limited to, religious and political beliefs, freedom of speech and the press, and freedom of assembly and to petition.

##### § 297.107 Routine uses of personnel records.

(a) The Commission will publish annually in the Federal Register a notice of the routine uses of systems of personnel records maintained or controlled by the Commission. This notice will include, but is not limited to, those indicated in chapter 293 of the Federal Personnel Manual that meet the definition of a "system of records" as defined in § 293.101(b) of this chapter. This notice will also include all the proper and necessary uses of these systems of records.

(b) Agencies are responsible for establishing and publishing annually in the Federal Register routine uses for all systems of personnel records that they maintain in addition to those cited in § 293.103(b) of this chapter.

##### § 297.108 Written consent for disclosure.

An agency may not disclose any personal information from personnel records to any person or to another agency unless they have or acquire the express written consent of the individual to whom the record pertains. Written consent is not required if the disclosure is:

(a) To officers or employees of the agency that maintains the record who have a need for the information in the official performance of their duties;

## PROPOSED RULES

22845

(b) To transmit the personnel records to another personnel office in a different agency as a result of a transfer or potential transfer of the individual to whom the personnel records pertain.

(c) Required under the provisions of the Freedom of Information Act;

(d) For a routine use as published in the annual notice in the Federal Register;

(e) To the Bureau of the Census for uses pursuant to Title 13;

(f) To a recipient who has provided the agency with advance adequate assurance that the record will be used solely as a statistical research or reporting record and the record is to be transferred in a form that is not individually identifiable. The written statement should include as a minimum:

(1) A statement of the purpose for requesting the records; and

(2) Certification that the records will be used only for statistical purposes.

These written statements should be maintained as agency records under § 293.110 of this chapter. In addition to stripping personally identifying information from records released for statistical purposes, agencies shall ensure that the identity of the individual cannot reasonably be deduced by combining various statistical records.

(g) to the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for the evaluation by the Administrator of General Services or his designee to determine whether the record has such value;

(h) to another agency or unit of local, State, or Federal Government on receipt of an individual written request describing the law enforcement purpose for which the record is required and specifying which record is required. A record may be disclosed to a law enforcement agency at the initiative of the agency which maintains the record when criminal conduct is suspected, provided that such disclosure has been established as a routine use under § 297.104, or when the instance of misconduct is directly related to the purpose for which the record is maintained;

(i) to a person showing compelling circumstances affecting the health and safety of an individual (not necessarily the individual to whom the record pertains). Upon such disclosure, a notification of such must be sent to the last known address of the individual;

(j) to either House of Congress or to a subcommittee or committee (joint or of either House) to the extent that the subject matter falls within their jurisdiction;

(k) to the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(l) pursuant to the order of a court of competent jurisdiction.

##### § 297.109 Notification of disclosure under compulsory legal process.

If a record is disclosed under a compulsory legal process under § 297.108(h)

or (l) and the issuance of the order or subpoena is made public by the court which issued it, the agency must make a reasonable effort to notify the individual to whom the record pertains. A notice should be sent to the individual's last known address according to the agency's files.

##### § 297.110 Notification to prior recipients of corrected or disputed records.

If any correction or notation of dispute is made about a personnel record under § 297.112, the agency maintaining the record must notify each person or agency who received that portion of the record of the exact nature of the correction or that a dispute of the record has been made. Agencies who are recipients of such information must, in turn, furnish the correction to those to whom they disclosed that portion of the record. This requirement applies only in those instances where a record of disclosure has been made. Therefore, it does not apply to disclosures made internally to agency personnel in the performance of their official duties, under the Freedom of Information Act, or prior to September 27, 1975.

##### § 297.111 Access to personnel records.

(a) Upon request, personnel records of an employee or former employee shall be disclosed to the individual to whom the record pertains and under whose individual name and/or identifier they are filed. A person of his or her own choosing may accompany the individual when the record is disclosed, or the record may be released to the individual's representative who has the notarized written consent of the employee or former employee or the notarized written consent of the person who has the right under § 294.109 of this chapter. Any disclosure of original records must be made in the presence of a representative of the agency having physical custody of the records. Before disclosure, the following procedures shall apply:

(1) The medical records shall be disclosed to the individual to whom it pertains unless, in the judgment of the agency, access to such record could have an adverse effect upon such individual. When the agency, in consultation with a medical doctor, determines that the disclosure of medical information could have an adverse effect upon the individual to whom it pertains, the agency may transmit such information to a medical doctor named by the requesting individual.

(2) Test material and copies of certificates and other lists of eligibles the disclosure of which is prescribed by § 294.501 of this chapter shall be removed from the records.

(3) Investigative reports shall be disclosed to the individual to whom they pertain as prescribed by § 294.601 of this chapter.

(b) Individuals will not be charged a fee for the first copy of any records pertaining to that individual. The individual may not be charged for search or review or for copies if they are a necessary part

of the process of making the record available for review.

(c) Agencies shall require reasonable identification of individuals to assure that records are disclosed to the proper person. Identification requirements should be consistent with the nature of the records being disclosed.

(1) Disclosure of personnel records to the employee or former employee in person requires that the individual show an identification card; employee identification, annuitant identification, medicare cards, or driver's licenses are examples of acceptable identification. For records disclosed in person or by mail, agencies may require whatever identifying information is needed to locate the record (name, social security number, date of birth, etc.). A comparison of the signatures of the requestor and those in the record will be used to determine identity. If the agency official who has responsibility for the release of the record determines that the data in the record is so sensitive that unauthorized access could cause harm or embarrassment to the individual or former employee, a signed notarized statement may be required when the record is requested by mail.

(2) If an individual can provide no suitable documents for identification, the agency may require a signed statement asserting identity and stipulating that the individual understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine of up to \$5,000.

(3) Agencies may require an employee or former employee who wishes to be accompanied by another person when reviewing his or her records to furnish a written statement authorizing discussion of his or her records in the presence of the accompanying person.

(4) The requirements of this section do not entitle an individual the right to access to any information compiled in reasonable anticipation of a civil action or proceeding.

#### § 297.112 Requests to amend records and disputes thereto.

(a) Agencies shall allow individuals to request amendment of their personnel records to the extent that such amendment does not violate existing statute, regulation, or administrative procedure. Requests to amend personnel records of active employees should be submitted, in writing, to the Director of Personnel of the agency who has the authority to maintain the records. Requests to amend personnel records of former Federal employees that are located in Federal records centers should be submitted to: Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, 1900 E Street, NW., Washington, D.C. 20415. Such requests should contain, as a minimum, identifying information needed to locate the record, a brief description of the item or items of information to be amended, and the reason for the requested change. Agencies may also require verification of identity consistent with § 297.111(c).

(b) Agencies will provide a written acknowledgement of the receipt of a request to amend a record to the individual within ten days excluding Saturdays, Sundays, and legal public holidays) to the individual who requested the amendment. Such an acknowledgement may, if necessary, request any additional information needed to make a determination. No acknowledgement is required if the request can be reviewed, processed, and the individual notified of compliance or denial within the ten-day period.

(c) Agencies will promptly take one of the following actions on requests to amend records:

(1) In accordance with existing statute, regulation, or administrative procedure, make any correction of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(2) Inform the individual of its refusal to amend the record in accordance with his or her request, the reason for the refusal, and the procedures established by the agency or the Commission for the individual to request a review of the refusal by:

(i) The head of the agency or an officer designated by the head of the agency and the name and business address of that official if the record is maintained in addition to those cited in § 293.103(b) of this chapter; or

(ii) The Director, Bureau of Manpower Information Systems, U.S. Civil Service Commission, Washington, D.C. 20415, if the request involves one of the record systems cited in § 293.103(b) of this chapter.

(3) Refer the request to the agency that has control and maintains the record in those instances where the record requested remains the property of the controlling agency.

(d) Agencies shall use the following standards in reviewing records:
